

APPENDICES

CHATHAM TO LAKESHORE 230 KV TRANSMISSION LINE CLASS ENVIRONMENTAL ASSESSMENT

Draft Environmental Study Report

Appendices A - B

**Appendix A Independent Electricity System
Operator (IESO), June 11, 2019
Handoff Letter**

June 11, 2019

Robert Reinmuller
Director, Transmission System Planning
Hydro One Networks, Inc.
483 Bay Street
Toronto, ON M5G 2P5

Dear Robert:

Re: Building a new 230 kV double-circuit line from Chatham SS to Lakeshore TS to reinforce the bulk transmission system west of Chatham

The purpose of this letter is to request Hydro One to initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from the Chatham Switching Station (“SS”) to the new Lakeshore Transformer Station (“TS”) located at Leamington Junction and associated station facilities at the terminal stations. The required in-service date for these facilities is prior to the winter of 2025/2026.

The purpose of these new facilities is to:

- Increase the overall transfer capability of the bulk transmission system west of Chatham in order to reliably supply the forecast load growth in the Kingsville-Leamington area and the broader Windsor-Essex Region in the near- to mid-term,
- Permit the resources and bulk facilities in this region to operate efficiently for local and system needs, and
- Maintain existing interchange capability on the Ontario-Michigan interconnection between Windsor and Detroit.

More details regarding the needs and solution options for reinforcing the bulk transmission system west of Chatham are documented in an IESO’s report entitled “Need for Bulk Transmission Reinforcement in the Windsor-Essex Region, June 13, 2019”.

Background

The west of Chatham bulk transmission system extends from Chatham in the east to Windsor in the west and is part of the larger west of London bulk transmission network, as shown in Figure 1.

This system is comprised of a 230 kV and 115 kV high voltage network interconnecting the load centers and large generators in the region to the Ontario electricity grid. As well, it provides a point of interconnection with the power system in Michigan. The west of Chatham system plays an important role in providing an adequate and reliable electricity supply to customers in the

Windsor-Essex region and enabling efficient operations of the resources in the region and on the interconnection.

There has been a significant increase in the demand forecast for electricity in the Kingsville-Leamington area. Primarily, this is driven by rapid expansion in the greenhouse sector and aggressive adoption of artificial crop lighting. As a result, the electricity demand in the Windsor-Essex region is forecast to double over the next five years and continue to grow in the longer term beyond that.

While the current demand in this region is being adequately supplied from local generation and from the region's bulk transmission system at this time, the significant and sustained growth forecast for the Kingsville-Leamington area and the broader Windsor-Essex region will require reinforcement of the existing supply. Studies conducted by the IESO, with support from Hydro One and the local LDCs, concluded that reinforcement of the existing transmission system, both the bulk and regional networks, is necessary and is the most economical solution to address the region's near- to mid-term electricity needs. New supply options were considered, but found to be less economic than the transmission solution. The studies also identify that supplementing the available supply with demand-side and interim solutions, while the transmission solution is being implemented, is also beneficial.

Integrated Transmission Solution

The recommended transmission solution comprises two stages:

- Stage 1: A new switching station at the Leamington Junction ("Lakeshore TS") to be in-service by the end of 2022, as identified in the hand-off letter¹ issued by the IESO to Hydro One on January 31, 2019. This will improve the capability of the system to connect and supply additional transformer stations and large transmission customers that are currently planning to connect.
- Stage 2: A new 230 kV double-circuit transmission line connecting Chatham SS to Lakeshore TS and associated terminal facilities, with an in-service date prior to the winter of 2025/2026, in order to address the specified bulk system level needs, as documented in the aforementioned report.

The ongoing Windsor-Essex Integrated Regional Resource Plan ("IRRP") will incorporate these transmission solution recommendations and continue to look at needs of the local area, focus on investigation of non-wires alternatives to manage evolving capacity needs in the region, and provide customers in the region with adequate line connection and step-down transformation capacity, while maintaining a level of reliability consistent with accepted planning standards.

West of Chatham (Chatham to Lakeshore) Transmission Line Project Scope

Based on the above considerations, the IESO recommends that Hydro One initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from Chatham SS to the new

¹ Further details on the switching station can be found here: http://www.ieso.ca/-/media/Files/IESO/Document-Library/regional-planning/Windsor-Essex/Switching-Station-in-the-Leamington-Area_Signed_Jan-31-2018.pdf?la=en

Lakeshore TS and associated station facilities at the terminal stations. Single-line diagrams of the existing and proposed facilities are shown in Figures 2 and 3 respectively. The work for the new line will need to be coordinated with the Lakeshore TS development, in order to appropriately plan the station layout for connection and allow for the installation of any reactive facilities, as required.

The project and its related costs and timelines have been discussed with Hydro One. The IESO understands that an in-service date of prior to the winter of 2025/2026 is achievable, while recognizing that earlier implementation will only further support growth in the region. Hydro One has indicated that costs for the project are projected to range between \$115 M and \$150 M. If project costs are forecasted to exceed the upper end of this range, and/or the delivery timeline cannot meet the targeted in-service date, Hydro One will notify the IESO so that the assessment of the bulk system reinforcement plan in the Windsor-Essex region can be updated.

Future Activities

The subject transmission line is the second stage of a number of improvements to the bulk transmission system that will be required to support load growth in the Windsor-Essex region. Together, the new line and station form the basis for accommodating mid- and long-term needs in the Windsor-Essex region and into the broader West of London area. The IESO will continue to monitor the progress of load and generation developments in the area. Future stages of system reinforcement will be triggered as required. The IESO feels that this is a prudent approach to meeting the need in the region.

IESO will continue to work with, and provide support to, Hydro One in the implementation of this project. We look forward to an ongoing exchange of information as Hydro One proceeds with the development of the project.

Yours truly,

Leonard Kula, P. Eng.

Vice President, Planning, Acquisition and Operations, and Chief Operating Officer

Appendix B2 Class EA Consultation Materials

January 2020

NOTICE OF COMMENCEMENT

CLASS ENVIRONMENTAL ASSESSMENT FOR A NEW TRANSMISSION LINE FROM CHATHAM-KENT TO LAKESHORE

Dear Resident,

As demand for electricity in southwestern Ontario is anticipated to grow significantly over the next several years, Hydro One is initiating a Class Environmental Assessment (Class EA) to construct a new double-circuit 230 kV transmission line between the Chatham Switching Station (SS), located in the Municipality of Chatham-Kent, and the Lakeshore Switching Station (SS), which will be located in the Town of Lakeshore. This new transmission line is needed so that Hydro One can meet the growth and future demand of the industrial, agricultural and residential sectors in the region.

The proposed project is subject to the "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), in accordance with the Ontario *Environmental Assessment Act*. The Class EA is a streamlined planning process to ensure that applicable projects are planned and carried out in a manner that is efficient and environmentally acceptable. The project will also require Ontario Energy Board (OEB) approval under Section 92 (Leave to Construct) of the OEB Act.

Through the EA process, we will evaluate multiple alternative routes and their associated variations, as shown on the attached map and online, in greater detail, at HydroOne.com/Chatham-to-Lakeshore. The anticipated in-service date for the new line and associated equipment is the end of 2025.

In the months ahead, we will begin collecting environmental and technical data to assess the project area. We will also gather input on the proposed project from residents, Indigenous communities, businesses, government agencies, and interest groups. This input will be taken into consideration when selecting our preferred route for the new transmission line.

Next month, you will receive an invitation to an open house to learn more about the project. In the interim, if you have questions or would like any additional information about the project, we encourage you to contact us at:

NOTICE OF COMMENCEMENT

CLASS ENVIRONMENTAL ASSESSMENT FOR A NEW 230 KILOVOLT TRANSMISSION LINE FROM CHATHAM-KENT TO LAKESHORE

As demand for electricity in southwestern Ontario is anticipated to grow significantly over the next several years, Hydro One Networks Inc. (Hydro One) is initiating a Class Environmental Assessment (Class EA) to construct a new double-circuit 230 kilovolt (kV) transmission line from the Chatham Switching Station (SS) in the Municipality of Chatham-Kent to the Lakeshore SS which will be located in the Town of Lakeshore.

This new transmission line is needed to ensure that Hydro One meets the growth and future demand of the industrial, agricultural and residential sectors in the region.

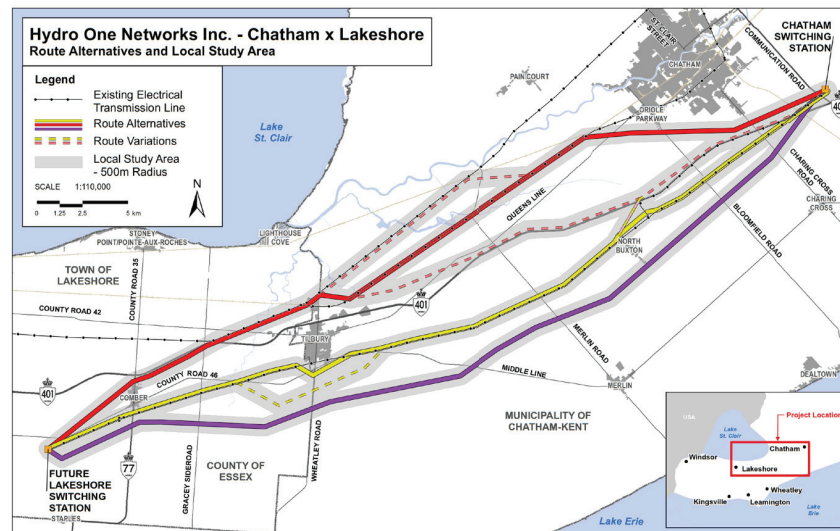

The proposed project is subject to the "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), in accordance with the *Ontario Environmental Assessment Act*. The Class EA is a streamlined planning process that has proven effective in ensuring minor transmission projects with a predictable range of effects have feasible environmental mitigation and/or protection measures in place. The project will also require Ontario Energy Board (OEB) approval under Section 92 (Leave to Construct) of the *OEB Act*.

Through the EA process, we will evaluate multiple alternative routes and their associated variations, as shown on the map below and online, in more detail, at HydroOne.com/Chatham-to-Lakeshore

The anticipated in-service date for the new line and associated equipment is the end of 2025.

We Want to Hear From You

The Class EA process provides opportunities for Indigenous communities, members of the public, businesses, stakeholder groups, government agencies and other interested parties to participate and provide feedback. Members of our team will be available to discuss the route alternatives in person at a series of Community Information Centers (CICs) throughout the duration of the EA. Information regarding the first CIC will become available in the next month. In the meanwhile, if you have questions or would like any additional information about the project, please contact Hydro One Community Relations at Community.Relations@HydroOne.com, or 1.877.345.6799. Project information will also be available online at HydroOne.com/Chatham-to-Lakeshore

Freedom of Information and Protection of Privacy Act. All personal information included in a submission – such as name, address, telephone number and property location – is collected, maintained and disclosed by the Ministry of the Environment, Conservation and Parks for the purpose of transparency and consultation. The information is collected under the authority of the Environmental Assessment Act or is collected and maintained for the purpose of creating a record that is available to the general public as described in s. 37 of the Freedom of Information and Protection of Privacy Act. Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. For more information, please contact the Ministry of the Environment, Conservation and Parks' Freedom of Information and Privacy Coordinator at 416-846-2846.

YOU'RE INVITED

COMMUNITY INFORMATION CENTRE FOR A NEW TRANSMISSION LINE FROM CHATHAM-KENT TO LAKESHORE

Dear Resident:

You're invited to a Community Information Centre for a new transmission line from Chatham-Kent to Lakeshore.

A safe and reliable power supply is essential to supporting economic growth, and as businesses and industry in southwestern Ontario continue to expand so does the need for more electricity. That's why Hydro One is proposing to construct a new double-circuit 230 kilovolt transmission line from our Chatham Switching Station located in the Municipality of Chatham-Kent to the future Lakeshore Switching Station, which will be located in the Town of Lakeshore.

We'd like to hear from you

As part of the planning process for the project, Hydro One will be conducting a Class Environmental Assessment (EA) in accordance with the *Ontario Environmental Assessment Act*. During this process, we will be gathering input from residents, First Nations communities, businesses and stakeholder groups to help us evaluate the route alternatives as shown on the reverse map.

Consultation and engagement is important to Hydro One's Class EA process, and we invite you to drop by one of our upcoming Community Information Centres to learn more about the project and provide your feedback.

You're invited to a Community Information Centre for a new transmission line from Chatham-Kent to Lakeshore.

A safe and reliable power supply is essential to supporting economic growth. As businesses and industry in southwestern Ontario continue to expand, so does the need for more electricity. That's why Hydro One is proposing to construct a new double-circuit 230 kilovolt transmission line from our Chatham Switching Station located in the Municipality of Chatham-Kent to the future Lakeshore Switching Station, which will be located in the Town of Lakeshore.

We'd like to hear from you

As part of the planning process for the project, Hydro One will be conducting a Class Environmental Assessment (EA) in accordance with the *Ontario Environmental Assessment Act*. During this process, we will be gathering input from residents, First Nations communities, businesses and stakeholder groups to help us evaluate the route alternatives as shown on the map below.

Consultation and engagement is important to Hydro One's Class EA process, and we invite you to drop by one of our upcoming Community Information Centres to learn more about the project and provide your feedback.

PLEASE JOIN US:

MARCH 23, 2020

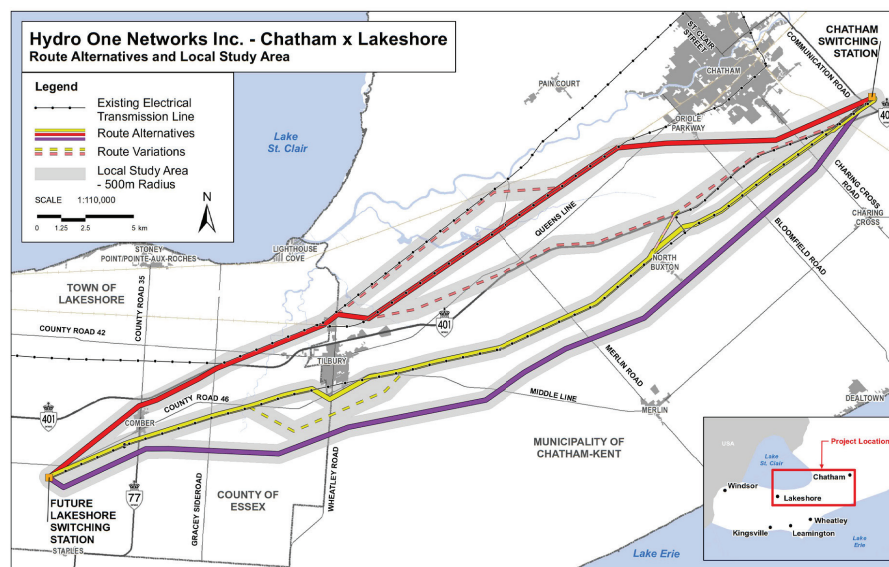

5 – 8 p.m. EST
Links of Kent Golf Course

All personal information included in a submission – such as name, address, telephone number and property location – is collected, maintained and disclosed by the Ministry of the Environment, Conservation and Parks for the purpose of transparency and consultation. The information is collected under the authority of the Environmental Assessment Act and is collected and maintained for the purpose of creating a record that is available to the general public as described in s. 37 of the Freedom of Information and Protection of Privacy Act. Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential.

Community Update

COMMUNITY INFORMATION CENTRE FOR CHATHAM TO LAKESHORE LINE PROJECT TO BE RESCHEDULED

March 2020

At Hydro One the health and safety of our employees and the communities we work in is top priority. In light of recent public health developments, Hydro One will be canceling upcoming in-person open house meetings for the Chatham to Lakeshore Line project, planned for March 23rd, 24th and 25th.

We are committed to ensuring you have up to date information on the project and as we continue to monitor the latest developments, we will provide details on when these meetings will be rescheduled.

As always, our project team will remain available to answer your questions. You can contact us by phone at **1-877-385-4099**, or by email at **Community.Relations@HydroOne.com**. We also invite you to visit our project webpage at www.HydroOne.com/Chatham-to-Lakeshore any time for the most up to date information.

Sincerely,
Hydro One Community Relations

NOTICE OF VIRTUAL INFORMATION SESSIONS

CHATHAM TO LAKESHORE LINE PROJECT

Dear Resident,

We invite you to join one of our upcoming virtual information sessions for the Chatham to Lakeshore Line project on Tuesday, May 12th and Thursday, May 14th.

As you may recall, the in-person Community Information Centres planned for March 23rd, 24th and 25th were postponed in light of the global COVID-19 pandemic. As we continue to monitor the latest pandemic developments, we will look for a safe opportunity to reschedule these in-person sessions.

In the interim, we remain committed to ensuring that you have up to date information on the project. That is why we will be hosting two virtual information sessions, which will include both a live stream presentation and telephone conference. By joining one of our virtual sessions, you will have an opportunity to learn more about the project and Class Environmental Assessment process, as well as ask questions to members of our project team. To submit a question in advance, please email your inquiry to Community.Relations@HydroOne.com.

PLEASE JOIN US:

MAY 12, 2020 **MAY 14, 2020**

7 – 8 p.m. EST 7 – 8 p.m. EST

TO PARTICIPATE:

1. Dial **1-800-785-1615** to join the call and listen to the presentation
2. Visit www.hydroonemeeting.ca to register and view our live stream materials

As part of our outreach, you may also receive an automated call on both May 12th and 14th, reminding you about the upcoming session and inviting you to stay on the call to participate.

CLASS ENVIRONMENTAL ASSESSMENT

Earlier this year, Hydro One commenced a Class Environmental Assessment (EA) in accordance with the *Ontario Environmental Assessment Act*. As part of this process, we are engaging with, and gathering input from residents, First Nations communities, stakeholder groups, and businesses small and large to help shape the project, including the evaluation of the route alternatives shown on the reverse map. Consultation and engagement is important to Hydro One, and we look forward to having you join us.

If you would like any further information or have any questions, please contact Community Relations at:

Tel: 1-877-345-6799

Email: Community.Relations@HydroOne.com

Website: www.HydroOne.com/Chatham-to-Lakeshore

WELCOME
TO OUR VIRTUAL COMMUNITY
INFORMATION SESSION
CHATHAM TO LAKESHORE
TRANSMISSION LINE PROJECT

TODAY'S AGENDA

- Project overview
- Class Environmental Assessment process
- Proposed route alternatives and route selection process
- Key milestones and next steps
- Live Q&A session

KEY ORGANIZATIONS

Building infrastructure to meet the energy needs of today and tomorrow involves a number of partners, including:

Builds, owns, operates and maintains electricity transmission and distribution facilities across Ontario.

Oversees planning to ensure electricity needs are met both now and in the future.

Ministry of the Environment,
Conservation and Parks

Legislative authority for environmental assessments in Ontario.

Regulates the electricity market in Ontario, including electricity rates.

HOW THE SYSTEM WORKS

ONTARIO POWER GENERATION AND PRIVATE GENERATION COMPANIES

HYDRO ONE OR LICENSED TRANSMITTER

HYDRO ONE OR LOCAL DISTRIBUTION COMPANY

PROJECT OVERVIEW

A safe and reliable electricity supply is essential to supporting economic growth, and as businesses and industry in southwestern Ontario continue to grow, so does the need for more electricity.

To help meet this growth, Hydro One needs to build a new double circuit 230 kilovolt transmission line between our Chatham Switching Station and our future Lakeshore Switching Station, as requested by the Independent Electricity System Operator (IESO).

This line will add 400 megawatts of power to the area – or enough power to energize a city the size of Windsor.

This project requires a Class Environmental Assessment, where multiple route alternatives will be evaluated.

It is anticipated this line will be in-service prior to the end of 2025.

WHAT IS A CLASS ENVIRONMENTAL ASSESSMENT?

The Class Environmental Assessment (Class EA) for Minor Transmission Facilities sets out a planning and decision-making process for projects with predictable environmental effects that can be mitigated.

KEY COMPONENTS

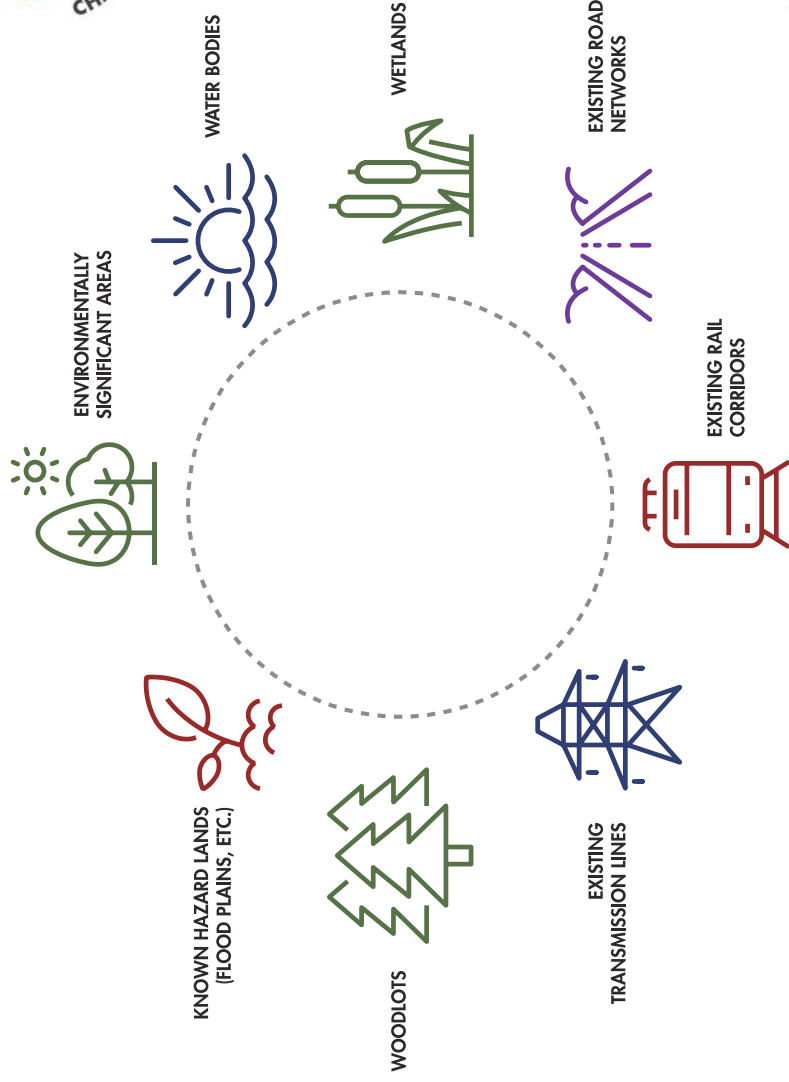

- Consultation with Indigenous communities, community members, elected officials, interest groups and government agencies;
- Collection of environmental inventory;
- Identification and evaluation of alternative methods;
- Identification of potential effects and mitigation measures;
- Selection of a preferred alternative
- A draft Environmental Study Report (ESR) that will be made available for a 30-day public review and comment period; and
- Submission of Statement of Completion and Final ESR

HOW WE GOT HERE

A preliminary assessment was conducted to map feasible route alternatives for the new transmission line.

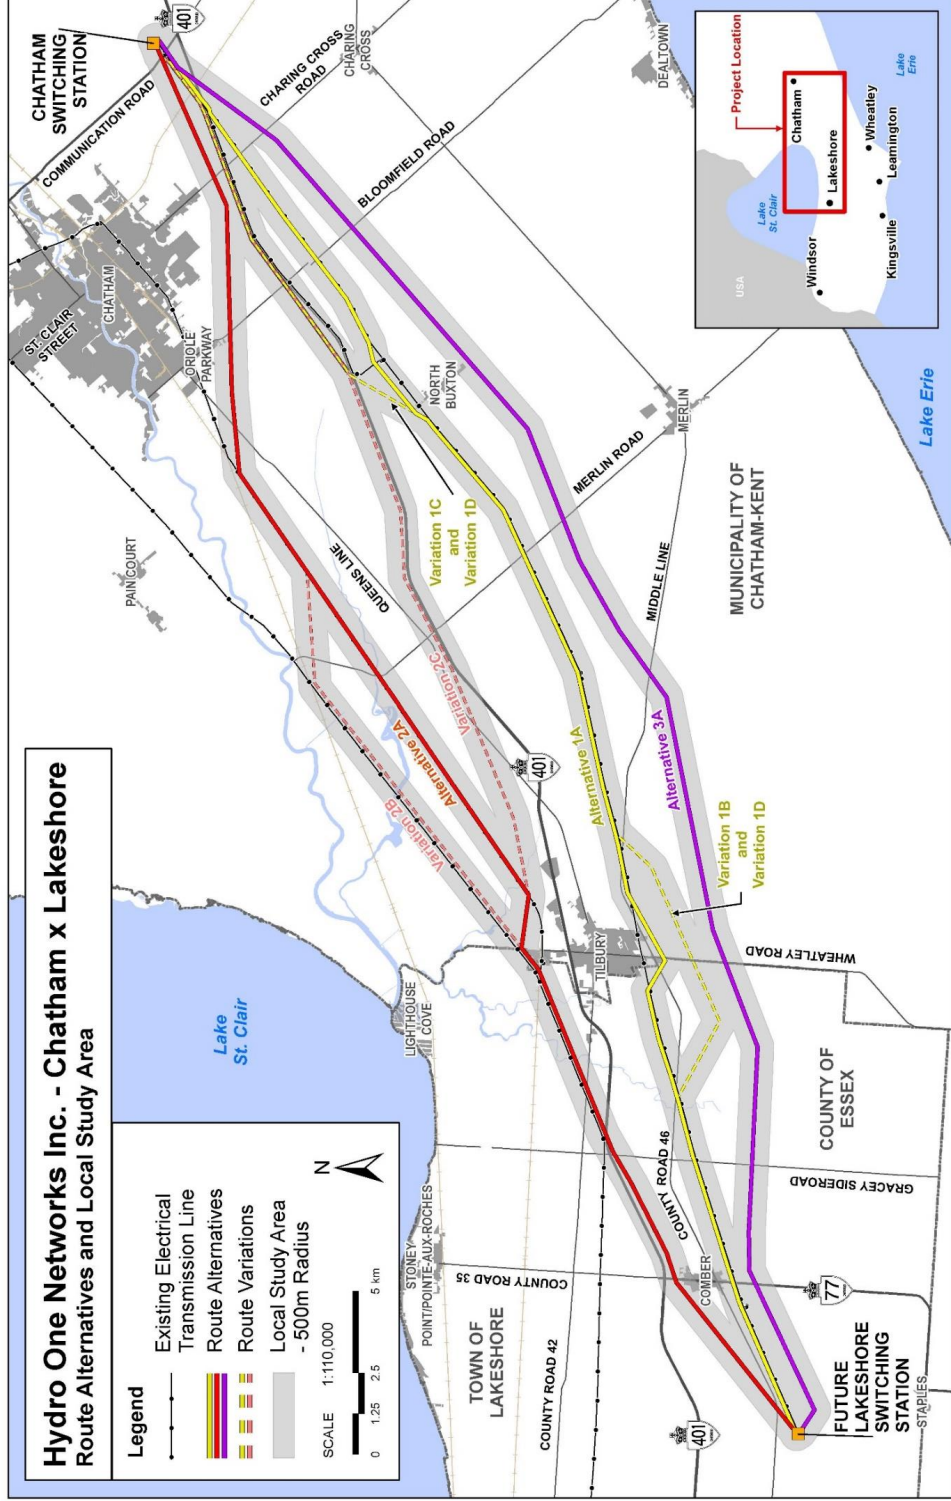

This involved mapping out known environmental and technical features, and identifying opportunities to parallel existing linear infrastructure and utilize existing easements, where possible.

ROUTES WE ARE STUDYING

To view our
interactive map,
please visit:
www.arcg.is/1PKL1n

EVALUATION OF ROUTES

To evaluate the route alternatives, we will:

- Meet with First Nations communities, community members, elected officials, and interest groups through Community Information Centres and engagement opportunities to gather feedback;
- Conduct background research and detailed environmental field studies and technical assessments; and
- Host a number of workshops with Technical Advisory Committee members.

Based on the feedback and data collected, Hydro One will evaluate each route alternative based on a number of criteria.

EXAMPLE EVALUATION CRITERIA

Natural Environment

- Vegetation
- Water bodies or aquatic habitat
- Terrestrial wildlife
- Natural hazards (erosion, flood plains, etc.)
- Species at risk/sensitive species

Socio-Economic Environment

- Residences
- Commercial operations
- Existing infrastructure (roads, pipelines, transmission lines, etc.)
- Agricultural lands, resources and operations
- Archaeological or built heritage resources

First Nations/ Traditional Land Use

- First Nations interests (cultural sites, traditional areas, historical lands and resources)

Technical and Cost

- Construction complexity
- Cost

LAND REQUIREMENTS

Hydro One Real Estate coordinators have acquired temporary access from some landowners to conduct field studies as part of the Class EA process.

