**IMPORTANT NOTICE: Completed forms should be returned to our office by fax or mail as soon as possible.**

Starting November 1, 2005, the price threshold – the amount of electricity that is charged at a lower price – will change twice a year for residential, seasonal and most farm customers. The seasonal price threshold will be 1,000 kWh per month during the winter season (November 1 to April 30) and 600 kWh per month during the summer season (May 1 to October 31).

Starting November 1, 2009, condominiums that are classified as predominately non-residential will be billed the non-residential threshold of 750 kWh per month year-round. Condominiums that are classified as predominately residential will be billed the seasonal price threshold.

To register your account so that each unit within your building qualifies for the price threshold, please return your form as soon as possible.

## Step One – Does your account qualify?

Your account may continue to qualify for the RPP if your account relates to:

1. a property as defined in the *Condominium Act, 1998*;
2. a residential complex as defined in the *Residential Tenancies Act, 2006*; or
3. a property that includes one or more dwellings and that is owned or leased by a co-operative as defined in the *Co-operative Corporations Act*.

You can find these acts on the government's e-laws website at [www.e-laws.gov.on.ca](http://www.e-laws.gov.on.ca).

## Step Two – Fill in the form

If your account qualifies, please fill in the information below. If you have multiple accounts with Hydro One Networks Inc. that qualify for the RPP you must list each qualifying account on this Declaration Form. Please attach a separate page if you run out of room. If there are units in your building or complex that are metered or billed separately from the account referenced, do not include them in the total number of units for this account.

Completed declaration forms should be returned to our office by fax or mail **as soon as possible**.
