**Electricity ..... \$93.28**

This is the cost of generating the electricity you used this period. Usage is measured in kilowatt-hours (kWh) and depends on the wattage of devices you use and how long you use them. The Ontario Energy Board (OEB) sets the cost per kWh and the **money collected goes directly to the electricity generators.**

This is the cost of ensuring you have reliable power when you need it. **Hydro One collects this money** to build, maintain, and operate the electricity infrastructure, which includes power lines, steel towers and wood poles covering 960,000 sq. km. A portion of this cost is fixed and a portion varies depending on the amount of electricity used.
