Partners in Powerful Communities

“There are many farmers in this area who have taken advantage of the Save on Energy Small Business Lighting program. I think it’s a great program. Our arena is brighter and we’re saving energy.”

– Kathryn Newbigging, Heatherstone Hackney Farm

Kathryn and Bruce Newbigging operate Heatherstone Hackney Farm, a 100-acre mixed farm where they breed prize-winning Hackney horses, pigs, cattle and chickens and grow crops. They have an arena in their barn for the horses. Previously it was lit with T12 fixtures which were old and becoming unreliable.

A NEIGHBOUR RECOMMENDED THE SMALL BUSINESS LIGHTING PROGRAM

“We heard from a neighbour that Hydro One was doing small business related work and that there was a program that we could look into. We called and the contractor came out, evaluated our lighting and we agreed on a date for installation. They did a wonderful job and we’re very happy with the new lighting,” said Kathryn.

INCLUDES ASSESSMENT, HARDWARE, INSTALLATION AND CLEAN UP

This program applies to interior lighting in barns and other buildings. It does not apply to homes or exterior lighting. During the assessment, it will be determined what is covered under the program. You have the option of asking the contractor to perform additional work, but there is absolutely no obligation.

SOLUTIONS TO HELP YOU BECOME MORE ENERGY EFFICIENT

Hydro One offers significant financial incentives to encourage businesses and industries of all types to better manage their electricity use:

- energy audits
- lighting upgrades
- equipment retrofits
- chilled water system upgrades
- process and systems upgrades
- energy managers
- major renovations and new construction
- and more
