FINAL RATE ORDER

April 23, 2015

Hydro One Inc. (Hydro One) and Haldimand County Hydro Inc. (Haldimand) filed related applications with the Ontario Energy Board (OEB) on July 31, 2014 seeking the following:

1. Hydro One applied for leave to purchase all of the issued and outstanding shares of Haldimand County Utilities Inc. under section 86(2)(b) of the Act;
2. Haldimand applied for inclusion of a rate rider in its 2014 OEB approved rate schedule to give effect to a 1% reduction relative to 2014 base electricity delivery rates (exclusive of rate riders) under section 78 of the Act;
3. Haldimand applied for leave to dispose of its distribution system to Hydro One Networks Inc. under section 86(1)(a) of the Act; and
4. Haldimand applied for leave to transfer its distribution licence and rate order to Hydro One Networks Inc. under section 18 of the Act.

On March 12, 2015 the OEB issued its Decision approving these applications and ordered Haldimand to file with the OEB and forward to the intervenors a draft Rate Order that includes a proposed Tariff of Rates and Charges reflecting the OEB's Decision. Haldimand filed a draft Rate Order including a proposed Tariff of Rates and Charges on March 23, 2015.

On March 30, 2015, OEB staff filed an updated Tariff of Rates and Charges and submitted the following comments:

- 1) The descriptions for the Fixed and Variable Acquisition Rate Rider – effective until June 30, 2020, have been changed to Rate Rider per Hydro One Network's Acquisition Agreement – effective until June 30, 2020
- 2) The description for Funding Adder for Renewable Energy Generation – effective until June 20, 2020, has been changed to Funding Adder for Renewable Energy Generation – in effect until the effective date of the next cost of service based rate order
- 3) A variable credit rate rider to the fifth decimal place of 0.00003 has been calculated for the *Unmetered Scattered Load* (USL) rate class

In its reply comments filed on April 6, 2015, Haldimand confirmed that while it agreed with the first two comments of OEB staff, it did not agree with the third comment. Haldimand referenced the OEB's *Filing Requirements for Electricity Distribution Rate Applications*, issued July 18, 2014 which requires variable charges to be shown to four decimal places and also referred to the OEB's Incentive Regulation Mechanism rate generator model which calculates rates for rate riders to four decimal places.

Haldimand stated that it sees no reason to deviate from these existing guidelines and submitted that variable credit rate riders round to the fourth decimal place for all affected rate classes.

The Decision approved Haldimand's request to include a rate rider in its 2014 OEB approved rate schedule to give effect to a 1% reduction relative to 2014 base electricity delivery rates (exclusive of rate riders). The OEB agrees with OEB staff's calculation of a variable rate rider to the fifth decimal place for the USL rate class. This change reflects the Decision in that Haldimand committed to a 1% rate deduction for all rate classes and it is therefore appropriate in this case that the variable rate rider be calculated to the fifth decimal place for the USL rate class despite the OEB's existing guidelines.

The Board is satisfied that the Tariff of Rates and Charges as updated by OEB staff and set out in Appendix A of this Rate Order accurately reflects the Decision.

THE BOARD ORDERS THAT:

1. The Tariff of Rates and Charges set out in Appendix A of this Order is final, and will apply to electricity consumed or estimated to have been consumed on and after July 1, 2015. Haldimand shall notify its customers of the rate changes no later than with the delivery of the first bill reflecting the new rates.

DATED at Toronto, April 23, 2015

ONTARIO ENERGY BOARD

Original signed by

Kirsten Walli
Board Secretary

TARIFF OF RATES AND CHARGES

Effective and Implementation Date July 1, 2015

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2014-0244

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to a customer's main place of abode and may include additional buildings served through the same meter, provided they are not rental income units. Residential includes Urban, Suburban and Farm customer's premises which can be occupied on a year-round and seasonal basis. Farm applies to properties actively engaged in agricultural production as defined by Statistics Canada. These premises must be supplied from a single phase primary line. The farm definition does not include tree, sod, or pet farms. Services to year-round pumping stations or other ancillary services remote from the main farm shall be classed as farm. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

GENERAL SERVICE LESS THAN 50 kW SERVICE CLASSIFICATION

General Service does include farms supplied from polyphase primary lines. General Service includes commercial, industrial, educational, administrative, auxiliary and government services. It also includes combination services where a variety of uses are made of the service by the owner of one property. This classification applies to a non-residential account whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.
