Operator (IESO), June 11, 2019
Handoff Letter**

June 11, 2019

Robert Reinmuller
Director, Transmission System Planning
Hydro One Networks, Inc.
483 Bay Street
Toronto, ON M5G 2P5

Dear Robert:

Re: Building a new 230 kV double-circuit line from Chatham SS to Lakeshore TS to reinforce the bulk transmission system west of Chatham

The purpose of this letter is to request Hydro One to initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from the Chatham Switching Station (“SS”) to the new Lakeshore Transformer Station (“TS”) located at Leamington Junction and associated station facilities at the terminal stations. The required in-service date for these facilities is prior to the winter of 2025/2026.

The purpose of these new facilities is to:

- Increase the overall transfer capability of the bulk transmission system west of Chatham in order to reliably supply the forecast load growth in the Kingsville-Leamington area and the broader Windsor-Essex Region in the near- to mid-term,
- Permit the resources and bulk facilities in this region to operate efficiently for local and system needs, and
- Maintain existing interchange capability on the Ontario-Michigan interconnection between Windsor and Detroit.

More details regarding the needs and solution options for reinforcing the bulk transmission system west of Chatham are documented in an IESO’s report entitled “Need for Bulk Transmission Reinforcement in the Windsor-Essex Region, June 13, 2019”.

Background

The west of Chatham bulk transmission system extends from Chatham in the east to Windsor in the west and is part of the larger west of London bulk transmission network, as shown in Figure 1.

This system is comprised of a 230 kV and 115 kV high voltage network interconnecting the load centers and large generators in the region to the Ontario electricity grid. As well, it provides a point of interconnection with the power system in Michigan. The west of Chatham system plays an important role in providing an adequate and reliable electricity supply to customers in the

Windsor-Essex region and enabling efficient operations of the resources in the region and on the interconnection.

There has been a significant increase in the demand forecast for electricity in the Kingsville-Leamington area. Primarily, this is driven by rapid expansion in the greenhouse sector and aggressive adoption of artificial crop lighting. As a result, the electricity demand in the Windsor-Essex region is forecast to double over the next five years and continue to grow in the longer term beyond that.

While the current demand in this region is being adequately supplied from local generation and from the region's bulk transmission system at this time, the significant and sustained growth forecast for the Kingsville-Leamington area and the broader Windsor-Essex region will require reinforcement of the existing supply. Studies conducted by the IESO, with support from Hydro One and the local LDCs, concluded that reinforcement of the existing transmission system, both the bulk and regional networks, is necessary and is the most economical solution to address the region's near- to mid-term electricity needs. New supply options were considered, but found to be less economic than the transmission solution. The studies also identify that supplementing the available supply with demand-side and interim solutions, while the transmission solution is being implemented, is also beneficial.

Integrated Transmission Solution

The recommended transmission solution comprises two stages:

- Stage 1: A new switching station at the Leamington Junction ("Lakeshore TS") to be in-service by the end of 2022, as identified in the hand-off letter¹ issued by the IESO to Hydro One on January 31, 2019. This will improve the capability of the system to connect and supply additional transformer stations and large transmission customers that are currently planning to connect.
- Stage 2: A new 230 kV double-circuit transmission line connecting Chatham SS to Lakeshore TS and associated terminal facilities, with an in-service date prior to the winter of 2025/2026, in order to address the specified bulk system level needs, as documented in the aforementioned report.

The ongoing Windsor-Essex Integrated Regional Resource Plan ("IRRP") will incorporate these transmission solution recommendations and continue to look at needs of the local area, focus on investigation of non-wires alternatives to manage evolving capacity needs in the region, and provide customers in the region with adequate line connection and step-down transformation capacity, while maintaining a level of reliability consistent with accepted planning standards.

West of Chatham (Chatham to Lakeshore) Transmission Line Project Scope

Based on the above considerations, the IESO recommends that Hydro One initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from Chatham SS to the new

¹ Further details on the switching station can be found here: http://www.ieso.ca/-/media/Files/IESO/Document-Library/regional-planning/Windsor-Essex/Switching-Station-in-the-Leamington-Area_Signed_Jan-31-2018.pdf?la=en

Lakeshore TS and associated station facilities at the terminal stations. Single-line diagrams of the existing and proposed facilities are shown in Figures 2 and 3 respectively. The work for the new line will need to be coordinated with the Lakeshore TS development, in order to appropriately plan the station layout for connection and allow for the installation of any reactive facilities, as required.

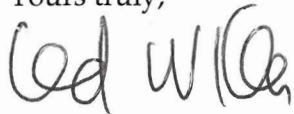

The project and its related costs and timelines have been discussed with Hydro One. The IESO understands that an in-service date of prior to the winter of 2025/2026 is achievable, while recognizing that earlier implementation will only further support growth in the region. Hydro One has indicated that costs for the project are projected to range between \$115 M and \$150 M. If project costs are forecasted to exceed the upper end of this range, and/or the delivery timeline cannot meet the targeted in-service date, Hydro One will notify the IESO so that the assessment of the bulk system reinforcement plan in the Windsor-Essex region can be updated.

Future Activities

The subject transmission line is the second stage of a number of improvements to the bulk transmission system that will be required to support load growth in the Windsor-Essex region. Together, the new line and station form the basis for accommodating mid- and long-term needs in the Windsor-Essex region and into the broader West of London area. The IESO will continue to monitor the progress of load and generation developments in the area. Future stages of system reinforcement will be triggered as required. The IESO feels that this is a prudent approach to meeting the need in the region.

IESO will continue to work with, and provide support to, Hydro One in the implementation of this project. We look forward to an ongoing exchange of information as Hydro One proceeds with the development of the project.

Yours truly,

Leonard Kula, P. Eng.

Vice President, Planning, Acquisition and Operations, and Chief Operating Officer

Appendix B2 Class EA Consultation Materials

January 2020

NOTICE OF COMMENCEMENT

CLASS ENVIRONMENTAL ASSESSMENT FOR A NEW TRANSMISSION LINE FROM CHATHAM-KENT TO LAKESHORE

Dear Resident,

As demand for electricity in southwestern Ontario is anticipated to grow significantly over the next several years, Hydro One is initiating a Class Environmental Assessment (Class EA) to construct a new double-circuit 230 kV transmission line between the Chatham Switching Station (SS), located in the Municipality of Chatham-Kent, and the Lakeshore Switching Station (SS), which will be located in the Town of Lakeshore. This new transmission line is needed so that Hydro One can meet the growth and future demand of the industrial, agricultural and residential sectors in the region.

The proposed project is subject to the "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), in accordance with the Ontario *Environmental Assessment Act*. The Class EA is a streamlined planning process to ensure that applicable projects are planned and carried out in a manner that is efficient and environmentally acceptable. The project will also require Ontario Energy Board (OEB) approval under Section 92 (Leave to Construct) of the OEB Act.

Through the EA process, we will evaluate multiple alternative routes and their associated variations, as shown on the attached map and online, in greater detail, at HydroOne.com/Chatham-to-Lakeshore. The anticipated in-service date for the new line and associated equipment is the end of 2025.

In the months ahead, we will begin collecting environmental and technical data to assess the project area. We will also gather input on the proposed project from residents, Indigenous communities, businesses, government agencies, and interest groups. This input will be taken into consideration when selecting our preferred route for the new transmission line.

Next month, you will receive an invitation to an open house to learn more about the project. In the interim, if you have questions or would like any additional information about the project, we encourage you to contact us at:

NOTICE OF COMMENCEMENT

CLASS ENVIRONMENTAL ASSESSMENT FOR A NEW 230 KILOVOLT TRANSMISSION LINE FROM CHATHAM-KENT TO LAKESHORE

As demand for electricity in southwestern Ontario is anticipated to grow significantly over the next several years, Hydro One Networks Inc. (Hydro One) is initiating a Class Environmental Assessment (Class EA) to construct a new double-circuit 230 kilovolt (kV) transmission line from the Chatham Switching Station (SS) in the Municipality of Chatham-Kent to the Lakeshore SS which will be located in the Town of Lakeshore.

This new transmission line is needed to ensure that Hydro One meets the growth and future demand of the industrial, agricultural and residential sectors in the region.

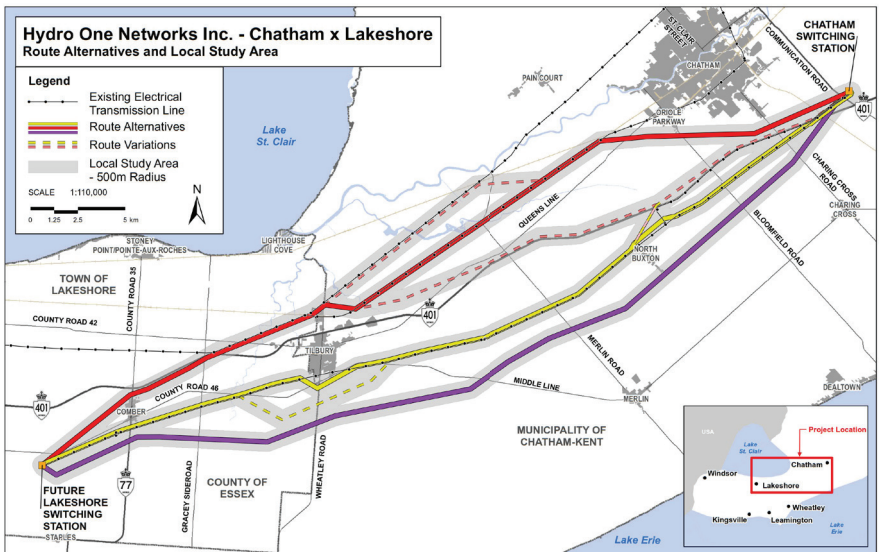

The proposed project is subject to the "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), in accordance with the *Ontario Environmental Assessment Act*. The Class EA is a streamlined planning process that has proven effective in ensuring minor transmission projects with a predictable range of effects have feasible environmental mitigation and/or protection measures in place. The project will also require Ontario Energy Board (OEB) approval under Section 92 (Leave to Construct) of the *OEB Act*.

Through the EA process, we will evaluate multiple alternative routes and their associated variations, as shown on the map below and online, in more detail, at HydroOne.com/Chatham-to-Lakeshore

The anticipated in-service date for the new line and associated equipment is the end of 2025.

We Want to Hear From You

The Class EA process provides opportunities for Indigenous communities, members of the public, businesses, stakeholder groups, government agencies and other interested parties to participate and provide feedback. Members of our team will be available to discuss the route alternatives in person at a series of Community Information Centers (CICs) throughout the duration of the EA. Information regarding the first CIC will become available in the next month. In the meanwhile, if you have questions or would like any additional information about the project, please contact Hydro One Community Relations at Community.Relations@HydroOne.com, or 1.877.345.6799. Project information will also be available online at HydroOne.com/Chatham-to-Lakeshore

Freedom of Information and Protection of Privacy Act. All personal information included in a submission – such as name, address, telephone number and property location – is collected, maintained and disclosed by the Ministry of the Environment, Conservation and Parks for the purpose of transparency and consultation. The information is collected under the authority of the Environmental Assessment Act or is collected and maintained for the purpose of creating a record that is available to the general public as described in s. 37 of the Freedom of Information and Protection of Privacy Act. Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. For more information, please contact the Ministry of the Environment, Conservation and Parks' Freedom of Information and Privacy Coordinator at 416-846-2846.

YOU'RE INVITED

COMMUNITY INFORMATION CENTRE FOR A NEW TRANSMISSION LINE FROM CHATHAM-KENT TO LAKESHORE

Dear Resident:

You're invited to a Community Information Centre for a new transmission line from Chatham-Kent to Lakeshore.

A safe and reliable power supply is essential to supporting economic growth, and as businesses and industry in southwestern Ontario continue to expand so does the need for more electricity. That's why Hydro One is proposing to construct a new double-circuit 230 kilovolt transmission line from our Chatham Switching Station located in the Municipality of Chatham-Kent to the future Lakeshore Switching Station, which will be located in the Town of Lakeshore.

We'd like to hear from you

As part of the planning process for the project, Hydro One will be conducting a Class Environmental Assessment (EA) in accordance with the *Ontario Environmental Assessment Act*. During this process, we will be gathering input from residents, First Nations communities, businesses and stakeholder groups to help us evaluate the route alternatives as shown on the reverse map.

Consultation and engagement is important to Hydro One's Class EA process, and we invite you to drop by one of our upcoming Community Information Centres to learn more about the project and provide your feedback.

PLEASE JOIN US:

MARCH 23, 2020

Community Update

COMMUNITY INFORMATION CENTRE FOR CHATHAM TO LAKESHORE LINE PROJECT TO BE RESCHEDULED

March 2020

At Hydro One the health and safety of our employees and the communities we work in is top priority. In light of recent public health developments, Hydro One will be canceling upcoming in-person open house meetings for the Chatham to Lakeshore Line project, planned for March 23rd, 24th and 25th.

We are committed to ensuring you have up to date information on the project and as we continue to monitor the latest developments, we will provide details on when these meetings will be rescheduled.

As always, our project team will remain available to answer your questions. You can contact us by phone at **1-877-385-4099**, or by email at **Community.Relations@HydroOne.com**. We also invite you to visit our project webpage at www.HydroOne.com/Chatham-to-Lakeshore any time for the most up to date information.

Sincerely,
Hydro One Community Relations

NOTICE OF VIRTUAL INFORMATION SESSIONS

CHATHAM TO LAKESHORE LINE PROJECT

Dear Resident,

We invite you to join one of our upcoming virtual information sessions for the Chatham to Lakeshore Line project on Tuesday, May 12th and Thursday, May 14th.

As you may recall, the in-person Community Information Centres planned for March 23rd, 24th and 25th were postponed in light of the global COVID-19 pandemic. As we continue to monitor the latest pandemic developments, we will look for a safe opportunity to reschedule these in-person sessions.

In the interim, we remain committed to ensuring that you have up to date information on the project. That is why we will be hosting two virtual information sessions, which will include both a live stream presentation and telephone conference. By joining one of our virtual sessions, you will have an opportunity to learn more about the project and Class Environmental Assessment process, as well as ask questions to members of our project team. To submit a question in advance, please email your inquiry to Community.Relations@HydroOne.com.

PLEASE JOIN US:

MAY 12, 2020 **MAY 14, 2020**

7 – 8 p.m. EST 7 – 8 p.m. EST

TO PARTICIPATE:

1. Dial **1-800-785-1615** to join the call and listen to the presentation
2. Visit www.hydroonemeeting.ca to register and view our live stream materials

As part of our outreach, you may also receive an automated call on both May 12th and 14th, reminding you about the upcoming session and inviting you to stay on the call to participate.

CLASS ENVIRONMENTAL ASSESSMENT

Earlier this year, Hydro One commenced a Class Environmental Assessment (EA) in accordance with the *Ontario Environmental Assessment Act*. As part of this process, we are engaging with, and gathering input from residents, First Nations communities, stakeholder groups, and businesses small and large to help shape the project, including the evaluation of the route alternatives shown on the reverse map. Consultation and engagement is important to Hydro One, and we look forward to having you join us.

If you would like any further information or have any questions, please contact Community Relations at:

Tel: 1-877-345-6799

Email: Community.Relations@HydroOne.com

WELCOME

TO OUR VIRTUAL COMMUNITY
INFORMATION SESSION

CHATHAM TO LAKESHORE
TRANSMISSION LINE PROJECT

TODAY'S AGENDA

- Project overview
- Class Environmental Assessment process
- Proposed route alternatives and route selection process
- Key milestones and next steps
- Live Q&A session

KEY ORGANIZATIONS

Building infrastructure to meet the energy needs of today and tomorrow involves a number of partners, including:

Builds, owns, operates and maintains electricity transmission and distribution facilities across Ontario.

Oversees planning to ensure electricity needs are met both now and in the future.

Ministry of the Environment,
Conservation and Parks

Legislative authority for environmental assessments in Ontario.

Regulates the electricity market in Ontario, including electricity rates.

HOW THE SYSTEM WORKS

ONTARIO POWER GENERATION AND PRIVATE GENERATION COMPANIES

HYDRO ONE OR LICENSED TRANSMITTER

HYDRO ONE OR LOCAL DISTRIBUTION COMPANY

PROJECT OVERVIEW

A safe and reliable electricity supply is essential to supporting economic growth, and as businesses and industry in southwestern Ontario continue to grow, so does the need for more electricity.

To help meet this growth, Hydro One needs to build a new double circuit 230 kilovolt transmission line between our Chatham Switching Station and our future Lakeshore Switching Station, as requested by the Independent Electricity System Operator (IESO).

This line will add 400 megawatts of power to the area – or enough power to energize a city the size of Windsor.

This project requires a Class Environmental Assessment, where multiple route alternatives will be evaluated.

It is anticipated this line will be in-service prior to the end of 2025.

WHAT IS A CLASS ENVIRONMENTAL ASSESSMENT?

The Class Environmental Assessment (Class EA) for Minor Transmission Facilities sets out a planning and decision-making process for projects with predictable environmental effects that can be mitigated.

KEY COMPONENTS

- Consultation with Indigenous communities, community members, elected officials, interest groups and government agencies;
- Collection of environmental inventory;
- Identification and evaluation of alternative methods;
- Identification of potential effects and mitigation measures;
- Selection of a preferred alternative
- A draft Environmental Study Report (ESR) that will be made available for a 30-day public review and comment period; and
- Submission of Statement of Completion and Final ESR

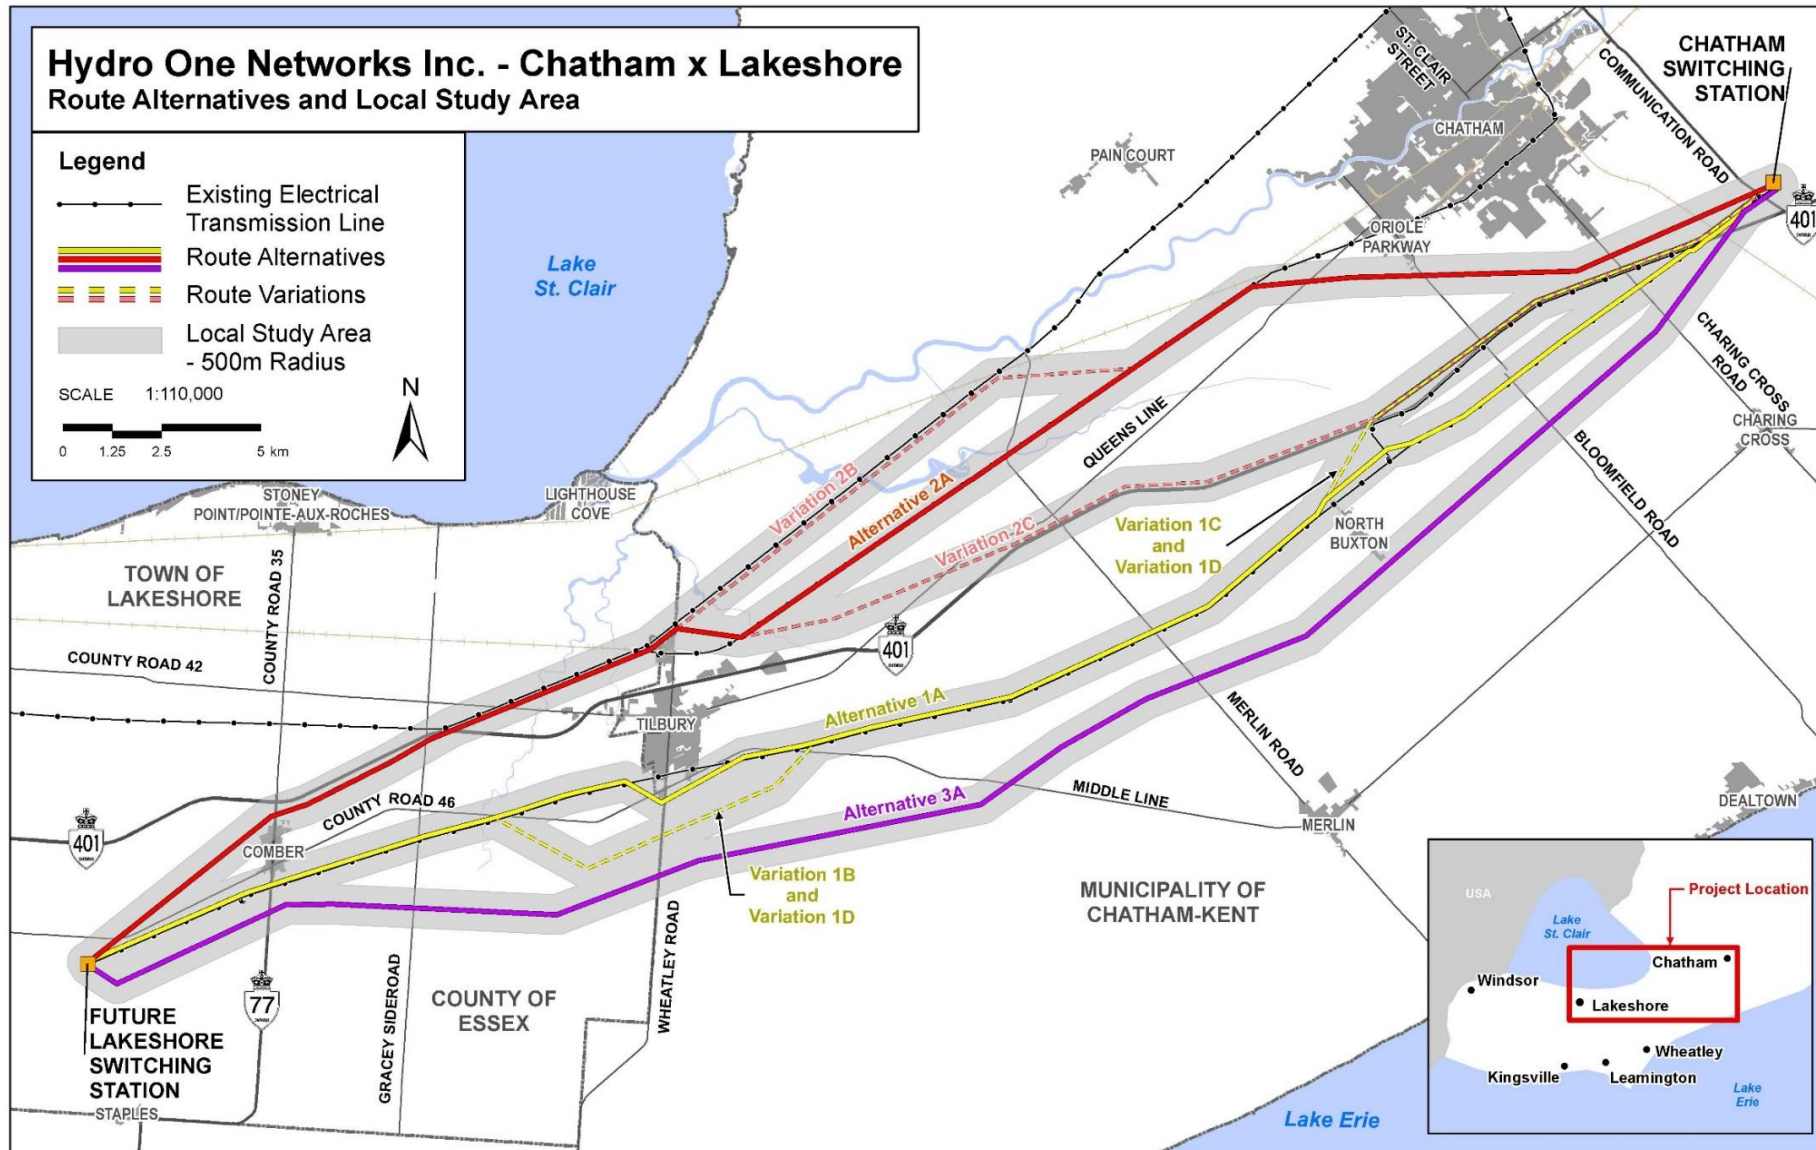

HOW WE GOT HERE

A preliminary assessment was conducted to map feasible route alternatives for the new transmission line.

This involved mapping out known environmental and technical features, and identifying opportunities to parallel existing linear infrastructure and utilize existing easements, where possible.

ROUTES WE ARE STUDYING

To view our interactive map, please visit:
www.arcg.is/1PKL1n

EVALUATION OF ROUTES

To evaluate the route alternatives, we will:

- Meet with First Nations communities, community members, elected officials, and interest groups through Community Information Centres and engagement opportunities to gather feedback;
- Conduct background research and detailed environmental field studies and technical assessments; and
- Host a number of workshops with Technical Advisory Committee members.

Based on the feedback and data collected, Hydro One will evaluate each route alternative based on a number of criteria.

EXAMPLE EVALUATION CRITERIA

Natural Environment

- Vegetation
- Water bodies or aquatic habitat
- Terrestrial wildlife
- Natural hazards (erosion, flood plains, etc.)
- Species at risk/sensitive species

Socio-Economic Environment

- Residences
- Commercial operations
- Existing infrastructure (roads, pipelines, transmission lines, etc.)
- Agricultural lands, resources and operations
- Archaeological or built heritage resources

First Nations/Traditional Land Use

- First Nations interests (cultural sites, traditional areas, historical lands and resources)

Technical and Cost

- Construction complexity
- Cost

LAND REQUIREMENTS

Hydro One Real Estate coordinators have acquired temporary access from some landowners to conduct field studies as part of the Class EA process.

Upon the selection of the preferred route, a Hydro One Real Estate coordinator will work with directly impacted property owners that will have a proposed structure or corridor on their property.

Hydro One has a long history of building transmission projects and working in communities across the province. To guide our conversations with property owners, specific land acquisition principles based on our past experiences will be applied.

HOW TO GET INVOLVED

Your feedback is important to us and we want to hear from you. You can provide us with your feedback by:

Asking a question via our virtual community information session

Submitting your comments to Community.Relations@HydroOne.com or 1-877-345-6799

Attending future Community Information Centres and other engagement opportunities

To stay up to date on project details, please visit our webpage
www.HydroOne.com/Chatham-to-Lakeshore

PROJECT MILESTONES

Environmental studies and preferred route selection

Real estate outreach

Continued First Nations and stakeholder engagement opportunities (i.e. meetings with property owners, local businesses, associations etc.)

LIVE QUESTION PERIOD

Panelists

Daniel Levitan
Vice President of Stakeholder Relations

John Chadwick
Manager, Environmental Services

Andrew Luis
Senior Real Estate Coordinator

Kennan Ip
Manager, Transmission Planning, IESO

Sanjiv (Sonny) Karunakaran

NOTICE OF VIRTUAL OPEN HOUSE AND LIVE DISCUSSION

CHATHAM TO LAKESHORE LINE PROJECT

Dear Resident,

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now, and into the future. As local businesses and industry continues to expand in the region so does the need for more electricity.

We're pleased to invite you to join us for two upcoming engagement events for an update on Hydro One's Chatham to Lakeshore Line project. Starting on October 29th, you can visit our virtual open house where you will find a series of information boards, and on November 5th you can participate in a live virtual discussion with members of our project team.

In January, our team initiated a Class Environmental Assessment (EA) to build a new double-circuit 230-kilovolt transmission line from our Chatham Switching Station to the future Lakeshore Switching Station. This line will ensure the region can accommodate anticipated growth and support local industries at a time when it is needed most, including the agricultural and food processing sectors.

Since our last virtual information session in May, the Hydro One team has conducted technical studies and received a variety of feedback, all leading to a more in-depth understanding of the study area for each of the route alternatives. Based on what we have learned, we have made four refinements to our routes and have identified the need to expand our Chatham Switching Station to the east on our existing lands, due to technical and environmental constraints and requirements. Further details can be found on the reverse and on our interactive map at the link on the right.

We believe that electricity planning requires sharing and gathering input from the community, and we look forward to having you visit our upcoming virtual events to learn more about the Class EA evaluation process, route refinements, and next steps.

VISIT OUR VIRTUAL OPEN HOUSE:

STARTING OCTOBER 29, 2020

TO VIEW:

Visit chatham-to-lakeshore-openhouse.com

JOIN OUR VIRTUAL LIVE DISCUSSION:

NOVEMBER 5, 2020

7:00 – 8:00 p.m. EST

TO PARTICIPATE:

1. Dial **1-800-785-1615** to join the call and listen to the presentation
2. Visit hydroonemeeting.ca to register and view our live stream materials
3. To submit a question in advance, please email your inquiry to Community.Relations@HydroOne.com.

If you would like any further information or have any questions, please contact Community Relations at:

Type a question in the submission box on the right hand side

PROJECT OVERVIEW

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now and into the future.

In June 2019, the Independent Electricity System Operator (IESO) requested Hydro One build a new double-circuit 230 kilovolt transmission line from the Chatham Switching Station to the future Lakeshore Switching Station.

This project requires undertaking a Class Environmental Assessment which began in January 2020.

It is anticipated this line will be in-service prior to the end of 2025.

HOW THE NEW LINE WILL SUPPORT THE REGION

As businesses and industry continue to expand in the region, so does the need for more electricity.

The new high voltage transmission line will support the region by:

Ensuring critical infrastructure is in place to keep southwestern Ontario one of North America's agricultural hubs

Improving reliability for homes and businesses including both Hydro One and local distribution customers

Connecting more people and industry to the grid by bringing enough energy to power a city the size of Windsor to the area

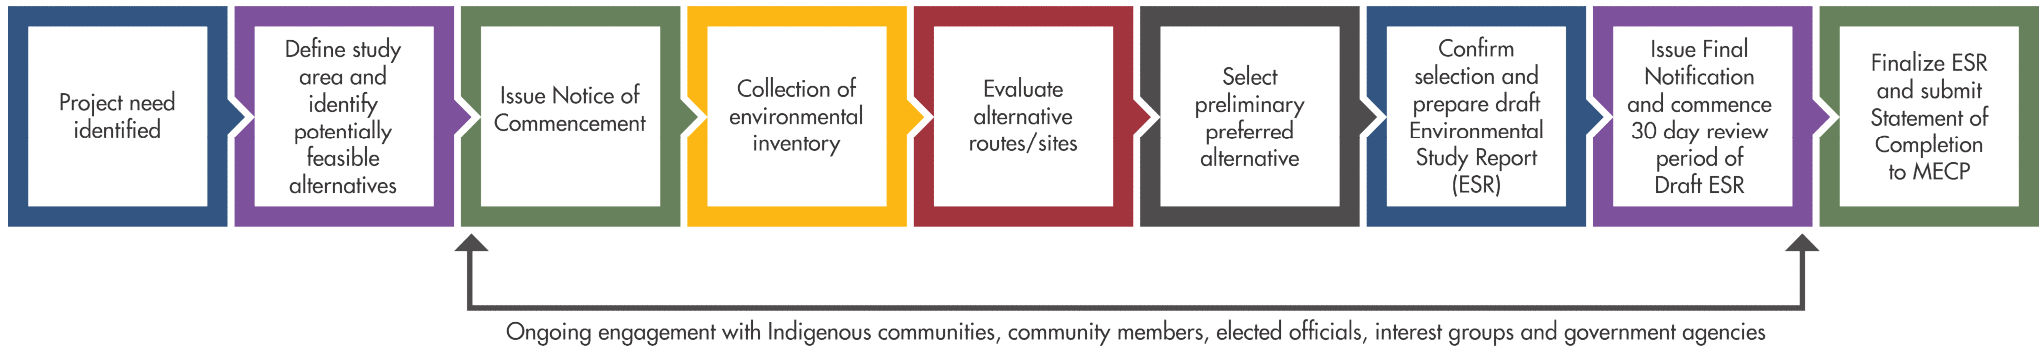

Supporting the local economy by creating new direct and spin off jobs and training opportunities as one of the largest electricity infrastructure projects in the region

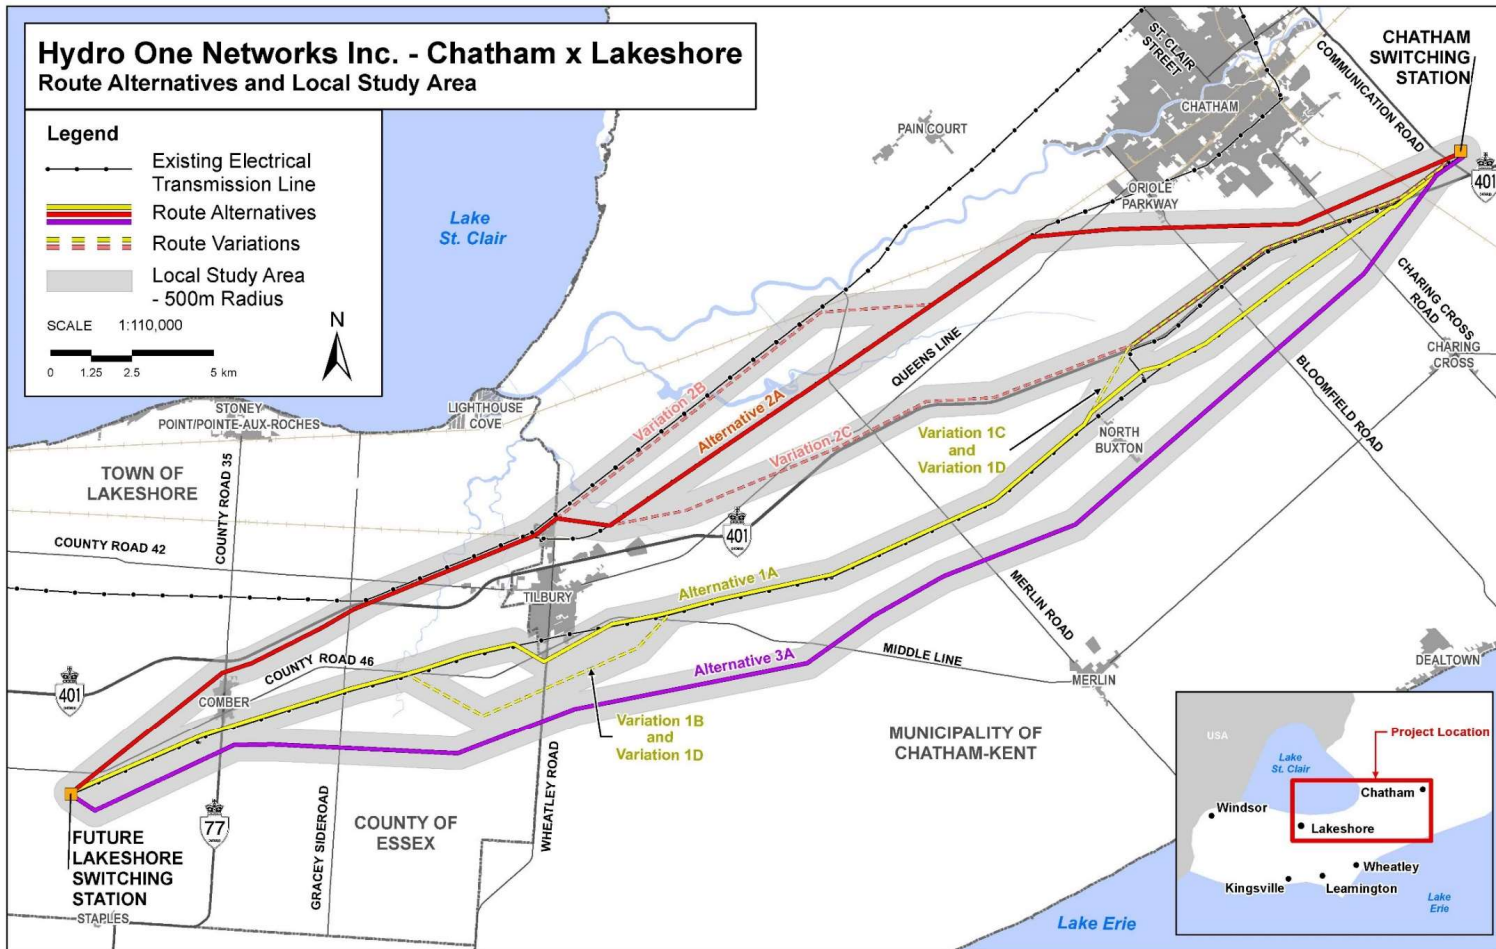

CLASS ENVIRONMENTAL ASSESSMENT

The Class Environmental Assessment (Class EA) for Minor Transmission Facilities sets out a planning and decision-making process for projects with predictable environmental effects that can be mitigated.

INITIAL ROUTE ALTERNATIVES

To view our interactive map, please visit:

www.arcg.is/1PKL1n

ENGAGEMENT & FEEDBACK HEARD

Hydro One is committed to ongoing engagement and consultation.

To date we've:

- Held 2 virtual information sessions with community members reaching more than 4,000 households.
- Held 2 virtual information sessions with First Nations communities reaching more than 200 households.
- Held 2 virtual Technical Advisory Committee workshops with provincial and federal agencies, First Nations community representatives, and technical and industry stakeholders.
- Corresponded via phone or email with more than 100 community members.
- Organized regular and frequent engagement with local elected officials.
- Engaged with eight First Nations communities.
- Distributed more than 60,000 flyers.

KEY FEEDBACK WE'VE HEARD:

- Protecting agricultural features should be considered when both selecting the route and designing the line.
- Farming practices should be considered as part of the solution used to deliver this project.
- The former rail corridor should be reconsidered as a potential route alternative.

TECHNICAL WORK & DISCOVERIES

Our team has performed background research and conducted field surveys on each of the route alternatives.

To date we've:

- Collected natural heritage information.
- Reviewed municipal official plans.
- Completed a Stage 1 archaeological assessment and cultural heritage existing conditions study.
- Conducted environmental field surveys for ecological land classification, vegetation inventory, aquatic habitat, breeding birds and species at risk habitat.
- Conducted an in-depth reassessment of the former rail corridor, including site reconnaissance, as a potential route alternative based on project feedback.

WHAT WE'VE LEARNED:

- Better understanding of the natural and socio-economic environment within the study area.
- Certain setback distances from the Highway 401 corridor and interchanges, provided by the Ministry of Transportation, must be maintained.
- The former railway corridor presents a number of constraints deeming it not sufficient as a route alternative for the project.
- Additional constraints posed by other utilities in the region must be considered.

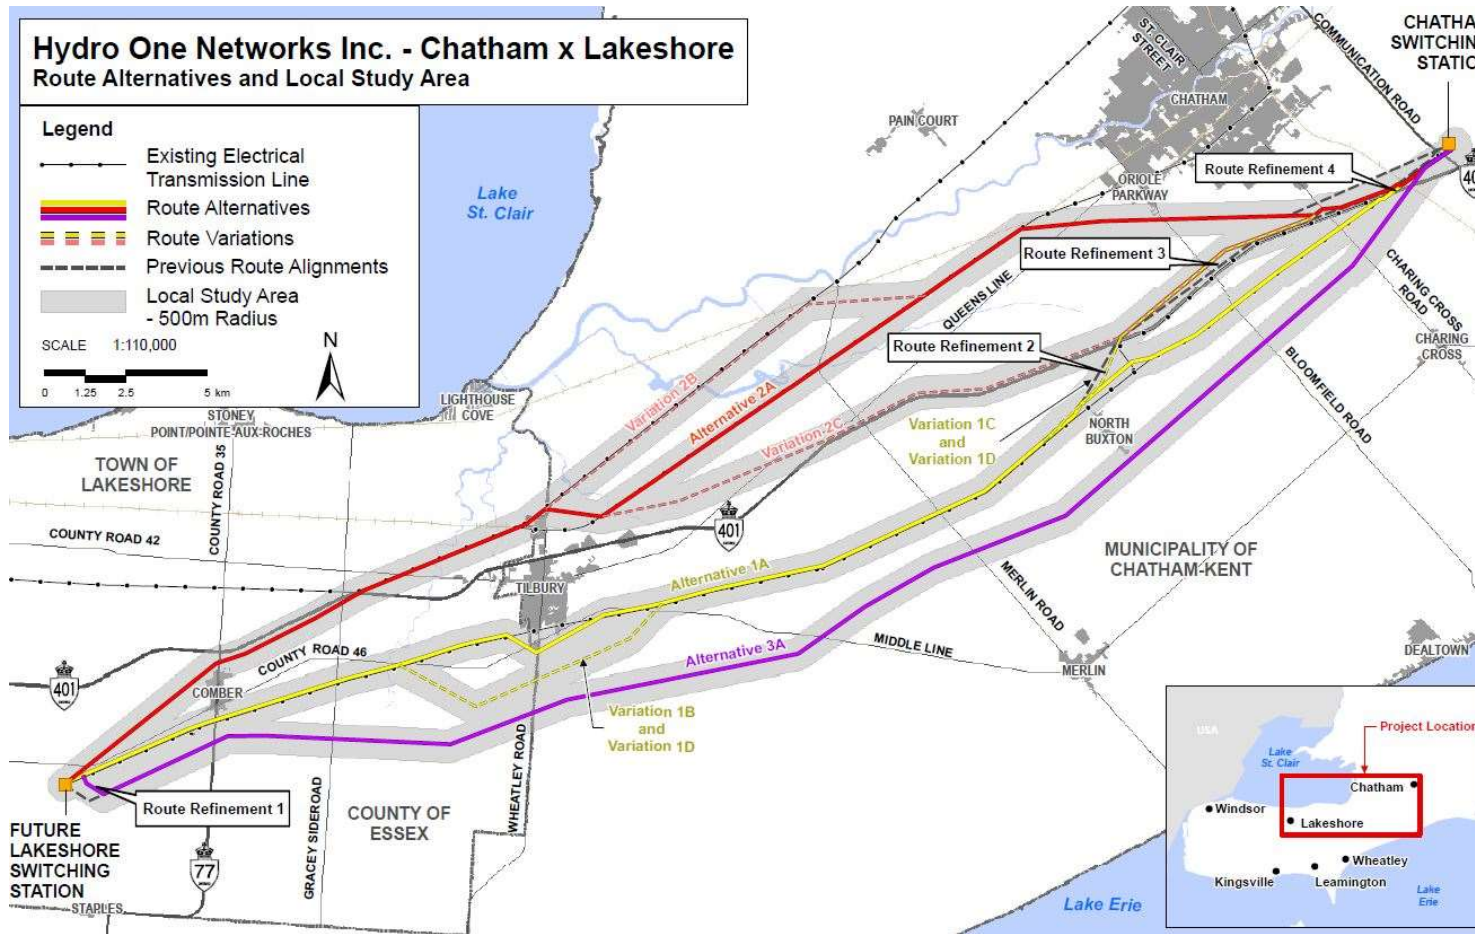

HOW HAS THIS SHAPED THE PROCESS?

The feedback received and the information captured have informed the Class Environmental Assessment process by:

- Expanding our overall knowledge and understanding of the local areas.
- Identifying a need to make four refinements to the route alternatives we are studying.
- Establishing the criteria that will be used to evaluate the route alternatives and ultimately select a preferred one.
- Identifying a potential list of measures to avoid, mitigate and/or restore environmental effects when building the line.

Route Refinement 4

The Chatham SS yard will need to be expanded to the east on existing Hydro One property to accommodate additional equipment needed to connect the new 230 kilovolt transmission line.

A portion of Route Alternative 2, Variations A and B have been consolidated with the other route alternatives paralleling Highway 401 and the existing transmission line corridor. Additionally, a portion of Route Alternative 1, Variations C and D and Route Alternative 2, Variation C, have been refined and shifted further north from the overpass at Charing Cross Road. Both of these route refinements now consolidate with the route leading into the south end of the Chatham Switching Station. These refinements accommodate certain setback distances from the Highway 401 corridor and Charing Cross overpass, as provided by the Ministry of Transportation; address technical constraints with an existing wind farm transmission line crossing; further align with existing infrastructure; avoid known archaeological sites; and, meet the requirements to connect the new line to the south side of the Chatham Switching Station.

EVALUATION OF ROUTE ALTERNATIVES

Using the feedback that we have received to date, as well as the detailed environmental and technical assessments we have conducted, Hydro One has developed the list of criteria under four categories that will be used to evaluate each of the route alternatives in order to select a preferred route.

Over the next few months, we will be using a weighted Multi-Criteria Decision Making (MCDM) analysis method to inform our decision-making. Including assigning relative weighting to each criteria measure and evaluating and selecting the preferred route.

CATEGORIES

Socio-Economic Environment

Technical and Cost

Natural Environment

First Nations Culture, Values and Land Use

ROUTE EVALUATION CRITERIA

Socio-Economic Environment

- Land use designations
- Future land use designations
- Agricultural operations
- Petroleum operations
- Commercial/industrial buildings, properties, site plans or business operations/supply chains
- Cultural resources
- Residential buildings, properties or site plans
- Source water protection
- Archaeological resources
- Aggregate resources extraction areas/operations (pits/quarries)

Natural Environment

- Fish and aquatic habitat
- Vegetation
- Terrestrial and wildlife habitat
- Species at risk & species of conservation concern
- Natural hazards, wetlands and floodplain areas
- Designated natural areas

First Nations Culture, Values and Land Use

- First Nations traditional/contemporary lands and resources uses and occupation

Technical and Cost

- Line length
- Line angles
- Crossings
- Parallel and adjacent to underground pipelines
- Proximity to wind turbines
- Parallel and adjacent to existing transmission corridor
- Parallel and adjacent to other existing infrastructure (e.g., Highway 401)
- Number of properties requiring new real estate rights
- Number of mandatory property acquisitions

PREFERRED ROUTE SELECTED FOR THE NEW CHATHAM TO LAKESHORE LINE

HYDRO ONE HOSTS UPCOMING VIRTUAL EVENTS AND SHARES NEXT STEPS

Dear Resident,

We are contacting you with an update on the Chatham to Lakeshore Line project, a new transmission line that will help accommodate future electricity growth, improve reliability for homes and businesses and support local industries in the region at a time when it is needed most.

Over the past year, Hydro One has been conducting a Class Environmental Assessment (EA) to build a new double-circuit 230-kilovolt transmission line from our Chatham Switching Station to the future Lakeshore Switching Station. Through the Class EA process, we have assessed three route alternatives and associated variations by collecting environmental and technical information, as well as input from agencies, First Nations and Haudenosaunee communities, community members, elected officials, interest groups and businesses.

Based on this information gathered and feedback received, **Route Alternative 2A** has been selected as the preferred route for the new transmission line, as shown on the reverse map or in more detail on our website HydroOne.com/Chatham-to-Lakeshore.

As we reach this milestone in the electricity transmission planning process, we are committed to sharing information with you.

NEXT STEPS:

- Visit our interactive online open house, starting **February 25, 2021** where you will find a series of information boards.
- Join us on **March 11, 2021** for a live presentation and discussion with members of our project team.
- As part of our next stage in the development of the new line, Hydro One will also reach out to owners whose properties will be traversed by the preferred route alternative shortly following the March 11th live discussion. At that time, a dedicated real estate representative will directly connect with you to provide further information on next steps.

**We look forward to having you visit our upcoming events.
If you have any questions, please contact Community Relations at:**

Type a question in the submission box on the right hand side

PROJECT OVERVIEW

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now and into the future.

In June 2019, the Independent Electricity System Operator (IESO) requested Hydro One plan and build a new double-circuit 230 kilovolt transmission line from the Chatham Switching Station to the future Lakeshore Switching Station.

This project requires undertaking a Class Environmental Assessment (Class EA) which began in January 2020.

Through the Class EA process, our team assessed several route alternatives, and based on information gathered and feedback received, Route 2A has been selected as the preferred route.

It is anticipated this line will be in-service between 2024 to 2025.

HOW THE NEW LINE WILL SUPPORT THE REGION

As businesses and industry continue to expand in the region, so does the need for more electricity.

The new high voltage transmission line will support the region by:

Ensuring critical infrastructure is in place to keep southwestern Ontario one of North America's agricultural hubs.

Improving reliability for homes and businesses, including both Hydro One and local distribution customers.

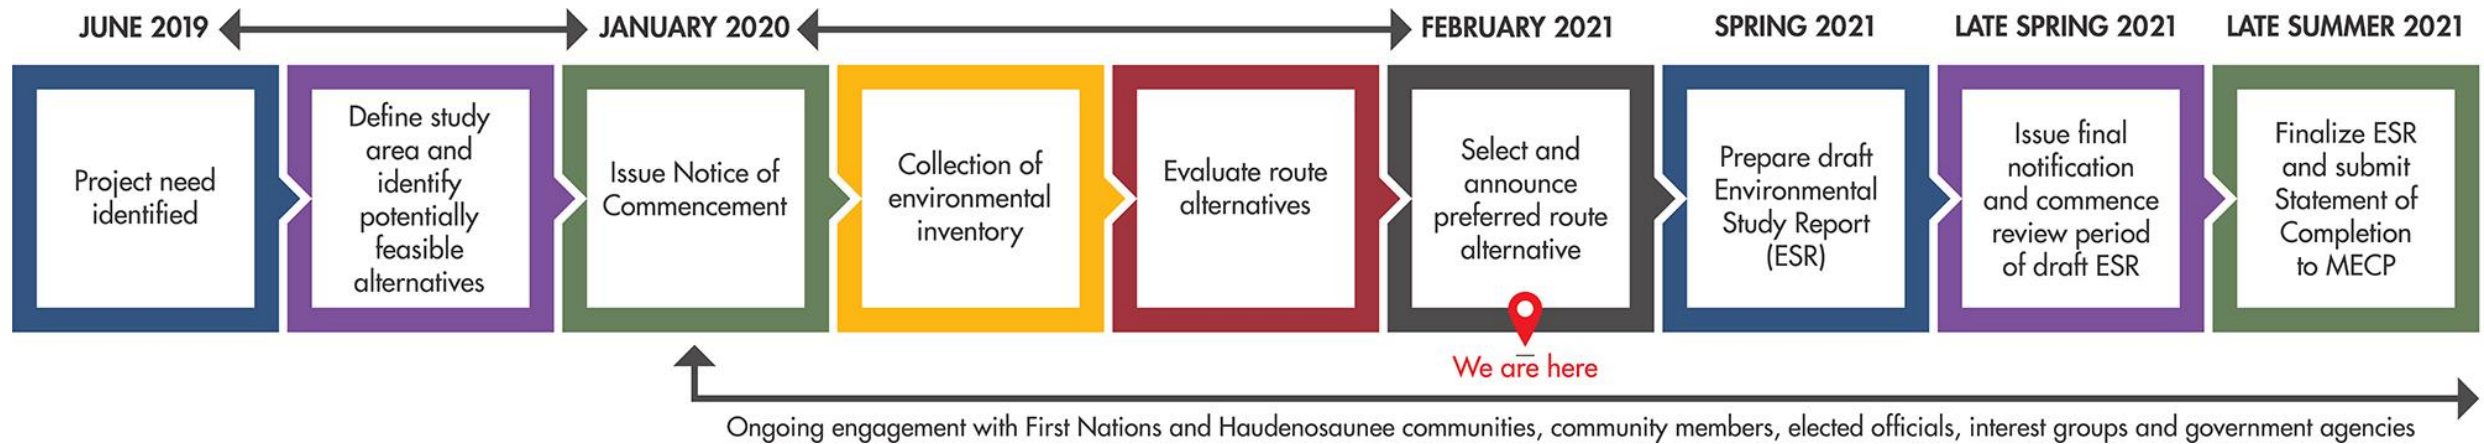

Connecting more people and industry to the grid by bringing enough energy to power a city the size of Windsor to the area.

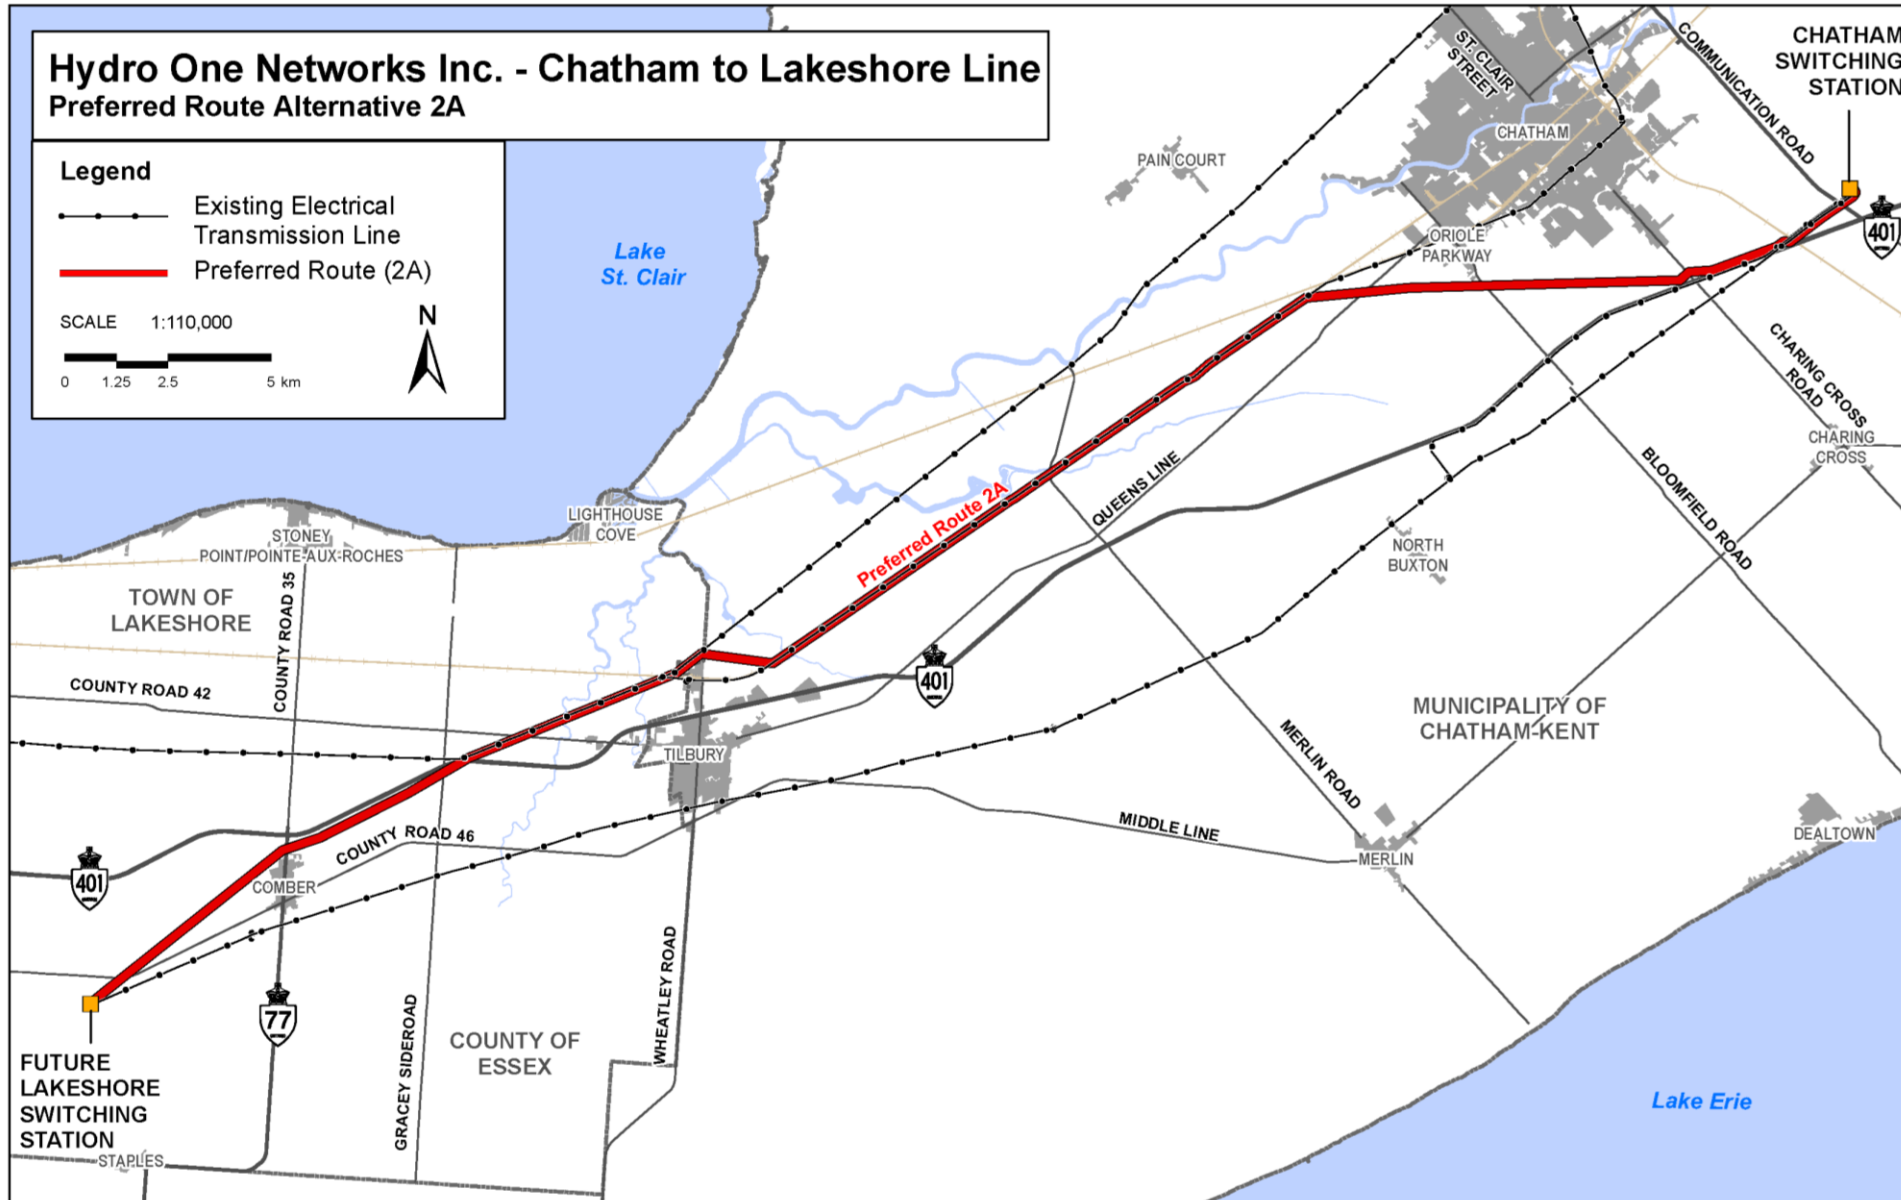

Supporting the local economy and communities by creating new direct and spin off jobs, as well as training opportunities as one of the largest electricity infrastructure projects in the region.

CLASS ENVIRONMENTAL ASSESSMENT PROCESS UPDATE

PREFERRED ROUTE ALTERNATIVE

For a detailed look,
view our interactive
map at:

www.arcg.is/1PKL1n

EVALUATION OF ROUTE ALTERNATIVES

The route evaluation process used to compare the advantages and disadvantages of each route consisted of collecting feedback from First Nations and Haudenosaunee communities, community members and stakeholders, as well as available information across the four adjacent categories.

Using this feedback and information collected, we established an evaluation framework, which included:

- Identifying a wide variety of evaluation criteria under each category; and
- Assigning a relative weight (level of importance) to each criterion.

Each route was evaluated fairly and holistically resulting in the selection of a preferred route alternative.

EVALUATION CATEGORIES

Socio-Economic Environment

Technical and Cost

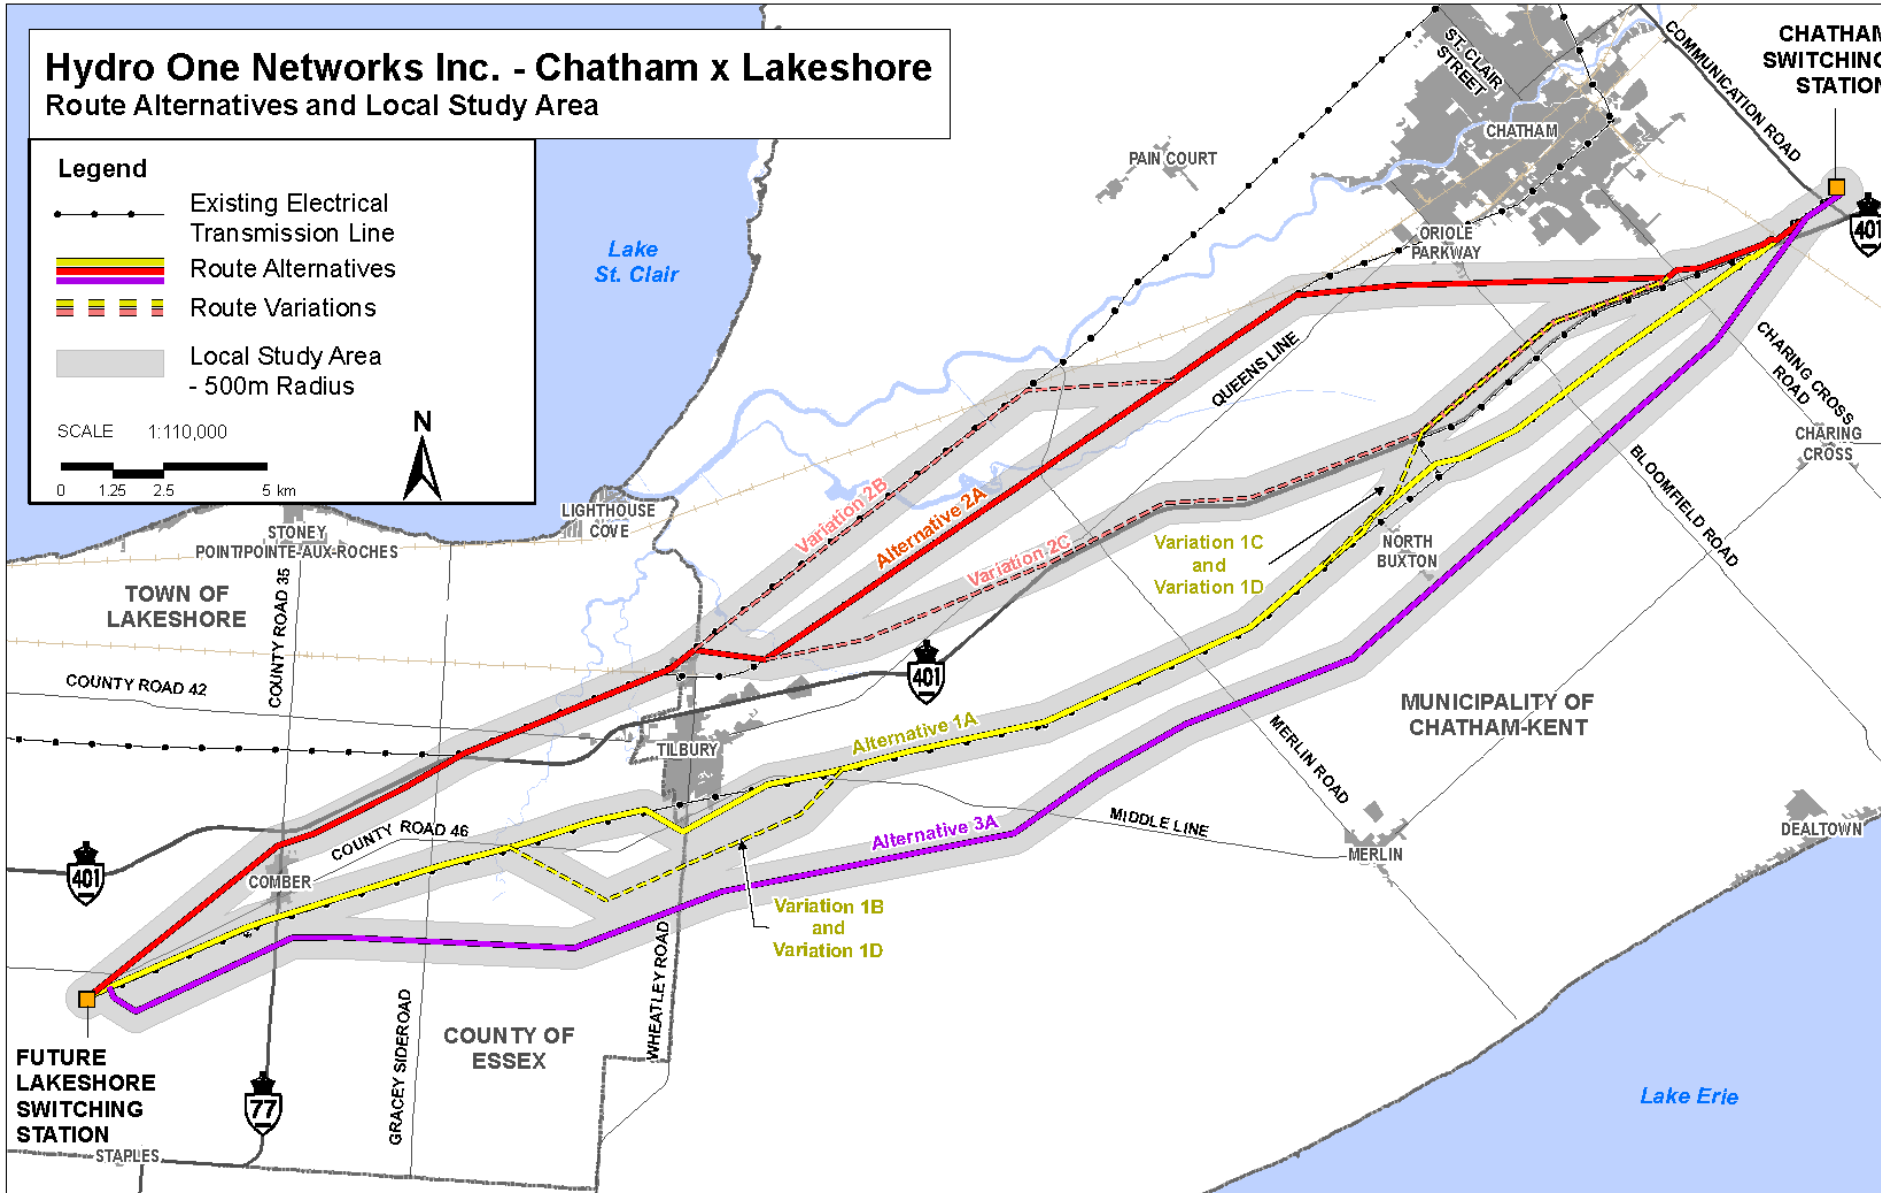

Natural Environment

First Nations and Haudenosaunee Culture, Values and Land Use

ROUTE ALTERNATIVES ASSESSED

At the start of the project, we identified viable route alternatives, each with their own distinct advantages and disadvantages.

