NOTICE OF APPLICATION AND WRITTEN HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE

Hydro One Networks Inc.

The Ontario Energy Board (the “Board”) has received an application on November 7, 2008, under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that Hydro One Networks Inc. (“Hydro One”) charges for electricity distribution, to be effective May 1, 2009. The Board has assigned the application file number EB-2008-0187. The Board’s decision on this application may have an effect on all of Hydro One’s distribution customers. The application was filed under the Board’s guidelines for 3rd Generation Incentive Regulation (“IR”), which provides for a mechanistic and formulaic adjustment to rates between cost of service applications. In addition to the formulaic adjustment to rates, Hydro One is also seeking approval for incremental capital investment.

Any change to the rates that Hydro One charges for electricity distribution will be reflected in the delivery charges. Delivery charges are one of four regular items on residential and general service customers’ electricity bills and vary depending on the amount of electricity consumed.

Hydro One indicates that the approximate rate increase for a residential customer consuming 1,000 kWh per month that would arise directly from this application, if approved as filed, would range from 4.4% to 5.8% on the delivery portion of the bill, depending on the service area. This is an increase ranging from \$2.31 to \$3.66 per month on the total bill. The approximate rate increase for a small general service customer consuming 2,000 kWh per month and having a monthly demand of 50kW or lower would range from 4.7% to 6.6% on the delivery portion of the bill, depending on the service area. This is an increase ranging from \$3.42 to \$5.11 per month on the total bill.

Hydro One has also proposed to implement the second phase of its proposed rate harmonization plan as a part of this application. The rate harmonization plan itself is the subject of a separate proceeding (EB-2007-0681), and will not be considered in the current application. For some Hydro One customers, however, the implementation of the rate harmonization plan may result in rate increases in excess of those described above.

Hydro One Networks' customers can determine the approximate bill impact to their specific service area by checking their "service type", which appears on page 2 of their Hydro One Networks bill beside the words "Your electricity charges". If the "service type" shown on your bill includes your specific community's name, make note of it. You can obtain further information on your bill impacts by going to www.HydroOneNetworks.com/2009RateApplication or calling Hydro One Networks Inc. at 1-866-543-8031.

The Board intends to proceed with this application by way of a written hearing, but may include an oral component. That component may be in the form of a technical conference or an oral hearing, or both. This approach will enable the Board to address certain matters more effectively

than would be possible in a proceeding conducted entirely on a written basis. If you object to the Board proceeding in this fashion, your letter of intervention must state the nature of the process you believe to be necessary and the reasons for undertaking such a process.

The Board will issue a Procedural Order at a later time to establish further steps in the hearing process.
