Hydro One

Environmental Policy

Key Beliefs

- We play a vital role in energizing life for Ontarians. Hydro One is uniquely positioned to facilitate the transition towards a low-carbon economy and help our customers, partners and suppliers achieve their climate change goals.

Goals

- We will deliver electricity to our customers and manage our operations in an environmentally responsible and sustainable manner.
- We will work cooperatively with stakeholders and Rights Holders to continue to improve our environmental performance.
- We will maintain an Environmental Management System (EMS) that is aligned with ISO 14001 standard requirements to integrate environmental protection into our business practices.
- We will identify and evaluate environmental risks to minimize negative impacts to the environment.
- We will integrate applicable environmental sustainability considerations into our decisions as we seek to, among other goals: prevent pollution, mitigate and adapt to climate changes, optimize resource consumption, and promote environmental stewardship.
- We will ensure employees understand their roles and responsibilities and have the skills, knowledge and resources necessary to perform their duties.
- We will establish measurable objectives to monitor progress through regular audits and performance reporting.
- We will report and analyze our environmental performance and strive for continual improvement.
- We will leverage the EMS to help fulfill our environmental compliance obligations to our stakeholders and Rights Holders in the areas where we operate.