In October 2020, we made four refinements to the routes based on technical and environmental information learned.

INCORPORATING FEEDBACK

Ensuring that local feedback and knowledge was incorporated and reflected in the route selection process was a key priority.

SOME OF THE FEEDBACK WE HEARD:

- Effects to agricultural operations should be a key consideration.
- Opportunities to both repurpose existing utility corridors and parallel with other linear infrastructure should be prioritized.
- Certain setback distances from the Highway 401 corridor and interchanges, provided by the Ministry of Transportation, must be maintained.
- Proximity to First Nation and Haudensouanee areas that support fishing, hunting and trapping, as well as identified areas of historical significance, should be considered.
- Effects to the natural environment, in particular effects to habitat for species-at-risk and significant terrestrial/wildlife should be considered.

KEY ENGAGEMENT ACTIVITIES:

Community and Property Owners

- Held 2 virtual live discussions session in May and November last year, reaching more than 1000 participants per each event
- Launched a virtual open house
- Corresponded and/or met with more than 100 community members

Technical Stakeholders

- Held 2 Technical Advisory Committee virtual workshops and organized ongoing conversations with agencies, municipal staff, industry and other technical stakeholders

First Nations and Haudenosaunee

- Hosted virtual live discussions and route evaluation workshops
- Organized opportunities to review natural environment information

SUMMARY OF EVALUATION

	 Natural Environment	 Socio-Economic Environment	 Technical and Cost	 First Nations and Haudenosaunee Culture, Values and Land Use

Alternative 3	★★★	★★★	★★★★	★

LEGEND	
LEAST PREFERRED	★
LESS PREFERRED	★★
NEUTRAL	★★★
PREFERRED	★★★★
MOST PREFERRED	★★★★★

PREFERRED ALTERNATIVE 2A

Based on a year-long consultation and evaluation process, **Alternative 2A** has been selected as the preferred route. This route allows us to repurpose approximately 16 kilometers – roughly 1/3rd of the route length – of an existing idle transmission corridor, minimizing effects to the natural and socio-economic environment, as it reduces the need for a new transmission right-of-way.

Compared to other route alternatives, overall Alternative 2A:

- Effects the fewest aquatic resource areas
- Crosses a low amount of incompatible vegetation
- Has low overall impacts to potential species-at-risk habitat

- Minimizes effects to agricultural operations
- Crosses few features associated with Archaeological potential
- Avoids a National Historic Site of Canada (NHSC)

- Maximizes the renewal of existing infrastructure by repurposing an idle transmission line corridor
- Crosses the fewest property parcels and farms
- Follows additional linear infrastructure, such as the Highway 401 and other energized transmission lines

- Balances the proximity to areas of historical significance identified by First Nations and Haudenosaunee with the co-location of existing infrastructure and minimal effects to natural environment features.

WORKING WITH LANDOWNERS ALONG ROUTE 2A

Starting tomorrow, a dedicated real estate representative will be in contact with landowners to schedule a meeting.

This will be a first step as we work closely with landowners whose property will be traversed by the preferred route.

During these meetings, representatives will review Hydro One's next steps in this process and introduce our project-specific Land Acquisition Compensation Principles.

KEY LAND ACQUISITION COMPENSATION PRINCIPLES

Our Land Acquisition Compensation Principles will be used as the roadmap to guide our conversations with landowners traversed by the preferred route. These principles have been tailored to local characteristics and feedback we've heard to date from the community.

Some of the key principles include:

Property Owner Choice

Landowners will be offered the choice of Hydro One acquiring either an easement or the fee simple interest (ownership) in the lands required for the project corridor.

Independent Valuation

Offers will be based upon site specific appraisal reports prepared by independent third party AACI appraisers.

Incentives

Monetary incentives, in addition to market value compensation, will be offered for the conveyance of voluntary property rights.

Construction & Mitigating Physical Property Damages

Construction impact will be mitigated to the extent feasible, and reimbursement for cropland out of production during and after construction and any physical damages that are unable to be mitigated, will be provided.

ADDITIONAL NEXT STEPS

As we move into this next stage of the project, we remain committed to working with individual landowners, ensuring our team is available every step of the way.

Over the next several months, we will complete next steps in the Class Environmental Assessment process and plan for the design and construction of the new line. Our efforts will focus on continuing to work with landowners and community members by:

Engaging directly with landowners along Route Alternative 2A as we seek voluntary property rights.

Collecting and gathering information to advance the design and construction solution.

Seeking local landowners knowledge, understanding and expertise to help plan for construction by identifying additional measures and considerations to avoid, mitigate, or restore potential environmental effects on lands which will traverse the preferred route.

Preparing a draft Environmental Study Report (ESR) which will be shared for a review and comment period.

PROJECT MILESTONES

Environmental studies and preferred route selection

Continued First Nations and stakeholder engagement opportunities (i.e. meetings with property owners, local businesses, associations etc.)

*In order to meet the energy needs of the region as quickly as possible, we are looking for opportunities to advance the construction start time to bring the new line into service at an earlier date.

CHATHAM TO LAKESHORE LINE

Notice of Completion of Draft Environmental Study Report

As the next step in the Chatham to Lakeshore Line project, Hydro One has completed the draft Environmental Study Report (ESR). This document outlines the Class Environmental Assessment (EA) process conducted and will be available for a 60-day public review and comment period, beginning on June 11, 2021.

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now, and into the future. That is why, in January 2020, Hydro One began a Class Environmental Assessment (EA), in accordance with the Class EA for Minor Transmission Facilities to build a new double-circuit 230 kilovolt transmission line between the Chatham Switching Station (SS) and future Lakeshore Switching Station (SS). This new line will accommodate anticipated electricity demand, improve reliability for homes and businesses and support local industries.

Through this process, three alternative routes and their associated variations were evaluated. Based on environmental and technical information collected and feedback received, Route Alternative 2A was selected as the preferred route for the new transmission line, shown on the map, or in more detail at HydroOne.com/Chatham-to-Lakeshore. The draft ESR summarizes the EA process, route alternatives identified, environmental information collected, consultation undertaken, the route evaluation and selection process, and environmental effects and mitigation measures planned.

Having reached this milestone in the electricity transmission planning process, Hydro One will continue to work with landowners, as design and construction planning continues.

Next Steps and Providing Your Input

The draft ESR will be available for comment from June 11 to August 10, 2021. Due to ongoing public health restrictions, the draft ESR can be viewed electronically on Hydro One's website at HydroOne.com/Chatham-to-Lakeshore. Electronic copies of the draft ESR are also available on USB drives for sign out and/or curbside pickup at the following locations, pending operating hours (please call ahead):

Chatham-Kent Public Library 120 Queen Street Chatham, ON N7M 2G6 Tel: 519-654-2940	Chatham-Kent Public Library 2 Queen Street Tilbury, ON N0P 2L0 Tel: 519-682-0100	Chatham-Kent Civic Centre 315 King Street Chatham, ON N7M 5K8 Tel: 519-360-1998	Atlas Tube Centre Essex County Library-Toldo Branch 447 Renaud Line Lakeshore, ON NOR 1K0 Tel: 519-727-0470
---	---	--	---

To help aid those without access to a computer, limited e-readers will be available at the above locations for sign out. In the event that public health restrictions cease during the review period, hard copies of the draft ESR will also be available for on-site review at the above locations.

Written comments or questions on the draft ESR must be received by Hydro One no later than **4:30 p.m. on Tuesday, August 10, 2021** and must be addressed to:

Paul Dalmazzi, Environmental Planner, Hydro One Networks Inc.
483 Bay Street, North Tower, 12th Floor, Toronto, ON M5G 2P5
Phone: 1-877-345-6799 (community relations hotline)
Email: Community.Relations@HydroOne.com

During the review period, Hydro One will respond to and make best efforts to resolve any issues raised by concerned parties, following which, Hydro One will finalize the ESR and file it with the Ministry of the Environment, Conservation and Parks (MECP). The project will then be considered acceptable to proceed as outlined in the ESR.

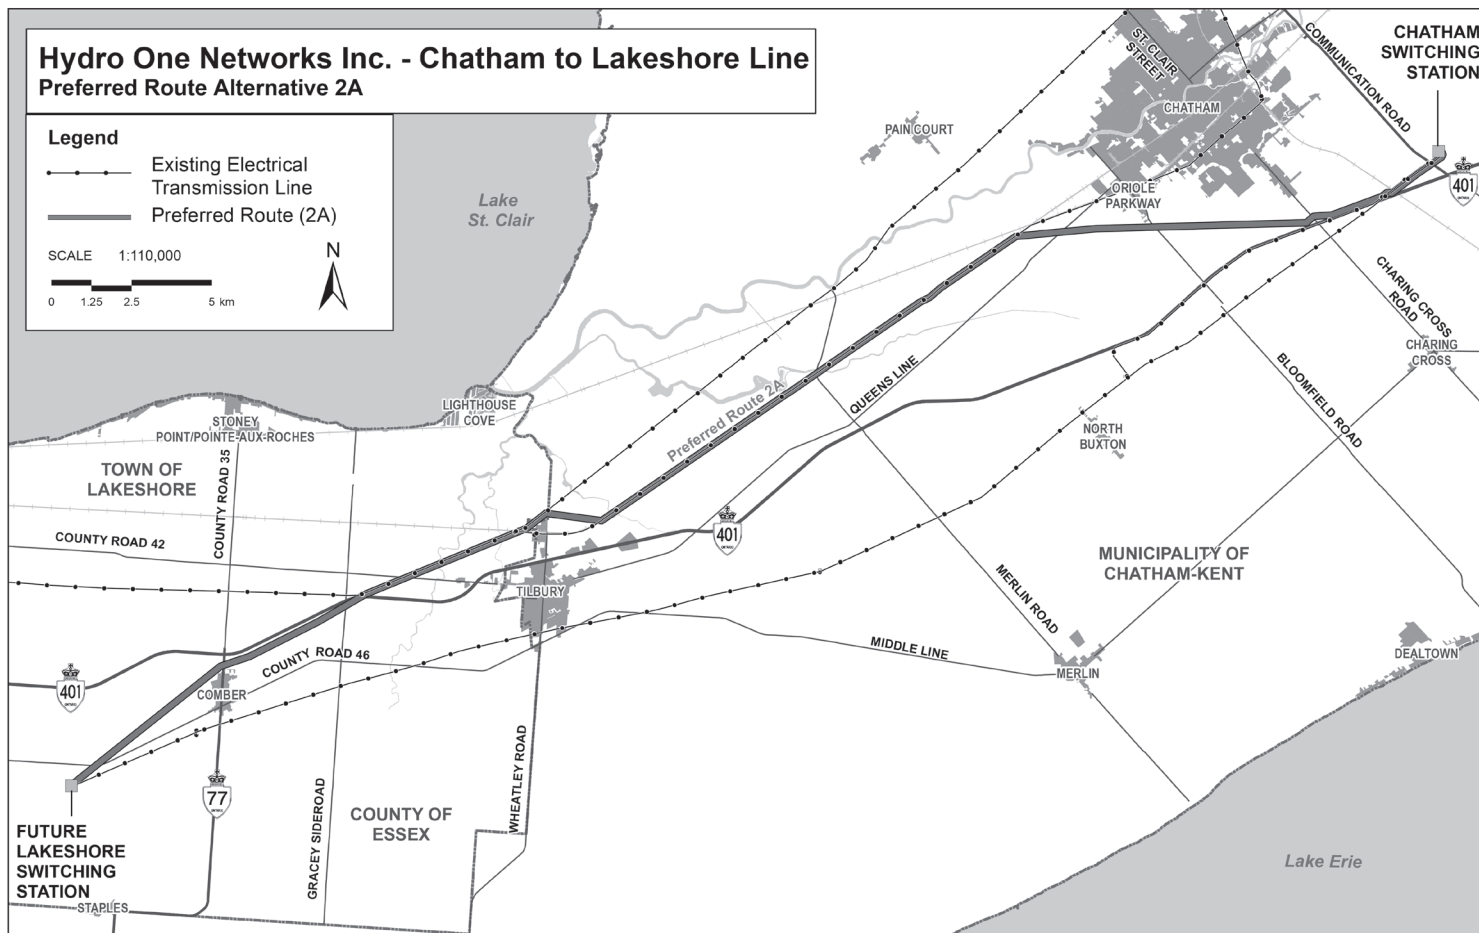

A request may be made to the MECP for an order requiring a higher level of study (i.e., requiring comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g., require further studies), however; only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. The MECP will not consider requests on other grounds.

Requests should include the requester's contact information, as well as specify what kind of order is being requested (request for conditions or comprehensive EA), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. The request should be sent in writing or by email to:

Ministry of the Environment, Conservation and Parks
 777 Bay Street, 5th Floor
 Toronto ON M7A 2J3
 Email: Minister.mecp@ontario.ca

Environmental Assessment Branch
Ministry of the Environment, Conservation and Parks
 135 St. Clair Avenue West, 1st Floor
 Toronto, ON M4V 1P5
 Email: EABDirector@ontario.ca

Requests should also be copied to Hydro One per the contact information provided above. Please visit the ministry's website for more information on requests for orders under section 16 of the Environmental Assessment Act at: <https://www.ontario.ca/page/class-environmental-assessments-part-ii-order>

CHATHAM TO LAKESHORE LINE

Notice of Completion of Draft Environmental Study Report

As the next step in the Chatham to Lakeshore Line project, Hydro One has completed the draft Environmental Study Report (ESR). This document outlines the Class Environmental Assessment (EA) process conducted and will be available for a 60-day public review and comment period, beginning on June 11, 2021.

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now, and into the future. During the review period, Hydro One will respond to and make best efforts to resolve any issues raised by concerned parties, following which, Hydro One will finalize the ESR and file it with the Ministry of the Environment, Conservation and Parks (MECP). The project will then be considered acceptable to proceed as outlined in the ESR.

A request may be made to the MECP for an order requiring a higher level of study (i.e., requiring comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g., require further studies), however; only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. The MECP will not consider requests on other grounds.

Requests should include the requester's contact information, as well as specify what kind of order is being requested (request for conditions or comprehensive EA), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. The request should be sent in writing or by email to:

Ministry of the Environment, Conservation and Parks
777 Bay Street, 5th Floor
Toronto ON M7A 2J3
Email: Minister.mecp@ontario.ca

Environmental Assessment Branch
Ministry of the Environment, Conservation and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, ON M4V 1P5
Email: EABDirector@ontario.ca

Requests should also be copied to Hydro One per the contact information provided above.

Please visit the ministry's website for more information on requests for orders under section 16 of the Environmental Assessment Act at:
<https://www.ontario.ca/page/class-environmental-assessments-part-ii-order>

CHATHAM TO LAKESHORE LINE

Notice of Completion of Draft Environmental Study Report

As the next step in the Chatham to Lakeshore Line project, Hydro One has completed the draft Environmental Study Report (ESR). This document outlines the Class Environmental Assessment (EA) process conducted and will be available for a 60-day public review and comment period, beginning on June 11, 2021.

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now, and into the future. That is why, in January 2020, Hydro One began a Class Environmental Assessment (EA), in accordance with the Class EA for Minor Transmission Facilities to build a new double-circuit 230 kilovolt transmission line between the Chatham Switching Station (SS) and future Lakeshore Switching Station (SS). This new line will accommodate anticipated electricity demand, improve reliability for homes and businesses and support local industries.

Through this process, three alternative routes and their associated variations were evaluated. Based on environmental and technical information collected and feedback received, Route Alternative 2A was selected as the preferred route for the new transmission line, shown on the map, or in more detail at HydroOne.com/Chatham-to-Lakeshore. The draft ESR summarizes the EA process, route alternatives identified, environmental information collected, consultation undertaken, the route evaluation and selection process, and environmental effects and mitigation measures planned.

Having reached this milestone in the electricity transmission planning process, Hydro One will continue to work with landowners, as design and construction planning continues.

Next Steps and Providing Your Input

The draft ESR will be available for comment from June 11 to August 10, 2021. Due to ongoing public health restrictions, the draft ESR can be viewed electronically on Hydro One's website at HydroOne.com/Chatham-to-Lakeshore. Electronic copies of the draft ESR are also available on USB drives for sign out and/or curbside pickup at the following locations, pending operating hours (please call ahead):

Chatham-Kent Public Library 120 Queen Street Chatham, ON N7M 2G6 Tel: 519-654-2940	Chatham-Kent Public Library 2 Queen Street Tilbury, ON N0P 2L0 Tel: 519-682-0100	Chatham-Kent Civic Centre 315 King Street Chatham, ON N7M 5K8 Tel: 519-360-1998	Atlas Tube Centre Essex County Library-Toldo Branch 447 Renaud Line Lakeshore, ON NOR 1K0 Tel: 519-727-0470
---	---	--	---

To help aid those without access to a computer, limited e-readers will be available at the above locations for sign out. In the event that public health restrictions cease during the review period, hard copies of the draft ESR will also be available for on-site review at the above locations.

Written comments or questions on the draft ESR must be received by Hydro One no later than **4:30 p.m. on Tuesday, August 10, 2021** and must be addressed to:

Paul Dalmazzi, Environmental Planner, Hydro One Networks Inc.
483 Bay Street, North Tower, 12th Floor, Toronto, ON M5G 2P5
Phone: 1-877-345-6799 (community relations hotline)
Email: Community.Relations@HydroOne.com

During the review period, Hydro One will respond to and make best efforts to resolve any issues raised by concerned parties, following which, Hydro One will finalize the ESR and file it with the Ministry of the Environment, Conservation and Parks (MECP). The project will then be considered acceptable to proceed as outlined in the ESR.

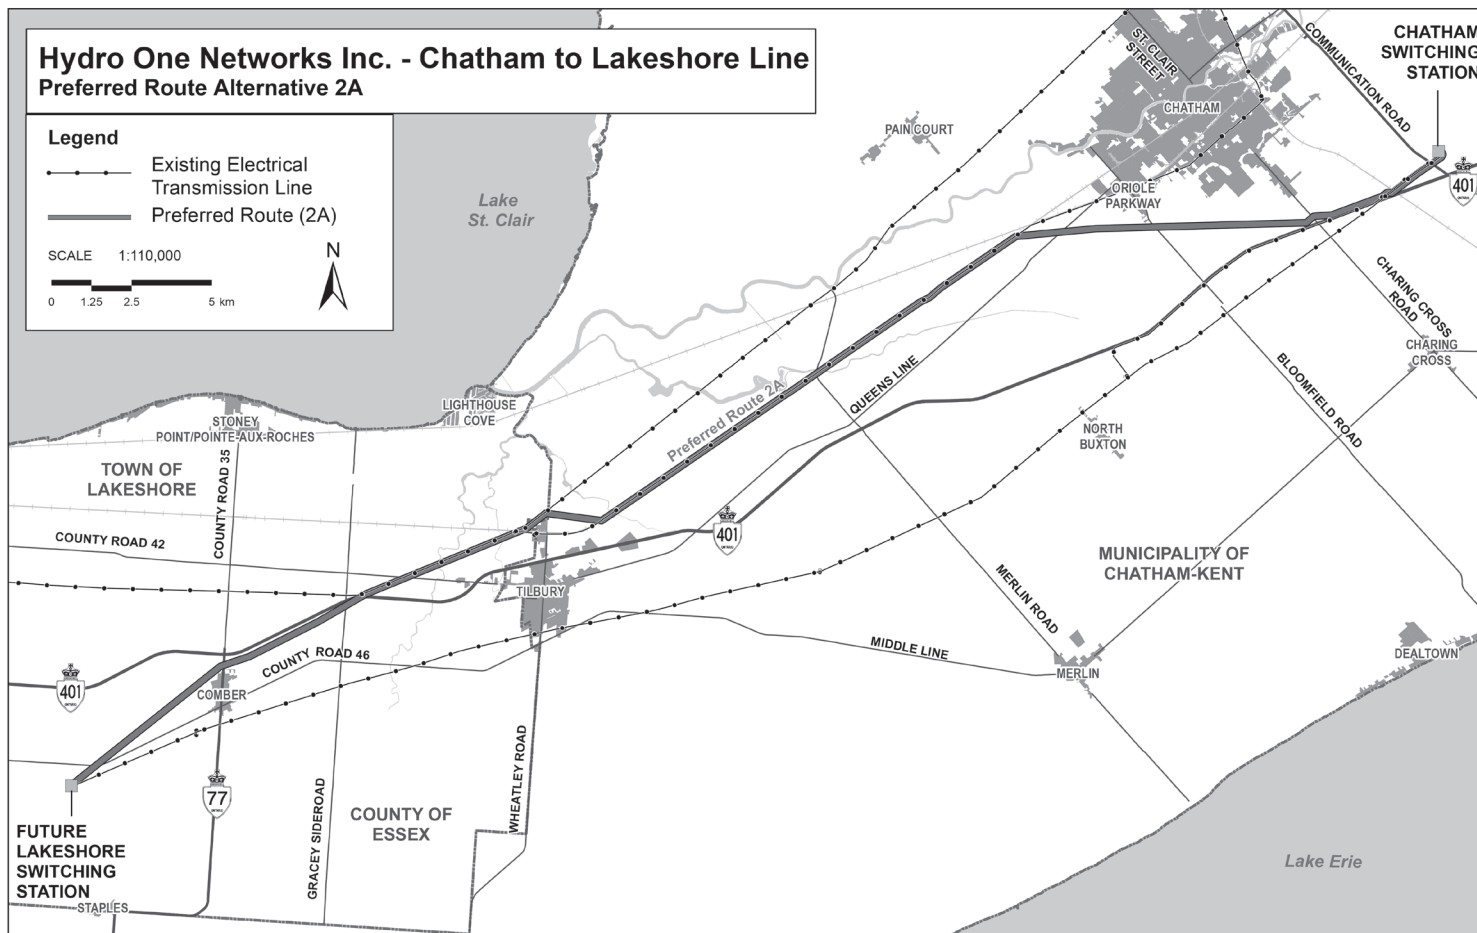

A request may be made to the MECP for an order requiring a higher level of study (i.e., requiring comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g., require further studies), however; only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. The MECP will not consider requests on other grounds.

Requests should include the requester's contact information, as well as specify what kind of order is being requested (request for conditions or comprehensive EA), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. The request should be sent in writing or by email to:

Ministry of the Environment, Conservation and Parks
777 Bay Street, 5th Floor
Toronto ON M7A 2J3
Email: Minister.mecp@ontario.ca

Environmental Assessment Branch
Ministry of the Environment, Conservation and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, ON M4V 1P5
Email: EABDirector@ontario.ca

Requests should also be copied to Hydro One per the contact information provided above. Please visit the ministry's website for more information on requests for orders under section 16 of the Environmental Assessment Act at: <https://www.ontario.ca/page/class-environmental-assessments-part-ii-order>

Re: Duty to Consult Determination and Delegation for the Chatham to Lakeshore Transmission Line

Dear Ms. McCabe,

Hydro One Networks Inc. (Hydro One) is planning to commence a Class Environmental Assessment (EA) for the proposed Chatham to Lakeshore Transmission Line project.

Hydro One received a letter from the Independent Electricity Systems Operator (IESO) on June 11, 2019 to initiate work and activities, including seeking relevant approvals and subsequent construction of a new 230 kV double-circuit line from the Chatham Switching Station ("SS") in the Municipality of Chatham-Kent to the Lakeshore Transformer Station ("TS"), which will be located in the Town of Lakeshore. The required in-service date for the transmission line and associated terminal facilities is prior to the winter of 2025/2026 to address the specified bulk system level needs. For additional detail, please refer to the letter of request from the IESO, included as Attachment 1. Attachment 2 provides a preliminary map of the area, including existing transmission infrastructure and the proposed Lakeshore Transformer Station. Work is underway to develop and refine a study area, which will be shared with the ministry upon completion in the near future.

With respect to approvals, the Chatham to Lakeshore Transmission Line project will require Ontario Energy Board (OEB) approval (i.e., Leave-to-Construct application under Section 92 of the *OEB Act*) as well as environmental approvals including completion of a Class EA per the approved "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), under the Ontario *Environmental Assessment Act*.

Please advise whether the Chatham to Lakeshore Transmission Line project triggers the Crown's constitutional duty to consult with respect to Aboriginal and treaty rights consultation requirements, and if so, whether the Crown delegates the procedural aspects to Hydro One. If affirmative, please provide an exhaustive list of First Nation and or Métis communities that must be consulted on the Chatham to Lakeshore Transmission Line project and indicate what depth of consultation is required for each community. Hydro One respectfully requests that the Crown notify each First Nation and Métis community for which it has delegated procedural aspects of consultation. Hydro One will also notify these same communities early on during the Class EA process.

Hydro One recognizes that if during the consultation process any First Nation or Métis community makes an assertion of a potential impact of the project on its Aboriginal or treaty rights, Hydro One must notify the Crown with respect to potential duty to consult and accommodation requirements. Hydro One is also aware of the need to be mindful of possible archaeological resources in the area. For this reason, Hydro One would appreciate a map of the traditional territories and/or culturally sensitive areas in said locale(s), if available.

If you have any questions on this matter, please don't hesitate to contact me. Should there be any updates to the project information provided above, I will be sure to notify you in a timely manner.

Sincerely,

Elise Croll
Director, Environmental Services

Dear Robert:

Re: Building a new 230 kV double-circuit line from Chatham SS to Lakeshore TS to reinforce the bulk transmission system west of Chatham

The purpose of this letter is to request Hydro One to initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from the Chatham Switching Station (“SS”) to the new Lakeshore Transformer Station (“TS”) located at Leamington Junction and associated station facilities at the terminal stations. The required in-service date for these facilities is prior to the winter of 2025/2026.

The purpose of these new facilities is to:

- Increase the overall transfer capability of the bulk transmission system west of Chatham in order to reliably supply the forecast load growth in the Kingsville-Leamington area and the broader Windsor-Essex Region in the near- to mid-term,
- Permit the resources and bulk facilities in this region to operate efficiently for local and system needs, and
- Maintain existing interchange capability on the Ontario-Michigan interconnection between Windsor and Detroit.

More details regarding the needs and solution options for reinforcing the bulk transmission system west of Chatham are documented in an IESO’s report entitled “Need for Bulk Transmission Reinforcement in the Windsor-Essex Region, June 13, 2019”.

Background

The west of Chatham bulk transmission system extends from Chatham in the east to Windsor in the west and is part of the larger west of London bulk transmission network, as shown in Figure 1.

This system is comprised of a 230 kV and 115 kV high voltage network interconnecting the load centers and large generators in the region to the Ontario electricity grid. As well, it provides a point of interconnection with the power system in Michigan. The west of Chatham system plays an important role in providing an adequate and reliable electricity supply to customers in the

Windsor-Essex region and enabling efficient operations of the resources in the region and on the interconnection.

There has been a significant increase in the demand forecast for electricity in the Kingsville-Leamington area. Primarily, this is driven by rapid expansion in the greenhouse sector and aggressive adoption of artificial crop lighting. As a result, the electricity demand in the Windsor-Essex region is forecast to double over the next five years and continue to grow in the longer term beyond that.

While the current demand in this region is being adequately supplied from local generation and from the region's bulk transmission system at this time, the significant and sustained growth forecast for the Kingsville-Leamington area and the broader Windsor-Essex region will require reinforcement of the existing supply. Studies conducted by the IESO, with support from Hydro One and the local LDCs, concluded that reinforcement of the existing transmission system, both the bulk and regional networks, is necessary and is the most economical solution to address the region's near- to mid-term electricity needs. New supply options were considered, but found to be less economic than the transmission solution. The studies also identify that supplementing the available supply with demand-side and interim solutions, while the transmission solution is being implemented, is also beneficial.

Integrated Transmission Solution

The recommended transmission solution comprises two stages:

- Stage 1: A new switching station at the Leamington Junction ("Lakeshore TS") to be in-service by the end of 2022, as identified in the hand-off letter¹ issued by the IESO to Hydro One on January 31, 2019. This will improve the capability of the system to connect and supply additional transformer stations and large transmission customers that are currently planning to connect.
- Stage 2: A new 230 kV double-circuit transmission line connecting Chatham SS to Lakeshore TS and associated terminal facilities, with an in-service date prior to the winter of 2025/2026, in order to address the specified bulk system level needs, as documented in the aforementioned report.

The ongoing Windsor-Essex Integrated Regional Resource Plan ("IRRP") will incorporate these transmission solution recommendations and continue to look at needs of the local area, focus on investigation of non-wires alternatives to manage evolving capacity needs in the region, and provide customers in the region with adequate line connection and step-down transformation capacity, while maintaining a level of reliability consistent with accepted planning standards.

West of Chatham (Chatham to Lakeshore) Transmission Line Project Scope

Based on the above considerations, the IESO recommends that Hydro One initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from Chatham SS to the new

¹ Further details on the switching station can be found here: http://www.ieso.ca/-/media/Files/IESO/Document-Library/regional-planning/Windsor-Essex/Switching-Station-in-the-Leamington-Area_Signed_Jan-31-2018.pdf?la=en

Lakeshore TS and associated station facilities at the terminal stations. Single-line diagrams of the existing and proposed facilities are shown in Figures 2 and 3 respectively. The work for the new line will need to be coordinated with the Lakeshore TS development, in order to appropriately plan the station layout for connection and allow for the installation of any reactive facilities, as required.

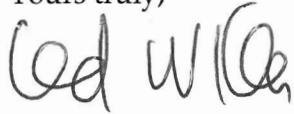

The project and its related costs and timelines have been discussed with Hydro One. The IESO understands that an in-service date of prior to the winter of 2025/2026 is achievable, while recognizing that earlier implementation will only further support growth in the region. Hydro One has indicated that costs for the project are projected to range between \$115 M and \$150 M. If project costs are forecasted to exceed the upper end of this range, and/or the delivery timeline cannot meet the targeted in-service date, Hydro One will notify the IESO so that the assessment of the bulk system reinforcement plan in the Windsor-Essex region can be updated.

Future Activities

The subject transmission line is the second stage of a number of improvements to the bulk transmission system that will be required to support load growth in the Windsor-Essex region. Together, the new line and station form the basis for accommodating mid- and long-term needs in the Windsor-Essex region and into the broader West of London area. The IESO will continue to monitor the progress of load and generation developments in the area. Future stages of system reinforcement will be triggered as required. The IESO feels that this is a prudent approach to meeting the need in the region.

IESO will continue to work with, and provide support to, Hydro One in the implementation of this project. We look forward to an ongoing exchange of information as Hydro One proceeds with the development of the project.

Yours truly,

Leonard Kula, P. Eng.

Vice President, Planning, Acquisition and Operations, and Chief Operating Officer

Re: Chatham to Lakeshore Transmission Line Project

Dear Ms. Croll:

Thank you for your letter dated July 5th, 2019 requesting clarification from the Ministry of Energy, Northern Development and Mines (ENDM) on the duty to consult requirements for the proposed Chatham to Lakeshore Transmission Line Project (the Project).

As your letter states, the preliminary scope of the Project consists of a new, 230 kilovolt double-circuit line between the existing Chatham Switching Station in the Municipality of Chatham-Kent to the proposed Lakeshore Transformer Station, in the Town of Lakeshore. The Project will help ensure the transmission system remains adequate to meet electricity demand, which is expected to increase significantly over the next decade due to strong agricultural growth in the Windsor-Essex area.

On behalf of Ontario (the Crown), ENDM has reviewed the information provided by Hydro One with respect to the Project and assessed it against the Crown's current understanding of the interests and rights of communities in the area. In doing so, ENDM has determined that the Project may have the potential to affect First Nation and/or Métis communities who hold or claim Aboriginal or treaty rights protected under section 35 of Canada's *Constitution Act* 1982.

The Crown has a constitutional duty to consult and, where appropriate, accommodate Aboriginal communities when the Crown contemplates conduct that might adversely impact established or asserted Aboriginal or Treaty rights. While the legal responsibility to meet the duty to consult lies with the Crown, the Crown may delegate the day-to-day, procedural aspects of consultation to project proponents.

The Crown must satisfy itself that both the substantive and procedural aspects of consultation are completed before issuing certain regulatory approvals. The Crown may use existing regulatory processes as a vehicle for fulfilling its constitutional duty, including the

“Class Environmental Assessment for Minor Transmission Facilities” (Class EA) under Ontario’s *Environmental Assessment Act*. These consultation obligations are in addition to the public and Aboriginal consultation requirements outlined in the Class EA.

I am writing to advise you that on behalf of the Crown – including all provincial ministries – that ENDM is delegating the procedural aspects of consultation to Hydro One through this letter. ENDM expects that Hydro One will undertake the procedural aspects of consultation with respect to any regulated requirements for the proposed Project. The Crown will fulfill the substantive aspects of consultation and retain oversight over all aspects of the process for fulfilling the Crown duty. Please see below for details about the responsibilities of Hydro One in fulfilling the procedural aspects of consultation.

Based on the Crown’s assessment of First Nation and Métis community rights and potential project impacts, the following Aboriginal communities should be consulted on the basis that they have or may have constitutionally protected Aboriginal and/or Treaty rights that may be adversely affected by the Project.

Community	Mailing Address
Aamjiwnaang First Nation	978 Tashmoo Ave. Sarnia, ON N7T 7H5
Bkejwanong (Walpole Island) First Nation	RR 3 Wallaceburg, ON N8A 4K9
Caldwell First Nation	14 Orange St. Leamington, ON N8H 1P5
Chippewas of Kettle and Stony Point First Nation	6247 Indian Lane Kettle and Stoney Point First Nation, ON N0N 1J1
Chippewas of the Thames First Nation	RR1 Muncey, ON N0L 1Y0
Oneida Nation of the Thames	RR2 Southwold, ON N0L 2G0
Six Nations of the Grand River First Nation Six Nations of the Grand River Elected Council	1695 Chiefswood Rd. Oshweken, ON N0A 1M0

Haudenosaunee Confederacy Chiefs Council/Haudenosaunee Development Institute	16 Sunrise Court, Suite 600 Oshweken, ON N0A 1M0
--	--

This rights-based consultation list is based on information that is subject to change. Aboriginal communities may make new rights assertions at any time, and other developments can occur that may require additional Aboriginal communities to be notified and/or consulted. If you become aware of potential rights impacts on communities that are not listed above at any stage of the consultation and approval process, kindly bring this to the attention of ENDM immediately, along with any information supporting the claim. ENDM will then assess whether it is necessary to include the community on the rights-based consultation list above.

The Crown relies on consultation conducted by proponents when it assesses the Crown's obligations and directs proponents during the regulatory process. It is ENDM's expectation that Hydro One will communicate directly with the communities listed above and that Hydro One will:

- Notify the communities that Hydro One has been delegated the procedural aspects of consultation by the Crown;
- Notify the communities that they may contact the Crown directly should they have any questions or concerns;
- If you have any questions or concerns relating to a specific ministry's mandate, you may contact any of the following ministry representatives. Indigenous communities may also be offered the following contact information should they wish to communicate directly with the Crown:

Ministry/Contact	Phone/Email
Chloe Lazakis – Senior Advisor, Indigenous Energy Policy Unit, Ministry of Energy, Northern Development and Mines	416 648 0294 Chloe.lazakis@ontario.ca
Craig Newton – Environmental Planner, Ministry of the Environment, Conservation and Parks	519 873 5014 Craig.newton@ontario.ca
Joe Vecchiolla – Policy Lead, Realty Policy Branch, Ministry of Government and Consumer Services	647 267 3247 Joseph.vecchiolla@ontario.ca

- Provide First Nation and Métis communities with timely notice of the project for the purposes of considering possible impacts on their Aboriginal and/or treaty rights;
- Provide First Nation and Métis communities with information about the project including anticipated impacts, and information on project timelines;
- Follow up with First Nation and Métis communities to ensure they have received project information and that they are aware of the opportunity to express comments and concerns about the project;
- Explain the regulatory and approval processes that apply to the project;

- Gather information about how the project may adversely impact the relevant Aboriginal and/or treaty rights (for example, hunting, fishing);
- Consider the comments and concerns raised by First Nation and Métis communities and providing responses;
- Where appropriate, discuss accommodation, including mitigation or other measures to address potential adverse impacts on Aboriginal and/or treaty rights;
- Where appropriate, develop and discuss with the Crown appropriate accommodation measures;
- Take reasonable steps to foster positive relationships with the First Nation and Métis communities;
- Bear the reasonable costs associated with these procedural aspects of consultation;
- Facilitate Aboriginal communities' capacity to participate in consultation on the project, which may include providing capacity funding;
- Maintain records of activities in relation to carrying out the delegated procedural aspects of consultation and providing information to ENDM.

As part of its obligations to the Aboriginal communities owed the duty to consult, the Crown will provide notification letters to the affected communities of delegation to Hydro One and copy Hydro One on the out-going correspondence.

I trust that this information provides clarity and direction regarding the respective roles of the Crown and Hydro One. If you have any questions about this letter or require any additional information, please contact Chloë Lazakis (above).

Sincerely,

Samir Adkar

Dear Chief Plain,

Chatham to Lakeshore Transmission Line Project

I am writing to notify you that on June 11, 2019, Hydro One received a letter from the Independent Electricity Systems Operator (IESO) instructing Hydro One to initiate work and activities, including seeking relevant approvals and subsequent construction and operation of a new 230 kV double-circuit line from the Chatham Switching Station ("SS") in the Municipality of Chatham-Kent to the Lakeshore Transformer Station ("TS"), which will be located in the Town of Lakeshore. The required in-service date for the transmission line and associated terminal facilities is prior to the winter of 2025/2026 to address the specified bulk system level needs.

With respect to approvals, the Chatham to Lakeshore Transmission Line project will require Ontario Energy Board (OEB) approval (i.e., Leave-to-Construct application under Section 92 of the OEB Act) as well as environmental approvals including completion of a Class EA per the approved "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), under the Ontario Environmental Assessment Act.

Subsequent to the letter from the IESO, on November 29, 2019, Hydro One received a letter from the Ministry of Energy, Northern Development and Mines (ENDM), delegating procedural aspects of Consultation with Indigenous communities to Hydro One. We understand you have received a notification letter from the ENDM regarding this project and its delegation of consultation to Hydro One.

We look forward to discussing this project further with you and Hydro One's Indigenous Relations team will be following up with you shortly.

In the interim, I would be pleased to answer any questions you may have. Also, please feel free to contact Daniel Charbonneau, Senior Manager, Indigenous Relations, at 416-345- 4357 or Sara Jane Souliere, Senior Advisor, Indigenous Relations, at 416-345-4431.

Sincerely,

A handwritten signature in black ink, appearing to read "Derek Chum". The signature is fluid and cursive, with a long horizontal stroke at the end.

NOTICE OF COMMENCEMENT

Class Environmental Assessment for a new double-circuit 230 kV transmission line between Chatham Switching Station and the planned Lakeshore Switching Station

Dear Chief Plain,

Hydro One Networks Inc. (Hydro One) is initiating a Class Environmental Assessment (Class EA) to construct a new double-circuit 230 kV transmission line from the Chatham Switching Station (SS) in the Municipality of Chatham-Kent to the Lakeshore Switching Station (SS) which will be located in the Town of Lakeshore.

In June 2019, Hydro One received direction from the Independent Electricity System Operator (IESO) to initiate work on development activities, including seeking relevant approvals for a new 230 kV double-circuit transmission line. This new transmission line is needed to ensure that Hydro One meets the growth and future demand of the industrial, greenhouse and residential sectors in the Essex County region. The required in-service date for the new line and associated equipment is the end of 2025.

The Chatham to Lakeshore Transmission Line project is subject to the “Class Environmental Assessment for Minor Transmission Facilities” (Hydro One, 2016), in accordance with the Ontario Environmental Assessment Act. The Class EA is a streamlined planning process that has proven effective in ensuring minor transmission projects with a predictable range of effects have feasible

environmental mitigation and/or protection measures in place. The project will also require Ontario Energy Board (OEB) approval under Section 92 (Leave to Construct) of the OEB Act.

Hydro One has identified a number of potential transmission alternatives (routes) for this new transmission line, which we believe to be technically and economically feasible and would meet the need for the project as identified by the IESO. During the Class EA process, these transmission alternatives will be assessed and evaluated on the basis of natural environment, socio-economic environment, and technical/cost factors to select the preferred alternative (route) for the undertaking. These transmission alternatives are shown on the attached map and will form the basis for the Class EA study area. Available background data collection is planned to occur within 500 m on each side of these transmission alternatives, and field studies are proposed to occur within 120 m on each side of these alternatives.

Hydro One has notified the Ministry of Energy, Northern Development and Mines of this project, and sought direction regarding the constitutional duty to consult and accommodate First Nation and Métis communities. On November 29, 2019, the Ministry of Energy, Northern Development and Mines, on behalf of the Province of Ontario (“the Crown”), replied to Hydro One and delegated the procedural aspects of the duty to consult with the Aamjiwnaang First Nation to Hydro One. Should representatives of Aamjiwnaang First Nation have any questions or concerns with respect to the Crown’s delegation on the duty to consult, they may contact any of these Crown contacts directly:

Ministry/Contact	Phone/Email
Chloë Lazakis Senior Advisor, Indigenous Energy Policy Ministry of Energy, Northern Development and Mines	(416) 648-0294 Chloe.Lazakis@Ontario.ca
Craig Newton Environmental Planner, Southwest Region Ministry of the Environment, Conservation and Parks	(519) 873-5014 Craig.Newton@Ontario.ca
Joe Vecchiolla Policy Lead, Realty Policy Branch Ministry of Government and Consumer Services	(647) 267-3247 Joseph.Vecchiolla@Ontario.ca

In the coming weeks, Hydro One will be formally notifying government agencies, elected officials, municipal staff and members of the public about the commencement of the Class EA for the Chatham to Lakeshore Transmission Line project, and a Community Information Centre (CIC) for the project is tentatively being planned for March 2020, with specific details to follow. The Hydro One project team will be pleased to arrange a separate meeting to discuss the project as per your direction.

We welcome your comments and feedback regarding this project. Should there be any update to the project information provided, I will ensure you are promptly informed.

As per the request of the Minister of the Environment, Conservation and Parks, information regarding the *Freedom of Information and Protection of Privacy Act* is included and can be viewed below.

If you have questions or would like any additional information about the project, please feel free to contact me at Daniel.Charbonneau@hydroone.com or 416-345-4357, or Sara Jane Souliere, Senior Advisor, Indigenous Relations, at SaraJane.Souliere@Hydroone.com or 416-345-4431. A project website is also being created and will be available shortly at www.HydroOne.com/Chatham-to-Lakeshore.

Sincerely,

Daniel Charbonneau

NOTICE OF VIRTUAL INFORMATION SESSIONS

CHATHAM TO LAKESHORE LINE PROJECT

We invite you to join our upcoming virtual information sessions for the Chatham to Lakeshore Line project on Monday, May 25th.

As you may recall, the in-person Community Information Centres were postponed in light of the global COVID-19 pandemic. As we continue to monitor the latest pandemic developments, we will look for a safe opportunity to reschedule these in-person sessions within the community.

In the interim, we remain committed to ensuring that you have up to date information on the project. That is why we will be hosting a virtual information session, which will include both a live stream presentation and telephone conference. By joining our virtual session, you will have an opportunity to learn more about the project and Class Environmental Assessment process, as well as ask questions to members of our project team. To submit a question in advance, please email your inquiry to SaraJane.Souliere@HydroOne.com

PLEASE JOIN US:

MONDAY MAY 25, 2020

6:45 – 7:45 P.M. EST

TO PARTICIPATE:

1. Dial **1-800-368-7080** to join the call and listen to the presentation
 2. Visit www.HydroOneEngagement.ca to register and view our live stream materials
- As part of our outreach, you may also receive an automated call on May 25th, reminding you about the session and inviting you to stay on the call to participate.

CLASS ENVIRONMENTAL ASSESSMENT

Earlier this year, Hydro One commenced a Class Environmental Assessment (EA) in accordance with the Ontario Environmental Assessment Act. As part of this process, we are engaging with and gathering input from residents, First Nations communities, stakeholder groups, and businesses small and large to help shape the project, including the evaluation of the route alternatives shown on the reverse map. Meaningful consultation and engagement is important to Hydro One, and we look forward to having you join us.

If you would like any further information or have any questions, please contact Sara Jane Souliere, Sr. Advisor, Indigenous Relations at:

Tel: 1-(647)-241-0495

Email: SaraJane.Souliere@HydroONE.com

Website: www.HydroOne.com/Chatham-to-Lakeshore

WELCOME

TO OUR VIRTUAL COMMUNITY INFORMATION SESSION

CHATHAM TO LAKESHORE TRANSMISSION LINE PROJECT

Polling Question:

Which criteria do you feel is most important to take into consideration as a part of this project?

If it is protection of vegetation, wildlife and/or water bodies, press 1

If it is archaeological assessments, press 2

If it is the protection of Indigenous cultural values and traditional land use, press 3

If it is the Class Environmental Assessment process, press 4

TODAY'S AGENDA

- Project overview
- Class Environmental Assessment process
- First Nations Consultation
- Proposed route alternatives and route selection process
- Key milestones and next steps
- Live Q&A session

KEY ORGANIZATIONS

Building infrastructure to meet the energy needs of today and tomorrow involves a number of partners, including:

Builds, owns, operates and maintains electricity transmission and distribution facilities across Ontario.

Oversees planning to ensure electricity needs are met both now and in the future.

Ministry of the Environment,
Conservation and Parks

Legislative authority for environmental assessments in Ontario.

Regulates the electricity market in Ontario, including electricity rates.

HOW THE SYSTEM WORKS

ONTARIO POWER GENERATION AND PRIVATE GENERATION COMPANIES

HYDRO ONE OR LICENSED TRANSMITTER

HYDRO ONE OR LOCAL DISTRIBUTION COMPANY

PROJECT OVERVIEW

A safe and reliable electricity supply is essential to supporting economic growth, and as businesses and industry in southwestern Ontario continue to grow, so does the need for more electricity.

To help meet this growth, Hydro One needs to build a new double circuit 230 kilovolt transmission line between our Chatham Switching Station and our future Lakeshore Switching Station, as requested by the Independent Electricity System Operator (IESO).

This line will add 400 megawatts of power to the area – or enough power to energize a city the size of Windsor.

This project requires a Class Environmental Assessment, where multiple route alternatives will be evaluated.

It is anticipated this line will be in-service prior to the end of 2025.

WHAT IS A CLASS ENVIRONMENTAL ASSESSMENT?

The Class Environmental Assessment (Class EA) for Minor Transmission Facilities sets out a planning and decision-making process for projects with predictable environmental effects that can be mitigated.

KEY COMPONENTS

- Consultation with Indigenous communities, community members, elected officials, interest groups and government agencies;
- Collection of environmental inventory;
- Identification and evaluation of alternative methods;
- Identification of potential effects and mitigation measures;
- Selection of a preferred alternative
- A draft Environmental Study Report (ESR) that will be made available for a 30-day public review and comment period; and
- Submission of Statement of Completion and Final ESR

FIRST NATIONS CONSULTATION

- Hydro One received delegation of the procedural aspects of consultation from the Ministry of Energy Northern Development and Mines (MENDM).
- Throughout the project development process Hydro One will consult with all First Nations communities identified by the MENDM.

FIRST NATIONS PARTICIPATION

1. Early engagement with sharing information on the proposed project, and early dialogue to identify First Nations' issues and concerns.
2. Offering capacity funding to all **identified** First Nations to support the participation in the project consultation work and this includes capacity for each First Nation to hire a Community Consultation Coordinator.
3. Collaborating during environmental surveys and archaeological assessments involving First Nation monitors.
4. Exploring various ways and means to participate in the project such as procurement, contracting and employment opportunities and potential partnerships.

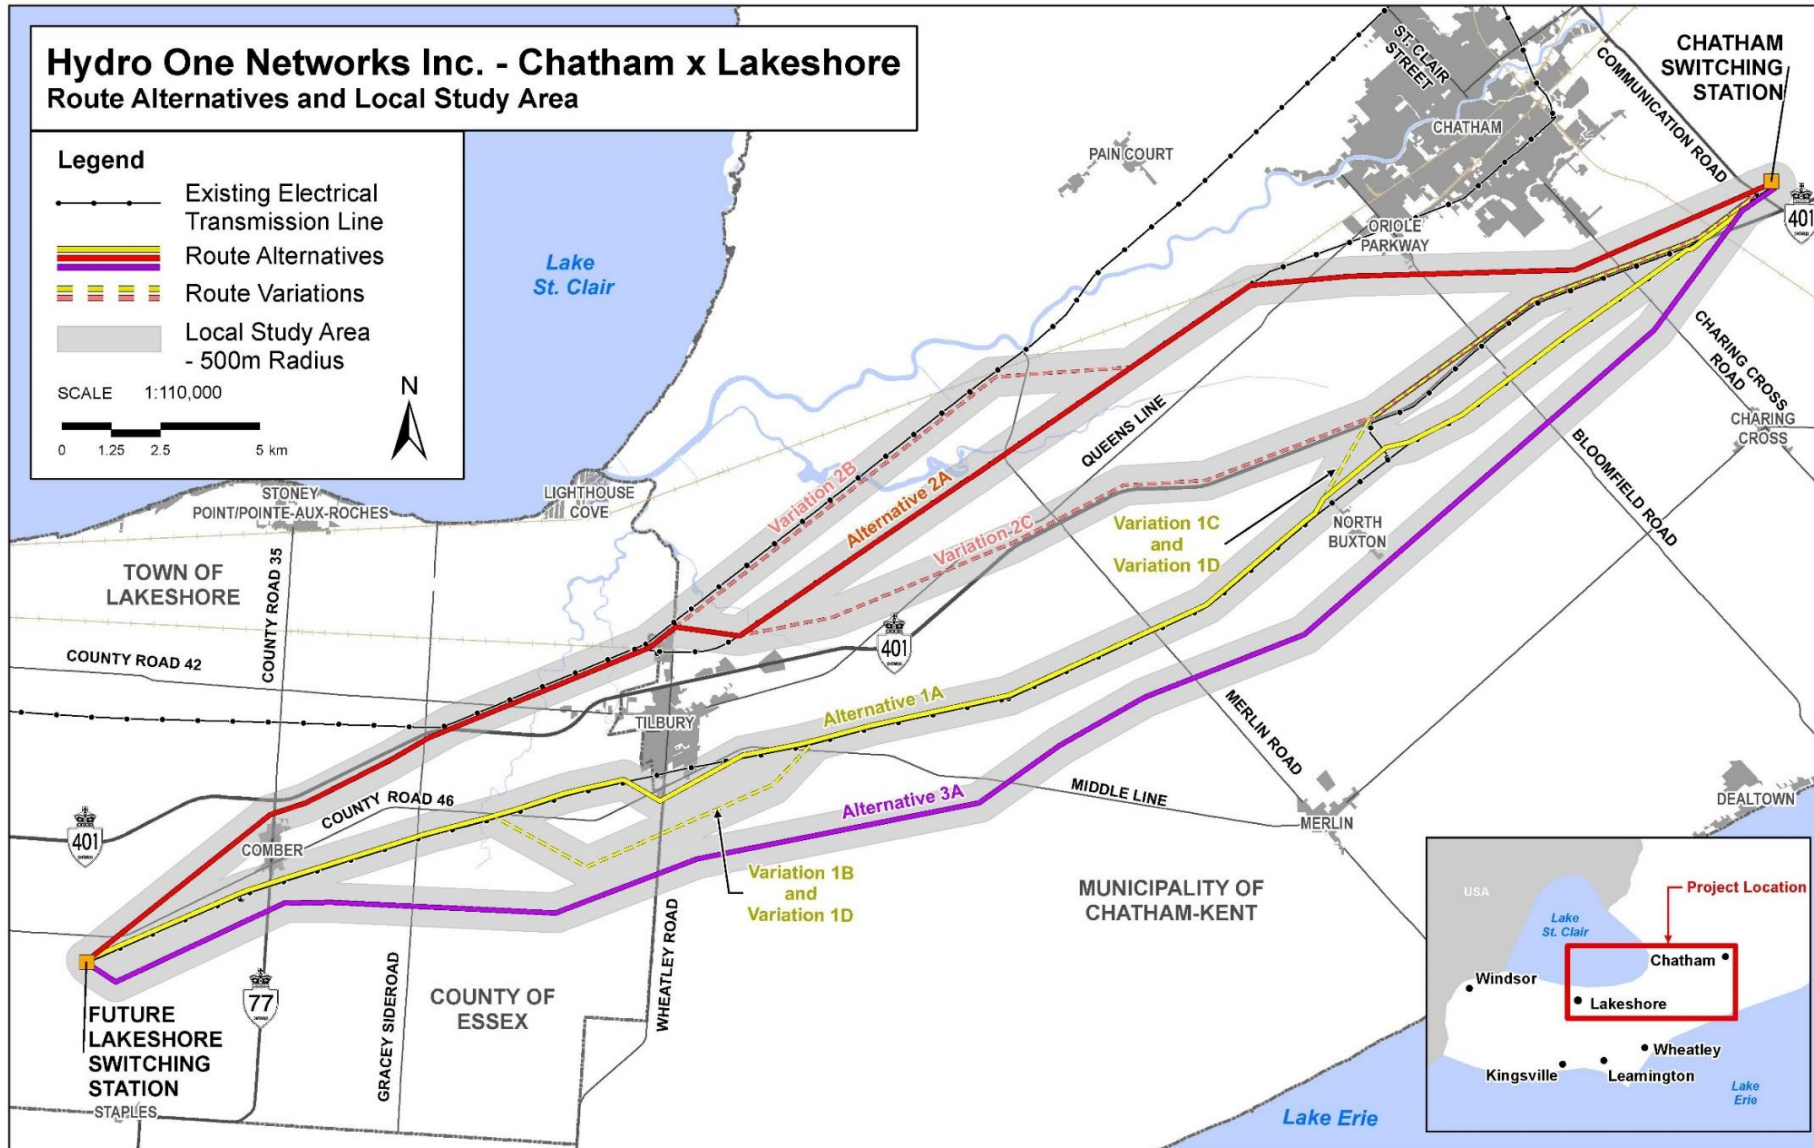

HOW WE GOT HERE

A preliminary assessment was conducted to map feasible route alternatives for the new transmission line.

This involved mapping out known environmental and technical features, and identifying opportunities to parallel existing linear infrastructure and utilize existing easements, where possible.

ROUTES WE ARE STUDYING

EVALUATION OF ROUTES

To evaluate the route alternatives, we will:

- Meet with First Nations communities, community members, elected officials, and interest groups through Community Information Centres and engagement opportunities to gather feedback;
- Conduct background research and detailed environmental field studies and technical assessments; and
- Host a number of workshops with technical committees (to be established) and community members.
- Hydro One will work with directly impacted property owners that will have a proposed structure or corridor on their property.

Based on the feedback and data collected, Hydro One will evaluate each route alternative based on a number of criteria.

EXAMPLE EVALUATION CRITERIA

Natural Environment

- Vegetation
- Water bodies or aquatic habitat
- Terrestrial wildlife
- Natural hazards (erosion, flood plains, etc.)
- Species at risk/sensitive species

First Nations/ Traditional Land Use

- First Nations interests (cultural sites, traditional areas, historical lands and resources)

Socio-Economic Environment

- Residences
- Commercial operations
- Existing infrastructure (roads, pipelines, transmission lines, etc.)
- Agricultural lands, resources and operations
- Archaeological or built heritage resources

Technical and Cost

- Construction complexity
- Cost

HOW TO GET INVOLVED

Your feedback is important to us and we want to hear from you. You can provide us with your feedback by:

Asking a question via our virtual community information session

Submitting your comments to Indigenous.Relations@HydroOne.com or 1-647-241-0495

Attending future Community Information Centres and other engagement opportunities within your community

To stay up to date on project details, please visit our webpage
www.HydroOne.com/Chatham-to-Lakeshore

PROJECT MILESTONES

Environmental studies and preferred route selection

Real estate outreach

Continued First Nations and stakeholder engagement opportunities (i.e. meetings with property owners, local businesses, associations etc.)

What project information would like to learn more about in future engagement sessions within the community?

Response:

If it is project need, press 1

If it is the technical route selection process, press 2

If it is Indigenous business opportunities, press 3

If it is employment and training opportunities, press 4

Table 3: Summary of Questions and Responses (May 25, 2020)

Theme(s)	Question Summary	Hydro One Response Summary
Environmental Assessment Process	Will Hydro One incorporate Indigenous Knowledge into the environmental studies?	Hydro One will incorporate feedback regarding Indigenous Knowledge into the Environmental Assessment and, where available, Indigenous Knowledge will form part of the route evaluation process and will also be applied to the effects assessment of the preferred route. The contact information for Hydro One’s Indigenous Relations Department was shared with participants.
Natural Environment	Will herbicide be used at any time in the project?	As the project is still in the early planning stages, it is unknown whether herbicides will be needed. Hydro One acknowledged the concerns of the potential use of herbicides and committed to being transparent. Any herbicide use will be planned in accordance with integrated pest management standards and to limitations such as setbacks from water bodies and other best practices.
Route Selection	Does Hydro One have a preferred route?	Hydro One does not currently have a preferred route. In January, Hydro One began a Class Environmental Assessment for the project, and as part of this process, Hydro One is currently evaluating three route alternatives and their associated variations. Over the next several months, Hydro One will continue to study and learn more about each route by collecting data from a variety of sources, such as existing reports and plans; conducting environmental field surveys and technical assessments; and holding a wide range of engagement opportunities to collect input and feedback from elected officials, First Nations communities, interest groups, local residents and property owners. Through this process, Hydro One will evaluate and compare each of the route alternatives to select a preferred route for the new transmission line. In early 2021, Hydro One expects to select a preferred route for the new line and will present the preferred route, as well as explain the rationale for its selection, in the Environmental Study Report.
	As part of the work to identify the route have you considered the old rail corridor or a portion of the 401?	<p>Hydro One has thoroughly investigated the potentially feasible route alternatives to get from the Chatham Switching Station to the future Lakeshore Switching Station, and has compiled a list of diverse route alternatives that will meet the need for the project.</p> <p>As part of the preliminary work to identify potential route alternatives, the Hydro One team looked at a number of considerations, including known technical and environmental constraints such as waterbodies, dense residential areas and environmentally significant areas. Hydro one also considered opportunities to parallel linear infrastructure – such as existing transmission corridors, Highway 401 and railroads. More specifically, Hydro One looked at paralleling the old railroad which runs through North Buxton, Fletcher, Tilbury, Comber and onwards. This railroad, however, was deemed unfeasible due to several technical constraints, including its narrow width, bisection of established residential areas, the availability of the railway corridor as sections are utilized by other industries, and encroachment upon existing wind turbines.</p> <p>Note: Following these information sessions, due to a number of requests from various stakeholders, Hydro One is currently re-evaluating the abandoned rail corridor to determine if it (or sections thereof) may be feasible to consider as potential route alternatives for the new transmission line. If deemed feasible, this will be broadly communicated and the new potential route will be considered alongside the other previously identified route alternatives.</p> <p>Additionally, Route 2C parallels the Highway 401 corridor to the extent feasible. Through the Class Environmental Assessment, Hydro One will evaluate and compare each of these route alternatives to select a preferred route for the new transmission line equally based on criteria that Hydro One has developed through studies and consultation.</p> <p>In early 2021, Hydro One expects to select the preferred route for the new line, and will present that preferred route as well as explain the rationale for its selection.</p>

Theme(s)	Question Summary	Hydro One Response Summary
Property Acquisition	Once the route has been selected will Hydro One be purchasing the land it needs or pursuing easement rights?	Hydro One is currently considering multiple route alternatives and variations as part of the Class Environmental Assessment process. Once a preferred route is selected through this process, Hydro One's real estate team will work closely with directly impacted property owners who have the preferred right-of-way on their property. In order to construct the line, Hydro One will require new land rights. Hydro One's goal is to secure voluntary property settlements, using project specific land acquisition compensation principles, which would grant Hydro One the ability to construct, operate and maintain the transmission line. These principles will provide property owners the choice of Hydro One either acquiring an easement or ownership of the lands required for the project corridor.
Job Opportunities	Are there opportunities for Indigenous participation in the upcoming environmental studies?	Hydro One welcomes Indigenous participation and provided examples of where Indigenous participation will be required throughout the project, such as monitoring for field studies and the employment of community consultation coordinators.
	Was there any participation of First Nation in the Hiring process?	Hydro One is currently in the early definition and delivery stage; however, Hydro One believes that in order to be a good partner with Indigenous Communities, opportunities for training and skill development are to be offered.
Consultation	Will there be potential business opportunities for Indigenous Business?	Hydro One acknowledges that the utilization of Indigenous Business is an important part of partnering with the community. Incentives will be offered to contractors to purchase goods and services from Indigenous-owned businesses for the delivery of project needs.
	Has consultation with First Nation communities started?	Hydro One's consultation with Indigenous Communities started in the early stages of project development (December 2019), and will continue throughout the project.
	How can I provide my feedback on the route variation of this project?	Hydro One will offer several opportunities to engage with interested individuals through direct contact with their Indigenous Relations Department and through community sessions. Several areas where individual feedback may aid in the project include: 1) Helping to understand local and existing environment; 2) The development of evaluation criteria – in an Indigenous context; 3) Informing the project team on how to help avoid or mitigate environmental effects and learning about the net effects (including positive). This will be documented in the Environmental Screening Report.

This page left intentionally blank.

