

[Hydro One Mobile Application \(v1.1\)](#)

Hydro One has launched a FREE mobile application for three of the most popular smartphone devices. As of October 2012, the mobile app is also available exclusively for the Apple iPad®!

To download and install the Hydro One Mobile Application, click the link below that matches your mobile device:

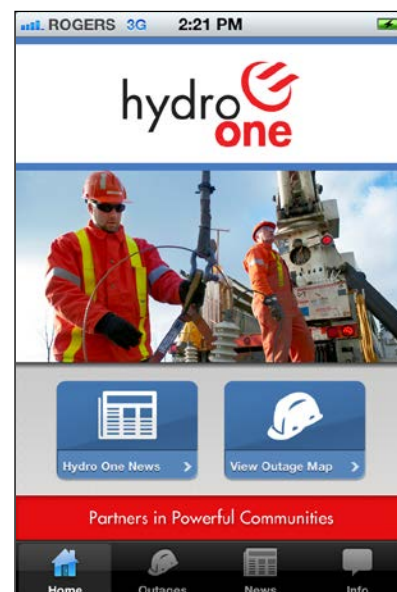

[BlackBerry App World](#)
(Now available for Q10 and Z10 devices!)

[Google Play Android Apps](#)

[Apple iTunes App Store](#)

The Hydro One Mobile Application contains these exciting features:

- Mobile version of Hydro One's Storm Centre, with a map of Ontario displaying planned and unplanned power outages, cause of outage (if known), estimated restoration times and crew status, an outage summary table, and the ability to search for your current location. Outage data is updated every 15 minutes from the Ontario Grid Control Centre.
- The latest Hydro One news delivered directly to your smartphone.
- Contact information and links to other Hydro One resources, such as Twitter.

For additional information, download the Hydro One Mobile Application [user guide](#) for all devices (Adobe Acrobat).

For technical help, or to send us feedback about our new mobile application, email webmaster@hydroone.com.
