

**DETAILS OF AGENCY CONSULTATION CONDUCTED BY SENES**

<i>SENES Project Reference #</i>	<i>34624-Woodstock East Transformer Station and Associated Transmission Line Upgrades Class EA</i>		
<i>SENES Contact Person</i>	<i>Rosanna Barbuzzi – Environmental Planner</i>		
<b>Contact's Name</b>	Kevin Clement Director	<b>Date of Contact</b>	December 26, 2007
<b>Organization</b>	Indian and Northern Affairs Canada Comprehensive Claims Branch		
<b>Contact's Address</b>	10 Wellington Street Gatineau, QC K1A 0H4		
<b>Contact's Phone</b>	819-994-7134		
<b>Contact Mode</b>	<input type="checkbox"/> Phone <input type="checkbox"/> E-mail <input type="checkbox"/> In person <input checked="" type="checkbox"/> Mail		
<b>Summary of Discussion</b>	<p>Contact was made to determine whether any active Aboriginal comprehensive claims occur in the general vicinity of the proposed project area that SENES should be aware of.</p> <p><u>INAC response letter dated January 25, 2008</u></p> <p>I am responding to your request for information sent to the Comprehensive Claims Branch, by mail, on December 26, 2007.</p> <p>We can confirm that there are no comprehensive claims in Woodstock, Ontario. We cannot make any comments regarding potential or future claims, or claims filed under other departmental policies. This includes claims under Canada's Specific Claims Policy or legal action by the First Nation against the Crown. For more information, I suggest you contact the Director General of Specific Claims Branch at (819) 994-2323 and the Director General of Litigation Management and Resolution Branch at (819) 997-3582.</p> <p>INAC- Comprehensive Claims Branch does not have any specific interest in the project and would request to be taken out of the mailing list.</p>

<b>Contact Mode</b>	<input type="checkbox"/> Phone <input checked="" type="checkbox"/> E-mail <input type="checkbox"/> In person <input type="checkbox"/> Mail		
<b>Summary of Discussion</b>	<p>Contact was made by Hydro One to notify SENES of consultation between Hydro One and MTO regarding the proposed project.</p> <p><u>Hydro One response to MTO phone call</u></p> <p>John McDonald of MTO called and we clarified that the proposed undertaking involves the line upgrade along the existing Hydro One right of way (not MTO ROW). And the line section to be upgraded is to cross the Highway 401, from Woodstock TS to Tower #189 where the permanent Toyota Interconnection line is to be tapped from.</p> <p>He asked, and I confirmed that Vladimir Gracic is the PM for the project.</p> <p>I also mentioned that prior to the PIC #1 which is tentatively scheduled for mid to late February, we will send out notification letters to the agencies to inform them of the PIC details.</p>		

<i>SENES Project Reference #</i>	<i>34624-Woodstock East Transformer Station and Associated Transmission Line Upgrades Class EA</i>		
<i>SENES Contact Person</i>	<i>Bernard Lebeau - Senior Aquatic &amp; Terrestrial Biologist</i>		
<b>Contact's Name</b>	Christine Creighton Land Use Planner	<b>Date of Contact</b>	February 25, 2008
<b>Organization</b>	Upper Thames River Conservation Authority		
<b>Contact's Address</b>	1424 Clarke Road London, ON N5V 5B9		
<b>Contact's Phone</b>	519-451-2800		
<b>Contact Mode</b>	<input type="checkbox"/> Phone <input checked="" type="checkbox"/> E-mail <input type="checkbox"/> In person <input type="checkbox"/> Mail		
<b>Summary of Discussion</b>	<p>Contact was made requesting expertise on environmental features. Confirmation and clarification was needed on natural environment issues regarding fish habitat (stream system definitions), aquatic species of concern, and their associated setback distances. A follow up email was sent February 26, 2008 to provide further information to the UTRCA regarding this inquiry.</p> <p><u>UTRCA response email dated April 4, 2008</u></p> <p>The following information has been provided by our aquatic biology technician. I hope this is the info you need.</p> <p>In the southern portion of the study area, for the most part, the watercourses in question appear to be closed surface drainage, or tiled. In some cases the watercourse appears open upstream of closed sections. The majority of this area has been modified for storm drainage and SWM ponds have been created. There is a lack of connection with the downstream watercourses that may contain the greenside darter.</p> <p>In the north western section of the subject area, there are 'watercourses'. These drain into the Brick pond wetland complex. This is a very small watershed which may or may not be considered fish habitat. We have collected a couple of samples - benthic and fish near the GM property on Beard's Lane.</p> <p>Any open watercourse with an inlet and/or outlet such as a municipal drain or swale is considered fish habitat and is regulated under the fisheries act.</p> <p>Considering that the watercourses to the south of the study area have been modified, it is unlikely that the upstream sections will be given much consideration as a watercourse or marginal fish habitat. Having said that any modifications would still require mitigation or compensation for loss of</p>

	fish habitat.  Otherwise I would agree with Bernard that All three systems, I, II, and III are fish habitats. Yes Fish habitat set back is 30 m. Yes However, since all of these watercourses may have the Greenside Darter, a fish species of Provincial special concern (SC), development is not permitted within 50 m. Yes