Table 5: Summary of Questions and Responses (May 26, 2020)

Theme(s)	Question Summary	Hydro One Response Summary
Environmental Assessment Process	Will Hydro One incorporate Indigenous Knowledge into the environmental studies?	Hydro One will incorporate feedback regarding Indigenous Knowledge into the Environmental Assessment and, where available, Indigenous Knowledge will form part of the route evaluation process and will also be applied to the effects assessment of the preferred route. The contact information for Hydro One’s Indigenous Relations Department was shared with participants.
	Referring to slide 10 – a number of factors are considered as “criteria” could you explain what those criteria are?	The evaluation categories are Natural Environment; Socio-economic; First Nation Traditional Land Use; and Technical Cost. The criteria within the aforementioned categories will be used to evaluate which route is preferred based on the anticipated net impact of each route.
Natural Environment	Will herbicide be used at any time in the project?	As the project is still in the early planning stages, it is unknown whether herbicides will be needed. Hydro One acknowledged the concerns of the potential use of herbicides and committed to being transparent. Any herbicide use will be planned in accordance with integrated pest management standards and to limitations such as setbacks from water bodies and other best practices. In the event that herbicides will be used, more information will be provided to communities and individuals interested in this topic.
Route Selection	Does Hydro One have a preferred route?	Hydro One does not currently have a preferred route. In January, Hydro One began a Class Environmental Assessment for the project, and as part of this process, Hydro One is currently evaluating three route alternatives and their associated variations. Over the next several months, Hydro One will continue to study and learn more about each route by collecting data from a variety of sources, such as existing reports and plans; conducting environmental field surveys and technical assessments; and holding a wide range of engagement opportunities to collect input and feedback from elected officials, First Nations communities, interest groups, local residents and property owners. Through this process, Hydro One will evaluate and compare each of the route alternatives to select a preferred route for the new transmission line. In early 2021, Hydro One expects to select a preferred route for the new line and will present the preferred route, as well as explain the rationale for its selection, in the Environmental Study Report.
	On page 10 of the slide deck – 3 alternate routes are shown, what is the cost comparative for each of the routes shown?	Currently, Hydro One has three alternative routes and a number of factors will be considered; however, the project is still in the early planning stages. Therefore, presenting an accurate reflection of the cost at this point is difficult. Cost is currently included in the evaluation criteria; however, it is not the only criterion, and it may be impacted by some of the other criteria. At this point, Hydro One cannot speculate on the price differentials, but they will be analyzed as part of the weighted evaluation criteria and presented as new information emerges through detailed design.
Property Acquisition	Once the route has been selected will Hydro One be purchasing the land it needs or pursuing easement rights?	Hydro One is currently considering multiple route alternatives and variations as part of the Class Environmental Assessment Process. Once a preferred route is selected through this process, Hydro One’s real estate team will work closely with directly impacted property owners who have the preferred right-of-way on their property. In order to construct the line, Hydro One will require new land rights. Hydro One’s goal is to secure voluntary property settlements, using project specific land acquisition compensation principles, which would grant Hydro One the ability to construct, operate and maintain the transmission line. These principles will provide property owners the choice of Hydro One either acquiring an easement or ownership of the lands required for the project corridor.

Theme(s)	Question Summary	Hydro One Response Summary
Property Rights	Will this project go through Pinery Provincial Park? “This is considered unceded territory and will present issues.”	Pinery Provincial Park will not be affected as it is approximately 100 km north of the Study Area.
Job Opportunities	Are there for opportunities for Indigenous participation in the upcoming environmental studies? E.g., can Indigenous communities with their own trained monitors and other technical staff be used for the project?	Hydro One welcomes Indigenous participation and provided examples of where Indigenous participation will be required throughout the project, such as monitoring for field studies and the employment of community consultation coordinators.
	Was there any participation of First Nations in the hiring process?	Hydro One welcomes Indigenous participation and provided examples of where Indigenous participation will be required throughout the project, such as monitoring for field studies and the employment of community consultation coordinators.
	Will there be potential Indigenous employment and procurement opportunities through this project?	Hydro One recognizes the importance of engagement with First Nations communities in connection with the Chatham to Lakeshore Project. Hydro One will explore and discuss various benefits, including, but not limited to, capacity funding to participate in the engagement process, procurement, contracting and employment opportunities and potential partnerships. Indigenous Peoples are an important part of Hydro One’s workforce. Hydro One is committed to increasing the representation of qualified Indigenous employees as part of the Chatham to Lakeshore project and for all levels in their workforce. Hydro One is committed to developing and maintaining business relationships with Indigenous businesses and communities for opportunities. Hydro One supports procurement opportunities for qualified Indigenous-owned businesses and the development and capacity of Indigenous suppliers who can provide goods and services for the Chatham to Lakeshore Project.
	Will there be potential business opportunities for Indigenous Business?	Hydro One acknowledges that the utilization of Indigenous businesses is an important part of partnering with the community. Incentives will be offered to contactors to purchase goods and services from Indigenous-owned businesses for the delivery of project needs.
	What are the design criteria for the new transmission line?	<p>The new transmission line must meet several technical criteria, which includes the following:</p> <ul style="list-style-type: none"> ○ The transmission line must operate at 230 kV and transfer 400 MW of power ○ The line itself could be a lattice tower design or monopole steel tower design. Once further defined, Hydro One will be able to decide on the correct structure and width of the right-of-way ○ Currently, the right of way can be expected to be approximately 130 feet to 150 feet in width.
Consultation	Has consultation with First Nations started?	Hydro One’s consultation with Indigenous Communities started in the early stages of project development (December 2019), and will continue throughout the project.
	How can I provide my feedback on the route variation of this project?	Several opportunities will be provided to engage with interested individuals through direct contact with Hydro One’s Indigenous Relations Department and through community sessions. The feedback gathered during consultation will be documented in the Environmental Study Report.
	How will the polls be used?	Polls will be used to gauge the interest of participants and to help inform the weighting of the selected criteria.
Indigenous Knowledge	Will Hydro One use Indigenous people to identify medicinal plants?	Hydro One will seek input from community members and participants on the location, type and importance of medicinal plants during the alternative route evaluation process and during the effects assessment of the preferred route. Additionally, Indigenous monitors will be invited to assist in field surveys. Although it may be too early to describe an accurate plan for how medicinal plants will be protected, they will be identified during natural environment field studies for this project.

PREFERRED ROUTE SELECTED FOR THE NEW CHATHAM TO LAKESHORE LINE

HYDRO ONE HOSTS UPCOMING VIRTUAL EVENTS AND SHARES NEXT STEPS

Dear Community Member,

We invite you to join our upcoming virtual information sessions to provide you with an update for the Chatham to Lakeshore Line project, a new transmission line that will help accommodate future electricity growth, improve reliability for homes and businesses and support local industries in the region at a time when it is needed most.

Over the past year, Hydro One has been conducting a Class Environmental Assessment (EA) to build a new double-circuit 230-kilovolt transmission line from our Chatham Switching Station to the future Lakeshore Switching Station. As part of this process, we have been engaging with government agencies, municipalities, interest groups, members of the public and First Nations and the Haudenosaunee to assess the route alternatives.

Based on this information gathered and feedback received, **Route Alternative 2A** has been selected as the preferred route for the new transmission line, as shown on the reverse map or in more detail on our website HydroOne.com/Chatham-to-Lakeshore.

As we reach this milestone in the electricity transmission planning process, we remain committed to ensuring that all interested members of the community has up-to-date information on the latest developments on the Chatham x Lakeshore project.

NEXT STEPS:

- Visit our interactive online public open house, starting **Thursday, February 25, 2021** where you will find a series of information boards.
- Join us on **Monday, March 22, 2021** for a live steamed presentation and discussion where community members will have the opportunity to learn more about the project and to ask questions in real time to members of the Hydro One Chatham x Lakeshore project team. To submit a question in advance, please email your inquiry to IndigenousRelations@HydroOne.com

Meaningful consultation and engagement are important to Hydro One, and we look forward to having you join us. If you would like any further information or have any questions, please contact Indigenous Relations at:

PROJECT OVERVIEW

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now and into the future.

In June 2019, the IESO requested Hydro One build a new double-circuit 230 kilovolt transmission line from the Chatham Switching Station to the future Lakeshore Switching Station.

This project requires undertaking a Class Environmental Assessment (Class EA) which began in January 2020.

Through the Class EA process, our team has assessed several alternative routes, and we have now selected a preferred route.

It is anticipated this line will be in-service prior to the end of 2025.

HOW THE NEW LINE WILL SUPPORT THE REGION

As businesses and industry continue to expand in the region, so does the need for more electricity.

The new high voltage transmission line will support the region by:

Ensuring critical infrastructure is in place to keep southwestern Ontario one of North America's agricultural hubs

Improving reliability for homes and businesses including both Hydro One and local distribution customers

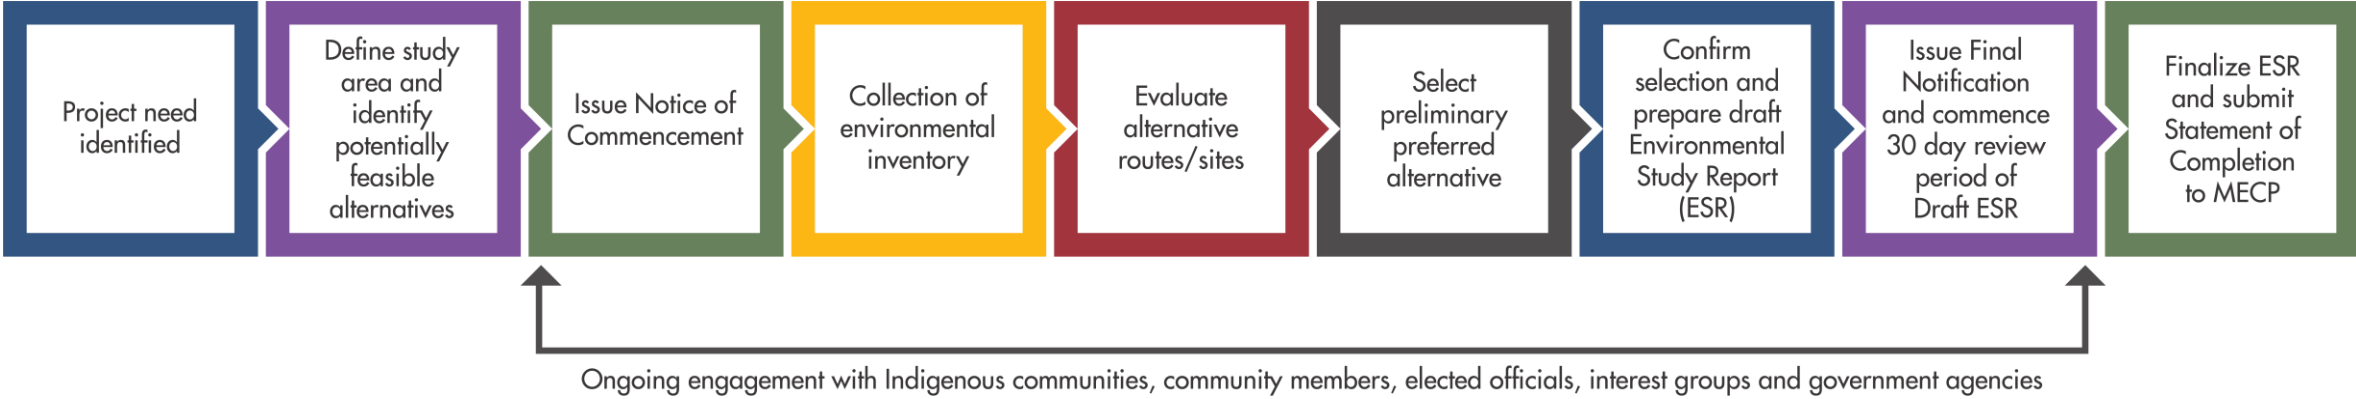

Connecting more people and industry to the grid by bringing enough energy to power a city the size of Windsor to the area

Supporting the local economy by creating new direct and spin off jobs and training opportunities as one of the largest electricity infrastructure projects in the region

CLASS ENVIRONMENTAL ASSESSMENT PROCESS

The construction of the new line is subject to a Class Environmental Assessment (Class EA) for Minor Transmission Facilities which sets out a planning and decision-making process for projects with predictable environmental effects that can be mitigated.

Where we are in the process

As part of the Class EA process, we have now selected a preferred route alternative. As a next step, we will work to prepare a draft Environmental Study Report (ESR) for public review and comment.

ONTARIO ENERGY BOARD APPROVAL REQUIREMENTS

In addition to the Class EA process, the Ontario Energy Board (OEB) must also approve the project under the Section 92 Leave to Construct Approval of the *Ontario Energy Board Act, 1998 (Act)*.

Section 92 of the Act requires transmitters and distributors to obtain approval from the OEB for the construction, expansion, or reinforcement of electricity transmission and distribution lines or interconnections.

We plan to apply for this approval in **December of 2021**. Further information from the OEB on this project will be made available in local papers and at www.oeb.ca.

ROUTE ALTERNATIVES ASSESSED

Use older map to clearly outline all the alternatives

EVALUATION OF ROUTE ALTERNATIVES

To evaluate each of the routes, Hydro One used a weighted Multi-Criteria Decision Making (MCDM) analysis method which is a common decision making approach to select the preferred route. This framework included the following steps:

1. Establishing evaluation criteria and measures under four categories;
2. Assigning relative weighting to each criteria based on feedback and information received; and
3. Evaluating and selecting the preferred route.

EVALUATION CATEGORIES

**Socio-Economic
Environment**

Technical and Cost

**Natural
Environment**

**First Nations Culture,
Values and Land Use**

INFORMING OUR EVALUATION

Throughout the Class EA, Hydro One has conducted engagement with residents, First Nations communities, stakeholder groups, and businesses small and large, and has completed technical and environmental studies to inform the evaluation of the route alternatives, including:

Engagement:

- Held 2 virtual information sessions
- Held 4 Technical Advisory Committee virtual workshops
- Corresponded directly through phone or email with more than 100 community members.
- Distributed thousands of notices requesting comments.
- Organized virtual or in-person meetings with community members.
- Organized regular and frequent engagement with local elected officials.

Technical Studies:

- Collected natural heritage information.
- Reviewed municipal official plans.
- Completed a Stage 1 archaeological assessment and cultural heritage existing conditions study.
- Conducted environmental field surveys for ecological land classification, vegetation inventory, aquatic habitat, breeding birds and species at risk habitat.

FIRST NATIONS PARTICIPATION

Receiving input from First Nations communities has been an essential part of the route selection process. First Nations Culture, Values and Land Use is one of the four categories of evaluation criteria that was used to evaluate the alternative corridors.

Over the last year, the Hydro One team has been engaging with First Nations to better understand the potential effects of the alternative routes. The feedback received from the communities has directly supported the selection of the preferred route.

Engagement:

- Virtual route selection workshops with First Nations
- First Nations' review of the Stage 1 archaeological assessment and the cultural heritage existing conditions study.
- Participation in two Technical Advisory Committee Workshops (TAC)
- Held Virtual Community Information Centres
- Conducted technical studies

The Type of Feedback Received:

- Input into criteria weighting
- Identified areas of historical significance
- Identified potential impacts to existing revenue generating projects
- Identified areas with habitats that support or have potential to support hunting, trapping and harvesting activities
- Identified rare native habitats to protect
- Interest to participate in biodiversity initiatives

ROUTE EVALUATION CRITERIA

Each route was evaluated and scored on the following criteria:

Socio-Economic Environment

- Existing land use designations
- Future land use designations
- Agricultural operations
- Petroleum operations
- Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains
- Cultural resources
- Effects to residential buildings, properties or site plans
- Source water protection
- Archaeological resources
- Aggregate resources extraction areas/operations (pits/quarries)

Natural Environment

- Effects to fish and aquatic habitat
- Effects to vegetation
- Terrestrial and wildlife habitat
- Species at risk & species of conservation concern
- Natural hazards, wetlands and floodplain areas
- Designated natural areas

Technical and Cost

- Line length
- Line angles
- Crossings
- Parallel and adjacent to underground pipelines
- Proximity to wind turbines
- Parallel and adjacent to existing transmission corridor
- Parallel and adjacent to other existing infrastructure
- Number of properties requiring new real estate rights
- Number of mandatory property acquisitions

First Nations Culture, Values and Land Use

- Proximity to areas of historical significance
- Effects to First Nations revenue generating projects
- Areas that support hunting/trapping/harvesting
- grounds
- Areas that support fish bearing waters with identified or inferred habitat of game fish species
- Effects to rare/undisturbed native habitats/ecosystems
- Rare/sensitive species regeneration potential
- Co-location of existing infrastructure

SUMMARY OF EVALUATION

Graph/options being drafted; one option below.

Most Preferred

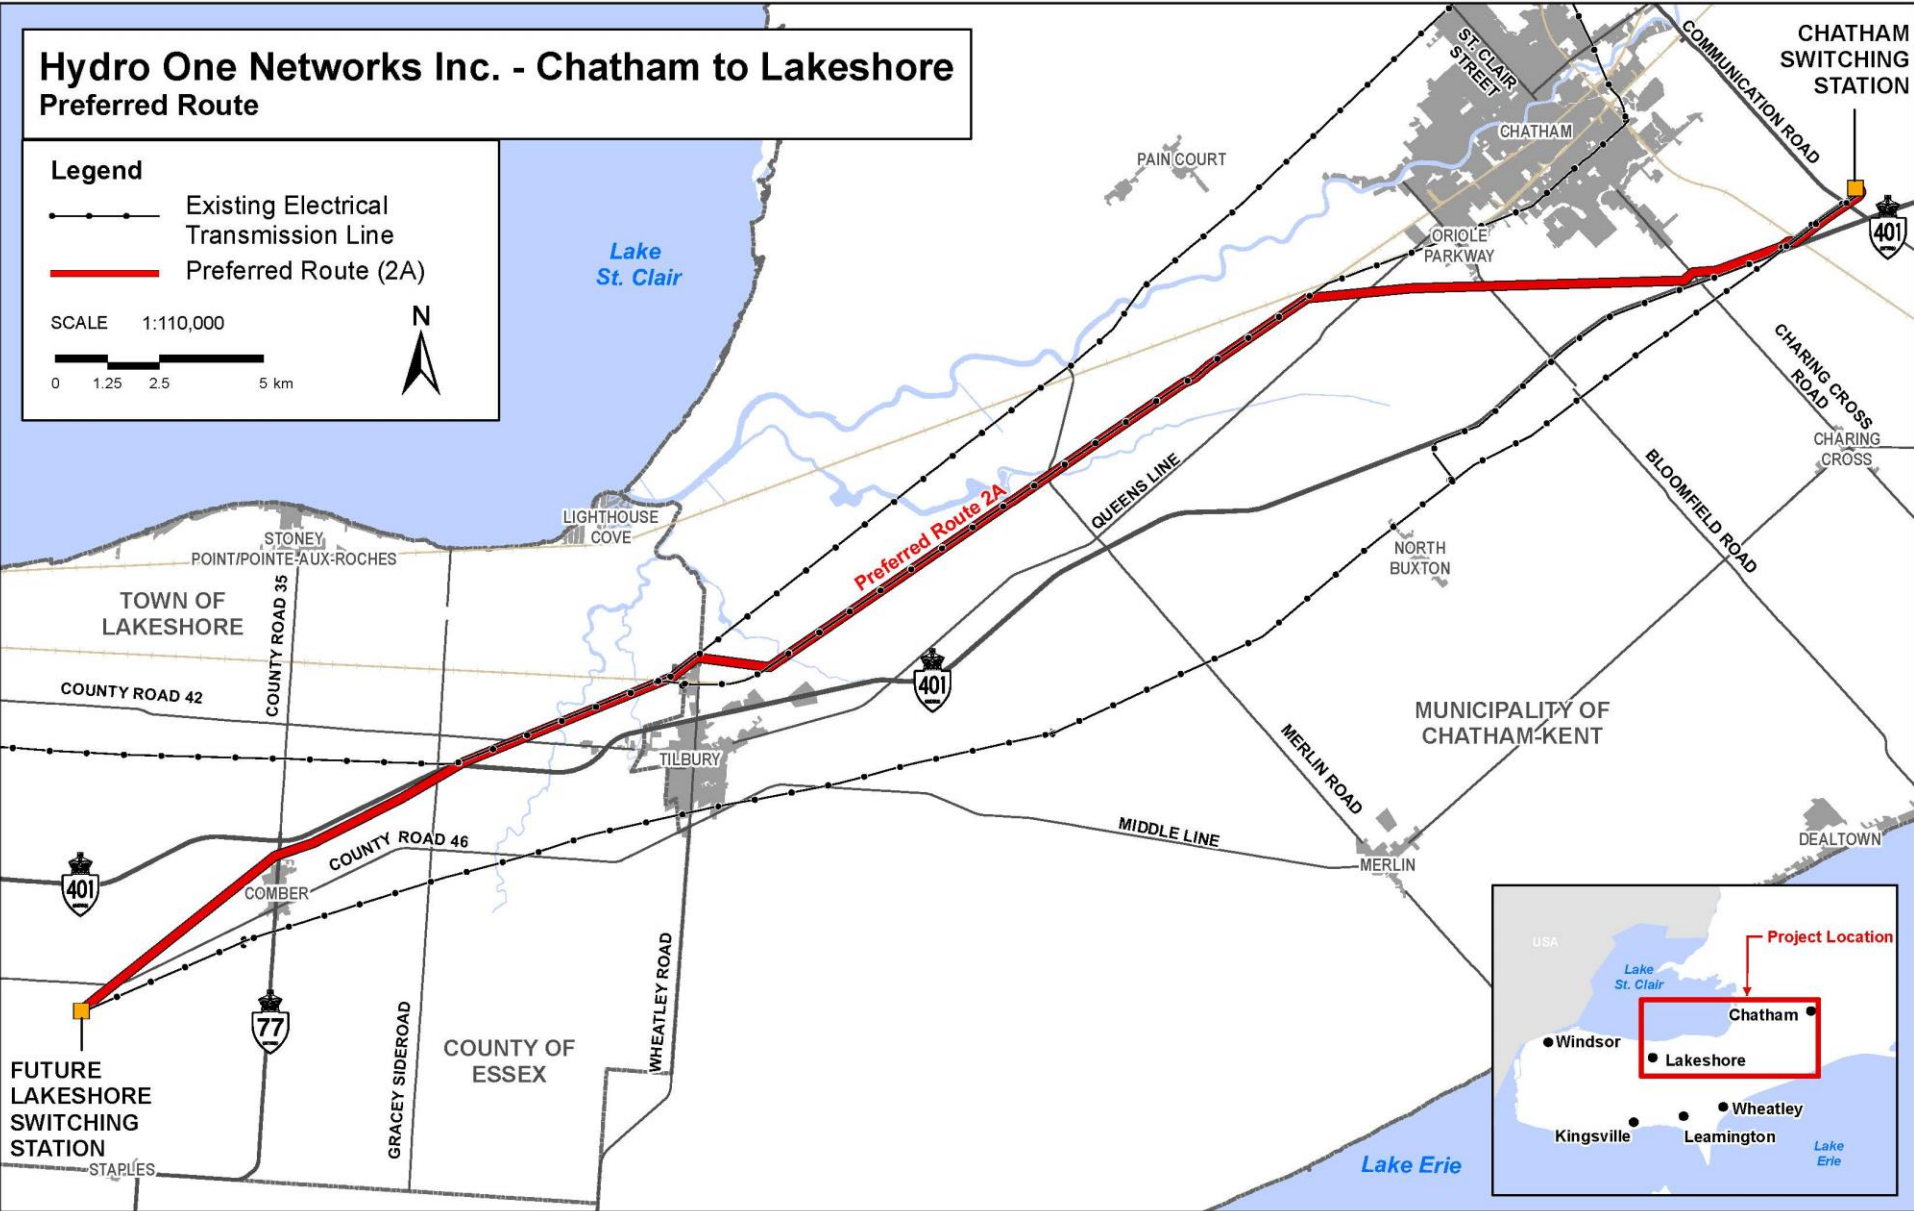

Least Preferred

Alternative 1A Alternative 1B Alternative 1C Alternative 1D Alternative 2A Alternative 2B Alternative 2C Alternative 3

- First Nations and Traditional Land Use Factor
- Technical Environment Factor
- Socio-Economic Environment Factor
- Natural Environment Factor

SELECTED PREFERRED ROUTE ALTERNATIVE

ADVANTAGES OF ROUTE ALTERNATIVE 2A

Based on the route evaluation results, Route Alternative 2A has been identified as the preferred route. In comparison to other alternatives evaluated, this route scored favorably in the Socio-economic and Natural Environmental categories, and demonstrates the following advantages:

- Utilizes 16 kilometers of an existing idle transmission line, reducing the need for a right-of-way on a portion of agricultural land.
- Crosses the fewest lands with a known archeological presence.
- Requires the least amount of incompatible vegetation removal.
- Crosses the fewest number of property parcels.
- Limited impact to commercial/industrial operations.
- Requires the least impact to native habitats and ecosystems and to traditional hunting/fishing sites and is in less proximity to areas of historical significance.
- Requires the least impact to fish and aquatic habitat, species at risk/species of conservation concern.
- Reduced proximity to natural hazards, wetlands and floodplains.
- Reduced proximity to wind turbines.
- While construction complexity is introduced, requires crosses the least impact to property parcels and property acquisitions.

INCORPORATING YOUR FEEDBACK

To date, the feedback received and captured throughout the Class Environmental Assessment process has helped inform our preferred route, by:

Establishing the criteria used under the four categories; and

Assigning relevant weighting used to evaluate the route alternatives. For example, weighing impacts to agricultural impacts more highly

Moving forward, information obtained to date and on an ongoing basis will be used to:

Inform the transmission line's design and construction solution; and

Continue to help identify a potential list of measures to avoid, mitigate and/or restore environmental effects when building the line

WORKING WITH PROPERTY OWNERS

After our Live Discussion, a dedicated real estate representative will directly reach out to property owners traversed by the preferred route and schedule a meeting to discuss next steps.

During this meeting, we will review Hydro One's process to attain necessary property rights and introduce our Land Acquisition Compensation Principles, which we will use to guide this process.

Key Land Acquisition Compensation Principles

Property Owners will be offered the choice of Hydro One acquiring either an easement or the fee simple interest (ownership) in the lands required for the project corridor.

Offers will be based upon site specific appraisal reports prepared by third party independent appraisers.

Monetary Specific incentives which lead to offers for these land rights which are beyond market value will be offered.

Construction impact mitigation and reimbursement for cropland out of production during construction and any physical damages that are unable to be mitigated.

TRANSMISSION LINE DESIGN

Preliminary design of the transmission line is ongoing, and we anticipate to share the design of the right-of-way width, tower structure locations and tower design with property owners traversed by the preferred route by Spring 2021.

The design of the transmission line will take into account a number of considerations, including:

- Existing structure locations;
- New structure heights;
- Span between structures;
- Topography and soil conditions;
- Road crossing clearances and traffic impacts;
- Business and residential impacts; and
- Environmental constraints.

In the upcoming weeks, our team will begin discussions regarding attaining early access rights to complete more property specific environmental and technical studies.

Based on technical and environmental considerations and property information received, Hydro One will determine the most optimal tower design and location.

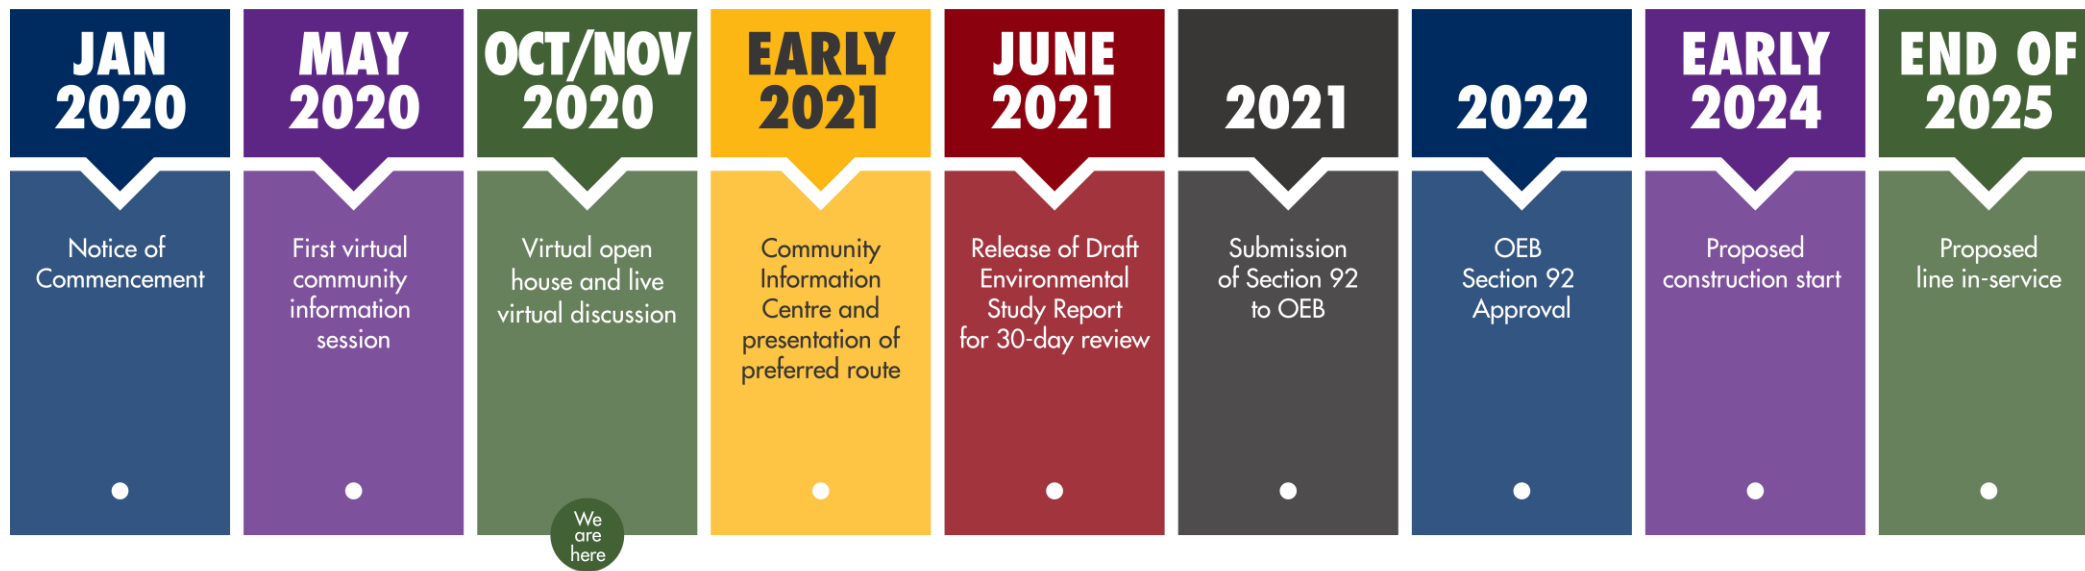

PROJECT MILESTONES

Update: EARLY 2021 to say MARCH 2021

*Move we are here symbol

Submission to OEB should say December (according to project schedule, Mehrgan to confirm)

NEXT STEPS

Icon

Contact property owners traversed by the new transmission line and share next steps in attaining necessary property rights.

Icon

Continue conducting detailed design of the new transmission line.

Icon

Continue conversations with property owners and identify potential ways to avoid, mitigate or restore environmental impacts from the construction of the new line.

Icon

Issue a Notice of Completion of draft Environmental Study Report (ESR) for 30-day review and comment period.

MHSTCI File : 0012007
Proponent : Hydro One Networks Inc.
Subject : Notice of Initiating Class EA
Project : New double-circuit 230 kV Transmission Line between Chatham Switching Station and the planned Lakeshore Switching Station
Location : Municipality of Chatham-Kent and Town of Lakeshore, County of Essex

Dear Paul Dalmazzi

Thank you for sending the Ministry of Heritage, Sport, Tourism and Culture Industries (MHSTCI) notice of the initiation of the above-referenced Class EA, which requires Ontario Energy Board (OEB)'s leave to construction under the Ontario Energy Board Act. MHSTCI's interest in this process relates to its mandate of conserving Ontario's cultural heritage, which includes:

- Archaeological resources, including land and marine;
- Built heritage resources, including bridges and monuments; and,
- Cultural heritage landscapes.

Please note, the following recommendations follow the OEB's [*Environmental Guidelines for the Location, Construction, and Operation of Hydrocarbon Pipelines and Facilities in Ontario, 7th Edition*](#) and are also consistent with MHSTCI's advice to proponents of other types of corridor projects to assist proponents on how to identify, manage and document environmental impacts.

Among the project planning activities, a proponent/applicant is advised to:

- describe the rationale for study area delineation (including construction staging, land requirements);
- identify existing baseline environmental conditions;
- identify potential environmental impacts expected to occur during construction and operation of the project, including cumulative impacts;
- describe proposed measures to mitigate potential negative impacts.

This letter provides advice on how to incorporate consideration of cultural heritage in the above-mentioned planning activities and outlines the technical cultural heritage studies and level of detail required to address cultural heritage in hydro transmission or other types of corridor projects. The

outcomes and recommendations of the studies will be reported in the Environmental Report and form the basis for any future commitments.

Additionally, please note that the [Standards and Guidelines for Conservation of Provincial Heritage Properties](#) (S&G), prepared pursuant to Section 25.2 of the *Ontario Heritage Act* (OHA), came into effect on July 1, 2010. All Ontario government ministries and public bodies that are prescribed under Ontario Regulation 157/10 must comply with the S&Gs. They apply to property that is owned or controlled by the Crown in right of Ontario or by a prescribed public body.

Project Summary

Based on the information provided this proposed project will involve:

- the construction of a new double-circuit 230 KV transmission line from the Chatham SS to the (future) Lakeshore SS
- several potential alternative routes are being considered.

Identifying Cultural Heritage Resources

While some cultural heritage resources may have already been formally identified, others may be identified through assessment.

Archaeological Resources (Land and Marine, if applicable)

MHSTCI recommends that, as a best practice, a combined Stage 1-2 archaeological assessment (AA) be completed for the entire study area during the planning phase.

At a minimum, a Stage 1 AA will be undertaken for the entire study area during the planning phase. The results of the Stage 1 AA will inform the selection of route alternatives and will be summarized in the Environmental Report. If the Stage 1 AA recommends further AA(s), then MHSTCI recommends that further stages of AA be completed as early as possible during the design phase of the project, and prior to the completion of detailed design.

Archaeological assessments are required to be undertaken by an archaeologist licenced under the *Ontario Heritage Act*, who is responsible for submitting the report directly to MHSTCI for review.

The Environmental Report must include specific information from the AA report(s). The Executive Summary of each AA report provides a brief summary of the work completed and the recommendations for next steps, whether for further archaeological assessment, in which case the report will include a map that identifies those areas, or for no further assessment. The Environmental Report must also include clear commitments to undertake any further AA stages recommended, and a timeline for their completion.

Built Heritage Resources and Cultural Heritage Landscapes

A Cultural Heritage Report: Existing Conditions and Preliminary Impact Assessment will be undertaken for the entire study area during the planning phase to inform selection of route alternatives and will be summarized in the Environmental Report. This study will:

1. Identify existing baseline cultural heritage conditions within the study area.
 - Study Area: The consultants preparing the Cultural Heritage Report will need to define a study area and explain their rationale. Hydro One's letter advises that available data collection will include 500 m on each side of the proposed route alternatives and field studies will occur within 120 m on each side of the route alternatives.

- The report will include a historical summary of the study area and will identify all known or potential built heritage resources and cultural heritage landscapes in the study area. MHSTCI has developed screening criteria that may assist with this exercise: [Criteria for Evaluating for Potential Built Heritage Resources and Cultural Heritage Landscapes](#).
2. Identify preliminary potential project-specific impacts on the known and potential built heritage resources and cultural heritage landscapes that have been identified. The report should include a description of the anticipated impact to each known or potential built heritage resource or cultural heritage landscape that has been identified.
 3. Recommend measures to avoid or mitigate potential negative impacts to known or potential built heritage resources and cultural heritage landscapes. The proposed mitigation measures are to inform the next steps of project planning and design.

Where a known or potential built heritage resource or cultural heritage landscape may be directly and adversely impacted ¹, and where it has not yet been evaluated for Cultural Heritage Value or Interest (CHVI), completion of a Cultural Heritage Evaluation Report (CHER) is required to fully understand its CHVI and level of significance. The CHER must be completed as part of the Environmental Report. If a potential resource is found to be of CHVI, then a Heritage Impact Assessment (HIA) will be undertaken by a qualified person. The HIA will be completed in consultation with MHSTCI and the proponent as early as possible during detail design.

While some cultural heritage landscapes are contained within individual property boundaries, others span across multiple properties. For certain cultural heritage landscapes, it will be more appropriate for the CHER and HIA to include multiple properties, in order to reflect the extent of that cultural heritage landscape in its entirety.

Cultural Heritage Reports will be undertaken by a qualified person who has expertise, recent experience, and knowledge relevant to the type of cultural heritage resources being considered and the nature of the activity being proposed.

Community input should be sought to identify locally recognized and potential cultural heritage resources. Sources include, but are not limited to, municipal heritage committees, historical societies and other local heritage organizations.

Cultural heritage resources are often of critical importance to Indigenous communities. Indigenous communities may have knowledge that can contribute to the identification of cultural heritage resources, and we suggest that any engagement with Indigenous communities includes a discussion about known or potential cultural heritage resources that are of value to them.

Environmental Reporting

The findings of the above-mentioned studies should be summarized as part of the Environmental Report discussion of existing conditions, impact assessment, mitigation, and future commitments. Commitments for further studies should clearly state what is to be done, who is responsible for

¹ A direct adverse impact would have a permanent and irreversible negative effect on the cultural heritage value or interest of a property or result in the loss of a heritage attribute on all or part of the property. Examples include but are not limited to: removal or demolition of a heritage attribute, land disturbance, alterations that are not sympathetic to the CHVI of the property, introduction of new elements that diminish the integrity of the property, changing the character of the property, intensification of the property without conservation of heritage attributes.

implementation, and when. Recommendations from the technical cultural heritage studies described above should be reflected as commitments in the Environmental Report.

MHSTCI welcomes the opportunity to review and comment upon relevant sections of the draft Environmental Report.

Thank you for consulting MHSTCI on this project and please continue to do so throughout the EA process. If you have any questions, require clarification, or would like additional information to assist with project reporting, do not hesitate to contact me.

Sincerely,

Rosi Zirger
Heritage Advisor
rosi.zirger@ontario.ca
Heritage Planning Unit

It is the sole responsibility of proponents to ensure that any information and documentation submitted as part of their EA report or file is accurate. MHSTCI makes no representation or warranty as to the completeness, accuracy or quality of the any checklists, reports or supporting documentation submitted as part of the EA process, and in no way shall MHSTCI be liable for any harm, damages, costs, expenses, losses, claims or actions that may result if any checklists, reports or supporting documents are discovered to be inaccurate, incomplete, misleading or fraudulent.

Please notify MHSTCI if archaeological resources are impacted by EA project work. All activities impacting archaeological resources must cease immediately, and a licensed archaeologist is required to carry out an archaeological assessment in accordance with the *Ontario Heritage Act* and the *Standards and Guidelines for Consultant Archaeologists*.

If human remains are encountered, all activities must cease immediately and the local police as well as the Registrar, Burials of the Ministry of Government and Consumer Services must be contacted. In situations where human remains are associated with archaeological resources, MHSTCI should also be notified to ensure that the site is not subject to unlicensed alterations which would be a contravention of the *Ontario Heritage Act*.

RE: MTO Comments – Hydro One Chatham to Lakeshore TAC

The Ministry of Transportation (MTO) has completed a review of the proposed work noted in the Class EA distribution. The proposal has been considered in accordance with the requirements of the *Public Transportation and Highway Improvement Act* (PTHIA), MTO's Highway Corridor Management Manual (HCMM) and all related policies. The following outlines our comments:

To avoid impacts to future Highway 401 expansion and future interchange redesigns MTO's preferred route is **Alternative 3A**. This option will avoid most of the impacts to the MTO's Right-of-Way (ROW), avoid the Highway drainage, and will minimize the amount of Hydro One Infrastructure within the MTO's Permit Control Area (PCA). Subsequently **Alternative 1A** is also feasible and avoids impacts to the MTO's ROW and Highway drainage.

The proposed Hydro One Chatham Lakeshore project crosses Highway 401 and Highway 77 and will be within MTO's ownership. As identified in the PTHIA any portion of this work that falls within the MTO's PCA will require permits before any demolition, grading, construction or alteration to the site commences.

MTO must ensure that the proposed work avoids potential impacts to the operational integrity of the highway, the travelling public and avoids conflicts with future highway improvement projects. The following conditions shall apply:

- MTO permits will be required for any work within 45m of any limit of a provincial highway right-of-way or within 395m of the centre point of an intersection on a highway.
- As per Section 38 2 (d) of the PTHIA) a permit is required to place, erect or alter any power line, pole line or other transmission line within 400 metres of any limit of a controlled access highway.
- All highway crossings shall remain outside the functional area of an interchange and cross perpendicular to the highway alignment.
- Parallel installations on a Class 1 Highway (401) will not be permissible.
- Details of the highway crossing and final alignment must be submitted for our review and approval prior to the proposed transmission line construction. This should include, but not be limited to, plans and cross sections indicating the location, height, and method of crossing for the transmission line, etc.

- A full comprehensive traffic management plan must be submitted, highlighting the methods Hydro One will use to avoid traffic delays when installing new high voltage cables across Highway 401 and Highway 77.

Additionally, as part of the permit application, MTO will require the following information;

- Detailed site drawings, including offset dimensions from MTO property limits and vertical profile information (cross section) at crossing locations.
- Method proposed to complete aerial installation of new transmission lines, as well as safety measures to be utilized, and the duration of work.
- Proposed construction access locations/routes for work area. Direct highway access will not be permitted, alternative access shall be secured.
- Traffic staging and detour signage drawings.

To avoid delays to the proposed work, a meeting held early in the design process is recommended to ensure MTO concerns can be addressed. Please contact the undersigned to schedule a meeting between MTO and Hydro One staff to discuss this proposal further.

RE: MTO Comments – Hydro One Chatham to Lakeshore TAC

The Ministry of Transportation (MTO) has previously provided comments for the Hydro One Chatham to Lakeshore TAC. These comments included our recommendations of the MTO's preferred route for the proposed transmission lines. This letter is a follow-up to our previous comments and to provide additional clarification on MTO's consideration of Route Variation 2C.

As outlined in our previous letter sent on July 2nd, 2020, MTO's preferred routes are **Alternative 3A** and subsequently **Alternative 1A**. These routes best avoid any future costly conflicts and relocations that may be necessary for the maintenance or expansion of infrastructure for both MTO and HONI.

In addition to the information previously provided, I would like to provide clarification on MTO's position pertaining to route **Variation 2C, 1C, 1D**. MTO has concerns with the proximity of these routes to the highway corridor. Based on additional details provided regarding **Variation 2C, 1C, 1D**, please see MTO's concerns regarding this route:

- The proposed alignment of **Variation 2C, 1C, 1D** directly crosses the North side of the Bloomfield Rd interchange. Given the timeframe of the interchange improvements (2023) and Hydro One's planned installation (2023), a direct constructor issue would occur.
- An interchange crossing of the transmission line at Bloomfield road would not be permissible. It was noted in previous correspondence that all crossings must remain outside of the functional area of the interchange.
- Given the flat topography of the Chatham-Kent area, it is anticipated that the profiles of Highway 401 and underpasses will need to be raised to accommodate future drainage due to climate change. This will directly impact vertical clearances and may result in unnecessary and costly future conflicts.
- Future highway/interchange closures due to replacement and maintenance of transmissions lines crossing interchanges will negatively impact highway traffic.
- Placement of the transmission line as per the other Alternatives prevents the conflicts and subsequent costs to scheduling of works and relocations to both HONI and MTO that Alternative 1C, 1D and 2C impose.

These concerns are significant and should be taken into consideration when deciding the best route. Potential for utility conflicts should be avoided whenever possible. Given the proximity to MTO's highway corridor, the potential for future conflicts, the complexity of relocating a transmission line, and alternate routes being available, route 2C is not supported by the MTO.

In addition, should no other routes be available, then the following conditions must be included with previously stated conditions:

- A minimum 25-m setback from MTO ROW is required at all locations.
- The towers must be located far enough away from Highway 401, Highway 40, and Highway 77 that any incident with the facility (e.g., a tower collapsing) will not affect the operation of the provincial highways.
- Mitigate future conflicts at interchanges and underpasses by providing enough clearance and setback.
- No lines shall cross over any interchange ramps, underpass embankments or underpasses. The flat topography in the Chatham-Kent area has been driving the need to raise the profiles of Highway 401 and underpasses to accommodate drainage.
- Identify HOT restrictions regarding work around their infrastructure that may impact MTO future work.
- A legal agreement between the MTO and Hydro One will be required prior to any permits being issued.

MTO would recommend that alternate routes be considered instead of route 2c. Please contact me for further discussion at (226)-973-7021 or Michael.Kilgore@ontario.ca.

***** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. *****

Staff at the LTVCA have reviewed the proposed alternate routes for the line project and variations for the alternate routes for the proposed line project from Chatham-to-Lakeshore as it relates to the Authority's Regulations O. Reg. 152/06 and Conservation Areas, and have the following comments / questions:

West Portion

Alternate 2 is located within a flood prone area

Central Portion

Alternate 2 is located within a flood prone area

North Variation is located further into the flood prone area (potential for greater flood depths)

East Portion

Alternate 2 is located within a flood prone area

Alternate 2 – All Variations are located within a flood prone area

Alternate 1 – North Variation is located within a flood prone area

Alternate 3 would be located directly to the north of (abutting?) the LTVCA's property known as CM Wilson Conservation Area

- Would any clearing of trees / vegetation be involved on/or adjacent to the conservation area?

Various watercourses and drains will be crossed by any potential option. The location of the towers should not occur on any municipal or private diking system within the Thames River watershed located north of the 401. These diking structures are crucial for flood prevention purposes.

Paul Dalmazzi
Paul.Dalmazzi@HydroOne.com

Attention: Paul Dalmazzi

Dear Mr. Dalmazzi:

Re: Hydro One Chatham x Lakeshore Line
Class Environmental Assessment for Minor Transmission Facility

Further to the previous meetings held on March 1st & March 31st 2021 with the Municipality of Lakeshore regarding Hydro One's preferred route for the Hydro One Chatham x Lakeshore Line, please accept this letter as formal notification that we remain opposed to the preferred route through the Municipality of Lakeshore.

It remains our position that the proposed transmission line alignment will have significant adverse impacts to the residential, commercial and industrial buildings and lands (both existing and future) in the Community of Comber as well as the agricultural lands along Hydro One's preferred route. As per our discussions, we have attached a zoning map of the Community of Comber to reflect existing and future growth where the preferred transmission line will have an adverse impact to the private land owners and the Municipality.

We believe the preferred route should be altered to north of Highway 401 along the alignment of the existing transmission line in the Municipality of Lakeshore.

In addition, please find attached the Notice of Motion that was passed by Lakeshore's Council at the April 6th 2021 council meeting related to concerns also identified and heard by local area residents.

If you have any questions or wish to discuss the matter further, please contact the undersigned.

Thank you

Krystal Kalbol, P. Eng.
Director of Engineering and Infrastructure Services

Attention: Mark Poweska, Chief Executive Officer

Dear Mr. Poweska,

RE: Class Environmental Assessment to Construct a New Transmission Line

At its meeting of April 6, 2021 the Council of Municipality of Lakeshore passed the following resolution:

#115-04-2021

Whereas demand for electricity in Southwestern Ontario is anticipated to grow significantly over the next several years, Hydro One has commenced a Class Environmental Assessment to construct a new transmission line between Chatham-Kent to Lakeshore;

And whereas the line selected impacts local farmers and the future development of commercial lands in Lakeshore;

Now be it resolved that the Council of the Municipality of Lakeshore direct Administration to send a letter to Hydro One supporting local residents in requesting a reconsideration of the preferred line selection for the transmission line between Chatham-Kent to Lakeshore.

Carried Unanimously

Council would like to invite Hydro One to discuss the site of the new transmission line from Chatham-Kent to Lakeshore. To discuss the request further and to confirm a meeting date, please contact the undersigned at 519-728-2700 x 235 or bcoughlin@lakeshore.ca.

Sincerely,

Brianna Coughlin

- COVID-19 Pandemic
- Virtual Workshop
 - Information video
 - Moderated Question / Answer session
 - Participant feedback survey

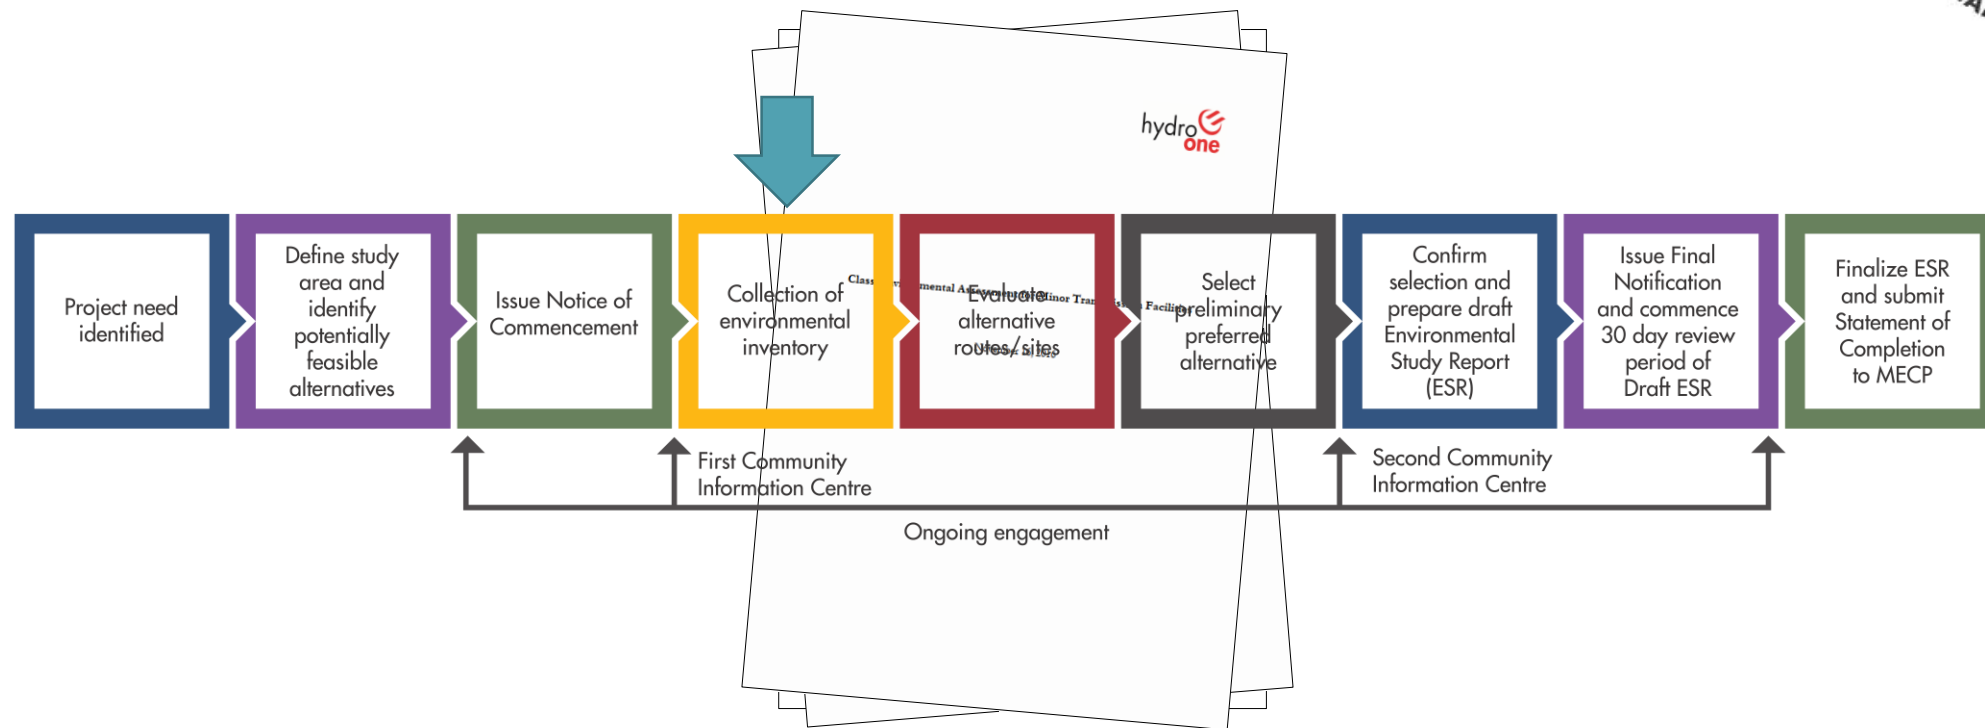

TODAY'S AGENDA

- Project Overview and status of the Class Environmental Assessment
- Route Evaluation & Evaluation Criteria
- Next Steps

CLASS ENVIRONMENTAL ASSESSMENT PROCESS

WEIGHTED MULTI-CRITERIA DECISION MAKING ANALYSIS

1 Step 1: Establish Need

WEIGHTED MULTI-CRITERIA DECISION MAKING ANALYSIS

2 Step 2: Alternatives

Factors

- Cost
- Technical Specifications
- User Experience
- Brand

WEIGHTED MULTI-CRITERIA DECISION MAKING ANALYSIS

3 Step 3: Screening Criteria

Criteria	Measure
Cost	High vs. low
Screen Type/Size	Large vs. small
Battery Life	All day vs several hours
Weight	Heavy vs. light
Brand	Apple, Google, Blackberry, etc.
Storage Capacity	64 gb, 512 gb
Interface	iOS, google, Microsoft
Case Options	Water repellent vs. standard
Port Type	Lightening port, head phone jack, etc.

WEIGHTED MULTI-CRITERIA DECISION MAKING ANALYSIS

4 Step 4: Weight What's Important

WEIGHTED MULTI-CRITERIA DECISION MAKING ANALYSIS

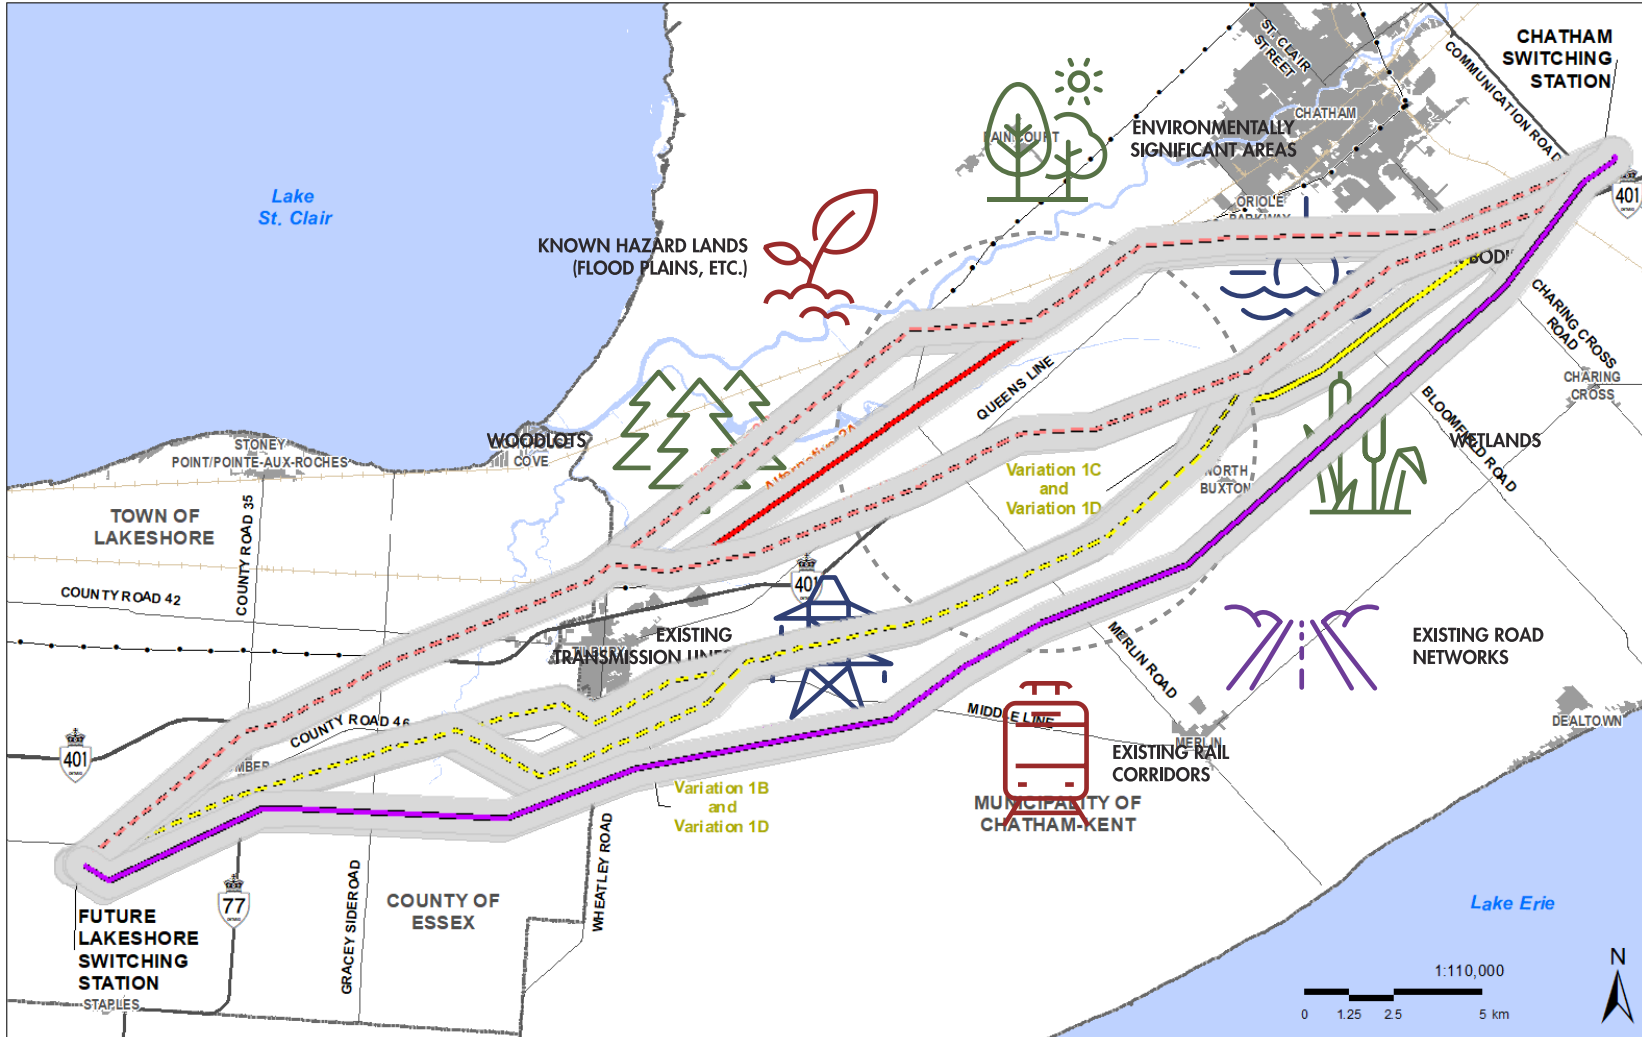

5 Step 5: Evaluate and Select

STEP 1: ESTABLISH NEED

STEP 2: TRANSMISSION ALTERNATIVES

STEP 3: SCREENING CRITERIA

oci -Ec nomic Environment

Criteria	Measure
Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)
Source water Protection	Effects to source water resources including policy areas and drinking water sources for private landowners (<i>info source: source water protection mapping</i>)
Cultural Resources	Effects to properties or landscapes with cultural heritage resource potential (<i>info source: MHSTCI background information, heritage inventories, etc.</i>)
Archaeological Resources	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archaeological assessment, etc.</i>)

Note: Criteria listed here is a small sample for presentation purposes. For the full list of preliminary criteria, please refer to the PDF provided.

STEP 4: WEIGHTING

Factor	Criteria	Criteria Weight	Measure
Socio- Economic Environment	Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	5/10	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)
	Archaeological Resources	5/10	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archeological assessment, etc.</i>)
Natural Environment	Effects to Vegetation	6/10	Effects to vegetation including footprint effects, potential effects to incompatible vegetation communities (<i>info source: ELC mapping, field investigations</i>)

Note: Criteria listed here is a small sample for presentation purposes. For the full list of preliminary criteria, please refer to the PDF provided.

STEP 5: EVALUATE AND SELECT

Factor	Criteria	Criteria Weight	Measure	SCORE (Scale of 1 to 6) 1 = Most Impact, 6 = Least Impact		
				Alt. 1	Alt. 2	Alt. 3
Socio-Economic Environment	Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	5/10	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	3	4	1
	Archaeological Resources	5/10	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archeological assessment, etc.</i>)	1	5	6
Natural Environment	Effects to Vegetation	6/10	Effects to vegetation including footprint effects, potential effects to incompatible vegetation communities (<i>info source: ELC mapping, field investigations</i>)	2	2	2

Note: Criteria listed here is a small sample for presentation purposes. For the full list of preliminary criteria, please refer to the PDF provided.

MODERATED CONFERENCE CALL DISCUSSION AND SURVEY

Moderated Conference Call

Socio-Economic Focus

June 10, 2020

10:00 a.m. to 11:30 a.m.

Webex Conference

Link and Log-in details will be
emailed to you in advance

Natural Environment Focus

June 10, 2020

2:00 p.m. to 3:30 p.m.

Webex Conference

Link and Log-in details will be
emailed to you in advance

**Digital Survey will be emailed to you following the
moderated conference call.**

NEXT STEPS

Hydro One will continue to conduct environmental surveys and research.

Hydro One will continue to engage with the TAC through series of project workshops. Future workshops will be held to further evaluate alternative routes in support of the preferred route.

The project team will consider all feedback received and evaluate the results of environmental and technical research, and select the preferred route for the new transmission line.

Details of the evaluation process and the preferred alternative will be presented at a CIC in early 2021.

Next workshop is anticipated to be held in early fall 2020.

TAC INPUT

All information collected during the moderated conference call and feedback survey will form part of the record of consultation and summarized in report format. Identifying information will be redacted, but comments will be made available to other TAC members, for posting on the project website, as well as in EA documentation for the project.

PRELIMINARY EVALUATION CRITERIA

Natural Environment

Criteria	Measure	Notes/Comments
Effects to Fish and Aquatic Habitat	Effects to aquatic habitat including total number of watercourse crossings, effects to bank riparian vegetation, potential effects to surface flows (<i>info source: NHIC/DFO historical data, field investigations</i>)	
Effects to Vegetation	Effects to vegetation including footprint effects, potential effects to incompatible vegetation communities (<i>info source: ELC mapping, field investigations</i>)	
Terrestrial and Wildlife Habitat	Effects to terrestrial wildlife and habitat including footprint effects, potential removal, disturbance and/or destruction of habitat, potential disturbance to wildlife movement/habitat fragmentation (<i>info source: ELC mapping, field investigations</i>)	
Species at Risk & Species of Conservation Concern	Effects to Species at Risk and their habitat (<i>info source: NHIC historical data, MECP, ELC mapping, field investigations</i>)	
Natural Hazards, Wetlands and Floodplain Areas	Distance of the route that occurs within/in close proximity to floodplain areas, wetlands, areas of erosion concern (<i>info source: CA mapping and regulated areas, ELC mapping, field investigations</i>)	

First Nations/ Traditional Land Use

Criteria	Measure	Notes/Comments
First Nations Traditional / Contemporary Lands & Resources Uses and Occupation	Impacts to any existing First Nations traditional, cultural, historical, archaeological and/or current use and occupation of lands and/or resources in the project area.	

