

Dear Customer,

Farm customers are eligible for the Regulated Price Plan and/or the Ontario Clean Energy Benefit, regardless of their electricity consumption. In order to qualify, please complete and return the enclosed Large Volume Farm Business Declaration Form.

Regulated Price Plan (RPP)

Farm customers who buy their electricity from Hydro One have their electricity prices set by the Ontario Energy Board as part of the Regulated Price Plan (RPP) - tiered and time-of-use (TOU) prices.

For **tiered prices**, the threshold that defines higher and lower electricity prices for non-residential customers is set at 750 kilowatt hours per month for all seasons. Farms that have not been switched to TOU prices will be billed tiered prices until they are switched to TOU prices. Please note that farm customers who are classified as General Service Demand Billed (50 kW and above) will remain on tiered prices.

With **TOU prices** the cost of electricity will vary based on when it is used. TOU prices vary based on the time of day, day of week and by season. The three TOU periods are on-peak, mid-peak and off-peak. For more information on RPP prices, visit www.ontarioenergyboard.ca.

Ontario Clean Energy Benefit

The Ontario Clean Energy Benefit provides a 10 per cent rebate off the total electricity bill, including electricity costs, delivery, regulatory charges, the debt retirement charge and HST for five years until December 31, 2015. Farm customers enrolled with a retailer may qualify for the Ontario Clean Energy Benefit. For more details, visit www.ontario.ca/energyplan.

Please complete and return the Declaration Form

In order for Hydro One to correctly classify your account and accurately calculate your bill, please complete and return the Declaration Form as soon as possible. Your account will be adjusted once your signed and completed Declaration Form is received by Hydro One. Please allow four weeks for processing. Be sure to provide all of the required information on your form, or processing delays may result.