Upon the selection of the preferred route, a Hydro One Real Estate coordinator will work with directly impacted property owners that will have a proposed structure or corridor on their property.

Hydro One has a long history of building transmission projects and working in communities across the province. To guide our conversations with property owners, specific land acquisition principles based on our past experiences will be applied.

HOW TO GET INVOLVED

Your feedback is important to us and we want to hear from you. You can provide us with your feedback by:

Asking a question via our virtual community information session

Submitting your comments to Community.Relations@HydroOne.com or 1-877-345-6799

Attending future Community Information Centres and other engagement opportunities

To stay up to date on project details, please visit our webpage www.HydroOne.com/Chatham-to-Lakeshore

NOTICE OF VIRTUAL OPEN HOUSE AND LIVE DISCUSSION

CHATHAM TO LAKESHORE LINE PROJECT

Dear Resident,

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now, and into the future. As local businesses and industry continues to expand in the region so does the need for more electricity.

We're pleased to invite you to join us for two upcoming engagement events for an update on Hydro One's Chatham to Lakeshore Line project. Starting on October 29th, you can visit our virtual open house where you will find a series of information boards, and on November 5th you can participate in a live virtual discussion with members of our project team.

In January, our team initiated a Class Environmental Assessment (EA) to build a new double-circuit 230-kilovolt transmission line from our Chatham Switching Station to the future Lakeshore Switching Station. This line will ensure the region can accommodate anticipated growth and support local industries at a time when it is needed most, including the agricultural and food processing sectors.

Since our last virtual information session in May, the Hydro One team has conducted technical studies and received a variety of feedback, all leading to a more in-depth understanding of the study area for each of the route alternatives. Based on what we have learned, we have made four refinements to our routes and have identified the need to expand our Chatham Switching Station to the east on our existing lands, due to technical and environmental constraints and requirements. Further details can be found on the reverse and on our interactive map at the link on the right.

We believe that electricity planning requires sharing and gathering input from the community, and we look forward to having you visit our upcoming virtual events to learn more about the Class EA evaluation process, route refinements, and next steps.

VISIT OUR VIRTUAL OPEN HOUSE:

STARTING OCTOBER 29, 2020

TO VIEW:

Visit chatham-to-lakeshore-openhouse.com

JOIN OUR VIRTUAL LIVE DISCUSSION:

NOVEMBER 5, 2020

7:00 – 8:00 p.m. EST

TO PARTICIPATE:

1. Dial **1-800-785-1615** to join the call and listen to the presentation
2. Visit hydroonemeeting.ca to register and view our live stream materials
3. To submit a question in advance, please email your inquiry to Community.Relations@HydroOne.com.

HOW TO PARTICIPATE TONIGHT

Press 3 on your telephone at any time to ask a question

Type a question in the submission box on the right hand side

PROJECT OVERVIEW

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now and into the future.

In June 2019, the Independent Electricity System Operator (IESO) requested Hydro One build a new double-circuit 230 kilovolt transmission line from the Chatham Switching Station to the future Lakeshore Switching Station.

This project requires undertaking a Class Environmental Assessment which began in January 2020.

It is anticipated this line will be in-service prior to the end of 2025.

HOW THE NEW LINE WILL SUPPORT THE REGION

As businesses and industry continue to expand in the region, so does the need for more electricity.

The new high voltage transmission line will support the region by:

Ensuring critical infrastructure is in place to keep southwestern Ontario one of North America's agricultural hubs

Improving reliability for homes and businesses including both Hydro One and local distribution customers

Connecting more people and industry to the grid by bringing enough energy to power a city the size of Windsor to the area

Supporting the local economy by creating new direct and spin off jobs and training opportunities as one of the largest electricity infrastructure projects in the region

CLASS ENVIRONMENTAL ASSESSMENT

The Class Environmental Assessment (Class EA) for Minor Transmission Facilities sets out a planning and decision-making process for projects with predictable environmental effects that can be mitigated.

INITIAL ROUTE ALTERNATIVES

To view our interactive map, please visit:

www.arcg.is/1PKL1n

ENGAGEMENT & FEEDBACK HEARD

Hydro One is committed to ongoing engagement and consultation.

To date we've:

- Held 2 virtual information sessions with community members reaching more than 4,000 households.
- Held 2 virtual information sessions with First Nations communities reaching more than 200 households.
- Held 2 virtual Technical Advisory Committee workshops with provincial and federal agencies, First Nations community representatives, and technical and industry stakeholders.
- Corresponded via phone or email with more than 100 community members.
- Organized regular and frequent engagement with local elected officials.
- Engaged with eight First Nations communities.
- Distributed more than 60,000 flyers.

KEY FEEDBACK WE'VE HEARD:

- Protecting agricultural features should be considered when both selecting the route and designing the line.
- Farming practices should be considered as part of the solution used to deliver this project.
- The former rail corridor should be reconsidered as a potential route alternative.

TECHNICAL WORK & DISCOVERIES

Our team has performed background research and conducted field surveys on each of the route alternatives.

To date we've:

- Collected natural heritage information.
- Reviewed municipal official plans.
- Completed a Stage 1 archaeological assessment and cultural heritage existing conditions study.
- Conducted environmental field surveys for ecological land classification, vegetation inventory, aquatic habitat, breeding birds and species at risk habitat.
- Conducted an in-depth reassessment of the former rail corridor, including site reconnaissance, as a potential route alternative based on project feedback.

WHAT WE'VE LEARNED:

- Better understanding of the natural and socio-economic environment within the study area.
- Certain setback distances from the Highway 401 corridor and interchanges, provided by the Ministry of Transportation, must be maintained.
- The former railway corridor presents a number of constraints deeming it not sufficient as a route alternative for the project.
- Additional constraints posed by other utilities in the region must be considered.

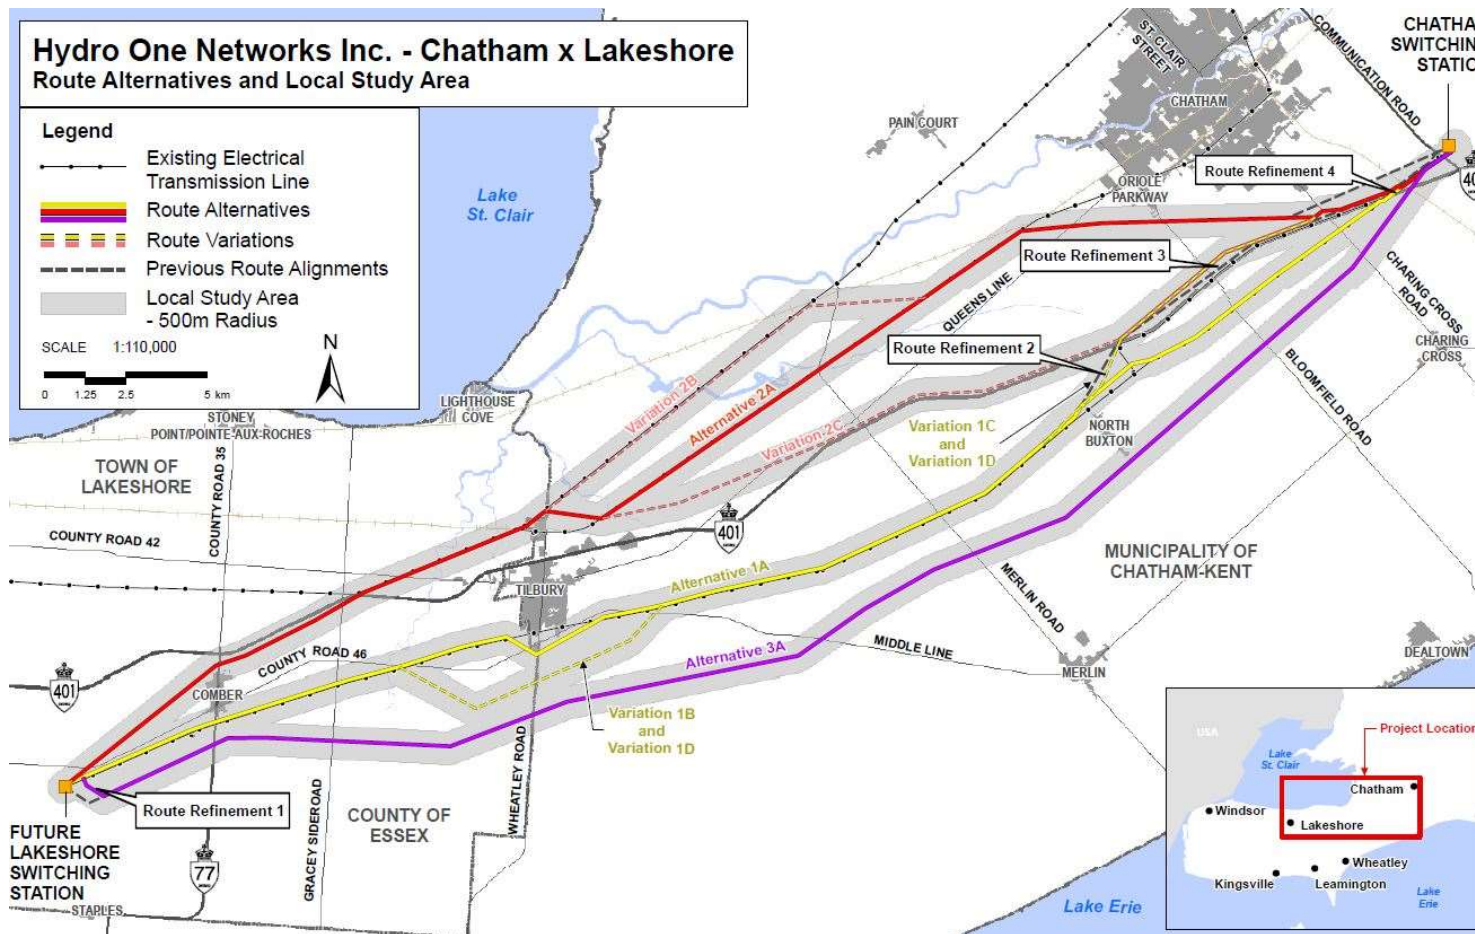

HOW HAS THIS SHAPED THE PROCESS?

The feedback received and the information captured have informed the Class Environmental Assessment process by:

- Expanding our overall knowledge and understanding of the local areas.
- Identifying a need to make four refinements to the route alternatives we are studying.
- Establishing the criteria that will be used to evaluate the route alternatives and ultimately select a preferred one.
- Identifying a potential list of measures to avoid, mitigate and/or restore environmental effects when building the line.

REFINED ROUTE ALTERNATIVES WE ARE EVALUATING

To view our interactive map, please visit:

www.arcg.is/1PKL1n

Route Refinement 1

A portion of Route Alternative 3 has been refined to connect to the future Lakeshore Switching Station, north of the existing 230-kilovolt transmission lines.

 - Route Variation 1C/1D/2C Previous Alignment
 - Local Study

- Base Data**
- Existing Electrical Transmission Line
 - Highway
 - Road
 - Railway
 - Property Boundary

A portion of Route Alternative 2, Variations A and B have been consolidated with the other route alternatives paralleling Highway 401 and the existing transmission line corridor. Additionally, a portion of Route Alternative 1, Variations C and D and Route Alternative 2, Variation C, have been refined and shifted further north from the overpass at Charing Cross Road. Both of these route refinements now consolidate with the route leading into the south end of the Chatham Switching Station. These refinements accommodate certain setback distances from the Highway 401 corridor and Charing Cross overpass, as provided by the Ministry of Transportation; address technical constraints with an existing wind farm transmission line crossing; further align with existing infrastructure; avoid known archaeological sites; and, meet the requirements to connect the new line to the south side of the Chatham Switching Station.

EVALUATION OF ROUTE ALTERNATIVES

Using the feedback that we have received to date, as well as the detailed environmental and technical assessments we have conducted, Hydro One has developed the list of criteria under four categories that will be used to evaluate each of the route alternatives in order to select a preferred route.

Over the next few months, we will be using a weighted Multi-Criteria Decision Making (MCDM) analysis method to inform our decision-making. Including assigning relative weighting to each criteria measure and evaluating and selecting the preferred route.

CATEGORIES

Socio-Economic Environment

Technical and Cost

Natural Environment

First Nations Culture, Values and Land Use

ROUTE EVALUATION CRITERIA

Socio-Economic Environment

- Land use designations
- Future land use designations
- Agricultural operations
- Petroleum operations
- Commercial/industrial buildings, properties, site plans or business operations/supply chains
- Cultural resources
- Residential buildings, properties or site plans
- Source water protection
- Archaeological resources
- Aggregate resources extraction areas/operations (pits/quarries)

Natural Environment

- Fish and aquatic habitat
- Vegetation
- Terrestrial and wildlife habitat
- Species at risk & species of conservation concern
- Natural hazards, wetlands and floodplain areas
- Designated natural areas

First Nations Culture, Values and Land Use

- First Nations traditional/contemporary lands and resources uses and occupation

Technical and Cost

- Line length
- Line angles
- Crossings
- Parallel and adjacent to underground pipelines
- Proximity to wind turbines
- Parallel and adjacent to existing transmission corridor
- Parallel and adjacent to other existing infrastructure (e.g., Highway 401)
- Number of properties requiring new real estate rights
- Number of mandatory property acquisitions

PREFERRED ROUTE SELECTED FOR THE NEW CHATHAM TO LAKESHORE LINE

HYDRO ONE HOSTS UPCOMING VIRTUAL EVENTS AND SHARES NEXT STEPS

Dear Resident,

We are contacting you with an update on the Chatham to Lakeshore Line project, a new transmission line that will help accommodate future electricity growth, improve reliability for homes and businesses and support local industries in the region at a time when it is needed most.

Over the past year, Hydro One has been conducting a Class Environmental Assessment (EA) to build a new double-circuit 230-kilovolt transmission line from our Chatham Switching Station to the future Lakeshore Switching Station. Through the Class EA process, we have assessed three route alternatives and associated variations by collecting environmental and technical information, as well as input from agencies, First Nations and Haudenosaunee communities, community members, elected officials, interest groups and businesses.

Based on this information gathered and feedback received, **Route Alternative 2A** has been selected as the preferred route for the new transmission line, as shown on the reverse map or in more detail on our website HydroOne.com/Chatham-to-Lakeshore.

As we reach this milestone in the electricity transmission planning process, we are committed to sharing information with you.

NEXT STEPS:

- Visit our interactive online open house, starting **February 25, 2021** where you will find a series of information boards.
- Join us on **March 11, 2021** for a live presentation and discussion with members of our project team.
- As part of our next stage in the development of the new line, Hydro One will also reach out to owners whose properties will be traversed by the preferred route alternative shortly following the March 11th live discussion. At that time, a dedicated real estate representative will directly connect with you to provide further information on next steps.

**We look forward to having you visit our upcoming events.
If you have any questions, please contact Community Relations at:**

PREFERRED ROUTE SELECTED FOR THE NEW CHATHAM TO LAKESHORE LINE

HYDRO ONE HOSTS UPCOMING VIRTUAL EVENTS AND SHARES NEXT STEPS

Hydro One has reached a milestone in the Chatham to Lakeshore Line project, a new transmission line that will help accommodate future electricity growth, improve reliability for homes and businesses and support local industries in the region at a time when it is needed most.

Over the past year, we have been conducting a Class Environmental Assessment (EA) to build a new double-circuit 230-kilovolt transmission line from our Chatham Switching Station to the future Lakeshore Switching Station. Through the Class EA process, we have assessed three route alternatives and associated variations by collecting environmental and technical information, as well as input from agencies, First Nations and Haudenosaunee communities, community members, elected officials, interest groups and businesses.

Based on this information gathered and feedback received, **Route Alternative 2A** has been selected as the preferred route for the new transmission line, as shown on the map below or in more detail on our website HydroOne.com/Chatham-to-Lakeshore.

As we reach this milestone in the electricity transmission planning process, we are committed to sharing information and continuing the conversation.

NEXT STEPS:

- Visit our interactive online open house, starting **February 25, 2021** where you will find a series of information boards.
- Join us on **March 11, 2021** for a live presentation and discussion with members of our project team.
- As part of our next stage in the development of the new line, Hydro One will also reach out to owners whose properties will be traversed by the preferred route alternative shortly following the March 11th live discussion. At that time, a dedicated real estate representative will directly connect with you to provide further information on next steps.

CHATHAM TO LAKESHORE LINE PROJECT

TONIGHT'S AGENDA

- Project and Class Environmental Assessment process update
- Route evaluation process and selection of the preferred route alternative
- Ongoing engagement
- Next steps
- Live Q&A session

HOW YOU CAN PARTICIPATE TONIGHT

Press 3 on your telephone at any time to ask a question

Type a question in the submission box on the right hand side

PROJECT OVERVIEW

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now and into the future.

In June 2019, the Independent Electricity System Operator (IESO) requested Hydro One plan and build a new double-circuit 230 kilovolt transmission line from the Chatham Switching Station to the future Lakeshore Switching Station.

This project requires undertaking a Class Environmental Assessment (Class EA) which began in January 2020.

Through the Class EA process, our team assessed several route alternatives, and based on information gathered and feedback received, Route 2A has been selected as the preferred route.

It is anticipated this line will be in-service between 2024 to 2025.

HOW THE NEW LINE WILL SUPPORT THE REGION

As businesses and industry continue to expand in the region, so does the need for more electricity.

The new high voltage transmission line will support the region by:

Ensuring critical infrastructure is in place to keep southwestern Ontario one of North America's agricultural hubs.

Improving reliability for homes and businesses, including both Hydro One and local distribution customers.

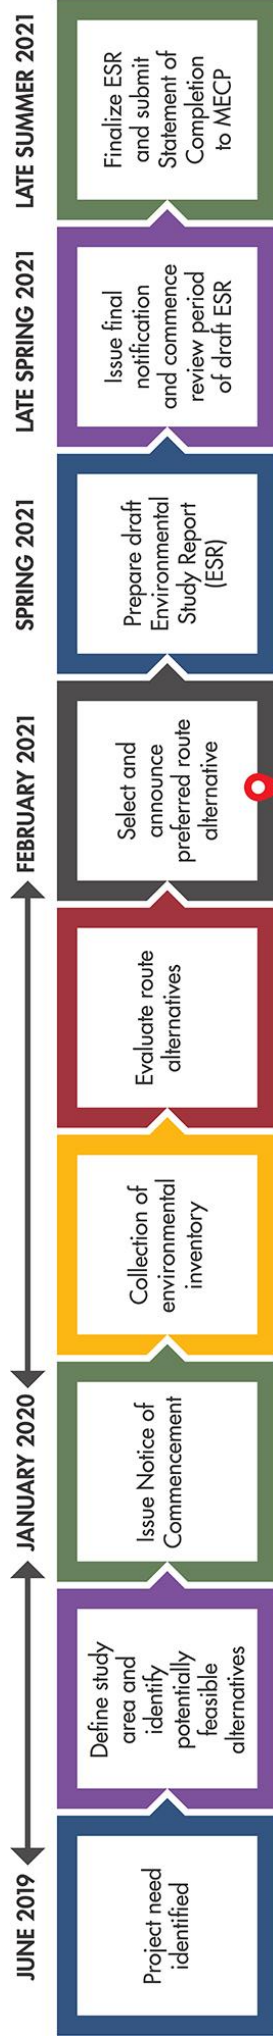

Connecting more people and industry to the grid by bringing enough energy to power a city the size of Windsor to the area.

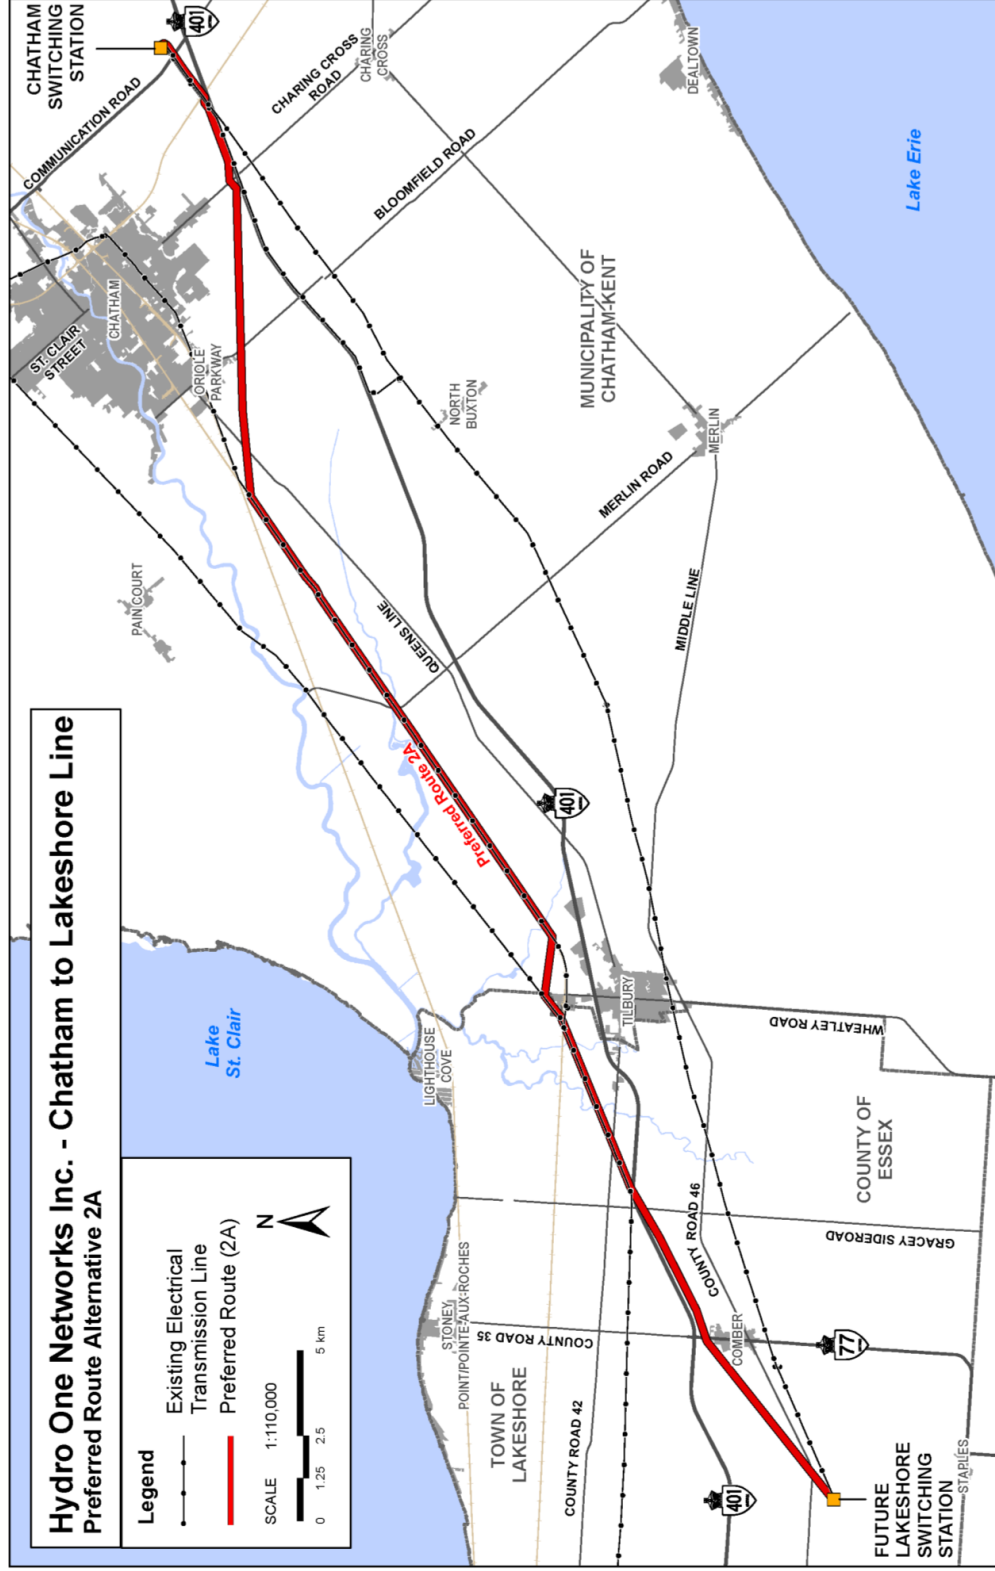

Supporting the local economy and communities by creating new direct and spin off jobs, as well as training opportunities as one of the largest electricity infrastructure projects in the region.

CLASS ENVIRONMENTAL ASSESSMENT PROCESS UPDATE

Ongoing engagement with First Nations and Haudenosaunee communities, community members, community members, elected officials, interest groups and government agencies

PREFERRED ROUTE ALTERNATIVE

For a detailed look,
view our interactive
map at:

www.arcg.is/1PKL1n

EVALUATION OF ROUTE ALTERNATIVES

The route evaluation process used to compare the advantages and disadvantages of each route consisted of collecting feedback from First Nations and Haudenosaunee communities, community members and stakeholders, as well as available information across the four adjacent categories.

Using this feedback and information collected, we established an evaluation framework, which included:

- Identifying a wide variety of evaluation criteria under each category; and
- Assigning a relative weight (level of importance) to each criterion.

Each route was evaluated fairly and holistically resulting in the selection of a preferred route alternative.

EVALUATION CATEGORIES

Socio-Economic Environment

Technical and Cost

Natural Environment

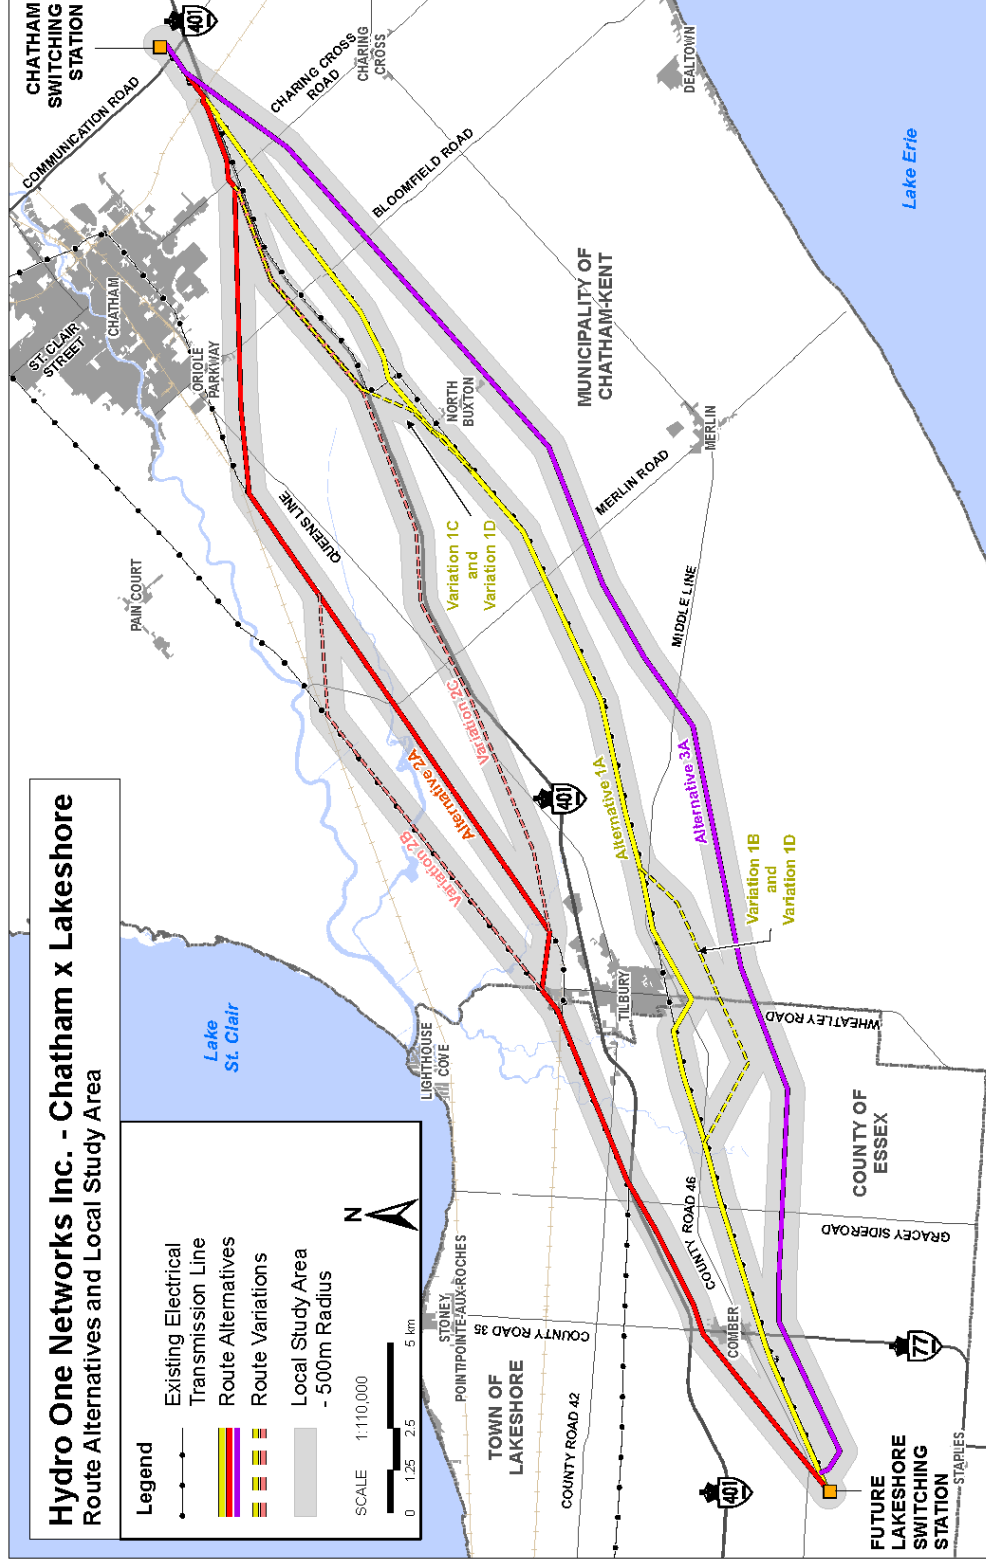

First Nations and Haudenosaunee Culture, Values and Land Use

ROUTE ALTERNATIVES ASSESSED

At the start of the project, we identified viable route alternatives, each with their own distinct advantages and disadvantages.