PRELIMINARY EVALUATION CRITERIA

Socio-Economic Environment

Criteria	Measure	Notes/Comments
Existing and future land use designations	Alignment with existing and future land use designations as defined by the Provincial Policy Statement and local Municipal Official Plans (<i>Info source: OP land use designations, zoning, and mapping</i>)	
Agricultural Operations	Effects to agricultural operations including farming of land, movement of farm machinery and access to processing facilities (<i>info source: feedback from stakeholders, socio-economic baseline assessment</i>)	
Petroleum Operations	Effects to petroleum operations including access to petroleum wells or resources and distribution networks/ pipelines (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	
Effects to residential buildings, properties or site plans	Effects to existing residential properties including proximity to existing homes, site plan alteration or building effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	
Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	
Source water Protection	Effects to source water resources including policy areas and drinking water sources for private landowners (<i>info source: source water protection mapping</i>)	
Cultural Resources	Effects to properties or landscapes with cultural heritage resource potential (<i>info source: MHSTCI background information, heritage inventories, etc.</i>)	
Archaeological Resources	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archaeological assessment, etc.</i>)	

PRELIMINARY EVALUATION CRITERIA

Technical and Cost

Criteria	Measure	Notes/Comments
Line Length	Total length of each route or variation	
Line Angles	Number of turns in each route/variation, as well as the angle of the turn (sharper or wider than 30°)	
Crossings	Total number of crossings of: River, railways, Highway 401, Existing 230 kV transmission lines, etc.	
Parallel & Adjacent to Underground Pipelines	Total distance parallel/adjacent to underground pipelines (preference to routes/variations with less parallel distance)	
Proximity to Wind Turbines	Presence of existing wind turbines on property parcels, as well as proximity to the turbines	
Parallel & Adjacent to existing transmission line corridor	Total distance of each route/variation that parallels an existing transmission line corridor (preference to routes/variations with longer parallel distance)	
Parallel & Adjacent to other existing infrastructure (e.g., Highway 401)	Total distance of each route/variation that parallels an linear infrastructure/corridor (preference to routes/variations with longer parallel distance)	
Number of property parcels requiring new real estate rights	Total number of property parcels for which new RE rights will be required (preference to routes/variations with lower number of parcels requiring new rights)	
Number of mandatory property buy-outs	Total number of mandatory buyouts, e.g., existing structures for which the current use is not compatible with a transmission line	

ADDITIONAL COMMENTS:

A series of ten horizontal black lines provided for writing additional comments.

WEIGHTED MULTI-CRITERIA DECISION MAKING ANALYSIS

- 1 Step 1: Establish Need
- 2 Step 2: Alternatives
- 3 Step 3: Evaluation Criteria ← TAC Meeting #1
- 4 Step 4: Weight What's Important ← We Are Here
- 5 Step 5: Evaluate and Select

ALTERNATIVES RECAP

TAC WORKSHOP #1

SUMMARY

Survey/Comments Received

- 11 digital survey responses received
- 5 proposed Natural Environment Criteria
- 15 proposed Socio-Economic Environment Criteria
- 4 proposed Technical and Cost Criteria
- Recommended alternate methods of assessing/scoring “Existing and Future Land Use Designations” and “Agricultural Operations”
- Review of “Source Water Protection” criterion

TAC WORKSHOP #1 – FINDINGS

NATURAL ENVIRONMENT

TAC Member Proposed Criteria

Support Structure placement within the route

Impact on established tree lines or wind breaks

Line maintenance activities (pesticide use)

Potential impacts to restoration areas and linkages as identified in Official Plans or other studies/strategies (potential for enhancement)

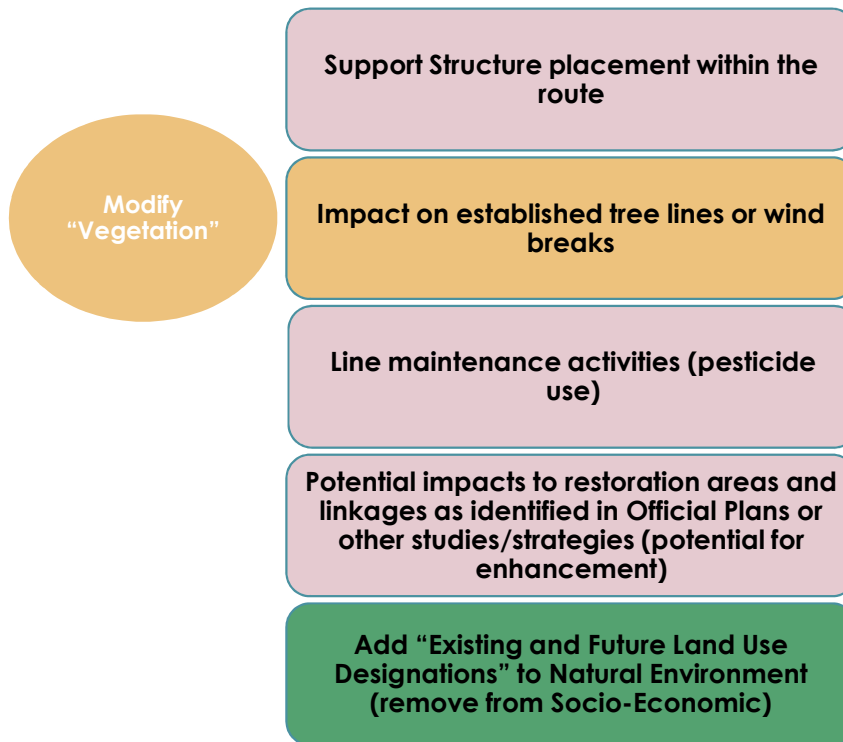

Add “Existing and Future Land Use Designations” to Natural Environment (remove from Socio-Economic)

TAC WORKSHOP #1 – RESULTS

NATURAL ENVIRONMENT

Changes made to Evaluation
Criteria based on TAC Feedback

TAC WORKSHOP #1 – FINDINGS

SOCIO-ECONOMIC ENVIRONMENT

TAC Member Proposed Criteria

Placement of towers on farm land (on property lines)

Agri-Food Network

Construction Methods

Service Corridor Alignment

Underwire Clearance Restrictions

“Existing and Future Land Use Designations” should also include “Potential Future Settlement Area Expansions”

Aggregate Resources

Include primary and secondary settlement boundaries as part of the future land use designations discussion

Impact to future active transportation facilities

Future development potential along Highway 401

In addition to growth of the greenhouse industry, consider potential industrial growth (advanced manufacturing)

Potential growth in the Comber Area

Placement of electrical towers in relation to wind turbines

Consider the potential growth in rural communities post COVID-19 in “Effects to residential buildings, properties or site plans” criteria

Include Site Plans and identified areas of potential residential and business development

TAC WORKSHOP #1 – RESULTS

SOCIO-ECONOMIC ENVIRONMENT

Changes made to Evaluation Criteria based on TAC Feedback

Placement of towers on farm land (on property lines)

Agri-Food Network

Construction Methods

Service Corridor Alignment

Underwire Clearance Restrictions

“Existing and Future Land Use Designations” should also include “Potential Future Settlement Area Expansions”

FINAL CRITERIA LIST & WEIGHTING EXERCISE

Natural Environment

Weighting Scale	
✓	Most Important
	Important
=	Neutral
	Less Important
*	Least Important

Final Criteria	Weighting (see scale above)	Final Measure
Effects to Fish and Aquatic Habitat		Effects to aquatic habitat including total number of watercourse crossings, effects to bank riparian vegetation, potential effects to surface flows
Effects to Vegetation		Effects to vegetation including potential effects to incompatible vegetation communities and disturbance/alteration/destruction of existing windbreaks
Terrestrial and Wildlife Habitat		Effects to terrestrial wildlife and habitat including footprint effects, potential removal, disturbance and/or destruction of habitat, potential disturbance to wildlife movement/habitat fragmentation
Species at Risk & Species of Conservation Concern		Effects to Species at Risk & Species of Conservation Concern, and their habitats
Natural Hazards, Wetlands and Floodplain Areas		Distance of the route that occurs within/in close proximity to floodplain areas, wetlands, areas of erosion concern
Designated Natural Areas		Alignment with existing land use designations as defined by the Provincial Policy Statement and local Municipal Official Plans

FINAL CRITERIA LIST & WEIGHTING EXERCISE

Socio-Economic Environment

Weighting Scale	
✓	Most Important
	Important
=	Neutral
	Less Important
*	Least Important

Final Criteria	Weighting (see scale above)	Final Measure
Existing land use designations		Alignment with existing land use designations as defined by the Provincial Policy Statement and local Municipal Official Plans (does not include Designated Natural Areas or Natural Environment designations under the PPS)
Future land use designations		Alignment with future land use designations including potential future settlement area expansion plans, growth areas and development boundaries, as defined by the Provincial Policy Statement and local Municipal Official Plans (does not include Designated Natural Areas or Natural Environment designations under the PPS)
Agricultural Operations		Effects to agricultural operations including farming of land, movement of farm machinery and access to processing facilities
Petroleum Operations		Effects to petroleum operations including access to petroleum wells or resources and distribution networks/ pipelines
Effects to residential buildings, properties or site plans		Effects to existing residential properties including proximity to existing homes, site plan alteration or building effects
Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains		Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects
Source water Protection		Effects to source water resources including policy areas and drinking water sources for private landowners
Cultural Resources		Effects to properties or landscapes with cultural heritage resource potential
Archaeological Resources		Effects to lands with archaeological potential, proximity to known archaeological sites
Aggregate Resources Extraction Areas/Operations (Pits/Quarries)		Effects to aggregate extraction site operations including expansion plans, and site operations

FINAL CRITERIA LIST

Technical and Cost

Final Criteria	Final Proposed Measure
Line Length	Total length of each route or variation
Line Angles	Number of turns in each route/variation, as well as the angle of the turn (sharper or wider than 30°)
Crossings	Total number of crossings of: River, railways, Highway 401, Existing 230 kV transmission lines, etc.
Parallel & Adjacent to Underground Pipelines	Total distance parallel/adjacent to underground pipelines (preference to routes/variations with less parallel distance)
Proximity to Wind Turbines	Presence of existing wind turbines on property parcels, as well as proximity to the turbines
Parallel & Adjacent to existing transmission line corridor	Total distance of each route/variation that parallels an existing transmission line corridor (preference to routes/variations with longer parallel distance)
Parallel & Adjacent to other existing infrastructure (e.g., Highway 401)	Total distance of each route/variation that parallels a linear infrastructure/corridor (preference to routes/variations with longer parallel distance)
Number of property parcels requiring new real estate rights	Total number of property parcels for which new RE rights will be required (preference to routes/variations with lower number of parcels requiring new rights)
Number of mandatory property buy-outs	Total number of mandatory buyouts, e.g., existing structures for which the current use is not compatible with a transmission line

NEXT STEPS

Hydro One will continue to conduct environmental surveys and research.

Hydro One will continue to engage with the TAC through series of project workshops. Future workshops will be held to further evaluate alternative routes in support of the preferred route.

The project team will consider all feedback received and evaluate the results of environmental and technical research, and select the preferred route for the new transmission line.

Details of the evaluation process and the preferred alternative will be presented at a CIC in early 2021.

Next workshop is TBD.

TAC INPUT

All information collected during the moderated conference call and feedback survey will form part of the record of consultation and summarized in report format. Identifying information will be redacted, but comments will be made available to other TAC members, for posting on the project website, as well as in EA documentation for the project.

Survey results and feedback on criteria weighting received from TAC members will be used to inform the final weighting within the route evaluation framework, in conjunction with input and feedback received from members of the public, elected officials, First Nation communities, and other stakeholders.

**TECHNICAL ADVISORY
COMMITTEE (TAC)
VIRTUAL WORKSHOP
INFORMATION SESSION #3
CHATHAM TO LAKESHORE
TRANSMISSION PROJECT**

TODAY'S AGENDA

- Purpose of TAC
- Project Overview and status of the Class Environmental Assessment
- Re-Cap Route Evaluation Framework
- Selection of the Preferred Alternative
- Review TAC Workshop #2 Weighting Exercise Results
- Next Steps

PURPOSE OF TAC

- To provide a platform for Hydro One to present information, hold discussions, and ultimately draw upon the knowledge and experience of you and your organization.
- This knowledge sharing forum will help inform our planning and Class EA process.
- Specifically for this project, Hydro One is looking to draw upon the wide variety of technical knowledge represented by TAC organizations, yourselves, to help inform the comparative evaluation and route selection process used to identify the preferred route for the new Chatham to Lakeshore transmission line.
- While this third workshop represents the final planned event to support this purpose, we hope that each of you and your organizations will remain engaged in the Chatham x Lakeshore project and will contribute your expertise going forward:
 - Input regarding potential environmental effects and mitigation on the preferred route
 - Draft ESR review period (late spring/early summer 2021)
 - Post-EA discussions (Detailed design and construction planning, and permits/approvals, as needed)

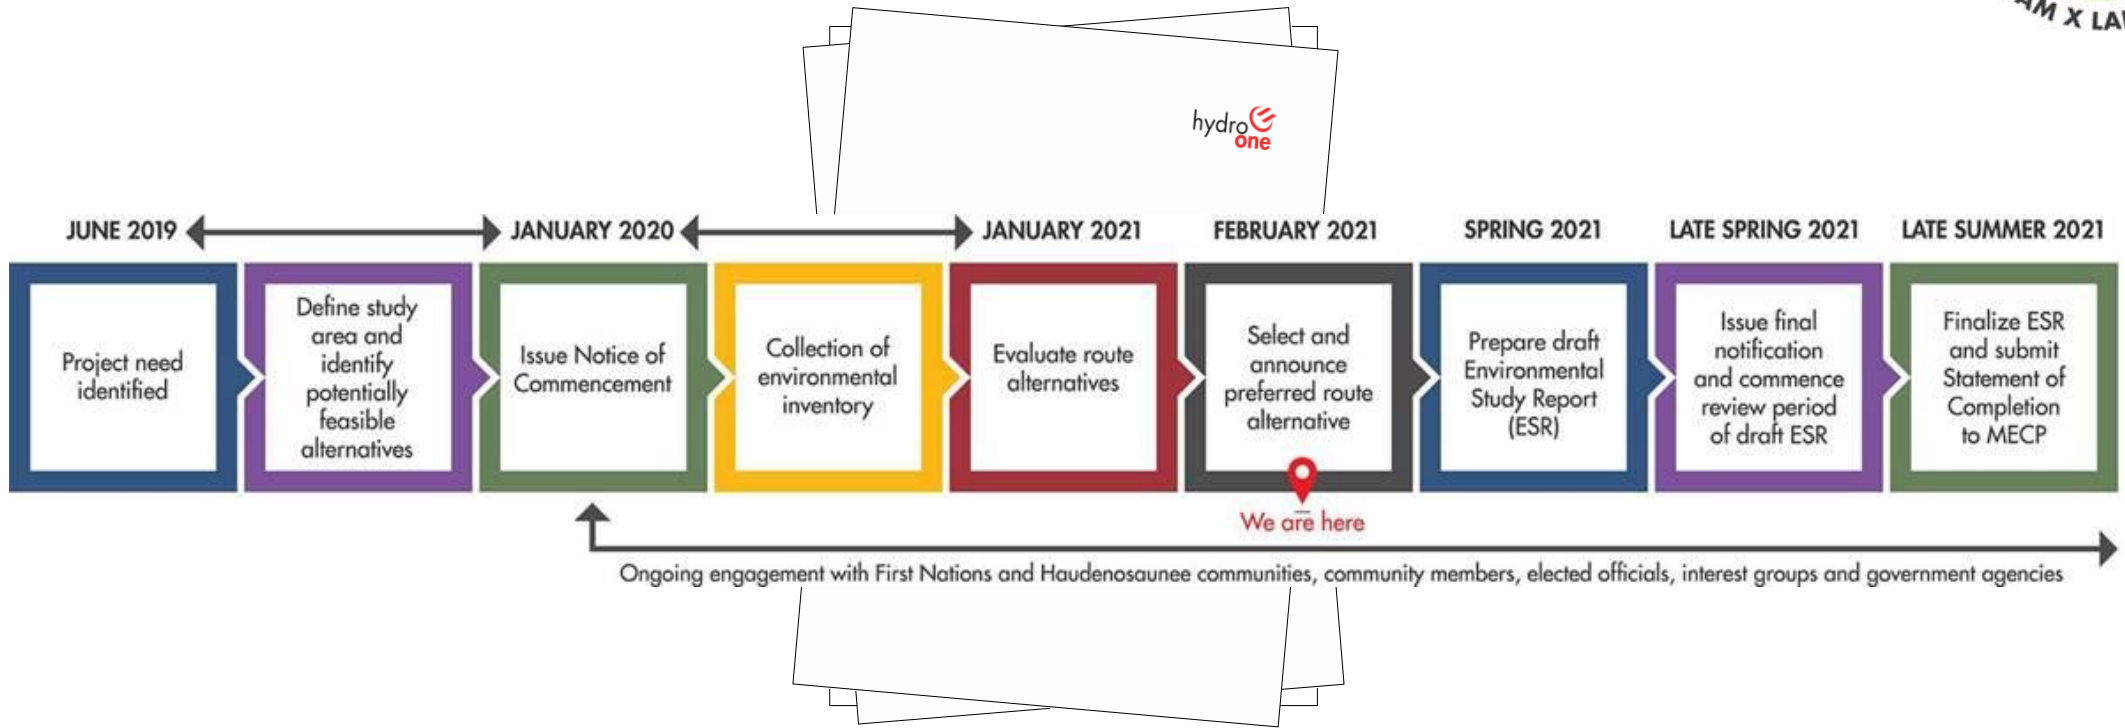

CLASS ENVIRONMENTAL ASSESSMENT PROCESS

ALTERNATIVES RECAP

TAC WORKSHOP #2

SUMMARY

Comments Received

- Data sources for measuring criteria (how identified and found)
- Non-renewable resources require mitigation measures as part of impact assessment
- Archaeological and cultural resources are non-renewable resources
- Tower placement dependent on landowners/farm use, but subject to engineering/design requirements first and foremost
- Need to ensure criteria for Traditional/Indigenous environmental knowledge included
- Difficulty of determining relative importance (weighting) of various Natural Environment features

FINAL CRITERIA & WEIGHTING: TECHNICAL AND COST & FIRST NATIONS AND TRADITIONAL LAND USE

 Technical and Cost	Weighting
Line Length	20
Line Angles	20
Crossings	12.5
Parallel & Adjacent to Existing Infrastructure	5
Proximity to Wind Turbines	5
Impacted Property Parcels and Property Acquisition	25
Overall Constructability	12.5

 First Nations and Haudenosaunee Culture, Values and Land Use	Weighting
Proximity to Identified Areas of Historical Significance	14.3
Effects to Identified First Nations revenue generating projects	14.3
Areas that support hunting/trapping/harvesting grounds	14.3
Areas that support fish bearing waters with identified or inferred habitat of game fish species	14.3
Effects to rare/undisturbed native habitats/ecosystems	14.3
Rare/Sensitive species regeneration potential	14.3
Co-location of existing infrastructure	14.3

PREFERRED ROUTE ALTERNATIVE

Most Preferred

Least Preferred

NEXT STEPS – CLASS EA

Details of the evaluation process and the preferred alternative will be publicly communicated beginning tomorrow, and will be presented at a virtual Community Information Session in March 2021.

Project team will turn our focus to the preferred route, and further investigating potential environmental effects and high-level avoidance, mitigation and restoration measures that may be utilized to address these potential effects.

The project team will complete the draft Environmental Study Report and release it for a First Nations and Haudenosaunee, public and agency review and comment period.

TAC INPUT

All information collected during the moderated conference call and feedback survey will form part of the record of consultation and summarized in report format. Identifying information will be redacted, but comments will be made available to other TAC members, for posting on the project website, as well as in EA documentation for the project.

Appendix B6 Record of Consultation

Anishnawbek and Haudenosaunee - Record of Consultation

Aamjiwnaang First Nation

Date	Type of communication	Community Representatives	Staff members	Summary
2019-12-03	Email	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief)	Daniel Charbonneau Derek Chum Sara Jane Souliere	Hydro One sent a project initiation letter (via email and hard copy) to Chief Chris Plain of Aamjiwnaang First Nation. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
2020-01-07	Email	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (MENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Daniel Charbonneau Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One sent Notice of Study Commencement Letter and Map to Aamjiwnaang First Nation.
2020-01-08	Letter	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief)	Daniel Charbonneau	Hydro One sent Notice of Commencement and Project map via Registered mail to Aamjiwnaang First Nation.
2020-02-03	Phone	Aamjiwnaang First Nation (Chippewas of Sarnia)	Sara Jane Souliere	9:35am Chief Plains mailbox full. 9:37am Telephone follow up with Environment dept. Spoke with Sharilyn Johnston regarding the Chatham to Lakeshore project. She put me in touch with Norm Joseph who plans the Environment committee meetings. They asked me to attend the meeting for the following day on Feb 4th. I asked about future community meetings and they will include Hydro One for March 7th and April 25th community meetings.
2020-02-03	Email	Aamjiwnaang FN Environment Inbox - Aamjiwnaang First Nation (Chippewas of Sarnia)	Sara Jane Souliere	Hydro One sent a presentation briefing to Aamjiwnaang First Nation for a meeting the following day. Hydro One informed Aamjiwnaang First Nation that they will be attending community events on March 7th and April 25th and invited Aamjiwnaang First Nation to attend.
2020-02-03	Email	Aamjiwnaang FN Environment Inbox - Aamjiwnaang First Nation (Chippewas of Sarnia) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Sara Jane Souliere	Hydro One sent a presentation briefing to Aamjiwnaang First Nation for the following day. Hydro One informed Aamjiwnaang First Nation that they will attend community events on March 7th and April 25th and encouraged them to attend the sessions.
2020-02-04	Email	Aamjiwnaang FN Environment Inbox - Aamjiwnaang First Nation (Chippewas of Sarnia)	Sara Jane Souliere	Hydro One re-emailed presentation materials and previously sent email to Aamjiwnaang First Nation.
2020-03-05	Email	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Daniel Charbonneau Erika Dawson Jenny Wimalanath Sara Jane Souliere	Hydro One sent the Community Information Centre invitation and newspaper ad to Aamjiwnaang First Nation and requested for a separate meeting to be held in the community prior to the Community Information Centre. Hydro One also informed Aamjiwnaang First Nation of the commencement of field studies in early April and welcomed their participation.
2020-03-05	Email	Dennis Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Species at Risk / Consultation)	Erika Dawson Sara Jane Souliere	Confirming attendance at Community Engagement event for formal CxL engagement with Aamjiwnaang First Nation.
2020-03-07	Community Information Centre (CIC)	Aamjiwnaang First Nation (Chippewas of Sarnia) Dennis Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Species at Risk / Consultation) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Erika Dawson Kieran Mackenzie Mehrgan Mazaheri Paul Dalmazzi Sara Jane Souliere	Attended Aamjiwnaang First Nation St. Clair Day for their multi-proponent engagement event. Hydro One staff provided information on the project and the alternative route selection to community members. Discussions with community members included topics such as migratory birds, bald eagles, and EMF, to which the project team provided some information from Health Canada as well as a handout showing typical EMF levels within a household (due to appliances and household wiring).
2020-03-09	Email	Dennis Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Species at Risk / Consultation) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Erika Dawson Sara Jane Souliere	Confirming a CIC date in Aamjiwnaang First Nation.
2020-03-10	Email	Dennis Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Species at Risk / Consultation)	Erika Dawson Sara Jane Souliere	Hydro One responded to Aamjiwnaang First Nation to confirm meeting timing and location details.
2020-03-20	Email	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Daniel Charbonneau Erika Dawson Jenny Wimalanath Sara Jane Souliere	Hydro One informed Aamjiwnaang First Nation of the cancellation of the Community Information Centres due to recent public health developments. Hydro One confirmed details will be provided when the meetings will be rescheduled and that the project team and Indigenous Relations team will remain available to answer questions.
2020-04-20	Flyer/ Unaddressed Notice	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief)	Derek Chum Sara Jane Souliere	Hydro One sent the proposed funding agreement and covering memo to Aamjiwnaang First Nation and requested to discuss the project with Chief Plain.
2020-04-21	Email	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Daniel Charbonneau Erika Dawson Sara Jane Souliere	Aamjiwnaang First Nation confirmed they will respond to Hydro One regarding the capacity funding agreement and a time to discuss the project.
2020-05-01	Email	Allan Farrell - Chippewas of the Thames First Nation Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Clint Couchie - Chippewas of Kettle and Stony Point First Nation Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Environmental Assessment Inbox - Caldwell First Nation (Environmental Assessment Inbox) Jacqueline French - Chippewas of the Thames First Nation (Chief) James Peters - Caldwell First Nation (Councillor) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joe Miskokomon - Chippewas of the Thames First Nation Joe Wabegijig - Chippewas of Kettle and Stony Point First Nation (Public Works) Kevin Jackson - Chippewas of Kettle and Stony Point First Nation Kodi Chrisjohn - Chippewas of the Thames First Nation Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor) Tammy Jolicoeur - Caldwell First Nation (Administrative Services Manager)	Daniel Charbonneau Erika Dawson Mehrgan Mazaheri Paul Dalmazzi Sara Jane Souliere	Hydro One sent a project update email to representatives of Aamjiwnaang First Nation, Chippewas of the Thames First Nation, Walpole Island First Nation, Chippewas of Kettle and Stony Point and Caldwell First Nation. Project updates included the status of the ongoing environmental studies and both the First Nation virtual Community Information Centre and the public Community Information Centres.
2020-05-04	Email	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Daniel Charbonneau Erika Dawson Sara Jane Souliere	Hydro One responded to Aamjiwnaang First Nation to confirm that Hydro One is agreeable to covering a reasonable cost for the legal review of the capacity funding agreement.

Anishnawbek and Haudenosaunee - Record of Consultation

Aamjiwnaang First Nation

Date	Type of communication	Community Representatives	Staff members	Summary
2020-05-14	Email	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Sara Jane Souliere	Hydro One followed up with representatives Aamjiwnaang First Nation to provide updates on the First Nation Community Information Centre, Environmental survey, Technical Advisory Committee and the Capacity Funding Agreement. Hydro One provided the invitation to the information centre.
2020-05-19	Phone	Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Sara Jane Souliere	Hydro One staff received a phone call from a staff at Aamjiwnaang First Nation to discuss a recent meeting of the Chief and Council at which the CFA was discussed. AFN staff also noted concerns regarding sensitivity of TEK (to which Hydro One staff confirmed that any TEK would be kept confidential), and capacity for the FN to participate in field studies and the upcoming virtual information session.
2020-05-19	Email	June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Sara Jane Souliere	Hydro One followed up with representatives of Aamjiwnaang First Nation requesting an update on the Capacity Funding Agreement and asking whether they would be in attendance of the Community Information Centre. Hydro One provided the invitation for the information centre.
2020-05-19	Email	June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Councillor) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Sara Jane Souliere	Aamjiwnaang First Nation confirmed they were in the process of getting the capacity funding agreement and the virtual community mtgs approved. Aamjiwnaang to follow up with the results of the council meeting and decision.
2020-05-19	Email	June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Paul Dalmazzi Sara Jane Souliere	Hydro One followed up on a conversation with representatives of Aamjiwnaang First Nation to confirm updates regarding the field studies will be provided. Hydro One indicated they are looking to have the Capacity Funding Agreement in place for community capacity and requested for the agreement to be kept confidential between Aamjiwnaang First Nation and Hydro One.
2020-05-23	Email	Allan Farrell - Chippewas of the Thames First Nation Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Clint Couchie - Chippewas of Kettle and Stony Point First Nation Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Darryl van Oirschot - Caldwell First Nation (Special Projects) Environmental Assessment Inbox - Caldwell First Nation (Environmental Assessment Inbox) Jacqueline French - Chippewas of the Thames First Nation (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) James Peters - Caldwell First Nation (Councillor) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joe Miskokomon - Chippewas of the Thames First Nation Joe Wabegijig - Chippewas of Kettle and Stony Point First Nation (Public Works) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Lisa DeMarco - DeMarco Allan LLP (Representative) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Nikki Orosz - Caldwell First Nation (Director - Operations) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor) Tammy Jolicoeur - Caldwell First Nation (Administrative Services Manager) Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	Daniel Charbonneau Erika Dawson Sara Jane Souliere	Hydro One sent a reminder email for the Virtual Information Sessions to representatives of Aamjiwnaang First Nation, Chippewas of the Thames First Nation, Walpole Island First Nation, Chippewas of Kettle and Stony Point and Caldwell First Nation. Hydro One provided the presentation slides and the invitation to the information centres.
2020-05-26	Community Information Centre (CIC)	Aamjiwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation Chippewas of Kettle and Stony Point First Nation Chippewas of the Thames First Nation	Andrew Luis Daniel Charbonneau Erika Dawson John Chadwick Julia Baldesarra Sanjiv Karunakaran Sara Jane Souliere	In light of COVID-19, Hydro One held a Virtual Information Session (VIS) for Anishinaabe communities to provide a live presentation on the overview CxL project, with the opportunities for live Q&A's from communities members.
2020-05-27	Email	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	Paul Dalmazzi Sara Jane Souliere	Hydro One invited representatives of Aamjiwnaang First Nation to participate in the Technical Advisory Committee (TAC). Hydro One provided an overview of the TAC and next steps. Hydro One informed Aamjiwnaang First Nation that if their community is not interested in participating in the public TAC event, Hydro One could offer a virtual First Nation TAC and requested confirmation of their preference.

2022-09-27	Email	Barbara Urlacher - Aamjiwnaang First Nation (Chippewas of Sarnia) Carole Delion - Aamjiwnaang First Nation (Chippewas of Sarnia) (Economic Development Coordinator) Cathleen O'Brien - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environment Coordinator) Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief)	Geewadin Elliott (AECON) Kelly Williams	Hydro One emailed Aamjiwnaang First Nation provide the revised target date of Project construction.
2022-09-27	Email	Cathleen O'Brien - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environment Coordinator)	Kelly Williams	Aamjiwnaang First Nation (AFN) emailed Hydro One to provide an update regarding the proposal for AFN.
2022-09-27	Email	Cathleen O'Brien - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environment Coordinator)	Kelly Williams	Hydro One thanked Aamjiwnaang First Nation for the update on the proposal.
2022-10-03	Email	Aamjiwnaang FN Environment Inbox - Aamjiwnaang First Nation (Chippewas of Sarnia) Cathleen O'Brien - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environment Coordinator)	Kelly Williams Matthew Beaudoin (Timmins Martelle Heritage Consultants) Paul Dalmazzi	Hydro One emailed Aamjiwnaang First Nation to provide an update on the initial draft Stage 2 Archeological Assessment report for the Chatham to Lakeshore project which would be submitted later that week, and also provided an update on the next draft Stage 2 Archaeological Assessment report which will be available for review by the end of the year.
2022-10-06	Email	Cathleen O'Brien - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environment Coordinator) Matt Stone - Aamjiwnaang First Nation (Chippewas of Sarnia) (Land Management Development)	Kelly Williams	Hydro One emailed Aamjiwnaang First Nation to provide further details regarding the proposal and how it is aligned with the mutually beneficial criteria. Hydro One requested a timeline for when the agreement will be approved and signed.
2022-10-12	Email	Cathleen O'Brien - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environment Coordinator) Matt Stone - Aamjiwnaang First Nation (Chippewas of Sarnia) (Land Management Development)	Kelly Williams	Aamjiwnaang First Nation emailed Hydro One to schedule a meeting to discuss the agreement.

Bkejwanong (Walpole Island) First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2019-12-03	Email	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief)	Daniel Charbonneau Derek Chum Sara Jane Souliere	Hydro One sent a project initiation letter (via email and hard copy) to Chief Daniel Miskokomon of Bkejwanong First Nation. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
2020-01-07	Email	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (MENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division)	Daniel Charbonneau Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One sent Notice of Study Commencement Letter and Map to Bkejwanong (Walpole Island) First Nation.
2020-01-08	Letter	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief)	Daniel Charbonneau	Hydro One sent Notice of Commencement and Project map via Registered mail to Walpole Island First Nation.
2020-01-16	Email	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Alex Phillips Derek Chum	Lisa DeMarco states that she and her firm have been retained by Walpole Island First Nation to assist them on the consultation of CxL and other Hydro One matters. Lisa asked if there will be capacity funding available for CxL consultation.
2020-01-20	Phone	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum	Derek Chum left a voicemail with Lisa DeMarco confirming that there will be capacity funding available for Walpole Island First Nation in regards to CxL consultation.
2020-01-21	Email	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum	Lisa DeMarco requested written confirmation of the WIFN capacity funding availability.
2020-01-24	Email	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Sara Jane Souliere	Derek Chum sent follow up email to Lisa DeMarco that there will be capacity funding available for CxL consultations with Walpole Island First Nation.
2020-02-03	Letter	Bkejwanong (Walpole Island First Nation) Chloe Lazakis Daniel Miskokomon Lisa DeMarco Ministry of Energy, Northern Development and Mines (MENDM) Samir Adkar		Lisa DeMarco sent a letter to MENDM advising they are legal council for WIFN on matters involving CxL and Hydro One. Lisa advised MENDM that WIFN does not believe that the Duty to Consult and accommodation has been fulfilled. WIFN is still reviewing the Class EA on Lakeshore TS Project and in the interim period WIFN requests that no Crown approvals be granted for the proposed project.
2020-02-05	Letter	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Mark Poweska	Mark Poweska responding to Lisa DeMarco's letter dated January 31, 2020 that Hydro One is looking forward to working with Walpole Island First Nation on CxL. Mark advised that Hydro One has reached out regarding to the project and will have ongoing consultation as the project develops. Derek Chum will reach out with a draft Capacity Funding Agreement, and attached a draft. Mark restated Hydro One will not divest existing transmission and distribution assets. Hydro One is open to discussing partnerships and participation on CxL.
2020-02-07	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Sara Jane Souliere	Hydro One informed Walpole Island First Nation of the upcoming Community Information sessions during the weeks of March 9th and 23rd and requested that they provide their availability.
2020-03-03	Letter	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Mark Poweska	Lisa DeMarco requests Hydro One to finalize Capacity Funding Agreement, MOU, and term sheet defining equity partnership in the Project by March 31 2020. Lisa also requests a meeting between Chief Miskokomon and Mark Poweska.
2020-03-05	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Daniel Charbonneau Erika Dawson Jenny Wimalanath Sara Jane Souliere	Hydro One sent the Community Information Centre invitation and newspaper ad to Walpole Island First Nation and requested for a separate meeting to be held in the community prior to the Community Information Centre. Hydro One also informed Walpole Island First Nation of the commencement of field studies in early April and welcomed their participation.
2020-03-09	Letter	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Jason Fitzsimmons	Jason Fitzsimmons response to Lisa DeMarco's letter dated March 3rd, 2020. Letter advises that the EA process will allow Hydro One to understand the potential impacts of the project which will inform accommodation measures. Letter states that the project is in the preliminary phase and offers an early meeting with Chief Miskokomon and Lisa DeMarco with Derek Chum.
2020-03-20	Meeting	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Jonathan McGillevray - DeMarco Allan LLP (Associate) Lisa DeMarco - DeMarco Allan LLP (Representative) Vincent Buron - Vires Capital VII (Managing Partner)	Derek Chum Jason Fitzsimmons	Hydro One staff held a meeting with Chief Miskokomon and Walpole Island First Nation's legal counsel.
2020-03-20	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Daniel Charbonneau Erika Dawson Jenny Wimalanath Sara Jane Souliere	Hydro One informed Walpole Island First Nation of the cancellation of the Community Information Centres due to recent public health developments. Hydro One confirmed details will be provided for when the meetings are rescheduled and that the project team and Indigenous Relations team remain available to answer questions.
2020-05-01	Email	Allan Farrell - Chippewas of the Thames First Nation Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Clint Couchie - Chippewas of Kettle and Stony Point First Nation Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Environmental Assessment Inbox - Caldwell First Nation (Environmental Assessment Inbox) Jacqueline French - Chippewas of the Thames First Nation (Chief) James Peters - Caldwell First Nation (Councillor) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joe Miskokomon - Chippewas of the Thames First Nation Joe Wabegijig - Chippewas of Kettle and Stony Point First Nation (Public Works) Kevin Jackson - Chippewas of Kettle and Stony Point First Nation Kodi Chrisjohn - Chippewas of the Thames First Nation Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor) Tammy Jolicoeur - Caldwell First Nation (Administrative Services Manager)	Daniel Charbonneau Erika Dawson Mehrgan Mazaheri Paul Dalmazzi Sara Jane Souliere	Hydro One sent a project update email to representatives of Aamjiwnaang First Nation, Chippewas of the Thames First Nation, Walpole Island First Nation, Chippewas of Kettle and Stony Point and Caldwell First Nation. Project updates included the status of the ongoing environmental studies and both the First Nation virtual Community Information Centre and the public Community Information Centres.

Bkejwanong (Walpole Island) First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2020-05-14	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief)	Olivera Radinovic	WIFN thanked Hydro One for their previous communications. In addition, WIFN mentioned that they were in the midst of negotiations and exchanging drafts with (other departments at) Hydro One, in relation to a Capacity Funding Agreement (CFA) and a Memorandum of Understanding (MOU).
2020-05-14	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Sara Jane Souliere	Hydro One followed up with representatives from Walpole Island First Nation and provided an update on the First Nation Community Information Centre, Environmental survey, Technical Advisory Committee and the Capacity funding agreement. Ms. DeMarco requested one full week of notice for each intended access of traditional territories and to postpone all such activities until notice has been provided. Ms. DeMarco provided the contacts to whom the notice should be provided.

Bkejwanong (Walpole Island) First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2020-06-09	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Michael Engelberg Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One informed Lisa DeMarco, representative for Walpole Island First Nation, that they will respond to the various items identified in her email. Hydro One addressed Ms. DeMarco's comment regarding monitoring and requested the monitoring coordinator contact's information.
2020-06-10	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Michael Engelberg Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Lisa DeMarco, representative for Walpole Island First Nation, emailed Hydro One and reiterated the request for Hydro One to stand down until reasonable notice is provided and confirmed. Ms. DeMarco noted that more than one representation may be participating in the activities and confirmation of representatives will be provided following receipt of reasonable notice.
2020-06-10	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Michael Engelberg Sanjiv Karunakaran	Hydro One's VP of Indigenous Relations Derek Chum replied to Lisa DeMarco to clarify Hydro One's position on the CxL project and other transmission stations projects. Derek reiterated that Hydro One is committed to providing capacity funding on CxL to support participation in the Class EA and project, and also stated that there will be opportunities for employment and other economic opportunities as the project progresses. Derek reiterated the opportunity for WIFN to hire a Community coordinator through the CFA, and inquired about WIFN's anticipated timelines. Derek also stated an interest in entering into a broader, long-term agreement with WIFN outside of these projects, potentially relating to ongoing matters such as reliability and customer matters.
2020-06-12	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One followed up with Lisa DeMarco, representative for Walpole Island First Nation, and provided an update on the upcoming environmental surveys. Hydro One included the Technical Advisory Committee (TAC) survey and requested confirmation on times to discuss the project. Hydro One reiterated that feedback from the TAC will be reported as a single entity.
2020-06-12	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Lisa DeMarco, representative for Walpole Island First Nation, requested that Hydro One provide a detailed notice and outlined the questions to address. Ms. DeMarco noted there was concern with the Lambton Station and the Technical Advisory Committee and requested that Hydro One advise when Walpole Island First Nation will receive the draft Capacity Funding Agreement and Memorandum of Understanding.
2020-06-17	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One emailed Walpole Island First Nation and replied to their various questions. Hydro One noted that what is being done is a Stage 2 archaeological assessment for the Lakeshore SS and South Middle Road TS property (collectively referred to as the "Lakeshore Transmission Stations project"). - Where it is being done from (the departure point) o The Lakeshore TS property is located in the Town of Lakeshore, just southwest of the intersection of Essex County Rd 46 and Rochester Townline Rd. o Hydro One provided the Site address at 3097 Essex County Rd 46. - When it is being done (the time of departure) o Hydro One stated that the target date is tentatively Monday, June 29 and Tuesday, June 30 as the survey dates, with a start time of 9:00 AM at the site, depending on the weather. - Who is doing it (who is the contact point for the WIFN Representative) o Hydro One informed that Barbara Slim and Kristy O'Neal are the lead consulting Sr. Archaeologists on the Lakeshore TS project, and both Barbara and Kristy should be included on communication regarding the upcoming Arch survey - Hydro One also asked that Walpole Island provide any pre-requisites for the monitor to participate
2020-06-18	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Walpole Island First Nation (WIFN) emailed Hydro One regarding their understanding of Hydro One's commitment to stand down on work related to the project until consultation was complete. WIFN stated that they were awaiting a reply from Hydro One representatives and requested a chief to chief meeting.
2020-06-19	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One acknowledged the Walpole Island First Nations email. Hydro One noted that they shared an email on June 10, 2020, regarding their commitment and to address Walpole Island First Nation's concerns. Hydro One offered to provide further clarification over a phone call.
2020-06-19	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Walpole Island First Nation replied to Hydro One and stated that they believe a discussion would be helpful and they would organize a meeting with the community leaders.
2020-06-19	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One shared a summary of the remaining natural environment field survey work planned for the next several weeks to representatives of Walpole Island First Nation. Hydro One noted there is an additional survey recently identified that they are planning to conduct and also provided information for how to coordinate participation in the field surveys.
2020-06-19	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Lisa DeMarco, representative for Walpole Island First Nation, requested more information on the planned natural environment surveys.
2020-06-19	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One provided more information on the natural environment surveys as requested by Lisa DeMarco, representative for Walpole Island First Nation.
2020-06-19	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Lisa DeMarco, representative for Walpole Island First Nation, confirmed the receipt of Hydro One's email providing more information about the natural environment surveys.

Bkejwanong (Walpole Island) First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2020-06-23	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Erika Dawson Sanjiv Karunakaran Sara Jane Souliere	Hydro One shared the job description for the Community Consultation Coordinator with representatives of Walpole Island First Nation and provided an overview of the Capacity Funding Agreement. Hydro One offered to discuss the hiring of a Community Consultation Coordinator.
2020-06-24	Email	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Sanjiv Karunakaran	Walpole Island First Nation's legal representation emailed Hydro One and shared confirmation of who would participate as monitors for the field surveys on June 26 and 27, 2020.
2020-06-25	Email	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative)	Derek Chum Sanjiv Karunakaran	Lisa DeMarco of Walpole Island First Nation emailed Hydro One to state that her understanding with regards to the survey was that Aimee and Mike would be reaching out to Dillon directly as per a prior email.
2020-06-25	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Daniel Charbonneau Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One emailed Walpole Island First Nation to share a reminder to fill out the workshop feedback surveys and shared a link to the TAC informational video.
2020-06-25	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Daniel Charbonneau Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Lisa DeMarco of Walpole Island First Nation emailed Hydro One and stated there are some concerns with the substance and process around the survey, Lisa stated she believes the survey "was not crafted or otherwise informed by your (Hydro Ones) indigenous partner(s)".
2020-06-26	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Daniel Charbonneau Paul Dalmazzi Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One emailed Lisa DeMarco of Walpole Island to clarify their position on the surveys in question. Hydro One stated that they would hold a separate event to gather information on Indigenous matters. Hydro One also noted that they are hoping to conduct the corridor workshops (virtually) starting in mid-July and requested that Walpole Island First Nation send a date that would be suitable for the community.
2020-06-27	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Daniel Charbonneau Derek Chum Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Lisa DeMarco of Walpole Island First Nation emailed Hydro One regarding their feedback on the survey and on a matter pertaining to a commitment made to revise and return the Memorandum of Understanding made on March 1, 2020.
2020-06-29	Email	Bkejwanong (Walpole Island First Nation) Lisa DeMarco - DeMarco Allan LLP (Representative) Mike Gaul	Daniel Bourassa (Dillon) John Chadwick Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Lisa DeMarco of Walpole Island First Nation replied to the project team and stated that she would provide an answer regarding the status of the community field survey monitor.
2020-07-02	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Daniel Bourassa (Dillon) Jessica Wright (Dillon) John Chadwick Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One emailed Walpole Island First Nation regarding logistics and requested the contact information of the community representatives that would be available to monitor the planned field surveys.
2020-07-03	Email	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	Daniel Bourassa (Dillon) Jessica Wright (Dillon) John Chadwick Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Walpole Island First Nation sent an email to Hydro One regarding field surveys and the execution of the subcontract agreement for the environmental monitor from Walpole Island First Nation.
2020-07-03	Email	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Mike Gaul	Daniel Bourassa (Dillon) Jessica Wright (Dillon) Paul Dalmazzi	Hydro One emailed Walpole Island First Nation and requested that they share the contact information of their selected monitor for the biological surveys. Hydro One shared the Health and Safety Plan along with the COVID-19 subcontractor's agreement.
2020-07-03	Email	Robert Wrightman - Bkejwanong (Walpole Island First Nation) [CxL CFA contact]	Erika Dawson Sara Jane Souliere	Hydro One emailed Walpole Island First Nation to provide the next steps regarding invoicing for the capacity funding for the Chatham to Lakeshore Project.
2020-07-03	Email	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Erika Dawson Sara Jane Souliere	Hydro One corresponded with Walpole Island First Nation regarding invoice setup and the Capacity Funding Agreement.
2020-07-05	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator)	Brad McLeod (Dillon) Daniel Bourassa (Dillon) Jessica Wright (Dillon) Paul Dalmazzi	The Chatham Lakeshore Project team replied to a member of Walpole Island First Nation regarding their participation and receipt of their health and safety agreement for the field surveys planned for July 2020.
2020-07-07	Letter	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Greg Rickford - Legislative Assembly of Ontario (MPP (Kenora—Rainy River)) Peter Gregg - Independent Electricity System Operator (IESO) (President and CEO)	Mark Poweska	Chief Daniel Miskokomon sent a signed letter dated July 7 2020 to Mark Poweska regarding his disappointment with HONI's ongoing relationship with WIFN. Within the letter is the attachment of a record of Hydro One's engagement with WIFN regarding proposed projects over the last 4 years within WIFN traditional territory. Chief notes HONI's Indigenous corporate strategy of being a trusted partner and expresses disappointment about delays in negotiating a Memorandum of Understanding and slow progress in entering an equity partnership with CxL transmission line. Chief requests a meeting with Mark Poweska to discuss finalizing an equity partnership and other projects within their traditional territory.
2020-07-09	Email	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul	Brad McLeod (Dillon) Daniel Bourassa (Dillon) Jessica Wright (Dillon) Paul Dalmazzi	Hydro One emailed participants of the biological survey scheduled for July 13, 2020, to confirm their availability and to share logistics.
2020-07-09	Email	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul - TD Canada Trust Tower (Partner, courier)	Brad McLeod (Dillon) Daniel Bourassa (Dillon) Jessica Wright (Dillon) Paul Dalmazzi	Mike Gaul of Vires Capital VII emailed Hydro One to inform that he would not be available for the biological surveys scheduled for July 13, 2020.
2020-07-10	Email	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Robert Wrightman - Bkejwanong (Walpole Island First Nation) [CxL CFA contact]	Erika Dawson Sara Jane Souliere	Hydro One emailed Walpole Island First Nation to offer their support in answering any questions regarding the vendor acceptance form.

Bkejwanong (Walpole Island) First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary

2020-09-15	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative) Robert Wrightman - Bkejwanong (Walpole Island First Nation) (Cxl. CFA contact)	Daniel Charbonneau Erika Dawson Sara Jane Souliere	Hydro One following up with new Walpole Island First Nation contact for Chatham to Lakeshore Project Capacity Funding Agreement PO. Included step by step instructions, documents to be signed and returned to Hydro One, and help contact.
2020-09-16	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Lisa DeMarco - DeMarco Allan LLP (Representative)	Amy Lickers	Hydro One staff emailed with representatives of WIFN to discuss the planned upcoming meeting to discuss the route evaluation.
2020-09-18	Meeting	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Daniel Miskokomon Daniel Vollmer - DeMarco Allan LLP (Articling Student) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Jonathan McGillevray - DeMarco Allan LLP (Associate) Lisa DeMarco - DeMarco Allan LLP (Representative)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One attended a meeting that was cancelled ten minutes within the meeting due to WIFN pending election the next day. The meeting was scheduled to present the route selection process and provide project updates.
2020-09-18	Meeting	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Vollmer - DeMarco Allan LLP (Articling Student) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Jonathan McGillevray - DeMarco Allan LLP (Associate) Lisa DeMarco - DeMarco Allan LLP (Representative)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One initiated a cancelled WebEx virtual meeting with a prepared PowerPoint presentation for a route selection workshop with Walpole Island First Nation. Daniel Deleary and Daniel Vollmer from DeMarco Allan LLP attended the initiation of the meeting.
2020-09-18	Email	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Daniel Vollmer - DeMarco Allan LLP (Articling Student) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Jonathan McGillevray - DeMarco Allan LLP (Associate) Lisa DeMarco - DeMarco Allan LLP (Representative)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Walpole Island First Nation (WIFN) emailed Hydro One to request the planned virtual workshop on the route evaluation be rescheduled.
2020-09-18	Email	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Daniel Vollmer - DeMarco Allan LLP (Articling Student) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Jonathan McGillevray - DeMarco Allan LLP (Associate) Lisa DeMarco - DeMarco Allan LLP (Representative)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One thanked Walpole Island First Nation for letting them know that they would like to reschedule the meeting due to the community's pending election the next day and stated that they look forward to rescheduling at a later date.
2020-09-30	Email	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Sara Jane Souliere	Hydro One emailed Walpole Island First Nation (WIFN) to request confirmation of the communications protocol between Hydro One and WIFN.
2020-10-02	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Erika Dawson Sara Jane Souliere	Hydro One requests a high level estimate of end of year spend from Walpole Island First Nation from the Chatham to Lakeshore Transmission Project CFA.
2020-10-02	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator)	Sara Jane Souliere	Hydro One emailed Walpole Island First Nation (WIFN) and shared emails and a letter with updated information regarding the project.
2020-10-06	Email	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Daniel Charbonneau Sanjiv Karunakaran	Hydro One emailed Walpole Island First Nation to inquire whether they would be interested to set up a call/WebEx meeting to discuss the potential economic participation opportunities for the project. Hydro One included a summary outlining potential economic participation opportunities.
2020-10-09	Email	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Amy Lickers Erika Dawson Sara Jane Souliere	Hydro One follow ups with James Jenkins to register on Taulia and send back outstanding signed EFT form for the community to start to invoice against the PO for Chatham to Lakeshore CFA.
2020-10-13	Email	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Sara Jane Souliere	Hydro One emailed Walpole Island First Nation (WIFN) and provided a previously sent email providing an update on the project, as well as attachments detailing 2020 correspondence between Hydro One and WIFN and with Lisa DeMarco.
2020-10-15	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator)	Sara Jane Souliere	Hydro One emailed Danny Deleary of Walpole Island First Nation (WIFN) to inform of a call was held the previous Wednesday with the Director of Operations. Hydro One noted they look forward to hearing back from WIFN regarding next steps. Hydro One stated that if they have updates on any Hydro One related projects, they will send this to WIFN.
2020-10-29	Email	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Daniel Charbonneau Erika Dawson Sanjiv Karunakaran Sara Jane Souliere	Hydro One emailed Walpole Island First Nation (WIFN) and requested clarification regarding the review WIFN is currently conducting.
2020-10-31	Email	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Daniel Charbonneau Erika Dawson Sanjiv Karunakaran Sara Jane Souliere	Walpole Island First Nation (WIFN) emailed Hydro One and provided clarification regarding the review they have undertaken with respect to the project. It was noted that Hydro One should expect a letter clarifying WIFN's consultation protocol and economic participation.

Bkejwanong (Walpole Island) First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2020-11-19	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Walpole Island First Nation and shared updates on the project. Included in the email was a GIS Dataset Package and a link to the Stage 1 Archaeology reports and shapefiles. It was noted that the virtual Route Selection Workshop is still available, or alternatively, Hydro One's environmental planners are available to discuss considerations for the route selection.
2020-11-26	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Walpole Island First Nation and shared the updated links and login information to review the Stage 1 Archaeology Reports.
2020-11-26	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Amy Lickers Sara Jane Souliere	Walpole Island First Nation emailed Hydro One's Indigenous Relations Consultant and noted they will be in contact soon.
2020-11-26	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Amy Lickers Paul Dalmazzi Sara Jane Souliere	Hydro One emailed Walpole Island First Nation and noted that the timelines for the Environmental Assessment are very tight and they are looking to finalize the route selection in the very near future. Hydro One shared a link to the most up-to-date information and noted they would be happy to meet to gather feedback and advice.
2020-11-26	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Amy Lickers Paul Dalmazzi Sara Jane Souliere	Walpole Island First Nation emailed Hydro One and requested a call or virtual meeting to receive an update on the project.
2020-11-27	Meeting	Bkejwanong (Walpole Island First Nation) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One hosted a technical route selection workshop with Janet Macbeth, EA Project Consultant from Walpole Island First Nation. Paul Dalmazzi presented alternative routes, Janet provided some feedback within the meeting on potential route evaluation criteria of interest to the Walpole Island First Nation.
2020-11-27	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Walpole Island First Nation and thanked them for the meeting that morning. The link and login information to Stage 1 Archaeology reports and shapefiles, Route Selection Dialogue workbook and the Desktop Identification Exercise were provided with the email. The targeted timeline for the route selection was provided and it was recommended that they schedule a meeting following the review of the information.
2020-11-27	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One emailed Walpole Island First Nation and shared a letter with some of the results of the natural heritage surveys and research conducted throughout the year. It was noted that the letter contains a link that has shapefile selections and all of this will be sent early next week. Hydro One requested more information on the wind generation facilities mentioned during the meeting.
2020-11-30	Letter	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands)	Paul Dalmazzi	Walpole Island First Nation was sent a hard copy of the cover letter, GIS dataset package letter and brief survey results/species list, draft Stage 1 Archaeology Report, Cultural Heritage Existing Conditions report, and workbook. Included in the package was a USB with the GIS data, Stage 1 Archaeology shapefiles and workbook.
2020-12-08	Email	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands) Robert Wrightman - Bkejwanong (Walpole Island First Nation) (Cxl. CFA contact)	Amy Lickers Daniel Charbonneau Erika Dawson Sara Jane Souliere	Hydro One emailed Walpole Island First Nation staff to offer a webex training session on invoice submission through the CFA purchase order.

Hydro One is also available to meet with each community individually, if they prefer, rather than attend the public TAC. Update provided on the Breeding Bird Surveys, Ecological Land Classification and Botanical Surveys and the plan to complete Aquatic Surveys.
2020-06-09	Phone	Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations)	Sara Jane Souliere	Brief update on the call with Caldwell FN. Sara Jane and I (Sonny) had a call with Nikki this afternoon. Nikki clarified 3 items in the main body of the agreement and two items in Schedule C of the agreement. She was pleased with the responses that we provided to her questions. We have asked that she reflect the requested amendments to these sections in a redline to the agreement, which she said she would send us next week. Subject to review of those redlines and based on the discussion we had today, we should be in a position to execute the CFA in the near future.
2020-06-23	Email	Darryl van Oirschot - Caldwell First Nation (Special Projects) Environmental Assessment Inbox - Caldwell First Nation (Environmental Assessment Inbox) James Peters - Caldwell First Nation (Councillor) Nikki Orosz - Caldwell First Nation (Director - Operations) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor) Tammy Jolicoeur - Caldwell First Nation (Administrative Services Manager)	Erika Dawson Sara Jane Souliere	Hydro One shared the job description for the Community Consultation Coordinator with representatives of Caldwell First Nation and noted that a copy of the Capacity Funding Agreement (CFA) was previously shared with them for their consideration. 2021-03-22	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers Paul Dalmazzi Sara Jane Souliere	Hydro One emailed Caldwell First Nation to provide a response to their letter dated February 17, 2021. Hydro One provided details on their route evaluation process.
2021-03-22	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One emailed Caldwell First Nation regarding invoicing and shared invoicing documents.
2021-03-22	Community Information Centre (CIC)	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Louise Hillier - Caldwell First Nation (Band Representative) Wendy McLeod	Lynn Hall	Hydro One hosted a Virtual Live Discussion for Anishnawbek communities. Hydro One shared a presentation that provided an overview of the preferred route, followed by a live discussion.
2021-03-26	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and informed them that they will confirm and get back to them.
2021-03-31	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and informed them that they will send a USB. Confirmation of address was requested.
2021-04-01	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and provided an update regarding timelines and next steps for the project and Class Environmental Assessment. An offer to meet and discuss the high-level assessment of environmental effects and potential mitigation measures was also included in the email. Presentation materials from the recent Anishnawbek Information Session were also included.
2021-04-01	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One emailed Caldwell First Nation regarding availability to discuss invoicing.
2021-04-01	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One requesting Caldwell First Nation to resubmit an invoice on Taulia with itemized receipts.
2021-04-06	Phone	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation	Erika Dawson	Hydro One called and left a voicemail for Caldwell First Nation to ask them to resubmit outstanding invoice.

Caldwell First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-04-06	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and informed them that the USB has been prepared and will be put in the mail that afternoon.
2021-04-07	Phone	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation	Erika Dawson	Hydro One called Caldwell First Nation again and left a voicemail requesting a call back regarding the outstanding invoice.
2021-04-09	Phone	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Erika Dawson	Brianna returned a phone call to Hydro One in follow up to invoicing matters and expressed concerns about submitting the Traditional Ecological Study for Chatham to Lakeshore Transmission Project before the deadline.
2021-04-09	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and provided an overview of the Engineering, Procurement and Construction (EPC) contractors. Caldwell First Nation was invited to contact Hydro One to arrange an introductory meeting with the Hydro One team and the EPC contractors.
2021-04-12	Phone	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation	Erika Dawson	Hydro One called and left a voicemail for Caldwell First Nation to request that they resubmit an outstanding invoice.
2021-04-13	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers	Caldwell First Nation emailed Hydro One regarding logistics for an upcoming meeting.
2021-04-21	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One responded back to Caldwell resubmitting invoices on Taulia and gave approval for Caldwell's Finance Manager to also bill for her time invoicing against the CFA PO. Hydro One noted that the Taulia submission was not successful and offered a meeting to help upload invoices together successfully.
2021-04-23	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers Erika Dawson Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation (CFN) and provided an update on next steps for the project, including coordinating additional studies, detailed design and construction plans with the Early Contractor Involvement Process and Traditional and Environmental Knowledge study with CFN.
2021-04-28	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One informing Caldwell First Nation of approved invoice payments and requested to resubmit one invoice with itemized invoice.
2021-04-30	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One following up on the status on invoices in Taulia with Caldwell First Nation.
2021-04-30	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One emailed Caldwell First Nation and informed them the invoice was approved.
2021-05-03	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and informed them that they will get back to them with some dates.
2021-05-07	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation staff to arrange meetings to discuss equity participation and employment and training opportunities on the project.
2021-05-17	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One emailed Caldwell First Nation regarding invoicing.
2021-05-19	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One emailed Caldwell First Nation regarding invoicing and informed them that they will look into the matter.
2021-05-25	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers Erika Dawson Paul Dalmazzi	Caldwell First Nation emailed Hydro One and requested clarification/information on next steps for the project, including the draft Environmental Study Report, Cultural Heritage Existing Conditions Report, Stage 1 Archaeological Assessment and the Capacity Funding Agreement.
2021-05-26	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers Erika Dawson Paul Dalmazzi	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and provided responses to their inquiries regarding the Environmental Study Report, the Cultural Heritage Existing Conditions Report and Stage 1 Archaeological Assessment report. It was noted that the Stage 2 Archaeology will focus on areas of archaeological potential along the preferred route and that there will be opportunities to participate in the fieldwork and report review.
2021-05-28	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers Don Parkinson (SNC Lavalin) Erika Dawson Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and provided more information on the Early Contractor Involvement (ECI) process for the project. It was requested that availability be confirmed for an introductory meeting.
2021-06-01	Email	Caldwell First Nation Economic Development Officer Inbox - Caldwell First Nation (Economic Development Officer) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers Don Parkinson (SNC Lavalin) Erika Dawson Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	Caldwell First Nation emailed Hydro One and thanked them for the update. Caldwell provided availability and requested the calendar invitation and any other information be provided to the listed attendees.
2021-06-01	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers Don Parkinson (SNC Lavalin) Erika Dawson Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and informed Caldwell the invitation will be sent shortly. An inquiry was also made about whether Caldwell is looking to discuss equity participation.
2021-06-02	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One emailed Caldwell First Nation regarding invoicing approval.
2021-06-02	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Caldwell First Nation emailed Hydro One and provided confirmation regarding invoicing.
2021-06-02	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Amy Lickers Don Parkinson (SNC Lavalin) Erika Dawson Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	Caldwell First Nation emailed Hydro One and confirmed they would like to begin the conversations around equity participation.
2021-06-04	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers Erika Dawson Matthew Jackson Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Caldwell First Nation regarding an Early Contractor Involvement introduction meeting and provided notes from an earlier meeting on the economic benefits component of the project.

Caldwell First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-06-10	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One's Indigenous Relations Consultant shared the Notice of Completion and Draft Environmental Study Report Review Period with Caldwell First Nation.
2021-06-15	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	Amy Lickers	Caldwell First Nation emailed Hydro One and requested assistance in sharing the archaeological and heritage reports with supporting consultation staff in order to review the documents during the review period for the Environmental Study Report.
2021-06-16	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and indicated they will request an online link with the documents.
2021-06-16	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and the Firelight Group with a link to the latest Environmental Study documents.
2021-06-16	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	Amy Lickers	The Firelight Group emailed Hydro One and requested confirmation regarding materials in the draft Environmental Study Report and whether Caldwell First Nation will have an opportunity to review the Stage 2 Archaeological Assessment once completed. They also inquired where the Stage 1 Archaeological Assessment took place along the selected route.
2021-06-17	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed the Firelight Group and provided responses to their questions related to the Stage 1 and Stage 2 Archaeological Assessments and Cultural Heritage Existing Conditions report.
2021-06-18	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation Economic Development Officer Inbox - Caldwell First Nation (Economic Development Officer) Nikki Orosz - Caldwell First Nation (Director - Operations) Oliver MacLaren - Olthuis Kleer Townshend (OKT LLP) (Legal Counsel) Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor)	Alain Delisle (SNC Lavalin) Amy Lickers Don Parkinson (SNC Lavalin) Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	Don Parkinson from SNC Lavalin emailed Caldwell First Nation and shared the meeting minutes from the Introductory meeting with EPC contractors. The presentation on the Early Contractor Involvement process and presentations from the two EPC firms were also attached.
2021-07-06	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations) Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	Amy Lickers Erika Dawson Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation (CFN) to provide an overview of upcoming aquatic habitat surveys and Stage 2 Archaeological Assessment. CFN was requested to confirm interest in attending either survey and to identify staff who will be in attendance.
2021-07-09	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Caldwell First Nation emailed Hydro One to provide the invoices for capacity funding.
2021-07-09	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation Economic Development Officer Inbox - Caldwell First Nation (Economic Development Officer) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations) Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor)	Don Parkinson (SNC Lavalin) Erika Dawson Geewadin Elliott (AECON) John Bonin (Aecon) Matthew Jackson Nalin Mistry (Voltage Power) Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting) Steven Jeffery (Voltage Power)	Voltage Power emailed Caldwell First Nation and shared the discussion items for the upcoming meeting on July 14th. The proposed hiring and employment process and procurement opportunities were also outlined in the email.
2021-07-09	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	Erika Dawson	Hydro One emailed Caldwell First Nation and thanked them for providing an update on the upload of invoices. Hydro One indicated they will review.
2021-07-09	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Caldwell First Nation and shared documents ahead of the follow-up meeting, including draft notes from a previous equity participation meeting, schedule of key milestones and a revised draft term sheet. Availability for the next meeting was provided.
2021-07-12	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Caldwell First Nation emailed Hydro One and indicated they will forward the shared information and follow up regarding the next meeting.
2021-07-14	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Glenn Forrest - Caldwell First Nation Julia Ierullo - Caldwell First Nation (Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	Paul Dalmazzi	The Consultation Coordinator for Caldwell First Nation emailed Hydro One and advised them of a new Consultation Tool that they are now asking proponents to use. Information documents on the process was shared via email.
2021-07-15	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation Economic Development Officer Inbox - Caldwell First Nation (Economic Development Officer) Glenn Forrest Nikki Orosz - Caldwell First Nation (Director - Operations) Oliver MacLaren - Olthuis Kleer Townshend (OKT LLP) (Legal Counsel) Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor)	Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Caldwell First Nation emailed Hydro One and confirmed availability for the upcoming meeting. Caldwell First Nation requested the identified individuals be included in the invitation.
2021-07-16	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation Economic Development Officer Inbox - Caldwell First Nation (Economic Development Officer) Glenn Forrest Nikki Orosz - Caldwell First Nation (Director - Operations) Oliver MacLaren - Olthuis Kleer Townshend (OKT LLP) (Legal Counsel) Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Caldwell First Nation and confirmed availability. It was requested whether Caldwell First Nation had any comments or questions on the revised term sheet or if comments would be provided ahead of the meeting. It was also requested whether Caldwell First Nation had any suggested agenda items.
2021-07-19	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers Erika Dawson Sara Jane Souliere	All Consulting emailed Caldwell First Nation to provide an update regarding the aquatic surveys and Stage 2 Archaeological Assessment work planned for the Chatham to Lakeshore project.
2021-07-22	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Stephen Lindley (Stephen Lindley Consulting)	Caldwell First Nation emailed Stephen Lindley Consulting and provided an update on the staffing positions. Caldwell First Nation requested confirmation of whether the meeting invitation would be sent.

