

Hydro One Sault Ste. Marie Limited Partnership has applied for approval of an interim revenue requirement effective January 1, 2027

Hydro One Sault Ste. Marie Limited Partnership (HOSSM) has applied to the Ontario Energy Board (OEB) for approval of the use of its 2026 OEB-approved base revenue requirement of \$49.2 million on an interim basis for 2027, effective January 1, 2027. HOSSM's OEB approved total revenue requirement for 2026 was \$44.4 million, which was comprised of the base revenue requirement minus a \$4.8 million offset related to an earnings sharing mechanism (ESM). HOSSM intends to apply for rebasing for 2027 and 2028 as part of a joint rebasing application with Hydro One Distribution and Hydro One Transmission (the JRAP 2028 application) and would seek approval of a proposed 2027 revenue requirement on a final basis in that proceeding. HOSSM has also proposed that its deferral and variance account balances, including the balance in HOSSM's ESM account relating to 2025, and any ESM balance relating to 2026, will be disposed of as part of the JRAP 2028 proceeding.

HOSSM has requested that the current application be decided without a hearing. If you prefer that the OEB schedule a hearing, you can request one by filing a letter setting out the reasons for your request with the OEB no later than **June 22, 2026**. You should indicate whether you have a preference for the hearing to be oral, electronic or written. If you do not file a letter by the due date, you will not receive any further notice in the event the OEB proceeds with a hearing. If you submit a letter, your name and the content of your letter will be put on the public record and the OEB website.

You may view the application by visiting www.oeb.ca/notice and using file number **EB-2026-0170**.