In October 2020, we made four refinements to the routes based on technical and environmental information learned.

INCORPORATING FEEDBACK

Ensuring that local feedback and knowledge was incorporated and reflected in the route selection process was a key priority.

SOME OF THE FEEDBACK WE HEARD:

- Effects to agricultural operations should be a key consideration.
- Opportunities to both repurpose existing utility corridors and parallel with other linear infrastructure should be prioritized.
- Certain setback distances from the Highway 401 corridor and interchanges, provided by the Ministry of Transportation, must be maintained.
- Proximity to First Nation and Haudensouanee areas that support fishing, hunting and trapping, as well as identified areas of historical significance, should be considered.
- Effects to the natural environment, in particular effects to habitat for species-at-risk and significant terrestrial/wildlife should be considered.

KEY ENGAGEMENT ACTIVITIES:

Community and Property Owners

- Held 2 virtual live discussions session in May and November last year, reaching more than 1000 participants per each event
- Launched a virtual open house
- Corresponded and/or met with more than 100 community members

Technical Stakeholders

- Held 2 Technical Advisory Committee virtual workshops and organized ongoing conversations with agencies, municipal staff, industry and other technical stakeholders

First Nations and Haudensouanee

- Hosted virtual live discussions and route evaluation workshops
- Organized opportunities to review natural environment information

SUMMARY OF EVALUATION

	Natural Environment	Socio-Economic Environment	Technical and Cost	First Nations and Haudenosaunee Culture, Values and Land Use
Alternative 1A	★★	★★	★★★★★	★
Alternative 1B	★	★★★★★	★★	★
Alternative 1C	★★★★★	★	★★	★★★★★
Alternative 1D	★★★	★	★	★★
Alternative 2A	★★★★★	★★★★★	★★★★★	★★★★★
Alternative 2B	★★★★★	★★★	★★★★★	★★★★★
Alternative 2C	★★★	★★★	★★	★★★★★
Alternative 3	★★★	★★★	★★★★★	★

LEGEND	
LEAST PREFERRED	★
LESS PREFERRED	★★
NEUTRAL	★★★
PREFERRED	★★★★
MOST PREFERRED	★★★★★

PREFERRED ALTERNATIVE 2A

Based on a year-long consultation and evaluation process, **Alternative 2A** has been selected as the preferred route. This route allows us to repurpose approximately 16 kilometers – roughly 1/3rd of the route length – of an existing idle transmission corridor, minimizing effects to the natural and socio-economic environment, as it reduces the need for a new transmission right-of-way.

Compared to other route alternatives, overall Alternative 2A:

 <p>Natural Environment</p>	 <p>Socio-Economic Environment</p>	 <p>Technical and Cost</p>	 <p>First Nations and Haudenosaunee Culture, Values and Land Use</p>
<ul style="list-style-type: none"> • Effects the fewest aquatic resource areas • Crosses a low amount of incompatible vegetation • Has low overall impacts to potential species-at-risk habitat 	<ul style="list-style-type: none"> • Minimizes effects to agricultural operations • Crosses few features associated with Archaeological potential • Avoids a National Historic Site of Canada (NHSC) 	<ul style="list-style-type: none"> • Maximizes the renewal of existing infrastructure by repurposing an idle transmission line corridor • Crosses the fewest property parcels and farms • Follows additional linear infrastructure, such as the Highway 401 and other energized transmission lines 	<ul style="list-style-type: none"> • Balances the proximity to areas of historical significance identified by First Nations and Haudenosaunee with the co-location of existing infrastructure and minimal effects to natural environment features.

WORKING WITH LANDOWNERS ALONG ROUTE 2A

Starting tomorrow, a dedicated real estate representative will be in contact with landowners to schedule a meeting.

This will be a first step as we work closely with landowners whose property will be traversed by the preferred route.

During these meetings, representatives will review Hydro One's next steps in this process and introduce our project-specific Land Acquisition Compensation Principles.

KEY LAND ACQUISITION COMPENSATION PRINCIPLES

Our Land Acquisition Compensation Principles will be used as the roadmap to guide our conversations with landowners traversed by the preferred route. These principles have been tailored to local characteristics and feedback we've heard to date from the community.

Some of the key principles include:

Property Owner Choice

Landowners will be offered the choice of Hydro One acquiring either an easement or the fee simple interest (ownership) in the lands required for the project corridor.

Independent Valuation

Offers will be based upon site specific appraisal reports prepared by independent third party AACI appraisers.

Incentives

Monetary incentives, in addition to market value compensation, will be offered for the conveyance of voluntary property rights.

Construction & Mitigating Physical Property Damages

Construction impact will be mitigated to the extent feasible, and reimbursement for cropland out of production during and after construction and any physical damages that are unable to be mitigated, will be provided.

ADDITIONAL NEXT STEPS

As we move into this next stage of the project, we remain committed to working with individual landowners, ensuring our team is available every step of the way.

Over the next several months, we will complete next steps in the Class Environmental Assessment process and plan for the design and construction of the new line. Our efforts will focus on continuing to work with landowners and community members by:

Engaging directly with landowners along Route Alternative 2A as we seek voluntary property rights.

Collecting and gathering information to advance the design and construction solution.

Seeking local landowners knowledge, understanding and expertise to help plan for construction by identifying additional measures and considerations to avoid, mitigate, or restore potential environmental effects on lands which will traverse the preferred route.

Preparing a draft Environmental Study Report (ESR) which will be shared for a review and comment period.

PROJECT MILESTONES

Environmental studies and preferred route selection

Continued First Nations and stakeholder engagement opportunities (i.e. meetings with property owners, local businesses, associations etc.)

* In order to meet the energy needs of the region as quickly as possible, we are looking for opportunities to advance the construction start time to bring the new line into service at an earlier date.

LIVE QUESTION PERIOD

Panelists

CHATHAM TO LAKESHORE LINE

Notice of Completion of Draft Environmental Study Report

As the next step in the Chatham to Lakeshore Line project, Hydro One has completed the draft Environmental Study Report (ESR). This document outlines the Class Environmental Assessment (EA) process conducted and will be available for a 60-day public review and comment period, beginning on June 11, 2021.

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now, and into the future. That is why, in January 2020, Hydro One began a Class EA Environmental Assessment (EA), in accordance with the Class EA for Minor Transmission Facilities to build a new double-circuit 230 kilovolt transmission line between the Chatham Switching Station (SS) and future Lakeshore Switching Station (SS). This new line will accommodate anticipated electricity demand, improve reliability for homes and businesses and support local industries.

Through this process, three alternative routes and their associated variations were evaluated. Based on environmental and technical information collected and feedback received, Route Alternative 2A was selected as the preferred route for the new transmission line, shown on the map, or in more detail at HydroOne.com/Chatham-to-Lakeshore. The draft ESR summarizes the EA process, route alternatives identified, environmental information collected, consultation undertaken, the route evaluation and selection process, and environmental effects and mitigation measures planned.

Having reached this milestone in the electricity transmission planning process, Hydro One will continue to work with landowners, as design and construction planning continues.

Next Steps and Providing Your Input

The draft ESR will be available for comment from June 11 to August 10, 2021. Due to ongoing public health restrictions, the draft ESR can be viewed electronically on Hydro One's website at HydroOne.com/Chatham-to-Lakeshore. Electronic copies of the draft ESR are also available on USB drives for sign out and/or curbside pickup at the following locations, pending operating hours (please call ahead):

Chatham-Kent Public Library 120 Queen Street Chatham, ON N7M 2G6 Tel: 519-654-2940	Chatham-Kent Public Library 2 Queen Street Tilbury, ON NOP 2L0 Tel: 519-682-0100	Chatham-Kent Civic Centre 315 King Street Chatham, ON N7M 5K8 Tel: 519-360-1998	Atlas Tube Centre Essex County Library-Toldo Branch 447 Renaud Line Lakeshore, ON NOR 1K0 Tel: 519-727-0470
---	---	--	---

To help aid those without access to a computer, limited e-readers will be available at the above locations for sign out. In the event that public health restrictions cease during the review period, hard copies of the draft ESR will also be available for on-site review at the above locations.

Written comments or questions on the draft ESR must be received by Hydro One no later than **4:30 p.m. on Tuesday, August 10, 2021** and must be addressed to:

Paul Dalmazzi, Environmental Planner, Hydro One Networks Inc.
483 Bay Street, North Tower, 12th Floor, Toronto, ON M5G 2P5
Phone: 1-877-345-6799 (community relations hotline)
Email: Community.Relations@HydroOne.com

During the review period, Hydro One will respond to and make best efforts to resolve any issues raised by concerned parties, following which, Hydro One will finalize the ESR and file it with the Ministry of the Environment, Conservation and Parks (MECP). The project will then be considered acceptable to proceed as outlined in the ESR.

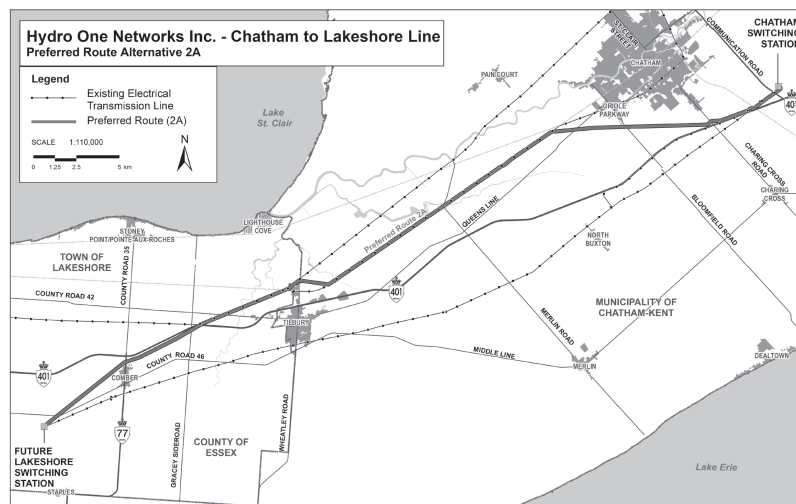

A request may be made to the MECP for an order requiring a higher level of study (i.e., requiring comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g., require further studies), however; only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. The MECP will not consider requests on other grounds.

Requests should include the requester's contact information, as well as specify what kind of order is being requested (request for conditions or comprehensive EA), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. The request should be sent in writing or by email to:

Ministry of the Environment, Conservation and Parks
777 Bay Street, 5th Floor
Toronto ON M7A 2J3
Email: Minister.mecp@ontario.ca

Environmental Assessment Branch
Ministry of the Environment, Conservation and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, ON M4V 1P5
Email: EABDirector@ontario.ca

Requests should also be copied to Hydro One per the contact information provided above. Please visit the ministry's website for more information on requests for orders under section 16 of the Environmental Assessment Act at: <https://www.ontario.ca/page/class-environmental-assessments-part-ii-order>

CHATHAM TO LAKESHORE LINE

Re: Duty to Consult Determination and Delegation for the Chatham to Lakeshore Transmission Line

Dear Ms. McCabe,

Hydro One Networks Inc. (Hydro One) is planning to commence a Class Environmental Assessment (EA) for the proposed Chatham to Lakeshore Transmission Line project.

Hydro One received a letter from the Independent Electricity Systems Operator (IESO) on June 11, 2019 to initiate work and activities, including seeking relevant approvals and subsequent construction of a new 230 kV double-circuit line from the Chatham Switching Station ("SS") in the Municipality of Chatham-Kent to the Lakeshore Transformer Station ("TS"), which will be located in the Town of Lakeshore. The required in-service date for the transmission line and associated terminal facilities is prior to the winter of 2025/2026 to address the specified bulk system level needs. For additional detail, please refer to the letter of request from the IESO, included as Attachment 1. Attachment 2 provides a preliminary map of the area, including existing transmission infrastructure and the proposed Lakeshore Transformer Station. Work is underway to develop and refine a study area, which will be shared with the ministry upon completion in the near future.

With respect to approvals, the Chatham to Lakeshore Transmission Line project will require Ontario Energy Board (OEB) approval (i.e., Leave-to-Construct application under Section 92 of the *OEB Act*) as well as environmental approvals including completion of a Class EA per the approved "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), under the Ontario *Environmental Assessment Act*.

Please advise whether the Chatham to Lakeshore Transmission Line project triggers the Crown's constitutional duty to consult with respect to Aboriginal and treaty rights consultation requirements, and if so, whether the Crown delegates the procedural aspects to Hydro One. If affirmative, please provide an exhaustive list of First Nation and or Métis communities that must be consulted on the Chatham to Lakeshore Transmission Line project and indicate what depth of consultation is required for each community. Hydro One respectfully requests that the Crown notify each First Nation and Métis community for which it has delegated procedural aspects of consultation. Hydro One will also notify these same communities early on during the Class EA process.

Hydro One recognizes that if during the consultation process any First Nation or Métis community makes an assertion of a potential impact of the project on its Aboriginal or treaty rights, Hydro One must notify the Crown with respect to potential duty to consult and accommodation requirements. Hydro One is also aware of the need to be mindful of possible archaeological resources in the area. For this reason, Hydro One would appreciate a map of the traditional territories and/or culturally sensitive areas in said locale(s), if available.

If you have any questions on this matter, please don't hesitate to contact me. Should there be any updates to the project information provided above, I will be sure to notify you in a timely manner.

Sincerely,

Elise Croll
Director, Environmental Services

Dear Robert:

Re: Building a new 230 kV double-circuit line from Chatham SS to Lakeshore TS to reinforce the bulk transmission system west of Chatham

The purpose of this letter is to request Hydro One to initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from the Chatham Switching Station (“SS”) to the new Lakeshore Transformer Station (“TS”) located at Leamington Junction and associated station facilities at the terminal stations. The required in-service date for these facilities is prior to the winter of 2025/2026.

The purpose of these new facilities is to:

- Increase the overall transfer capability of the bulk transmission system west of Chatham in order to reliably supply the forecast load growth in the Kingsville-Leamington area and the broader Windsor-Essex Region in the near- to mid-term,
- Permit the resources and bulk facilities in this region to operate efficiently for local and system needs, and
- Maintain existing interchange capability on the Ontario-Michigan interconnection between Windsor and Detroit.

More details regarding the needs and solution options for reinforcing the bulk transmission system west of Chatham are documented in an IESO’s report entitled “Need for Bulk Transmission Reinforcement in the Windsor-Essex Region, June 13, 2019”.

Background

The west of Chatham bulk transmission system extends from Chatham in the east to Windsor in the west and is part of the larger west of London bulk transmission network, as shown in Figure 1.

This system is comprised of a 230 kV and 115 kV high voltage network interconnecting the load centers and large generators in the region to the Ontario electricity grid. As well, it provides a point of interconnection with the power system in Michigan. The west of Chatham system plays an important role in providing an adequate and reliable electricity supply to customers in the

Windsor-Essex region and enabling efficient operations of the resources in the region and on the interconnection.

There has been a significant increase in the demand forecast for electricity in the Kingsville-Leamington area. Primarily, this is driven by rapid expansion in the greenhouse sector and aggressive adoption of artificial crop lighting. As a result, the electricity demand in the Windsor-Essex region is forecast to double over the next five years and continue to grow in the longer term beyond that.

While the current demand in this region is being adequately supplied from local generation and from the region's bulk transmission system at this time, the significant and sustained growth forecast for the Kingsville-Leamington area and the broader Windsor-Essex region will require reinforcement of the existing supply. Studies conducted by the IESO, with support from Hydro One and the local LDCs, concluded that reinforcement of the existing transmission system, both the bulk and regional networks, is necessary and is the most economical solution to address the region's near- to mid-term electricity needs. New supply options were considered, but found to be less economic than the transmission solution. The studies also identify that supplementing the available supply with demand-side and interim solutions, while the transmission solution is being implemented, is also beneficial.

Integrated Transmission Solution

The recommended transmission solution comprises two stages:

- Stage 1: A new switching station at the Leamington Junction ("Lakeshore TS") to be in-service by the end of 2022, as identified in the hand-off letter¹ issued by the IESO to Hydro One on January 31, 2019. This will improve the capability of the system to connect and supply additional transformer stations and large transmission customers that are currently planning to connect.
- Stage 2: A new 230 kV double-circuit transmission line connecting Chatham SS to Lakeshore TS and associated terminal facilities, with an in-service date prior to the winter of 2025/2026, in order to address the specified bulk system level needs, as documented in the aforementioned report.

The ongoing Windsor-Essex Integrated Regional Resource Plan ("IRRP") will incorporate these transmission solution recommendations and continue to look at needs of the local area, focus on investigation of non-wires alternatives to manage evolving capacity needs in the region, and provide customers in the region with adequate line connection and step-down transformation capacity, while maintaining a level of reliability consistent with accepted planning standards.

West of Chatham (Chatham to Lakeshore) Transmission Line Project Scope

Based on the above considerations, the IESO recommends that Hydro One initiate the work and activities, including seeking Environmental Assessment and Leave-to-Construct approvals, and subsequent construction of a new 230 kV double-circuit line from Chatham SS to the new

¹ Further details on the switching station can be found here: http://www.ieso.ca/-/media/Files/IESO/Document-Library/regional-planning/Windsor-Essex/Switching-Station-in-the-Leamington-Area_Signed_Jan-31-2018.pdf?la=en

Lakeshore TS and associated station facilities at the terminal stations. Single-line diagrams of the existing and proposed facilities are shown in Figures 2 and 3 respectively. The work for the new line will need to be coordinated with the Lakeshore TS development, in order to appropriately plan the station layout for connection and allow for the installation of any reactive facilities, as required.

The project and its related costs and timelines have been discussed with Hydro One. The IESO understands that an in-service date of prior to the winter of 2025/2026 is achievable, while recognizing that earlier implementation will only further support growth in the region. Hydro One has indicated that costs for the project are projected to range between \$115 M and \$150 M. If project costs are forecasted to exceed the upper end of this range, and/or the delivery timeline cannot meet the targeted in-service date, Hydro One will notify the IESO so that the assessment of the bulk system reinforcement plan in the Windsor-Essex region can be updated.

Future Activities

The subject transmission line is the second stage of a number of improvements to the bulk transmission system that will be required to support load growth in the Windsor-Essex region. Together, the new line and station form the basis for accommodating mid- and long-term needs in the Windsor-Essex region and into the broader West of London area. The IESO will continue to monitor the progress of load and generation developments in the area. Future stages of system reinforcement will be triggered as required. The IESO feels that this is a prudent approach to meeting the need in the region.

IESO will continue to work with, and provide support to, Hydro One in the implementation of this project. We look forward to an ongoing exchange of information as Hydro One proceeds with the development of the project.

Yours truly,

Leonard Kula, P. Eng.

Re: Chatham to Lakeshore Transmission Line Project

Dear Ms. Croll:

Thank you for your letter dated July 5th, 2019 requesting clarification from the Ministry of Energy, Northern Development and Mines (ENDM) on the duty to consult requirements for the proposed Chatham to Lakeshore Transmission Line Project (the Project).

As your letter states, the preliminary scope of the Project consists of a new, 230 kilovolt double-circuit line between the existing Chatham Switching Station in the Municipality of Chatham-Kent to the proposed Lakeshore Transformer Station, in the Town of Lakeshore. The Project will help ensure the transmission system remains adequate to meet electricity demand, which is expected to increase significantly over the next decade due to strong agricultural growth in the Windsor-Essex area.

On behalf of Ontario (the Crown), ENDM has reviewed the information provided by Hydro One with respect to the Project and assessed it against the Crown's current understanding of the interests and rights of communities in the area. In doing so, ENDM has determined that the Project may have the potential to affect First Nation and/or Métis communities who hold or claim Aboriginal or treaty rights protected under section 35 of Canada's *Constitution Act* 1982.

The Crown has a constitutional duty to consult and, where appropriate, accommodate Aboriginal communities when the Crown contemplates conduct that might adversely impact established or asserted Aboriginal or Treaty rights. While the legal responsibility to meet the duty to consult lies with the Crown, the Crown may delegate the day-to-day, procedural aspects of consultation to project proponents.

The Crown must satisfy itself that both the substantive and procedural aspects of consultation are completed before issuing certain regulatory approvals. The Crown may use existing regulatory processes as a vehicle for fulfilling its constitutional duty, including the

“Class Environmental Assessment for Minor Transmission Facilities” (Class EA) under Ontario’s *Environmental Assessment Act*. These consultation obligations are in addition to the public and Aboriginal consultation requirements outlined in the Class EA.

I am writing to advise you that on behalf of the Crown – including all provincial ministries – that ENDM is delegating the procedural aspects of consultation to Hydro One through this letter. ENDM expects that Hydro One will undertake the procedural aspects of consultation with respect to any regulated requirements for the proposed Project. The Crown will fulfill the substantive aspects of consultation and retain oversight over all aspects of the process for fulfilling the Crown duty. Please see below for details about the responsibilities of Hydro One in fulfilling the procedural aspects of consultation.

Based on the Crown’s assessment of First Nation and Métis community rights and potential project impacts, the following Aboriginal communities should be consulted on the basis that they have or may have constitutionally protected Aboriginal and/or Treaty rights that may be adversely affected by the Project.

Community	Mailing Address
Aamjiwnaang First Nation	978 Tashmoo Ave. Sarnia, ON N7T 7H5
Bkejwanong (Walpole Island) First Nation	RR 3 Wallaceburg, ON N8A 4K9
Caldwell First Nation	14 Orange St. Leamington, ON N8H 1P5
Chippewas of Kettle and Stony Point First Nation	6247 Indian Lane Kettle and Stony Point First Nation, ON N0N 1J1
Chippewas of the Thames First Nation	RR1 Muncey, ON N0L 1Y0
Oneida Nation of the Thames	RR2 Southwold, ON N0L 2G0
Six Nations of the Grand River First Nation Six Nations of the Grand River Elected Council	1695 Chiefswood Rd. Oshweken, ON N0A 1M0

Haudenosaunee Confederacy Chiefs Council/Haudenosaunee Development Institute	16 Sunrise Court, Suite 600 Oshweken, ON N0A 1M0
--	--

This rights-based consultation list is based on information that is subject to change. Aboriginal communities may make new rights assertions at any time, and other developments can occur that may require additional Aboriginal communities to be notified and/or consulted. If you become aware of potential rights impacts on communities that are not listed above at any stage of the consultation and approval process, kindly bring this to the attention of ENDM immediately, along with any information supporting the claim. ENDM will then assess whether it is necessary to include the community on the rights-based consultation list above.

The Crown relies on consultation conducted by proponents when it assesses the Crown's obligations and directs proponents during the regulatory process. It is ENDM's expectation that Hydro One will communicate directly with the communities listed above and that Hydro One will:

- Notify the communities that Hydro One has been delegated the procedural aspects of consultation by the Crown;
- Notify the communities that they may contact the Crown directly should they have any questions or concerns;
- If you have any questions or concerns relating to a specific ministry's mandate, you may contact any of the following ministry representatives. Indigenous communities may also be offered the following contact information should they wish to communicate directly with the Crown:

Ministry/Contact	Phone/Email
Chloe Lazakis – Senior Advisor, Indigenous Energy Policy Unit, Ministry of Energy, Northern Development and Mines	416 648 0294 Chloe.lazakis@ontario.ca
Craig Newton – Environmental Planner, Ministry of the Environment, Conservation and Parks	519 873 5014 Craig.newton@ontario.ca
Joe Vecchiolla – Policy Lead, Realty Policy Branch, Ministry of Government and Consumer Services	647 267 3247 Joseph.vecchiolla@ontario.ca

- Provide First Nation and Métis communities with timely notice of the project for the purposes of considering possible impacts on their Aboriginal and/or treaty rights;
- Provide First Nation and Métis communities with information about the project including anticipated impacts, and information on project timelines;
- Follow up with First Nation and Métis communities to ensure they have received project information and that they are aware of the opportunity to express comments and concerns about the project;
- Explain the regulatory and approval processes that apply to the project;

- Gather information about how the project may adversely impact the relevant Aboriginal and/or treaty rights (for example, hunting, fishing);
- Consider the comments and concerns raised by First Nation and Métis communities and providing responses;
- Where appropriate, discuss accommodation, including mitigation or other measures to address potential adverse impacts on Aboriginal and/or treaty rights;
- Where appropriate, develop and discuss with the Crown appropriate accommodation measures;
- Take reasonable steps to foster positive relationships with the First Nation and Métis communities;
- Bear the reasonable costs associated with these procedural aspects of consultation;
- Facilitate Aboriginal communities' capacity to participate in consultation on the project, which may include providing capacity funding;
- Maintain records of activities in relation to carrying out the delegated procedural aspects of consultation and providing information to ENDM.

As part of its obligations to the Aboriginal communities owed the duty to consult, the Crown will provide notification letters to the affected communities of delegation to Hydro One and copy Hydro One on the out-going correspondence.

I trust that this information provides clarity and direction regarding the respective roles of the Crown and Hydro One. If you have any questions about this letter or require any additional information, please contact Chloë Lazakis (above).

Sincerely,

Samir Adkar

Dear Chief Plain,

Chatham to Lakeshore Transmission Line Project

I am writing to notify you that on June 11, 2019, Hydro One received a letter from the Independent Electricity Systems Operator (IESO) instructing Hydro One to initiate work and activities, including seeking relevant approvals and subsequent construction and operation of a new 230 kV double-circuit line from the Chatham Switching Station ("SS") in the Municipality of Chatham-Kent to the Lakeshore Transformer Station ("TS"), which will be located in the Town of Lakeshore. The required in-service date for the transmission line and associated terminal facilities is prior to the winter of 2025/2026 to address the specified bulk system level needs.

With respect to approvals, the Chatham to Lakeshore Transmission Line project will require Ontario Energy Board (OEB) approval (i.e., Leave-to-Construct application under Section 92 of the OEB Act) as well as environmental approvals including completion of a Class EA per the approved "Class Environmental Assessment for Minor Transmission Facilities" (Hydro One, 2016), under the Ontario Environmental Assessment Act.

Subsequent to the letter from the IESO, on November 29, 2019, Hydro One received a letter from the Ministry of Energy, Northern Development and Mines (ENDM), delegating procedural aspects of Consultation with Indigenous communities to Hydro One. We understand you have received a notification letter from the ENDM regarding this project and its delegation of consultation to Hydro One.

We look forward to discussing this project further with you and Hydro One's Indigenous Relations team will be following up with you shortly.

In the interim, I would be pleased to answer any questions you may have. Also, please feel free to contact Daniel Charbonneau, Senior Manager, Indigenous Relations, at 416-345- 4357 or Sara Jane Souliere, Senior Advisor, Indigenous Relations, at 416-345-4431.

Sincerely,

A handwritten signature in black ink, appearing to read "Derek Chum". The signature is fluid and cursive, with a long horizontal stroke at the end.

NOTICE OF COMMENCEMENT

Class Environmental Assessment for a new double-circuit 230 kV transmission line between Chatham Switching Station and the planned Lakeshore Switching Station

Dear Chief Plain,

Hydro One Networks Inc. (Hydro One) is initiating a Class Environmental Assessment (Class EA) to construct a new double-circuit 230 kV transmission line from the Chatham Switching Station (SS) in the Municipality of Chatham-Kent to the Lakeshore Switching Station (SS) which will be located in the Town of Lakeshore.

In June 2019, Hydro One received direction from the Independent Electricity System Operator (IESO) to initiate work on development activities, including seeking relevant approvals for a new 230 kV double-circuit transmission line. This new transmission line is needed to ensure that Hydro One meets the growth and future demand of the industrial, greenhouse and residential sectors in the Essex County region. The required in-service date for the new line and associated equipment is the end of 2025.

