

NOTICE OF A HEARING

Hydro One Networks Inc. has applied for approval to build a high-voltage transmission line in Eastern Ontario

Hydro One Networks Inc. (Hydro One Networks) is asking the Ontario Energy Board (OEB) for:

- Permission to construct approximately 55 kilometres of new 230 kilovolt double-circuit electricity transmission line from the Dobbin Transformer Station to the Clarington Transformer Station in Eastern Ontario. The Project would primarily be located within an existing transmission corridor.
- Permission to complete associated station facility expansions or upgrades at the terminal stations and minor protection upgrades at four remote stations required for the connection of the new 230 kilovolt double-circuit transmission line.
- Approval of the forms of land use agreements that Hydro One Networks will offer affected landowners.

Hydro One Networks says the project is required to increase the overall transfer capability of the bulk transmission system to ensure sufficient supply capacity to the Peterborough to Quinte West region and surrounding area. The proposed transmission line has been designated as a priority project by the Ministry of Energy.

The OEB hearing is not the only approval process required before a line is built.

Environmental issues, or issues related to the Crown's duty to consult Indigenous peoples, are not part of the OEB's review unless there is a direct impact on price and the reliability and quality of electricity service.

YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has applied for, and the OEB plans to proceed with, a written hearing. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as Intervenor. After the hearing, we will decide whether to approve the application.

HAVE YOUR SAY

You have the right to information about this application and to participate in the process. Visit www.oeb.ca/notice and use file number **EB-2026-0155** to:

- Review the application
- Apply to become an intervenor
- File a letter with your comments

IMPORTANT DATES

You must engage with the OEB on or before **July 20, 2026** to:

- Provide input on the hearing type (oral, electronic or written)
- Apply to be an intervenor

If you do not, the hearing will move forward without you, and you will not receive any further notice of the proceeding.

This hearing will be held under sections 92 and 97 of the **Ontario Energy Board Act, 1998**, S.O. 1998, c.15, Sched. B

A map of the proposed route for the transmission line is provided below:

PRIVACY

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. If you are a business or if you apply to become an intervenor, all the information you file will be on the OEB website.
