

APPENDIX 5.0-A

List of Studies

Table of Contents

1.0	Introduction.....	1.1-1
1.1	Studies and Reports under Control of Hydro One.....	1.1-1
1.2	Studies and Reports not under Control of Hydro One.....	1.2-2

1.0 Introduction

This appendix provides a list of studies and reports, both those under the control of Hydro One Networks Inc. (Hydro One) and completed in connection with the Waasigan Transmission Line Project (Project) and those not under the control of Hydro One, that have been completed in connection with the Project.

1.1 Studies and Reports under Control of Hydro One

The following are studies and reports completed in connection with the Project that are under the control of Hydro One:

- Golder Associates Ltd. 2021. Waasigan Transmission Line - 2020 Field Work Summary and Ongoing Desktop Analysis. Prepared for Hydro One Networks Inc. March 12, 2021.
- Hydro One (Hydro One Network Inc.). 2021. Amended Terms of Reference for the Waasigan Transmission Line. Submitted to the Ministry of the Environment Conservation, and Parks. June 2021
- Hydro One (Hydro One Network Inc.). 2020. Record of Consultation - Terms of Reference for the Waasigan Transmission Line. Submitted to the Ministry of the Environment Conservation, and Parks. October 2020.
- Hydro One (Hydro One Network Inc.). 2021. Record of Consultation - Amended Terms of Reference for the Waasigan Transmission Line. Submitted to the Ministry of the Environment Conservation, and Parks. August 2021.
- Hydro One (Hydro One Network Inc.). 2022. Waasigan Transmission Line Field Work Plan – Terrestrial – Rev 2. Prepared by WSP Golder. 212 pp
- Hydro One (Hydro One Network Inc.). 2022. Waasigan Transmission Line Field Work Plan – Aquatic – Rev 2. Prepared by WSP Golder.
- SNC Lavalin (SNC). 2021. LiDAR data provided by SNC Lavalin on a hard drive in August 2021;
- WSP (Golder). 2022. Photographic inventories collected during field surveys – October 2 – November 2, 2022.

1.2 Studies and Reports not under Control of Hydro One

The following are studies and reports completed in connection with the Project that are not under the control of Hydro One:

- Independent Electricity System Operator (IESO). 2022. Update on the Need and Scope for the Northwest Bulk Transmission Line. Letter to Hydro One, May 3, 2022.
- Independent Electricity System Operator (IESO). 2023. Letter to Hydro One, April 24, 2023.
- Fort William First Nation (Anemki Wajiw). 2023. Subset of Plants of Significance to Aboriginal People of Boreal Canada applicable to the Waasigan Transmission Project study areas.
- Lac des Mille Lacs First Nation. 2020. Waasigan Transmission Line Route Alternatives Assessment. Prepared by NorthWinds Environmental Services.
- Lac des Mille Lacs First Nation. 2023. Traditional Land Use Studies / Geospatial Development / and Values and Rights Impact Assessment (“Studies”) Interim Report.
- Maawandoon. 2020. Gwayakocchigewin LP Gap Analysis and TK/TLRU Workplan. Gwayakocchigewin LP.
- Migisi Sahgaigan. 2022. Traditional Knowledge, Land and Resources Use Study for the Waasigan Transmission Line Project.
- Mitaanjigamiing First Nation. 2022. Waasigan Transmission Line Summary Report 2022-Draft. Prepared by CE Strategies.
- Mitaanjigamiing First Nation. 2023. Waasigan Transmission Line Summary Report 2023. Prepared by CE Strategies.
- MNP LLP. 2019. Métis Nation of Ontario – Preliminary Criteria Report – Waasigan Transmission Line Region 1 and Region 2. Prepared for the Métis Nation of Ontario. January 10, 2019.
- MNP LLP. 2019. Métis Nation of Ontario Workshop Summary - Region 1. Prepared for the Métis Nation of Ontario. September 6, 2019.
- MNP LLP. 2019. Métis Nation of Ontario Workshop Summary - Region 2. Prepared for the Métis Nation of Ontario. September 3, 2019.
- MNP LLP. 2021. Baseline Data Collection Survey Results - Métis Nation of Ontario – Hydro One Waasigan Transmission Line.

- MNP LLP. 2023. Memorandum: Feedback related to the Waasigan Transmission Line Preliminary Preferred Route. Prepared for the Métis Nation of Ontario. February 22, 2023.
- Northwestern Ontario Métis Community and MNO Region 2. 2023. Traditional Knowledge and Land Use Study for the Waasigan Transmission Line Project. Prepared by MNP.
- Red Sky Métis Independent Nation. 2021. Red Sky Values Mapping. Email shared to Hydro One by RSMIN.
- Red Sky Métis Independent Nation. 2023. Waasigan Transmission Line – Preliminary Preferred Route. February 15, 2023.

Additional community-led Indigenous knowledge studies are underway in varying stages of completion and data sharing with Hydro One. In some cases, culturally important sites or information have been shared with Hydro One with permission which are considered in the EA report, but not cited at the request of Indigenous communities.