The Chatham to Lakeshore Transmission Line project is subject to the “Class Environmental Assessment for Minor Transmission Facilities” (Hydro One, 2016), in accordance with the Ontario Environmental Assessment Act. The Class EA is a streamlined planning process that has proven effective in ensuring minor transmission projects with a predictable range of effects have feasible

environmental mitigation and/or protection measures in place. The project will also require Ontario Energy Board (OEB) approval under Section 92 (Leave to Construct) of the OEB Act.

Hydro One has identified a number of potential transmission alternatives (routes) for this new transmission line, which we believe to be technically and economically feasible and would meet the need for the project as identified by the IESO. During the Class EA process, these transmission alternatives will be assessed and evaluated on the basis of natural environment, socio-economic environment, and technical/cost factors to select the preferred alternative (route) for the undertaking. These transmission alternatives are shown on the attached map and will form the basis for the Class EA study area. Available background data collection is planned to occur within 500 m on each side of these transmission alternatives, and field studies are proposed to occur within 120 m on each side of these alternatives.

Hydro One has notified the Ministry of Energy, Northern Development and Mines of this project, and sought direction regarding the constitutional duty to consult and accommodate First Nation and Métis communities. On November 29, 2019, the Ministry of Energy, Northern Development and Mines, on behalf of the Province of Ontario (“the Crown”), replied to Hydro One and delegated the procedural aspects of the duty to consult with the Aamjiwnaang First Nation to Hydro One. Should representatives of Aamjiwnaang First Nation have any questions or concerns with respect to the Crown’s delegation on the duty to consult, they may contact any of these Crown contacts directly:

Ministry/Contact	Phone/Email
Chloë Lazakis Senior Advisor, Indigenous Energy Policy Ministry of Energy, Northern Development and Mines	(416) 648-0294 Chloe.Lazakis@Ontario.ca
Craig Newton Environmental Planner, Southwest Region Ministry of the Environment, Conservation and Parks	(519) 873-5014 Craig.Newton@Ontario.ca
Joe Vecchiolla Policy Lead, Realty Policy Branch Ministry of Government and Consumer Services	(647) 267-3247 Joseph.Vecchiolla@Ontario.ca

In the coming weeks, Hydro One will be formally notifying government agencies, elected officials, municipal staff and members of the public about the commencement of the Class EA for the Chatham to Lakeshore Transmission Line project, and a Community Information Centre (CIC) for the project is tentatively being planned for March 2020, with specific details to follow. The Hydro One project team will be pleased to arrange a separate meeting to discuss the project as per your direction.

We welcome your comments and feedback regarding this project. Should there be any update to the project information provided, I will ensure you are promptly informed.

As per the request of the Minister of the Environment, Conservation and Parks, information regarding the *Freedom of Information and Protection of Privacy Act* is included and can be viewed below.

If you have questions or would like any additional information about the project, please feel free to contact me at Daniel.Charbonneau@hydroone.com or 416-345-4357, or Sara Jane Souliere, Senior Advisor, Indigenous Relations, at SaraJane.Souliere@Hydroone.com or 416-345-4431. A project website is also being created and will be available shortly at www.HydroOne.com/Chatham-to-Lakeshore.

Sincerely,

Daniel Charbonneau

NOTICE OF VIRTUAL INFORMATION SESSIONS

CHATHAM TO LAKESHORE LINE PROJECT

We invite you to join our upcoming virtual information sessions for the Chatham to Lakeshore Line project on Monday, May 25th.

As you may recall, the in-person Community Information Centres were postponed in light of the global COVID-19 pandemic. As we continue to monitor the latest pandemic developments, we will look for a safe opportunity to reschedule these in-person sessions within the community.

In the interim, we remain committed to ensuring that you have up to date information on the project. That is why we will be hosting a virtual information session, which will include both a live stream presentation and telephone conference. By joining our virtual session, you will have an opportunity to learn more about the project and Class Environmental Assessment process, as well as ask questions to members of our project team. To submit a question in advance, please email your inquiry to SaraJane.Souliere@HydroOne.com

PLEASE JOIN US:

MONDAY MAY 25, 2020

6:45 – 7:45 P.M. EST

TO PARTICIPATE:

1. Dial **1-800-368-7080** to join the call and listen to the presentation
 2. Visit www.HydroOneEngagement.ca to register and view our live stream materials
- As part of our outreach, you may also receive an automated call on May 25th, reminding you about the session and inviting you to stay on the call to participate.

CLASS ENVIRONMENTAL ASSESSMENT

Earlier this year, Hydro One commenced a Class Environmental Assessment (EA) in accordance with the Ontario Environmental Assessment Act. As part of this process, we are engaging with and gathering input from residents, First Nations communities, stakeholder groups, and businesses small and large to help shape the project, including the evaluation of the route alternatives shown on the reverse map. Meaningful consultation and engagement is important to Hydro One, and we look forward to having you join us.

If you would like any further information or have any questions, please contact Sara Jane Souliere, Sr. Advisor, Indigenous Relations at:

Tel: 1-(647)-241-0495

TODAY'S AGENDA

- Project overview
- Class Environmental Assessment process
- First Nations Consultation
- Proposed route alternatives and route selection process
- Key milestones and next steps
- Live Q&A session

KEY ORGANIZATIONS

Building infrastructure to meet the energy needs of today and tomorrow involves a number of partners, including:

Builds, owns, operates and maintains electricity transmission and distribution facilities across Ontario.

Oversees planning to ensure electricity needs are met both now and in the future.

Ministry of the Environment,
Conservation and Parks

Legislative authority for environmental assessments in Ontario.

Regulates the electricity market in Ontario, including electricity rates.

HOW THE SYSTEM WORKS

ONTARIO POWER GENERATION AND PRIVATE GENERATION COMPANIES

HYDRO ONE OR LICENSED TRANSMITTER

HYDRO ONE OR LOCAL DISTRIBUTION COMPANY

PROJECT OVERVIEW

A safe and reliable electricity supply is essential to supporting economic growth, and as businesses and industry in southwestern Ontario continue to grow, so does the need for more electricity.

To help meet this growth, Hydro One needs to build a new double circuit 230 kilovolt transmission line between our Chatham Switching Station and our future Lakeshore Switching Station, as requested by the Independent Electricity System Operator (IESO).

This line will add 400 megawatts of power to the area – or enough power to energize a city the size of Windsor.

This project requires a Class Environmental Assessment, where multiple route alternatives will be evaluated.

It is anticipated this line will be in-service prior to the end of 2025.

WHAT IS A CLASS ENVIRONMENTAL ASSESSMENT?

The Class Environmental Assessment (Class EA) for Minor Transmission Facilities sets out a planning and decision-making process for projects with predictable environmental effects that can be mitigated.

KEY COMPONENTS

- Consultation with Indigenous communities, community members, elected officials, interest groups and government agencies;
- Collection of environmental inventory;
- Identification and evaluation of alternative methods;
- Identification of potential effects and mitigation measures;
- Selection of a preferred alternative
- A draft Environmental Study Report (ESR) that will be made available for a 30-day public review and comment period; and
- Submission of Statement of Completion and Final ESR

FIRST NATIONS CONSULTATION

- Hydro One received delegation of the procedural aspects of consultation from the Ministry of Energy Northern Development and Mines (MENDM).
- Throughout the project development process Hydro One will consult with all First Nations communities identified by the MENDM.

FIRST NATIONS PARTICIPATION

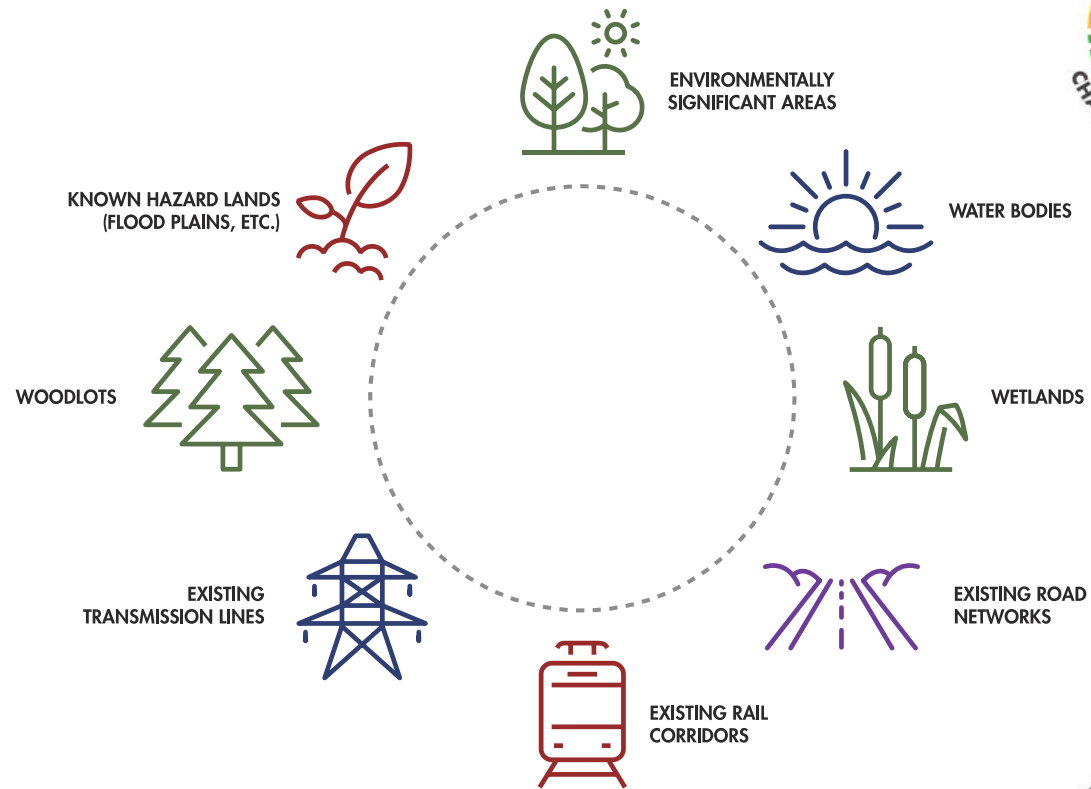

1. Early engagement with sharing information on the proposed project, and early dialogue to identify First Nations' issues and concerns.
2. Offering capacity funding to all **identified** First Nations to support the participation in the project consultation work and this includes capacity for each First Nation to hire a Community Consultation Coordinator.
3. Collaborating during environmental surveys and archaeological assessments involving First Nation monitors.
4. Exploring various ways and means to participate in the project such as procurement, contracting and employment opportunities and potential partnerships.

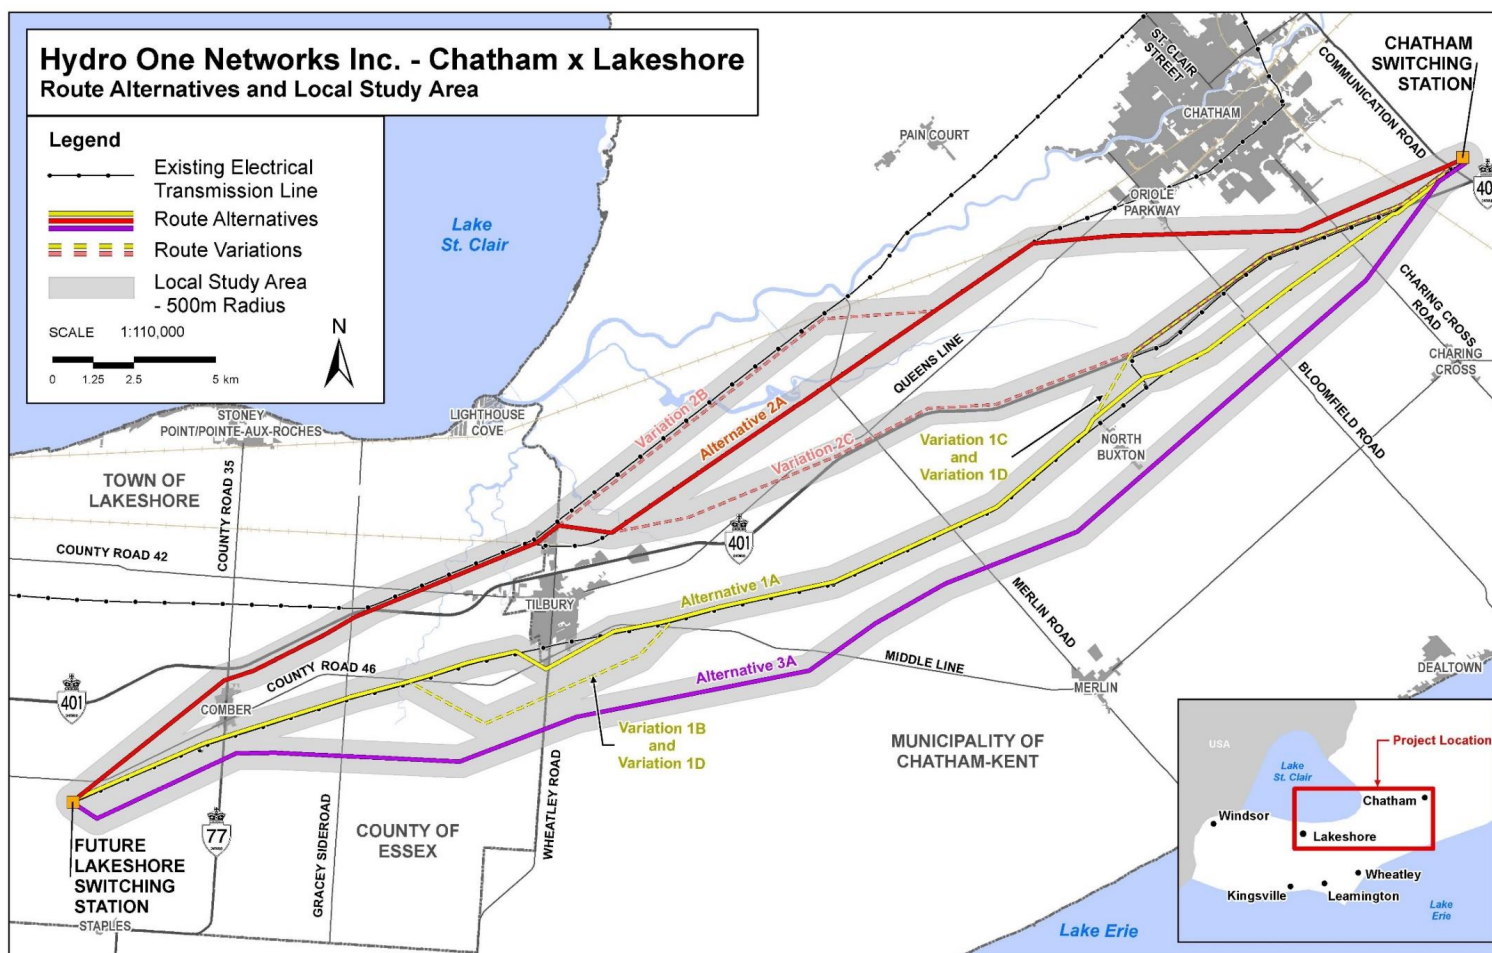

HOW WE GOT HERE

A preliminary assessment was conducted to map feasible route alternatives for the new transmission line.

This involved mapping out known environmental and technical features, and identifying opportunities to parallel existing linear infrastructure and utilize existing easements, where possible.

ROUTES WE ARE STUDYING

EVALUATION OF ROUTES

To evaluate the route alternatives, we will:

- Meet with First Nations communities, community members, elected officials, and interest groups through Community Information Centres and engagement opportunities to gather feedback;
- Conduct background research and detailed environmental field studies and technical assessments; and
- Host a number of workshops with technical committees (to be established) and community members.
- Hydro One will work with directly impacted property owners that will have a proposed structure or corridor on their property.

Based on the feedback and data collected, Hydro One will evaluate each route alternative based on a number of criteria.

EXAMPLE EVALUATION CRITERIA

Natural Environment

- Vegetation
- Water bodies or aquatic habitat
- Terrestrial wildlife
- Natural hazards (erosion, flood plains, etc.)
- Species at risk/sensitive species

Socio-Economic Environment

- Residences
- Commercial operations
- Existing infrastructure (roads, pipelines, transmission lines, etc.)
- Agricultural lands, resources and operations
- Archaeological or built heritage resources

First Nations/Traditional Land Use

- First Nations interests (cultural sites, traditional areas, historical lands and resources)

Technical and Cost

- Construction complexity
- Cost

HOW TO GET INVOLVED

Your feedback is important to us and we want to hear from you. You can provide us with your feedback by:

Asking a question via our virtual community information session

Submitting your comments to Indigenous.Relations@HydroOne.com or 1-647-241-0495

Attending future Community Information Centres and other engagement opportunities within your community

To stay up to date on project details, please visit our webpage
www.HydroOne.com/Chatham-to-Lakeshore

PREFERRED ROUTE SELECTED FOR THE NEW CHATHAM TO LAKESHORE LINE

HYDRO ONE HOSTS UPCOMING VIRTUAL EVENTS AND SHARES NEXT STEPS

Dear Community Member,

We invite you to join our upcoming virtual information sessions to provide you with an update for the Chatham to Lakeshore Line project, a new transmission line that will help accommodate future electricity growth, improve reliability for homes and businesses and support local industries in the region at a time when it is needed most.

Over the past year, Hydro One has been conducting a Class Environmental Assessment (EA) to build a new double-circuit 230-kilovolt transmission line from our Chatham Switching Station to the future Lakeshore Switching Station. As part of this process, we have been engaging with government agencies, municipalities, interest groups, members of the public and First Nations and the Haudenosaunee to assess the route alternatives.

Based on this information gathered and feedback received, **Route Alternative 2A** has been selected as the preferred route for the new transmission line, as shown on the reverse map or in more detail on our website HydroOne.com/Chatham-to-Lakeshore.

As we reach this milestone in the electricity transmission planning process, we remain committed to ensuring that all interested members of the community has up-to-date information on the latest developments on the Chatham x Lakeshore project.

NEXT STEPS:

- Visit our interactive online public open house, starting **Thursday, February 25, 2021** where you will find a series of information boards.
- Join us on **Monday, March 22, 2021** for a live steamed presentation and discussion where community members will have the opportunity to learn more about the project and to ask questions in real time to members of the Hydro One Chatham x Lakeshore project team. To submit a question in advance, please email your inquiry to IndigenousRelations@HydroOne.com

Meaningful consultation and engagement are important to Hydro One, and we look forward to having you join us. If you would like any further information or have any questions, please contact Indigenous Relations at:

 1-(647)-241-0495

PROJECT OVERVIEW

A safe and reliable power supply is essential to ensure southwestern Ontario can continue to grow now and into the future.

In June 2019, the Independent Electricity System Operator (IESO) requested Hydro One build a new double-circuit 230 kilovolt transmission line from the Chatham Switching Station to the future Lakeshore Switching Station.

This project requires undertaking a Class Environmental Assessment (Class EA) which began in January 2020.

Through the Class EA process, our team assessed several route alternatives, and based on information gathered and feedback received from the Anishnawbek and Haudenosaunee, governmental agencies, municipalities, interest groups and members of the public, Route 2A has been selected as the preferred route.

It is anticipated this line will be in-service between 2024 to 2025.

HOW THE NEW LINE WILL SUPPORT THE REGION

As businesses and industry continue to expand in the region, so does the need for more electricity.

The new high voltage transmission line will support the region by:

Ensuring critical infrastructure is in place to keep southwestern Ontario one of North America's agricultural hubs.

Improving reliability for homes and businesses, including both Hydro One and local distribution customers.

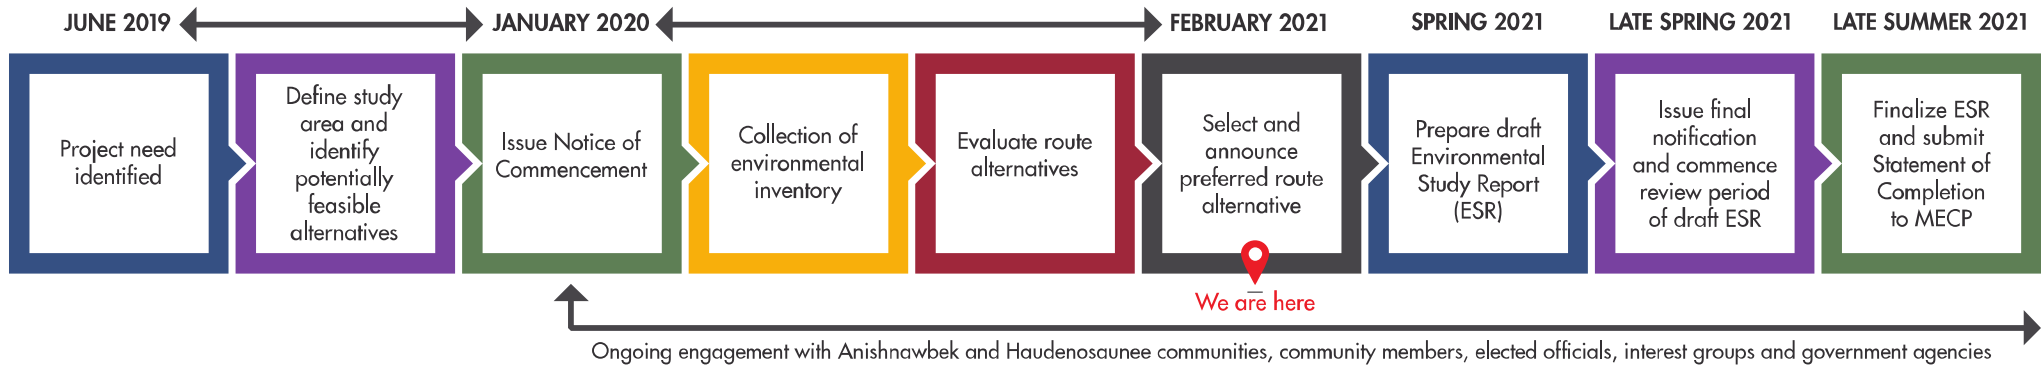

Connecting more people and industry to the grid by bringing enough energy to power a city the size of Windsor to the area.

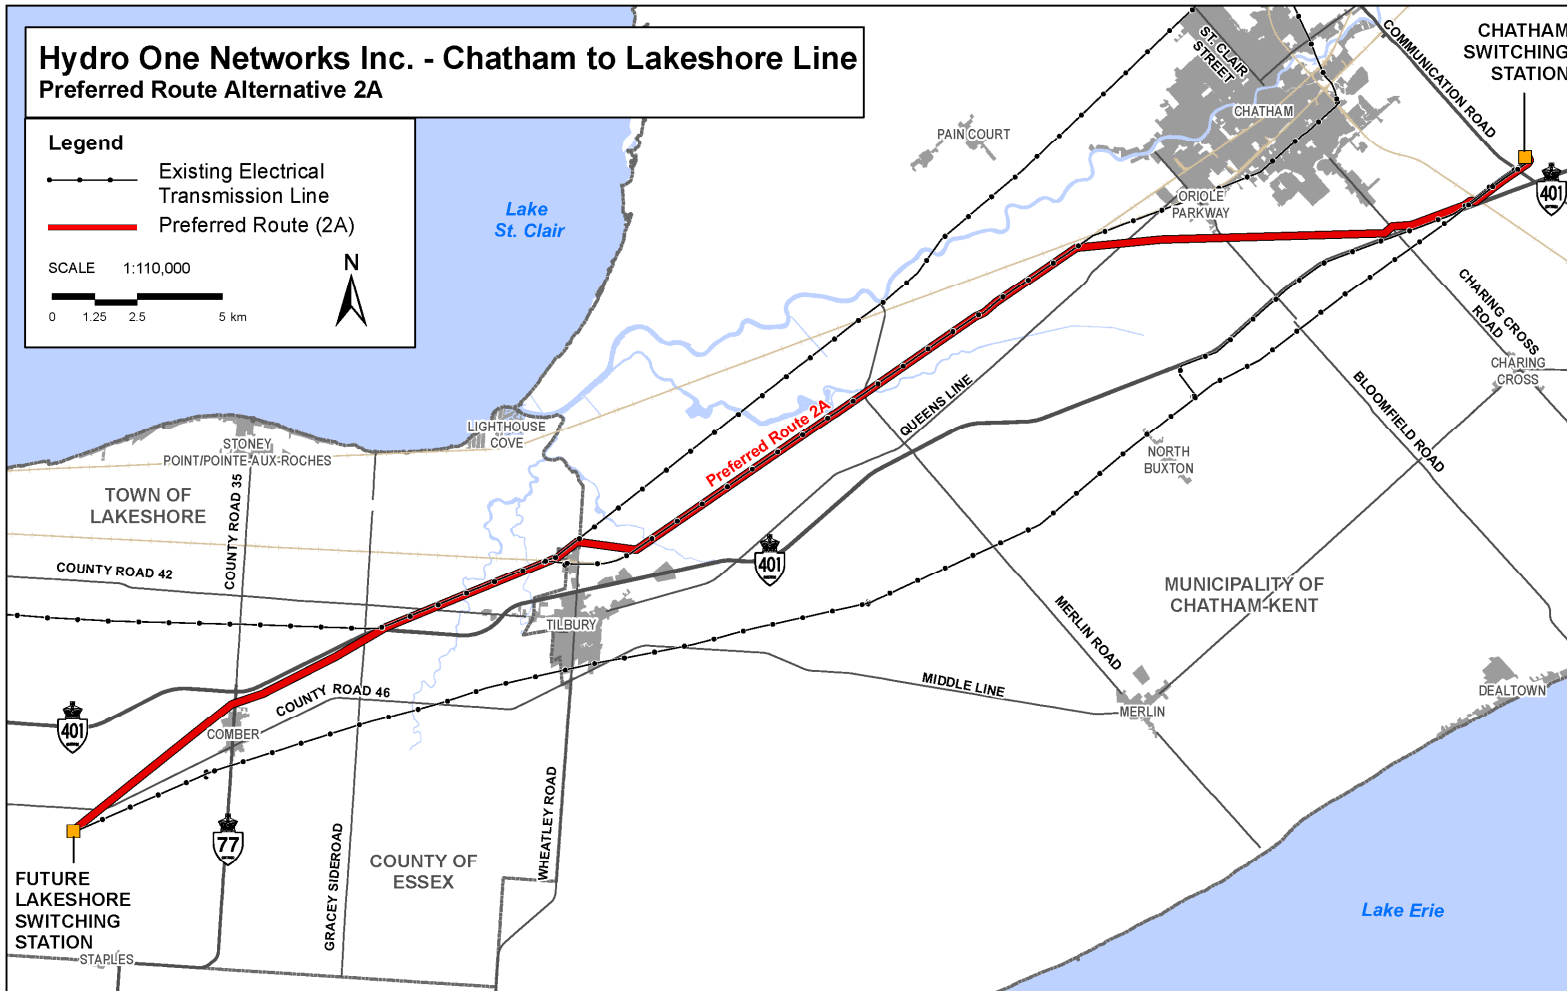

Supporting the local economy and communities by creating new direct and spin off jobs, as well as training opportunities as one of the largest electricity infrastructure projects in the region.

CLASS ENVIRONMENTAL ASSESSMENT PROCESS UPDATE

PREFERRED ROUTE ALTERNATIVE

For a detailed look,
view our interactive
map at:

www.arcg.is/1PKL1n

EVALUATION OF ROUTE ALTERNATIVES

The route evaluation process used to compare the advantages and disadvantages of each route consisted of collecting feedback from the Anishnawbek and Haudenosaunee, community members and stakeholders, as well as available information across the four adjacent categories.

Using this feedback and information collected, we established an evaluation framework, which included:

- Identifying a wide variety of evaluation criteria under each category
- Assigning a relative weight (level of importance) to each criterion

Each route was evaluated fairly and holistically resulting in the selection of a preferred route alternative.

