Merivale Transformer Station Modernization Community Open House

October 2022

A safe and reliable power supply is essential to ensure the City of Ottawa can continue to grow now, and into the future. Hydro One is committed to supporting this growth by modernizing the Merivale Transformer Station (TS), one of two major transformer stations that supplies power to approximately 60% of homes and businesses in Ottawa.

A critical part of electricity planning is gathering community feedback, and we'd like to hear from you. This project is currently undergoing a "Class Environmental Assessment for Minor Transmission Facilities (2016)" (Class EA for MTF), established in accordance with the *Ontario Environmental Assessment Act*. Through this process, we will identify potential project effects and mitigation opportunities. An important part of this process involves gathering feedback from residents, community associations, elected officials and other stakeholders that may be interested or affected by this project.

Please join us to learn more about the Merivale TS modernization project and speak directly with members of the project team as we plan this important work. A map of the station and planned modernization is shown on the back.

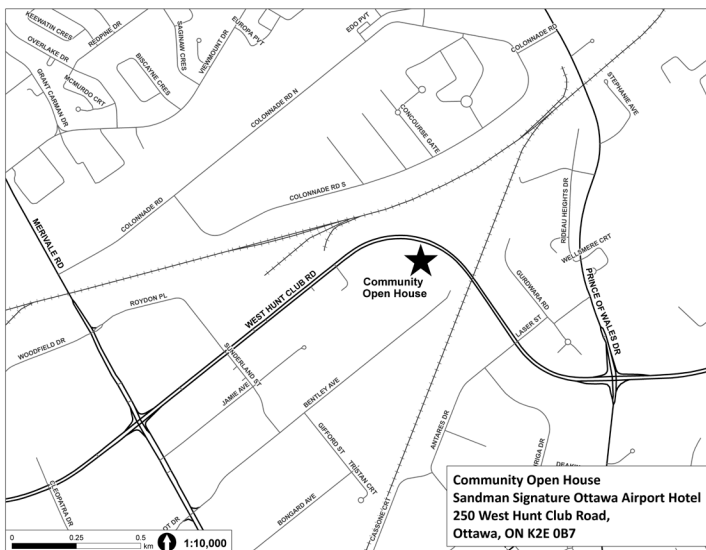

Community Open House

Sandman Signature Ottawa Airport Hotel

250 West Hunt Club Road, Ottawa, ON K2E 0B7

Tuesday, November 15, 2022

6:30 – 8:30 p.m.

All personal information included in your request – such as name, address, telephone number and property location – is collected, under the authority of section 30 of the *Environmental Assessment Act* and is collected and maintained for the purpose of creating a record that is available to the general public. As this information is collected for the purpose of a public record, the protection of personal information provided in the *Freedom of Information and Protection of Privacy Act* (FIPPA) does not apply (s.37). Personal information you submit will become part of the available public record unless you request that your personal information remain confidential.

We're here to help