Caldwell First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-07-22	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation Economic Development Officer Inbox - Caldwell First Nation (Economic Development Officer) Glenn Forrest Nikki Orosz - Caldwell First Nation (Director - Operations) Oliver MacLaren - Olthuis Kleer Townshend (OKT LLP) (Legal Counsel) Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Caldwell First Nation emailed Hydro One and followed up regarding that morning's meeting. It was noted that an invitation had yet to be received and confirmation was requested of whether an invitation would be sent.
2021-07-22	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Caldwell First Nation Economic Development Officer Inbox - Caldwell First Nation (Economic Development Officer) Glenn Forrest Nikki Orosz - Caldwell First Nation (Director - Operations) Oliver MacLaren - Olthuis Kleer Townshend (OKT LLP) (Legal Counsel) Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Caldwell First Nation and suggested re-scheduling the meeting for next week. It was noted available dates will be sent for review.
2021-07-27	Phone	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers	Caldwell First Nation and All Consulting had a phone call regarding the details of the aquatic study, scheduled for July 28, 2021. All Consulting will follow up with an email providing the logistical details of the meeting site and requirements for the day.
2021-07-27	Phone	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers	Caldwell First Nation called All Consulting to discuss the aquatic study scheduled for July 28, 2021.
2021-07-27	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers Erika Dawson Sara Jane Souliere	Caldwell First Nation emailed All Consulting to state that they will be attending aquatic study on July 28, 2021.
2021-07-27	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Amy Lickers	All Consulting emailed Caldwell First Nation to provide further details about the aquatic study on July 28, 2021 and acknowledge that Caldwell First Nation will be in attendance.
2021-07-27	Email	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator)	Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting) Wade Frost	Stephen Lindley Consulting emailed Caldwell First Nation and shared availability for a reschedule of the economic participation meeting. It was requested that Caldwell First Nation confirm availability.
2021-07-28	Meeting	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Joe de Laronde - 4R West (Indigenous Specialist/Ecologist/Biologist) Lincoln Jackson - Chippewas of Kettle and Stony Point First Nation Philip Lee - Southwind Development Corporation (CEO)	Daniel Bourassa (Dillon) David Brown Don Parkinson (SNC Lavalin) Dylan Morse (Dillon) Paul Dalmazzi Sara Jane Souliere	Dillon Consulting staff conducted eDNA sampling and aquatic habitat assessments of select crossings, accompanied by Hydro One, SNC Lavalin, Chippewas of Kettle and Stony Point First Nation and Caldwell First Nation staff and representatives. Dillon staff gave an overview of eDNA sampling techniques and applications, and aspects of the project including potential designs, location of the route, and some environmental mitigation measures, were discussed.
2021-07-28	Corridor workshop	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Philip Lee - Southwind Development Corporation (CEO) Wayne Henry - Chippewas of Kettle and Stony Point First Nation (President)	Sara Jane Souliere	The Aquatic Studies were attended by Hydro One, Caldwell First Nation, and Chippewas of Kettle and Stony Point First Nation. Both First Nation communities described that they intend to submit comments on the draft Environmental Assessment Report by August 10, 2021. Discussions occurred about project timeline, construction timeline, environmental mitigation, watercourse crossing, environmental pollution, and First Nation accommodations. Hydro One confirmed that they would share the results of the eDNA analyses with the communities once received.

(Founder) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Lincoln Jackson - Chippewas of Kettle and Stony Point First Nation Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation, Chippewas of Kettle and Stony Point First Nation (legal Counsel)	Matthew Jackson Paul Dalmazzi Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed IBA Braiding Ltd. and thanked them for the confirmation.
2021-07-20	Email	Don Richardson - IBA Braiding Ltd. (Founder) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Lincoln Jackson - Chippewas of Kettle and Stony Point First Nation Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation	Paul Dalmazzi Stephen Lindley (Stephen Lindley Consulting)	IBA Braiding Ltd. emailed Hydro One and requested logistical details for the Aquatic Habitat Field Sampling site visits. The number of representatives from Kettle and Stony Point First Nation was also provided.
2021-07-22	Email	Don Richardson - IBA Braiding Ltd. (Founder) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Lincoln Jackson - Chippewas of Kettle and Stony Point First Nation Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation	Daniel Bourassa (Dillon) Don Parkinson (SNC Lavalin) Dylan Morse (Dillon) Paul Dalmazzi Sara Jane Souliere	Hydro One emailed attendees of the upcoming aquatic field surveys and provided information on the surveys.
2021-07-27	Email	Don Richardson - IBA Braiding Ltd. (Founder) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joe de Laronde - 4R West (Indigenous Specialist/Ecologist/Biologist) Lincoln Jackson - Chippewas of Kettle and Stony Point First Nation Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation	Daniel Bourassa (Dillon) Don Parkinson (SNC Lavalin) Dylan Morse (Dillon) Paul Dalmazzi Sara Jane Souliere	IBA Braiding emailed Hydro One and informed them they will be unable to attend the upcoming aquatic survey visits. The contact information for Chippewas of Kettle and Stony Point First Nation's aquatic biologist for the project was provided.

Chippewas of Kettle and Stony Point First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-07-27	Email	Don Richardson - IBA Braiding Ltd. (Founder) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joe de Laronde - 4R West (Indigenous Specialist/Ecologist/Biologist) Lincoln Jackson - Chippewas of Kettle and Stony Point First Nation Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation	Daniel Bourassa (Dillon) Don Parkinson (SNC Lavalin) Dylan Morse (Dillon) Paul Dalmazzi Sara Jane Souliere	Hydro One emailed IBA Braiding and thanked them for confirming who will be attending the upcoming site visit. Hydro One indicated they may have another attendee.
2021-07-28	Meeting	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Joe de Laronde - 4R West (Indigenous Specialist/Ecologist/Biologist) Lincoln Jackson - Chippewas of Kettle and Stony Point First Nation Philip Lee - Southwind Development Corporation (CEO)	Daniel Bourassa (Dillon) David Brown Don Parkinson (SNC Lavalin) Dylan Morse (Dillon) Paul Dalmazzi Sara Jane Souliere	Dillon Consulting staff conducted eDNA sampling and aquatic habitat assessments of select crossings, accompanied by Hydro One, SNC Lavalin, Chippewas of Kettle and Stony Point First Nation and Caldwell First Nation staff and representatives. Dillon staff gave an overview of eDNA sampling techniques and applications, and aspects of the project including potential designs, location of the route, and some environmental mitigation measures, were discussed.
2021-07-28	Corridor workshop	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Philip Lee - Southwind Development Corporation (CEO) Wayne Henry - Chippewas of Kettle and Stony Point First Nation (President)	Sara Jane Souliere	The Aquatic Studies were attended by Hydro One, Caldwell First Nation, and Chippewas of Kettle and Stony Point First Nation. Both First Nation communities described that they intend to submit comments on the draft Environmental Assessment Report by August 10, 2021. Discussions occurred about project timeline, construction timeline, environmental mitigation, watercourse crossing, environmental pollution, and First Nation accommodations. Hydro One confirmed that they would share the results of the eDNA analyses with the communities once received.
2021-07-29	Email	Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation (legal Counsel)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Sanjiv Karunakaran	Cassels Brock and Blackwell thanked Chippewas of Kettle and Stony Point First Nation for advising them that they need to reschedule and stated that the Capacity Funding Agreement is under review.
2021-07-30	Email	Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation (legal Counsel)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Sanjiv Karunakaran	Cassels Brock and Blackwell emailed Chippewas of Kettle and Stony Point First Nation to ask if the scheduled time still works for them.
2021-08-04	Email	Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	Amy Lickers	All Consulting emailed Chippewas of Kettle and Stony Point First Nation to ask if they had comments or concerns with the draft Environmental Study Report.
2021-08-05	Email	Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation (legal Counsel)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Southwind Corporate Development and provided availability for the next economic participation meeting. A suggested agenda was also provided.
2021-08-06	Email	Don Richardson - IBA Braiding Ltd. (Founder) Gary F. Date	Type of communication	Community Representatives	Staff members	Summary
2021-08-19	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Niilo Edwards - First Nations Major Project Coalition (Executive Director) Stephen Lidington	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting) Wade Frost	Stephen Lindley Consulting emailed Barry Vickers Consulting regarding availability and logistics for the upcoming meeting.
2021-08-19	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Stephen Lindley (Stephen Lindley Consulting)	Barry Vickers Consulting emailed Stephen Lindley Consulting and requested clarification regarding the meeting time.
2021-08-19	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Barry Vickers Consulting and confirmed the meeting time. It was suggested a reoccurring meeting time should be determined.
2021-08-19	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Stephen Lindley (Stephen Lindley Consulting)	Barry Vickers Consulting (FNMPC) emailed Stephen Lindley Consulting and agreed on the use of EST for meeting logistics, and suggested a recurring meeting.
2021-08-19	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Stephen Lindley (Stephen Lindley Consulting)	Barry Vickers Consulting (FNMPC) emailed Stephen Lindley Consulting and requested changes to the meeting.
2021-08-19	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Barry Vickers Consulting and noted they will confirm with the Hydro One team.
2021-08-20	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting (SLC) emailed Barry Vickers Consulting and indicated they are checking the availability of the Hydro One team. SLC inquired whether they were planning to include legal representation.
2021-08-20	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Stephen Lindley (Stephen Lindley Consulting)	E-mail from Barry Vickers (First Nations Major Projects Coalition) to Stephen Lindley regarding scheduling of next IEP meeting with Chippewas of the Thames FN
2021-08-20	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation Niilo Edwards - First Nations Major Project Coalition (Executive Director)	Stephen Lindley (Stephen Lindley Consulting)	E-mail from Barry Vickers (First Nations Major Projects Coalition) to Stephen Lindley indicating that Chippewas of the Thames FN will have legal counsel at the next IEP meeting on Sep 16
2021-08-23	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting) Wade Frost	E-mail from Stephen Lindley to Barry Vickers (First Nations Major Projects Coalition) confirming Sep 16 IEP meeting No.6 with Chippewas of the Thames
2021-08-23	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Matthew Jackson Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting) Wade Frost	E-mail from Barry Vickers (First Nations Major Projects Coalition) to Stephen Lindley requesting an e-invitation for Chippewas of the Thames Sep 16 IEP meeting
2021-08-25	Email	Allan Farrell - Chippewas of the Thames First Nation Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Emma Young Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator)	Amy Lickers	Chippewas of the Thames First Nation emailed Hydro One's Indigenous Relations Consultant and requested comments by Monday.
2021-08-26	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Chippewas of the Thames First Nation Niilo Edwards - First Nations Major Project Coalition (Executive Director)	Matthew Jackson Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Barry Vickers Consulting and First Nations Major Project Coalition and indicated they are about to send the meeting invitation to the next economic participation meeting. A list of attendees was provided.
2021-08-26	Email	Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator)	Amy Lickers Erika Dawson Matthew Jackson Sanjiv Karunakaran Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	Stephen Lindley Consulting emailed Chippewas of the Thames First Nation and shared an amended Capacity Funding Agreement and outlined the changes.
2021-08-30	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Emma Young Kelly Riley - Chippewas of the Thames First Nation (Director of Treaties, Lands and Environment) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Tania Salerno - The Firelight Group	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Chippewas of the Thames First Nation (COTTFN) and shared the draft response to COTTFN's comments on the Draft Environmental Study Report. It was noted that more fulsome responses are being worked on but it was hoped that this will be an initial dialogue. It was also noted that calendar invitations had been sent.
2021-08-31	Meeting	Chippewas of the Thames First Nation	Amy Lickers John Chadwick Matthew Jackson Paul Dalmazzi Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Meeting between Chippewas of the Thames First Nation (COTTFN) and Hydro One to discuss the comments provided by COTTFN on the draft Environmental Study Report and the section 16 order. A path forward was discussed and a commitment to continue meeting was made.
2021-09-08	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Emma Young Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator) Tania Salerno - The Firelight Group	Amy Lickers Paul Dalmazzi	Chippewas of the Thames First Nation (COTTFN) emailed Hydro One's Indigenous Relations Consultant and provided comments regarding revisions to the meeting notes. It was noted that COTTFN has had difficulty obtaining spatial files and therefore do not believe Hydro One did a lot of work to ensure COTTFN's input was included in the evaluation of alternatives.

Chippewas of the Thames First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-09-08	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Emma Young Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator) Tania Salerno - The Firelight Group	Amy Lickers Paul Dalmazzi	Hydro One's Indigenous Relations Consultant emailed Chippewas of the Thames First Nation and indicated they will make the changes and circulate to all attendees.
2021-09-09	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Emma Young Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator) Tania Salerno - The Firelight Group	Amy Lickers John Chadwick Matthew Jackson Paul Dalmazzi Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Chippewas of the Thames First Nation (COTTFN) emailed Hydro One and thanked them for the productive meeting last week. COTTFN noted they met internally to discuss next steps and they noted they are very supportive of strengthening their relationship and the consultation process moving forward. COTTFN recommended preparing a process agreement and shared a schedule of activities and associated costs to begin the process. COTTFN requested confirmation of whether the approach is acceptable.
2021-09-09	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Emma Young Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator) Tania Salerno - The Firelight Group	Amy Lickers Erika Dawson John Chadwick Matthew Jackson Paul Dalmazzi Sanjiv Karunakaran Stephen Lindley (Stephen Lindley Consulting)	Hydro One emailed Chippewas of the Thames First Nation and thanked them for sending the proposal. Hydro One noted they are generally very supportive of the proposal and look forward to working together on it. Hydro One requested availability to connect to discuss the current Capacity Funding Agreement.

2022-02-22	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Amy Lickers Kelly Williams Paul Dalmazzi	Hydro One thanked Chippewas of the Thames First Nation for providing their questions in advance of the meeting.
2022-03-01	Submission	NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Paul Dalmazzi	Hydro One staff created a new 'Consultation' project file for the Chatham x Lakeshore project on Chippewas of the Thames First Nation NationsConnect platform. The submission included shapefiles of the preferred route.
2022-03-08	Email	Fallon Burch - Chippewas of the Thames First Nation (Consultation Coordinator) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator) Sheila Jaggard - Chippewas of the Thames First Nation (Executive Administrator)	Kelly Williams Paul Dalmazzi	Hydro One emailed Chippewas of the Thames First Nation to provide details about coordination with Voltage Power Ltd and the field season for the Chatham to Lakeshore Project. Hydro One also provided details about the St Clair Transmission Line project Technical Advisory Committee, Virtual open house on March 9 and 10, 2022, and field season.
2022-03-09	Email	Fallon Burch - Chippewas of the Thames First Nation (Consultation Coordinator) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) Kelly Riley - Chippewas of the Thames First Nation (Director of Treaties, Lands and Environment) Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator)	Kelly Williams Paul Dalmazzi	Chippewas of the Thames First Nation (COTTFN) thanked Hydro One for the project updates with Chatham to Lakeshore and St. Clair. COTTFN provided Hydro One with some comments about their response to the Culture and Rights Study and Implications, their response to the Ministry of Energy, and appreciation for meeting notes.
2022-03-10	Email	Fallon Burch - Chippewas of the Thames First Nation (Consultation Coordinator) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) Kelly Riley - Chippewas of the Thames First Nation (Director of Treaties, Lands and Environment) Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator)	Kelly Williams Paul Dalmazzi	Hydro One thanked Chippewas of the Thames First Nation (COTTFN) for their comments regarding meeting notes, Culture and Rights Study and Implication letter and their response to the Ministry of Energy. Hydro One stated that they will revise the summary and send COTTFN a PDF copy for their records.
2022-03-10	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Christopher Grol Erika Dawson Kelly Williams	Hydro One emailed Chippewas of the Thames First Nation regarding an updated invoices tracker sheet. Hydro One offered to set up a meeting to discuss further.
2022-03-11	Email	Fallon Burch - Chippewas of the Thames First Nation (Consultation Coordinator) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator)	Kelly Williams Paul Dalmazzi	Chippewas of the Thames First Nation emailed Hydro One stating that they want updates posted on NationsConnect going forward.
2022-03-11	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Christopher Grol Erika Dawson Kelly Williams	Chippewas of the Thames First Nation emailed Hydro One to state that an updated invoice sheet with additional meetings would be appreciated.
2022-03-16	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams	Hydro One emailed Chippewas of the Thames First Nations to confirm availability for a meeting.
2022-03-21	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Christopher Grol Erika Dawson Kelly Williams	Chippewas of the Thames First Nation emailed Hydro One to thank them for the update on funding financials and invoicing.
2022-03-21	Email	Annabelle Laurin - Chippewas of the Thames First Nation (Environment Technician) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Christopher Grol Erika Dawson Kelly Williams	Hydro One emailed Chippewas of the Thames First Nation to provide an invoicing document.
2022-03-23	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams	Chippewas of the Thames First Nation (COTTFN) thanked Hydro One for the draft acknowledgement and noted that they would review it ahead of the upcoming meeting.
2022-03-23	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams	Hydro One emailed Chippewas of the Thames First Nation to provide the acknowledgement of the broader community issues identified in the Culture and Rights Study that will be added to the Environmental Study Report.
2022-03-28	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams	Chippewas of the Thames First Nation emailed Hydro One to set a time to discuss the capacity funding agreement.
2022-03-30	Meeting	Fallon Burch - Chippewas of the Thames First Nation (Consultation Coordinator) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator) Sheila Jaggard - Chippewas of the Thames First Nation (Executive Administrator)	Geewadin Elliott (AECON) Kelly Williams Paul Dalmazzi Sierra Camilleri	Hydro One and AECON/Voltage Power staff met with Chippewas of the Thames First Nation (COTTFN) staff to discuss the Chatham x Lakeshore (CxL) and St. Clair TL projects. Topics discussed in the meeting included: -The role of Voltage staff as EPC contractor on CxL -An overview of the ECI and EPC processes as applicable to both projects -The Culture and Rights Study -Upcoming Archaeological Assessment and Natural environment survey work for both projects -Opportunities for Indigenous participation including funding for monitors -Capacity Funding -A potential Hydro One community open house at COTTFN
2022-04-22	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams	Chippewas of the Thames First Nation emailed Hydro One to state that they agree with the agenda for the next meeting and provided their response to the draft broader issues and VC narrative for the Environmental Study Report (ESR).
2022-04-22	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams	Hydro One thanked Chippewas of the Thames First Nation for their response.
2022-04-22	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams	Hydro One provided Chippewas of the Thames First Nation (COTTFN) the meeting notes from February, draft meeting notes from March, and proposed topics of discussion for the next meeting in April.
2022-04-26	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams	Chippewas of the Thames First Nation emailed Hydro One to request a capacity funding agreement for the Chatham to Lakeshore Project.
2022-04-27	Meeting	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams Paul Dalmazzi Sierra Camilleri	Hydro One staff met with Chippewas of the Thames First Nation (COTTFN) staff to discuss the Chatham x Lakeshore (CxL) and St. Clair TL projects. Topics of discussion included: -Updates on the field programs (archaeological and natural environment) for both projects -An update on the OEB Section 92 (Leave to Construct) application on CxL -Discussion on the recent Ministry of Energy direction regarding the southwestern Ontario transmission projects -Discussion on the recent response provided by COTTFN on the broader issues acknowledgement provided by Hydro One, and the mitigation table prepared by COTTFN to address the Culture and Rights Study. COTTFN staff noted that they did not have any comments on the CRS mitigation table -Discussion on capacity funding agreements and invoicing -An update on the upcoming TAC for the St. Clair TL class EA -A brief update on an upcoming project in the Lakeshore/Kingsville/Leamington area -Discussion on an upcoming Hydro One open house at COTTFN

Chippewas of the Thames First Nation - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2022-04-28	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams Matthew Jackson Paul Dalmazzi	Hydro One thanked Chippewas of the Thames First Nation (COTTFN) for providing a written response to the comments for the COTTFN Culture and Rights Study.
2022-05-16	Email	Carolyn Albert - Chippewas of the Thames First Nation (Admin Assistant) Fallon Burch - Chippewas of the Thames First Nation (Consultation Coordinator) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator)	David Brown Infrastructure Development Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants) Kelly Williams Matthew Beaudoin (Timmins Martelle Heritage Consultants) Murray Clark (Real Estate) Paul Dalmazzi	Chippewas of the Thames First Nation emailed Hydro One to provide the name and contact information of the field monitor that would be onsite Wednesday, May 18 and Thursday, May 19.
2022-05-19	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams	Hydro One emailed Chippewas of the Thames First Nation regarding invoicing.
2022-05-19	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams	Hydro One provided Chippewas of the Thames First Nation eDNA results from the eDNA survey conducted in July 2021.
2022-05-19	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Paul Dalmazzi	NationsConnect notification regarding Chatham by Lakeshore eDNA survey results from Hydro One to Chippewas of the Thames First Nation.
2022-05-19	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams	Hydro One emailed Chippewas of the Thames First Nation regarding the Chatham by Lakeshore Capacity Agreement Status/Community Open House and eDNA Field Surveys, as well as the St. Clair Transmission Line Project eDNA Field Surveys, Draft Stage 1 Archaeological Assessment, and Shapefiles.
2022-05-24	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	Kelly Williams Paul Dalmazzi Sierra Camilleri	Hydro One emailed Chippewas of the Thames First Nation to provide a draft summary of their previous meeting and a draft meeting agenda for their planned meeting.
2022-05-25	Meeting	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) Rochelle Smith - Chippewas of the Thames First Nation (Events and Promotions Coordinator) Sheila Jaggard - Chippewas of the Thames First Nation (Executive Administrator)	Kelly Williams Pasquale Catalano Paul Dalmazzi Sierra Camilleri	Hydro One staff met with Chippewas of the Thames First Nation (COTTFN) staff to discuss the Chatham x Lakeshore (CxL) and St. Clair TL projects. Topics of discussion included: -Update on the OEB Section 92/Leave to Construct application process -Update on the archaeological and natural environment field programs for both projects -Discussion on the integration of the Cultural and Rights Study and resulting responses -Capacity funding agreement -Upcoming Hydro One open house at COTTFN
2022-05-31	Email	Carolyn Albert - Chippewas of the Thames First Nation (Admin Assistant) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	David Brown Infrastructure Development Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants) Kelly Williams Kenndal Soulliere Matthew Beaudoin (Timmins Martelle Heritage Consultants) Murray Clark (Real Estate) Paul Dalmazzi	Chippewas of the Thames First Nation emailed Timmins Martelle Heritage Consultants to request more information regarding fire retardant clothing requirements for Stage 2 Archaeological surveys
2022-05-31	Email	Carolyn Albert - Chippewas of the Thames First Nation (Admin Assistant) Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator)	David Brown Infrastructure Development Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants) Kelly Williams Kenndal Soulliere Matthew Beaudoin (Timmins Martelle Heritage Consultants) Murray Clark (Real Estate) Paul Dalmazzi	Timmins Martelle Heritage Consultants (TMHC) emailed Chippewas of the Thames First Nation (COTTFN) to provide further information for when fire retardant clothing is required.
2022-06-06	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams Paul Dalmazzi	NationsConnect notified Hydro One regarding the Chippewas of the Thames First Nation draft summary of their response letter dated April 22, which is to be included in the Environmental Study Report for review and comments.
2022-06-07	Email	Jennifer Mills - Chippewas of the Thames First Nation (Energy Sector Consultation Coordinator) NationsConnect Web Portal (COTTFN) - Chippewas of the Thames First Nation (Consultation Software)	Kelly Williams Paul Dalmazzi	Hydro One emailed Chippewas of the Thames First Nation to provide notice regarding Hydro One filing a Section 92 Application with the Ontario Energy Board (OEB).

The invitation to the Virtual Open House, map and identification exercise document were included with the email.
2020-11-11	Email	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and inquired whether they required anything further for the Capacity Funding Agreement.
2020-11-18	Meeting	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Oneida Nation of the Thames Renae Hill - Oneida Nation of the Thames	Erika Dawson Penny Favel Sara Jane Souliere	Hydro One held a meet-and-greet with newly elected Chief Chrisjohn and Penny Favel, new Vice President of Indigenous Relations at Hydro One. Matters discussed were steel tower committee and agreement and Chatham to Lakeshore Project.
2020-11-19	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultation emailed Oneida Nation of the Thames (Oneida) and shared updates on the project. Included in the email was a GIS Dataset Package and a link to the Stage 1 Archaeology reports and shapefiles. It was noted that the virtual Route Selection Workshop is still available or alternatively, Hydro One's environmental planners are available to have a phone conversation regarding considerations for the route. An inquiry was made regarding whether Oneida had any interest in pursuing the Capacity Funding Agreement.
2020-11-30	Letter	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief)	Paul Dalmazzi	Oneida Nation of the Thames was sent a hard copy of the cover letter, GIS dataset package letter and brief survey results/species list, draft Stage 1 Archaeology Report, Cultural Heritage Existing Conditions report, and workbook. Included in the package was a USB with the GIS data, Stage 1 Archaeology shapefiles and workbook.
2020-12-04	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers Daniel Charbonneau Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and provided an update on the project, including the Capacity Funding Agreement (CFA), Economic Participation, Employment and Training, and the Class Environmental Assessment. It was noted that if the community is interested in providing input into the route evaluation and selection process, or the identification of sensitive features/sites/areas, potential effects and mitigation measures, the project team would gladly work with the community to gather feedback. A template of the CFA was also provided.
2021-01-07	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Carole Delion - Aamjiwnaang First Nation (Chippewas of Sarnia) (Economic Development Coordinator) Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Clint Couchie - Chippewas of Kettle and Stony Point First Nation James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator) Todd Cornelius - Oneida Nation of the Thames (Chief) Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	Daniel Charbonneau	Hydro One sent a follow up email to Anishnawbek and Haudenosaunee communities to offer to meet to discuss economic participation in relation to the Chatham to Lakeshore Project.

Oneida Nation of the Thames - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-02-02	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers	Hydro One sent an invitation to Oneida Nation of the Thames to attend sessions related to the Chatham to Lakeshore project including: early briefing, Technical Advisory Committee (TAC) workshop and Information session.
2021-02-08	Email	Amanda Bichel - Birds Canada (IBA Coordinator) Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch) Dan Lebedyk - Essex Region Conservation Authority (ERCA) (Biologist/Ecologist - Conservation Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner) Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Gus Ternoe - Christian Farmers Federation of Ontario Heather Leveque - Ministry of Indigenous Affairs (Director, Indigenous Relations Branch) Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects) Jacques Tetreault - Christian Farmers Federation of Ontario Jay Cunningham - Kent Federation of Agriculture (President) John Walsh - VIA Rail (Property Manager) Joseph Harvey - Ministry of Tourism, Culture and Sport (MTC) (Heritage Planner - Heritage Planning Unit) Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG) Kyle Billion - Enbridge Gas Inc. (Advisor) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Lyle Hall - Essex County Federation of Agriculture Marion Fantetti - Invest Windsor-Essex	Brandon Fox (Dillon) Dana Gardner Daniel Bourassa (Dillon) Erika Dawson John Chadwick Julia Baldesarra Mehrgan Mazaheri Paul Dalmazzi Sara Jane Souliere Sydney Tasfi	Hydro One sent the invitation for the third Technical Advisory Committee (TAC) meeting to be held on February 24, 2021. The summary materials from the previous TAC meeting was also shared with TAC members.
2021-02-10	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames regarding logistics for an upcoming meeting.
2021-02-16	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers Daniel Charbonneau Erika Dawson Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames with an update on upcoming information sessions.
2021-02-18	Meeting	Alizabeth George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers Paul Dalmazzi Sara Jane Souliere	Hydro One attended a meeting with the Oneida Environment Committee to update them on the Chatham x Lakeshore project. Hydro One staff reviewed the progress made on the Class EA to date, including the selection of the preferred route, the rationale behind its selection, and how input received had helped to inform the evaluation. Hydro One staff also discussed the next steps for the Class EA/project planning and opportunities for economic participation, which Oneida staff and councillors expressed interest in. Hydro One noted an upcoming virtual Information Session for the Haudenosaunee communities planned for March 23, and inquired about the possibility of doing callouts to community members in advance. Oneida councillors stated that they had no immediate objections but would take this request back and confirm.
2021-02-25	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Alizabeth George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers Daniel Charbonneau Erika Dawson Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and shared the invitation and information for the upcoming First Nation Information session.
2021-03-08	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Alizabeth George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and provided an update on the project, including the Early Contractor Involvement and upcoming First Nations/Haudenosaunee Community Information Centre.
2021-03-16	Email	Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Lonny Bomberry - Six Nations of the Grand River (Lands & Resources Director)	Sara Jane Souliere	Hydro One followed up regarding the upcoming Haudenosaunee Community Information Centre (CIC) on March 23, 2021.
2021-03-18	Email	Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Sara Jane Souliere	Oneida responded to Hydro One email regarding Dial out service. The request was going to Council that evening.
2021-03-18	Email	Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers	Oneida Nation of the Thames emailed Hydro One and thanked them for the follow up. They informed Hydro One that the call to residents has been added to the Chief and Council agenda for their approval.
2021-03-18	Email	Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Sara Jane Souliere	Hydro One emailed Oneida Nation of the Thames and thanked them for the update.

Oneida Nation of the Thames - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-03-19	Email	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and thanked them for coordinating the notice to the community.
2021-03-22	Email	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and shared the information for the upcoming First Nations Community Information Centre and economic opportunities related to the project. A reminder of the availability of the Capacity Funding Agreement was also provided.
2021-03-23	Email	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames (ONOTT) to confirm that Hydro One sent the Early Contractor involvement letter to ONOTT Chief on March 8, 2021. The list of communities consulted as per the Ministry of Energy, Northern Development and Mines delegation letter was provided and a meeting to discuss the project was offered.
2021-03-23	Community Information Centre (CIC)	Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI) Oneida Nation of the Thames Six Nations of the Grand River	Daniel Charbonneau John Chadwick Matthew Jackson Paul Dalmazzi Sanjiv Karunakaran Sara Jane Souliere	Hydro One hosted a Virtual Live Discussion for Haudenosaunee communities. Hydro One shared a presentation that provided an overview of the preferred route, followed by a live discussion.
2021-04-01	Meeting	Alizabeh George-Antone - Oneida Nation of the Thames (Councillor) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator)	Amy Lickers Paul Dalmazzi Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	<p>The Hydro One Chatham to Lakeshore Transmission line Indigenous Relations Team, Environment team, Owners Engineer and EPCs met with representative of Oneida at the Oneida Environment Committee meeting.</p> <p>Attendees: Sara Jane Souliere, Paul Dalmazzi, Stephen Lindley, Amy Lickers, Don Parkinson, Geewadin Elliot, John Bonin, Nalin Mistry, Marc Ouimet, Betty Moghrabi, Brandon Doxtator, Alizabeh George.</p> <p>Introductions</p> <p>Thanksgiving Address - Brandon provides an overview of the Haudenosaunee Thanksgiving Address. From Oneida's perspective, all of creation is a connection and there is the duty to protect the land and protect it for the next seven generations. They recognize the need for hydro and work to finding the harmony/balance with modern life.</p> <p>Brandon gives an overview of the Guswentha (Two Row Wampum Treaty) and the philosophy of the relationship of the Two Row Wampum. He provide a brief explanation of the 1701 Beaver Hunting grounds, which span throughout southern Ontario and the economic rights that stem from that Treaty, which include economic benefits in perpetuity. This Traditional Hunting Territory is the basis of engagement. Oneida wants to ensure that First Nations are getting involved in the project and being heard from the start. Oneida Nation, having origins from the Fingerlakes Region, moved to the current location in 1840 after series of Indian Removal laws began encroaching on their way of life. Oneida members collectively purchased the land, which has never been held by the Crown, and were purchased prior to Canada being a country.</p> <p>Oneida has 6000 community members, 150 homes, high youth population 1458 youth under that age of 18. Lots of opportunities for skills development and labour.</p> <p>Paul provides an update on the Class EA process. He reiterates Brandon's comments on balancing the need for energy within the region with protecting the environment. The project is looking to begin Archaeology Stage 2 processes in late summer of 2021. The project is still in early stages of planning and there is still an opportunity to take input from Oneida to consider in the development of the line, and in particular, reiterated that any discussions or comments from Oneida Nation received from now until early May could be captured in the draft Environmental Study Report, which is planned for release in late Spring for a review period over Summer 2021.</p>
2021-04-01	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Alizabeh George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and provided an update regarding timelines and next steps for the project and Class Environmental Assessment. An offer to meet and discuss the high-level assessment of environmental effects and potential mitigation measures was also included in the email. Presentation materials from the recent Haudenosaunee Information Session were also included.
2021-04-01	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Alizabeh George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Cherilyn Hill - Oneida Nation of the Thames (Reception/Political Office Manager) Deana Doxtator Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Renae Hill - Oneida Nation of the Thames Ron Elijah Sandra Doxtator Tamara Doxtator - Oneida Nation of the Thames Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Oneida Nation of the Thames (Oneida) emailed Hydro One and thanked them for the summary of work and next steps for the project. Oneida Nation of the Thames requested to discuss the project and to review several items, including Stage 2 Archaeological Assessment Participation and a high level Environmental Assessment review. Oneida requested Hydro One's availability.
2021-04-09	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Alizabeh George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and provided an overview of the Engineering, Procurement and Construction (EPC) contractors. Oneida Nation was invited to contact Hydro One to arrange an introductory meeting with the Hydro One team and the EPC contractors.
2021-04-13	Meeting	Alizabeh George-Antone - Oneida Nation of the Thames (Councillor) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator)	Amy Lickers Paul Dalmazzi Sara Jane Souliere Stephen Lindley (Stephen Lindley Consulting)	The Hydro One Indigenous Relations team met with representatives of Oneida Nation of the Thames to introduce the Early Contractor Involvement (ECI) process being utilized by the Chatham to Lakeshore Transmission Project. Oneida provides background on the community, treaty and cultural connections with the land. An update of the Class EA process is provided. The Engineering Procurement Construction (EPC) contractors were introduced. The participants were provided the opportunity to ask questions and the meeting concluded with a dialogue on next steps.

Oneida Nation of the Thames - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-04-13	Email	Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers	Oneida Nation of the Thames emailed Hydro One regarding an upcoming meeting.
2021-04-13	Email	Marjorie Pflug - Oneida Nation of the Thames (Community Member)	Erika Dawson	Hydro One responded back to an inquiry received in the Community Relations inbox from a member of Oneida Nation regarding the location of the new transmission line. Hydro One sent a map of the selected route in relation to Oneida Nation reserve lands confirming that the new line does not transverse Oneida Nation and provided links to the open virtual house and website for further interactive maps and information boards.
2021-04-14	Email	Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	Amy Lickers Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and informed them that the contractors will reach out to discuss Oneida Nation's priorities for the project related to employment, procurement and construction matters. The contacts for the contractors was provided and it was noted that they will reach out to arrange a meeting with Oneida Nation.
2021-05-03	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Elizabeth George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Cherilyn Hill - Oneida Nation of the Thames (Reception/Political Office Manager) Deana Duxtator Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Renae Hill - Oneida Nation of the Thames Ron Elijah Sandra Duxtator Tamara Duxtator - Oneida Nation of the Thames Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers Sara Jane Souliere	Hydro One emailed Oneida Nation of the Thames and shared the Capacity Funding Agreement and outlined the updates.
2021-06-10	Email	Adrian Chrisjohn - Oneida Nation of the Thames (Former Chief) Elizabeth George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Todd Cornelius - Oneida Nation of the Thames (Chief)	Amy Lickers Erika Dawson Paul Dalmazzi Sara Jane Souliere	Hydro One's Indigenous Relations Consultant shared the Notice of Draft Environmental Study Report with Oneida Nation of the Thames.

2021-05-21	Email	Janice Bomberry - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	Paul Dalmazzi Renee Pettigrew Sara Jane Souliere	Hydro One emailed Haudenosaunee Development Institute and informed them of an update regarding invoicing.
2021-05-28	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary)	Amy Lickers Don Parkinson (SNC Lavalin) Erika Dawson	Hydro One's Indigenous Relations Consultant emailed Haudenosaunee Confederacy Chiefs Council/Haudenosaunee Development Institute and provided more information on the Early Contractor Involvement (ECI) process for the project. It was requested that availability be confirmed for an introductory meeting.
2021-06-10	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox)	Amy Lickers Erika Dawson Paul Dalmazzi	Hydro One's Indigenous Relations Consultant shared the Notice of Draft Environmental Study Report with Haudenosaunee Confederacy Chiefs Council/Haudenosaunee Development Institute.

Haudenosaunee Confederacy Chiefs and Council - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-06-15	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Adrienne Telford - Cavalluzzo LLP (Lawyer) Brian Hewson - Ontario Energy Board (OEB) (Vice President, Consumer Protection & Industry Performance)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Daniel Charbonneau	The legal counsel for Haudenosaunee Development Institute emailed Hydro One (copying ENDM and MECP staff) a letter presenting their concerns with the project.
2021-06-15	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Adrienne Telford - Cavalluzzo LLP (Lawyer) Chloe Lazakis - Ministry of Energy, Northern Development and Mines (MENDM) (Senior Policy Advisor (A) - Indigenous)	Arend J.A. Hoekstra (Cassels Brock & Blackwell) Jason Fitzsimmons	The legal counsel for Haudenosaunee Development Institute emailed ENDM staff (copying Hydro One and MECP staff) and shared a letter regarding the project.
2021-07-06	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox)	Amy Lickers Erika Dawson Sara Jane Souliere	Hydro One's Indigenous Relations Consultant emailed Haudenosaunee Development Institute/Haudenosaunee Confederacy Chiefs Council (HDI/HCCC) to provide an overview of upcoming aquatic habitat surveys and Stage 2 Archaeological Assessment. HDI/HCCC was requested to confirm interest in attending either survey and to identify staff who will be in attendance.
2021-07-13	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	Amy Lickers Erika Dawson Paul Dalmazzi	Hydro One emailed Haudenosaunee Development Institute (HDI) and shared the draft monitoring agreement with the request that it be signed and returned. Hydro One noted they will inform HDI when a date and meeting location have been confirmed. An overview of the monitoring was provided and Hydro One noted HDI is welcome to attend the upcoming Stage 2 Archaeological Assessment survey work.
2021-07-13	Email	Janice Bomberry - Haudenosaunee Development Institute (HDI) Janice Williams Todd Williams - Haudenosaunee Development Institute (HDI)	Paul Dalmazzi Sara Jane Souliere	Haudenosaunee Development Institute emailed Hydro One and shared a signed copy of their standard monitoring agreement. It was requested that if agreed, that Hydro One sign and return a copy.
2021-07-13	Email	Hdi Tracy Janice Williams Todd Williams - Haudenosaunee Development Institute (HDI)	Amy Lickers Erika Dawson Paul Dalmazzi	Haudenosaunee Development Institute (HDI) emailed Hydro One and indicated they have sent a signed copy of the monitoring agreement for the aquatic survey. It was also noted that HDI archaeology would like to participate in the upcoming Stage 2 Archaeological Assessment.
2021-07-14	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	Amy Lickers Erika Dawson Paul Dalmazzi	Hydro One emailed Haudenosaunee Development Institute (HDI) and shared the signed version of the agreement for aquatic surveys. Hydro One included a map showing the approximate survey locations and provided an outline of the upcoming surveys. Hydro One also informed HDI that they will draft a separate agreement for the Stage 2 Archaeological Assessment.
2021-07-15	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	Amy Lickers Erika Dawson Paul Dalmazzi	Hydro One emailed Haudenosaunee Development Institute (HDI) and thanked them for confirming. Hydro One indicated they will provide details ahead of the meeting time and requested confirmation of the HDI monitor and their contact information.
2021-07-15	Email	Matt Turner - Haudenosaunee Development Institute (HDI) (Environmental Monitor) Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI)	Amy Lickers Erika Dawson Paul Dalmazzi	Haudenosaunee Development Institute (HDI) emailed Hydro One and provided the contact information for the HDI monitor. HDI requested confirmation regarding the completion of COVID-19 screening forms.
2021-07-15	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	Amy Lickers Erika Dawson Paul Dalmazzi	Haudenosaunee Development Institute (HDI) emailed Hydro One and indicated they would like to have HDI Environmental Monitors attend the specified aquatic survey.
2021-07-22	Email	Matt Turner - Haudenosaunee Development Institute (HDI) (Environmental Monitor) Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor)	Daniel Bourassa (Dillon) Don Parkinson (SNC Lavalin) Dylan Morse (Dillon)	Hydro One emailed participants in the upcoming aquatic surveys and provided an overview of the logistics for the surveys, and the list of attendees.
2021-07-22	Email	Matt Turner - Haudenosaunee Development Institute (HDI) (Environmental Monitor) Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor)	Daniel Bourassa (Dillon) David Brown Don Parkinson (SNC Lavalin)	Hydro One emailed Haudenosaunee Development Institute and shared an additional attendee for the upcoming meeting.
2021-07-27	Meeting	Matt Turner - Haudenosaunee Development Institute (HDI) (Environmental Monitor)	Daniel Bourassa (Dillon) David Brown Don Parkinson (SNC Lavalin)	Hydro One, SNC, and Dillon Consulting staff undertook eDNA sampling and aquatic habitat assessments at some of the watercourses crossed by the new Chatham to Lakeshore transmission line. An environmental monitor from Haudenosaunee Development Institute also attended to observe. Dillon biologists gave an overview of the eDNA sampling process and purpose.
2021-08-04	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox)	Amy Lickers	All Consulting emailed Haudenosaunee Development Institute to ask if they had any questions or concerns regarding the draft Environmental Study Report. All Consulting also asked if they would like to participate in the Stage 2 Archaeological Assessment in the fall.
2021-08-12	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox)	Amy Lickers Erika Dawson John Chadwick	Hydro One's Indigenous Relations Consultant emailed Haudenosaunee Confederacy Chiefs Council and provided a project update indicating the review period for the Draft Environmental Study Report had been extended by 30 days.
2021-08-31	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	Amy Lickers Erika Dawson Paul Dalmazzi	Hydro One emailed the Haudenosaunee Confederacy Chiefs Council and shared a draft monitoring agreement for the upcoming Stage 2 Archaeological Assessment. Hydro One provided more information on monitoring and requested any suggested edits or changes be returned.
2021-09-09	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	Amy Lickers Erika Dawson Matthew Beaudoin (Timmins Martelle)	Hydro One emailed the Haudenosaunee Confederacy Chiefs Council and followed up on the draft agreement for Stage 2 Archaeological Assessment monitors.
2021-10-05	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided logistical details and meeting location (Flying J Travel Center in Tilbury (19325 Essex County Road 42, Tilbury) for the fieldwork on October 7.
2021-10-06	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided notice of a change in field director for the field work on October 7.
2021-10-07	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided notice that the fieldwork was completed and there will not be fieldwork on October 8.
2021-10-12	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	Erika Dawson Matthew Beaudoin (Timmins Martelle Heritage Consultants)	Hydro One emailed a representative of Haudenosaunee Development Institute to provided logistical details for monitoring fieldwork and Hydro One's vaccination policy.
2021-10-13	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided logistical details for fieldwork scheduled for October 14.
2021-10-19	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided logistical details for field work October 21 and or October 22.
2021-10-20	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided notice that fieldwork would be cancelled October 21 due to the rain and was still scheduled for October 22.

Haudenosaunee Confederacy Chiefs and Council - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2021-10-21	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided notice that fieldwork would be cancelled on October 22 due to wet conditions in the field, with a reschedule for October 25 or 26.
2021-10-22	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided notice that field work is scheduled for October 26 but is dependent on weather conditions.
2021-11-01	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided logistical details for fieldwork scheduled for November 3 and November 4.
2021-11-02	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided logistical details for the fieldwork scheduled for November 3.
2021-11-03	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided notice that fieldwork will continue on November 4 in the same location as November 3.
2021-11-16	Email	Aamjwnaang First Nation (Chippewas of Sarnia) Bkejwanong (Walpole Island First Nation) Caldwell First Nation	Jamie Waller Johnathan Freeman (Timmins-Martelle Heritage Consultants)	TMHC provided logistical details for fieldwork scheduled for November 18 and 19.
2022-01-27	Email	Janice Bomberry - Haudenosaunee Development Institute (HDI) Shannon Hill Todd Williams - Haudenosaunee Development Institute (HDI)	Paul Dalmazzi Sierra Camilleri	Haudenosaunee Development Institute emailed Hydro One to provide the signed agreement for the Archaeological field work completed in the fall.
2022-02-18	Email	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams Matthew Jackson	Hydro One emailed Haudenosaunee Development Institute (HDI) and Haudenosaunee Confederacy Chiefs Council (HCCC) to state that Voltage has been selected to execute their plan to design, procure and construct the project. Hydro One expects that Voltage will work closely with the designated HDI/HCCC staff to discuss their participation in the procurement, employment and training opportunities. Hydro One will provide further details on this
2022-04-05	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI)	Erika Dawson Kelly Williams	Hydro One emailed Haudenosaunee Development Institute (HDI) and followed up on the requested 2022 Archaeology Agreement and environmental agreement. Hydro One noted the studies will be scheduled relatively soon and they would like to ensure their ongoing and meaningful participation in Hydro One projects.
2022-04-12	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI)	Erika Dawson Kelly Williams	Hydro One emailed Haudenosaunee Development Institute to follow up regarding the 2022 Archaeology Agreement and ask if they wanted to participate in the field season.
2022-04-13	Email	Raechelle Williams - Haudenosaunee Development Institute (HDI) (Environmental Supervisor) Shannon Hill Todd Williams - Haudenosaunee Development Institute (HDI)	Erika Dawson	Hydro One emailed Haudenosaunee Development Institute to thank them for sending the Environmental Monitoring Agreements, acknowledging the rate changes, and stated they will return signed copies.
2022-05-12	Email	Owen Greene - Haudenosaunee Development Institute (HDI) (Field Supervisor) Sharann Martin - Haudenosaunee Development Institute (HDI) (Field Supervisor) Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams Matthew Beaudoin (Timmins Martelle Heritage Consultants)	Timmins Martelle Heritage Consultants emailed Haudenosaunee Development Institute logistical details for upcoming Stage 2 Archaeological fieldwork.
2022-05-19	Email	Haudenosaunee Development Institute General Inbox - Haudenosaunee Development Institute (HDI) Janice Williams - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams Lucia Jara Moreno (Dillon) Paul Dalmazzi	Hydro One emailed Haudenosaunee Development Institute regarding the Chatham to Lakeshore Capacity Agreement Status/Community Open House and eDNA Field Survey, as well as St. Clair Transmission Line Project eDNA Field Survey, Draft Stage 1 Archaeological Assessment, and Shapefiles.
2022-05-19	Email	Sharann Martin - Haudenosaunee Development Institute (HDI) (Field Supervisor)	David Brown Infrastructure Development Jamie Waller	Haudenosaunee Development Institute staff emailed Timmins Martelle Heritage Consultants stating that they are unable to attend the Stage 2 Archaeological Fieldwork on May 18 and 19, and requested an update.
2022-05-24	Email	Owen Greene - Haudenosaunee Development Institute (HDI) (Field Supervisor) Shannon Hill Sharann Martin - Haudenosaunee Development Institute (HDI) (Field Supervisor)	Adam Haulena Erika Dawson Renee Pettigrew	Hydro One emailed Haudenosaunee Development Institute to provide two monitoring agreements.
2022-05-31	Email	Haudenosaunee Development Institute General Inbox - Haudenosaunee Development Institute (HDI) Janice Williams - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	Erika Dawson Kelly Williams Paul Dalmazzi	Hydro One emailed Haudenosaunee Development Institute the Archaeology and Environmental Monitoring agreements for the St. Clair TL Project, as well as the Archaeology Monitoring agreement for Chatham to Lakeshore.
2022-06-02	Email	Todd Williams - Haudenosaunee Development Institute (HDI)	Christopher Grol Erika Dawson	Hydro One emailed Haudenosaunee Development Institute logistical details regarding the Archaeology Agreement.
2022-06-07	Email	Todd Williams - Haudenosaunee Development Institute (HDI)	Christopher Grol Erika Dawson Kelly Williams	Hydro One emailed Haudenosaunee Development Institute(HDI) to follow up on the signed agreements from HDI in relation to the Project.
2022-06-23	Email	Haudenosaunee Development Institute General Inbox - Haudenosaunee Development Institute (HDI) Janice Williams - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams Paul Dalmazzi	Hydro One emailed Haudenosaunee Development Institute to provide archaeology monitoring agreements for the Chatham-Lakeshore and St. Clair Transmission Line Projects.
2022-07-07	Email	Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams	Hydro One emailed Haudenosaunee Development Institute the project specific agreements.
2022-07-08	Email	Shannon Hill - Haudenosaunee Development Institute (HDI) (Finance Assistant) Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams	Haudenosaunee Development Institute emailed Hydro One and provided the signed Project agreements.
2022-07-08	Email	Shannon Hill - Haudenosaunee Development Institute (HDI) (Finance Assistant) Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams	Haudenosaunee Development Institute emailed Hydro One and provided the signed Project agreements.
2022-07-20	Email	Rick Saul - Haudenosaunee Confederacy Chiefs Council (HCCC) (Acting Treasurer) Shannon Hill - Haudenosaunee Development Institute (HDI) (Finance Assistant)	Christopher Grol Erika Dawson	Hydro One emailed Haudenosaunee Development Institute to notify them that another Hydro One employee will be calling them.
2022-08-11	Email	Haudenosaunee Development Institute General Inbox - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	Kelly Williams Paul Dalmazzi	Hydro One emailed Haudenosaunee Development Institute (HDI) to provide an update on the status of the draft archaeology reports for the major projects in Southwestern Ontario. Hydro One noted that the draft of the Stage 2 report for Chatham x Lakeshore was completed and provided the link, noting the date for HDI to provide any comments or suggested edits to the report.

Haudenosaunee Confederacy Chiefs and Council - Record of Consultation

Date	Type of communication	Community Representatives	Staff members	Summary
2022-08-18	Email	Sharann Martin - Haudenosaunee Development Institute (HDI) (Logistics Coordinator)	David Brown Infrastructure Development Jamie Waller	Haudenosaunee Development Institute emailed Timmins Martelle Heritage Consultants to thank them for the update regarding the Stage 2 archaeological field survey.
2022-09-28	Letter	Haudenosaunee Development Institute (HDI)		Legal counsel for HDI sent a letter to legal counsel for Hydro One dated September 28, 2022, regarding supplemental responses that Hydro One had provided in support of the OEB Section 92 Leave-to-Construct application. The letter from HDI requested clarification on the initiators, grounds, status and oversight of the Section 16 Order Requests.

Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area)	2020-06-01	Email	Outgoing	Hydro One followed up with Cathy Bakes of Agriculture and Agri-Food Canada to confirm participation in the Technical Advisory Committee as materials will be circulated to members.
Transport Canada (TC)	Environmental Assessment Program Ontario Region - Transport Canada (TC) (General Inbox)	2020-06-01	Email	Outgoing	Hydro One followed up with Transport Canada (Environmental Assessment Program) to confirm participation in the Technical Advisory Committee.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-06-01	Email	Incoming	Hydro One received an automatic response from Canadian Wildlife Services.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-06-01	Email	Outgoing	Hydro One followed up with Canadian Wildlife Services to confirm participation in the Technical Advisory Committee. Hydro One noted why this inbox was the primary contact.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-02	Email	Incoming	Cathy Bakes of Agriculture and Agri-Food Canada informed Hydro One that Terry Attewell will be the representative for the Technical Advisory Committee.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-02	Email	Outgoing	Hydro One thanked Cathy Bakes of Agriculture and Agri-Food Canada for confirming participation in the Technical Advisory Committee. Hydro One noted that information will be shared and provided details on the sessions.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager Public Works)	2020-06-02	Email	Outgoing	Hydro One followed up with Michael Vallins of Canadian National Railway to confirm his participation in the Technical Advisory Committee.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager Public Works)	2020-06-02	Email	Outgoing	Hydro One followed up with Michael Vallins of Canadian National Railway to confirm his participation in the Technical Advisory Committee.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-06-02	Email	Outgoing	Hydro One followed up with Jack Carello of Canadian Pacific Railway to confirm his participation in the Technical Advisory Committee.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-03	Email	Incoming	Terry Attewell of Agriculture and Agri-Food Canada confirmed he is unable to attend the Technical Advisory Committee session.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-03	Email	Outgoing	Hydro One informed Terry Attewell of Agriculture and Agri-Food Canada that while he is unable to attend the Technical Advisory Committee (TAC) workshop, the information and survey will provide him with an opportunity to participate in the TAC. Hydro One also informed Mr. Attewell that he can reach out to the project team with any comments or questions.
Transport Canada (TC)	Environmental Assessment Program Ontario Region - Transport Canada (TC) (General Inbox)	2020-06-03	Email	Incoming	Transport Canada informed Hydro One that they do not intend to participate in the Technical Advisory Committee. Transport Canada provided information regarding the department's potential regulatory roles and indicated that should Hydro One determine Transport Canada has a role in the project, they should be advised.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS) Enviro Info (EC) - Environment Canada Jennifer Soetemans - Canadian Wildlife Services (CWS) (Protected Areas Group)	2020-06-03	Email	Outgoing	Hydro One provided the project website link to Jennifer Soetemans of Canadian Wildlife Services and indicated that future updates and the Technical Advisory Committee summary report will be available at this website as well. Hydro One noted they can continue to circulate updates.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-03	Email	Outgoing	Hydro One followed up with Terry Attewell of Agriculture and Agri-Food Canada and provided initial evaluation criteria and the information video for the Technical Advisory Committee (TAC). Hydro One noted they will provide the conference call information for the two discussion sessions and the survey.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-05	Email	Incoming	Daniel DeOcampo of Environment and Climate Change Canada confirmed his participation in the Technical Advisory Committee and informed Hydro One that he will be the main contact moving forward.
Canadian Wildlife Services (CWS) Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch) Jennifer Soetemans - Canadian Wildlife Services (CWS) (Protected Areas Group)	2020-06-05	Email	Outgoing	Hydro One informed Daniel DeOcampo of Environment and Climate Change Canada (ECCC) that an earlier response confirming Jennifer Soetemans as the contact for ECCC was received. Hydro One noted they will defer to ECCC's preferred approach of who will be the contact. Hydro One also noted they can both be provided with project materials. Hydro One provided the initial evaluation criteria and informational video for the Technical Advisory Committee and indicated that the conference call information and survey will be provided.

Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-12	Email	Incoming	Daniel DeOcampo of Environment and Climate Change Canada asked Hydro One if any of the alternative routes or their variations cross federal lands and if they are aware of any potential federal approvals.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-12	Email	Outgoing	Hydro One followed up with Daniel DeOcampo of Environment and Climate Change Canada (ECCC) regarding potential crossover with federal lands and federal approvals. Hydro One indicated that a potential federal land (St. Clair National Wildlife Area) is located near one of the alternatives and requested if ECCC has any comments. Hydro One also requested confirmation of participation in the Technical Advisory Committee.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-19	Email	Outgoing	Hydro One emailed Terry Attewell of Agriculture and Agri-Food Canada with a reminder to fill out the Technical Advisory Committee virtual workshop #1 survey. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-19	Email	Outgoing	Hydro One emailed Daniel DeOcampo of Environment and Climate Change Canada to provide a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One also shared the preliminary evaluation criteria and the links to the survey and informational video.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-22	Email	Incoming	Daniel DeOcampo of Environment and Climate Change Canada thanked Hydro One for the email reminder for the Technical Advisory Committee survey and noted they have forwarded the survey to the appropriate individuals.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-22	Email	Outgoing	Hydro One responded to Daniel DeOcampo of Environment and Climate Change Canada and thanked him for forwarding the Technical Advisory Committee survey. Hydro One noted the anticipated timing of the next workshop and that any comments on the initial route evaluation criteria can be sent directly to the project team.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-25	Email	Outgoing	Hydro One shared a reminder with Agriculture and Agri-Food Canada to complete a survey to gather feedback on the virtual workshops.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-26	Email	Outgoing	Hydro One emailed Terry Atwell at Agriculture and Agri-Food Canada to inform that their input on the project would still be appreciated despite not being available for the entire workshop.
VIA Rail	John Walsh - VIA Rail (Property Manager) Service Inbox VIA Rail - VIA Rail	2020-08-12	Email	Outgoing	Hydro One emailed VIA Rail to follow up on the Notice of Commencement and to ensure that they are aware of the project. Hydro One provided an overview of the location of one of the route alternatives in relation to the VIA rail line and noted that they are in the process of selecting the preferred route. Hydro One shared the Notice of Commencement and map.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-08-12	Email	Outgoing	Hydro One emailed Canadian Pacific Railway (CP Rail) to follow up on the Notice of Commencement and to ensure that they are aware of the project. Hydro One provided an overview of one of the potential route alternatives in relation to an existing CP Rail line and noted that they are in the process of selecting the preferred route. Hydro One shared the Notice of Commencement and a map.
VIA Rail	John Walsh - VIA Rail (Property Manager) Paul Charbachi - VIA Rail VIA Rail ROW Access Inbox - VIA Rail	2020-08-21	Email	Outgoing	Hydro One emailed a new contact from VIA Rail and noted that earlier attempts were made to contact another VIA Rail representative regarding the project. Hydro One provided the Notice of Study Commencement and Study Area Map, as well as the emails sent to the other VIA Rail contact. Hydro One noted one of the proposed routes would come close to a VIA rail track and indicated they wanted to be sure the appropriate VIA Rail staff were aware of the project and had to opportunity to review and provide comment.
Canadian Pacific Railway (CP Rail)	Al Sargent - Canadian Pacific Railway (CP Rail) (Specialist - Leasing, Real Estate) Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects) Syl Arduini - Canadian Pacific Railway (CP Rail) (Manager, Real Estate)	2020-08-21	Email	Outgoing	Hydro One emailed contacts from Canadian Pacific Railway (CP Rail) and noted that earlier attempts had been made to contact another contact from CP Rail. Hydro One provided the Notice of Commencement and Study Area Map, as well as the emails sent to the other CP Rail contact. Hydro One indicated they wanted to be sure the appropriate staff at CP Rail were aware of the project and had a chance to review and provide comment.
VIA Rail	John Walsh - VIA Rail (Property Manager) Myriam Pelletier-Dufresne - VIA Rail Paul Charbachi - VIA Rail	2020-08-21	Email	Incoming	VIA Rail emailed Hydro One and noted they have no objection with the project. VIA Rail asked for information to assist in their review and requested that another VIA Rail contact be included on future emails.

Hydro One provided an overview of the workshop and shared the summary memo for the first TAC workshop and the TAC Feedback Criteria Analysis. Hydro One requested confirmation of attendance for the workshop.
Canadian Pacific Railway (CP Rail)	Al Sargent - Canadian Pacific Railway (CP Rail) (Specialist - Leasing, Real Estate) Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects) Syl Arduini - Canadian Pacific Railway (CP Rail) (Manager, Real Estate)	2020-09-17	Email	Outgoing	Hydro One emailed representatives from Canadian Pacific Railway (CPR) to follow-up on the previously sent emails regarding the project. Hydro One noted they wanted to ensure the correct staff at CPR are aware of the project and have opportunities to discuss the project.
VIA Rail	John Walsh - VIA Rail (Property Manager) Myriam Pelletier-Dufresne - VIA Rail Paul Charbachi - VIA Rail	2020-09-17	Email	Outgoing	Hydro One emailed VIA Rail and thanked them for their reply. Hydro One noted that if the route near the VIA rail line is selected then they will be in touch to discuss next steps.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-21	Phone	Outgoing	Hydro One staff followed up with a phone call to CP Rail - Utilities staff, and left a voicemail message referencing past emails and seeking CP Rail response or acknowledgement. Hydro One staff specifically mentioned the route alternative (2A) which would replace an idle 115 kV line adjacent to a CP Rail line, and offered to discuss further if requested.
Canadian Pacific Railway (CP Rail)	Syl Arduini - Canadian Pacific Railway (CP Rail) (Manager, Real Estate)	2020-09-21	Phone	Outgoing	Hydro One staff called CP Rail Real State staff to follow up on previous emails sent regarding the Chatham x Lakeshore project, and specifically the route alternative (2A) which would replace an idle 115 kV transmission line adjacent to a CP Rail line. CP Rail staff confirmed that the initial contacts notified by Hydro One (CPR Utilities - Manager Jack Carello) was indeed the correct contact for external project review, and suggested that Hydro One continue to follow up with Mr. Carello.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-21	Phone		CP Rail - Utilities manager Jack Carello called back to respond to the voicemail left by Hydro One (Paul Dalmazzi) earlier in the morning. Paul gave a quick recap of the CxL project, with emphasis on route alternative 2A which would replace the existing 115 kV idle line directly adjacent (south side) to the CP Rail line. Paul confirmed that any expansion of the existing 115 kV ROW would be to the south (i.e., away from the CP Rail ROW). Jack stated that as long as the new line would remain outside of the CP Rail ROW, that he did not foresee any immediate conflicts, but mentioned that the potential for induced current/additional grounding may need to be reviewed. Jack also stated that construction work may require more detailed coordination (including potential use of CP flagpeople) depending on methods used and potential for work to encroach on the rail ROW. Paul stated that if route 2A were to be selected, that Hydro One would follow up with CP Rail through detailed design and construction to coordinate as needed. Paul stated that he would follow up to Jack with another email outlining the discussion.