EVALUATION CATEGORIES

Anishnawbek and Haudenosaunee Culture, Values and Land Use

Socio-Economic Environment

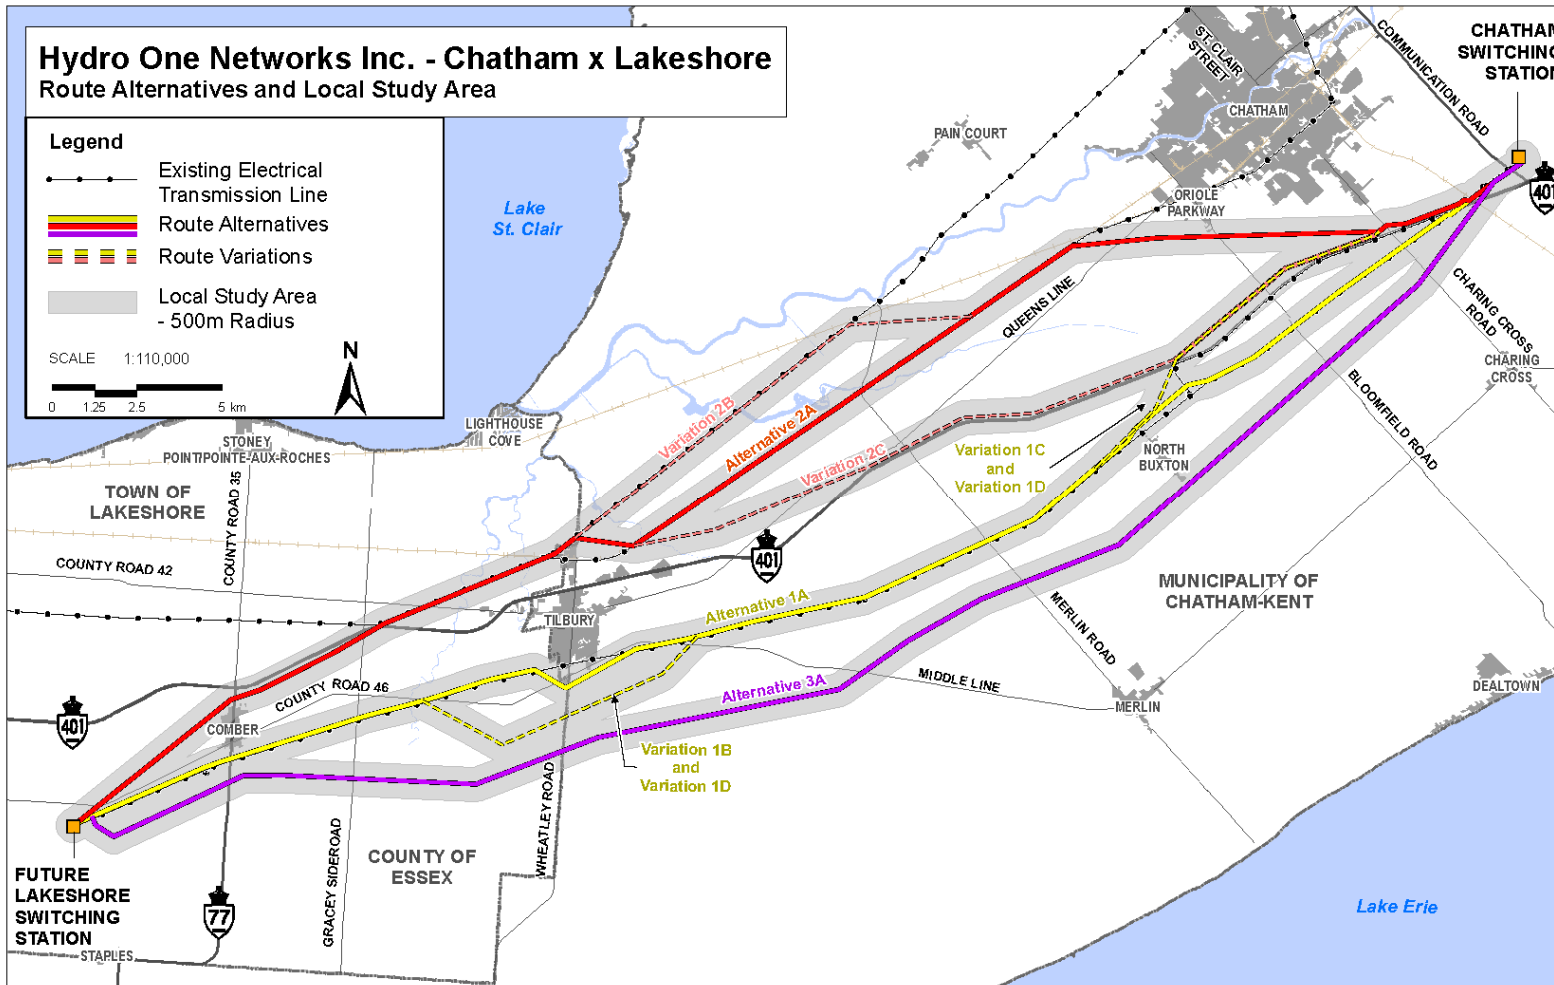

Natural Environment

Technical and Cost

ROUTE ALTERNATIVES ASSESSED

At the start of the project, we identified viable route alternatives, each with their own distinct advantages and disadvantages.

In October 2020, we made four refinements to the routes based on technical and environmental information learned.

INCORPORATING FEEDBACK

Ensuring that local feedback and knowledge was incorporated and reflected in the route selection process was a key priority.

SOME OF THE FEEDBACK WE HEARD:

- Effects to areas that support fish habitat, and areas that could be used for or has the potential for hunting and harvesting or trapping, as well as identified areas of historical significance, should be considered.
- Effects to the natural environment, in particular effects to potential habitat for species-at-risk and significant terrestrial/wildlife should be considered.
- Opportunities to repurpose existing utility corridors and parallel with linear infrastructure should be prioritized.
- Effects to agricultural operations should be a key consideration.
- Certain setback distances from the Highway 401 corridor and interchanges, provided by the Ministry of Transportation, must be maintained.

KEY ENGAGEMENT ACTIVITIES:

- Hosted virtual live discussions and route evaluation workshops
- Offered capacity funding
- Organized opportunities to review natural environment information and heritage studies to provide input

- Held 2 Technical Advisory Committee virtual workshops and organized ongoing conversations with the Anishnawbek and Haudenosaunee, agencies, municipal staff, industry and other technical stakeholders

- Held 2 virtual live discussions session in May and November last year, reaching more than 1000 participants per each event
- Launched a virtual open house
- Corresponded and/or met with more than 100 community members

PREFERRED ALTERNATIVE 2A

Based on a year-long consultation and evaluation process, **Alternative 2A** has been selected as the preferred route. This route allows us to repurpose approximately 16 kilometers – roughly 1/3rd of the route length – of an existing idle transmission corridor, minimizing effects to the natural and socio-economic environment, as it reduces the need for a new transmission right-of-way.

Compared to other route alternatives, overall Alternative 2A:

Anishnawbek and Haudenosaunee Culture, Values and Land Use

- Balances the proximity to areas of historical significance identified by the communities with the co-location of existing infrastructure and minimal effects to natural environment features.

Socio-Economic Environment

- Crosses few features associated with Archaeological potential
- Avoids a National Historic Site of Canada (NHSC)
- Minimizes effects to agricultural operations

Natural Environment

- Crosses a low amount of incompatible vegetation
- Effects the fewest aquatic resource areas
- Has low overall impacts to potential species-at-risk habitat

Technical and Cost

- Maximizes the renewal of existing infrastructure by repurposing an idle transmission line corridor
- Crosses the fewest property parcels and farms
- Follows additional linear infrastructure, such as the Highway 401 and other energized transmission lines

ANISHNAWBEK & HAUDENOSAUNEE PARTICIPATION

Receiving input from the Anishnawbek and Haudenosaunee has been an essential part of the route selection process. Anishnawbek and Haudenosaunee Culture, Values and Land Use is one of the four categories of evaluation criteria that was used to evaluate the alternative corridors.

Over the last year, the Hydro One Project team has been engaging with the Anishnawbek and Haudenosaunee to better understand the potential effects of the alternative routes. The feedback received from the communities has directly supported the selection of the preferred route.

Engagement:

- Virtual route selection workshops
- Review of the Stage 1 archaeological assessment and the cultural heritage existing conditions study.
- Participation in three Technical Advisory Committee Workshops (TAC)
- Supported Traditional Ecological Knowledge (TEK) and technical studies
- Held Virtual Community Information Centres

Type of Feedback Received:

- Identified areas of historical significance
- Areas with habitats that support or have potential to support species for hunting, trapping and harvesting activities, and aquatic habits, are important considerations
- Remnant patches of native habitats are important to consider
- Identified important revenue-generating projects
- Interest to participate in biodiversity initiatives
- Input into criteria weighting

CONTINUING THE CONVERSATION ON ENVIRONMENTAL MITIGATION

Over the next few months, we will continue to work with the Anishnawbek and Haudenosaunne, property owners, and local community members to seek feedback to identify additional measures to avoid, mitigate, or restore potential environmental effects of the preferred alternative. While we anticipate releasing the draft Environmental Study Report for review before Summer, these conversations will continue throughout detailed design and construction planning after the Class EA has been completed.

Some examples of measures being considered include:

- Continue the dialogue to include Traditional Ecological Knowledge and participation in biodiversity initiatives and offer opportunities for Indigenous monitors to participate and guide progress

- Protections and mitigation measures for any known or discovered cultural or historic sites
- Utilizing existing access and watercourse crossings, where available and appropriate

- Constructing temporary access roads and work areas
- Applying erosion and sediment controls, where necessary

- Retaining compatible vegetation, to the extent practical
- Employing dust control measures during construction

EARLY CONTRACTOR INVOLVEMENT & INDIGENOUS ENGAGEMENT

- Hydro One implemented an Early Contractor Involvement (ECI) procurement model for the Project and selected two Engineering, Procurement and Construction (EPC) Contractors: Valard Construction and Voltage Power.

An ECI model enables two qualified EPC contractors to be engaged early in the project lifecycle, to assist Hydro One complete the development activities and prepare for the construction of the project.

This Spring, both EPC contractors and Hydro One, will offer to meet with the Anishnawbek and the Haudenosaunee to develop comprehensive project participation plans.

These meetings will include discussions regarding training & skills development, employment, procurement and sub-contracting opportunities for Indigenous-owned businesses.

Near the end of the development stage of the project, the two EPC contractors will submit their offer for the construction of the project and Hydro One intends to select an EPC contractor as the EPC Partner to build the new transmission line. The engagement and participation plans will be heavily considered in the context of selecting the successful EPC Partner.

PROJECT NEXT STEPS

As we move into the next stage of the project, we remain committed to engaging with the Anishnawbek and Haudenosaunee.

Over the next several months, we will look to complete the next steps in the Class Environmental Assessment process, and plan for the design and construction of the new line.

Directly engage with any Anishnawbek and Haudenosaunee members along Route Alternative 2A as we seek voluntary property rights.

Collect and gather information to advance the design and construction solution.

Continue to work with the communities who would like to provide traditional and local knowledge and expertise to identify additional measures to avoid, mitigate, or restore potential environmental effects of the preferred route.

Prepare a draft Environmental Study Report (ESR) which will be shared with the Anishnawbek and Haudenosaunee and members of the public for a review and comment period.

MHSTCI File : 0012007
Proponent : Hydro One Networks Inc.
Subject : Notice of Initiating Class EA
Project : New double-circuit 230 kV Transmission Line between Chatham Switching Station and the planned Lakeshore Switching Station
Location : Municipality of Chatham-Kent and Town of Lakeshore, County of Essex

Dear Paul Dalmazzi

Thank you for sending the Ministry of Heritage, Sport, Tourism and Culture Industries (MHSTCI) notice of the initiation of the above-referenced Class EA, which requires Ontario Energy Board (OEB)'s leave to construction under the Ontario Energy Board Act. MHSTCI's interest in this process relates to its mandate of conserving Ontario's cultural heritage, which includes:

- Archaeological resources, including land and marine;
- Built heritage resources, including bridges and monuments; and,
- Cultural heritage landscapes.

Please note, the following recommendations follow the OEB's [*Environmental Guidelines for the Location, Construction, and Operation of Hydrocarbon Pipelines and Facilities in Ontario, 7th Edition*](#) and are also consistent with MHSTCI's advice to proponents of other types of corridor projects to assist proponents on how to identify, manage and document environmental impacts.

Among the project planning activities, a proponent/applicant is advised to:

- describe the rationale for study area delineation (including construction staging, land requirements);
- identify existing baseline environmental conditions;
- identify potential environmental impacts expected to occur during construction and operation of the project, including cumulative impacts;
- describe proposed measures to mitigate potential negative impacts.

This letter provides advice on how to incorporate consideration of cultural heritage in the above-mentioned planning activities and outlines the technical cultural heritage studies and level of detail required to address cultural heritage in hydro transmission or other types of corridor projects. The

outcomes and recommendations of the studies will be reported in the Environmental Report and form the basis for any future commitments.

Additionally, please note that the [Standards and Guidelines for Conservation of Provincial Heritage Properties](#) (S&G), prepared pursuant to Section 25.2 of the *Ontario Heritage Act (OHA)*, came into effect on July 1, 2010. All Ontario government ministries and public bodies that are prescribed under Ontario Regulation 157/10 must comply with the S&Gs. They apply to property that is owned or controlled by the Crown in right of Ontario or by a prescribed public body.

Project Summary

Based on the information provided this proposed project will involve:

- the construction of a new double-circuit 230 KV transmission line from the Chatham SS to the (future) Lakeshore SS
- several potential alternative routes are being considered.

Identifying Cultural Heritage Resources

While some cultural heritage resources may have already been formally identified, others may be identified through assessment.

Archaeological Resources (Land and Marine, if applicable)

MHSTCI recommends that, as a best practice, a combined Stage 1-2 archaeological assessment (AA) be completed for the entire study area during the planning phase.

At a minimum, a Stage 1 AA will be undertaken for the entire study area during the planning phase. The results of the Stage 1 AA will inform the selection of route alternatives and will be summarized in the Environmental Report. If the Stage 1 AA recommends further AA(s), then MHSTCI recommends that further stages of AA be completed as early as possible during the design phase of the project, and prior to the completion of detailed design.

Archaeological assessments are required to be undertaken by an archaeologist licenced under the *Ontario Heritage Act*, who is responsible for submitting the report directly to MHSTCI for review.

The Environmental Report must include specific information from the AA report(s). The Executive Summary of each AA report provides a brief summary of the work completed and the recommendations for next steps, whether for further archaeological assessment, in which case the report will include a map that identifies those areas, or for no further assessment. The Environmental Report must also include clear commitments to undertake any further AA stages recommended, and a timeline for their completion.

Built Heritage Resources and Cultural Heritage Landscapes

A Cultural Heritage Report: Existing Conditions and Preliminary Impact Assessment will be undertaken for the entire study area during the planning phase to inform selection of route alternatives and will be summarized in the Environmental Report. This study will:

1. Identify existing baseline cultural heritage conditions within the study area.
 - Study Area: The consultants preparing the Cultural Heritage Report will need to define a study area and explain their rationale. Hydro One's letter advises that available data collection will include 500 m on each side of the proposed route alternatives and field studies will occur within 120 m on each side of the route alternatives.

- The report will include a historical summary of the study area and will identify all known or potential built heritage resources and cultural heritage landscapes in the study area. MHSTCI has developed screening criteria that may assist with this exercise: [Criteria for Evaluating for Potential Built Heritage Resources and Cultural Heritage Landscapes](#).
2. Identify preliminary potential project-specific impacts on the known and potential built heritage resources and cultural heritage landscapes that have been identified. The report should include a description of the anticipated impact to each known or potential built heritage resource or cultural heritage landscape that has been identified.
 3. Recommend measures to avoid or mitigate potential negative impacts to known or potential built heritage resources and cultural heritage landscapes. The proposed mitigation measures are to inform the next steps of project planning and design.

Where a known or potential built heritage resource or cultural heritage landscape may be directly and adversely impacted ¹, and where it has not yet been evaluated for Cultural Heritage Value or Interest (CHVI), completion of a Cultural Heritage Evaluation Report (CHER) is required to fully understand its CHVI and level of significance. The CHER must be completed as part of the Environmental Report. If a potential resource is found to be of CHVI, then a Heritage Impact Assessment (HIA) will be undertaken by a qualified person. The HIA will be completed in consultation with MHSTCI and the proponent as early as possible during detail design.

While some cultural heritage landscapes are contained within individual property boundaries, others span across multiple properties. For certain cultural heritage landscapes, it will be more appropriate for the CHER and HIA to include multiple properties, in order to reflect the extent of that cultural heritage landscape in its entirety.

Cultural Heritage Reports will be undertaken by a qualified person who has expertise, recent experience, and knowledge relevant to the type of cultural heritage resources being considered and the nature of the activity being proposed.

Community input should be sought to identify locally recognized and potential cultural heritage resources. Sources include, but are not limited to, municipal heritage committees, historical societies and other local heritage organizations.

Cultural heritage resources are often of critical importance to Indigenous communities. Indigenous communities may have knowledge that can contribute to the identification of cultural heritage resources, and we suggest that any engagement with Indigenous communities includes a discussion about known or potential cultural heritage resources that are of value to them.

Environmental Reporting

The findings of the above-mentioned studies should be summarized as part of the Environmental Report discussion of existing conditions, impact assessment, mitigation, and future commitments. Commitments for further studies should clearly state what is to be done, who is responsible for

¹ A direct adverse impact would have a permanent and irreversible negative effect on the cultural heritage value or interest of a property or result in the loss of a heritage attribute on all or part of the property. Examples include but are not limited to: removal or demolition of a heritage attribute, land disturbance, alterations that are not sympathetic to the CHVI of the property, introduction of new elements that diminish the integrity of the property, changing the character of the property, intensification of the property without conservation of heritage attributes.

implementation, and when. Recommendations from the technical cultural heritage studies described above should be reflected as commitments in the Environmental Report.

MHSTCI welcomes the opportunity to review and comment upon relevant sections of the draft Environmental Report.

Thank you for consulting MHSTCI on this project and please continue to do so throughout the EA process. If you have any questions, require clarification, or would like additional information to assist with project reporting, do not hesitate to contact me.

Sincerely,

Rosi Zirger
Heritage Advisor
rosi.zirger@ontario.ca
Heritage Planning Unit

It is the sole responsibility of proponents to ensure that any information and documentation submitted as part of their EA report or file is accurate. MHSTCI makes no representation or warranty as to the completeness, accuracy or quality of the any checklists, reports or supporting documentation submitted as part of the EA process, and in no way shall MHSTCI be liable for any harm, damages, costs, expenses, losses, claims or actions that may result if any checklists, reports or supporting documents are discovered to be inaccurate, incomplete, misleading or fraudulent.

Please notify MHSTCI if archaeological resources are impacted by EA project work. All activities impacting archaeological resources must cease immediately, and a licensed archaeologist is required to carry out an archaeological assessment in accordance with the *Ontario Heritage Act* and the *Standards and Guidelines for Consultant Archaeologists*.

If human remains are encountered, all activities must cease immediately and the local police as well as the Registrar, Burials of the Ministry of Government and Consumer Services must be contacted. In situations where human remains are associated with archaeological resources, MHSTCI should also be notified to ensure that the site is not subject to unlicensed alterations which would be a contravention of the *Ontario Heritage Act*.

RE: MTO Comments – Hydro One Chatham to Lakeshore TAC

The Ministry of Transportation (MTO) has completed a review of the proposed work noted in the Class EA distribution. The proposal has been considered in accordance with the requirements of the *Public Transportation and Highway Improvement Act* (PTHIA), MTO's Highway Corridor Management Manual (HCMM) and all related policies. The following outlines our comments:

To avoid impacts to future Highway 401 expansion and future interchange redesigns MTO's preferred route is **Alternative 3A**. This option will avoid most of the impacts to the MTO's Right-of-Way (ROW), avoid the Highway drainage, and will minimize the amount of Hydro One Infrastructure within the MTO's Permit Control Area (PCA). Subsequently **Alternative 1A** is also feasible and avoids impacts to the MTO's ROW and Highway drainage.

The proposed Hydro One Chatham Lakeshore project crosses Highway 401 and Highway 77 and will be within MTO's ownership. As identified in the PTHIA any portion of this work that falls within the MTO's PCA will require permits before any demolition, grading, construction or alteration to the site commences.

MTO must ensure that the proposed work avoids potential impacts to the operational integrity of the highway, the travelling public and avoids conflicts with future highway improvement projects. The following conditions shall apply:

- MTO permits will be required for any work within 45m of any limit of a provincial highway right-of-way or within 395m of the centre point of an intersection on a highway.
- As per Section 38 2 (d) of the PTHIA) a permit is required to place, erect or alter any power line, pole line or other transmission line within 400 metres of any limit of a controlled access highway.
- All highway crossings shall remain outside the functional area of an interchange and cross perpendicular to the highway alignment.
- Parallel installations on a Class 1 Highway (401) will not be permissible.
- Details of the highway crossing and final alignment must be submitted for our review and approval prior to the proposed transmission line construction. This should include, but not be limited to, plans and cross sections indicating the location, height, and method of crossing for the transmission line, etc.

- A full comprehensive traffic management plan must be submitted, highlighting the methods Hydro One will use to avoid traffic delays when installing new high voltage cables across Highway 401 and Highway 77.

Additionally, as part of the permit application, MTO will require the following information;

- Detailed site drawings, including offset dimensions from MTO property limits and vertical profile information (cross section) at crossing locations.
- Method proposed to complete aerial installation of new transmission lines, as well as safety measures to be utilized, and the duration of work.
- Proposed construction access locations/routes for work area. Direct highway access will not be permitted, alternative access shall be secured.
- Traffic staging and detour signage drawings.

To avoid delays to the proposed work, a meeting held early in the design process is recommended to ensure MTO concerns can be addressed. Please contact the undersigned to schedule a meeting between MTO and Hydro One staff to discuss this proposal further.

RE: MTO Comments – Hydro One Chatham to Lakeshore TAC

The Ministry of Transportation (MTO) has previously provided comments for the Hydro One Chatham to Lakeshore TAC. These comments included our recommendations of the MTO's preferred route for the proposed transmission lines. This letter is a follow-up to our previous comments and to provide additional clarification on MTO's consideration of Route Variation 2C.

As outlined in our previous letter sent on July 2nd, 2020, MTO's preferred routes are **Alternative 3A** and subsequently **Alternative 1A**. These routes best avoid any future costly conflicts and relocations that may be necessary for the maintenance or expansion of infrastructure for both MTO and HONI.

In addition to the information previously provided, I would like to provide clarification on MTO's position pertaining to route **Variation 2C, 1C, 1D**. MTO has concerns with the proximity of these routes to the highway corridor. Based on additional details provided regarding **Variation 2C, 1C, 1D**, please see MTO's concerns regarding this route:

- The proposed alignment of **Variation 2C, 1C, 1D** directly crosses the North side of the Bloomfield Rd interchange. Given the timeframe of the interchange improvements (2023) and Hydro One's planned installation (2023), a direct constructor issue would occur.
- An interchange crossing of the transmission line at Bloomfield road would not be permissible. It was noted in previous correspondence that all crossings must remain outside of the functional area of the interchange.
- Given the flat topography of the Chatham-Kent area, it is anticipated that the profiles of Highway 401 and underpasses will need to be raised to accommodate future drainage due to climate change. This will directly impact vertical clearances and may result in unnecessary and costly future conflicts.
- Future highway/interchange closures due to replacement and maintenance of transmissions lines crossing interchanges will negatively impact highway traffic.
- Placement of the transmission line as per the other Alternatives prevents the conflicts and subsequent costs to scheduling of works and relocations to both HONI and MTO that Alternative 1C, 1D and 2C impose.

These concerns are significant and should be taken into consideration when deciding the best route. Potential for utility conflicts should be avoided whenever possible. Given the proximity to MTO's highway corridor, the potential for future conflicts, the complexity of relocating a transmission line, and alternate routes being available, route 2C is not supported by the MTO.

In addition, should no other routes be available, then the following conditions must be included with previously stated conditions:

- A minimum 25-m setback from MTO ROW is required at all locations.
- The towers must be located far enough away from Highway 401, Highway 40, and Highway 77 that any incident with the facility (e.g., a tower collapsing) will not affect the operation of the provincial highways.
- Mitigate future conflicts at interchanges and underpasses by providing enough clearance and setback.
- No lines shall cross over any interchange ramps, underpass embankments or underpasses. The flat topography in the Chatham-Kent area has been driving the need to raise the profiles of Highway 401 and underpasses to accommodate drainage.
- Identify HOT restrictions regarding work around their infrastructure that may impact MTO future work.
- A legal agreement between the MTO and Hydro One will be required prior to any permits being issued.

MTO would recommend that alternate routes be considered instead of route 2c. Please contact me for further discussion at (226)-973-7021 or Michael.Kilgore@ontario.ca.

***** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. *****

Staff at the LTVCA have reviewed the proposed alternate routes for the line project and variations for the alternate routes for the proposed line project from Chatham-to-Lakeshore as it relates to the Authority's Regulations O. Reg. 152/06 and Conservation Areas, and have the following comments / questions:

West Portion

Alternate 2 is located within a flood prone area

Central Portion

Alternate 2 is located within a flood prone area

North Variation is located further into the flood prone area (potential for greater flood depths)

East Portion

Alternate 2 is located within a flood prone area

Alternate 2 – All Variations are located within a flood prone area

Alternate 1 – North Variation is located within a flood prone area

Alternate 3 would be located directly to the north of (abutting?) the LTVCA's property known as CM Wilson Conservation Area

- Would any clearing of trees / vegetation be involved on/or adjacent to the conservation area?

Various watercourses and drains will be crossed by any potential option. The location of the towers should not occur on any municipal or private diking system within the Thames River watershed located north of the 401. These diking structures are crucial for flood prevention purposes.

Paul Dalmazzi
Paul.Dalmazzi@HydroOne.com

Attention: Paul Dalmazzi

Dear Mr. Dalmazzi:

Re: Hydro One Chatham x Lakeshore Line
Class Environmental Assessment for Minor Transmission Facility

Further to the previous meetings held on March 1st & March 31st 2021 with the Municipality of Lakeshore regarding Hydro One's preferred route for the Hydro One Chatham x Lakeshore Line, please accept this letter as formal notification that we remain opposed to the preferred route through the Municipality of Lakeshore.

It remains our position that the proposed transmission line alignment will have significant adverse impacts to the residential, commercial and industrial buildings and lands (both existing and future) in the Community of Comber as well as the agricultural lands along Hydro One's preferred route. As per our discussions, we have attached a zoning map of the Community of Comber to reflect existing and future growth where the preferred transmission line will have an adverse impact to the private land owners and the Municipality.

We believe the preferred route should be altered to north of Highway 401 along the alignment of the existing transmission line in the Municipality of Lakeshore.

In addition, please find attached the Notice of Motion that was passed by Lakeshore's Council at the April 6th 2021 council meeting related to concerns also identified and heard by local area residents.

If you have any questions or wish to discuss the matter further, please contact the undersigned.

Thank you

Krystal Kalbol, P. Eng.
Director of Engineering and Infrastructure Services

Attention: Mark Poweska, Chief Executive Officer

Dear Mr. Poweska,

RE: Class Environmental Assessment to Construct a New Transmission Line

At its meeting of April 6, 2021 the Council of Municipality of Lakeshore passed the following resolution:

#115-04-2021

Whereas demand for electricity in Southwestern Ontario is anticipated to grow significantly over the next several years, Hydro One has commenced a Class Environmental Assessment to construct a new transmission line between Chatham-Kent to Lakeshore;

And whereas the line selected impacts local farmers and the future development of commercial lands in Lakeshore;

Now be it resolved that the Council of the Municipality of Lakeshore direct Administration to send a letter to Hydro One supporting local residents in requesting a reconsideration of the preferred line selection for the transmission line between Chatham-Kent to Lakeshore.

Carried Unanimously

Council would like to invite Hydro One to discuss the site of the new transmission line from Chatham-Kent to Lakeshore. To discuss the request further and to confirm a meeting date, please contact the undersigned at 519-728-2700 x 235 or bcoughlin@lakeshore.ca.

Sincerely,

Brianna Coughlin

Brianna Coughlin
Manager of Legislative Services

Socio-Economic Environment

Criteria	Measure
Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)
Source water Protection	Effects to source water resources including policy areas and drinking water sources for private landowners (<i>info source: source water protection mapping</i>)
Cultural Resources	Effects to properties or landscapes with cultural heritage resource potential (<i>info source: MHSTCI background information, heritage inventories, etc.</i>)
Archaeological Resources	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archaeological assessment, etc.</i>)

Note: Criteria listed here is a small sample for presentation purposes. For the full list of preliminary criteria, please refer to the PDF provided.

STEP 4: WEIGHTING

Factor	Criteria	Criteria Weight	Measure
Socio- Economic Environment	Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	5/10	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)
	Archaeological Resources	5/10	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archeological assessment, etc.</i>)
Natural Environment	Effects to Vegetation	6/10	Effects to vegetation including footprint effects, potential effects to incompatible vegetation communities (<i>info source: ELC mapping, field investigations</i>)

Note: Criteria listed here is a small sample for presentation purposes. For the full list of preliminary criteria, please refer to the PDF provided.

STEP 5: EVALUATE AND SELECT

Factor	Criteria	Criteria Weight	Measure	SCORE (Scale of 1 to 6) 1 = Most Impact, 6 = Least Impact		
				Alt. 1	Alt. 2	Alt. 3
Socio-Economic Environment	Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	5/10	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	3	4	1
	Archaeological Resources	5/10	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archeological assessment, etc.</i>)	1	5	6
Natural Environment	Effects to Vegetation	6/10	Effects to vegetation including footprint effects, potential effects to incompatible vegetation communities (<i>info source: ELC mapping, field investigations</i>)	2	2	2

Note: Criteria listed here is a small sample for presentation purposes. For the full list of preliminary criteria, please refer to the PDF provided.

