

# Declaration of Siting Restrictions

For Solar and Wind Generation Projects

Hydro One Distributed Generation Group | DxGenerationConnections@HydroOne.com | 1-877-447-4412 (Option 2)

## ▶ ABOUT THIS DOCUMENT

Any Generation Facility which includes one or more: (i) wind turbines; or (ii) photovoltaic collector panels or devices that use light to generate electricity must include this completed document with the Connection Impact Assessment Form B Application as the Generation Facility may be subject to the siting restrictions set out in O. Reg. 274/18 (Siting Restrictions for Renewable Energy Generation Facilities) that came in force on July 1, 2018.

As such, the Generator represents and warrants that the statement in the box checked and initialled below is true and acknowledges that Hydro One is relying on such representation and warranty. The Generator further acknowledges and agrees that if the statement in the box checked and initialled below is not true at the time that Hydro One is proposed to connect the Generation Facility, Hydro One shall have the right to refuse to connect the Generation Facility to Hydro One's distribution system.

Incomplete applications may be returned by Hydro One Networks inc. ("Hydro One"). Failure to provide the information requirements will result in delays in processing your Connection Impact Assessment Application submission.

## ▶ PROJECT INFORMATION

Please complete the following fields:

Project Name (as listed on your Form B Application)

IESO Contract Number *F-XXXXXX-XXX-XXX-XXX*

IESO Reference Number *FIT-XXXXXXX*

Location of Generation Facility *3VWdWd5[fk!Fai`IA`fScja*

*Please enter the following information about the **owner** (same as generator)*

Contact Person

Company Name

Mailing Address *including postal code, P.O. Boxes and Rural Routes will not be accepted*

Work Telephone

Cell Phone

Fax Num

Email Address

## ▶ DECLARATIONS

Please select ONE of the siting categories below (as applicable) and initial below.

- I declare that O. Reg. 274/18 DOES NOT apply to the Generation Facility at the location listed under Project Information due to the following: (Please select ONE)**
  - The facility is located on a reserve within the meaning of the *Indian Act (Canada)*.
  - The Generator had received a Feed-in-Tariff (FIT) Program, microFIT Program, Large Renewable Procurement (LRP) Program, Renewable Energy Supply Program or Renewable Energy Standard Offer Program (RESOP) contract for the Generation Facility prior to July 1, 2018.

Initial

- I declare that O.Reg. 274/18 DOES apply to the Generation Facility at the location listed under Project Information and I wish to continue with my Connection Impact Assessment (CIA) Application.**