Federal Agencies - Record of Consultation

Caldwell First Nation Canadian National Railway (CN Rail) Chippewas of the Thames First Nation County of Essex Essex Region Conservation Authority (ERCA) First Nations Major Project Coalition Infrastructure Ontario (IO) Invest Windsor-Essex Ministry of Agriculture, Food and Rural Affairs (OMAFRA) Ministry of Indigenous Affairs Ministry of the Environment, Conservation and Parks (MECP) Ministry of Tourism, Culture and Sport (MTCS) Municipality of Chatham-Kent Municipality of Lakeshore Ontario Federation of Agriculture Ontario Greenhouse Vegetable Growers (OGVG)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) Ashley Johnson - Ministry of Indigenous Affairs (Advisor - Strategic Policy and Planning Division) Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch) Barry Vickers Consulting - First Nations Major Project Coalition (Consultant) Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner) Greg Graham - Chippewas of the Thames First Nation (Chief Financial Officer) Gus Ternoey Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Marion Fantetti - Invest Windsor-Essex Mark Podlasly - First Nations Major Project Coalition (Director,	2020-09-22	Meeting		Hydro One held a Technical Advisory Committee (TAC) workshop discussion for the Socio-Economic Environment factor. The results of the first TAC were presented and a live-polling survey was conducted to seek input on the weighting of the Socio-Economic Environment criteria.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-22	Email	Outgoing	Hydro One emailed Canadian Pacific Railway to follow-up on a call held the day before regarding the route alternatives. Hydro One provided a recap on the conversation and added that one of the routes and a few other variations would cross the Canadian Pacific Railway track just west of Tilbury. Hydro One provided a maps for reference and outlined anticipated next steps for the project.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-23	Email	Incoming	Canadian Pacific Railway emailed Hydro One and indicated that they do not foresee any issues if the new transmission re-build is placed no further north than the existing structure. They requested that Hydro One touch base with them regarding the new crossings in the new year for the latest utility application form.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-24	Email	Outgoing	Hydro One emailed Canadian Pacific Railway (CPR) and informed them that if one of the routes that parallels or crosses the CPR track is selected, they will be in touch in the new year to proceed with the applications and discussions.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager Public Works)	2020-09-28	Email	Outgoing	Hydro One emailed Canadian National (CN) Railway and shared information regarding the routes and noted that all of the routes being considered will need to cross a CN rail track just south of Chatham. Hydro One requested confirmation of whether the crossings are all feasible and indicated that they will follow up when the preferred route has been selected. Hydro One provided maps of the routes and CN Rail Track.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager Public Works)	2020-10-20	Email	Outgoing	Hydro One emailed Canadian National (CN) Railway to follow up on a previously sent email and to confirm there are no concerns or issues from CN's perspective on the proposed crossings of the track. Hydro One requested confirmation of the information shared in the previous email.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Fisheries and Oceans Canada (DFO)	Terry Speed - Fisheries and Oceans Canada (DFO) (Officer-in-charge)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager Public Works)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Fisheries and Oceans Canada (DFO)	DFO Fisheries Protection - Fisheries and Oceans Canada (DFO) (DFO Fisheries Protection General Inbox)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Agriculture and Agri-Food Canada	Richard Cottingham - Agriculture and Agri-Food Canada (Director - Engineering and Environmental Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Transport Canada (TC)	Environmental Assessment Program Ontario Region - Transport Canada (TC) (General Inbox)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
VIA Rail	John Walsh - VIA Rail (Property Manager)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Environment and Climate Change Canada (ECCC)	Daniel DeCampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Transport Canada (TC)	Environmental Assessment Program Ontario Region - Transport Canada (TC) (General Inbox)	2020-10-27	Email	Outgoing	Hydro One emailed Transport Canada and informed them that they currently anticipate the project may trigger requirements under the Canadian Navigable Waters Act and the Aeronautics Act. Hydro One indicated that they are aware there may be requirements under the Railway Safety Act and that staff have notified rail companies operating in the area of the project and will work with them upon the selection of the route and in detailed design. Hydro One provided the link to the project website and noted that they will continue to send updates and notices.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager Public Works)	2020-11-06	Phone	Outgoing	<p>Paul called Michael and CNR to follow up on the notices and emails he had sent for the Chatham x Lakeshore project. Paul gave a brief overview of the project and mentioned the crossing of the CNR line just west of Communication Rd. that would be needed by all route alternatives, and that this crossing was in close proximity to other similar 230 kV overhead line crossings. Paul stated that he just wanted to make sure that CNR was aware of the project, and see if there were any initial concerns or comments that CNR wished to raise to the Hydro One CxL project team.</p> <p>Michael stated that he would take a look at the project information, but that if the line was an overhead crossing then there would likely be minimal concerns as long as the crossing adhered to standard OH crossing/tower spacings, and referenced a standard crossing agreement. Michael also asked about potential electrical interference from the overhead line with the electrical systems on the trains- he stated that he did not think this was a particularly high risk, but felt it was prudent to ask. Paul reiterated that he did not believe this to be a risk, given that there are already 230 kV overhead line crossings in the area, but agreed that it was good feedback and stated that he would follow up with the technical members of the Hydro One CxL team on this question.</p>
Transport Canada (TC)	Environmental Assessment Program Ontario Region - Transport Canada (TC) (General Inbox)	2020-12-03	Email	Outgoing	Hydro One emailed Transport Canada to follow up on an earlier email. Hydro One provided the link to the project website and noted that they plan to select the preferred route early in the new year. Hydro One requested whether Transport Canada has any comments related to the route alternative evaluation to ensure they are included in the evaluation. If no comments are received, Hydro One will continue to provide updates and keep in touch.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC) (Navigation Protection Program - Ontario Region)	2020-12-09	Email	Incoming	Transport Canada emailed Hydro One and noted that they do not typically provide input regarding route alternatives and that the Navigation Protection Program requires a specific project submission to undertake a review. They encouraged Hydro One to contact the Navigation Protection program team with any pre-submission questions.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC) (Navigation Protection Program - Ontario Region)	2020-12-09	Email	Outgoing	Hydro One emailed the Navigation Protection Program to seek comments or feedback regarding the project. Hydro One noted they are currently evaluating route alternatives and provided the link to the project website and the route alternatives map. Hydro One requested that any comments be provided as soon as possible to ensure their inclusion in the evaluation.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC) (Navigation Protection Program - Ontario Region)	2020-12-17	Email	Outgoing	Hydro One emailed the Navigation Protection team from Transport Canada and followed up on the previously sent email seeking comments or questions on the project.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC) (Navigation Protection Program - Ontario Region)	2021-01-08	Email	Incoming	The Navigation Protection Program emailed Hydro One and noted that upon initial screening of the information provided by Hydro One, that they have determined that the works may not require an Application to the Minister or creating notification of work on a non-scheduled waterway. The Navigation Protection Program staff also provided links to the the Public Resolution Process and Application for Approval Process.

Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2021-06-10	Smart email	Outgoing	Hydro One sent a copy of the Notice of Draft Environmental Study Report.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Richard Cottingham - Agriculture and Agri-Food Canada (Director - Engineering and Environmental Services)	2021-06-10	Email	Incoming	Agriculture and Agri-Food Canada emailed Hydro One requesting a change in project contact.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Richard Cottingham - Agriculture and Agri-Food Canada (Director - Engineering and Environmental Services)	2021-06-11	Email	Outgoing	Hydro One emailed a contact from Agriculture and Agri-Food Canada and confirmed they will be removed from the contact list.
Fisheries and Oceans Canada (DFO)	DFO Fisheries Protection - Fisheries and Oceans Canada (DFO) (DFO Fisheries Protection General Inbox)	2021-06-11	Email	Incoming	The Fish and Fish Habitat Protection Program from Fisheries and Oceans Canada emailed Hydro One and thanked them for the notification. Information regarding project reviews was provided.
Nav Canada Transport Canada (TC)	J. Woodall M. Smith NAV Canada Land Use Assessment - Nav Canada Transport Canada (TC)	2022-07-22	Email	Incoming	Nav Canada emailed Hydro One regarding the Chatham to Lakeshore Project. Nav Canada provided a letter requesting at least 10 days notice prior to construction.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC) (Navigation Protection Program - Ontario Region)	2022-09-27	Email	Incoming	Transport Canada emailed Hydro One correspondence regarding the submission for their submission to the Navigation Protection Program.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Energy, Northern Development and Mines (MENDM)	Shannon McCabe - Ministry of Energy, Northern Development and Mines (MENDM) (Manager (A) - Indigenous Energy Policy)	2019-07-05	Email	Outgoing	Hydro One sent a letter to Shannon McCabe (ENDM) describing the project and requesting advice on whether the project would trigger the Crown's constitutional duty to consult with respect to Aboriginal and treaty rights, and if so, whether the Crown would delegate the procedural aspects to Hydro One. Hydro One also requested that an exhaustive list of First Nation and Métis communities that must be consulted on the project be provided, and what depth of consultation is required for each community, if this were to be the case. Hydro One also requested that the Crown notify each First Nation and Métis community for which it would delegate the procedural aspects of consultation.
Ministry of Energy Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Samir Adkar - Ministry of Energy (Director (A) - Energy Networks and Indigenous Policy)	2019-11-29	Letter	Incoming	Samir Adkar, Director - Energy Networks and Indigenous Policy, ENDM, responded to Hydro One's letter dated July 5th, 2019. Samir stated that ENDM had determined that the Project may have potential to affect First Nations communities who hold or claim Aboriginal or treaty rights protected under Section 35 of Canada's Constitution Act (1982). Samir advised that on behalf of the Crown, ENDM is delegating the procedural aspects of consultation to Hydro One, and provided details about the responsibilities of Hydro One in fulfilling the procedural aspects of consultation. END also identified the following Aboriginal communities, which it had identified should be consulted on the Project: - Aamjiwnaang First Nation - Bkejwanong (Walpole Island) First Nation - Caldwell First Nation - Chippewas of Kettle and Stony Point First Nation - Chippewas of the Thames First Nation - Oneida Nation of the Thames - Six Nations of the Grand River First Nation/Six Nations of the Grand River Elected Council - Haudenosaunee Confederacy Chiefs Council/Haudenosaunee Development Institute
Aamjiwnaang First Nation (Chippewas of Sarnia) Ministry of Energy, Northern Development and Mines (MENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (MENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	2020-01-07	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to Aamjiwnaang First Nation.
Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (MENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (MENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Consultation and Lands) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division)	2020-01-07	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to Bkejwanong (Walpole Island) First Nation.

Essex Region Conservation Authority (ERCA) Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Environmental Services) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-01-27	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to the Town of Lakeshore.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-01-27	Email	Outgoing	Hydro One sent Notice of Commencement Letter and Map to the Ministry of Agriculture, Food and Rural Affairs.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-01-27	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to the Ministry of Municipal Affairs and Housing.
Ministry of the Environment, Conservation and Parks (MECP)	Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox) Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting), Air, Pesticides and Environmental Planning, Southwestern Region)	2020-01-27	Email	Incoming	The Ministry of Environment, Conservation and Parks Southwest Region thanked Hydro One for sending the Notice of Study Commencement materials to the Environmental Assessment notification inbox.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-01-27	Email	Incoming	The Ministry of Municipal Affairs and Housing confirmed their receipt of the Notice of Study Commencement Letter and Map.
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region)	2020-01-28	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to the Ministry of Transportation, Ontario. Hydro One also made note of one potential route in the project that is parallel to Highway 401 and that should be included for discussion.
Ministry of Indigenous Affairs	Heather Leveque - Ministry of Indigenous Affairs (Director, Indigenous Relations Branch)	2020-01-28	Email	Outgoing	Hydro One sent a Notice of Study Commencement to the Ministry of Indigenous Affairs.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2020-01-28	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to the Ministry of Heritage, Sport, Tourism and Culture Industries.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation Lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-01-28	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to Lower Thames Valley Conservation Authority.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-01-28	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map to the Essex Region Conservation Authority.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-01-28	Email	Outgoing	Hydro One sent Notice of Commencement to Ontario Clean Water Agency.
Ontario Provincial Police (OPP)	Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-01-28	Email	Outgoing	Hydro One sent Notice of Commencement to Ontario Provincial Police.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-01-30	Email	Outgoing	Hydro One re-sent Notice of Study Commencement Letter and Map and previous email to Ontario Provincial Police (Facilities Section) follow email bounce back.
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Paula Hohner - Ministry of Transportation (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-01-30	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map and the email sent to Ministry of Transportation, Ontario to Stantec Consulting Limited and another individual from the Ministry of Transportation who are coordinating the MTO Class EA for the improvements to Highway 401 between Tilbury and London. Hydro One informed the Highway 401 Improvements project team that the two projects had overlapping study areas, that one of the alternative routes that Hydro One is evaluating for Chatham x Lakeshore parallels Highway 401 for several kilometers, and that all routes would need to cross Highway 401. Given these interactions between the two projects, Paul stated that coordination between the two teams would be critical. Hydro One provided information on the project status and informed them that they will be kept apprised of events as they are planned, and stated that the Highway 401 Improvements project team could reach out to the Chatham x Lakeshore team to discuss at any time.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Infrastructure Ontario (IO)	Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2020-01-31	Email	Incoming	Hydro One received an email from Infrastructure Ontario identifying properties owned by the Minister of Government and Consumer Services that may be within or adjacent to the project's study area.
Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (MENDM)	Bkejwanong (Walpole Island First Nation) Chloe Lazakis Daniel Miskokomon Lisa DeMarco Ministry of Energy, Northern Development and Mines (MENDM) Samir Adkar	2020-02-03	Letter	Incoming	Lisa DeMarco sent a letter to MENDM advising they are legal council for WIFN on matters involving CxL and Hydro One. Lisa advised MENDM that WIFN does not believe that the Duty to Consult and accommodation has been fulfilled. WIFN is still reviewing the Class EA on Lakeshore TS Project and in the interim period WIFN requests that no Crown approvals be granted for the proposed project.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner)	2020-02-07	Email	Incoming	Essex Region Conservation Authority responded to the Notice of Study Commencement email from Hydro One to request digital shape files of the route alternatives and 500 m radius. Essex Region Conservation Authority informed Hydro One that Fernando Cirino is the new Resource Planner and to update the contact information accordingly.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-02-07	Email	Outgoing	Hydro One responded to Essex Region Conservation Authority's comment following the Notice of Study Commencement and confirmed that the contact list has been updated as suggested. Hydro One sent the requested shape file and informed Essex Region Conservation Authority of the workshops in the spring and late summer/fall 2020.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-10	Email	Outgoing	Hydro One sent Notice of Study Commencement Letter and Map and the draft Natural Environmental Field Program Terms of Reference for the project to the Ministry of Environment, Conservation and Parks Species at Risk Branch.
Ministry of Natural Resources and Forestry (MNR)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNR) (District Planner - Aylmer District, Southern Region)	2020-02-13	Email	Incoming	The Ministry of Natural Resources and Forestry Aylmer District replied to the Notice of Study Commencement and informed Hydro One that a screening of natural heritage or other resource values for the project has not been completed. The Ministry of Natural Resources and Forestry provided information to guide the identification and assessment of natural features and resources, including a Natural Heritage Information Request Guide (attached to email).
Ministry of Tourism, Culture and Sport (MTCS)		2020-02-18	Email	Incoming	The Ministry of Heritage, Sport, Tourism and Culture Industries responded to the Notice of Study Commencement and attached their formal comments and recommendations for the project. MHSTCI comments related to general practices and process for planning linear infrastructure projects with regards to Archaeological resources, Built Heritage resources and Cultural Heritage Landscapes, and expectations for initial Archaeological (Stage 1) and Cultural Heritage studies early in Project planning.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-02-21	Email	Incoming	Hydro One received an email from the Ministry of Environment, Conservation and Parks to request that the Notice of Study Commencement be re-sent.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-02-21	Email	Outgoing	Hydro One responded to the Ministry of Environment, Conservation and Parks' request to re-send the Notice of Study Commencement and attached the Letter, Map and original email. Hydro One informed the Ministry of Environment, Conservation and Parks of the upcoming Community Information Centres in late March and technical stakeholder workshops.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-02-21	Email	Incoming	The Ministry of Environment, Conservation and Parks confirmed the receipt of the Notice of Study Commencement.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-26	Email	Outgoing	Hydro One followed up on the Notice of Study Commencement email to the Species at Risk inbox with the Ministry of Environment, Conservation and Parks and requested comments or questions. Hydro One indicated that the field program is planned to begin in early April and the Natural Environment Terms of Reference needs to be finalized before.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-26	Email	Incoming	The Species at Risk Branch for the Ministry of Environment, Conservation and Parks responded to Hydro One's follow-up email and indicated that a Management Biologist would review the file and follow-up with Hydro One on the requested information.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-26	Email	Outgoing	Hydro One responded the Species at Risk Branch with the Ministry of Environment Conservation and Parks and requested the contact information of the Management Biologist assigned to the file.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-03-03	Email	Incoming	The Ministry of Environment, Conservation and Parks attached their acknowledgement letter and map following the information provided by Hydro One for the Notice of Study Commencement.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2020-03-04	Email	Outgoing	Hydro One confirmed the receipt of feedback from the Ministry of Environment, Conservation and Parks and informed them that their feedback would be considered. Hydro One also sent Notice of Community Information Centre invitation and newspaper ad.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-03-04	Email	Outgoing	Hydro One sent Notice of Community Information Centre invitation and newspaper ad to the Ministry of Municipal Affairs and Housing.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavska - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-03-04	Email	Outgoing	Hydro One responded to the Ministry of Natural Resources and Forestry (Aylmer District) and informed the Ministry that background research has begun. Hydro One also informed the Ministry of the upcoming Community Information Centres.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2020-03-04	Email	Outgoing	Hydro One responded to the Ministry of Heritage, Sport, Tourism and Culture Industries and confirmed that the project will proceed with initial baseline studies for all potential routes and to help inform the selection of the preferred route. Hydro One also informed the Ministry of the upcoming Community Information Centres and sent the invitation and newspaper ad.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2020-03-05	Email	Incoming	The Ministry of Heritage, Sport, Tourism and Culture Industries confirmed the receipt of the Community Information Centre notice and requested that Hydro One remove a contact from the contact list.
Essex Region Conservation Authority (ERCA) Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Environmental Services) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-03-05	Email	Outgoing	Hydro One sent the Community Information Centre invitation and newspaper ad to the Town of Lakeshore.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-03-05	Email	Outgoing	Hydro One sent the Community Information Centre invitation and newspaper ad to the Ministry of Agriculture, Food and Rural Affairs.
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region)	2020-03-05	Email	Outgoing	Hydro One informed the Ministry of Transportation, Ontario of the upcoming Community Information Centre. Hydro One also informed the Ministry of Transportation of overlapping study areas and that Hydro One reached out to the project team to coordinate the planning of the respective projects.
Ministry of Indigenous Affairs	Heather Leveque - Ministry of Indigenous Affairs (Director, Indigenous Relations Branch)	2020-03-05	Email	Outgoing	Hydro One sent the Community Information Centre invitation and newspaper ad to the Ministry of Indigenous Affairs.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-03-05	Email	Outgoing	Hydro One sent the Community Information Centre invitation and newspaper ad to the Lower Thames Valley Conservation Authority. Hydro One also informed the conservation authority of the workshops with technical stakeholders to be held following the information centre.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-05	Email	Outgoing	Hydro One sent the Community Information Centre invitation and newspaper ad to the Essex Region Conservation Authority. Hydro One also informed the conservation authority of the technical workshop to follow the information centre.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-03-05	Email	Outgoing	Hydro One sent the Community Information Centre invitation and newspaper ad to Ontario Clean Water Agency.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-03-05	Email	Outgoing	Hydro One sent the Community Information Centre invitation and newspaper ad to the Ontario Provincial Police.
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Paula Hohner - Ministry of Transportation (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-05	Email	Outgoing	Hydro One informed the Ministry of Transportation, Ontario and Stantec Consulting Ltd. group responsible for a separate project in the area (Highway 401 widening between Tilbury and London) of the upcoming Community Information Centres. Paul reiterated that the two projects had overlapping study areas, and that one of the alternative routes that Hydro One was evaluating parallels the 401 for several kilometers, and requested a separate call or meeting to discuss coordination between the two projects.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-03-17	Email	Outgoing	Hydro One followed up with the Ministry of Environment, Conservation and Parks to inquire whether the draft Natural Environment Terms of Reference has been reviewed as initial field surveys will begin in April. Hydro One inquired whether it is best to follow up with a Species at Risk Branch Management directly.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Ministry of the Environment, Conservation and Parks due to recent public health developments. Hydro One indicated a forum will be held either online or in person and details will be provided as they become available. Hydro One also confirmed the project team remains available to discuss the project.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Ministry of Municipal Affairs and Housing and indicated that a forum will be held online or in person, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-03-17	Email	Outgoing	Hydro One sent a Notice of Cancellation for the Community Information Centres to the Ministry of Natural Resources and Forestry (Aylmer District) and indicated a forum will be held either in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Ministry of Heritage, Sport, Tourism and Culture Industries and indicated that a forum will be held online or in person, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Essex Region Conservation Authority (ERCA) Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Environmental Services) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to staff from the Town of Lakeshore and indicated a forum will be hosted either online or in person, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation to the Ministry of Agriculture, Food and Rural Affairs and indicated a forum will be held in the coming months either in person or online, with details provided as they become available. Hydro One confirmed the project team is available to discuss the project.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region)	2020-03-17	Email	Outgoing	Paul emailed the MTO to let them know that the upcoming CICs for the Chatham x Lakeshore line project had been cancelled due to ongoing concerns regarding COVID-19, and provided a copy of the CIC cancellation notice. Paul noted that it was still Hydro One's intent to host a forum, whether in person or online, in the coming months whereby members of the public and any interested parties could ask questions and discuss the project directly with the project team. Paul stated that he would provide details when they were available but that staff could reach out to him directly at any time to discuss the project.
Ministry of Indigenous Affairs	Heather Levecque - Ministry of Indigenous Affairs (Director, Indigenous Relations Branch)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Ministry of Indigenous Affairs and indicated a forum will be held in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Lower Thames Valley Conservation Authority and indicated a forum will be held either in person or online, with details provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Essex Region Conservation Authority and indicated a form will be held either in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-03-17	Email	Outgoing	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Ontario Clean Water Agency and indicated a forum will be held either in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-17	Email	Incoming	Essex Region Conservation Authority sent a response to Hydro One confirming that they will review the Notice of Cancellation for the Community Information Centres and provide a high level response and considerations for the project.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-03-17	Email	Outgoing	Hydro One informed the Ontario Provincial Police of the cancellation of the upcoming Community Information Centres and sent the Cancellation Notice. Hydro One also informed the Ontario Provincial Police that they will remain available to respond to questions.
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Paula Hohner - Ministry of Transportation (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-17	Email	Outgoing	Paul emailed the MTO 401 Improvements Project staff to let them know that the upcoming CICs for the Chatham x Lakeshore line project had been cancelled due to ongoing concerns regarding COVID-19, and provided a copy of the CIC cancellation notice. Paul noted that it was still Hydro One's intent to host a forum, whether in person or online, in the coming months whereby members of the public and any interested parties could ask questions and discuss the project directly with the project team. Paul stated that he would provide details when they were available but that staff could reach out to him directly at any time to discuss the project.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-17	Email	Outgoing	Hydro One responded to Essex Region Conservation Authority and indicated that the project team is available to discuss the project and receive input or feedback. Hydro One also informed the conservation authority that the technical stakeholder workshop will be held but potentially as an online platform depending on the situation.
Essex Region Conservation Authority (ERCA) Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Environmental Services) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-03-18	Email	Incoming	The Town of Lakeshore responded to Hydro One to confirm receipt of the cancellation notice for the Community Information Centres and informed Hydro One that the Town is likely to transition to essential services and will be available by email or phone calls.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-03-18	Email	Incoming	The Ministry of Environment, Conservation and Parks Species at Risk Branch confirmed the file has been provided to a Management Biologist for review and Hydro One will be contacted directly to discuss.
Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNRNF)	Petroleum Operations Section Inbox - Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNRNF) (Petroleum Operations Section (NRF))	2020-03-19	Phone	Outgoing	<p>Paul called the number for the MNR Petroleum Operations Section as provided by the MNR Aylmer district. Paul left a voicemail message briefly explaining the project and stated that he was calling to seek further information about petroleum operations in the Chatham-Lakeshore area, such as more detailed mapping or contacts for specific companies/operations with whom he could reach out directly to discuss the project. Paul left his cell number and email address as means of contacting him back to discuss.</p> <p>The petroleum ops call returned Paul's call later that day, thanked him for the information and noted that they would work with him to review and discuss the project. Paul stated that Petroleum Well mapping had been reviewed early on when determining the route alternatives, but that multiple petroleum wells appeared to be mapped in the middle of existing transmission line Rights-of-Way, leading Hydro One to question the data source. The Petroleum ops Centre staff provided their email address and Paul stated that he would follow up over email with some additional project information.</p>
Ministry of Natural Resources and Forestry (MNR)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNR) (District Planner - Aylmer District, Southern Region) MNR Aylmer District Planners - Ministry of Natural Resources and Forestry (MNR)	2020-03-23	Email	Outgoing	Hydro One informed the Ministry of Natural Resources and Forestry Aylmer District that they received information from the Petroleum Operations Section. Hydro One requested whether the Aylmer District would like to remain on the correspondence with the Petroleum Operations Section.
Haudenosaunee Confederacy Chiefs Council (HCCC) Ministry of Energy, Northern Development and Mines (MENDM)	Haudenosaunee Confederacy Chiefs Council (HCCC) Ministry of Energy, Northern Development and Mines (MENDM)	2020-03-27	Letter	Incoming	ENDM response back to HCCC regarding interest and concerns of CxL project. ENDM states that project is in early development phase and approvals have not been made. States that HCCC was included in delegation because potential route is within 1701 Nanfan Treaty area. ENDM, along with lower courts acknowledges the harvesting rights of 1701 Nanfan Treaty. ENDM attached delegation letter and encouraged HCC to participate in Class EA and construction opportunities.
Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNRNF)	Petroleum Operations Section Inbox - Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNRNF) (Petroleum Operations Section (NRF))	2020-03-31	Email	Outgoing	Hydro One followed up with the Petroleum Operations Section of the Ministry of Natural Resources and Forestry to inquire whether they had any questions or require other project information. Hydro One informed the Petroleum Operations Section that Dillon will obtain OSGR mapping on petroleum pipelines in the area and inquired if any other information for the review is necessary.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Janan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team) Paula Hohner - Ministry of Transportation (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-31	Email	Outgoing	Hydro One sent an email to the Ministry of Transportation, Ontario and Stantec team working on the Highway 401 Tilbury to London project requesting for coordination between the two project teams as there is overlap between the projects. Hydro One sent the Notice of Commencement letter, flyer and map and requested for a meeting.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Kane Erickson - Ministry of Transportation (MTO) ((Stantec) - MTO 401 Improvements Project Team) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team) Paula Hohner - Ministry of Transportation (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-31	Email	Incoming	Hydro One received a response from the Ministry of Transportation, Ontario and Stantec team working on the Highway 401 Tilbury to London project to confirm that they are reviewing Hydro One's submissions for the new transmission line and that they would welcome the opportunity to coordinate with Hydro One. A request was made for future correspondence to be sent to Natalia Bartos and the contacts included in the email.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Kane Erickson - Ministry of Transportation (MTO) ((Stantec) - MTO 401 Improvements Project Team) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team)	2020-04-01	Email	Outgoing	Hydro One informed the Ministry of Transportation, Ontario and Stantec project team of a series of multi-stakeholder workshops. Hydro One requested for the two different project teams to have discussions outside of the workshop forum. Hydro One also informed them that Dawn Irish will be included on major updates but removed from day-to-day communications.
Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR)	Petroleum Operations Section Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR) (Petroleum Operations Section (NRF))	2020-04-08	Email	Incoming	The Petroleum Operations Section of the Ministry of Natural Resources and Forestry responded to Hydro One and indicated that information on petroleum wells are available at the Oil, Gas and Salt Resources Library and the accuracy ranges for different well locations. The Petroleum Operations Section provided contact information in the event of encountering a well or for spills.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2020-04-27	Email	Outgoing	Hydro One sent the Notice of Virtual Information Session to the Ministry of Environment, Conservation and Parks and informed the Ministry that a Technical Advisory Committee will be formed in the coming months.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-04-27	Email	Outgoing	Hydro One sent the Virtual Information Session Notice to the Ministry of Municipal Affairs and Housing and informed the Ministry that a Technical Advisory Committee will be formed in the upcoming months.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-04-27	Email	Incoming	The Ministry of Municipal Affairs and Housing confirmed receipt of the Notice of Virtual Information Session.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-04-27	Email	Outgoing	Hydro One sent the Notice of Virtual Information Session to the Ministry of Natural Resources and Forestry (Aylmer District) and informed the Ministry that a Technical Advisory Committee will be formed in the upcoming months.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-27	Email	Incoming	Barb Slattery of the Ministry of Environment, Conservation and Parks emailed Hydro One to confirm the Notice of Virtual Information Session has been shared with Southwest Region staff so they can participate.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2020-04-27	Email	Outgoing	Hydro One sent the Notice of Virtual Information Session to the Ministry of Heritage, Sport, Tourism and Culture Industries and informed the Ministry that a Technical Advisory Committee will be formed in the upcoming months.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Essex Region Conservation Authority (ERCA) Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Environmental Services) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-04-27	Email	Outgoing	Hydro One sent the Notice of Virtual Information Session to staff from the Town of Lakeshore and informed them that a Technical Advisory Committee will be formed in the upcoming months.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-04-27	Email	Outgoing	Hydro One sent the Notice of Virtual Information Session to Ministry of Agriculture, Food and Rural Affairs and informed them that a Technical Advisory Committee will be formed in the upcoming months.
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region)	2020-04-27	Email	Outgoing	Hydro One sent the Notice of Virtual Information Session to staff from the Ministry of Transportation, Ontario. Hydro One informed them that the Ministry of Transportation/Stantec project team working on the Highway 401 expansion between Tilbury and London has been notified and moving forward, it is expected that coordination will occur directly with that team while providing major updates to the Ministry. Hydro One also indicated a Technical Advisory Committee will be formed in the upcoming months.
Ministry of Indigenous Affairs	Heather Leveque - Ministry of Indigenous Affairs (Director, Indigenous Relations Branch)	2020-04-27	Email	Outgoing	Hydro One sent the Notice of Virtual Information Session to the Ministry of Indigenous Affairs and informed them that a Technical Advisory Committee will be formed in the upcoming months.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-04-28	Email	Outgoing	Hydro One (HONI) sent the Virtual Information Session Notice to the Essex Region Conservation Authority (ERCA) and HONI informed ERCA that they are preparing to form a Technical Advisory Committee in the coming months and will provide more information when available.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-04-28	Email	Outgoing	Hydro One (HONI) sent the Virtual Information Session Notice to the Lower Thames Valley Conservation Authority (LTVCA) and HONI informed the LTVCA that they are preparing to form a Technical Advisory Committee in the coming months and will provide more information when available.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Policy Advisor (A), Land Use Policy and Stewardship Unit)	2020-04-28	Email	Incoming	Drew Crinklaw of the Ministry of Agriculture, Food and Rural Affairs (OMAFRA) informed Hydro One that Anneleis Eckert is covering Chatham-Kent in his absence and provided a map of OMAFRA staff coverage should Hydro One wish to update the circulation list. Mr. Crinklaw also informed Hydro One that OMAFRA does not usually attend Public Information Centres; however, he will let Ms. Eckert determine her availability to participate.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-04-28	Email	Outgoing	Hydro One sent Susan Budden of the Ontario Clean Water Agency the Virtual Information Session Notice.
Ministry of Transportation (MTO)	MTO Highway 401 Tilbury to London Project Inbox - Ministry of Transportation (MTO) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-04-28	Email	Outgoing	Hydro One sent the Virtual Information Session Notice to the Stantec and Ministry of Transportation, Ontario team responsible for the Highway 401/Tilbury to London project.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-04-28	Email	Outgoing	Hydro One sent the Virtual Information Session Notice to the Ontario Provincial Police.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-28	Email	Outgoing	Hydro One emailed Barb Slattery of the Ministry of Environment, Conservation and Parks (MECP) to clarify whether Ms. Slattery is acting as the Environmental Assessment (EA)/Planning coordinator for the Southwest (SW) Region and will be the single point of contact for the SW Region going forward. Hydro One asked if other MECP staff should be included in regular project and EA updates.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-28	Email	Incoming	Barb Slattery of the Ministry of Environment, Conservation and Parks (MECP) responded to Hydro One to explain that she is responsible for determining other technical reviewers and other than the Notices of Commencement and Completion, no one else needs to be directly notified or contacted from MECP.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-28	Email	Outgoing	Hydro One responded to Barb Slattery of the Ministry of Environment, Conservation and Parks and indicated that all regular project/Environmental Assessment updates and notices will be sent directly to Ms. Slattery. Hydro One also notified Ms. Slattery that they will be in touch with more information regarding the Technical Advisory Committee.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Policy Advisor (A), Land Use Policy and Stewardship Unit)	2020-04-28	Email	Outgoing	Hydro One thanked Drew Crinklaw from the Ministry of Agriculture, Food and Rural Affairs for providing the updated staff information. Hydro One provided the Notice of Commencement public flyer, notice and map to Anneleis Eckert and asked that she contact Hydro One if she has any questions.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning) Joanna Brown - Infrastructure Ontario (IO) (Environmental Specialist East) Ramsen Yousif - Infrastructure Ontario (IO) (Portfolio and Leasing Analyst) Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2020-05-07	Email	Outgoing	Hydro One sent the Virtual Information Session Notice to representatives from Infrastructure Ontario and informed them that a Technical Advisory Committee will be formed within the coming months. Hydro One will provide more information when available and invited Infrastructure Ontario to participate in the committee.
Ministry of Energy, Northern Development and Mines (MENDM)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (MENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy)	2020-05-11	Email	Outgoing	Hydro One sent the Virtual Information Session Notice to Chloe Lazakis of the Ministry of Energy, Northern Development and Mines.

Ministry of Indigenous Affairs	Heather Leveque - Ministry of Indigenous Affairs (Director, Indigenous Relations Branch)	2020-05-26	Email	Outgoing	Hydro One invited Heather Leveque of the Ministry of Indigenous Affairs to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Essex Region Conservation Authority (ERCA)	Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-05-26	Email	Outgoing	Hydro One invited representatives of the Essex Region Conservation Authority to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-05-26	Email	Outgoing	Hydro One invited representatives of the Lower Thames Valley Conservation Authority to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning) Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2020-05-26	Email	Outgoing	Hydro One invited representatives of Infrastructure Ontario to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-05-26	Email	Outgoing	Hydro One invited Susan Budden of the Ontario Clean Water Agency to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-05-27	Email	Incoming	Barb Slattery of the Ministry of the Environment, Conservation and Parks confirmed that she is interested in participating in the Technical Advisory Committee and will provide the names of additional attendees once confirmed.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-05-27	Email	Outgoing	Hydro One responded to Barb Slattery of the Ministry of the Environment, Conservation and Parks (MECP) and requested the names of additional staff members be passed along. Hydro One reminded Ms. Slattery that she and MECP are welcome to discuss the project with the project team at any time.
Ministry of Transportation (MTO)	Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-05-27	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) (Natalia Bartos) and Stantec (Adam Barg) project team to inform them that they are welcome to forward any comments or call, as a formal response to the Notice of Commencement may not have been received from the MTO and Stantec project team. Hydro One asked that they confirm their participation in the Technical Advisory Committee.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-05-27	Email	Incoming	Randall Van Wagner of the Lower Thames Valley Conservation Authority (LTVCA) informed Hydro One that a representative from the LTVCA will not be able to attend the Technical Advisory Committee. Mr. Van Wagner requested that Hydro One keep LTVCA informed.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2020-05-28	Email	Incoming	Rosi Zirger of the Ministry of Heritage, Sport, Tourism and Culture Industries confirmed her availability to participate in the Technical Advisory Committee meeting.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2020-05-28	Email	Outgoing	Hydro One thanked Rosi Zirger of the Ministry of Heritage, Sport, Tourism and Culture Industries for confirming her attendance in the Technical Advisory Committee and noted that more information will be sent.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning) Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student) Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-05-28	Email	Outgoing	Hydro One responded to representatives of Infrastructure Ontario and confirmed the existing transmission corridors are a mixture of Bill 58 lands and easements. Hydro One noted that for projects of this nature, they are typically exempt/screened out from further requirements from the Public Works Class Environmental Assessment. Hydro One thanked Infrastructure Ontario for confirming their participation in the Technical Advisory Committee and noted they will send more information.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-05-28	Email	Incoming	Anneleis Eckert of the Ministry of Agriculture, Food and Rural Affairs informed Hydro One that she is interested in the Technical Advisory Committee (TAC) but is unable to attend. Ms. Eckert requested the materials for the TAC and asked that a meeting be held should she have any questions.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-01	Email	Incoming	Tate Kelly of Infrastructure Ontario informed Hydro One that he will participate in the Technical Advisory Committee.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-01	Email	Incoming	Mike Nelson of the Essex Region Conservation Authority notified Hydro One that he will be the representative for the Technical Advisory Committee and requested that Hydro One forward meeting invitations.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-01	Email	Outgoing	Hydro One followed up with representatives of Lower Thames Valley Conservation Authority (LTVCA) and provided a detailed scope of the Technical Advisory Committee (TAC). Hydro One informed LTVCA that their input is valuable to the project and requested that should they change their mind about participating in the TAC, to contact the project team. Hydro One also requested that should they confirm they are unavailable, regular project updates will continue to be provided.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-01	Email	Outgoing	Hydro One responded to Anneleis Eckert of the Ministry of Agriculture, Food and Rural Affairs and confirmed that the format of the Technical Advisory Committee (TAC) workshop is flexible and that materials will be provided. Hydro One informed Ms. Eckert that she will still be able to participate in the TAC, receive information and be able to fill out the survey. Hydro One requested whether other staff would be available to attend.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-01	Email	Outgoing	Hydro One thanked Mike Nelson of Essex Region Conservation Authority for confirming his availability to participate in the Technical Advisory Committee. Hydro One confirmed more information will be sent.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-01	Email	Outgoing	Hydro One thanked Tate Kelly of Infrastructure Ontario for confirming his availability to participate in the Technical Advisory Committee and confirmed more information will be sent.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Natural Resources and Forestry (MNR)	Jason Webb - Ministry of Natural Resources and Forestry (MNR) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNR) (District Planner - Aylmer District, Southern Region) MNR Aylmer District Planners - Ministry of Natural Resources and Forestry (MNR)	2020-06-01	Email	Outgoing	Hydro One followed up with Karina Cerniavskaja from the Ministry of Natural Resources and Forestry (Aylmer District) to confirm participation in the Technical Advisory Committee. Hydro One requested confirmation of participation and noted more information will be sent upon confirmation.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-06-01	Email	Outgoing	Hydro One followed up with Erick Boyd of the Ministry of Municipal Affairs and Housing to confirm participation in the Technical Advisory Committee (TAC) as materials will be sent to participating members.
Ministry of Transportation (MTO)	Jasan Boparai - Ministry of Transportation (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-06-01	Email	Outgoing	Hydro One followed up with the Ministry of Transportation and Stantec project team requesting confirmation of participation in the Technical Advisory Committee as materials will be sent to participating members.
Ministry of Indigenous Affairs	Heather Leveque - Ministry of Indigenous Affairs (Director, Indigenous Relations Branch)	2020-06-01	Email	Outgoing	Hydro One followed up with Heather Leveque of the Ministry of Indigenous Affairs to confirm participation in the Technical Advisory Committee as information will be circulated to members shortly. Hydro One also confirmed that invitations have been extended to First Nations communities to participate in the construction of the route evaluation framework.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-06-01	Email	Outgoing	Hydro One followed up with Susan Budden of Ontario Clean Water Agency to confirm participation in the Technical Advisory Committee as materials will be circulated to members.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Incoming	Michelle Knieriem of the Ministry of Municipal Affairs and Housing informed Hydro One that they do not need to be involved in the Technical Advisory Committee but are able to provide support as a technical resource if specific land use planning matters arise.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-02	Email	Incoming	Mike Nelson from Essex Region Conservation Authority provided comments on the Technical Advisory Committee regarding biological surveys, the County of Essex Official Plan and biological/vegetation inventories. Mr. Nelson requested a time to discuss his comments with Hydro One and to confirm information.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Outgoing	Hydro One thanked Michelle Knieriem from the Ministry of Municipal Affairs (MAH) for her response regarding the Technical Advisory Committee and noted that if MAH does not wish to participate, then regular project updates, notices and any specific issues or questions will be directed to them.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Incoming	Michelle Knieriem of the Ministry of Municipal Affairs and Housing notified Hydro One of a change in staffing roles and confirmed she should be sent project updates and notices.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Outgoing	Hydro One responded to Michelle Knieriem of the Ministry of Municipal Affairs and Housing and confirmed she will be sent future project and Class EA notices.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-06-03	Email	Outgoing	Hydro One confirmed with Natalia Bartos of the Ministry of Transportation, Ontario (MTO) that the project team is available for a conference call to discuss coordination between the MTO/Stantec project and Hydro One project. Hydro One indicated they are interested in learning more about future plans for additional lanes east of Tilbury. Hydro One informed Ms. Bartos that a separate Hydro One team is responsible for impacts to existing assets and provided the contact information to the secondary team. Hydro One also invited the MTO/Stantec project team to participate in the Technical Advisory Committee.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-03	Email	Outgoing	Hydro One followed up with Barb Slattery of the Ministry of the Environment, Conservation and Parks to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will provide the conference call information for the two discussion sessions and the survey.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-03	Email	Outgoing	Hydro One followed up with Anneleis Eckert of the Ministry of Agriculture, Food and Rural Affairs and provided the initial evaluation criteria list and information video for the Technical Advisory Committee. Hydro One noted they will provide the conference call information for the two discussion sessions and the survey.
Ministry of Tourism, Culture and Sport (MTCS)		2020-06-03	Email	Outgoing	Hydro One followed up with Rosi Zirger of the Ministry of Heritage, Sport, Tourism and Culture Industries to provide the initial evaluation criteria list and information video for the Technical Advisory Committee. Hydro One noted they will provide the conference call information to the two discussion sessions and the survey.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-03	Email	Outgoing	Hydro One followed up with Mike Nelson of the Essex Region Conservation Authority and noted that they are preparing a formal response to his earlier email. Hydro One asked Mr. Nelson if he would like to have a phone call. Hydro One provided the initial evaluation criteria and information video for the Technical Advisory Committee and noted that they will provide the conference call information for the two discussions and the survey.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-03	Email	Outgoing	Hydro One followed up with Tate Kelly of Infrastructure Ontario to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will send the conference call information for the two discussions and the survey.
Ministry of Natural Resources and Forestry (MNRF)	MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-04	Email	Incoming	Karina Cerniavskaja of the Ministry of Natural Resources and Forestry (MNRF) (Aylmer District) informed Hydro One that a representative of MNRF will be unable to participate in the Technical Advisory Committee.
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-04	Email	Outgoing	Hydro One thanked Karina Cerniavskaja of the Ministry of Natural Resources and Forestry (MNRF) (Aylmer District) for informing them about their availability for the Technical Advisory Committee. Hydro One noted that they will continue to circulate regular project updates and should MNRF have any questions, they can reach out to the project team.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-04	Email	Incoming	Mike Nelson of the Essex Region Conservation Authority requested to speak with Hydro One and provided a time. Mr. Nelson indicated he needed some context in advance of the Technical Advisory Committee.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-04	Email	Incoming	Tate Kelly of Infrastructure Ontario thanked Hydro One for providing the Technical Advisory Committee information and indicated he will watch the information video prior to the discussion calls.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-04	Email	Outgoing	Hydro One followed up with Greg Van Every and Randall Van Wagner of the Lower Thames Valley Conservation Authority to provide the initial evaluation criteria and informational video for the Technical Advisory Committee (TAC) as requested in an earlier email. Hydro One provided more information about the TAC and requested confirmation of whether they will participate in TAC going forward. Hydro One noted they will continue to provide regular project updates.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-04	Email	Outgoing	Hydro One followed up with Mike Nelson of the Essex Region Conservation Authority to confirm the time for a call. Hydro One noted that a response to Mr. Nelson's earlier questions will be provided.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-06-04	Invitation	Incoming	Natalia Bartos of the Ministry of Transportation, Ontario (MTO) requested that Hydro One add the other team involved in the Bloomfield interchange project in the study area be included in the upcoming meeting as they would like to confirm a possible tower relocation. Ms. Bartos confirmed she will ensure the appropriate MTO individuals are in attendance of the meeting.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-06-04	Email	Outgoing	Hydro One informed Natalia Bartos of the Ministry of Transportation, Ontario that they have reached out to the separate project team and have confirmed their availability to attend part of the upcoming meeting. Hydro One noted they will update the meeting agenda. Hydro One requested confirmation from Ms. Bartos regarding her participating in the Technical Advisory Committee.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-06-04	Email	Incoming	Natalia Bartos of the Ministry of Transportation, Ontario confirmed that Michael Kilgore will participate in the Technical Advisory Committee.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-06-04	Email	Outgoing	Hydro One provided Michael Kilgore of the Ministry of Transportation, Ontario with the initial evaluation criteria and informational video for the Technical Advisory Committee. Hydro One noted they will send the conference call information and the survey.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-04	Email	Outgoing	Hydro One provided responses to questions from Mike Nelson of the Essex Region Conservation Authority. The questions related to biological surveys, local municipal Official Plan policies, methodology, the Technical Advisory Committee presentation and background desktop mapping.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-05	Phone	Incoming	<p>Mike Nelson (ERCA) called Paul Dalmazzi at Hydro One to discuss the Chatham x Lakeshore project, specifically to seek some additional context regarding the Technical Advisory Committee (TAC) and Hydro One's plans to include habitat/biodiversity offsetting as part of the project. Paul provided some past examples of both how Hydro One had used Biodiversity initiatives (offsetting) to compensate for residual/net effects to natural habitats as a result of capital projects, and that Hydro One is planning to implement a Biodiversity Initiative for the Chatham x Lakeshore project but that it would be fully developed and implemented after the Class EA, and that the current focus during the Class EA was on the route evaluation/selection as well as the identification, avoidance, mitigation and restoration of potential effects, before the focus would turn to compensation (offsetting).</p> <p>Paul provided some additional context on the TAC including some brief examples of how stakeholder input had shaped past evaluations of alternatives.</p> <p>Paul also stated that either he or Dan Bourassa (Dillon Consulting) would follow up to discuss formal data requests from ERCA to support the project and Class EA. Paul also reiterated that Hydro One would contribute their biologic inventory data to broader regional datasets to support other planning initiatives.</p>
Ministry of Transportation (MTO)	Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Kevin Welker - Ministry of Transportation (MTO) (MTO 401 Improvements Project Team (Stantec)) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-06-08	Email	Outgoing	Paula Hohner of Stantec forwarded the Notice of Study Commencement for the Ministry of Transportation, Ontario project for which Stantec was retained at Dingman Drive over Highway 401 in the City of London.
Christian Farmers Federation of Ontario County of Essex DeMarco Allan LLP Environment and Climate Change Canada (ECCC) Essex Region Conservation Authority (ERCA) Infrastructure Ontario (IO) Invest Windsor-Essex Ministry of Tourism, Culture and Sport (MTCS) Ministry of Transportation (MTO) Municipality of Chatham-Kent Municipality of Lakeshore Ontario Federation of Agriculture Ontario Greenhouse Vegetable Growers (OGVG)	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch) Daniel Vollmer - DeMarco Allan LLP (Articling Student) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner) Gus Ternoey - Christian Farmers Federation of Ontario Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG) Marion Fantetti - Invest Windsor-Essex Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-10	Meeting		Hydro One held the first Technical Advisory Committee (TAC) Workshop discussion for Socio-Economic Environment criteria. Hydro One provided a presentation with an overview of the purpose of the TAC, the project, multi-criteria evaluation and next steps.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Aamjiwnaang First Nation (Chippewas of Sarnia)	Amanda Bichel - Birds Canada (IBA Coordinator)	2020-06-10	Meeting		Hydro One held the first Technical Advisory Committee (TAC) Workshop discussion for Natural Environment criteria. Hydro One provided a presentation with an overview of the purpose of the TAC, the project, multi-criteria evaluation and next steps.
Birds Canada	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects)				
Christian Farmers Federation of Ontario	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)				
County of Essex					
DeMarco Allan LLP					
Environment and Climate Change Canada (ECCC)	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)				
Essex Region Conservation Authority (ERCA)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC)				
Infrastructure Ontario (IO)	(Environmental Assessment Officer, Environmental Protection Branch)				
Municipality of Chatham-Kent	Daniel Vollmer - DeMarco Allan LLP (Articling Student)				
Municipality of Lakeshore	Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)				
Ontario Federation of Agriculture	Gus Ternoey - Christian Farmers Federation of Ontario				
	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)				
	Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia)				
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services)	2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Ministry of Tourism, Culture and Sport (MTCS)		2020-06-11	Smart email	Outgoing	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-11	Smart email	Outgoing	Hydro One emailed Randall Van Wagner of the Lower Thames Valley Conservation Authority regarding the Technical Advisory Committee (TAC) discussions and provided the survey link, TAC informational video and initial evaluation criteria. Hydro One notified members that feedback from TAC members will be reported in the Class Environmental Assessment record of consultation as a single entity and requested that any comments on behalf of their organization be emailed directly to Paul Dalmazzi. Hydro One will provide the TAC Workshop #1 summary report once completed and information on the second workshop.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-11	Smart email	Outgoing	Hydro One emailed Mike Nelson of the Essex Region Conservation Authority regarding the Technical Advisory Committee (TAC) discussions and provided the survey link, TAC informational video and initial evaluation criteria. Hydro One notified members that feedback from TAC members will be reported in the Class Environmental Assessment record of consultation as a single entity and requested that any comments on behalf of the organization be emailed directly to Paul Dalmazzi. Hydro One will provide the TAC Workshop #1 summary report once completed and information on the second workshop.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-11	Email	Incoming	Barb Slattery of the Ministry of the Environment, Conservation and Parks notified Hydro One that she was unable to participate in the Technical Advisory Committee discussion sessions but intends to provide comments on the preliminary screening criteria.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-11	Email	Outgoing	Hydro One informed Barb Slattery of the Ministry of the Environment, Conservation and Parks that the Technical Advisory Committee discussions were optional and an opportunity to get conversation going. Hydro One requested for the survey to be completed and welcomed any comments or discussion with the project team.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-19	Email	Outgoing	Hydro One emailed Barb Slattery of the Ministry of the Environment, Conservation and Parks as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-19	Email	Outgoing	Hydro One emailed Anneleis Eckert of the Ministry of Agriculture, Food, and Rural Affairs as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-19	Email	Incoming	Barb Slattery of the Ministry of the Environment, Conservation and Parks emailed Hydro One to inform them that she will make the Technical Advisory Committee survey a priority.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-19	Email	Outgoing	Hydro One confirmed the receipt of Barb Slattery of the Ministry of the Environment, Conservation and Parks's email regarding the survey.
Ministry of Tourism, Culture and Sport (MTCS)		2020-06-19	Email	Outgoing	Hydro One emailed Rosi Zirger of the Ministry of Heritage, Sport, Tourism and Culture Industries as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-19	Email	Outgoing	Hydro One emailed Michael Kilgore from the Ministry of Transportation, Ontario, as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-19	Email	Outgoing	Hydro One emailed Tate Kelly of Infrastructure Ontario as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-19	Email	Incoming	Tate Kelly of Infrastructure Ontario emailed Hydro One with an inquiry about the Technical Advisory Committee Workshop #1 survey.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-19	Email	Incoming	Michael Kilgore of the Ministry of Transportation, Ontario (MTO), informed Hydro One by email that he left a voicemail requesting clarification on the survey for the Technical Advisory Committee and requested a call back. Mr. Kilgore noted that it is his preference to submit a formal letter to ensure Hydro One meets all of MTO's criteria. Mr. Kilgore requested to be copied on the design progress and also noted that the design of the route will need to be approved prior to permit approval from MTO.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-19	Email	Outgoing	Hydro One emailed representatives of the Lower Thames Valley Conservation Authority as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-19	Email	Outgoing	Hydro One emailed Mike Nelson of the Essex Region Conservation Authority as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-20	Email	Incoming	Mike Nelson of the Essex Region Conservation Authority thanked Hydro One for sending the email reminder regarding the Technical Advisory Committee survey. Mr. Nelson also noted that he will follow up on the data request in a separate email with his GIS colleague and that they will require a data sharing agreement.
Essex Region Conservation Authority (ERCA)	Katie Stammer - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-06-20	Email	Incoming	Mike Nelson of the Essex Region Conservation Authority provided Hydro One with their staff contact (Tom Dufour) for Hydro One to directly formalize which data sets they wish to access. Mr. Nelson recommended a set of data layers that would be relevant to the project team and also noted that the Lower Thames Valley Conservation Authority should be contacted for relevant data sets.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-22	Email	Incoming	Barb Slattery of the Ministry of the Environment, Conservation and Parks emailed Hydro One that the criteria was reviewed and she has no comments.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-22	Email	Outgoing	Hydro One emailed a response to Tate Kelly of Infrastructure Ontario regarding his inquiry about the Technical Advisory Committee workshop #1 survey.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-22	Email	Outgoing	Hydro One emailed Barb Slattery of the Ministry of the Environment, Conservation and Parks and thanked her for reviewing the Technical Advisory Committee materials and survey. Hydro One noted the anticipated timing of the next workshop and that any comments or questions can be sent directly to the project team.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-22	Email	Outgoing	Hydro One emailed Michael Kilgore of the Ministry of Transportation, Ontario (MTO), and provided a response to his earlier email regarding the survey. Hydro One noted that participation in the Technical Advisory Committee (TAC) is optional and stakeholders may provide their comments directly to Hydro One and/or through the TAC. Hydro One informed Mr. Kilgore that they understand the importance of coordinating with MTO and the Highway 401 project team and requested MTO's design guidelines and other comments in a formal response. Hydro One offered to discuss further and noted the upcoming conference call between Hydro One and the MTO Highway 401 project team.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-22	Email	Incoming	Randall Van Wagner of the Lower Thames Valley Conservation Authority informed Hydro One that he does not believe he will have time to fill in the Technical Advisory Committee survey. Mr. Van Wagner also provided the contact information for the stormwater protection and Regulations information.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-23	Email	Incoming	Barb Slattery of the Ministry of the Environment, Conservation and Parks shared comments from the Air Quality Analyst with Hydro One.
Essex Region Conservation Authority (ERCA)	Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-06-23	Email	Incoming	Mike Nelson of the Essex Region Conservation Authority informed Hydro One of the fee required to process the data request and provided payment information.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Essex Region Conservation Authority (ERCA)	Katie Stammler - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-06-23	Email	Outgoing	Hydro One thanked Mike Nelson of the Essex Region Conservation Authority for sharing the contact information and data layer suggestions. Hydro One noted a data sharing form was not attached and that both Hydro One and Dillon Consulting Limited staff will review the plans referenced in his previous email. Hydro One informed Mr. Nelson that they have contacted Lower Thames Valley Conservation Authority staff and that Mr. Nelson's other email regarding payment of data collection fee was received.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-23	Email	Outgoing	Hydro One responded to Randall Van Wagner of Lower Thames Valley Conservation Authority (LTVCA) and noted that any comments or input from the LTVCA would be helpful. Hydro One indicated that one of the route options parallels an existing transmission line that traverses the Big O Conservation Area. Hydro One noted they will follow up with the contact the LTVCA provided.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management)	2020-06-23	Email	Outgoing	Hydro One emailed Jason Wintermute of the Lower Thames Valley Conservation Authority (LTVCA) and noted that he was recommended as the appropriate contact to request data from. Hydro One copied the email in which Mr. Wintermute was referred for reference and indicated which datasets/shapefiles they are looking for. Hydro One requested to be informed of any requirements such as data sharing agreement.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-24	Email	Incoming	Michael Kilgore of the Ministry of Transportation, Ontario, requested the map of the proposed routes for the new transmission line from Hydro One.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-24	Email	Incoming	LTVCA replied to Hydro One and stated that they typically don't provide shapefiles of regulated areas in their jurisdiction due to data quality issues that are still being addressed, but stated that they would investigate and provide as much of the requested information (including Source Water Protection information and Natural Heritage System information) as they could. LTVCA also noted that the Big O Conservation Area was an extremely popular birdwatching location, but that LTVCA did not maintain records of visitor numbers.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-24	Email	Outgoing	Hydro One shared a map of the route alternatives with Michael Kilgore of the Ministry of Transportation, Ontario, as requested. Hydro One also provided the link to the project website and noted that the website contains an interactive GIS-based mapping tool.
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-25	Email	Outgoing	Hydro One emailed the Ministry of Natural Resources and Forestry to request data about the following: - Fish Community Records - Watercourse Thermal Regime/Classification - In-water Timing Windows for Construction - Habitat Information (known spawning, groundwater upwelling, migratory corridors) - Fisheries Management Objectives
Ministry of Natural Resources and Forestry (MNRF)	MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-25	Email	Incoming	Hydro One received an email from the Ministry of Natural Resources and Forestry which stated that they have forwarded Hydro One's request to the appropriate branch.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-25	Email	Outgoing	Hydro One shared a reminder with the Ministry of Agriculture to complete a survey to gather feedback on the virtual workshops.
Ministry of Tourism, Culture and Sport (MTCS)		2020-06-25	Email	Outgoing	Hydro One shared a reminder with the Ministry of Heritage Sport Tourism and Cultural Industries to complete a survey to gather feedback on the virtual workshops.
Ministry of Tourism, Culture and Sport (MTCS)	Joseph Harvey - Ministry of Tourism, Culture and Sport (MTCS) (Heritage Planner - Heritage Planning Unit)	2020-06-25	Email	Incoming	Hydro One received an email from the Ministry of Heritage, Sport, Tourism and Culture Industries. The email noted that the Ministry does not have further comments on the virtual workshops, however, the ministry shared a letter and outlined their expectations for the study in regards to cultural heritage. The Ministry advised on terminology, study methodology, and expectations for archeological resources.
Ministry of Tourism, Culture and Sport (MTCS)		2020-06-25	Email	Outgoing	Hydro One acknowledged the receipt of the Ministry of Heritage Sport Tourism and Cultural Industries regarding the workshop surveys.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-26	Email	Incoming	The Ministry of Transportation emailed Hydro One to inform that their feedback on the evaluation criteria may come at a later date than the June 29, 2020 deadline.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-06-26	Email	Outgoing	Hydro One and the Ministry of Transportation Ontario discussed the deadline for sharing feedback on the evaluation criteria. Hydro One noted that it would be okay to receive comments from the Ministry at a later date so long as the two parties have time to coordinate and discuss.
Ministry of Natural Resources and Forestry (MNRF)	Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-02	Email	Incoming	The Ministry of Natural Resources and Forestry emailed Hydro One and shared Natural Heritage Information Request Guide to assist Hydro One with accessing natural heritage data and values from convenient online sources. The Ministry noted that it remains the proponent's responsibility to complete a preliminary screening for each project, to obtain available information from multiple sources, to conduct any necessary field studies, and to consider any potential environmental impacts that may result from an activity.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-07-02	Email	Incoming	The Ministry of Transportation Ontario emailed Hydro One and shared a document containing their comments on the project, requirements Hydro One is expected to adhere to and additional documentation requirements for the permit application.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-02	Email	Outgoing	Hydro One emailed the Ministry of Environment Conservation and Parks (MECP) to request clarification. Hydro One asked if the MECP air quality analyst could provide input or suggestions on how air quality effects could be assessed in the route evaluation in such a way that could be used to help select a preferred route. Hydro One staff confirmed that temporary air quality effects from construction, and potential mitigation measures, would be included as part of the Class EA and documented in the Environmental Study Report accordingly.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-02	Email	Incoming	The Ministry of Environment Conservation and Parks emailed Hydro One and confirmed that the comments relating to construction impacts were relayed in order to ensure that those effects were considered and documented. MECP also stated that the EA's goal should be to have a complete understanding of the impacts throughout the entire lifecycle of the project.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-02	Email	Outgoing	Hydro One replied to the Ministry of Environment Conservation and Parks and stated that temporary construction effects such as air quality and dust, and potential mitigation measures, will be considered as part of the Class EA and documented in the Environmental Study Report, but may not be considered as a criterion for the selection of the preferred route due to a lack of discernible difference between the route alternatives.
Ministry of Natural Resources and Forestry (MNRF)	Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-03	Email	Outgoing	The Chatham x Lakeshore project team emailed the Ministry of Natural Resources and Forestry and shared the Draft Natural Environment Terms of Reference for their review. The project asked whether the ministry has identified any further information to be added.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-03	Email	Outgoing	Hydro One emailed the Ministry of Environment Conservation and Parks to enquire about any comments from the MECP on the Natural Environment draft Terms of Reference.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-06	Email	Incoming	Members of the Chatham x Lakeshore project team corresponded with the Ministry of Natural Resources and Forestry regarding a request for information.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-06	Email	Incoming	The Ministry of Environment Conservation and Parks emailed Hydro One and stated that they would discuss internally with their SAR branch to see if they have any comment and confirm the logistics on who Hydro One should contact.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-06	Email	Outgoing	Hydro One corresponded with the Ministry of Environment Conservation and Parks regarding logistics who would be the main contact regarding the Natural Environment section of the Terms of Reference.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-06	Email	Outgoing	The Chatham to Lakeshore Project team corresponded with representatives of the Ministry of Natural Resources and Forestry regarding a request for information on natural heritage items.
Bkejwanong (Walpole Island First Nation) Independent Electricity System Operator (IESO) Legislative Assembly of Ontario	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Greg Rickford - Legislative Assembly of Ontario (MPP (Kenora–Rainy River)) Peter Gregg - Independent Electricity System Operator (IESO) (President and CEO)	2020-07-07	Letter	Incoming	Chief Daniel Miskokomon sent a signed letter dated July 7 2020 to Mark Poweska regarding his disappointment with HONI's ongoing relationship with WIFN. Within the letter is the attachment of a record of Hydro One's engagement with WIFN regarding proposed projects over the last 4 years within WIFN traditional territory. Chief notes HONI's Indigenous corporate strategy of being a trusted partner and expresses disappointment about delays in negotiating a Memorandum of Understanding and slow progress in entering an equity partnership with CxL transmission line. Chief requests a meeting with Mark Poweska to discuss finalizing an equity partnership and other projects within their traditional territory.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Kevin Welker - Ministry of Transportation (MTO) (MTO 401 Improvements Project Team (Stantec)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Vincent Lucci - Ministry of Transportation (MTO) (MTO Highway 401 Improvements Project Team (Stantec))	2020-07-07	Email	Incoming	Stantec (consultant Ministry of Transportation Ontario) sent an email containing the preliminary plans/profiles for discussion purposes for a call scheduled for July 8, 2020, regarding the Bloomfield Road interchange and potential interactions with existing Hydro One Transmission assets.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-07	Email	Outgoing	Hydro One emailed the Ministry of Transportation Ontario to enquire about the following: 1. Whether there are planned expansions for the MTO right-of-way in the Chatham to Lakeshore section of 401? 2. Is there a plan for adding additional interchanges in the Chatham to Lakeshore section of 401? 3. Is there a plan for modifying existing interchanges (in addition to the Bloomfield Rd interchange) in the Chatham to Lakeshore section of 401?

