

NOTICE OF A HEARING

Hydro One Networks Inc. has applied to the Ontario Energy Board to expropriate interests in certain lands in St. Clair Township and the Municipality of Chatham-Kent in Ontario

Hydro One Networks Inc. (Hydro One) is asking the Ontario Energy Board (OEB) for permission to expropriate interests in certain lands in St. Clair Township and the Municipality of Chatham-Kent in Ontario, to construct and operate a new 230 kilovolt double-circuit transmission line between Lambton Transformer Station and the Chatham Switching Station (Project).

Under a separate Decision and Order dated December 10, 2024, the Ontario Energy Board granted Hydro One leave to construct and operate the Project. The Project is required to address the need for increased transmission supply capacity in the area west of London by 2028. The anticipated in-service date is December 2028.

Hydro One has identified you as someone who owns or has an interest in part of the lands that Hydro One is seeking permission to expropriate for the Project. A copy of the property descriptions and survey maps showing the lands that Hydro One is asking to expropriate are attached to this Notice.

Hydro One's application is about the expropriation of certain lands only. It is not about compensation. The OEB will consider the public interest when making any order authorizing Hydro One to expropriate land. The OEB does not have the authority to determine the amount of compensation payable. If the OEB authorizes Hydro One to expropriate and the parties do not agree upon compensation, then the compensation must be determined under the *Expropriations Act* or by the Ontario Land Tribunal.

YOU SHOULD KNOW
