

BRING SAVINGS IN-HOUSE

Get funding to hire a dedicated energy manager

While investing in energy efficiency can lead to substantial bottom-line benefits, many organizations can't devote the time or resources to managing energy-saving opportunities. We can help you hire a dedicated person to oversee, manage and implement all energy-efficiency projects.

GET FUNDING OF UP TO \$150,000 PER YEAR

A full-time energy manager is accountable for reducing energy costs and creating an overall energy strategy to increase energy efficiency and foster a culture of conservation.

An energy manager can:

- Develop energy management plans
- Secure financial incentives
- Identify and prioritize smart energy investments
- Implement, track and optimize conservation measures

Hands-on guidance

Here's why an energy manager can help you gain a competitive advantage

- 1 IN-DEPTH UNDERSTANDING**
An on-site energy manager will become familiar with your day-to-day operations and can devote the time needed to uncover savings opportunities, reduce energy consumption and operating costs.
- 2 IS A DEDICATED RESOURCE**
From securing incentives and implementing projects, to tracking post-implementation results, an energy manager can manage all aspects of the process, so other staff can focus on their jobs.
- 3 DEVELOPS A CULTURE OF CONSERVATION**
As energy managers look holistically at energy management, they can also provide training to staff and recommend operational changes.
- 4 ESTABLISHES A LONG-TERM PLAN**
Through simple payback estimates, an energy manager can help set targets, develop a detailed plan to achieve measurable results and a long-term strategy.

WHAT IS THE INCENTIVE?

Performance Based

UP TO **\$150,000**
PER YEAR

Earn up to \$40 per MWh for all electricity savings delivered, up to \$150,000 per year.

THIS PROGRAM IS SUITED FOR:

- **Industrial facilities** such as manufacturers and processing plants with complex systems and operations.
- **Large commercial buildings** such as hotels, nursing homes, offices and multi-residential buildings.
- **Institutions** such as hospitals, schools and universities
- **Municipal buildings** and other facilities

DO YOU HAVE MULTIPLE FACILITIES?

If you have five or more facilities across different service areas, you may qualify for the **Multi-Site Customer Energy Manager** program.

- Get an up-front payment of \$40,000 to hire an energy manager
- Must meet at least 2,000 MWh in annual savings
- \$40 paid for every MWh, up to \$150,000 per year
