

A vertical photograph on the left side of the page shows several tall utility poles with cross-arms and power lines stretching across a clear blue sky. The foreground is filled with green grass and weeds.

YOU ARE INVITED to a community information meeting

Hydro One is working in the Beaverbrook community to ensure safe, reliable electricity service in your community

We are listening

Following our initial community notice in early September, Hydro One has been working closely with the Kanata Beaverbrook Community Association (KBCA) to develop a long term vegetation maintenance approach for the Beaverbrook community. The project area in Beaverbrook extends from Marchwood Transformer Station and the Queensway (map shown on the reverse).

We are pleased to present the proposed vegetation maintenance approach for the Beaverbrook area, and take your feedback at an upcoming community meeting hosted by the KBCA.

JOIN US ON:

Date: Monday, October 30, 2017

Time: 7:30 p.m. – 9:30 p.m.

Location: John G. Mlacak Community Centre,
2500 Campeau Dr. Kanata

Hydro One's vegetation management approach strives to balance the need for operational safety and reliability with the local environment, community interests, and value for Ontario electricity consumers. We welcome the opportunity to discuss this important project with members of the community.
