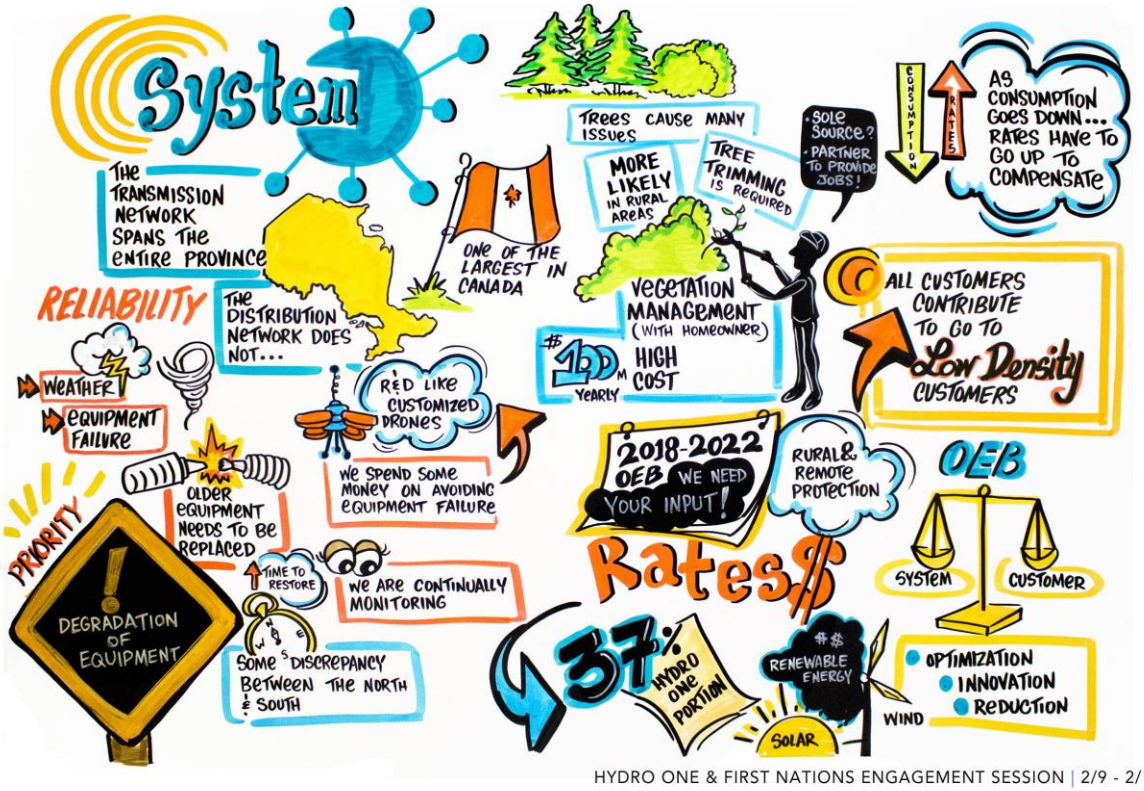
CONSUMPTION HIGH DELIVERY HIGH
GLOBAL ADJUSTMENT
POS EXEMPTION (OFF AND ON Reserve)
DISTRIBUTION CHARGE
TRANSMISSION LINES ON OUR LAND
SHOULD BE BRINGING IN REVENUE BUT ISN'T...
We NEED TO WORK TOGETHER TO RESOLVE WITH DECISION MAKERS



System
The transmission network spans the entire province
The distribution network does not...
One of the largest in Canada
Trees cause many issues
More likely in rural areas
Tree trimming is required
Sole source? Partner to provide jobs!
Consumption
Rates
As consumption goes down... rates have to go up to compensate
Reliability
Weather
Equipment failure
Priority
Degradation of equipment
Red like customized drones
We spend some money on avoiding equipment failure
Older equipment needs to be replaced
Time to restore
We are continually monitoring
Some discrepancy between the north & south
Vegetation management (with homeowner)
$100M yearly
High cost
All customers contribute to go to Low Density customers
2018-2022 OEB
We need your input!