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Kevin Welker - Ministry of Transportation (MTO) (MTO 401 Improvements Project Team (Stantec)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-08	Phone	Outgoing	<p>Hydro One CxL project team had a conference call with the MTO SW Region Corridor staff as well as the MTO 401 Tilbury-London widening project team.</p> <p>Both teams gave an overview of their respective projects, including scope and anticipated construction timelines. The MTO team confirmed that currently, they do not have plans to widen the 401 right-of-way (ROW), as lanes will be added towards the centre median, but stated that any future expansion to 10+ lanes would require widening of the 401 ROW. MTO also confirmed that currently, they were not planning to add any new 401 interchanges, and that they were currently not planning to alter any interchanges in the area other than at Bloomfield Rd, and potentially Queen's Line near Tilbury.</p> <p>Hydro One asked for some clarification on some of the comments received from MTO, including the comments related to perpendicular crossings and that parallel installations would not be permissible. MTO stated that perfectly perpendicular crossing angle is not required, however it minimizes the interaction between the two entities when MTO must do maintenance on the highway. Having the line close to interchanges and underpass crossing are not recommended by MTO. MTO requested for more information on the Hydro One crossings. Hydro One to send the information.stated that details of crossings would likely not be completed until after a preferred route is selected, but take the request back and would see what information could be provided at this point in the project.</p> <p>MTO staff confirmed that if Hydro One is paralleling the 401, the minimum setback is 14 m from the outermost point of Hydro One's right of way to MTO's right of way, and that any works within 400 m of the 401 is within MTO permit controlled area.</p> <p>The latter part of the meeting focused on discussions relating to MTO's planned work at the Bloomfield Rd interchange, and potential conflicts/restrictions due to the existing 230 kV transmission lines.</p>
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-08	Email	Incoming	The Ministry of Transportation Ontario (MTO) emailed Hydro to provide their minimum vertical clearances for high voltage lines. The MTO attached the OPSD requirements and requested that Hydro One ensure that the design the guidelines are incorporated and identified accordingly on any drawings submitted.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-08	Email	Outgoing	Hydro One replied to the Ministry of transportation regarding project coordination along the 401. Hydro One stated that in the design of the line, attention will be paid at the crossings to ensure the clearance requirements by MTO and Hydro One are both met.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-08	Email	Outgoing	Hydro One followed up with the Ministry of Transportation and thanked them for their input and participation for a videoconference meeting held on July 8, 2020.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-08	Email	Incoming	The Ministry of Transportation Ontario (MTO) emailed Hydro One to provide information on the minimum requirements for vertical clearance and noted that where possible it should be exceeded to accommodate locations where Highway grade changes are possible in the future, as well as achieve Occupational Health and Safety clearances where MTO maintenance/construction activities will be required (structure removal/installation, electrical equipment at interchange/intersection).
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-08	Email	Outgoing	Hydro One replied to the Ministry of Transportation Ontario regarding their comments on vertical clearances for the high voltage lines. Hydro One shared an image of the column that would be applicable as minimum vertical clearances.
Ontario Heritage Trust	Dawson Bridger - Ontario Heritage Trust (Manager, Public Education and Community Programs (A)) Kiki Aravopoulos	2020-07-13	Email	Outgoing	Golder Associated Ltd. thanked Kiki Aravopoulos and Dawson Bridger for their assistance regarding an inquiry on OHT cultural easements and plaques.
Ontario Heritage Trust	Kevin De Mille - Ontario Heritage Trust (Natural Heritage Coordinator)	2020-07-21	Email	Incoming	Kevin DeMille of Ontario Heritage Trust (OHT) emailed Alisha Mohamed regarding her information request about OHT cultural easements and plaques within the Chatham to Lakeshore area. Mr. DeMille informed Ms. Mohamed that two easements are in Chatham-Kent. Mr. DeMille provided links to online databases and to the OHT's register.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-07-21	Email	Outgoing	Hydro One shared the minutes for a meeting held on July 8, 2020, with participants by email.
Ministry of Tourism, Culture and Sport (MTCS)	Joseph Harvey - Ministry of Tourism, Culture and Sport (MTCS) (Heritage Planner - Heritage Planning Unit)	2020-07-22	Email	Outgoing	Hydro One thanked Rosi Zirger of the Ministry of Heritage, Sport, Tourism and Culture Industries for providing information regarding cultural heritage resources and archaeological resources. Hydro One informed Ms. Zirger of the suggested wording for built heritage resources and cultural heritage landscapes and of the ongoing work related to cultural heritage resources.
Essex Region Conservation Authority (ERCA)	Katie Stammler - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-07-24	Email	Outgoing	Hydro One shared the signed data sharing agreement with Essex Region Conservation Authority.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-29	Email	Incoming	Barb Slattery of the Ministry of the Environment, Conservation and Parks forwarded an email from their Species at Risk Branch containing the Proponent's Guide: Preliminary Screening for Hydro One's reference for Species at Risk.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-04	Email	Incoming	Natalia Bartos of the Ministry of Transportation, Ontario, provided comments on the draft meeting minutes for the MTO/Stantec and Hydro One meeting held on July 8, 2020.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-04	Email	Incoming	Natalia Bartos of the Ministry of Transportation, Ontario (MTO), requested additions to the agenda for an upcoming MTO/Stantec and Hydro One discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-08-05	Email	Outgoing	Hydro One informed Barb Slattery of the Ministry of the Environment, Conservation and Parks (MECP) that they have reviewed the resources mentioned in the Client's Guide (as recommended by MECP in a previous email) and this will form part of the baseline environment description in the Environmental Study Report. Hydro One thanked MECP for the information and noted that they will work with the Species at Risk Branch and Ms. Slattery/the district as the project advances.
Essex Region Conservation Authority (ERCA)	Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-08-05	Email	Incoming	Tom Dufour of the Essex Region Conservation Authority thanked Hydro One for the signed data sharing agreement. Mr. Dufour noted that the data has been compiled and will be released upon receipt of payment.
Essex Region Conservation Authority (ERCA)	Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-08-05	Email	Outgoing	Hydro One informed Tom Dufour of the Essex Region Conservation Authority (ERCA) that they spoke with Lisa Pavan of ERCA and provided payment information.
Essex Region Conservation Authority (ERCA)	Katie Stammler - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-08-05	Email	Incoming	Tom Dufour of the Essex Region Conservation Authority provided Hydro One with the requested data and the fully signed data sharing agreement for Hydro One's records.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Kevin Welker - Ministry of Transportation (MTO) (MTO 401 Improvements Project Team (Stantec)) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-07	Email	Outgoing	Shane Vanhell from Stantec informed Hydro One that they have removed the Hydro One contact from the Dingman Drive Underpass Replacement project mailing list and have updated the contact information as provided. Mr. Vanhell informed Hydro One that they will continue to send notices and updates related to the Highway 401 expansion project.
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-11	Email	Outgoing	Hydro One informed Natalia Bartos of the Ministry of Transportation, Ontario, that an updated meeting invitation with the revised agenda was distributed. Hydro One noted that they hoped to discuss the setback request in more detail during the upcoming call and requested more details on item #2.
Ministry of Transportation (MTO)	Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-11	Email	Outgoing	Hydro One emailed Shane Vanhell of Stantec and thanked him for the update regarding the Stantec/Ministry of Transportation, Ontario project contact list. Hydro One requested that updates be circulated to one of their staff members.
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-13	Meeting		Follow-up meeting between the HONI CxL team and the MTO 401 widening team. Topics of discussion included: 1. MTO setback - MTO clarified that total setback required between ROWs was 24m 2. Discussion of MTO comments and concerns regarding continued operation of Highway 401 3. Discussion of how best to avoid potential conflicts at crossings and interchanges 4. Identifying Hydro One restrictions/requirements re: future maintenance work or access. Hydro One clarified that in most cases, the ROW is sufficient for work space (with some exceptions) The two teams committed to reconvene again later in the fall.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-13	Email	Outgoing	Hydro One emailed participants of the meeting with the Ministry of Transportation, Ontario and shared the finalized meeting notes.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team)	2020-08-13	Email	Incoming	Hydro One was copied on an email from the Ministry of Transportation, Ontario (MTO) providing direction and confirmation of the logistics to Stantec for an upcoming meeting with the MTO/Stantec project team and Hydro One.
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-20	Email	Outgoing	Hydro One emailed the draft minutes for the conference call held with the Ministry of Transportation, Ontario to attendees. Hydro One also provided a list of possible times for the next conference call.
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-21	Email	Incoming	The Ministry of Transportation, Ontario (MTO) emailed Hydro One and indicated they do not have any comments on the minutes. Availability for an upcoming conference call was also provided.
Ministry of Transportation (MTO)	Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Kevin Welker - Ministry of Transportation (MTO) (MTO 401 Improvements Project Team (Stantec)) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-24	Email	Outgoing	Stantec emailed Hydro One to confirm that the requested contact has been added to the Highway 401 Expansion Project from Tilbury to London.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-08-27	Email	Incoming	A representative of the MTO emailed Hydro One to request a revision to the meeting minutes. Availability for an upcoming meeting was also provided.
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-09-03	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) to follow up on a comment from a call that morning regarding the feasibility of a new transmission line crossing of the Bloomfield interchange. Hydro One requested that this be confirmed in writing for the Record of Consultation and for a rationale to be provided if possible.
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team) Paula Hohner - Ministry of Transportation (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team) Vincent Lucci - Ministry of Transportation (MTO) (MTO Highway 401 Improvements Project Team (Stantec))	2020-09-04	Phone	Incoming	<p>Hydro One staff from the Chatham x Lakeshore project team, as well as Hydro One staff that review 3rd party project submission, attended a conference call hosted by the MTO to discuss the plans for the Bloomfield Rd 401 interchange and how they relate to the CxL project as well as nearby existing 230 kV lines.</p> <p>Hydro One staff gave an overview of the status of CxL project, including past discussions with MTO re: setbacks, routes that may cross the Bloomfield interchange.</p> <p>A brief discussion was had regarding an MTO question about the possibility of obtaining line outages on the existing 230 kV lines south of the 401. Hydro One staff confirmed that the route option 2C being considered through the CxL project is on the North side of 401, and provided rationale (looked at South side, but were limited by the existing 230 kV line and adjacent built-up areas and other constraints)</p> <p>MTO staff stated that if route 2C is selected, MTO's 401 work would take priority as far as obtaining permits, etc., for time & space separation during construction. MTO clarified the Bloomfield interchange timeframe, with potential construction start in 2023 (tentative). Hydro One staff stated that the CxL line was tentatively planned to be in service in 2024, but hoping to accelerate if possible.</p> <p>MTO staff gave a brief overview of plans for Bloomfield Rd interchange (current and final stage) and noted the plans have been approved by MTO Sr. Management, and pointed to areas where new ramps will cross below existing 230 kV lines. Hydro One staff provided some clarity on how conductor heights are variable with load, and that information provided to MTO represents a "worst-case (lowest line sag) scenario.</p> <p>The two teams had a discussion on clearance between the existing 230 kV conductors and proposed Bloomfield Rd interchange, and the need for additional clearances to meet Hydro One design clearance standards. Hydro One staff clarified that Hydro One design clearances were 7.3m, and that this had been noted in past meetings and respective minutes.</p> <p>Hydro One staff clarified that the new CxL line will not make existing lines redundant. Existing line will be needed to operate as it is today, even once new CxL line is needed.</p> <p>Some preliminary options were discussed on how additional clearance between the MTO's Bloomfield interchange proposal could be made. MTO staff stated that their current design plans were constrained and likely could not significantly change. Hydro One staff stated that changes to the existing 230 kV lines may trigger Class EA or other planning requirements.</p>

The results of the first TAC survey was presented and a live-polling was conducted to seek input on the weighting of the criteria.
Ministry of Transportation (MTO)	Chris Dixon - Ministry of Transportation (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-09-28	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and provided a response to MTO's inquiry regarding downed conductors and the impact to traffic. Hydro One also requested a follow-up call to discuss the project and provided their availability. Hydro One also acknowledged the letter provided by MTO clarifying their requirements and position on a few issues. Hydro One noted they will add the response to the meeting notes (attached to the email) if agreeable and that they will follow up directly regarding the letter.
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-09-28	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) regarding MTO's letter of September 15th. Hydro One noted that in keeping with the Provincial Policy Statement and suggestions/requests from other stakeholders and members of the public, the identified routes will still be considered, provided they can satisfy the requirements and constraints raised by MTO. Hydro One has been investigating minor refinements to these routes. Hydro One requested input on the proposed route 2 (all variations) and feasibility regarding the potential crossings of Highway 77 and Gracey Sideroad, and provided figures and the link to the interactive map. Hydro One also requested clarity on the "legal agreement" and for availability for the next conference call.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-09-29	Email	Incoming	The Ministry of Agriculture, Food and Rural Affairs (OMAFRA) emailed Hydro One to confirm the feedback received from the agricultural sector regarding the placement of lines. OMAFRA requested more context.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-02	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) to follow-up on a previously sent email regarding Hydro One's response to MTO's September 15th letter. Hydro One requested MTO's availability for a follow-up meeting/conference call.
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-05	Email	Incoming	The Ministry of Transportation, Ontario emailed Hydro One to confirm availability for a meeting.
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-05	Email	Incoming	The Ministry of Transportation, Ontario (MTO) emailed Hydro One and provided availability for a conference call. It was noted that the comments on the proposed alignments will be reviewed and comments will be sent to Hydro One.
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-06	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) to thank them for confirming their availability for a meeting and to note that they will send out the meeting invitation.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-06	Email	Outgoing	Hydro One emailed the Ministry of Agriculture, Food and Rural Affairs (OMAFRA) to provide context and to confirm the feedback received regarding line placement. Hydro One noted that they have received a bit conflicting from local residents/farmers from what was heard from the Technical Advisory Committee. Hydro One indicated they would like to ensure that this is accurately captured in the spatial analysis and requested comments and input.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-14	Phone	Outgoing	<p>Hydro One staff presented refinements to the CxL route alternatives that had been made to address prior comments from MTO, including at the Bloomfield Rd interchange.</p> <p>MTO staff were appreciative of the refinements, but noted that there was still a conflict at Charing Cross Rd., which does not have an interchange but rather an underpass ramp where MTO has a limited interest north to Doyle Line. MTO asked Hydro One staff to consider further refinement at Charing Cross Rd, to bring the routes north of Doyle Line.</p> <p>Hydro One staff reiterated that they wished to discuss some other route crossings of underpass embankments with MTO, and confirm that these crossing were indeed viable from MTO's perspective, given the comments received in the letter of Sept. 15. In particular, Hydro One wanted the MTO to review the crossing of Highway 77 just south of the 401, and a crossing of the Gracey Sideroad underpass embankment, both of which formed part of Route 2 (all variations, A, B and C). Hydro One staff noted that in both cases, the crossing was only over the toe of the embankment, and as such had limited risk of a future grade change requiring additional clearances, although Hydro One staff also noted that if MTO requested, they would consider committing to some additional vertical conductor clearances at these crossings if necessary. Hydro One staff also noted that route 2C crossed underpass embankments at Merlin Rd and Drake Rd.</p> <p>MTO staff stated that they did see have any immediate concern with the Highway 77 crossing, and asked if the crossing at Gracey sideroad could be shifted slightly south, to avoid the embankment and also cross the 401 corridor on a straightaway section rather than the cusp of a turn. Hydro One staff stated that they would consider this. MTO Staff requested approximate distances from the proposed routes to the 401 corridor at each underpass embankment crossing, Hydro One staff agreed to provide these distances.</p> <p>MTO staff stated that due to an internal directive, the MTO Regional Director would need to approve any facilities planned along the 401 corridor, and that they were preparing a briefing for the Regional Director regarding the CxL project and route alternatives.</p> <p>Hydro One staff asked for this to be done as soon as possible, as the team planned to select a preliminary preferred route by the end of 2020 and needed to know that the route selected would be considered feasible from MTO's perspective. In this briefing, Hydro One staff asked for the distinction to be made clear between the different routes and variations, particularly Route 2 (where variations 2A and 2B have some limited parallel distance/potential embankment crossings along the 401 corridor, but variation 2C parallels the 401 for much greater distance). MTO staff agreed that this was a reasonable distinction and stated that they would attempt to brief the regional director and clarify whether any routes were deemed feasible/not feasible from MTO's perspective within the coming 2 weeks.</p>
Ministry of Transportation (MTO)	Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-15	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and provided the draft notes from a call held the previous day. Hydro One followed up on action items from the call and provided availability for the next meeting.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-16	Email	Incoming	The Ministry of Agriculture, Food and Rural Affairs emailed Hydro One and noted that they will discuss internally and get back to Hydro One if there is anything further to provide.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-16	Email	Incoming	The Ministry of Agriculture, Food and Rural Affairs emailed Hydro One and inquired about the comments received regarding mid-field towers.
Ministry of Transportation (MTO)	Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-21	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) to follow up on the previously sent email and to confirm whether there are any updates from the briefing to the MTO Regional Director. Hydro One requested confirmation of availability for a discussion and if MTO had any comments on the draft meeting notes.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-26	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and inquired whether there were any updates from MTO's briefing of the regional director. Hydro One also requested availability for the next follow-up meeting and if there were any comments on the draft meeting notes.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-26	Email	Incoming	The Ministry of Transportation, Ontario (MTO) emailed Hydro One and indicated they have no comments on the draft meeting minutes. MTO informed Hydro One they have not yet met with their director/senior management and inquired whether they should wait until they receive direction from MTO senior management before the next meeting. MTO also inquired whether Hydro One had other items to discuss.
Lower Thames Valley Conservation Authority	Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of Natural Resources and Forestry (MNR)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNR) (District Planner - Aylmer District, Southern Region)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Essex Region Conservation Authority (ERCA)	Richard Wyma - Essex Region Conservation Authority (ERCA) (General Manager/Secretary-Treasurer - Administration)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Essex Region Conservation Authority (ERCA)	Dan Lebedyk - Essex Region Conservation Authority (ERCA) (Biologist/Ecologist - Conservation Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting), Air, Pesticides and Environmental Planning, Southwestern Region)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of Tourism, Culture and Sport (MTCS)	Shari Prowse - Ministry of Tourism, Culture and Sport (MTCS) (Archaeology Review Officer)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of Transportation (MTO)		2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ontario Clean Water Agency	Dave Jubenville - Ontario Clean Water Agency (Regional Hub Manager, Essex Regional Hub Office)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.

The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Infrastructure Ontario (IO)	Lisa Myslicki - Infrastructure Ontario (IO) (Environmental Specialist, Realty Services, Environmental Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of Natural Resources and Forestry (MNRF)	MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of Transportation (MTO)	Dawn Irish - Ministry of Transportation (MTO) (Manager - Environmental Policy Office)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Infrastructure Ontario (IO)	Joanna Brown - Infrastructure Ontario (IO) (Environmental Specialist East)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Jodie Lucente - Ministry of Transportation (MTO) (Senior Project Manager (A) - West Operations) Kevin DeVos - Ministry of Transportation (MTO) (Head (A) - Corridor Management, West Region) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Ryan Mentley - Ministry of Transportation (MTO) (Corridor Management Planner (A) - West Operations)	2020-10-27	Email	Incoming	The Ministry of Transportation, Ontario (MTO), emailed Hydro One and thanked them for providing information about the open house. The MTO contact informed Hydro One of their change in role and to forward future circulations to the identified staff members.
Infrastructure Ontario (IO)	Frances Hallen - Infrastructure Ontario (IO) (Co-op Student, Environmental Management)	2020-10-27	Email	Incoming	Infrastructure Ontario emailed Hydro One and indicated that a property has been identified adjacent to the study area. Infrastructure Ontario also provided documents to assist in the identification of owners of provincial government property.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Allan Hodgins - Ministry of Transportation (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting)) Jodie Lucente - Ministry of Transportation (MTO) (Senior Project Manager (A) - West Operations) Kevin DeVos - Ministry of Transportation (MTO) (Head (A) - Corridor Management, West Region) Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Ryan Mentley - Ministry of Transportation (MTO) (Corridor Management Planner (A) - West Operations)	2020-10-27	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and confirmed that future notices will be forwarded to the indicated contacts and the MTO contact removed from the distribution list.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-10-28	Email	Outgoing	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and indicated that if more time is required to obtain clarity, then they can have another touchpoint in a couple of weeks. Hydro One requested for more context on a comment made during the previous meeting.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-30	Email	Outgoing	Hydro One emailed the Ministry of Agriculture, Food and Rural Affairs and provided clarification on the comments regarding mid-field towers.
Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-04	Email	Incoming	The Lower Thames Valley Conservation Authority emailed Hydro One and provided comments on the proposed alternative routes, including flood prone areas traversed by Route 2 and some variations of Route 1, and the CM Wilson Conservation Area along Route 3.

Provincial Agencies - Record of Consultation

Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-04	Email	Outgoing	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and thanked them for sharing their comments and questions on the route alternatives. Hydro One noted they have shared LTVCA's email with the project team and they will be in touch with a response.
Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-04	Email	Incoming	Hydro One staff noted that the email had been shared with the project team. The Lower Thames Valley Conservation Authority thanked Hydro One.
Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-05	Email	Outgoing	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and requested maps or shapefiles of the areas mentioned in LTVCA's comments, along with any additional information they can provide. Hydro One requested confirmation of the correct contact for the spatial information and if anything is required from Hydro One in order to obtain the information. Hydro One also provided a reminder of the upcoming virtual Community Information Centre and attached the notice.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-05	Email	Incoming	The Lower Thames Valley Conservation Authority emailed Hydro One and confirmed the contact for the spatial information.
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-05	Email	Outgoing	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and thanked them for the confirmation. Hydro One requested that LTVCA inform them if anything is needed and to connect with Dillon Consulting Ltd.
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-06	Email	Incoming	Lower Thames Valley Conservation Authority emailed Dillon Consulting (Dillon) and requested clarification on the data Dillon is looking for.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2020-11-06	Email	Outgoing	Dillon Consulting (Dillon) emailed the Lower Thames Valley Conservation Authority (LTVCA) and listed the datasets they are interested in. Dillon also requested confirmation of whether LTVCA would require anything else.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-10	Email	Outgoing	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and included the study area shapefile as requested.
Lower Thames Valley Conservation Authority Upper Thames River Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Jenna Allain Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Terry Chapman - Upper Thames River Conservation Authority (GIS Specialist - Watershed Planning, Research & Monitoring)	2020-11-10	Email	Outgoing	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and confirmed that the attachments were received.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-11-13	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation (MTO) and followed up to inquire whether MTO could provide updates on the discussions with MTO regional management. Hydro One requested availability for another touchpoint and provided notes from the previous conference call.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-11-17	Phone	Outgoing	<p>Paul called Michael at the MTO corridor management section to follow up on his email regarding the Chatham x Lakeshore project, including whether there were any updates from the briefing of the MTO regional director and whether it was appropriate to arrange a follow up discussion between Hydro One and MTO staff.</p> <p>Michael replied that he would follow up with the MTO staff working on the Highway 401 improvements project, and that he believed that MTO review of the CxL project may not need to escalate to the director level. He stated that he would follow up with Paul as appropriate.</p> <p>Paul asked Michael about the legal agreement that MTO mentioned would be required in their formal comments provided in September. Michael replied that this would likely be a fairly standard agreement focusing on highway crossings, and would be discussed closer to detailed design. Michael asked whether such agreements could be reviewed and signed digitally or if hard copies were required; Paul stated that in his experience, digital copies were fine, but he would inform Michael if he became aware that hard copies were required.</p>
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-25	Email	Outgoing	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and inquired whether they had any questions or required anything further.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-25	Email	Incoming	The Lower Thames Valley Conservation Authority emailed Dillon Consulting and informed them that they will look at the files and get back to them.
Ministry of Energy Ministry of Energy, Northern Development and Mines (MENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (MENDM) (Policy Advisor (A), Indigenous Energy Policy) Rosalind Ashe - Ministry of Energy (Senior Advisor - Indigenous Energy Policy)	2020-11-25	Email	Incoming	The Ministry of Energy, Northern Development and Mines emailed Hydro One to inform them that future updates should be forwarded to the listed staff members.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-25	Email	Outgoing	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and thanked them.
Ministry of Energy Ministry of Energy, Northern Development and Mines (MENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (MENDM) (Policy Advisor (A), Indigenous Energy Policy) Rosalind Ashe - Ministry of Energy (Senior Advisor - Indigenous Energy Policy)	2020-11-25	Email	Outgoing	Hydro One emailed the Ministry of Energy, Northern Development and Mines and confirmed they have updated the project contact list as requested.
Ministry of Energy Ministry of Energy, Northern Development and Mines (MENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (MENDM) (Policy Advisor (A), Indigenous Energy Policy) Rosalind Ashe - Ministry of Energy (Senior Advisor - Indigenous Energy Policy)	2020-11-25	Email	Incoming	The Ministry of Energy, Northern Development and Mines emailed Hydro One and informed them they have been in contact with a staff member from Hydro One's Indigenous Relations department.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-11-30	Email	Outgoing	Hydro One emailed the Ministry of Transportation to follow up on whether they had any updates. Hydro One offered to have a call and it was also noted that they are beginning the process of evaluating the route alternatives.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2020-12-04	Phone	Outgoing	Paul left a voicemail for Michael Kilgore to follow up and see if there were any further comments from MTO (specifically from MTO regional/district management) and reiterated his offer to set up a conference call or webex to discuss further
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-12-07	Email	Outgoing	Hydro One emailed the Ministry of Transportation (MTO) to confirm whether there were any updates from MTO's management briefings on the project or whether they would like to have a call.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-12-07	Email	Incoming	The Ministry of Transportation (MTO) emailed Hydro One and provided additional comments and clarification regarding required setbacks from the 401 corridor, and setbacks and vertical clearances at various underpass ramps. It was noted that these comments will be required in addition to the previously provided comments. MTO also attached documents providing additional information.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2020-12-07	Email	Outgoing	Hydro One emailed the Ministry of Transportation and confirmed they will review the additional comments and let them know if they have any further questions.

Hydro One provided responses to previously submitted questions related to consultation, consent, project initiation and delegation. Hydro One provided materials related to delegation and the Notice of Commencement.
Ministry of Energy Ministry of Energy, Northern Development and Mines (MENDM) Ministry of the Environment, Conservation and Parks (MECP)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (MENDM) (Policy Advisor (A), Indigenous Energy Policy) Rosalind Ashe - Ministry of Energy (Senior Advisor - Indigenous Energy Policy)	2021-01-13	Email	Outgoing	Hydro One emailed the Ministry of Energy, Northern Development and Mines and provided responses to their previously submitted questions regarding project updates.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-01-21	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation and requested a meeting to brief the MTO on the preferred route, and to discuss next steps for the project.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-01-25	Email	Incoming	The Ontario Ministry of Transportation emailed Hydro One regarding availability for an upcoming meeting.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-01-25	Email	Incoming	The Ontario Ministry of Transportation emailed Hydro One and shared availability for an upcoming meeting.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-01-25	Email	Incoming	The Ontario Ministry of Transportation emailed Hydro One regarding logistics for an upcoming meeting.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-01-26	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation regarding logistics for an upcoming meeting.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-02-02	Meeting	Outgoing	Hydro One held a webex meeting with MTO staff to provide an early briefing on the preferred route for the Chatham x Lakeshore project, as requested. Hydro One staff informed MTO of the preferred route and briefly described how the MTO's previous input had helped to inform the route evaluation and selection. MTO staff were appreciative of the briefing and did not raise any immediate concerns about the preferred route, although MTO staff did note that early discussions/review once more detailed design information was available would be helpful, specifically in the area of the crossing of Highway 77. MTO staff also stated that they would inform their management team of the preferred route. Hydro One staff gave a brief overview of anticipated project timelines and next steps, and stated that MTO staff would receive regular Class EA and project updates going forward.

Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (MENDM)	Shannon McCabe - Ministry of Energy, Northern Development and Mines (MENDM) (Manager (A) - Indigenous Energy Policy)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Lee Bradshaw - Ministry of the Environment, Conservation and Parks (MECP) (Senior Environmental Officer)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Smith - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Water Compliance)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District))	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Tourism, Culture and Sport (MTCS)	Shari Prowse - Ministry of Tourism, Culture and Sport (MTCS) (Archaeology Review Officer)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ontario Clean Water Agency	Dave Jubenville - Ontario Clean Water Agency (Regional Hub Manager, Essex Regional Hub Office)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Government and Consumer Services	Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Tourism, Culture and Sport (MTCS)	Karla Barboza - Ministry of Tourism, Culture and Sport (MTCS) (Team Lead (Acting) - Heritage Planning, Culture Division)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Richard Wyma - Essex Region Conservation Authority (ERCA) (General Manager/Secretary-Treasurer - Administration)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Essex Region Conservation Authority (ERCA)	James Bryant - Essex Region Conservation Authority (ERCA) (Water Resources Engineer - Watershed Management Services)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Dan Lebedyk - Essex Region Conservation Authority (ERCA) (Biologist/Ecologist - Conservation Services)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Mark Peacock - Lower Thames Valley Conservation Authority (Chief Administrative Officer / Secretary-Treasurer)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting), Air, Pesticides and Environmental Planning, Southwestern Region)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (MENDM)	Dawn-Ann Metsaranta - Ministry of Energy, Northern Development and Mines (MENDM) (Manager (A) - Strategic Support Unit, Mines and Minerals Division)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Natural Resources and Forestry (MNRF)	Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District))	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy	Samir Adkar - Ministry of Energy (Director (A) - Energy Networks and Indigenous Policy)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ontario Provincial Police (OPP)	Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ontario Provincial Police (OPP)	Mike Bradley - Ontario Provincial Police (OPP) (Sergeant)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Ramsen Yousif - Infrastructure Ontario (IO) (Portfolio and Leasing Analyst)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation (MTO)	Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Paula Hohner - Ministry of Transportation (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation (MTO)		2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR)	Petroleum Operations Section inbox - Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR) (Petroleum Operations Section (NRF))	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Tourism, Culture and Sport (MTCS)	Joseph Harvey - Ministry of Tourism, Culture and Sport (MTCS) (Heritage Planner - Heritage Planning Unit)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation (MTO)	Malvika Rudra - Ministry of Transportation (MTO) (Head, Corridor Management (Acting) - West Region (London))	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation (MTO)	Desmond Grant - Ministry of Transportation (MTO) (Corridor Management Officer (Acting))	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy	Rosalind Ashe - Ministry of Energy (Senior Advisor - Indigenous Energy Policy)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (MENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (MENDM) (Policy Advisor (A), Indigenous Energy Policy)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Vitra Chodha - Essex Region Conservation Authority (ERCA)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	OMAFRA EA Notices Inbox - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Inbox for all EA Notices)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Indigenous Affairs	Sabrina Conliffe - Ministry of Indigenous Affairs	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Cavalluzzo LLP Haudenosaunee Development Institute (HDI) Ministry of Energy Ministry of Energy, Northern Development and Mines (MENDM) Ministry of Government and Consumer Services	Aaron Dettlor - Haudenosaunee Development Institute (HDI) (Lawyer) Adrienne Telford - Cavalluzzo LLP (Lawyer) Chloe Lazakis - Ministry of Energy, Northern Development and Mines (MENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Lara Koerner Yeo - Cavalluzzo LLP (Lawyer) Lou Stezos - Cavalluzzo LLP (Lawyer) Samir Adkar - Ministry of Energy (Director (A) - Energy Networks and Indigenous Policy) Sybil Grant - Cavalluzzo LLP (Assistant)	2021-02-26	Letter	Incoming	Legal counsel to Haudenosaunee Development Institute (HDI) sent a letter to the Director of Energy Networks and Indigenous Policy at the Ministry of Energy. The letter discusses the Aboriginal Rights of HDI and states that meaningful engagement was not provided.
Infrastructure Ontario (IO)	Hayley Maskell - Infrastructure Ontario (IO) (Land Use Planning)	2021-03-03	Email	Incoming	Infrastructure Ontario emailed Hydro One and provided a list of provincial government property owners that may have property in the project area. Infrastructure Ontario provided next steps following confirmation of property in the project area.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-03-22	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation (MTO) to follow up on whether there was any interest for another touchpoint on the project. Hydro One noted that they are beginning to initiate the design work on the new line and they have retained two firms to begin work on the design. Hydro One informed MTO that they have shared the comments and meeting notes with the firms but thought there might be an opportunity to discuss specific areas with MTO staff directly. Hydro One requested confirmation of availability.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-03-26	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation regarding availability for a touchpoint and to discuss any specific input to incorporate into the design of the new transmission line.
Infrastructure Ontario (IO)	Hayley Maskell - Infrastructure Ontario (IO) (Land Use Planning)	2021-03-26	Email	Outgoing	Hydro One emailed Infrastructure Ontario (IO) and provided the list of directly affected property owners. Hydro One provided an overview of the properties and indicated that they will keep IO staff on the distribution list for project updates.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-03-26	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation and provided alternative availability for a touchpoint meeting.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-03-29	Email	Incoming	An Ontario Ministry of Transportation staff member emailed Hydro One and informed them that they are unavailable at the suggested dates.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-03-29	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation and requested available dates for the meeting.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) LTVCA Planning Inbox Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2021-04-06	Email	Outgoing	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and requested that LTVCA identify the regulated areas that Hydro One needs to be aware of when conducting the detailed design and construction planning. Hydro One identified a specific area pertaining to the expansion of the Chatham Switching Station, for which this information was requested as soon as could be provided, and included a screenshot of the area.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management / Watershed Resource Planner)	2021-04-06	Email	Incoming	The Lower Thames Valley Conservation Authority (LTVCA) emailed Hydro One and confirmed that with regards to the Chatham Switching Station, there were no Conservation Authority Regulations that would affect the proposed station expansion. LTVCA informed Hydro One that they will look over the preferred option and get back with any regulatory concerns.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-04-07	Email	Incoming	A staff member from the Ontario Ministry of Transportation emailed Hydro One and provided their availability for the upcoming meeting.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-04-07	Email	Outgoing	Hydro One emailed the Ontario Ministry of Transportation and confirmed availability. Hydro One noted that the meeting invitation will be sent out shortly.

Hydro One informed MTO that these firms are part of the Early Contractor Involvement model for the project.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-04-19	Meeting	Outgoing	Hydro One Project Delivery, Environment, and Real Estate staff, as well as representatives from the Owner's Engineer and Early Contractor Involvement (ECI) firms, met with MTO staff via webex to discuss next steps on the Chatham x Lakeshore project. The purpose of the meeting was to discuss key areas (e.g., Highway crossings) with MTO and ECI staff directly, such that any key considerations could be incorporated as early as possible in design. Discussion topics included key areas (401 crossing and Gracey Sideroad, Highway 77 crossing, Charing Cross- Chatham SS section), general requirements re: MTO Encroachment and Land Use permits, and overall timelines and next steps. No major concerns were raised, and MTO staff reiterated some key design details that would allow them to advance early review and comment. MTO staff took actions re: providing some additional information to Hydro One, and Hydro One staff took action to develop a first draft of a timeline and schedule for key milestones relating to MTO review and permitting for the project, which all parties could work towards going forward.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-04-19	Email	Outgoing	Hydro One sent an email to the CxL project team and design consultants, and MTO staff, and shared the draft meeting notes and action items.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-12	Phone	Outgoing	Hydro One staff called Michelle Knieriem (MAH) and left a message with a brief update and inform her of the concerns raised by the Municipality of Lakeshore regarding the Employment lands in Comber, following the selection of the preferred route. Paul requested that Michelle contact him if she wished to discuss further.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-13	Email	Outgoing	Hydro One emailed the Ministry of Municipal Affairs and Housing (MMAH) and informed them of a land use planning matter in the Municipality of Lakeshore. Hydro One also shared the map of the preferred route.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-14	Email	Incoming	The Ministry of Municipal Affairs and Housing (MMAH) emailed Hydro One and thanked them for the update and of informing the Ministry of the Municipality of Lakeshore's concerns. MMAH noted that continuing to work with the Municipality to discuss their concerns is a great approach and to keep MMAH informed as the project continues.
Ministry of Energy Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR)	Lesley Williams - Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR) (Executive Director, Energy and Mining) Shoshana Pasternak - Ministry of Energy (Deputy Director of Policy) Steen Hume - Ministry of Energy (Assistant Deputy Minister - Energy Supply Policy Division) Stephen Rhodes - Ministry of Energy (Deputy Minister)	2021-05-18	Meeting		Hydro One presented an update to the group on the status of our development, including the breadth of engagement and consultation undertaken thus far in the project. We focused on how we arrived at Route 2A, and mentioned high level concerns raised by Lakeshore. Only one question asked by the deputy, which was where the approximate paralleling of the idle line would occur.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-18	Email	Outgoing	Hydro One emailed the Ministry of Municipal Affairs and Housing (MMAH) and noted that they will continue to work with the Municipality of Lakeshore staff and officials and will keep MMAH updated. Hydro One indicated the release of the draft Environmental Study Report will be in June.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-06-09	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and informed them that the Draft Environmental Study Report will be available for an extended 60-day review period. Hydro One requested confirmation of who should be circulated.
Lower Thames Valley Conservation Authority	Randal Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2021-06-10	Email	Incoming	The Lower Thames Valley Conservation Authority (LTVCA) emailed Hydro One and indicated a pair of Osprey have been trying to build a nest on one of the old towers south of 3rd line. LTVCA requested whether a nesting tower could be built in the area.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-06-10	Email	Incoming	A staff member from the Ministry of the Environment, Conservation and Parks (MECP) emailed Hydro One to confirm they are the new MECP EA Coordinator contact and requested that the draft Environmental Study Report be circulated to the MECP Regional email address.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-06-10	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and confirmed they will be on the project contact list going forward. Hydro One noted that they will be circulated the Notice of Completion and provided a link to the draft Environmental Study Report.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-06-10	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) and confirmed the MECP Southwest Region Environmental Assessment notification inbox has also been included.
Infrastructure Ontario (IO)	Cory Ostrowka - Infrastructure Ontario (IO) (Environmental Specialist - Environmental Management)	2021-06-10	Smart email	Outgoing	Hydro One sent a copy of the Notice of Draft Environmental Study Report.

Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2021-06-22	Email	Outgoing	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and thanked them for reaching out with information on the Osprey nest. Hydro One noted they will work with the team to see what they can do. Hydro One requested more information on the location of the nest/tower.
Ministry of the Environment, Conservation and Parks (MECP)	Aide Zarkovich - Ministry of the Environment, Conservation and Parks (MECP) (Management Biologist - Permission and Compliance, Species at Risk Branch)	2021-06-28	Email	Incoming	The Ministry of the Environment, Conservation and Parks's Species at Risk Branch emailed Hydro One and shared comments on the Draft Environmental Study Report.
Essex Region Conservation Authority (ERCA)	Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services)	2021-07-09	Email	Outgoing	Hydro One emailed a member of the public and informed them that they have shared their question regarding Conservation Authority Permits with the project team.
Essex Region Conservation Authority (ERCA)	Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services)	2021-07-13	Email	Outgoing	Hydro One emailed a member of the public and provided a response to their inquiry regarding Conservation Authority permits and approvals.
Ministry of the Environment, Conservation and Parks (MECP)	Aide Zarkovich - Ministry of the Environment, Conservation and Parks (MECP) (Management Biologist - Permission and Compliance, Species at Risk Branch)	2021-07-16	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) Species at Risk Branch and provided responses to MECP's comments on the draft Environmental Study Report.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2021-07-19	Email	Outgoing	Hydro One emailed the Lower Thames Valley Conservation Authority to follow up on a previous email. Hydro One requested whether the LTVCA had any more information on the exact location of the Osprey nest mentioned previously. Hydro One also requested confirmation of the possibility of installing a nest pole off of the transmission right-of-way.
Essex Region Conservation Authority (ERCA)	Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services)	2021-07-20	Email	Incoming	The Essex Region Conservation Authority (ERCA) emailed Hydro One and indicated that permits will be required within the ERCA Limit of Regulated Area.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-07-20	Email	Outgoing	Hydro One emailed the Ministry of Transportation (MTO) to follow up on a previous email. Hydro One requested confirmation of whether MTO staff had any further questions on the responses provided by Hydro One and whether MTO could provide further insight to the questions/actions from the last meeting.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2021-07-28	Email	Incoming	The Lower Thames Valley Conservation Authority (LTCVA) emailed Hydro One and shared the location of where the Osprey started to build a nest, with a note that it appears the wind knocked it over. A recommendation for a new location was provided and LTCVA inquired whether they should confirm.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Sarah Kielek-Caster - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Central West Ontario (Acting))	2021-07-29	Email	Incoming	The Ministry of Agriculture, Food and Rural Affairs (OMAFRA) emailed Hydro One and noted that from an agricultural point of view, the Draft Environmental Study Report looks great. OMAFRA inquired whether Hydro One had availability for a call.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Sarah Kielek-Caster - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Central West Ontario (Acting))	2021-07-29	Email	Outgoing	Hydro One emailed the Ministry of Agriculture, Food and Rural Affairs and thanked them for their review and feedback. Hydro One provided availability for a call.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Sarah Kielek-Caster - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Central West Ontario (Acting))	2021-07-29	Email	Incoming	The Ministry of Agriculture, Food and Rural Affairs emailed Hydro One and provided a time for the call.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Sarah Kielek-Caster - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Central West Ontario (Acting))	2021-07-29	Email	Outgoing	Hydro One emailed the Ministry of Agriculture, Food and Rural Affairs and confirmed the time for the call.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Sarah Kielek-Caster - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Central West Ontario (Acting))	2021-07-30	Phone	Incoming	The Ministry of Agriculture, Food and Rural Affairs called Hydro One to follow up on their emailed comments regarding the project draft Environmental Study Report.
Caldwell First Nation Ministry of Energy Ministry of the Environment, Conservation and Parks (MECP)	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Cathy Guirguis - Olthuis Kleer Townshend (OKT LLP) Glenn Forrest James Peters - Caldwell First Nation (Councillor) Minister of Energy - Ministry of Energy (Minister of Energy) Nikki Orosz Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor)	2021-08-09	Email	Incoming	Caldwell First Nation emailed Hydro One and shared a letter from Caldwell First Nation's Council regarding the Draft Environmental Study Report review period. In the letter, it was requested the review period be extended by 60 days.
Essex Region Conservation Authority (ERCA)	Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services)	2021-08-10	Email	Outgoing	Hydro One responded to an email received from Essex Region Conservation Authority thanking them for providing comments on the draft Environmental Study Report.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-08-10	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) southwest region and followed up with MECP, noting that it was the final day of the draft Environmental Study Report review period. Hydro One indicated they have not received any comments from the MECP southwest region but have received comments from the Species at Risk branch.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-08-10	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One and confirmed comments will be sent before the review period closes. It was noted MECP's comments will include the review conducted by the Species at Risk branch.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-08-10	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks southwest region and thanked them for the update.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Essex Region Conservation Authority (ERCA)	Dan Jenner - Essex Region Conservation Authority (ERCA) (Regulations Analyst - Watershed Management Services) Dan Lebedyk - Essex Region Conservation Authority (ERCA) (Biologist/Ecologist - Conservation Services) Kim Darroch - Essex Region Conservation Authority (ERCA) (Team Lead, Planning Services)	2021-08-10	Email	Incoming	Hydro One received a response from Essex Region Conservation Authority providing information and contact details for when they are ready to begin the permit process.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Sarah Kielek-Caster - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Central West Ontario (Acting))	2021-08-10	Email	Incoming	The Ministry of Agriculture, Food and Rural Affairs emailed Hydro One and shared their comments on the draft Environmental Study Report.
Ministry of the Environment, Conservation and Parks (MECP)	Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator)	2021-08-10	Email	Incoming	MECP staff emailed Hydro One providing a letter with their formal comments on the draft ESR for the Chatham to Lakeshore project.
Chippewas of Kettle and Stony Point First Nation Ministry of the Environment, Conservation and Parks (MECP)	EAB Director (MECP) Environmental Permissions (MECP) Gary F. Kissack - Chippewas of Kettle and Stony Point First Nation (Legal Counsel) Krista-Marie Bergeron Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation, Chippewas of Kettle and Stony Point First Nation (legal Counsel)	2021-08-10	Email	Incoming	Fogler, Rubinoff LLP emailed Hydro One and shared the cover letter, application, treaty map and comment response table on behalf of Chippewas of Kettle and Stony Point First Nation.
Chippewas of Kettle and Stony Point First Nation Ministry of the Environment, Conservation and Parks (MECP)	EAB Director (MECP) Environmental Permissions (MECP) Gary F. Kissack - Chippewas of Kettle and Stony Point First Nation (Legal Counsel) Krista-Marie Bergeron Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation, Chippewas of Kettle and Stony Point First Nation (legal Counsel)	2021-08-10	Email	Incoming	Fogler, Rubinoff LLP emailed Hydro One and the Ministry of the Environment, Conservation and Parks and shared the cover letter, comment response table and treaty map on behalf of Chippewas of Kettle and Stony Point First Nation.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Chippewas of the Thames First Nation Ministry of the Environment, Conservation and Parks (MECP)	Annabelle Laurin EAB Director (MECP) Emma Young Environmental Permissions (MECP) Jacqueline French - Chippewas of the Thames First Nation (Chief) Kelly Riley - Chippewas of the Thames First Nation (Director of Treaties, Lands and Environment) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator)	2021-08-10	Email	Incoming	Chippewas of the Thames First Nation (COTTFN) emailed the Ministry of the Environment, Conservation and Parks, and Hydro One with COTTFN's submission for a Part II Order Request.
Chippewas of Kettle and Stony Point First Nation Ministry of the Environment, Conservation and Parks (MECP)	EAB Director (MECP) Environmental Permissions (MECP) Gary F. Kissack - Chippewas of Kettle and Stony Point First Nation (Legal Counsel) Krista-Marie Bergeron Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Philip Lee - Southwind Development Corporation (CEO) William J Taggart - Chippewas of Kettle and Stony Point First Nation (legal Counsel), Chippewas of Kettle and Stony Point First Nation	2021-08-10	Email	Incoming	Fogler, Rubinoff LLP emailed Hydro One and shared a map. It was requested the provided map substitute the one previously sent.
Chippewas of Kettle and Stony Point First Nation Ministry of the Environment, Conservation and Parks (MECP)	EAB Director (MECP) Environmental Permissions (MECP) Gary F. Kissack - Chippewas of Kettle and Stony Point First Nation (Legal Counsel) Krista-Marie Bergeron Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Philip Lee - Southwind Development Corporation (CEO) Wayne Henry - Chippewas of Kettle and Stony Point First Nation (President) William J Taggart - Chippewas of Kettle and Stony Point First Nation (legal Counsel), Chippewas of Kettle and Stony Point First Nation	2021-08-11	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Fogler, Rubinoff LLP and thanked them for their request. MECP indicated they have sent both emails to the appropriate parties for review.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Chippewas of the Thames First Nation Ministry of the Environment, Conservation and Parks (MECP)	Annabelle Laurin EAB Director (MECP) Emma Young Environmental Permissions (MECP) Jacqueline French - Chippewas of the Thames First Nation (Chief) Kelly Riley - Chippewas of the Thames First Nation (Director of Treaties, Lands and Environment) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator)	2021-08-11	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Chippewas of the Thames First Nation and thanked them for their request. It was noted that it has been sent to the appropriate parties for review.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Stephen Deneault	2021-08-11	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Hydro One and informed Hydro One that they have received two Section 16 Order requests. MECP indicated they will send the attachments via dropbox link. MECP informed Hydro One the Section 16 Order requests are regarding potential adverse impacts on Aboriginal and treaty rights and that they can anticipate a letter shortly.
Caldwell First Nation Ministry of Energy Ministry of Energy, Northern Development and Mines (MENDM) Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Cathy Guirguis - Olthuis Kleer Townshend (OKT LLP) Glenn Forrest James Peters - Caldwell First Nation (Councillor) Nikki Orosz Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Samir Adkar - Ministry of Energy (Director (A) - Energy Networks and Indigenous Policy) Stan Scott - Caldwell First Nation (Councillor) Stephen Deneault Steve Simpson - Caldwell First Nation (Councillor)	2021-08-11 2021-08-12	Email Email	Incoming Outgoing	The Ministry of the Environment, Conservation and Parks emailed Hydro One and provided the access link to the Section 16 Order requests. Hydro One emailed Caldwell First Nation (CFN) and shared their response to CFN's August 9th letter. Hydro One suggested arranging a workshop to continue collaborating on understanding the results of the Traditional Ecological Knowledge and how they can move towards addressing and incorporating.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Stephen Deneault	2021-08-12	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and requested availability to meet. Hydro One also noted that in response to requests received from some Indigenous Communities, Hydro One has offered an extension of an additional 30 days for Indigenous Communities.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Stephen Deneault	2021-08-13	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One and provided availability for the meeting.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator) Stephen Deneault	2021-08-13	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and requested for the identified Hydro One staff members to be included in the meeting invitation.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	<p>Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services)</p> <p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)</p> <p>Shannon Dennie - Ministry of the Environment, Conservation and Parks (MECP) (Senior Advisor - EA Program Support)</p> <p>Stephen Deneault</p>	2021-08-17	Meeting		Hydro One held a conference call with the Ministry of the Environment, Conservation and Parks (MECP) regarding the Draft Environmental Study Report (ESR). Included in the discussion was the Section 16 Order Requests, ESR Commitments, schedule and next steps.
Ministry of the Environment, Conservation and Parks (MECP)	<p>Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services)</p> <p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)</p> <p>Shannon Dennie - Ministry of the Environment, Conservation and Parks (MECP) (Senior Advisor - EA Program Support)</p> <p>Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)</p>	2021-08-24	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) and shared the draft meeting notes for the meeting held on August 17, 2021. Hydro One requested consolidated comments from MECP.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	<p>Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services)</p> <p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)</p> <p>Shannon Dennie - Ministry of the Environment, Conservation and Parks (MECP) (Senior Advisor - EA Program Support)</p> <p>Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)</p>	2021-08-26	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One and shared the suggested edits to the meeting minutes.
Ministry of Transportation (MTO)	<p>Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region)</p> <p>Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)</p>	2021-08-26	Email	Outgoing	Hydro One emailed the Ministry of Transportation (MTO) and followed up to see if MTO could provide responses to the actions from the last meeting.
Ministry of the Environment, Conservation and Parks (MECP)	<p>Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services)</p> <p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)</p> <p>Shannon Dennie - Ministry of the Environment, Conservation and Parks (MECP) (Senior Advisor - EA Program Support)</p> <p>Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)</p>	2021-08-27	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and shared the finalized meeting minutes.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-08-30	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) and shared the draft response sent to Chippewas of the Thames First Nation (COTTFN). Hydro One also noted that they have scheduled a meeting with COTTFN and that Hydro One will keep MECP updated as discussions advance.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Shannon Dennie - Ministry of the Environment, Conservation and Parks (MECP) (Senior Advisor - EA Program Support) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-08-30	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One and thanked them for the update.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-02	Email	Incoming	A representative from the Ministry of the Environment, Conservation and Parks (MECP) emailed Hydro One and provided an update on contacts from MECP for Section 16 Order requests in their absence.
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-09-07	Email	Incoming	The Ministry of Transportation emailed Hydro One and provided an update on future work at Gracey Sideroad and other current works.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Transportation (MTO)	Michael Kilgore - Ministry of Transportation (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation (MTO) (Project Engineer - West Region)	2021-09-08	Email	Incoming	The Ministry of Transportation emailed Hydro One and provided an overview of riders poles and their current policies and factors required for approval.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-09	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and thanked them for the update. Hydro One noted they will be in touch shortly as they move closer to issuing responses to the Section 16 Order requests.
Caldwell First Nation Ministry of Indigenous Affairs Ministry of the Environment, Conservation and Parks (MECP)	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Cathy Guirguis - Olthuis Kleer Townshend (OKT LLP) Chloe Lazakis - Ministry of Indigenous Affairs (Associate Negotiator (A)) EAB Director (MECP) Glenn Forrest - Caldwell First Nation James Peters - Caldwell First Nation (Councillor) Nikki Orosz Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor)	2021-09-10	Email	Incoming	Caldwell First Nation emailed Hydro One and shared their comments for the Draft Environmental Study Report.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Caldwell First Nation Ministry of Indigenous Affairs Ministry of the Environment, Conservation and Parks (MECP)	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Cathy Guirguis - Olthuis Kleer Townshend (OKT LLP) Chloe Lazakis - Ministry of Indigenous Affairs (Associate Negotiator (A)) EAB Director (MECP) Glenn Forrest - Caldwell First Nation James Peters - Caldwell First Nation (Councillor) Nikki Orosz Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins - Caldwell First Nation (Acting Chief & Councillor) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor)	2021-09-10	Email	Incoming	Caldwell First Nation emailed the Ministry of the Environment, Conservation and Parks (copying Hydro One staff) and submitted their Part II (Section 16) Order Request for the project.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-14	Email	Incoming	A representative from the Ministry of the Environment, Conservation and Parks emailed Hydro One and provided an information request letter regarding the Section 16 Order requests for the project. An instruction guide for how to complete the provided tables was also attached.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-14	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) and thanked them. Hydro One noted they are currently preparing responses to the comments and concerns raised in the Section 16 Order requests and that they will keep MECP in the loop as they respond. Hydro One also indicated they will work to complete Tables A and B within the requested timeframe.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Chippewas of Kettle and Stony Point First Nation Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator) Wayne Henry - Chippewas of Kettle and Stony Point First Nation (President) William J Taggart - Chippewas of Kettle and Stony Point First Nation	2021-09-22	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Chippewas of Kettle and Stony Point First Nation (CKSPFN) and shared MECP's correspondence (copying Hydro One staff). The attached letter indicated they will review and consider the issues and concerns cited in CKSPFN's August 10th letter as reasons as to why an Individual Environmental Assessment should be prepared.
Chippewas of the Thames First Nation Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Jacqueline French - Chippewas of the Thames First Nation (Chief) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-22	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Chippewas of the Thames First Nation (COTTFN), (copying Hydro One staff on the email) and shared their response to COTTFN's August 10th correspondence. MECP noted they will review and consider the concerns and issues cited in their letter as to why an individual Environmental Assessment should be prepared.
Caldwell First Nation Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-22	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Caldwell First Nation (CFN) and shared their response to CFN's September 10th correspondence (copying Hydro One staff). It was noted that MECP will review and consider the issues and concerns cited as to why an Individual Environmental Assessment should be prepared.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-22	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) and provided an update on Hydro One's responses to the Section 16 Order requests for the project. Hydro One shared the responses to the Chippewas of Kettle and Stony Point First Nation and Chippewas of the Thames First Nation. Hydro One noted they will still provide the responses formally to MECP in the tables previously requested. Hydro One also indicated they are continuing to draft responses to comments associated with recent Section 16 Order request from Caldwell First Nation and will share those once they have been provided to community representatives. Hydro One provided an overview of meetings with communities.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-09-23	Email	Incoming	A representative from the Ministry of the Environment, Conservation and Parks emailed Hydro One and thanked them for the update and for the draft tables.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-10-04	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and shared the completed Tables A and B to address the Section 16 Order requests received for the project.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-10-05	Email	Incoming	A representative from the Ministry of the Environment, Conservation and Parks (MECP) emailed Hydro One and thanked them for the tables. MECP noted they will let Hydro One if they have any questions.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-10-05	Email	Outgoing	Hydro One emailed the Ministry of the Environment Conservation and Parks (MECP) to provide the responses that were provided to Caldwell First Nation to address the comments that they included with their Section 16 Order Request. Hydro One noted that the responses are the same as what was submitted to the MECP in Table A and this is a copy for their records.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-10-07	Phone	Outgoing	Hydro One called the Ministry of the Environment, Conservation and Parks to advise that Hydro One had recently received additional comments (in reply to Hydro One's responses to the Section 16 Order request comments) from the Chippewas of Kettle and Stony Point First Nation (CKSPFN) on the Section 16 Order.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-10-07	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to provide the correspondence that Hydro One recently received from the Chippewas of Kettle and Stony Point First Nation regarding the comments from the Section 16 order request.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-02	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to see if they had any questions on the Table A and B submissions.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-03	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One stating that they did have some questions about the tables and provided their availability for a meeting.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-04	Email	Outgoing	Hydro One thanked the Ministry of the Environment, Conservation and Parks for the information and stated that they will arrange a meeting. Hydro One asked if they could provide questions in advance to the meeting.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-08	Email	Incoming	A representative from the Ministry of the Environment, Conservation and Parks emailed Hydro One requesting an alternative date and time for a meeting.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-08	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to update the meeting time.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-08	Email	Incoming	Ministry of the Environment Conservation and Parks emailed Hydro One to thank them for the updated meeting time and stated they would forward to the appropriate contacts.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-09	Phone	Outgoing	Hydro One left a voicemail for the Ministry of the Environment, Conservation and Parks Project officer to let them know that Hydro One would shortly be sending its responses to the Section 16 Order request comments received from Chippewas of Kettle and Stony Point First Nation.
Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-10	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to provide the responses that they sent to the Chippewas of Kettle and Stony Point First Nation (CKSPFN), to the comments received (also attached for reference) in reply to their initial responses.
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-15	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to request their list of questions and clarification.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2021-11-15	Email	Incoming	The Ministry of the Environment, Conservation and Parks provided Hydro One with questions/comments in advance of their meeting.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	<p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)</p>	2021-11-15	Email	Outgoing	Hydro One thanked the Ministry of the Environment, Conservation and Parks for their questions/comments and stated that they look forward to their meeting.
Ministry of the Environment, Conservation and Parks (MECP)	<p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)</p>	2021-11-16	Meeting		Hydro One staff met with Ministry of the Environment, Conservation and Parks (MECP) staff to provide a brief update on the work completed to date regarding ongoing discussions and responses to the communities that had submitted Section 16 order requests for the project.
Ministry of the Environment, Conservation and Parks (MECP)	<p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)</p>	2021-12-16	Email	Outgoing	Hydro One provided the Ministry of the Environment, Conservation and Parks with written responses to questions raised by the MECP just prior to the November 16th meeting regarding the Chatham x Lakeshore Section 16 Order requests.
Ministry of the Environment, Conservation and Parks (MECP)	<p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)</p>	2021-12-20	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One to thank them for their responses and that they will let Hydro One know if they have any questions.
Caldwell First Nation Ministry of the Environment, Conservation and Parks (MECP)	<p>Cathy Guirguis - Olthuis Kleer Townshend (OKT LLP)</p> <p>Environmental Permissions (MECP) - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Ian Duckworth - Caldwell First Nation (Councillor)</p> <p>Mary Duckworth - Caldwell First Nation (Chief)</p> <p>Nikki Orosz</p> <p>Oliver MacLaren - Olthuis Kleer Townshend (OKT LLP) (Legal Counsel)</p> <p>Randall Kahgee - Olthuis Kleer Townshend (OKT LLP)</p> <p>Tammy Jolicoeur - Caldwell First Nation (Administrative Services Manager)</p>	2022-01-17	Email	Incoming	Caldwell First Nation emailed the Ministry of the Environment, Conservation and Parks to provide a letter for their review (copying Hydro One staff) regarding the Chatham x Lakeshore project.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2022-01-17	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to provide two letters from Caldwell First Nation. Hydro One described that the first letter reiterates Caldwell FN's position regarding the Section 16 Order Requests and inquires as to the status of a response. The second letter reiterates in more detail the issues and concerns behind Caldwell FN's Section 16 Order Request.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2022-01-18	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One to thank them for the letters, noting that they are drafting a response and will provide it to Hydro One once completed.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2022-02-09	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) to provide their response to Caldwell First Nation and indicated that they have not received a response yet and invited questions or comments from the MECP regarding the Section 16 order.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA) Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR)	Sarah Kielek-Caster - Ministry of Northern Development, Mines, Natural Resources and Forestry (MNDMNR) (Regional Planner, Regional Land Use Planning Team)	2022-02-10	Email	Outgoing	Hydro One emailed the Ministry of Agriculture, Food, and Rural Affairs (OMAFRA) regarding OMAFRA's comments on the draft Environmental Study Report for the Chatham to Lakeshore project. Hydro One also mentioned that they received the comments for the St Clair Project and are working on addressing them. Hydro One acknowledged the change in the staff's position and confirmed they will send the response to the identified OMAFRA contact.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Stephen Deneault - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator)	2022-02-11	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Hydro One to state that they have recovered the letter from Hydro One and have no questions or concerns. MECP provided an updated internal contact for Hydro One to use going forward.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)	2022-03-02	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to reiterate the offer to meet and discuss project details and timelines.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)	2022-03-03	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Hydro One stating that they are currently reviewing the project and at this time do not have questions or concerns.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)	2022-03-07	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and thanked them for responding to their email.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Caldwell First Nation Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Ian Duckworth - Caldwell First Nation (Councillor) Josephine Yumbala Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Kathleen O'Neill - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment Branch) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mary Duckworth - Caldwell First Nation (Chief) Nikki van Oirschot - Caldwell First Nation (Councillor) Tammy Jolicoeur - Caldwell First Nation (Administrative Services Manager)	2022-03-22	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Caldwell First Nation to provide a response letter to Caldwell First Nation's Section 16 Order request.
Ministry of Transportation (MTO)	MTO Highway 401 Tilbury to London Project Inbox - Ministry of Transportation (MTO)	2022-03-29	Email	Outgoing	The Ministry of Transportation provided the Notice of Completion for the Transportation Environmental Study Report (TESR) for the Highway 401- Bloomfield Road project in the Municipality of Chatham-Kent.
Ministry of the Environment, Conservation and Parks (MECP)	Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator)	2022-04-21	Email	Outgoing	Hydro One provided the Ministry of the Environment, Conservation and Parks (MECP) Environmental Assessment Branch with the formal responses in response to the MECP's comments on the draft Environmental Study Report.
Ministry of the Environment, Conservation and Parks (MECP)	Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator)	2022-05-09	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Hydro One to thank them for including their comments in the Environmental Study Report. MECP recommended that Hydro One's comment table be included in the record of consultation for the Class Environmental Assessment.
Ministry of the Environment, Conservation and Parks (MECP)	Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator)	2022-05-09	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to state that they will be including comments and responses in the record of consultation and final Environmental Study Report.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	<p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator)</p>	2022-05-27	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks and provided updates on the progress made with one of the Section 16 Order request communities (Chippewas of the Thames First Nation) for the project.
Ministry of the Environment, Conservation and Parks (MECP)	<p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator)</p> <p>Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB)</p>	2022-05-27	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) advised Hydro One of a new contact at MECP for Hydro One to contact regarding project information going forward.
Ministry of the Environment, Conservation and Parks (MECP)	<p>Joshua Ortega - Ministry of the Environment, Conservation and Parks (MECP)</p> <p>Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review)</p> <p>Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator)</p> <p>Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB)</p>	2022-05-27	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks (MECP) and thanked them for the updated contact information and advised the new MECP contact to reach out if they wanted to discuss further.
<p>Ministry of Energy</p> <p>Ministry of the Environment, Conservation and Parks (MECP)</p>	<p>Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services)</p> <p>Kathleen O'Neill - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment Branch)</p> <p>Samir Adkar - Ministry of Energy (Director (A) - Energy Networks and Indigenous Policy)</p> <p>Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB)</p>	2022-06-06	Meeting		<p>The Ministry of the Environment, Conservation and Parks (MECP) held a virtual meeting with Hydro One to discuss the Section 16 Order Requests received on the Chatham x Lakeshore project. MECP suggested that Hydro One continue to engage communities and that the MECP would conduct some outreach directly to communities themselves as well.</p> <p>Hydro One staff gave an update on engagements with the three Section 16 Order Request communities, including progress made on identifying specific environmental effects and mitigation measures related to the TEK study and CRS received, and how these (along with descriptions of Hydro One's acknowledgement and position on broader regional and historical issues) would be captured in the CxL final ESR, thus satisfying a major commitment of Hydro One's responses to the Section 16 Order Requests and associated comments.</p> <p>MECP staff noted that they would shortly be sending a letter to the communities with an offer to meet with the MECP staff directly to further discuss the communities' concerns.</p>

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of Tourism, Culture and Sport (MTCS)	James Hamilton - Ministry of Tourism, Culture and Sport (MTCS) (Manager - Heritage Planning Unit) Katherine Cappella - Ministry of Tourism, Culture and Sport (MTCS)	2022-06-14	Meeting		Hydro One met with the Ministry of Heritage, Sport, Tourism and Culture Industries (MHSTCI) staff to discuss the project's status, including the St. Clair Transmission Line Project. Hydro One staff gave an update on the pending Stage 1 Archaeological Assessment submission, upcoming Stage 2 AA submission, and upcoming Heritage Impact Assessment work.
Caldwell First Nation Ministry of the Environment, Conservation and Parks (MECP)	Brianna Sands - Caldwell First Nation (Environment & Consultation Coordinator) Cathy Guirguis - Olthuis Kleer Townshend (OKT LLP) Glenn Forrest - Caldwell First Nation James Peters - Caldwell First Nation (Councillor) Josephine Yumbla Kathleen O'Neill - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment Branch) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Nikki Orosz Randall Kahgee - Olthuis Kleer Townshend (OKT LLP) Robyn Perkins Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor)	2022-07-04	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Caldwell First Nation to provide their response letter to the Section 16 Order request.
Chippewas of the Thames First Nation Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Emma Young - Chippewas of the Thames First Nation Jacqueline French - Chippewas of the Thames First Nation (Chief) Josephine Yumbla Kathleen O'Neill - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment Branch) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Kelly Riley - Chippewas of the Thames First Nation (Director of Treaties, Lands and Environment) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB)	2022-07-05	Email	Incoming	The Ministry of the Environment, Conservation and Parks provided Chippewas of the Thames First Nation a letter regarding the ongoing review of the Section 16 Order request (copied to Hydro One).

