

Generic Inverter Manufacturer  
123 Inverter Avenue  
City, State/Province  
Country  
Postal Code  
Tel: (555) 555-5555

DER Project Name  
123 Project Street  
City, Province  
Postal Code

Hydro One Project ID#: XX,XXX

To Whom it May Concern,

The inverter(s) used for the above-mentioned project location have a restricted access protocol in place to prevent unauthorized capacity changes unless performed by the manufacturer or manufacturer's designated representative. The capacity shall not be adjusted above the listed de-rated value (in kW). The inverter serial number(s) and model(s) information is(are) listed below.

Manufacturer	Inverter Model	Serial Number	Rated Nameplate (kVA)	De-Rated Nameplate (kW)	Max Continuous De-Rated Current (A)

The derated capacity must be clearly indicated on the equipment, adjacent to the nameplate. Proper labeling must specify site-specific power and must state the maximum continuous derated output current in amperes.

Sincerely,

*Manufacturer's Representative Signature*