MODERATED CONFERENCE CALL DISCUSSION AND SURVEY

Moderated Conference Call

Socio-Economic Focus June 10, 2020

10:00 a.m. to 11:30 a.m.
Webex Conference

Link and Log-in details will be
emailed to you in advance

Natural Environment Focus June 10, 2020

2:00 p.m to 3:30 p.m.
Webex Conference

Link and Log-in details will be
emailed to you in advance

Digital Survey will be emailed to you following the
moderated conference call.

NEXT STEPS

Hydro One will continue to conduct environmental surveys and research.

Hydro One will continue to engage with the TAC through series of project workshops. Future workshops will be held to further evaluate alternative routes in support of the preferred route.

The project team will consider all feedback received and evaluate the results of environmental and technical research, and select the preferred route for the new transmission line.

Details of the evaluation process and the preferred alternative will be presented at a CIC in early 2021.

Next workshop is anticipated to be held in early fall 2020.

TAC INPUT

All information collected during the moderated conference call and feedback survey will form part of the record of consultation and summarized in report format. Identifying information will be redacted, but comments will be made available to other TAC members, for posting on the project website, as well as in EA documentation for the project.

PRELIMINARY EVALUATION CRITERIA

Natural Environment

Criteria	Measure	Notes/Comments
Effects to Fish and Aquatic Habitat	Effects to aquatic habitat including total number of watercourse crossings, effects to bank riparian vegetation, potential effects to surface flows (<i>info source: NHIC/DFO historical data, field investigations</i>)	
Effects to Vegetation	Effects to vegetation including footprint effects, potential effects to incompatible vegetation communities (<i>info source: ELC mapping, field investigations</i>)	
Terrestrial and Wildlife Habitat	Effects to terrestrial wildlife and habitat including footprint effects, potential removal, disturbance and/or destruction of habitat, potential disturbance to wildlife movement/habitat fragmentation (<i>info source: ELC mapping, field investigations</i>)	
Species at Risk & Species of Conservation Concern	Effects to Species at Risk and their habitat (<i>info source: NHIC historical data, MECP, ELC mapping, field investigations</i>)	
Natural Hazards, Wetlands and Floodplain Areas	Distance of the route that occurs within/in close proximity to floodplain areas, wetlands, areas of erosion concern (<i>info source: CA mapping and regulated areas, ELC mapping, field investigations</i>)	

First Nations/ Traditional Land Use

Criteria	Measure	Notes/Comments
First Nations Traditional / Contemporary Lands & Resources Uses and Occupation	Impacts to any existing First Nations traditional, cultural, historical, archaeological and/or current use and occupation of lands and/or resources in the project area.	

PRELIMINARY EVALUATION CRITERIA

Socio-Economic Environment

Criteria	Measure	Notes/Comments
Existing and future land use designations	Alignment with existing and future land use designations as defined by the Provincial Policy Statement and local Municipal Official Plans (<i>Info source: OP land use designations, zoning, and mapping</i>)	
Agricultural Operations	Effects to agricultural operations including farming of land, movement of farm machinery and access to processing facilities (<i>info source: feedback from stakeholders, socio-economic baseline assessment</i>)	
Petroleum Operations	Effects to petroleum operations including access to petroleum wells or resources and distribution networks/ pipelines (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	
Effects to residential buildings, properties or site plans	Effects to existing residential properties including proximity to existing homes, site plan alteration or building effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	
Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains	Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects (<i>info source: feedback from stakeholder, socio-economic baseline assessment</i>)	
Source water Protection	Effects to source water resources including policy areas and drinking water sources for private landowners (<i>info source: source water protection mapping</i>)	
Cultural Resources	Effects to properties or landscapes with cultural heritage resource potential (<i>info source: MHSTCI background information, heritage inventories, etc.</i>)	
Archaeological Resources	effects to lands with archaeological potential, proximity to known archaeological sites (<i>info source: Consultation with First Nations, MHSTCI background information, Stage 1 archaeological assessment, etc.</i>)	

PRELIMINARY EVALUATION CRITERIA

Technical and Cost

Criteria	Measure	Notes/Comments
Line Length	Total length of each route or variation	
Line Angles	Number of turns in each route/variation, as well as the angle of the turn (sharper or wider than 30°)	
Crossings	Total number of crossings of: River, railways, Highway 401, Existing 230 kV transmission lines, etc.	
Parallel & Adjacent to Underground Pipelines	Total distance parallel/adjacent to underground pipelines (preference to routes/variations with less parallel distance)	
Proximity to Wind Turbines	Presence of existing wind turbines on property parcels, as well as proximity to the turbines	
Parallel & Adjacent to existing transmission line corridor	Total distance of each route/variation that parallels an existing transmission line corridor (preference to routes/variations with longer parallel distance)	
Parallel & Adjacent to other existing infrastructure (e.g., Highway 401)	Total distance of each route/variation that parallels an linear infrastructure/corridor (preference to routes/variations with longer parallel distance)	
Number of property parcels requiring new real estate rights	Total number of property parcels for which new RE rights will be required (preference to routes/variations with lower number of parcels requiring new rights)	
Number of mandatory property buy-outs	Total number of mandatory buyouts, e.g., existing structures for which the current use is not compatible with a transmission line	

ADDITIONAL COMMENTS:

A series of ten horizontal black lines provided for writing additional comments.

TAC WORKSHOP #1 SUMMARY

Survey/Comments Received

- 11 digital survey responses received
- 5 proposed Natural Environment Criteria
- 15 proposed Socio-Economic Environment Criteria
- 4 proposed Technical and Cost Criteria
- Recommended alternate methods of assessing/scoring “Existing and Future Land Use Designations” and “Agricultural Operations”
- Review of “Source Water Protection” criterion

TAC WORKSHOP #1 – FINDINGS

NATURAL ENVIRONMENT

TAC Member Proposed Criteria

Support Structure placement within the route

Impact on established tree lines or wind breaks

Line maintenance activities (pesticide use)

Potential impacts to restoration areas and linkages as identified in Official Plans or other studies/strategies (potential for enhancement)

Add "Existing and Future Land Use Designations" to Natural Environment (remove from Socio-Economic)

TAC WORKSHOP #1 – RESULTS

NATURAL ENVIRONMENT

Changes made to Evaluation
Criteria based on TAC Feedback

TAC WORKSHOP #1 – FINDINGS

SOCIO-ECONOMIC ENVIRONMENT

TAC Member Proposed Criteria

Placement of towers on farm land (on property lines)

Agri-Food Network

Construction Methods

Service Corridor Alignment

Underwire Clearance Restrictions

“Existing and Future Land Use Designations” should also include “Potential Future Settlement Area Expansions”

Aggregate Resources

Include primary and secondary settlement boundaries as part of the future land use designations discussion

Impact to future active transportation facilities

Future development potential along Highway 401

In addition to growth of the greenhouse industry, consider potential industrial growth (advanced manufacturing)

Potential growth in the Comber Area

Placement of electrical towers in relation to wind turbines

Consider the potential growth in rural communities post COVID-19 in “Effects to residential buildings, properties or site plans” criteria

Include Site Plans and identified areas of potential residential and business development

TAC WORKSHOP #1 – RESULTS

Petroleum Operations		Effects to petroleum operations including access to petroleum wells or resources and distribution networks/ pipelines
Effects to residential buildings, properties or site plans		Effects to existing residential properties including proximity to existing homes, site plan alteration or building effects
Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains		Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects
Source water Protection		Effects to source water resources including policy areas and drinking water sources for private landowners
Cultural Resources		Effects to properties or landscapes with cultural heritage resource potential
Archaeological Resources		Effects to lands with archaeological potential, proximity to known archaeological sites
Aggregate Resources Extraction Areas/Operations (Pits/Quarries)		Effects to aggregate extraction site operations including expansion plans, and site operations

FINAL CRITERIA LIST

Technical and Cost

Final Criteria	Final Proposed Measure
Line Length	Total length of each route or variation
Line Angles	Number of turns in each route/variation, as well as the angle of the turn (sharper or wider than 30°)
Crossings	Total number of crossings of: River, railways, Highway 401, Existing 230 kV transmission lines, etc.
Parallel & Adjacent to Underground Pipelines	Total distance parallel/adjacent to underground pipelines (preference to routes/variations with less parallel distance)
Proximity to Wind Turbines	Presence of existing wind turbines on property parcels, as well as proximity to the turbines
Parallel & Adjacent to existing transmission line corridor	Total distance of each route/variation that parallels an existing transmission line corridor (preference to routes/variations with longer parallel distance)
Parallel & Adjacent to other existing infrastructure (e.g., Highway 401)	Total distance of each route/variation that parallels a linear infrastructure/corridor (preference to routes/variations with longer parallel distance)
Number of property parcels requiring new real estate rights	Total number of property parcels for which new RE rights will be required (preference to routes/variations with lower number of parcels requiring new rights)
Number of mandatory property buy-outs	Total number of mandatory buyouts, e.g., existing structures for which the current use is not compatible with a transmission line

NEXT STEPS

Hydro One will continue to conduct environmental surveys and research.

Hydro One will continue to engage with the TAC through series of project workshops. Future workshops will be held to further evaluate alternative routes in support of the preferred route.

The project team will consider all feedback received and evaluate the results of environmental and technical research, and select the preferred route for the new transmission line.

Details of the evaluation process and the preferred alternative will be presented at a CIC in early 2021.

Next workshop is TBD.

TAC INPUT

All information collected during the moderated conference call and feedback survey will form part of the record of consultation and summarized in report format. Identifying information will be redacted, but comments will be made available to other TAC members, for posting on the project website, as well as in EA documentation for the project.

Survey results and feedback on criteria weighting received from TAC members will be used to inform the final weighting within the route evaluation framework, in conjunction with input and feedback received from members of the public, elected officials, First Nation communities, and other stakeholders.

FINAL EVALUATION CRITERIA & WEIGHTING EXERCISE

Natural Environment

Weighting Scale

- ✓ Most Important
- = Neutral
- ✗ Least Important

Final Criteria	Weighting (See Weighting Scale Above)	Final Measure
Effects to Fish and Aquatic Habitat		Effects to aquatic habitat including total number of watercourse crossings, effects to bank riparian vegetation, potential effects to surface flows
Effects to Vegetation		Effects to vegetation including potential effects to incompatible vegetation communities and disturbance/alteration/destruction of existing windbreaks
Terrestrial and Wildlife Habitat		Effects to terrestrial wildlife and habitat including footprint effects, potential removal, disturbance and/or destruction of habitat, potential disturbance to wildlife movement/habitat fragmentation
Species at Risk & Species of Conservation Concern		Effects to Species at Risk & Species of Conservation Concern, and their habitats
Natural Hazards, Wetlands and Floodplain Areas		Distance of the route that occurs within/in close proximity to floodplain areas, wetlands, areas of erosion concern
Designated Natural Areas		Alignment with existing land use designations as defined by the Provincial Policy Statement and local Municipal Official Plans

FINAL EVALUATION CRITERIA & WEIGHTING EXERCISE

Socio-Economic Environment

Weighting Scale

- ✓ Most Important
- = Important
- = Neutral
- = Less Important
- * Least Important

Final Socio-Economic Criteria	Weighting (See Weighting Scale Above)	Final Measure
Existing land use designations		Alignment with existing land use designations as defined by the Provincial Policy Statement and local Municipal Official Plans (does not include Designated Natural Areas or Natural Environment designations under the PPS)
Future land use designations		Alignment with future land use designations including potential future settlement area expansion plans, growth areas and development boundaries, as defined by the Provincial Policy Statement and local Municipal Official Plans (does not include Designated Natural Areas or Natural Environment designations under the PPS)
Agricultural Operations		Effects to agricultural operations including farming of land, movement of farm machinery and access to processing facilities
Petroleum Operations		Effects to petroleum operations including access to petroleum wells or resources and distribution networks/ pipelines
Effects to residential buildings, properties or site plans		Effects to existing residential properties including proximity to existing homes, site plan alteration or building effects
Effects to commercial/industrial buildings, properties, site plans or business operations/ supply chains		Effects to existing commercial or industrial properties including proximity to commercial/industrial operations, building effects or supply chain effects
Source water Protection		Effects to source water resources including policy areas and drinking water sources for private landowners
Cultural Resources		Effects to properties or landscapes with cultural heritage resource potential
Archaeological Resources		Effects to lands with archaeological potential, proximity to known archaeological sites
Aggregate Resources Extraction Areas/Operations (Pits/Quarries)		Effects to aggregate extraction site operations including expansion plans, and site operations

**TECHNICAL ADVISORY
COMMITTEE (TAC)
VIRTUAL WORKSHOP
INFORMATION SESSION #3
CHATHAM TO LAKESHORE
TRANSMISSION PROJECT**

TODAY'S AGENDA

- Purpose of TAC
- Project Overview and status of the Class Environmental Assessment
- Re-Cap Route Evaluation Framework
- Selection of the Preferred Alternative
- Review TAC Workshop #2 Weighting Exercise Results
- Next Steps

PURPOSE OF TAC

- To provide a platform for Hydro One to present information, hold discussions, and ultimately draw upon the knowledge and experience of you and your organization.
- This knowledge sharing forum will help inform our planning and Class EA process.
- Specifically for this project, Hydro One is looking to draw upon the wide variety of technical knowledge represented by TAC organizations, yourselves, to help inform the comparative evaluation and route selection process used to identify the preferred route for the new Chatham to Lakeshore transmission line.
- While this third workshop represents the final planned event to support this purpose, we hope that each of you and your organizations will remain engaged in the Chatham x Lakeshore project and will contribute your expertise going forward:
 - Input regarding potential environmental effects and mitigation on the preferred route
 - Draft ESR review period (late spring/early summer 2021)
 - Post-EA discussions (Detailed design and construction planning, and permits/approvals, as needed)

CLASS ENVIRONMENTAL ASSESSMENT PROCESS

WEIGHTED MULTI-CRITERIA DECISION MAKING ANALYSIS

- 1 Step 1: Establish Need
- 2 Step 2: Alternatives
- 3 Step 3: Evaluation Criteria ← TAC Meeting #1
- 4 Step 4: Weight What's Important ← TAC Meeting #2
- 5 Step 5: Evaluate and Select ← We Are Here

ALTERNATIVES RECAP

TAC WORKSHOP #2

SUMMARY

Comments Received

- Data sources for measuring criteria (how identified and found)
- Non-renewable resources require mitigation measures as part of impact assessment
- Archaeological and cultural resources are non-renewable resources
- Tower placement dependent on landowners/farm use, but subject to engineering/design requirements first and foremost
- Need to ensure criteria for Traditional/Indigenous environmental knowledge included
- Difficulty of determining relative importance (weighting) of various Natural Environment features

TAC WORKSHOP #2 – WEIGHTING EXERCISE RESULTS: SOCIO-ECONOMIC ENVIRONMENT

EXISTING LAND USE DESIGNATIONS

FUTURE LAND USE DESIGNATIONS

AGRICULTURAL OPERATIONS

PETROLEUM OPERATIONS

EFFECTS TO RESIDENTIAL BUILDINGS, PROPERTIES OR SITE PLANS

EFFECTS TO COMMERCIAL/INDUSTRIAL

SOURCE WATER PROTECTION

CULTURAL RESOURCES

ARCHAEOLOGICAL RESOURCES

FINAL CRITERIA & WEIGHTING: TECHNICAL AND COST & FIRST NATIONS AND TRADITIONAL LAND USE

 Technical and Cost	Weighting
Line Length	20
Line Angles	20
Crossings	12.5
Parallel & Adjacent to Existing Infrastructure	5
Proximity to Wind Turbines	5
Impacted Property Parcels and Property Acquisition	25
Overall Constructability	12.5

 First Nations and Haudenosaunee Culture, Values and Land Use	Weighting
Proximity to Identified Areas of Historical Significance	14.3
Effects to Identified First Nations revenue generating projects	14.3
Areas that support hunting/trapping/harvesting grounds	14.3
Areas that support fish bearing waters with identified or inferred habitat of game fish species	14.3
Effects to rare/undisturbed native habitats/ecosystems	14.3
Rare/Sensitive species regeneration potential	14.3
Co-location of existing infrastructure	14.3

PREFERRED ROUTE ALTERNATIVE

- First Nations and Haudenosaunee Culture, Values and Land Use
- Technical Environment Criteria
- Socio-Economic Environment Criteria
- Natural Environment Criteria

NEXT STEPS – CLASS EA

Details of the evaluation process and the preferred alternative will be publicly communicated beginning tomorrow, and will be presented at a virtual Community Information Session in March 2021.

Project team will turn our focus to the preferred route, and further investigating potential environmental effects and high-level avoidance, mitigation and restoration measures that may be utilized to address these potential effects.

The project team will complete the draft Environmental Study Report and release it for a First Nations and Haudenosaunee, public and agency review and comment period.

TAC INPUT

All information collected during the moderated conference call and feedback survey will form part of the record of consultation and summarized in report format. Identifying information will be redacted, but comments will be made available to other TAC members, for posting on the project website, as well as in EA documentation for the project.

Appendix B6 Record of Consultation

Anishnawbek and Haudenosaunee - Record of Consultation

Organisation	Community Representatives	Date	Type of communication	Summary
Aamjiwnaang First Nation (Chippewas of Sarnia)	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief)	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Chief Chris Plain of Aamjiwnaang First Nation. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Bkejwanong (Walpole Island First Nation)	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief)	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Chief Daniel Miskokomon of Bkejwanong First Nation. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Caldwell First Nation	Ogichii (Mary Frances) Da Kwe (Duckworth) - Caldwell First Nation (Chief)	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Chief Mary Frances Duckworth of Caldwell First Nation. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Chippewas of Kettle and Stony Point First Nation	Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Thomas Bressette - Chippewas of Kettle and Stony Point First Nation	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Chief Jason Henry of Chippewas of Kettle and Stony Point First Nation. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Chippewas of the Thames First Nation	Jacqueline French - Chippewas of the Thames First Nation (Chief)	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Chief Jacqueline French of the Chippewas of the Thames First Nation. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Oneida Nation of the Thames	Jessica Hill - Oneida Nation of the Thames (Former Chief)	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Chief Jessica Hill of Oneida Nation of the Thames. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Six Nations of the Grand River	Mark Hill - Six Nations of the Grand River (Chief)	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Chief Mark Hill of Six Nations of the Grand River. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	2019-12-03	Email	Hydro One sent a project initiation letter (via email and hard copy) to Mr. Leroy Hill of the Haudenosaunee Confederacy Chiefs Council. The letter outlined the need for the project, delegation of the required Duty to Consult and high level timelines associated with in-service dates of the new 230 kv transmission line.
Oneida Nation of the Thames	Jessica Hill - Oneida Nation of the Thames (Former Chief) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2019-12-19	Email	Hydro One emailed Oneida Nation of the Thames First Nation and acknowledge the receipt of their letter. Hydro One stated that the Notice of Commencement will be released in January 2020 and Hydro One would be willing to meet with the Environment Committee to discuss the project.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Haudenosaunee Confederacy Chiefs Council.
Aamjiwnaang First Nation (Chippewas of Sarnia) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Aamjiwnaang First Nation.
Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Bkejwanong (Walpole Island) First Nation.

Organisation	Community Representatives	Date	Type of communication	Summary
Caldwell First Nation Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Darryl Van Oirschot - Caldwell First Nation (Special Projects) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Nikki Orosz - Caldwell First Nation (Director - Operations) Ogichii (Mary Frances) Da Kwe (Duckworth) - Caldwell First Nation (Chief)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Caldwell First Nation.
Chippewas of Kettle and Stony Point First Nation Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Thomas Bressette - Chippewas of Kettle and Stony Point First Nation Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Chippewas of Kettle and Stony Point First Nation.

Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP) Six Nations of the Grand River	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Fran Henry - Six Nations of the Grand River (Executive Assistant) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Lonny Bomberry - Six Nations of the Grand River (Lands & Resources Director) Mark Hill - Six Nations of the Grand River (Chief)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Six Nations of the Grand River First Nation.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to Aamjiwnaang First Nation.
Bkejwanong (Walpole Island First Nation)	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to Walpole Island First Nation.
Caldwell First Nation	Ogichii (Mary Frances) Da Kwe (Duckworth) - Caldwell First Nation (Chief)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to Caldwell First Nation.
Chippewas of Kettle and Stony Point First Nation	Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to Chippewas of the Kettle and Stony Point First Nation.
Chippewas of the Thames First Nation	Jacqueline French - Chippewas of the Thames First Nation (Chief)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to the Chippewas of the Thames First Nation via Registered Mail.
Oneida Nation of the Thames	Jessica Hill - Oneida Nation of the Thames (Former Chief)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to the Oneida Nation of the Thames.
Six Nations of the Grand River	Mark Hill - Six Nations of the Grand River (Chief)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to the Six Nations of the Grand River.
Haudenosaunee Confederacy Chiefs Council (HCCC) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to the Haudenosaunee Confederacy Chiefs Council.
Oneida Nation of the Thames	H. Grant Doxtator - Oneida Nation of the Thames Jessica Hill - Oneida Nation of the Thames (Former Chief) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-01-09	Email	Hydro One responded to Oneida Nation of the Thames confirming availability to meet and share preliminary information regarding the project.

Organisation	Community Representatives	Date	Type of communication	Summary
Oneida Nation of the Thames	H. Grant Doxtator - Oneida Nation of the Thames Jessica Hill - Oneida Nation of the Thames (Former Chief) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-01-09	Email	Oneida Nation of the Thames First Nation confirmed their availability for the meeting to share preliminary information regarding the project.
Oneida Nation of the Thames	Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-01-16	Meeting	Hydro One staff attended a meeting with Oneida First Nation regarding the CxL project.
Haudenosaunee Development Institute (HDI) Ministry of Energy Ministry of Energy, Northern Development and Mines (ENDM) Ontario Legislative Assembly	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Carlo Oliviero - Ministry of Energy Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) Ministry of Energy, Northern Development and Mines (ENDM) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy)	2020-01-27	Letter	Aaron Detlor wrote to advise that HCCC/HDI delegates him to work on matters regarding to CxL. Mr. Detlor expresses a number of concerns. He asserts that the proposed project will interfere, impair and infringe upon established Haudenosaunee treaty and other rights. Mr. Detlor also asserts that there is no other treaty covering the Project area. Mr. Detlor advises that the IESO, as the Crown did not undertake any engagement to justify the project and approval for Hydro One to construct and operate the asset. Mr. Detlor requests from the Crown for a copy of the delegation letter and the assessment of delegation.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Aamjiwnaang FN Environment Inbox - Aamjiwnaang First Nation (Chippewas of Sarnia)	2020-02-03	Email	Hydro One sent a presentation briefing to Aamjiwnaang First Nation for a meeting the following day. Hydro One informed Aamjiwnaang First Nation that they will be attending community events on March 7th and April 25th and invited Aamjiwnaang First Nation to attend.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Aamjiwnaang FN Environment Inbox - Aamjiwnaang First Nation (Chippewas of Sarnia) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	2020-02-03	Email	Hydro One sent a presentation briefing to Aamjiwnaang First Nation for the following day. Hydro One informed Aamjiwnaang First Nation that they will attend community events on March 7th and April 25th and encouraged them to attend the sessions.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Aamjiwnaang First Nation (Chippewas of Sarnia)	2020-02-03	Phone	9:35am Chief Plains mailbox full. 9:37am Telephone follow up with Environment dept. Spoke with Sharilyn Johnston regarding the Chatham to Lakeshore project. She put me in touch with Norm Joseph who plans the Environment committee meetings. They asked me to attend the meeting for the following day on Feb 4th. I asked about future community meetings and they will include Hydro One for March 7th and April 25th community meetings.
Caldwell First Nation	Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-02-03	Phone	Hydro One called and left messages for Chief Duckworth and Nikki Orosz to follow up regarding the Notice of Commencement letter, provide early notice of upcoming CICs, and offer to meet to discuss the project.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Aamjiwnaang FN Environment Inbox - Aamjiwnaang First Nation (Chippewas of Sarnia)	2020-02-04	Email	Hydro One re-emailed presentation materials and previously sent email to Aamjiwnaang First Nation.
Chippewas of Kettle and Stony Point First Nation	Chippewas of Kettle and Stony Point First Nation Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	2020-02-04	Phone	Hydro One called and left messages for Chief Henry and Valerie Georgeto follow up regarding the Notice of Commencement letter, provide early notice of upcoming CICs, and offer to meet to discuss the project.
Chippewas of the Thames First Nation	Chippewas of the Thames First Nation	2020-02-04	Phone	Hydro One called and left a message for the Environment department, offering to discuss the project.
Six Nations of the Grand River	Lonny Bomberry - Six Nations of the Grand River (Lands & Resources Director)	2020-02-04	Email	Hydro One followed up with Six Nations of the Grand River First Nation and sent an acknowledgement letter and Notice of Study Commencement letter.
Bkejwanong (Walpole Island First Nation)	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2020-02-07	Email	Hydro One informed Walpole Island First Nation of the upcoming Community Information sessions during the weeks of March 9th and 23rd and requested that they provide their availability.
Caldwell First Nation	Darryl Van Oirschot - Caldwell First Nation (Special Projects) Nikki Orosz - Caldwell First Nation (Director - Operations) Ogichii (Mary Frances) Da Kwe (Duckworth) - Caldwell First Nation (Chief)	2020-02-07	Email	Hydro One informed Caldwell First Nation of the Community Information sessions during the weeks of March 9th and 23rd. Hydro One requested that Caldwell First Nation provide their availability.
Chippewas of Kettle and Stony Point First Nation	Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	2020-02-07	Email	Hydro One responded to Chippewas of Kettle and Stony Point regarding availability for a meeting and sent a powerpoint presentation prior to the meeting.
Chippewas of Kettle and Stony Point First Nation	Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Thomas Bressette - Chippewas of Kettle and Stony Point First Nation Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	2020-02-07	Email	Hydro One informed Chippewas of Kettle and Stony Point First Nation of the Community Information sessions during the weeks of March 9th and 23rd. Hydro One requested that Chippewas of Kettle and Stony Point First Nation provide their availability.
Chippewas of the Thames First Nation	Chippewas of the Thames FN Consultation Inbox - Chippewas of the Thames First Nation (Consultation Inbox) Jacqueline French - Chippewas of the Thames First Nation (Chief)	2020-02-07	Email	Hydro One informed Chippewas of the Thames First Nation of the Community Information sessions to be held during the weeks of March 9th and 23rd. Hydro One requested for Chippewas of the Thames First Nation to confirm their availability.
Oneida Nation of the Thames	Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-02-07	Email	Hydro One sent Oneida Nation of the Thames an email providing a status update on the completion of notes. Hydro One requested for Oneida Nation of the Thames to confirm the meeting dates for a community information session in March.
Six Nations of the Grand River	Lonny Bomberry - Six Nations of the Grand River (Lands & Resources Director)	2020-02-07	Email	Hydro One responded to Six Nations of the Grand River First Nation and indicated that once a meeting has been confirmed with Chief Hill, Mr. Lonny Bomberry would be copied to the email.
Six Nations of the Grand River	Fran Henry - Six Nations of the Grand River (Executive Assistant) Lonny Bomberry - Six Nations of the Grand River (Lands & Resources Director) Mark Hill - Six Nations of the Grand River (Chief)	2020-02-07	Email	Hydro One sent possible meeting dates to discuss the project to Six Nations of the Grand River First Nation. Hydro One informed Six Nations of the Grand River that Community Information sessions will be held during the weeks of March 9th and 23rd.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Teroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	2020-02-07	Email	Hydro One followed up on an earlier telephone message left with Haudenosaunee Confederacy Chiefs Council and provided possible meeting dates to discuss the project. Hydro One informed Haudenosaunee Confederacy Chiefs Council of the upcoming Community Information sessions during the weeks of March 9th and 23rd.
Haudenosaunee Confederacy Chiefs Council (HCCC)	Haudenosaunee Confederacy Chiefs Council (HCCC)	2020-02-09	Phone	Hydro One staff left a message with HCCC staff offering to discuss the project.
Six Nations of the Grand River	Fran Henry - Six Nations of the Grand River (Executive Assistant) Lonny Bomberry - Six Nations of the Grand River (Lands & Resources Director) Special Assistant Six Nations of the Grand River - Six Nations of the Grand River	2020-02-14	Email	Hydro One responded to Six Nations of the Grand River and provided available dates to meet or teleconference with Chief Hill.