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Chippewas of Kettle and Stony Point First Nation Ministry of the Environment, Conservation and Parks (MECP)	Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Gary F. Kissack - Chippewas of Kettle and Stony Point First Nation (Legal Counsel) Josephine Yumbala Kathleen O'Neill - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment Branch) Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Philip Lee - Southwind Development Corporation (CEO) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB) Wayne Henry - Chippewas of Kettle and Stony Point First Nation (President) William J Taggart - Chippewas of Kettle and Stony Point First Nation	2022-07-05	Email	Incoming	The Ministry of the Environment, Conservation and Parks emailed Chippewas of Kettle and Stony Point First Nation (copying Hydro One) a letter providing an update on the Ministry's review of the Section 16 Order Requests and responses to date.
Ministry of Tourism, Culture and Sport (MTCS)	Katherine Cappella - Ministry of Tourism, Culture and Sport (MTCS)	2022-07-20	Email	Outgoing	Hydro One emailed the Ministry of Tourism, Culture and Sport (MTCS) to get an update regarding the Stage 1 Archaeological Assessment.
Ministry of Tourism, Culture and Sport (MTCS)	Katherine Cappella - Ministry of Tourism, Culture and Sport (MTCS)	2022-07-21	Email	Incoming	The Ministry of Tourism, Culture and Sport (MTCS) emailed Hydro One to state that they will prioritize the report and have it reviewed by July 22.
Ministry of Tourism, Culture and Sport (MTCS)	Katherine Cappella - Ministry of Tourism, Culture and Sport (MTCS)	2022-07-21	Email	Outgoing	Hydro One emailed the Ministry of Tourism, Culture and Sport (MTCS) to thank them for their report review prioritization.
Ministry of Tourism, Culture and Sport (MTCS)	Katherine Cappella - Ministry of Tourism, Culture and Sport (MTCS)	2022-07-25	Email	Incoming	The Ministry of Tourism, Culture and Sport (MTCS) emailed Hydro One to note that a request was sent to the archaeologist to address mapping issues and the archaeologist has until October 21, 2022 to address this.
Ministry of Tourism, Culture and Sport (MTCS)	Katherine Cappella - Ministry of Tourism, Culture and Sport (MTCS)	2022-07-26	Email	Outgoing	Hydro One emailed the Ministry of Tourism, Culture and Sport (MTCS) and thanked them for the update and confirmed that the archaeologist did receive the comments and are working on the necessary revisions.
Ministry of the Environment, Conservation and Parks (MECP)	Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB)	2022-08-05	Email	Outgoing	Hydro One emailed the Ministry of the Environment, Conservation and Parks to provide an update on the progress Hydro One has made in regards to the Section 16 Order request.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Katy Potter - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor (Acting) EA Services Project Review) Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner and Environmental Assessment Coordinator) Simon Zhao - Ministry of the Environment, Conservation and Parks (MECP) (Project Evaluator, Project Review, EAB)	2022-08-08	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed Hydro One to state that they will review the documents Hydro One provided. MECP noted that they do not have any further updates for Hydro One other than what was previously sent to Indigenous Communities on July 5, 2022, with a request to forward any additional information for consideration to the ministry by the identified date, as well as an offer to meet to discuss the commitments made by Hydro One.
Ministry of the Environment, Conservation and Parks (MECP) Ross Firm Group	Alex Bondarenko - Ross Firm Group (Associate Lawyer) Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Meryam Kellow	2022-08-16	Email	Incoming	The Ministry of the Environment, Conservation and Parks (MECP) emailed the Ross Firm in response to their request for the final Environmental Study Report (ESR). MECP noted that three Section 16 Order requests were received and the ESR will be finalized once the Minister decides to elevate the project, or deny the requests. MECP noted that once the ESR is finalized, it will be made available on Hydro One's website. MECP provided the contact information for the Hydro One project lead.
Ministry of the Environment, Conservation and Parks (MECP) Ross Firm Group	Alex Bondarenko - Ross Firm Group (Associate Lawyer) Andrew Evers - Ministry of the Environment, Conservation and Parks (MECP) (Manager (A), Environmental Assessment Services) Meryam Kellow	2022-08-16	Email	Incoming	The Ross Firm emailed the Ministry of the Environment, Conservation and Parks to thank them for the update regarding the status of the Environmental Study Report.
Ministry of Tourism, Culture and Sport (MTCS)	MHSTCI Pastport Inbox - Ministry of Tourism, Culture and Sport (MTCS)	2022-08-18	Email	Incoming	The Ministry of Tourism, Culture, and Sport emailed Timmins Martelle Heritage Consultants to state that the Stage 1 Archaeological Assessment report has been entered into the Ontario Public Register of Archaeological Reports.
Caldwell First Nation Chippewas of Kettle and Stony Point First Nation IBA Braiding Ltd. Ministry of the Environment, Conservation and Parks (MECP)	Don Richardson - IBA Braiding Ltd. (Founder) Emily Ferguson Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Kathleen O'Neill - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment Branch) Kettle and Stony Point FN Consultation Inbox - Chippewas of Kettle and Stony Point First Nation (General consultation inbox) Larry Sault - Caldwell First Nation Mary Duckworth - Caldwell First Nation (Chief) Philip Lee - Southwind Development Corporation (CEO)	2022-09-12	Email	Incoming	Three Fires Group emailed the Ministry of the Environment, Conservation and Parks on behalf of the Chippewas of Kettle and Stony Point First Nation to provide a copy of their Section 16 Request Withdrawal.

Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-19	Email	Outgoing	Hydro One emailed representatives of the Municipality of Chatham-Kent as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-19	Email	Outgoing	Hydro One emailed Sumaiya Habiba of the County of Essex as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-06-19	Email	Outgoing	Hydro One emailed representatives of the Town of Lakeshore as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-23	Email	Incoming	Bruce McAllister of the Municipality of Chatham-Kent informed Hydro One that he has filled out the relevant sections of the Technical Advisory Committee survey. Mr. McAllister also indicated that Hydro One should give a brief overview presentation at the upcoming Chatham-Kent Council Meeting and noted that Councillors and the Mayor have been receiving calls from constituents about the project.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-24	Email	Outgoing	Hydro One thanked Bruce McAllister of the Municipality of Chatham-Kent for completing the Technical Advisory Committee survey and for his comments. Hydro One informed Mr. McAllister that his comments have been shared with another Hydro One staff member and that they had planned a delegation to Council in the spring before COVID-19 altered those plans. Hydro One informed Mr. McAllister that they are exploring opportunities to present at upcoming virtual council meetings.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-24	Email	Incoming	Bruce McAllister of the Municipality of Chatham-Kent thanked Hydro One for the update regarding planned outreach with Council.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-06-25	Meeting	Outgoing	A call was held with Warden McNamara and CAO Maisonville of the County of Essex to provide an update on the project and feedback received to date. It was indicated that the County would share their comments through the technical advisory meeting. Suggested that Hydro One present to County Council in the Fall.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-25	Email	Outgoing	Hydro One shared a reminder with the County of Essex to complete a survey to gather feedback on the virtual workshops.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-06-25	Email	Outgoing	Hydro One shared a reminder with the Town of Lakeshore to complete a survey to gather feedback on the virtual workshops and review the evaluation criteria.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-25	Email	Incoming	Hydro One shared a reminder with the County of Essex to complete a survey to gather feedback on the virtual workshops. The County of Essex posed a few questions and shared what they believe is valuable to consider for the Chatham x Lakeshore Project. The County stated the following: -Major concern for all route options and their variations would be the impact to County Roads during the construction of the transmission lines as well as the Lakeshore Switching Station (i.e. road closures, truck routes) -The County would need further information on a timeline for construction and staging so that we can identify any conflicting/overlapping projects (County road 42, County road 46, HWY 77) that may be impacted - Hydro One will need to determine property impacts to business owners and residents within the County based on the preferred route selection Question: Has there been any changes to the construction start time of the Lakeshore switching station that was intended to start mid 2020 due to the Covid-19 pandemic?
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-06-26	Email	Outgoing	Hydro One emailed Warden McNamara and Robert Maisonville CAO at the County of Essex to thank them for meeting. Hydro One replied to a question asked during the meeting and clarified that construction is anticipated to begin in 2024 with the line expected to be in service by the end of 2025.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-06-30	Phone	Outgoing	Hydro One had a meeting with Mayor Canniff and CAO Shropshire of the Municipality of Chatham-Kent to provide an update on the project and feedback received. Questions and comments were raised on the effects to agricultural operations, health and safety, property rights, consultation and the route alternatives. Hydro indicated they would share further information on consultation opportunities, the website URL, and evaluation of growth plans.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-06-30	Email	Outgoing	Hydro One sent an email to Chatham-Kent's Mayor, Darrin Canniff and the CAO, Don Shropshire to follow up on a phone call that took place on June 30, 2020, with information regarding on-going consultation efforts, proposed route alternatives and variations, and growth and economic development.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-06-30	Email	Outgoing	Hydro One emailed Mayor Canniff of Chatham-Kent to share the project website where residents can find the presentation materials from Hydro One's community information sessions.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-07-03	Email	Outgoing	Hydro One emailed the County of Essex to provide answers to their questions and acknowledge their feedback. Hydro One noted : - The Chatham x Lakeshore project will involve a traffic management plan to address potential impacts to the road network, and existing entrances and access routes will be used where practical - The in-service date of 2023 represents the Lakeshore TS project as a whole (ie, both the Lakeshore SS and South Middle Road TS). - Lakeshore TS: Construction is expected to be from September 2020 till the end of 2021. Commissioning activities will be ongoing in 2022 till station is completely in service in June 2022 -Neither project has not been halted or slowed as a result of the COVID-19 pandemic.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-07-06	Email	Outgoing	Hydro One emailed the administration staff of the Municipality of Chatham Kent to organize monthly meetings at the request of Mayor Canniff.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-07-10	Email	Outgoing	Hydro One contacted the Town of Lakeshore to request confirmation regarding a new street address.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-10	Email	Outgoing	Hydro One emailed Mayor Canniff and CAO Don Shropshire, to follow up on an earlier discussion regarding setting up an additional consultation opportunity for interested community members.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-07-15	Meeting	Outgoing	Hydro One met with Mayor Bain and the Director of Engineering of the Municipality of Lakeshore to provide an update on the project as well as to learn more about the growth in their community.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-07-16	Email	Outgoing	Hydro One emailed the Mayor Bain and the Director of Engineering and Infrastructure, Nelson Cavacas of the Municipality of Lakeshore to thank them for meeting. Hydro One replied to the Mayor's question regarding the Lakeshore Transmission Station, indicated that can share further information to help their office respond to any questions received from residents, and reiterated Hydro One's commitment to working with the Municipality.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-17	Email	Outgoing	Hydro One shared a letter from their Vice President of Stakeholder Relations with Mayor Canniff of the Municipality of Chatham-Kent as a follow up to his recent briefing with the Hydro One team. Hydro One offered to discuss any questions or items of interest.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-29	Phone	Outgoing	<p>Spoke with Bruce and Don regarding the Chatham to Lakeshore Line project and setting up a meeting with the Municipality to discuss growth plans.</p> <p>During the call, Don provided further context regarding the anticipated growth in the Chatham-Kent community. He indicated that in recent years they have been seeing a steady rise in growth and are in a state of transition. As a part of the meeting that we are looking to set up, Don advised that Bruce will be the main contact who will indicate who should be at the table from the Municipality.</p> <p>They advised that they have had several discussions with the IESO, as a part of their meetings, and at the time, they discussed their anticipated growth and needs. Advised that they have approved an aggressive growth strategy.</p> <p>Bruce and Don asked what information they would need to provide or have available for the meeting between Hydro One and the Municipality to discuss their anticipated growth and future needs. We advised that we would get back to them with what information would be needed.</p> <p>Additionally, as a part of our conversation, we spoke about the potential for an additional engagement opportunity. Don advised that members of council have received feedback from the community and the item that is the most prevalent is the discussion regarding the use of the railway corridor as an additional route alternative.</p> <p>During this meeting, we discussed with Don and Bruce about presenting to Council and advised that we would get back to them about proceeding with a presentation on September 14th.</p>
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville	2020-07-29	Email	Outgoing	A letter was sent to Warden McNamara and CAO Maisonville thanking Warden McNamara for meeting and Hydro One's commitment to working with the County.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-07-29	Email	Outgoing	A letter was email to Mayor Bain, CAO McBride and the Director of Infrastructure at the Municipality of Lakeshore thanking Mayor Bain for meeting and reiterating Hydro One's commitment to working with the Municipality.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-29	Email	Outgoing	Hydro One followed up on a phone conversation with Bruce McAllister of the Municipality of Chatham-Kent and Don Shropshire of the Chatham-Kent Fire and Emergency Services Department regarding the Municipality's growth plans and additional engagement opportunities. Hydro One noted that they will connect with Mr. McAllister with their team's contact details and that they would be please to present to Council once they have confirmed their availability. Hydro One noted they can draft a project update for Councillors to share.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-31	Email	Outgoing	Hydro One emailed Bruce McAllister and Don Shropshire from the Municipality of Chatham-Kent requesting any plans, reports or forecasts regarding future growth and development planned for the municipality. Hydro One also confirmed their availability for the September 14th Council meeting. Hydro One will follow up about the proposed update for distribution and will reach out to the Clerk's office.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-08-04	Email	Incoming	Mayor Canniff of the Municipality of Chatham-Kent emailed Hydro One and requested further consideration be given to using the old railway corridor. The Mayor referenced sections of the Provincial Policy Statement and requested further information on Hydro One's transmission line design as well as clarification on encroachments and system reliability. The Mayor also noted potential concerns regarding Alternative 2A and suggested further discussions.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-08-06	Email	Outgoing	Hydro One informed Don Shropshire, CAO of Chatham-Kent, that they are following up with Councillor Latimer to provide an update on conversations with local residents in the community. Hydro One requested Mr. Shropshire's availability to discuss hosting additional engagement opportunities.
Municipality of Chatham-Kent	Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services) Judy Smith - Municipality of Chatham-Kent (Director Municipal Governance/Clerk) Renee Handsor - Municipality of Chatham-Kent	2020-08-06	Email	Outgoing	Hydro One followed up with Cathy Hoffman of the Municipality of Chatham-Kent after a conversation. Hydro One indicated they will follow up regarding their suggestions for an additional engagement sessions. Hydro One thanked Ms. Hoffman for providing the contact information for the Municipal Clerk and stated they will reach out with them to prepare for the September 14th presentation.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-08-07	Email	Outgoing	Hydro One thanked Mayor Darrin Canniff of the Municipality of Chatham-Kent for his feedback and questions related to the old railway corridor. Hydro One informed Mayor Canniff that his comments and questions were shared with Hydro One's project team and they will provide an update. Hydro One provided a response to Mayor Canniff's question regarding encroachment on existing wind turbines. Hydro One indicated they are interested in learning more about the Municipality's concerns with Alternative 2A and would be happy to discuss at the next meeting.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent (Councillor, Ward 2) Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2) Trevor Thompson - Municipality of Chatham-Kent (Councillor, Ward 2)	2020-08-07	Email	Outgoing	Hydro One thanked Councillor Mary Clare Latimer of the Municipality of Chatham-Kent for the opportunity to hear about the feedback that she has received and considerations for future engagement opportunities. Hydro One noted that they will be back in touch about future engagement opportunities.
Municipality of Chatham-Kent	Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services) Judy Smith - Municipality of Chatham-Kent (Director Municipal Governance/Clerk) Meredith Cadotte - Municipality of Chatham-Kent (Council Coordinator) Renee Handsor - Municipality of Chatham-Kent	2020-08-07	Email	Outgoing	Hydro One requested availability for a quick discussion with Judy Smith of the Municipality of Chatham-Kent and noted that if unavailable, they can connect with Meredith Cadotte of the Municipality of Chatham-Kent.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development)	2020-08-11	Email	Outgoing	Hydro One emailed the County of Essex to reply to the County's previous email with comments on the project. Hydro One noted that the comments and Hydro One's responses will be documented in the Environmental Study Report and will be available for 30-day public review.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development) Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-08-11	Email	Incoming	The County of Essex emailed Hydro One and noted that they did not provide comments on the Environmental Assessment related to the transformer station and had no consultation with Hydro One on this through that process. The County of Essex noted they will be providing comments for the upcoming project moving forward.
Municipality of Chatham-Kent	Meredith Cadotte - Municipality of Chatham-Kent (Council Coordinator)	2020-08-20	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and noted they spoke with Judy Smith last week regarding the Council presentation on September 14th and followed up on logistical items ahead of the meeting.
Municipality of Chatham-Kent	Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services)	2020-08-24	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent to thank them for sharing the contact information. Hydro One also inquired whether they have a Chatham-Kent Public Health contact to discuss health and safety procedures for an in-person Community Information Centre.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant)	2020-08-24	Email	Outgoing	Hydro One emailed the Town of Lakeshore to request whether they had a contact at the Windsor-Essex County Public Health Unit with whom they could discuss health and safety policies and procedures for an in-person Community Information Centre.
Municipality of Chatham-Kent	Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services)	2020-08-24	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and clarified what information they required to be used in a future discussion between the Municipality and Hydro One.
Municipality of Chatham-Kent	Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services) Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-08-24	Email	Outgoing	Hydro One emailed Mayor Canniff of the Municipality of Chatham-Kent and informed him that the Hydro One team is currently reviewing their initial findings on the feasibility of the railway corridor as an alternative route for the new transmission line. Hydro One indicated they expect to have an update on his questions at their next meeting. Hydro One noted that they are planning an in-person Community Information Centre and they are happy to coordinate meetings with interested property owners who have been in touch with him and Councillor Latimer. Hydro One noted they will be contacting property owners to extend the invitation.
Municipality of Chatham-Kent	Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services)	2020-08-24	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent to request their input for an email response.
Municipality of Chatham-Kent	Meredith Cadotte - Municipality of Chatham-Kent (Council Coordinator)	2020-08-27	Email	Outgoing	Hydro One thanked the Municipality of Chatham-Kent for providing information and requested availability for a call and contact information.

Municipal Staff and Agencies - Record of Consultation

Hydro One provided an overview of the workshop and shared the summary memo for the first TAC workshop and the TAC Feedback Criteria Analysis. Hydro One requested confirmation of attendance for the workshop.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-09-09	Phone	Outgoing	Hydro One had a phone call with Mayor Canniff and the CAO of Chatham-Kent where they provided an update on Hydro One's re-analysis of using the railway as a potential route alternative, as well as an update on the upcoming community information sessions and project next steps.
Municipality of Chatham-Kent	Quentin Forgie - Municipality of Chatham-Kent (IT) Ryan Mendonca - Municipality of Chatham-Kent (IT Specialist)	2020-09-09	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested confirmation for presentation logistics. Hydro One also requested that future emails include the identified staff member.
Municipality of Chatham-Kent	Judy Smith - Municipality of Chatham-Kent (Director Municipal Governance/Clerk) Meredith Cadotte - Municipality of Chatham-Kent (Council Coordinator)	2020-09-11	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested confirmation of logistics for the upcoming Council presentation.
Municipality of Chatham-Kent	Quentin Forgie - Municipality of Chatham-Kent (IT) Ryan Mendonca - Municipality of Chatham-Kent (IT Specialist)	2020-09-11	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent to request confirmation on the presentation link.
Municipality of Chatham-Kent	Meredith Cadotte - Municipality of Chatham-Kent (Council Coordinator)	2020-09-11	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and shared a revised presentation and noted that the project website was added to a slide.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-09-14	Phone	Outgoing	Hydro One spoke with Don Shropshire, CAO of the The Municipality of Chatham-Kent to confirm receipt of an email and speak to Hydro One's plans for their next public engagement sessions.
Municipality of Chatham-Kent	Quentin Forgie - Municipality of Chatham-Kent (IT) Ryan Mendonca	2020-09-14	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and provided the requested contact information.
Municipality of Chatham-Kent	Meredith Cadotte - Municipality of Chatham-Kent (Council Coordinator)	2020-09-14	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and thanked them for confirming they will use the revised presentation. Hydro One inquired about presentation logistics.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Renee Handsor - Municipality of Chatham-Kent	2020-09-14	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and provided an update regarding the upcoming public engagement sessions that Hydro One is planning.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-09-18	Phone	Outgoing	Hydro One met with Mayor Canniff and CAO of the Municipality of Chatham Kent to share an update on the project and community engagements. Hydro One committed to setting up a meeting with the Municipality to discuss future growth and to discuss opportunities to create additional community touch points.

Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Cathy Hoffman Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-06	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One to confirm availability for a meeting.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-06	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One to confirm attendees for an upcoming meeting/conference call.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-06	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent to thank them for the confirmation and to note the invitation would be sent shortly.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-07	Meeting		Hydro One informed Mayor Canniff and CAO of the Municipality of Chatham-Kent of the results of Hydro One's former rail corridor re-analysis. Hydro One committed to drafting formal communications to be sent to council.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-07	Meeting	Outgoing	Hydro One met with the Mayor and Chief Administrative Officer of the Municipality of Chatham-Kent. Hydro One provided a walkthrough of the railway corridor assessment and an overview of upcoming public engagement plans. Hydro One committed to sharing the presentation deck.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-08	Phone	Outgoing	<p>Hydro One staff had a conference call with the Chatham-Kent Director of Planning Bruce McAllister and his staff to discuss the Chatham x Lakeshore project, and in particular some previous comments from Bruce relating to forecast growth to the southwest of Chatham. Bruce relayed some concerns regarding current and forecast growth in the southwest quadrant of Chatham, including areas identified as potential commercial/industrial land uses in the future. Bruce reiterated that most of the concerns revolved around sections of routes 2A and 2B.</p> <p>Hydro One and Dillon staff gave a quick rundown of the land use and planning information collected to date, which largely encompassed the information publicly available online, and stated that they were happy to take additional information into consideration, if Chatham-Kent planning staff could provide it. Bruce stated that some future growth information was not yet fully formalized or mapped out, but that he would review and provide information as appropriate. Paul confirmed that any info Bruce could provide would be incorporated into the route evaluation, through the "Future Land Uses" criterion.</p> <p>Bruce mentioned some other potential growth areas near Bloomfield Rd/401 area and south portion of Tilbury. He also asked whether the Hydro One team had encountered any other data gaps in the Chatham-Kent area, for example in collecting information on the natural environment features within the Municipality. Paul stated that they had collected available desktop information as well as conducting the natural environment field program, but had not received formal comments (beyond simple acknowledgement) from the Lower Thames Valley CA.</p> <p>On the topic of future growth, Paul and Mehrgan reiterated that while future land use information provided would be considered during the route evaluation and selection, that a 230 kV transmission line could be seen as a benefit to future energy-intensive land uses (via potential to connect a new step-down transformer station, if required in the future). Paul also noted the existing 115 kV transmission line which traverses built-up areas in Chatham was an example of how land use change around an existing transmission line can be successfully planned without conflicts, as long as the transmission line ROW is respected.</p>
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-08	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and Dillon Consulting Limited the requested land use information, including maps, a potential future growth location and a land use schedule.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-09	Email	Outgoing	Dillon Consulting Limited emailed the Municipality of Chatham-Kent to thank them for providing the additional information and for the call the day before.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-09	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent to thank them for providing the additional information and for the call the day before.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-10-09	Email	Outgoing	Hydro One staff emailed Town of Lakeshore staff and reiterated that as per feedback received through the TAC, Hydro One would be adding a criterion to assess effects to Future Land Uses as part of the route evaluation. Hydro One staff requested any plans or information that lakeshore staff could provide to help inform this criterion, and noted that a discussion had recently been held with staff from the Municipality of Chatham-Kent to discuss and specify Future Land Use planning areas for consideration in the route evaluation. Hydro One noted that they had already collected the publicly available land use planning information for the Town of Lakeshore, but wanted to see if Lakeshore staff could share any further information. Hydro One staff offered to arrange a conference call to discuss further.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-13	Email	Outgoing	Hydro One emailed Mayor Canniff of the Municipality of Chatham-Kent to thank him for the opportunity to meet and review the project team's findings of the reassessment of the railroad corridor. Hydro One thanked Mayor Canniff for both his and Council's feedback and shared a letter and presentation outlining the railroad analysis. Hydro One requested for this information to be distributed amongst Council and noted that they will be meeting with property owners and will discuss the findings at this time.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-14	Email	Outgoing	Hydro One emailed Mayor Canniff and staff of the Municipality of Chatham-Kent and shared a previously sent email with attachments for the railroad analysis. Hydro One noted the email had been sent to the general email address and they wanted to send to the direct accounts.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-15	Email	Outgoing	Hydro One emailed Mayor Canniff and the CAO of the Municipality of Chatham-Kent to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One indicated they will inform property owners by issuing an update to the contact list and at the two upcoming virtual engagement opportunities.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-10-15	Email	Outgoing	Hydro One emailed Mayor Bain and CAO of the Municipality of Lakeshore to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One indicated they will inform property owners by issuing an update to the contact list and at the two upcoming virtual engagement opportunities.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-10-15	Email	Outgoing	Hydro One emailed Warden McNamara and CAO Maisonville of the County of Essex to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One indicated they will inform property owners by issuing an update through the project contact list, a mailed notice as well as two upcoming virtual engagement opportunities.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-22	Email	Outgoing	Hydro One emailed Mayor Canniff and CAO of the Municipality of Chatham-Kent to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-10-22	Email	Outgoing	Hydro One emailed Mayor Bain and CAO of the Municipality of Lakeshore to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-10-22	Email	Outgoing	Hydro One emailed Warden McNamara and CAO Maisonville of the County of Essex to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) Renee Handsor - Municipality of Chatham-Kent	2020-10-23	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One to thank them for sharing the upcoming public engagement events for the project.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (CAO)	2020-10-26	Email	Outgoing	Hydro One emailed Mayor Santos and the CAO of the Town of Kingsville and provided the invitation to the two upcoming engagement events for the project. Hydro One provided the links to the virtual open house and the live streaming presentation. Hydro One noted that based on what they have learned, they have made four refinements to the routes and have identified the need to expand their Chatham Switching Station. Hydro One requested that the notice be shared across communication channels and networks.
Municipality of Leamington	Hilda MacDonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-10-26	Email	Outgoing	Hydro One emailed Mayor Macdonald and the CAO of the Municipality of Leamington and provided the invitation to the two upcoming engagement events for the project. Hydro One provided the links to the virtual open house and the live streaming presentation. Hydro One noted that based on what they have learned, they have made four refinements to the routes and have identified the need to expand their Chatham Switching Station. Hydro One requested that the notice be shared across communication channels and networks.
County of Essex	Jane Mustac - County of Essex (Director of Infrastructure)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore Fire Services	Don Williamson - Municipality of Lakeshore Fire Services	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Bonnie Clark - Municipality of Lakeshore	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Environmental Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
County of Essex	Mary Birch - County of Essex (Director of Council and Community Services/Clerk)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Jerry Corso - Municipality of Chatham-Kent (Manager Public Works)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Chris Thibert - Municipality of Chatham-Kent (Director Engineering)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Katerina Oliver - Municipality of Chatham-Kent (Drainage Superintendent)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Brianna Coughlin - Municipality of Lakeshore (Clerk)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Tim Dick - Municipality of Chatham-Kent (Director, Drainage, Waste and Asset Management)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.

The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Chris Case - Municipality of Chatham-Kent (Fire Chief)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Chatham-Kent	Judy Smith - Municipality of Chatham-Kent (Director Municipal Governance/Clerk)	2020-10-26	Smart email	Outgoing	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist)	2020-10-26	Email	Incoming	The Town of Lakeshore emailed Hydro One and informed them that the invitation for the upcoming virtual Community Information Centre will be circulated amongst staff and that they will review and provide comment if necessary.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist)	2020-10-27	Email	Outgoing	Hydro One staff emailed the Town of Lakeshore and informed them that the notice was circulated to other staff. Hydro One staff also reiterated the request stated in a previous email for Town of Lakeshore staff to provide any information on future land use plans/proposals that should be considered. Hydro One staff noted again that the project team had already collected publicly available information, but offered to arrange a discussion if there were any further information or context that Lakeshore staff felt should be considered in the route evaluation.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-30	Email	Outgoing	Hydro One emailed Mayor Canniff of the Municipality of Chatham-Kent and indicated that the Virtual Open House is now live. It was noted that registration for the live discussion has also opened and that notices for both events were distributed. Hydro One informed Mayor Canniff that they will be reaching out to book the next touchpoint.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-10-30	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and inquired about availability for a touchpoint with Mayor Canniff and the Chief Administrative Officer.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-11-20	Meeting	Outgoing	Hydro One met with Mayor Canniff and the CAO of the Municipality of Chatham-Kent to provide a project update, which included sharing information on the route refinements, community engagements sessions and community benefits.
County of Essex	Gary McNamara - County of Essex (Warden) Mary Birch - County of Essex (Director of Council and Community Services/Clerk)	2020-11-20	Email	Outgoing	Hydro One emailed Warden McNamara of the County of Essex and thanked him for the opportunity to provide an update on the project. A letter to Essex County Council was included with the email.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-12-01	Email	Outgoing	Hydro One emailed Mayor and CAO of the Municipality of Chatham-Kent and shared more information on a new community fund.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-12-01	Email	Outgoing	Hydro One emailed Warden McNamara and CAO Maisonville of County of Essex and shared information on a new community fund.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-12-02	Email	Outgoing	Hydro One emailed Mayor Bain of the Municipality of Lakeshore and shared information on a new community fund.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-01-15	Email	Incoming	Hydro One email the Municipality of Chatham-Kent's Chief Administrative Officer (CAO) regarding their community partnerships opportunities. The CAO noted that a letter is being prepared for Hydro One's consideration.

The summary materials from the previous TAC meeting was also shared with TAC members.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) Renee Handsor - Municipality of Chatham-Kent	2021-02-11	Email	Incoming	Hydro One was emailed a correspondence from Mayor Canniff of the Municipality of Chatham-Kent regarding a community grant.
County of Essex	Gary McNamara - County of Essex (Warden) Mike Galloway - County of Essex (Chief Administrative Officer (CAO)) Robert Maisonville - County of Essex (Chief Administrative Officer)	2021-02-17	Meeting		Hydro One had a meeting with municipal staff/officials from the County of Essex and provided a briefing on the selection of the preferred route and next steps in the process. The discussion included community investment and road access. Hydro One committed to sending the materials and the invitation in order for these items to be shared on the County's website.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-02-17	Meeting		Hydro One met with Mayor Canniff and the Chief Administrative Officer from the Municipality of Chatham-Kent and provided a briefing on the selection of the preferred route and next steps in the process. The Municipality asked whether property owners are aware of the selection and Hydro One indicated they will receive notice in the mail and they are also offering a briefing with Councillors. The discussion also included First Nations communities and compensation, opportunities to run fibre and community concerns.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
County of Essex	Gary McNamara - County of Essex (Warden) Mike Galloway - County of Essex (Chief Administrative Officer (CAO)) Robert Maisonville - County of Essex (Chief Administrative Officer)	2021-02-17	Meeting	Outgoing	Hydro One met with the Warden McNamara and the new and former Chief Administrative Officer of the County of Essex to share further information on the selected preferred route. The County inquired about access to County roads and Hydro One indicated details will be determined upon finalization of the design, however, Hydro One would seek to protect the road network and municipal drainage. The County advised Hydro One that information regarding the upcoming public engagement can be shared on their website once available.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-02-19	Meeting		Hydro One had a meeting with Mayor Bain and the Chief Administrative Officer for the Municipality of Lakeshore and provided a briefing on the selection of the preferred route and next steps in the process. The discussion included the location of a national historic site that was identified as part of Hydro One's route evaluation, the proximity of the route to Comber in relation to a previous development proposed in the area, and the number of participants in the area.
County of Essex	Gary McNamara - County of Essex (Warden) Mike Galloway - County of Essex (Chief Administrative Officer (CAO)) Robert Maisonville - County of Essex (Chief Administrative Officer)	2021-02-22	Email	Outgoing	Hydro One emailed Warden McNamara, CAO and former CAO of County of Essex and shared the presentation slides from the meeting, as well as the invitation for the upcoming Open House and Live Discussion.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-02-22	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and shared the presentation slides from the meeting, as well as the invitation to the upcoming Open House and Live Discussion.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-02-22	Email	Outgoing	Hydro One emailed Mayor Bain and CAO of the Municipality of Lakeshore and shared the presentation slides from the meeting, as well as the invitation to the upcoming Open House and Live Discussion.

Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Judy Smith - Municipality of Chatham-Kent (Director Municipal Governance/Clerk)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
County of Essex	Robert Ventura - County of Essex (Environmental Coordinator)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-02-25	Smart email	Outgoing	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2021-02-26	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and informed Hydro One that the update on the preferred route selection and upcoming Virtual Open House and Live Discussion invitation has been shared with Municipal staff. The Municipality also informed Hydro One of a staff change.
Municipality of Chatham-Kent	Gord Quinton - Municipality of Chatham-Kent (General Manager/Chief Financial Officer: Finance, Budget, Information Technology and Transformation)	2021-02-26	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and thanked them for sharing the additional materials. It was noted that this information would be shared with the project team and they would get back to the Municipality.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-01	Meeting	Outgoing	<p>Hydro One staff held a virtual webex meeting with Municipality of Lakeshore staff to discuss concerns raised by the Municipality regarding the selection of route 2A for the new Chatham x Lakeshore Transmission Line. Lakeshore staff raised concerns regarding the route traversing current commercial/industrial land uses as well as future/potential future development expansion in north Comber. Lakeshore staff asked questions regarding the identification and selection of the preferred route, design options, and upcoming Real Estate processes.</p> <p>Lakeshore stated that they did not currently support the selection of Route 2A for the effects to existing and future/potential future land uses, and Hydro One staff responded that land uses had been taken into consideration during the route evaluation and noted that overhead transmission corridors are not a barrier to future development in practice and there are many examples of both commercial/industrial and residential development occurring around such corridors.</p> <p>Hydro One staff stated that they would continue to work closely with Lakeshore staff to discuss and address their concerns going forward.</p>
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-03	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and thanked them for meeting to discuss their concerns regarding Comber. The Municipality informed Hydro One that they remain opposed to the location of the preferred route through Comber.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-03	Email	Incoming	The CAO of Municipality of Lakeshore emailed Hydro One requesting a meeting with Councillor McKinlay and the Hydro One team.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-03	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and indicated they would be happy to meet with Councillor McKinlay and will be in touch shortly.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-04	Meeting	Incoming	<p>Hydro One staff had a webex meeting with Municipality of Chatham-Kent Manager of Community Development Bruce McAllister, to discuss some concerns that C-K staff had with the proposed route 2A. Bruce stated that he understood the rationale for the selection of Route 2A, but wanted to discuss some areas identified by C-K as future land use plan areas. Bruce noted the properties where Route 2A departs from the idle line corridor, which he had previously identified in discussions with Hydro One. Paul stated that as a result of the feedback gathered from Bruce and other Municipal staff, a criterion for Future Land Uses had been added to the evaluation and that these lands identified by Bruce had been considered and Route 2A had been penalized in this category for traversing them. Bruce asked if there were minor refinements that could be made to the route that would leave larger portions of this parcel intact, as it was suitable for use as a potential industrial property. Paul stated that they would consider this, but could not make any major refinements that introduced new properties or other significant effects.</p> <p>Bruce also mentioned that the southwest Chatham area was rapidly growing and that the Mayor and Councilors had raised some concern over the preferred route as a potential barrier to this growth. Bruce identified that Indian Creek Road was identified for potential expansion westward, and wondered if there was a way to adjust this alignment. Paul stated that the Hydro One team would consider Bruce's comments but reiterated that they could likely not make any major refinements that introduced new properties or other significant effects.</p> <p>Paul stated that while he understood Bruce's concerns, and had taken them into consideration, but that overhead transmission lines were not necessarily a barrier to new development and growth and in several locations throughout the province, growth and new development were actively occurring around transmission corridors. Paul also stated that there were compatible uses with overhead transmission corridors, such as green spaces or trails.</p> <p>Bruce asked some additional questions about the idle transmission line, and the section that traversed through Chatham, and Paul stated he would have to confirm and would circle back.</p>
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-04	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and shared maps for the upcoming discussion.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-04	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore regarding logistics for a meeting with Councillor McKinlay.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent (Councillor, Ward 2) Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-05	Email	Outgoing	Hydro One emailed Councillor Ceccacci of the Municipality of Chatham-Kent and informed him of the meeting that took place between the project team and Municipal staff. Hydro One noted that they will provide an update shortly.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-08	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested availability for a quick discussion.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-08	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and thanked them for their comments. Hydro One provided more insight into the preferred route relative to Comber. Hydro One offered to work with the Municipality to potentially accommodate planned/future facilities in the area and requested availability for a meeting.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-08	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One regarding timing for an upcoming meeting.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-08	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and informed them that the meeting invitation has been sent out.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-03-09	Phone		Hydro One had a call with Mayor Caniff, CAO, and Manager of Community Development for the Municipality of Chatham-Kent regarding Route 2A and the Municipality's future growth plans.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-03-09	Phone	Outgoing	Hydro One staff had a brief conference call with the Mayor, CAO and Manager of Community Development for the Municipality of Chatham-Kent, to provide an update on some earlier discussions regarding future growth plans in Chatham-Kent and potential opportunities for Hydro One and the Municipality to work forward together to incorporate the growth plans for these areas as they develop.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-10	Meeting	Outgoing	Hydro One staff met with the Chatham-Kent Manager of Community Development (Bruce McAllister) to follow up on the previous day's discussion regarding preferred Route 2A. Hydro One staff reiterated that they would consider the request regarding parcels along Queen's Line, and also reiterated the commitment to plan around the Bloomfield road reconstruction and potential Indian Creek Road extension via tower placement. Bruce mentioned that the Indian Creek future road allowance could tentatively be assumed to be approximately 30m wide, and that the future Bloomfield Road allowance may be approximately 35m wide. Bruce also mentioned that the Chinnick Drain had recently had work carried out under the Drainage Act, and requested that this drain be protected to the extent possible. Paul stated that he would take this back but was confident that the drain could be spanned by the new line and the channel largely avoided during construction. Other discussion items included potential future development areas/demand growth areas in Chatham-Kent, and the potential for Hydro One to discuss the project further with local Councillors and landowners, which Hydro One staff stated that they would be doing in the near future.
Municipality of Chatham-Kent	Gord Quinton - Municipality of Chatham-Kent (General Manager/Chief Financial Officer: Finance, Budget, Information Technology and Transformation)	2021-03-10	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested availability for a meeting.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-10	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and inquired whether they had any interest in discussing the project further at this time.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-10	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and shared a communication sent to Council for Hydro One's reference. The Municipality indicated it would be best to engage all of Council prior to arranging specific meetings with just the Ward Councillors.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-12	Meeting		Hydro One met Mayor Bain, Councillor McKinlay, Councillor Walstedt, and the CAO from the Municipality of Lakeshore to provide an overview of how the preferred route was selected and next steps. The Municipality informed Hydro One that community members are compiling a list of comments, and residents have asked whether the selected route can be modified. Hydro One indicated that they were confident in the analysis that was conducted to select the preferred route, and that they would work directly with landowners on a property-by-property to look for opportunities to mitigate impacts. The Municipality noted concerns with the future development of Comber, and Hydro One indicated that it is common throughout the province for new commercial/industrial development to be built around and integrate with occur around overhead transmission lines. Other items discussed during the meeting included the project need, consultation with First Nations communities, the feasibility of burying transmission lines and conversations with impacted landowners.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-12	Email	Incoming	The Drainage Superintendent for the Municipality of Chatham-Kent emailed Hydro One and requested to be involved when the tower locations have been identified.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-15	Email	Outgoing	Hydro One emailed Mayor Bain and Councillors from the Municipality of Lakeshore and thanked them for the meeting. Hydro One shared the presentation slides and Community Relations contact information for their constituents.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-15	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and informed them of the information they have on Municipal drainage infrastructure. Hydro One requested that if they have other information they can provide to help in the consideration of Municipal Drains. Hydro One offered to discuss the project further with them and indicated they have been included on the distribution list.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-15	Email	Outgoing	Hydro One emailed the Chief Administrative Officer of the Municipality of Lakeshore regarding logistics for an upcoming call.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-16	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and requested a pdf with the running line.
Municipality of Chatham-Kent Ontario Federation of Agriculture	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2) Walter Charbonneau	2021-03-16	Email	Outgoing	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and a local landowner, and informed them that they will look into sending the hard copy maps as requested.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-18	Phone		Hydro One had a phone conversation with the Chief Administrative Officer for the Municipality of Lakeshore regarding support and feedback for the project.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-18	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and thanked them for notifying them of the website issue. Hydro One indicated it has been fixed and provided the webpage link for them to download the maps of the preferred route and to see the interactive map.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-03-24	Phone	Incoming	Sydnee called Paul to arrange a follow-up meeting between the Hydro One project team and Municipality of Lakeshore staff. Sydnee stated that she would schedule the meeting, and Paul stated that he would email Sydnee with a list of Hydro One staff who should be invited.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-03-24	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and provided the list of staff members who will attend the upcoming follow-up meeting.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-03-24	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and indicated that the meeting invitation will be sent shortly.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Melissa Harrigan - Municipality of Chatham-Kent (Councillor, Ward 1)	2021-03-26	Email	Outgoing	Hydro One responded to Councillor Harrigan of the Municipality of Chatham-Kent's question and shared information on Hydro One's Land Acquisition Compensation Principles. Hydro One shared the recording and presentation link to the virtual Live Discussion.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-31	Meeting	Outgoing	<p>Lakeshore staff welcomed the Hydro One team and thanked Hydro One for following up and arranging the subsequent meeting.</p> <p>Paul reiterated the message conveyed in his previous email, that the large route diversions that had been proposed (following other existing transmission lines and Rochester Townline road) could not be considered as these diversions would introduce significant new effects to properties, structures and agricultural fields, as well as technical challenges such as crossings of existing transmission lines. Paul stated that he preferred route had been selected and Hydro One intended to pursue this route. At Tony' request, Paul clarified that the ROW width was currently anticipated to be approximately 150 feet or 46m total (23m from centreline on either side) and that tower spans depended on final design, but would likely be approximately 280m.</p> <p>Tony asked if real estate rights still needed to be obtained, and Jamie noted that outreach to directly affected property owners had begun. Tony asked what restrictions existed within the ROW itself; Jamie stated that generally, buildings and structures were not permitted within the ROW, and other uses (such as stockpiling) were subject to height restrictions, but that secondary land uses including for commercial facilities were common. Tony asked how close building could be constructed to the ROW, and Jamie stated that in most cases, buildings could be constructed right up to the ROW, and this had been done in some other areas.</p> <p>Paul noted that while the preferred route had been selected and Hydro One intended to proceed accordingly, that the Hydro One team wanted to work with the Municipality to potentially find ways to address some of these concerns being raised by the Municipality staff, without introducing additional properties or effects to the project. Paul mentioned the potential for small alignments within the property fabric and used the example of potential to better align with Knapp road, if that is something the Municipality deemed desirable, and also the potential strategic placement of structures (barring corners or angles, which required structures). Paul reiterated that any further information on the Municipality's proposed plans for the area would be helpful to the Hydro One team in trying to identify such opportunities where they might exist.</p> <p>Paul also stated that the Hydro One team recognized the proximity of the preferred route to Comber and these future growth areas, and would also be amenable to discussing and pursuing potential opportunities for community benefits or givebacks as part of the project. Dana mentioned that this could include things like funding for trails or park enhancement, and was open to suggestions or ideas from the Municipality on what opportunities could be pursued.</p> <p>Tony gave some further context on potential future uses for the area, noting that the lands around the 401 interchange were highly sought after for their proximity to the highway. Tony mentioned that the Municipality foresaw extensive growth and development in this area once other servicing (particularly wastewater infrastructure) could be addressed. Examples included potential hotels, industrial uses, and potential future condominiums and other future residential uses subject to zoning amendments.</p>
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-06	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested contact information of real estate staff.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-06	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and informed them that a note has been sent to their Director of Financial Services who oversees property and real estate and the Municipality will follow up with Hydro One once they hear back.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-07	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested shapefiles associated with the Bloomfield Road reconstruction/extension.
Municipality of Chatham-Kent	Amy Mclellan Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Dave Taylor	2021-04-07	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and shared the contact information for the requested staff members.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Melissa Harrigan - Municipality of Chatham-Kent (Councillor, Ward 1)	2021-04-07	Email	Outgoing	Hydro One emailed Councillor Harrigan of the Municipality of Chatham-Kent and informed the Councillor that a voicemail was left regarding clarification around Hydro One's land acquisition compensation principles. Hydro One noted that they are happy to connect with the landowner regarding their property.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-07	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and shared a shapefile and drawings for Hydro One's reference. The Municipality requested a copy of the Environmental Assessment document related to this work.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-14	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and provided a link to a file transfer site where Municipal staff could upload the Western Transportation Link EA document, for consideration by the CxL design team. Hydro One inquired whether the provided maps for future growth planning study areas can be shared with local residents/farmers.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-04-15	Phone	Outgoing	Hydro One called the Municipality of Chatham-Kent to confirm whether they required more information as they continue to have conversations with residents. The Municipality provided an overview of recent conversations with residents and noted their concerns, including the potential loss in contracts and proposed alternative route options. Hydro One noted they will meet with the resident directly and will be back in touch to share further information.
Municipality of Lakeshore	Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-04-16	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and shared the Municipality's formal response opposing the chosen preferred route.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-04-19	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and shared a list of tile drains and the link to the drainage mapping system. The Municipality also noted that most property owners are concerned about the drains. The Municipality also offered to share their Engineer reports for the drains.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-04-19	Phone		Hydro One spoke with the Chief Administrative Officer of the Municipality of Lakeshore regarding Council's and residents' perspective on the line
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) Renee Handsor - Municipality of Chatham-Kent	2021-04-20	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested availability for the upcoming monthly touchpoint with the Mayor and Chief Administrative Officer.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-04-21	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and informed them that the information has been shared with the engineering firms involved in the design work. Hydro One noted that the importance of tile and municipal drainage infrastructure is an important consideration as they continue planning this project. Hydro One requested for any further information along the route and any thoughts or past experience on how to best protect Municipal drains. Hydro One informed the Municipality that they will keep them in the loop and work with the Municipality as they progress through design and planning for the project. Hydro One offered to arrange a virtual meeting.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) LaVahn Vanderkley - Municipality of Chatham-Kent (Administrative Assistant II for CAO/Mayor's Office) Renee Handsor - Municipality of Chatham-Kent	2021-04-22	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and provided a meeting date. Hydro One requested this date be kept as a placeholder until confirmation has been received.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) LaVahn Vanderkley - Municipality of Chatham-Kent (Administrative Assistant II for CAO/Mayor's Office) Renee Handsor - Municipality of Chatham-Kent	2021-04-26	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and confirmed the date for an upcoming touchpoint meeting. Hydro One informed the Municipality that the invitation will be sent shortly and asked for availability for the next touchpoint.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) LaVahn Vanderkley - Municipality of Chatham-Kent (Administrative Assistant II for CAO/Mayor's Office) Renee Handsor - Municipality of Chatham-Kent	2021-04-27	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and noted that they will get back to the Municipality with their availability.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-03	Phone		Hydro One staff had a call with CAO Truper McBride to discuss the upcoming meeting planned with the Mayor, Deputy Mayor and CAO. The discussion included a focus on reviewing benefits/opportunities of the line and route diversions that had been proposed.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-04	Meeting		Hydro One met with Mayor Bain, Deputy Mayor Bailey and CAO Truper of the Municipality of Lakeshore to address questions raised regarding the preferred route. Hydro One provided further information on route diversions and supporting community growth/development. Other items of discussion raised included setback requirements for transmission infrastructure and electric and magnetic fields (EMF).
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-05	Phone		Hydro One staff had a call with the Lakeshore CAO. Feedback was provided on the meeting held the previous day, and the CAO passed along some requests for the upcoming Council meeting and suggested some additional meetings to discuss the project beforehand.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Renee Handsor - Municipality of Chatham-Kent	2021-05-05	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested availability for a call to provide further information related to a landowner's proposal.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-05	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and requested shapefiles of the Municipal drains and any other information they can provide.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-06	Phone	Outgoing	Hydro One had a call with the Chief Administrative Officer of the Municipality of Chatham-Kent. Hydro One provided an update on the proposed refinement from a landowner. A video series highlighting the investments in the region, and the Environmental Study Report were also discussed.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Sydney Rivest - Municipality of Lakeshore (Engineering Technologist) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-06	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and shared a response to the letter received from the Municipality on April 16, 2021.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-07	Email	Outgoing	Hydro One emailed the Chief Administrative Officer for the Municipality of Chatham-Kent and provided details on the Draft Environmental Study Report and the video series on Hydro One investments in Ontario.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-07	Email	Incoming	The Municipality of Chatham-Kent emailed Hydro One and shared drains within the study area. The Municipality noted that they do not have the shapefiles but have provided the available Engineer Reports and will provide the outstanding documents soon. The Municipality indicated they will need to work with Hydro One to ensure towers are not located near an open or closed drain.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-07	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and thanked them for providing the information on drains. Hydro One indicated that if the Municipality is able to provide any additional information, they will ensure it is considered. Hydro One noted that they will follow up when more detailed information is available to share.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-14	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and shared two additional drain reports. The Municipality informed Hydro One that they have passed on Hydro One's information to another individual who may send additional drainage information.
Municipality of Chatham-Kent	Elen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-14	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and thanked the Municipality for providing the drain information. Hydro One noted that if the Municipality or colleague has any additional information to provide or wishes to discuss the project, Hydro One is available to discuss.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-14	Phone		Hydro One had a call with the Chief Administrative Officer for the Municipality of Chatham-Kent and Hydro One inquired about any recent feedback from property owners. Discussions also included potential participation in preparing video content to outline the benefits of the line.
Municipality of Lakeshore	Andrew Neely - Municipality of Lakeshore (Assistant Drainage Superintendent) Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services)	2021-05-17	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and informed them that Hydro One is now commencing design and construction planning. Hydro One requested Engineer's reports, spatial information and any other information on Municipal drains traversed by the preferred route. Hydro One provided a list of drains crossed by the preferred route and requested confirmation of any additional drains.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Kyle Emery - Municipality of Lakeshore (Assistant Drainage Superintendent) Lauren Colenutt - Municipality of Lakeshore	2021-05-17	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and informed them of staff changes. The Municipality indicated they will forward the requested drainage reports.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Kyle Emery - Municipality of Lakeshore (Assistant Drainage Superintendent) Lauren Colenutt - Municipality of Lakeshore	2021-05-17	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and thanked the Municipality for clarifying the staff changes. Hydro One noted they appreciate any information that can be provided.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-18	Meeting		Hydro One staff held a webex meeting with Mayor Bain, Deputy Mayor Bailey, and CAO McBride of the Municipality of Lakeshore to discuss the upcoming Council meeting on May 25 and present the information and materials that had been revised to incorporate feedback from the previous meeting. Hydro One staff presented the overview of the route diversions requested by Lakeshore and explained the additional impacts that would be associated with each. Hydro One also presented examples of other areas where commercial, industrial and residential development had successfully occurred around or within transmission line ROWs, and mentioned Hydro One's interest in identifying potential community benefits opportunities as part of the Chatham x Lakeshore project. Lakeshore officials asked questions regarding the general progress of real estate negotiations, and timelines for potential community benefit opportunities.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-19	Email	Incoming	Municipality of Lakeshore staff sent a second tranche of Municipal Drain information and reports to Hydro One.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-19	Email	Incoming	Municipality of Lakeshore staff provided some information on Municipal drains via a file exchange link, and stated that more information on additional drains would be sent shortly
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-19	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore to confirm they have received information on Municipal drains. Hydro One thanked the Municipality and noted this information has been shared with the engineering and design team.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-20	Email	Incoming	Municipality of Lakeshore staff emailed to provide a third tranche of information on Municipal drains in the area to Hydro One.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-20	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and indicated they will share the reports by that afternoon.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-21	Meeting		Hydro One team had a meeting with Mayor Canniff and the Chief Administrative Officer from the Municipality of Chatham-Kent. During the meeting, Hydro One provided an update on fiber option capability on towers, shared an update on meeting with local property owners, and followed up on a discussion regarding community investments.
Municipality of Lakeshore	John Kerr - Municipality of Lakeshore (Councillor, Ward 4) Kelsey Santarossa - Municipality of Lakeshore (Councillor, Ward 3) Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Len Janisse - Municipality of Lakeshore (Councillor Ward 2) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Steven Wilder - Municipality of Lakeshore (Councillor Ward 1) Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-25	Meeting		Daniel Levitan, Vice President of Stakeholder Relations and Sonny Karunakaran, Director of Strategic Projects with Hydro One Inc. provided a presentation to discuss concerns raised by the Municipality of Lakeshore regarding potential impacts to future and existing development as well as agricultural lands along the preferred route. The presentation also focused on sharing Hydro One's findings of two route diversions suggested by the municipality. Following the presentation, several questions were raised by council members regarding project consultation during the EA, ability to incorporate Hydro One's infrastructure with future planning, the land acquisition process and status and the conclusions of the route diversion analysis.
Municipality of Lakeshore	Brianna Coughlin - Municipality of Lakeshore (Clerk) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services)	2021-05-27	Email	Incoming	The Municipality of Lakeshore emailed Dillon Consulting Limited in response to the summary outlining the distribution of the Environmental Study Report (ESR) during the public review period. The Municipality provided clarification regarding a location for the distribution of the ESR.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-06-01	Email	Outgoing	Hydro One emailed the Municipality of Chatham-Kent and followed up with information regarding the installation of broadband capability. Hydro One also provided information on the proposed route diversion.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-06-04	Email	Outgoing	Hydro One emailed Mayor Bain of the Municipality of Lakeshore and shared the Notice of Draft Environmental Study Report.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-06-04	Email	Outgoing	Hydro One emailed Mayor Canniff of the Municipality of Chatham-Kent and shared the Notice of Draft Environmental Study Report.
County of Essex	Gary McNamara - County of Essex (Warden) Mike Galloway - County of Essex (Chief Administrative Officer (CAO))	2021-06-04	Email	Outgoing	Hydro One emailed Warden McNamara of the County of Essex and shared the Notice of Draft Environmental Study Report.
Town of Kingsville	Inbox CAO Town of Kingsville Nelson Santos - Town of Kingsville (Mayor)	2021-06-04	Email	Outgoing	Hydro One emailed Mayor Santos of the Town of Kingsville and shared the Notice of Draft Environmental Study Report.
Municipality of Leamington	Hilda MacDonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2021-06-04	Email	Outgoing	Hydro One emailed Mayor MacDonald of the Municipality of Leamington and shared the Notice of Draft Environmental Study Report.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-06-04	Email	Outgoing	Hydro One emailed the CAO of the Municipality of Chatham-Kent and informed them that the Notice of the Draft Environmental Study Report has been shared with the identified Ward Councillors. Hydro One confirmed the communication can be shared more widely with other Ward Councillors. The Notice was shared with the CAO.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-06-04	Email	Incoming	The CAO of the Municipality of Chatham-Kent emailed Hydro One and thanked them for the update.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Kyle Emery - Municipality of Lakeshore (Assistant Drainage Superintendent) Lauren Colenutt - Municipality of Lakeshore	2021-06-09	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and inquired whether any Municipal drains in the area would not be represented on the online mapping tools.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Kyle Emery - Municipality of Lakeshore (Assistant Drainage Superintendent) Lauren Colenutt - Municipality of Lakeshore	2021-06-09	Email	Incoming	The Municipality of Lakeshore emailed Hydro One and indicated the Municipality's GIS mapping is up-to-date.

Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2) Rick & Fredericka "Ricka" Heinhuis	2020-11-16	Email	Outgoing	Hydro One emailed a member of the public and Councillor Latimer regarding Route Refinement 2. Hydro One indicated the refinement changed the way that Route Alternative 1, Variations C/D are angled towards Highway 401. Hydro One also noted that at the outset of the project, they did consider opportunities to parallel the existing transmission line, which runs on the south side of the Highway 401. However, this was not taken forward for further consideration due to existing constraints, such as built-up commercial facilities, woodlots, watercourses, and roads, in the area near Bloomfield Road.

Elected Officials - Record of Consultation

Hydro One noted they have selected the preferred route and more information on the route will be shared at the upcoming Virtual Open House and Live Discussion.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2)	2021-02-26	Phone		Councillor Latimer of the Municipality of Chatham-Kent called Hydro One and informed them that she has heard a member of the public has not received notice regarding the selection of the preferred route. Hydro One noted they will check their records to confirm that an email was sent directly to them and advised that they will send another email. Councillor Latimer also flagged concerns with a news article as well as requested a detailed map.
Legislative Assembly of Ontario	Rick Nicholls - Legislative Assembly of Ontario (MPP (Chatham—Kent—Leamington))	2021-02-26	Meeting		Hydro One had a meeting with MPP Nicholls and provided a briefing on the selection of the preferred route and the next steps. MPP Nicholls advised that he has heard and had conversations with a number of constituents and listed some of their concerns, including the impact to drainage tiles, property values and impacts to agricultural operations. Hydro One explained that drainage tiles and other property features will be taken into consideration and mitigated where possible. Also discussed was what will be included in Hydro One's conversations with property owners, why the other route alternatives were not selected and route refinements. Hydro One advised that they will share their presentation and contact information.
Legislative Assembly of Ontario	Rick Nicholls - Legislative Assembly of Ontario (MPP (Chatham—Kent—Leamington)) Sue Adamson - Legislative Assembly of Ontario (Constituency Assistant (Chatham—Kent—Leamington))	2021-02-26	Email	Outgoing	Hydro One emailed MPP Nicholls on the selection of the preferred route and upcoming Virtual Open House and Live Discussion. Hydro One shared the invitation and detailed maps of the preferred route, and indicated they would be happy to schedule a time to further share information on the route selection process and next steps.
Legislative Assembly of Ontario	Rick Nicholls - Legislative Assembly of Ontario (MPP (Chatham—Kent—Leamington))	2021-02-26	Email	Outgoing	Hydro One emailed the MPP Nicholls Team and shared the invitation to the upcoming Virtual Open House and Live Discussion. Hydro One provided links to the Open House and presentation, and shared the notice and detailed maps of the preferred route.

Legislative Assembly of Ontario	Jody Percy - Legislative Assembly of Ontario (Constituency Assistant (Essex)) Nolan Hennin - Legislative Assembly of Ontario (Constituent Services Representative)	2021-02-26	Email	Outgoing	Hydro One emailed MPP Natyshak's team to share further information on the project and to provide the invitation to the upcoming Virtual Open House and Live Discussion. Included in the email were detailed maps of the preferred alternative and the Notice of Open House and Live Discussion.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor)	2021-02-27	Email	Outgoing	Hydro One emailed Mayor Bain of the Municipality of Lakeshore and informed them that the project team will be meeting with Municipality staff members to discuss the preferred route in relation to Comber.
Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent (Councillor, Ward 2)	2021-03-02	Email	Outgoing	Hydro One emailed Councillor Ceccacci of the Municipality of Chatham-Kent and thanked them for sharing their concerns. Hydro One noted they will be meeting with Municipal staff as well.
Legislative Assembly of Ontario	Rick Nicholls - Legislative Assembly of Ontario (MPP (Chatham—Kent—Leamington))	2021-03-03	Email	Outgoing	Hydro One emailed MPP Nicholls and thanked him for speaking with the project team. Hydro One shared the presentation slides from the meeting, as well as detailed maps and the link to the interactive map.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-03	Email	Incoming	The CAO of Municipality of Lakeshore emailed Hydro One requesting a meeting with Councillor McKinlay and the Hydro One team.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-03	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore and indicated they would be happy to meet with Councillor McKinlay and will be in touch shortly.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-04	Email	Outgoing	Hydro One emailed the Municipality of Lakeshore regarding logistics for a meeting with Councillor McKinlay.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2)	2021-03-05	Email	Outgoing	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and informed them that a voicemail was left. Hydro One shared maps and included the link to the interactive map.
Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent (Councillor, Ward 2) Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-05	Email	Outgoing	Hydro One emailed Councillor Ceccacci of the Municipality of Chatham-Kent and informed him of the meeting that took place between the project team and Municipal staff. Hydro One noted that they will provide an update shortly.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor)	2021-03-09	Phone		Hydro One had a call with Mayor Bain of the Municipality of Lakeshore to discuss concerns regarding interference to satellite/TV from the line as well as concerns shared by the Municipality regarding the potential impact of the line traversing Comber. Hydro One noted they can look at opportunities to work with the Municipality to mitigate effects with the placement and spacing of the towers. During the call, a question was asked on whether this line could be built underground similar to a distribution project in the area. Hydro One explained that this was not a viable option for building the new 230-kilovolt transmission line. Mayor Bain also indicated that he heard from property owners regarding the line crossing their property, and Hydro One indicated they will continue to work with property owners to discuss opportunities to mitigate effects.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-03-09	Phone		Hydro One had a call with Mayor Caniff, CAO, and Manager of Community Development for the Municipality of Chatham-Kent regarding Route 2A and the Municipality's future growth plans.

Elected Officials - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Origin	Summary
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-03-09	Phone	Outgoing	Hydro One staff had a brief conference call with the Mayor, CAO and Manager of Community Development for the Municipality of Chatham-Kent, to provide an update on some earlier discussions regarding future growth plans in Chatham-Kent and potential opportunities for Hydro One and the Municipality to work forward together to incorporate the growth plans for these areas as they develop.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-12	Meeting		Hydro One met Mayor Bain, Councillor McKinlay, Councillor Walstedt, and the CAO from the Municipality of Lakeshore to provide an overview of how the preferred route was selected and next steps. The Municipality informed Hydro One that community members are compiling a list of comments, and residents have asked whether the selected route can be modified. Hydro One indicated that they were confident in the analysis that was conducted to select the preferred route, and that they would work directly with landowners on a property-by-property to look for opportunities to mitigate impacts. The Municipality noted concerns with the future development of Comber, and Hydro One indicated that it is common throughout the province for new commercial/industrial development to be built around and integrate with occur around overhead transmission lines. Other items discussed during the meeting included the project need, consultation with First Nations communities, the feasibility of burying transmission lines and conversations with impacted landowners.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-15	Email	Outgoing	Hydro One emailed Mayor Bain and Councillors from the Municipality of Lakeshore and thanked them for the meeting. Hydro One shared the presentation slides and Community Relations contact information for their constituents.
Legislative Assembly of Ontario	Rick Nicholls - Legislative Assembly of Ontario (MPP (Chatham—Kent—Leamington))	2021-03-16	Meeting	Incoming	Hydro One had a meeting with MPP Nicholls to discuss the new comments and concerns that he has been receiving from the community. Some of the concerns included a media article that indicates farmers are in favor of the project, the proximity of the line to homes, the impact the line will have on farmers' contracts with distributors, future growth tile drainage, reception interference and tower design.
Municipality of Chatham-Kent Ontario Federation of Agriculture	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2) Walter Charbonneau	2021-03-16	Email	Outgoing	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and a local landowner, and informed them that they will look into sending the hard copy maps as requested.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6)	2021-03-17	Email	Outgoing	Hydro One emailed Councillors McKinlay and Walstedt of the Municipality of Lakeshore and informed them that they would be happy to take back any questions or comments they have received to date from local residents. Hydro One also noted that their real estate team had the opportunity to speak with a few landowners and that Hydro One will be setting up additional meetings. Hydro One offered to set up regular touch points with the local Councillors to discuss any questions.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2)	2021-03-17	Email	Outgoing	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and requested confirmation of details related to project maps.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2)	2021-03-23	Email	Outgoing	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and informed her that they left a voicemail. Hydro One requested confirmation that the maps have been received and if they could connect a member of the public with the Councillor to attain a copy of the map.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Melissa Harrigan - Municipality of Chatham-Kent (Councillor, Ward 1)	2021-03-26	Email	Outgoing	Hydro One responded to Councillor Harrigan of the Municipality of Chatham-Kent's question and shared information on Hydro One's Land Acquisition Compensation Principles. Hydro One shared the recording and presentation link to the virtual Live Discussion.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent (Councillor, Ward 2)	2021-03-31	Phone	Outgoing	Hydro One had a phone conversation with Councillor Latimer of the Municipality of Chatham-Kent to discuss community feedback. The discussion related to the typical span of the tower, route refinements and meetings with residents.
Municipality of Lakeshore	Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6)	2021-04-06	Phone		Hydro One had a phone conversation with Councillor McKinlay of the Municipality of Lakeshore and the Councillor provided an update regarding resident engagements and concerns.

Elected Officials - Record of Consultation
