

## **Hydro One Networks Inc.**

### **Request for Information**

Hydro One Networks Inc. is seeking information from the hardware/software marketplace on products and solutions to support operation of our Smart Meter initiative.

A Software/Hardware/Packaged Solution is required to manage AMI METERING Solution State Control and process messaging related to: meter communications exceptions/failures, outage, power quality and/or customer-demand-management triage, and meter configurations and profiles across various Advanced Metering Control Computers, also known as Head End Systems.

This is a Request for Information (RFI) only and a formal Request for Proposal may be issued at a later date.

Complete details of this requirement are contained in the RFI documentation. Prior to the RFI being released, interested companies must duly sign and return a Confidentiality Agreement.

To receive the Confidentiality Agreement, please e-mail [rfp.documents@HydroOne.com](mailto:rfp.documents@HydroOne.com) using the subject line **“RFI #SCY-20673 – Meter Border Patrol.”** Submissions are required to be completed and returned by Wednesday, December 19, 2007.
