

# Ontario's system-wide electricity supply mix

Supply mix is the combination of power sources used to generate the electricity in Ontario<sup>1</sup>. The chart shows supply mix data for 2024, published by the Ontario Energy Board on June 3, 2025. This data should be considered current until further notice.

<sup>1</sup> Hydro One does not generate electricity.

<sup>2</sup> Includes Lennox, dual fuel (natural gas/bioenergy) and non-contracted emitting generation consistent with IESO.