<b>Summary of Discussion</b>	<p>Contact was made to determine if there are any issues involving First Nations in the general vicinity of the proposed project area that SENES should be aware of.</p> <p><u>MAA response letter dated April 7, 2008</u></p> <p>Thank you for your inquiry dated February 29, 2008, regarding the above noted project.</p> <p>The responsibilities of the Ministry of Aboriginal Affairs (MAA) include conducting land claim and related negotiations on behalf of the Province. MAA can provide you with information about land claims that have been submitted to the Ministry, are currently in active negotiations, or are in the process of implementing a settlement agreement. We can also advise as to whether there is any litigation with an Aboriginal community that may be impacted by your project.</p> <p>You should also be aware that many First Nations either have or assert rights to hunt and fish in their traditional territories. These territories often include lands and waters outside of a First Nation's reserve. As well, in some instances project work may impact archaeological and burial sites. First Nations with an interest in such archaeological sites may extend beyond those First Nations in the nearest vicinity of the proposed project.</p> <p>With respect to your project, we have reviewed the brief materials you have provided, and can advise that this project appears not to be located in an area where First Nations may have existing or asserted rights that could be impacted by your project.</p> <p>MAA is not the approval or regulatory authority for your project. You should consider the information provided in this letter in light of the statutes and guidance materials provided by the appropriate approval or regulatory</p>

	<p>For more information, you may wish to consult a “Public Information Status Report” on all claims which have been submitted to date. This information is available to the public on the Indian and Northern Affairs Canada (INAC) website and can be found at <a href="http://www.aincinac.gc.ca/ps/clm/pis_e.html">http://www.aincinac.gc.ca/ps/clm/pis_e.html</a>.</p> <p>It should be noted that the reports available on the INAC website are updated quarterly and therefore, you may want to check this site at regular intervals for updates. In accordance with legislative requirements, confidential information has not been disclosed.</p> <p>Please rest assured that it is the policy of the Government of Canada as expressed in <i>Outstanding Business: A Native Claims Policy</i> that “in any settlement of specific native claims the government will take third party interests into account. As a general rule, the government will not accept any settlement which will lead to third parties being dispossessed.”</p> <p>We can only speak directly to claims filed under the Specific Claims Policy in the Province of Ontario. We cannot make any comments regarding potential or future claims, or claims filed under other departmental policies. This includes claims under Canada's Comprehensive Claims Policy or legal action by a First Nation against the Crown. You may wish to contact INAC's Comprehensive Claims Branch at (819) 994-7521 or its Litigation Management and Resolution Branch at (819) 934-2185 directly for more information. In addition, you may wish to consult the unit responsible for Special Claims at (819) 994-6453.</p> <p>To the best of our knowledge, the information we have provided you is current and up-to-date. However, this information may not be exhaustive with regard to your needs and you may wish to consider seeking information from other government and private sources (including Aboriginal groups). In addition, please note that Canada does not act as a representative for any Aboriginal group for the purpose of any claim or the purpose of consultation.</p> <p>I hope this information will be of assistance to you. I trust that this satisfactorily addresses your concerns. If you wish to discuss this matter further please contact me at (819) 953-1940.</p>

<b>Summary of Discussion</b>	<p>Contact was made to provide Hydro One with expertise on environmental features in order to facilitate TS site selection and ranking. This was a follow up to discussions that occurred at PIC 1.</p> <p><u>Response email sent March 11, 2008</u></p> <p>During the PIC, we discussed determining what natural environmental features surrounded the transmission line. I received data relating to the environmental inventory, the following information was summarized for the transmission line/transformer station.</p> <p>Using the large map (of the study area) which was taken from the PIC, starting from west to east (identifying natural features crossed):</p> <ul style="list-style-type: none"> <li>• Adjacent to Woodstock TS: Cedar Creek (significant valleyland). Species of Concern: Greenside Darter</li> <li>• North west of Woodstock TS: Species of Concern: Nebraska Sedge and Purple Love Grass</li> <li>• Stream running between Tower 215 and 214: Tiled Stream</li> <li>• TS study area north of Parkinson Road (North of Tower 209): Brick Ponds Wetland (wetland) Non-PSW (provincially significant wetland) by MNR</li> <li>• South of Tower 209/208: UTRCA Wetlands/Stream with regulation limits</li> <li>• Pond north of Tower 205: UTRCA Wetlands/Stream with regulation limits</li> <li>• Pond adjacent to Tower 204: not found in research</li> <li>• Area between Tower 205 and Highway 401: Species of Concern - Longleaf Dropseed</li> <li>• Dark blue stream (from the legend) is a cold water stream</li> <li>• Stream crossed at Tower 199: Tiled Stream</li> <li>• Stream running through Tower 196: Mud Creek UTRCA Wetlands/Stream with regulation limits</li> </ul>
