ONTARIO ENERGY BOARD

NOTICE OF A HEARING

Hydro One Networks Inc. has applied for approval to construct transmission line facilities in the Kirkland Lake area of the Northeastern Region of Ontario

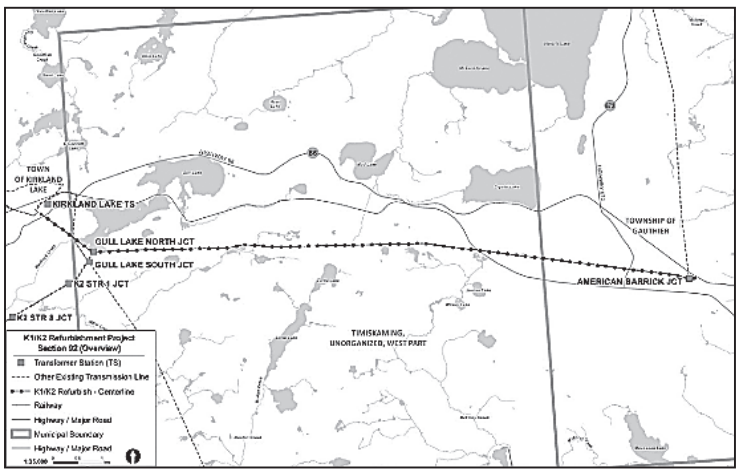

Hydro One Networks Inc. (Hydro One Networks) has applied to the Ontario Energy Board (OEB) for leave to construct transmission line facilities in the Kirkland Lake area of northeastern Ontario. The work involves the refurbishment of approximately 13.7 kilometres of an existing 115 kV transmission line that connects Kirkland Lake Transformer Station (TS) and American Barrick Junction (JCT), and the removal of certain components from an adjacent non-operating 115 kV transmission line (Project). The Project is entirely located on privately owned lands.

Hydro One Networks is seeking approval of the forms of land use agreements offered or to be offered to affected landowners.

The OEB hearing is not the only approval process required before a line is built.

Environmental issues, or issues related to the Crown's duty to consult Indigenous peoples, are not part of the OEB's review unless there is a direct impact on price and the reliability and quality of electricity service.

A map of the proposed route for the transmission line is provided to the right:

YOU SHOULD KNOW

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

There are three types of OEB Hearings: oral, electronic and written. If you have a preference for the hearing type, you can write to us to explain why. During this hearing, we will question the applicant about its case. We will also hear questions and arguments from participants that have registered as Intervenors. After reviewing all the evidence, we will decide whether to approve this application.

HAVE YOUR SAY

You have the right to information about this application and to participate in the process.

Visit **www.oeb.ca/notice** and use file number **EB-2026-0207** to:

- Review the application
