

# Hydro One Environmental Policy

## Key Beliefs

- We play a vital role in energizing life for Ontarians. Hydro One is uniquely positioned to facilitate the transition towards a low-carbon economy and help our customers, partners and suppliers achieve their climate change goals.

## Commitments

- We will deliver electricity to our customers and manage our operations in an environmentally responsible and sustainable manner.
- We will work cooperatively with governments, customers, Indigenous Peoples, and public advocates to improve our environmental performance.
- We will implement and sustain a world-class Health, Safety and Environment management system.
- We will identify and evaluate environmental risks to minimize negative impacts to the environment.
- We will integrate environmental sustainability considerations into our decisions in order that we, among other goals: prevent pollution, mitigate and adapt to climate changes, optimize resource consumption, and promote environmental stewardship.
- We will ensure employees understand their roles and responsibilities and have the skills, knowledge and resources necessary to perform their duties.
- We will establish measurable objectives to monitor progress through regular audits and performance reporting.
- We will report and analyze our environmental performance and strive for continual improvement.
- We will meet or exceed legal requirements wherever we operate.

David Lebeter  
President and CEO  
Hydro One Ltd.

## Our Vision

A better and brighter future for all.

## Our Goal

To achieve world-class environmental performance and to contribute to a greener Ontario for future generations.
