Consumers Council of Canada (CCC) INTERROGATORY #8 List 2

Interrogatory

Ref: A/T13/S1/p. 24

Issue Number 1.4
Issue: Is Hydro One's proposal to establish a revenue requirement beyond the 2007 and 2008 test years appropriate?

Please explain why it is appropriate to apply the ROE formula for the years 2009 and 2010 in addition to a formula to recast the revenue requirement in each year. Why doesn't this represent double counting?

Response

Please see Hydro One's response to J.1.100.
