**NOTICE OF APPLICATION AND HEARING**

**HYDRO ONE NETWORKS INC.**

**APPLICATION FOR LEAVE TO CONSTRUCT**

**WOODSTOCK AREA TRANSMISSION REINFORCEMENT PROJECT**

Hydro One Networks Inc. (the "Applicant" or "Hydro One") has filed an application with the Ontario Energy Board, (the "Board") dated March 9, 2007 under section 92 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B. The Applicant has applied for an order of the Board granting leave to construct approximately 14 kilometres ("km") of double circuit 230 Kilovolt ("kV") electricity transmission line, replacing an existing 115 kV double circuit transmission line from Ingersoll Transformer Station ("TS") to Woodstock TS. The line extends through portions of the County of Oxford, the City of Woodstock, the Township of Southwest Oxford and the Township of Zorra.

The Applicant's proposal also includes a new transformer station ("Karn TS") about 2 km west of Woodstock TS comprised of two 230-115 kV autotransformers and associated equipment.

The Applicant states that the proposed facilities are needed to ensure adequate electricity supply to consumers in the Woodstock area by providing increased transmission capacity in the area.

The Applicant advises that the majority of land rights required to construct the proposed transmission line have already been acquired in connection with the existing transmission line facilities. New land rights are required at select locations along the transmission right-of-way and for the new Karn TS site. Some temporary access rights are also required for construction.

A map showing the location of the proposed facilities is included in this Notice.

The estimated total cost of the proposed facilities is approximately \$72 million and the scheduled in-service date is April 2010.

The Board has assigned File No. EB-2007-0027 to this application.
