Re: Duart Transformer Station (formerly Rodney TS)

Dear Mayor Warwick:

I am writing to advise you that Hydro One Networks Inc. (Hydro One) has completed a draft Environmental Study Report (ESR) as part of the Class Environmental Assessment process for the Duart Transformer Station (TS). The proposed location of the station is in the community of Highgate in the Municipality of Chatham - Kent. The project was previously known as Rodney TS, however we changed the name to Duart TS once the preferred station site was selected, so we could more appropriately reflect the geographic location.

The draft ESR for Duart TS will be available for a 60-day public review and comment period beginning June 25, 2009. I have attached for your information a copy of the newspaper advertisement which is running in the *Thamesville Herald*, *Ridgetown Independent* and the *Spirit of Bothwell* on June 17 and June 25, and the *West Lorne West Elgin Chronicle* on June 18 and June 25. The ad provides details on how to participate in the Class EA process and where interested parties may view the ESR.

If you have any questions about the project, please do not hesitate to call me at 416-345-5892 or Marylena Stea, Community Relations Officer at 1-877-345-6799.

Re: Duart Transformer Station (formerly Rodney TS)

Dear Mayor Hope:

I am writing to advise you that Hydro One Networks Inc. (Hydro One) has completed a draft Environmental Study Report (ESR) as part of the Class Environmental Assessment process for the Duart Transformer Station (TS). The proposed location of the station is in the community of Highgate in your municipality. The project was previously known as Rodney TS, however we changed the name to Duart TS once the preferred station site was selected so we could more appropriately reflect the geographic location.

The draft ESR for Duart TS will be available for a 60-day public review and comment period beginning June 25, 2009. I have attached for your information a copy of the newspaper advertisement which is running in the *Thamesville Herald*, *Ridgetown Independent* and the *Spirit of Bothwell* on June 17 and June 25, and the *West Lorne West Elgin Chronicle* on June 18 and June 25. The ad provides details on how to participate in the Class EA process and where interested parties may view the ESR.

I'd also like to update you on some feedback we have received from members of the community at our public information centre held on April 7th. A number of local residents have expressed concern about the need, location and characteristics of the station and have formed a community group called Safe Hydro Alliance (SHA). Hydro One is dedicated to ensuring an open and transparent consultation process, and we are committed to working with local residents to help clarify and address issues related to the project and to mitigate concerns as best we can.

Our project team would like to take the opportunity to brief you, Robert Browning, CAO and Ward 3 Councillors Jim Brown and Steven Pinsonneault, on the project, SHA's concerns, as well as our response. I will follow up with your office to arrange for a date and time. In the interim, please do not hesitate to call me at 416-345-5892 or Marylena Stea, Community Relations Officer at 1-877-345-6799 if you have any questions.

Regards,
