What is my Time-of-Use breakdown?

Rate class is found here on page 2 of your bill

Current pricing plan (either Time-of-Use or Tiered pricing) is shown here on page 2 of your bill

Electricity \$93.28

This is the cost of generating the electricity you used this period. Usage is measured in kilowatt-hours (kWh) and depends on the wattage of devices you use and how long you use them. The Ontario Energy Board (OEB) sets the cost per kWh and the money collected goes directly to the electricity generators.

Nov 2/20 to Dec 2/20	Usage (kWh)	Rate (¢)	Amount
On-Peak	126	21.7	\$27.34
Mid-Peak	126	15.0	\$18.90
Off-Peak	448	10.5	\$47.04

Consumption numbers for on-peak, mid-peak and off-peak are found here on page 2 of your bill if you're billed TOU prices

Delivery..... \$55.45

This is the cost of ensuring you have reliable power when you need it. Hydro One collects this money to build, maintain, and operate the electricity infrastructure, which includes power lines, steel towers and wood poles covering 960,000 sq. km. A portion of this cost is fixed and a portion varies depending on the amount of electricity used.

Regulatory Charges..... \$3.19

The Independent Electricity System Operator (IESO) uses this money to manage electricity supply and demand in the province, which is necessary to ensure that there is enough electricity to meet Ontario's needs at all times.