Hydro One is on the agenda at 4:15 to discuss Hydro One issues.
Aaron Detlor Barrister & Solicitor Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Karl J Hill - Haudenosaunee Development Institute (HDI) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager) Wayne Hill - Haudenosaunee Development Institute (HDI)	2020-05-04	Email	Council has been briefed and this is a good opportunity to answer any questions folks might have about potential opportunities. HCCC/HDI responded to the Environmental and Archaeology aspects of this project, HDI is currently waiting for HONI to finalize the 2020 HDI-HONI Monitoring agreement. HDI commented in an email update sent May 1st, that the environmental surveys have commenced. HDI noted that the Haudenosaunee hold these areas in high regard and have anticipated participation in the projects field surveys.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Karl J Hill - Haudenosaunee Development Institute (HDI) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager) Wayne Hill - Haudenosaunee Development Institute (HDI)	2020-05-04	Email	Hydro One responded to Todd Williams of Haudenosaunee Development Institute (HDI) and confirmed the individuals from HDI to contact for the Environmental Assessment Survey and/or Assessment (Wayne Hill and Karl Hill and cc' Todd). Hydro One made note that they are following up internally for the 2020 Field Liaison Agreement and will get back to HDI.
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI) Wayne Hill - Haudenosaunee Development Institute (HDI)	2020-05-07	Email	Hydro One (HONI) emailed representatives from Haudenosaunee Development Institute (HDI) regarding field studies and asked that HDI complete and sign the monitoring agreement prior to HDI monitor participation (or use the 2019 agreement currently in place if not finalized). HONI noted that participation in any work activities will involve additional safety measures due to COVID-19 and requires any HDI staff attending the surveys to follow similar protocols and to respect health and safety plans. HONI provided an overview of the Archaeological Assessments and attached a field work guide and COVID-19 precautions.
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-05-08	Email	Karl Hill of Haudenosaunee Development Institute (HDI) confirmed they would like to participate in the natural field work as soon as possible and requested that Hydro One provide a tentative schedule in order for HDI to have monitors available. HDI requested a summary of the field work completed to date and confirmed that HDI monitors will adhere to the safety guidelines and protocol. HDI included Todd Williams, HDI's contract administrator on the email.

Organisation	Community Representatives	Date	Type of communication	Summary
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-05-13	Email	Hydro One responded to Haudenosaunee Development Institute (HDI)'s email and provided a general overview of the field activities and tentative schedule as the final schedule had yet to be confirmed. Hydro One corrected information in their previous email regarding the 2019 HDI monitoring agreement and notified HDI that the 2019 monitoring agreement cannot be applied to work in 2020. Hydro One provided options for how to include HDI monitors in the upcoming surveys and requested for HDI to confirm how they would like to proceed. Hydro One provided an Indigenous Environmental Monitors information sheet and informed HDI that a summary of surveys can be provided.
Haudenosaunee Development Institute (HDI)	Todd Williams - Haudenosaunee Development Institute (HDI)	2020-05-13	Email	HCCC/HDI sent back the amended Archaeology and Environmental agreement. HDI requested Hydro One proceed with the attached version.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Christopher Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Chief) June Simon - Aamjiwnaang First Nation (Chippewas of Sarnia) (Band Manager) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	2020-05-14	Email	Hydro One followed up with representatives Aamjiwnaang First Nation to provide updates on the First Nation Community Information Centre, Environmental survey, Technical Advisory Committee and the Capacity Funding Agreement. Hydro One provided the invitation to the information centre.

Mr. Hill provided Matthew Turner's contact information.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-09	Email	Lisa DeMarco, a representative for Walpole Island First Nation requested responses to previously submitted questions from Hydro One and outlined concerns and inquiries for projects. Ms. DeMarco requested one full week of notice for each intended access of traditional territories and to postpone all such activities until notice has been provided. Ms. DeMarco provided the contacts to whom the notice should be provided.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-09	Email	Hydro One informed Lisa DeMarco, representative for Walpole Island First Nation, that they will respond to the various items identified in her email. Hydro One addressed Ms. DeMarco's comment regarding monitoring and requested the monitoring coordinator contact's information.
Caldwell First Nation	Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-06-09	Phone	Brief update on the call with Caldwell FN. Sara Jane and I (Sonny) had a call with Nikki this afternoon. Nikki clarified 3 items in the main body of the agreement and tow items in Schedule C of the agreement. She was pleased with the responses that we provided to her questions. We have asked that she reflect the requested amendments to these sections in a redline to the agreement, which she said she would send us next week. Subject to review of those redlines and based on the discussion we had today, we should be in a position to execute the CFA in the near future.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-10	Email	Hydro One's VP of Indigenous Relations Derek Chum replied to Lisa DeMarco to clarify Hydro One's position on the CxL project and other transmission stations projects. Derek reiterated that Hydro One is committed to providing capacity funding on CxL to support participation in the Class EA and project, and also stated that there will be opportunities for employment and other economic opportunities as the project progresses. Derek reiterated the opportunity for WIFN to hire a Community coordinator through the CFA, and inquired about WIFN's anticipated timelines. Derek also stated an interest in entering into a broader, long-term agreement with WIFN outside of these projects, potentially relating to ongoing matters such as reliability and customer matters.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-10	Email	Lisa DeMarco, representative for Walpole Island First Nation, emailed Hydro One and reiterated the request for Hydro One to stand down until reasonable notice is provided and confirmed. Ms. DeMarco noted that more than one representation may be participating in the activities and confirmation of representatives will be provided following receipt of reasonable notice.
Oneida Nation of the Thames	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-06-10	Email	Hydro One followed up with Brandon Doxtator of Oneida Nation of the Thames to confirm the invitation for the Technical Advisory Committee has been forwarded and a teleconference call can be held if requested.

Organisation	Community Representatives	Date	Type of communication	Summary
Haudenosaunee Development Institute (HDI)	Janice Bomberry - Haudenosaunee Development Institute (HDI) Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-06-24	Email	Hydro One received an email from the Haudenosaunee Development Institute with the agreement regarding field survey monitoring attached.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-25	Email	Hydro One emailed Walpole Island First Nation to share a reminder to fill out the workshop feedback surveys and shared a link to the TAC informational video.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-25	Email	Lisa DeMarco of Walpole Island First Nation emailed Hydro One and stated there are some concerns with the substance and process around the survey, Lisa stated she believes the survey "was not crafted or otherwise informed by your (Hydro Ones) indigenous partner(s)".
Carolinian Canada Coalition Oneida Nation of the Thames Haudenosaunee Development Institute (HDI)	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Michelle Kanter - Carolinian Canada Coalition Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-06-25	Email	Hydro One shared a reminder with the Carolinian Canada Coalition to request that they complete a survey to gather feedback on the virtual workshops and review the initial evaluation criteria. The Chatham x Lakeshore Project team emailed the Haudenosaunee Development Institute to inform that the amphibian survey may be postponed due to inclement weather.
Haudenosaunee Development Institute (HDI)	Todd Williams - Haudenosaunee Development Institute (HDI)	2020-06-25	Email	Hydro One emailed the Haudenosaunee Development Institute to share a reminder to complete the feedback surveys.
Haudenosaunee Development Institute (HDI)	Todd Williams - Haudenosaunee Development Institute (HDI)	2020-06-25	Email	Hydro One shared the initial criteria with the Haudenosaunee Development Institute.
Haudenosaunee Development Institute (HDI)	Todd Williams - Haudenosaunee Development Institute (HDI)	2020-06-25	Email	Hydro One emailed Haudenosaunee Development Institute and requested confirmation of whether they had the opportunity to bring up the Capacity Funding Agreement (CFA) and whether there is an interest for a CFA.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-26	Email	Hydro One emailed Lisa DeMarco of Walpole Island to clarify their position on the surveys in question. Hydro One stated that they would hold a separate event to gather information on Indigenous matters. Hydro One also noted that they are hoping to conduct the corridor workshops (virtually) starting in mid-July and requested that Walpole Island First Nation send a date that would be suitable for the community.
Oneida Nation of the Thames	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-06-26	Email	Hydro One emailed the Oneida Nation of the Thames and shared the Capacity Funding Agreement.
Oneida Nation of the Thames	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida Nation of the Thames	2020-06-26	Meeting	Daniel Charbonneau reviewed the CxL CFA with Brandon Doxtator of Oneida. Brandon to get CFA reviewed by Chief and Council lawyer, present at next Chief and Council meeting, and send BCR with signed agreement to Hydro One in three weeks.
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-06-26	Email	Hydro One emailed the participants of the amphibian breeding survey to inform that based on the weather forecast for June 27 and 27 Hydro One decided to postpone the amphibian surveys until June 29 and 30, 2020.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-27	Email	Lisa Demarco of Walpole Island First Nation emailed Hydro One regarding their feedback on the survey and on a matter pertaining to a commitment made to revise and return the Memorandum of Understanding made on March 1, 2020.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-07-02	Email	Hydro One emailed Walpole Island First Nation regarding logistics and requested the contact information of the community representatives that would be available to monitor the planned field surveys.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-07-03	Email	Walpole Island First Nation sent an email to Hydro One regarding field surveys and the execution of the subcontract agreement for the environmental monitor from Walpole Island First Nation.
Bkejwanong (Walpole Island First Nation)	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Mike Gaul	2020-07-03	Email	Hydro One emailed Walpole Island First Nation and requested that they share the contact information of their selected monitor for the biological surveys. Hydro One shared the Health and Safety Plan along with the COVID-19 subcontractor's agreement.
Bkejwanong (Walpole Island First Nation)	Robert Wrightman - Bkejwanong (Walpole Island First Nation) (CxL CFA contact)	2020-07-03	Email	Hydro One emailed Walpole Island First Nation to provide the next steps regarding invoicing for the capacity funding for the Chatham to Lakeshore Project.
Bkejwanong (Walpole Island First Nation)	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	2020-07-03	Email	Hydro One corresponded with Walpole Island First Nation regarding invoice setup and the Capacity Funding Agreement.
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-07-03	Email	The Chatham x Lakeshore project team emailed the Haudenosaunee Development Institute and shared logistics regarding the surveys to take place week of July 6, 2020.
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-07-03	Email	Haudenosaunee Development Institute emailed Hydro One and stated that they have selected Henry Anderson to participate in the biological surveys week of July 6 to 10, 2020.
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-07-03	Email	Hydro One acknowledged the Haudenosaunee Development Institutes email regarding who would be selected as their monitor for the July 2020 Biological Surveys.
Bkejwanong (Walpole Island First Nation)	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator)	2020-07-05	Email	The Chatham Lakeshore Project team replied to a member of Walpole Island First Nation regarding their participation and receipt of their health and safety agreement for the field surveys planned for July 2020.
Bkejwanong (Walpole Island First Nation) Independent Electricity System Operator (IESO) Ontario Legislative Assembly	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) Peter Gregg - Independent Electricity System Operator (IESO) (President and CEO)	2020-07-07	Letter	Chief Daniel Miskokomon sent a signed letter dated July 7 2020 to Mark Poweska regarding his disappointment with HONI's ongoing relationship with WIFN. Within the letter is the attachment of a record of Hydro One's engagement with WIFN regarding proposed projects over the last 4 years within WIFN traditional territory. Chief notes HONI's Indigenous corporate strategy of being a trusted partner and expresses disappointment about delays in negotiating a Memorandum of Understanding and slow progress in entering an equity partnership with CxL transmission line. Chief requests a meeting with Mark Poweska to discuss finalizing an equity partnership and other projects within their traditional territory.
Bkejwanong (Walpole Island First Nation)	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul	2020-07-09	Email	Hydro One emailed participants of the biological survey scheduled for July 13, 2020, to confirm their availability and to share logistics.
Bkejwanong (Walpole Island First Nation) TD Canada Trust Tower	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul - TD Canada Trust Tower (Partner, courier)	2020-07-09	Email	Mike Gaul of Vires Capital VII emailed Hydro One to inform that he would not be available for the biological surveys scheduled for July 13, 2020.

Organisation	Community Representatives	Date	Type of communication	Summary
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-07-09	Email	The Chatham x Lakeshore project team shared an email to confirm availability and share logistics regarding biological field surveys.
Bkejwanong (Walpole Island First Nation)	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Robert Wrightman - Bkejwanong (Walpole Island First Nation) (CxL CFA contact)	2020-07-10	Email	Hydro One emailed Walpole Island First Nation to offer their support in answering any questions regarding the vendor acceptance form.
Bkejwanong (Walpole Island First Nation)	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul	2020-07-10	Email	Hydro One corresponded with Caldwell First Nation regarding attendance for the biological surveys scheduled on July 13, 2020.
Bkejwanong (Walpole Island First Nation)	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul	2020-07-10	Email	Hydro One corresponded with Caldwell First Nation regarding attendance for the biological surveys scheduled for July 13, 2020.
Bkejwanong (Walpole Island First Nation)	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul	2020-07-10	Email	Aimee Johnson of Caldwell First Nation emailed Hydro One regarding attendance for the biological surveys scheduled for July 13, 2020.
Bkejwanong (Walpole Island First Nation)	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) Mike Gaul	2020-07-10	Email	Hydro One acknowledged an email from Aimee of Walpole First Nation, stating that they would not be present at the Biological field survey on July 13, 2020.
Caldwell First Nation	Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-07-10	Email	Hydro One emailed Caldwell First Nation and shared a copy of the Capacity Funding Agreement.
Haudenosaunee Development Institute (HDI)	Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-07-10	Email	Hydro One received an email that stated the Haudenosaunee Development Institute would be sending monitor Henry Anderson to participate in the July 13th surveys.
Haudenosaunee Development Institute (HDI)	Janice Bomberry - Haudenosaunee Development Institute (HDI) Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-07-20	Email	Hydro One shared a revised version of the monitoring agreement with Todd Williams of Haudenosaunee Development Institute for his review.
Caldwell First Nation	EA Inbox Caldwell First Nation - Caldwell First Nation (EA) Melody Watson - Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations) Tammy Jolicoeur - Caldwell First Nation (Executive Assistant)	2020-07-24	Email	Hydro One emailed representatives of Caldwell First Nation and informed them that they will begin the Purchase Order process immediately. Hydro One requested confirmation of contact information to receive this documentation.
Caldwell First Nation	Brad Dos Santos - Caldwell First Nation (Finance) Melody Watson - Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations) Rebecca Brooks - Caldwell First Nation (Clerk)	2020-07-30	Email	Hydro One notified Nikki Orosz of Caldwell First Nation that the Purchase Order set up will be forthcoming.
Haudenosaunee Development Institute (HDI)	Janice Bomberry - Haudenosaunee Development Institute (HDI) Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-08-11	Email	Hydro One followed up on a previously sent email regarding the monitoring agreement with Todd Williams of Haudenosaunee Development Institute. Hydro One requested that if the agreement is acceptable, then to sign and return the document and then Hydro One will proceed to prepare the Purchase Order.
Caldwell First Nation	Brad Dos Santos - Caldwell First Nation (Finance) EA Inbox Caldwell First Nation - Caldwell First Nation (EA) James Peters - Caldwell First Nation (Councillor) Melody Watson - Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations) Rebecca Brooks - Caldwell First Nation (Clerk) Robyn Perkins - Caldwell First Nation (Councillor) Stan Scott - Caldwell First Nation (Councillor) Steve Simpson - Caldwell First Nation (Councillor) Tammy Jolicoeur - Caldwell First Nation (Executive Assistant)	2020-08-14	Email	Hydro One emailed Caldwell First Nation to confirm the receipt of information regarding the Capacity Funding Agreement. Hydro One noted the Purchase Order has been approved and provided an overview of the next steps for the process. Hydro One shared the Vendor Acceptance Form, Electronic Funds Transfer Authorization Form, Invoice template, Activities Spreadsheet and roadmap.
Bkejwanong (Walpole Island First Nation) DeMarco Allan LLP	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-08-17	Email	Hydro One emailed Walpole Island First Nation to follow up on items and to reiterate opportunities for Walpole Island First Nation to participate in the project. These items included the Capacity Funding Agreement, Community Engagement Coordinator, Technical Corridor Workshop, field survey participation, Indigenous Engagement Consultant and economic benefits.

Hydro One included a summary outlining potential economic participation opportunities.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Dennis Plain - Aamjiwnaang First Nation (Chippewas of Sarnia) (Species at Risk Technician)	2020-10-09	Email	Dennis Plain sends a signed copy of the CFA to Hydro One.
Bkejwanong (Walpole Island First Nation)	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	2020-10-09	Email	Hydro One follow ups with James Jenkins to register on Taulia and send back outstanding signed EFT form for the community to start to invoice against the PO for Chatham to Lakeshore CFA.
Bkejwanong (Walpole Island First Nation)	James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	2020-10-13	Email	Hydro One emailed Walpole Island First Nation (WIFN) and provided a previously sent email providing an update on the project, as well as attachments detailing 2020 correspondence between Hydro One and WIFN and with Lisa DeMarco.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator)	2020-10-13	Email	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation regarding route selection workshop logistics.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Bev Fisher - Aamjiwnaang First Nation (Chippewas of Sarnia) Natasha Montano - Aamjiwnaang First Nation (Chippewas of Sarnia) (Finance Staff) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	2020-10-15	Email	Hydro One emailed Aamjiwnaang First Nation regarding the Capacity Funding Agreement and Purchase Order Agreement. Hydro One provided an overview of the account setup process and provided documents, including Purchase Order documents, the Taulia road map, Electronic Funds Transfer form, and invoice documents.
Bkejwanong (Walpole Island First Nation)	Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator)	2020-10-15	Email	Hydro One emailed Danny Deleary of Walpole Island First Nation (WIFN) to inform of a call was held the previous Wednesday with the Director of Operations. Hydro One noted they look forward to hearing back from WIFN regarding next steps. Hydro One stated that if they have updates on any Hydro One related projects, they will send this to WIFN.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator)	2020-10-16	Email	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and confirmed they will forward the available dates for the workshop to the Hydro One team.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator)	2020-10-16	Email	Caldwell First Nation emailed Hydro One's Indigenous Relations Consultant to inform them that once they have confirmed all of the attendees, they will send the information.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Melody Watson - Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-10-20	Email	Hydro One emailed Caldwell First Nation regarding the Capacity Funding Agreement budget estimate.
Chippewas of the Thames First Nation First Nations Major Project Coalition	Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Niilo Edwards - First Nations Major Project Coalition (Executive Director)	2020-10-23	Email	Chippewas of the Thames sent Hydro One their capacity funding agreement with amendments.
Oneida Nation of the Thames	Adrian Chrisjohn - Oneida Nation of the Thames (Chief) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-10-23	Email	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and provided an update on the project, including the route selection process, Virtual Open House, economic participation opportunities and the capacity funding agreement. The invitation to the Virtual Open House, map and identification exercise document were included with the email.
Caldwell First Nation The Firelight Group	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Caldwell First Nation Caldwell Youth Advisory Committee - Caldwell First Nation (Youth Advisory Committee) Carrie Ann Peters - Caldwell First Nation (Culture and Language Coordinator and Co-Chair of Senior Advisory Committee) Louise Hillier - Caldwell First Nation (Band Representative) Michelle McCormick - Caldwell First Nation (Reception and Youth Advisory Committee) Nikki Orosz - Caldwell First Nation (Director - Operations) Stan Scott - Caldwell First Nation (Councillor) The Firelight Group Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	2020-10-27		Hydro One held a virtual route selection/TAC workshop with Caldwell First Nation. Paul Dalmazzi, Hydro One Environmental Planner, gave a brief overview for the Class EA process, presented the route alternatives, described the weighted multi-criteria decision-making analysis framework being used to evaluate the routes and select the preferred, described the criteria previously identified by Hydro One and through the TAC, and discussed how Caldwell First Nation could provide feedback on criteria of interest that would in turn influence the route evaluation process.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	2020-10-28	Email	Hydro One's Indigenous Relations Consultant emailed Haudenosaunee Confederacy Chiefs Council and indicated they will provide dates for a meeting.
Bkejwanong (Walpole Island First Nation)	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations)	2020-10-29	Email	Hydro One emailed Walpole Island First Nation (WIFN) and requested clarification regarding the review WIFN is currently conducting.
Bkejwanong (Walpole Island First Nation)	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) James Jenkins - Bkejwanong (Walpole Island First Nation)	2020-10-31	Email	Walpole Island First Nation (WIFN) emailed Hydro One and provided clarification regarding the review they have undertaken with respect to the project. It was noted that Hydro One should expect a letter clarifying WIFN's consultation protocol and economic participation.
Chippewas of the Thames First Nation First Nations Major Project Coalition	Barry Vickers - First Nations Major Project Coalition (Consultant) Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Niilo Edwards - First Nations Major Project Coalition (Executive Director)	2020-11-03	Email	Hydro One emailed Chippewas of the Thames First Nation (COTTFN) and thanked them for meeting to discuss COTTFN participation in the project and the Capacity Funding Agreement. Hydro One provided a list of follow up items.
Haudenosaunee Confederacy Chiefs Council (HCCC)	Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	2020-11-09	Email	Hydro One's Indigenous Relations Consultant emailed Haudenosaunee Confederacy Chiefs Council to inquire about availability for a meeting.

Organisation	Community Representatives	Date	Type of communication	Summary
Aamjiwnaang First Nation (Chippewas of Sarnia)	Bev Fisher - Aamjiwnaang First Nation (Chippewas of Sarnia) Natasha Montano - Aamjiwnaang First Nation (Chippewas of Sarnia) (Finance Staff) Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	2020-11-10	Email	Hydro One follow up with Aamjiwnaang First Nation for outstanding Purchase Order documents and set up for online invoicing platform to start CFA invoicing.
Haudenosaunee Development Institute (HDI)	Janice Bomberry - Haudenosaunee Development Institute (HDI) Karl J Hill - Haudenosaunee Development Institute (HDI) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-11-10	Email	Hydro One emailed Haudenosaunee Development Institute regarding invoices and costs. Hydro One noted they have updated the monitor agreement and attached the document for review and sign-off.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-11-11	Email	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and thanked them for providing the proposal regarding the Route Options Study and TKUS. It was noted that it will be forwarded to the Hydro One group.
Chippewas of the Thames First Nation First Nations Major Project Coalition	Barry Vickers - First Nations Major Project Coalition (Consultant) Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Niilo Edwards - First Nations Major Project Coalition (Executive Director)	2020-11-11	Email	Hydro One emailed Chippewas of the Thames First Nation (COTTFN) and followed up on a previous email. Hydro One inquired whether COTTFN could provide a timeline of when they expect Hydro One to receive the revised Capacity Funding Agreement, work plan and budget.
Oneida Nation of the Thames	Brandon Duxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox)	2020-11-11	Email	Hydro One's Indigenous Relations Consultant emailed Oneida Nation of the Thames and inquired whether they required anything further for the Capacity Funding Agreement.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-11-12	Email	Hydro One responding back to accept Caldwell First Nation's additional capacity funding proposal for a Route Selection Options Study and Traditional Ecological Study.
Chippewas of the Thames First Nation First Nations Major Project Coalition	Barry Vickers - First Nations Major Project Coalition (Consultant) Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Niilo Edwards - First Nations Major Project Coalition (Executive Director)	2020-11-12	Email	Chippewas of the Thames First Nation sends to Hydro One revisions to capacity agreement, proposals for traditional ecological studies, and a document regarding traditional ecological knowledge principles from First Nations Major Project Coalition.
Aaron Detlor Barrister & Solicitor Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	Aaron Detlor - Aaron Detlor Barrister & Solicitor (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager) Wayne Hill - Haudenosaunee Development Institute (HDI)	2020-11-12	Email	Aaron Detlor, legal counsel for HCCC responding back to Amy Licker about the Crown's delegation for consultation on the project, consent for the project, and preparing a draft budget prior to meeting for capacity funding.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager) Wayne Hill - Haudenosaunee Development Institute (HDI)	2020-11-12	Email	Hydro One's Indigenous Relations Consultant emailed Haudenosaunee Development Institute and thanked them for providing availability for a meeting. It was noted that the team will be prepared to provide an update on the project and any upcoming opportunities for participation.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-11-16	Email	Brianna Sands, Community Consultation Coordinator for Caldwell First Nations acknowledging Hydro One accepting their additional capacity funding proposal for Traditional Ecological Knowledge study and route selection study.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI)	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager) Wayne Hill - Haudenosaunee Development Institute (HDI)	2020-11-17	Email	Hydro One emailed Haudenosaunee Development Institute for confirming the receipt of the meeting invitation.
Chippewas of the Thames First Nation	Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator)	2020-11-18	Email	Hydro One offers to meet Chippewas of the Thames to review all comments and proposed changes made in the CFA.
Chippewas of the Thames First Nation First Nations Major Project Coalition	Barry Vickers - First Nations Major Project Coalition (Consultant) Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator) Niilo Edwards - First Nations Major Project Coalition (Executive Director)	2020-11-18	Email	Hydro One emailed Chippewas of the Thames First Nation to correct the name of the company completing the archaeology work listed in a previous email.
Oneida Nation of the Thames	Adrian Chrisjohn - Oneida Nation of the Thames (Chief) Oneida Nation of the Thames Renee Hill - Oneida Nation of the Thames	2020-11-18	Meeting	Hydro One held a meet-and-greet with newly elected Chief Chrisjohn and Penny Favel, new Vice President of Indigenous Relations at Hydro One. Matters discussed were steel tower committee and agreement and Chatham to Lakeshore Project.

Organisation	Community Representatives	Date	Type of communication	Summary
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) EA Inbox Caldwell First Nation - Caldwell First Nation (EA) Melody Watson - Caldwell First Nation Nikki Orosz - Caldwell First Nation (Director - Operations) Rebecca Brooks - Caldwell First Nation (Clerk)	2020-12-14	Email	Hydro One staff emailed Caldwell First Nation staff to arrange a webex meeting with Caldwell First Nation for training on uploading invoices against the capacity funding purchase order.
Caldwell First Nation	Rebecca Brooks - Caldwell First Nation (Clerk)	2020-12-14	Email	Hydro One Supplier Contact sent an invitation email to Rebecca Brooks, Caldwell First Nation to register on Taulia to upload invoices against the capacity funding purchase order.
Chippewas of the Thames First Nation	Greg Graham - Chippewas of the Thames First Nation (Chief Financial Officer) Jacqueline French - Chippewas of the Thames First Nation (Chief) Mike Deleary - Chippewas of the Thames First Nation (Executive Administrator)	2020-12-14	Email	Chief French sends Hydro One the signed capacity funding agreement and delegates the staff responsible for CFA PO invoicing.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Caldwell First Nation	2020-12-15	Phone	Brianna Sands called Erika Dawson requesting to have webex training to upload invoice for capacity funding the second week in January.
Chippewas of the Thames First Nation	Rochelle Smith - Chippewas of the Thames First Nation (Consultation Coordinator)	2020-12-15	Email	Hydro One staff emailed Rochelle Smith (Chippewas of the Thames First Nation) to arrange a phone call regarding clarification on their request for shapefiles pertaining to Chatham to Lakeshore Tx Project.
Chippewas of the Thames First Nation	Chippewas of the Thames First Nation Rochelle Smith - Chippewas of the Thames First Nation (Consultation Coordinator)	2020-12-15	Phone	Erika Dawson called Rochelle Smith to clarify the information they are seeking from shapefiles. COTTFN is only looking for locations of projects to overlay on their maps of historical significance and hunting and gathering areas. Rochelle confirmed that Fallon Burch would be working on gathering feedback into the route selection from these shapefiles.
Bkejwanong (Walpole Island First Nation)	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2020-12-16	Email	Hydro One resent Capacity Funding Agreement to Janet MacBeth, WIFN, to review invoices to upload to Taulia. Provided Supplier Contact email for invoicing support and arrange a follow up meeting to provide further feedback into route selection process.
Bkejwanong (Walpole Island First Nation)	Bkejwanong (Walpole Island First Nation) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2020-12-16	Meeting	Hydro One hosted a training workshop with Janet MacBeth from Walpole Island First Nation on the Taulia system to submit invoices against the PO to access the capacity funding.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	2020-12-16	Email	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and thanked them for the memo providing Caldwell's input on the route options.
Chippewas of the Thames First Nation	Jacqueline French - Chippewas of the Thames First Nation (Chief) Rochelle Smith - Chippewas of the Thames First Nation (Consultation Coordinator)	2020-12-16	Email	Hydro One staff provided a non disclosure agreement for Chief French to sign to transfer of certain shapefiles to the Chippewas of the Thames First Nation.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator)	2020-12-17	Email	Hydro One's Indigenous Relations Consultant emailed Caldwell First Nation and informed them that they will send the meeting link.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Melody Watson - Caldwell First Nation Rebecca Brooks - Caldwell First Nation (Clerk)	2020-12-17	Email	Hydro One staff emailed Caldwell First Nation staff to reschedule invoicing training with Caldwell First Nation
Chippewas of Kettle and Stony Point First Nation	Alison Price - Chippewas of Kettle and Stony Point First Nation Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joe Wabegijig - Chippewas of Kettle and Stony Point First Nation (Public Works)	2020-12-17	Email	Hydro One emailed Chippewas of Kettle and Stony Point First Nation regarding the site meeting from the previous week.
Chippewas of the Thames First Nation	Fallon Burch - Chippewas of the Thames First Nation (Coordinator)	2020-12-17	Email	Hydro One's Indigenous Relations Consultant emailed Chippewas of the Thames First Nation and indicated that the link will be resent as the old one expired for security purposes. It was also noted that hard copies and a USB was also sent to the community.
Haudenosaunee Development Institute (HDI)	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Arend J.A. Hoekstra - Cassels Brock & Blackwell LLP (Associate) Todd Williams - Haudenosaunee Development Institute (HDI)	2020-12-17	Meeting	Hydro One and representatives from HCCC-HDI met regarding economic participation in relation to the CxL project. Aaron Detlor rejected the agenda provided by Hydro One indicating that HCCC-HDI was not prepared to discuss economic benefits or participation until other concerns regarding HCCC-HDI consent on the project have been addressed. HCCC-HDI's questions were legal in nature and with the nonattendance by Hydro One's legal counsel committed to following up on HCCC-HDI's legal questions. Hydro One committed to proceed with HCCC-HDI regarding engagement on both procedural and substantive matters. Aaron Detlor maintained that Hydro One should not have been wholly awarded the project by the Crown and that HCCC-HDI should theoretically have been given the opportunity to build the transmission line.
Caldwell First Nation The Firelight Group	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Trefor Smith - The Firelight Group (Senior Regulatory Advisor, Environmental Impact Assessment)	2020-12-18	Meeting	Hydro One and Dillon staff held a webex meeting with staff and consultants from the Caldwell First Nation, to discuss the route evaluation memo that the Caldwell First Nation had prepared to help inform the Class EA and route evaluation. Hydro one staff answered the questions from Caldwell FN that were contained in the memo, and provided some additional context on the project and route alternatives, and discussed the research and field studies that Dillon biologists had conducted to support the Class EA. Hydro One and Dillon staff also asked for some additional information and context from Caldwell staff and consultants, related to comments in the memo. Participants felt that the discussions were generally productive and agreed to reconvene in the new year.
Bkejwanong (Walpole Island First Nation)	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2020-12-18	Email	Scheduled meeting for more feedback into the route selection process with Janet Macbeth, WIFN.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator)	2020-12-18	Email	Hydro One staff emailed to coordinate a follow up meeting for the route evaluation report submission by Caldwell First Nation
Chippewas of the Thames First Nation	Fallon Burch - Chippewas of the Thames First Nation (Coordinator)	2020-12-18	Email	Hydro One's Indigenous Relations Consultant emailed Chippewas of the Thames First Nation and shared the updated link and login information.
Bkejwanong (Walpole Island First Nation)	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2021-01-04	Email	Hydro One emailed Walpole Island First Nation and provided a reminder for the meeting later that day.
Bkejwanong (Walpole Island First Nation)	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2021-01-04	Email	Walpole Island First Nation emailed Hydro One and informed them that they look forward to the meeting that afternoon.
Bkejwanong (Walpole Island First Nation)	Bkejwanong (Walpole Island First Nation) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2021-01-04	Meeting	Hydro One hosted a follow up meeting with Janet MacBeth, EA Project Consultant, Walpole Island First Nation to gain more clarity on points raised from previous meeting: identified butternut grove, archeological review, wind farms in the area that Walpole Island has partnership on.
Bkejwanong (Walpole Island First Nation)	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2021-01-05	Email	Hydro One emailed Walpole Island First Nation and requested any mapping of the area. Hydro One noted that if the maps are unavailable or cannot be shared, they will be sure to consider their comment on the historically important areas in the evaluation of the route alternatives.
Bkejwanong (Walpole Island First Nation)	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator) Leela Thomas Summer Sands	2021-01-05	Email	Hydro One's Indigenous Relations Consultant emailed Walpole Island First Nation (WIFN) and inquired about availability to have a discussion with WIFN regarding programs and employment opportunities.
Bkejwanong (Walpole Island First Nation)	Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator)	2021-01-05	Email	Walpole Island First Nation (WIFN) emailed Hydro One and shared maps of areas of historic significance to WIFN.

Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ontario Legislative Assembly	Arlene Dodge - Bkejwanong (Walpole Island First Nation) Bkejwanong (Walpole Island First Nation) Caitlin Beresford Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) David McIntosh - Ministry of Government and Consumer Services (Director, Realty Policy Branch) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator) Kim Fullerton Ron Soney - Bkejwanong (Walpole Island First Nation) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy) Valarie Waboose - Bkejwanong (Walpole Island First Nation)	2021-02-25	Letter	Mark Poweska received a letter from The Council of Three Fires, Chief Sampson of Walpole Island, dated February 25, 2021, in relation to the Chatham x Lakeshore line and the inclusion of the Haudenosaunee on the delegation letter. In the letter, Chief Sampson voiced his concerns regarding the November 2019 delegation letter from the Crown (ENDM) to Hydro One, and the inclusion of the Haudenosaunee in Three Fires Confederacy territory. Chief Sampson stated that he understands that Hydro One takes direction from the Crown on such matters, and as such had written to Minister Rickford to express his concerns. Chief Sampson stated that overall the First Nation is supportive of the project and was interested in pursuing equity participation opportunities, but stated that Walpole Island First Nation did not see how they could move forward in showing this support as long as the Haudenosaunee are still participating in consultation and accommodation discussions on the project.
Cavalluzzo LLP Haudenosaunee Development Institute (HDI) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Adrienne Telford - Cavalluzzo LLP (Lawyer) Arend J.A. Hoekstra - Cassels Brock & Blackwell LLP (Associate) Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Lara Koerner Yeo - Cavalluzzo LLP (Lawyer) Lou Stezos - Cavalluzzo LLP (Lawyer) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy) Sybil Grant - Cavalluzzo LLP (Assistant) Thomas Isaac - Cassels Brock & Blackwell LLP (Partner)	2021-02-26	Letter	Adrienne Telford, legal counsel to HDI sent a letter to Samir Adkar, Director of Energy Networks and Indigenous Policy at ENDM which stated that HDI maintains the project will seriously impair their established Aboriginal Rights in relation to the Nanfan Treaty of 1701. Telford further states that the Crown failed to meaningfully engage with HDI on the selection of Hydro One as the chosen proponent for the proposed Chatham to Lakeshore project. Telford requests the Crown to provide HDI with its prima facie assessment of Haudenosaunee rights and interests in relation to the project. Hydro One was carbon copied within the letter.
Chippewas of the Thames First Nation	Greg Graham - Chippewas of the Thames First Nation (Chief Financial Officer)	2021-03-02	Email	Hydro One emailed Chippewas of the Thames First Nation and confirmed they can meet to go through invoicing.

Organisation	Community Representatives	Date	Type of communication	Summary
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Nikki Orosz - Caldwell First Nation (Director - Operations)	2021-03-22	Email	Hydro One emailed Caldwell First Nation and shared Hydro One's response to the letter received from Caldwell First Nation on February 17, 2021. Hydro One noted that they wanted to provide a more formal response to the letter and to thank Caldwell First Nation for their engagement on the project. In the letter, Hydro One reiterated how they had focused their efforts on assessing the route alternatives on the basis of the criteria mentioned by Caldwell First Nation in their previous correspondence, and explained that while a criterion specific to distance parallel to existing transmission lines was included in the evaluation to capture Caldwell FN's stated preference for route 1A on this basis, that other criteria of importance such as potential SAR habitat, effects to areas providing hunting, gathering and harvesting opportunities, and effects to aquatic and fish habitat were also considered, many of which favoured the preferred Route 2A. Hydro One also committed to providing opportunities for Caldwell FN to be involved in the project planning going forward, including the biodiversity initiative for the project. Hydro One indicated that if they would like another meeting to discuss the project, they can arrange it. Hydro One provided a reminder for the upcoming Anishnawbek communities information session.
Caldwell First Nation	Brianna Sands - Caldwell First Nation (Consultation Coordinator) Rebecca Brooks - Caldwell First Nation (Clerk)	2021-03-22	Email	Hydro One emailed Caldwell First Nation regarding invoicing and shared invoicing documents.

Oneida Nation of the Thames	Adrian Chrisjohn - Oneida Nation of the Thames (Chief) Alizabeth George-Antone - Oneida Nation of the Thames (Councillor) Angela Antone - Oneida Nation of the Thames (Councillor) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Cherilyn Hill - Oneida Nation of the Thames (Reception/Political Office Manager) Deana Doxtator Oneida of the Thames Environment and Consultation Inbox - Oneida Nation of the Thames (Environment and Consultation Inbox) Rena Hill - Oneida Nation of the Thames Ron Elijah Sandra Doxtator Tamara Doxtator - Oneida Nation of the Thames Todd Cornelius - Oneida Nation of the Thames (Councillor)	2021-04-01	Email	Oneida Nation of the Thames (Oneida) emailed Hydro One and thanked them for the summary of work and next steps for the project. Oneida Nation of the Thames requested to discuss the project and to review several items, including Stage 2 Archaeological Assessment Participation and a high level Environmental Assessment review. Oneida requested Hydro One's availability.
Oneida Nation of the Thames	Alizabeth George-Antone - Oneida Nation of the Thames (Councillor) Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator)	2021-04-01	Meeting	<p>The Hydro One Chatham to Lakeshore Transmission line Indigenous Relations Team, Environment team, Owners Engineer and EPCs met with representative of Oneida at the Oneida Environment Committee meeting.</p> <p>Attendees: Sara Jane Souliere, Paul Dalmazzi, Stephen Lindley, Amy Lickers, Don Parkinson, Geewadin Elliot, John Bonin, Nalin Mistry, Marc Ouimet, Betty Moghrabi, Brandon Doxtator, Alizabeth George.</p> <p>Introductions</p> <p>Thanksgiving Address - Brandon provides an overview of the Haudenosaunee Thanksgiving Address. From Oneida's perspective, all of creation is a connection and there is the duty to protect the land and protect it for the next seven generations. They recognize the need for hydro and work to finding the harmony/balance with modern life.</p> <p>Brandon gives an overview of the Guswentha (Two Row Wampum Treaty) and the philosophy of the relationship of the Two Row Wampum. He provide a brief explanation of the 1701 Beaver Hunting grounds, which span throughout southern Ontario and the economic rights that stem from that Treaty, which include economic benefits in perpetuity. This Traditional Hunting Territory is the basis of engagement. Oneida wants to ensure that First Nations are getting involved in the project and being heard from the start. Oneida Nation, having origins from the Fingerlakes Region, moved to the current location in 1840 after series of Indian Removal laws began encroaching on their way of life. Oneida members collectively purchased the land, which has never been held by the Crown, and were purchased prior to Canada being a country.</p> <p>Oneida has 6000 community members, 150 homes, high youth population 1458 youth under that age of 18. Lots of opportunities for skills development and labour.</p> <p>Paul provides an update on the Class EA process. He reiterates Brandon's comments on balancing the need for energy within the region with protecting the environment. The project is looking to begin Archaeology Stage 2 processes in late summer of 2021. The project is still in early stages of planning and there is still an opportunity to take input from Oneida to consider in the development of the line, and in particular, reiterated that any discussions or comments from Oneida Nation received from now until early May could be captured in the draft Environmental Study Report, which is planned for release in late Spring for a review period over Summer 2021.</p>

Organisation	Community Representatives	Date	Type of communication	Summary
				<p>Brandon asked about the participation at the Haudenosaunee Virtual Information Centre. Sara Jane provides number of attendees and offers that there was a follow up question from an Oneida Nation community member. A map and project information was provided directly to that community member.</p> <p>Amy will send Brandon the link to the interactive project map. The team offers to meet with Brandon regarding any site specific environmental or archaeology points of interest within the 2A line route.</p> <p>Sara Jane goes over the ECI Process and describes what will be happening. Introduction of the EPCs. Brandon will continue to be the lead contact and will loop in Oneida Economic Development Officer (Deana Doxtator) and Public Works Administrator (Ron Elijah).</p> <p>Amy will send an email between the EPC contacts and Brandon, to make the initial connection. Voltage Power - Geewadin Elliot will be the main contact Vallard - Betty Moghrabi will be the main contact</p> <p>Archaeology Stage 2 – Oneida would like to participate but would prefer an arrangement where Oneida could recommend a person that Timmins-Martelle could hire on. Paul give an update on Stage 2 Archaeology process and confirmed that Timmins-Martelle Heritage Consultants had been retained for this work, as they had completed the Stage 1 Arch assessment for the project. Paul stated that Hydro One would confirm timelines of the Stage 2 fieldwork when known, but that they are tentatively targeting late Summer to begin field surveys where property access can be obtained. There may be flexibility on the arrangement for hiring Archaeology monitors, Paul will look into and get back about the process. An Oneida community member has worked with Timmins-Martelle in the past and would be able to report back to Oneida. Brandon to send the Oneida Arch agreement to the project team to review.</p> <p>Brandon will be reaching out to Amy and Sara Jane to follow up with the Funding Capacity Agreement.</p>

It was requested that availability be confirmed for an introductory meeting.
Aamjiwnaang First Nation (Chippewas of Sarnia)	Sharilyn Johnston - Aamjiwnaang First Nation (Chippewas of Sarnia) (Environmental Coordinator)	2021-05-31	Email	Hydro One emailed Aamjiwnaang First Nation and noted they called and were unable to leave a voicemail. Hydro One requested Aamjiwnaang First Nation return their call to touch base on Capacity Funding Agreement invoicing and other matters.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Richard Cottingham - Agriculture and Agri-Food Canada (Director - Engineering and Environmental Services) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-01-27	Email	Hydro One sent Notice of Study Commencement Letter and Map to Agriculture and Agri-Food Canada.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Richard Cottingham - Agriculture and Agri-Food Canada (Director - Engineering and Environmental Services) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Agriculture and Agri-Food Canada.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Richard Cottingham - Agriculture and Agri-Food Canada (Director - Engineering and Environmental Services) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to Agriculture and Agri-Food Canada and indicated that a forum will be held in the coming months either in person or online, with details being provided as they become available. Hydro One confirmed the project team is available to discuss the project.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Richard Cottingham - Agriculture and Agri-Food Canada (Director - Engineering and Environmental Services) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-04-27	Email	Hydro One sent the Notice of Cancellation for the Community Information Sessions to Agriculture and Agri-Food Canada and informed them of virtual information sessions in May 2020.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area)	2020-05-26	Email	Hydro One invited Cathy Bakes of Agriculture and Agri-Food Canada to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area)	2020-06-01	Email	Hydro One followed up with Cathy Bakes of Agriculture and Agri-Food Canada to confirm participation in the Technical Advisory Committee as materials will be circulated to members.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-02	Email	Cathy Bakes of Agriculture and Agri-Food Canada informed Hydro One that Terry Attewell will be the representative for the Technical Advisory Committee.
Agriculture and Agri-Food Canada	Cathy Bakes - Agriculture and Agri-Food Canada (Local Integrated Service Manager, Windsor-Essex Area) Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-02	Email	Hydro One thanked Cathy Bakes of Agriculture and Agri-Food Canada for confirming participation in the Technical Advisory Committee. Hydro One noted that information will be shared and provided details on the sessions.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-03	Email	Terry Attewell of Agriculture and Agri-Food Canada confirmed he is unable to attend the Technical Advisory Committee session.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-03	Email	Hydro One informed Terry Attewell of Agriculture and Agri-Food Canada that while he is unable to attend the Technical Advisory Committee (TAC) workshop, the information and survey will provide him with an opportunity to participate in the TAC. Hydro One also informed Mr. Attewell that he can reach out to the project team with any comments or questions.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-03	Email	Hydro One followed up with Terry Attewell of Agriculture and Agri-Food Canada and provided initial evaluation criteria and the information video for the Technical Advisory Committee (TAC). Hydro One noted they will provide the conference call information for the two discussion sessions and the survey.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-19	Email	Hydro One emailed Terry Attewell of Agriculture and Agri-Food Canada with a reminder to fill out the Technical Advisory Committee virtual workshop #1 survey. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-25	Email	Hydro One shared a reminder with Agriculture and Agri-Food Canada to complete a survey to gather feedback on the virtual workshops.
Agriculture and Agri-Food Canada	Terry Attewell - Agriculture and Agri-Food Canada (Facility Manager (Essex County))	2020-06-26	Email	Hydro One emailed Terry Atwell at Agriculture and Agri-Food Canada to inform that their input on the project would still be appreciated despite not being available for the entire workshop.

Organisation	Stakeholders	Date	Type of communication	Summary
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-01-28	Email	Hydro One sent Notice of Commencement to CN Rail.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Canadian National Railway.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to Canadian National Railway and indicated that a forum either in person or online will occur in the coming months and details will be provided when they are available. Hydro One also indicated the project team remains available to discuss the project.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-04-28	Email	Hydro One sent Michael Vallins of Canadian National Railway the Virtual Information Session Notice.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-05-26	Email	Hydro One invited Michael Vallins of Canadian National Railway to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-06-02	Email	Hydro One followed up with Michael Vallins of Canadian National Railway to confirm his participation in the Technical Advisory Committee.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-06-02	Email	Hydro One followed up with Michael Vallins of Canadian National Railway to confirm his participation in the Technical Advisory Committee.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-09-28	Email	Hydro One emailed Canadian National (CN) Railway and shared information regarding the routes and noted that all of the routes being considered will need to cross a CN rail track just south of Chatham. Hydro One requested confirmation of whether the crossings are all feasible and indicated that they will follow up when the preferred route has been selected. Hydro One provided maps of the routes and CN Rail Track.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-10-20	Email	Hydro One emailed Canadian National (CN) Railway to follow up on a previously sent email and to confirm there are no concerns or issues from CN's perspective on the proposed crossings of the track. Hydro One requested confirmation of the information shared in the previous email.
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2020-11-06	Phone	<p>Paul called Michael and CNR to follow up on the notices and emails he had sent for the Chatham x Lakeshore project. Paul gave a brief overview of the project and mentioned the crossing of the CNR line just west of Communication Rd. that would be needed by all route alternatives, and that this crossing was in close proximity to other similar 230 kV overhead line crossings. Paul stated that he just wanted to make sure that CNR was aware of the project, and see if there were any initial concerns or comments that CNR wished to raise to the Hydro One CxL project team.</p> <p>Michael stated that he would take a look at the project information, but that if the line was an overhead crossing then there would likely be minimal concerns as long as the crossing adhered to standard OH crossing/tower spacings, and referenced a standard crossing agreement. Michael also asked about potential electrical interference from the overhead line with the electrical systems on the trains- he stated that he did not think this was a particularly high risk, but felt it was prudent to ask. Paul reiterated that he did not believe this to be a risk, given that there are already 230 kV overhead line crossings in the area, but agreed that it was good feedback and stated that he would follow up with the technical members of the Hydro One CxL team on this question.</p>
Canadian National Railway (CN Rail)	Michael Vallins - Canadian National Railway (CN Rail) (Manager, Public Works)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-01-28	Email	Hydro One sent Notice of Commencement to Canadian Pacific Rail's Manager of Utilities, East.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Canadian Pacific Railway.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to Canadian Pacific Railway and indicated a forum will be held either in public or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-04-28	Email	Hydro One sent Jack Carello of Canadian Pacific Railway the Virtual Information Session Notice.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-05-26	Email	Hydro One invited Jack Carello of Canadian Pacific Railway to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-06-02	Email	Hydro One followed up with Jack Carello of Canadian Pacific Railway to confirm his participation in the Technical Advisory Committee.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-08-12	Email	Hydro One emailed Canadian Pacific Railway (CP Rail) to follow up on the Notice of Commencement and to ensure that they are aware of the project. Hydro One provided an overview of one of the potential route alternatives in relation to an existing CP Rail line and noted that they are in the process of selecting the preferred route. Hydro One shared the Notice of Commencement and a map.
Canadian Pacific Railway (CP Rail)	Al Sargent - Canadian Pacific Railway (CP Rail) (Specialist - Leasing, Real Estate) Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects) Syl Arduini - Canadian Pacific Railway (CP Rail) (Manager, Real Estate)	2020-08-21	Email	Hydro One emailed contacts from Canadian Pacific Railway (CP Rail) and noted that earlier attempts had been made to contact another contact from CP Rail. Hydro One provided the Notice of Commencement and Study Area Map, as well as the emails sent to the other CP Rail contact. Hydro One indicated they wanted to be sure the appropriate staff at CP Rail were aware of the project and had a chance to review and provide comment.
Canadian Pacific Railway (CP Rail)	Al Sargent - Canadian Pacific Railway (CP Rail) (Specialist - Leasing, Real Estate) Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects) Syl Arduini - Canadian Pacific Railway (CP Rail) (Manager, Real Estate)	2020-09-17	Email	Hydro One emailed representatives from Canadian Pacific Railway (CPR) to follow-up on the previously sent emails regarding the project. Hydro One noted they wanted to ensure the correct staff at CPR are aware of the project and have opportunities to discuss the project.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-21	Phone	Hydro One staff followed up with a phone call to CP Rail - Utilities staff, and left a voicemail message referencing past emails and seeking CP Rail response or acknowledgement. Hydro One staff specifically mentioned the route alternative (2A) which would replace an idle 115 kV line adjacent to a CP Rail line, and offered to discuss further if requested.
Canadian Pacific Railway (CP Rail)	Syl Arduini - Canadian Pacific Railway (CP Rail) (Manager, Real Estate)	2020-09-21	Phone	Hydro One staff called CP Rail Real State staff to follow up on previous emails sent regarding the Chatham x Lakeshore project, and specifically the route alternative (2A) which would replace an idle 115 kV transmission line adjacent to a CP Rail line. CP Rail staff confirmed that the initial contacts notified by Hydro One (CPR Utilities - Manager Jack Carello) was indeed the correct contact for external project review, and suggested that Hydro One continue to follow up with Mr. Carello.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-21	Phone	CP Rail - Utilities manager Jack Carello called back to respond to the voicemail left by Hydro One (Paul Dalmazzi) earlier in the morning. Paul gave a quick recap of the CxL project, with emphasis on route alternative 2A which would replace the existing 115 kV idle line directly adjacent (south side) to the CP Rail line. Paul confirmed that any expansion of the existing 115 kV ROW would be to the south (i.e., away from the CP Rail ROW). Jack stated that as long as the new line would remain outside of the CP Rail ROW, that he did not foresee any immediate conflicts, but mentioned that the potential for induced current/additional grounding may need to be reviewed. Jack also stated that construction work may require more detailed coordination (including potential use of CP flagpeople) depending on methods used and potential for work to encroach on the rail ROW. Paul stated that if route 2A were to be selected, that Hydro One would follow up with CP Rail through detailed design and construction to coordinate as needed. Paul stated that he would follow up to Jack with another email outlining the discussion.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-22	Email	Hydro One emailed Canadian Pacific Railway to follow-up on a call held the day before regarding the route alternatives. Hydro One provided a recap on the conversation and added that one of the routes and a few other variations would cross the Canadian Pacific Railway track just west of Tilbury. Hydro One provided a maps for reference and outlined anticipated next steps for the project.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-23	Email	Canadian Pacific Railway emailed Hydro One and indicated that they do not foresee any issues if the new transmission re-build is placed no further north than the existing structure. They requested that Hydro One touch base with them regarding the new crossings in the new year for the latest utility application form.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-09-24	Email	Hydro One emailed Canadian Pacific Railway (CPR) and informed them that if one of the routes that parallels or crosses the CPR track is selected, they will be in touch in the new year to proceed with the applications and discussions.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Canadian Pacific Railway (CP Rail)	Jack Carello - Canadian Pacific Railway (CP Rail) (Manager, Utilities East- Engineering Projects)	2021-03-02	Email	Hydro One emailed Canadian Pacific Railway (CP Rail) and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement. Hydro One also noted that the preferred route has crossings with the CP Rail and that they will be in contact for the design details of this line.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-05-21	Email	Hydro One sent the Notice of Commencement to Canadian Wildlife Services (CWS) and project website and requested any comments from CWS as the project alternative routes are in the vicinity of the Lake St. Clair National Wildlife Area. Hydro One indicated that if CWS staff are interested in providing technical input into the evaluation criteria, the project team is available to discuss.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-05-21	Email	Hydro One received an automatic reply from Canadian Wildlife Services confirming the receipt of Hydro One's email.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-05-26	Email	Hydro One invited representatives of Canadian Wildlife Services to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-06-01	Email	Hydro One followed up with Canadian Wildlife Services to confirm participation in the Technical Advisory Committee. Hydro One noted why this inbox was the primary contact.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-06-01	Email	Hydro One received an automatic response from Canadian Wildlife Services.
Canadian Wildlife Services (CWS)	Canadian Wildlife Services (CWS)	2020-06-03	Email	Hydro One provided the project website link to Jennifer Soetemans of Canadian Wildlife Services and indicated that future updates and the Technical Advisory Committee summary report will be available at this website as well. Hydro One noted they can continue to circulate updates.
Canadian Wildlife Services (CWS) Environment and Climate Change Canada (ECCC)	Enviro Info (EC) - Environment Canada Jennifer Soetemans - Canadian Wildlife Services (CWS) (Protected Areas Group) Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch) Jennifer Soetemans - Canadian Wildlife Services (CWS) (Protected Areas Group)	2020-06-05	Email	Hydro One informed Daniel DeOcampo of Environment and Climate Change Canada (ECCC) that an earlier response confirming Jennifer Soetemans as the contact for ECCC was received. Hydro One noted they will defer to ECCC's preferred approach of who will be the contact. Hydro One also noted they can both be provided with project materials. Hydro One provided the initial evaluation criteria and informational video for the Technical Advisory Committee and indicated that the conference call information and survey will be provided.

Hydro One provided a presentation with an overview of the purpose of the TAC, the project, multi-criteria evaluation and next steps.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-05	Email	Daniel DeOcampo of Environment and Climate Change Canada confirmed his participation in the Technical Advisory Committee and informed Hydro One that he will be the main contact moving forward.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-12	Email	Daniel DeOcampo of Environment and Climate Change Canada asked Hydro One if any of the alternative routes or their variations cross federal lands and if they are aware of any potential federal approvals.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-12	Email	Hydro One followed up with Daniel DeOcampo of Environment and Climate Change Canada (ECCC) regarding potential crossover with federal lands and federal approvals. Hydro One indicated that a potential federal land (St. Clair National Wildlife Area) is located near one of the alternatives and requested if ECCC has any comments. Hydro One also requested confirmation of participation in the Technical Advisory Committee.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-19	Email	Hydro One emailed Daniel DeOcampo of Environment and Climate Change Canada to provide a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One also shared the preliminary evaluation criteria and the links to the survey and informational video.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-22	Email	Daniel DeOcampo of Environment and Climate Change Canada thanked Hydro One for the email reminder for the Technical Advisory Committee survey and noted they have forwarded the survey to the appropriate individuals.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-06-22	Email	Hydro One responded to Daniel DeOcampo of Environment and Climate Change Canada and thanked him for forwarding the Technical Advisory Committee survey. Hydro One noted the anticipated timing of the next workshop and that any comments on the initial route evaluation criteria can be sent directly to the project team.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Environment and Climate Change Canada (ECCC)	Daniel DeOcampo - Environment and Climate Change Canada (ECCC) (Environmental Assessment Officer, Environmental Protection Branch)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Fisheries and Oceans Canada (DFO)	Fisheries Protection General Inbox (DFO) - Fisheries and Oceans Canada (DFO)	2020-01-28	Email	Hydro One sent Notice of Study Commencement Letter and Map to the Fisheries Protection notification inbox for the Department of Fisheries and Oceans Canada.
Fisheries and Oceans Canada (DFO)	Fisheries Protection General Inbox (DFO) - Fisheries and Oceans Canada (DFO)	2020-01-28	Email	Hydro One received confirmation of the receipt of Notice of Study Commencement from the Department of Fisheries and Oceans Canada's notification inbox.
Fisheries and Oceans Canada (DFO)	Terry Speed - Fisheries and Oceans Canada (DFO) (Officer-in-charge)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Fisheries and Oceans Canada (DFO)	Fisheries Protection General Inbox (DFO) - Fisheries and Oceans Canada (DFO)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Fisheries and Oceans Canada (DFO)	Fisheries Protection General Inbox (DFO) - Fisheries and Oceans Canada (DFO)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Fisheries and Oceans Canada (DFO)	Terry Speed - Fisheries and Oceans Canada (DFO) (Officer-in-charge)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC) (Environmental Assessment Program)	2020-01-28	Email	Hydro One sent Notice of Study Commencement Letter and Map to Transport Canada's Environmental Assessment Program Inbox.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC) (Environmental Assessment Program)	2020-01-31	Email	Reply from Environmental Assessment Program, Ontario Region regarding Hydro One's Notice of Commencement.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC)	2020-05-26	Email	Hydro One invited representatives of Transport Canada to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC)	2020-06-01	Email	Hydro One followed up with Transport Canada (Environmental Assessment Program) to confirm participation in the Technical Advisory Committee.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC)	2020-06-03	Email	Transport Canada informed Hydro One that they do not intend to participate in the Technical Advisory Committee. Transport Canada provided information regarding the department's potential regulatory roles and indicated that should Hydro One determine Transport Canada has a role in the project, they should be advised.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC) (Environmental Assessment Program)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.

Federal Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC)	2020-10-27	Email	Hydro One emailed Transport Canada and informed them that they currently anticipate the project may trigger requirements under the Canadian Navigable Waters Act and the Aeronautics Act. Hydro One indicated that they are aware there may be requirements under the Railway Safety Act and that staff have notified rail companies operating in the area of the project and will work with them upon the selection of the route and in detailed design. Hydro One provided the link to the project website and noted that they will continue to send updates and notices.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC)	2020-12-03	Email	Hydro One emailed Transport Canada to follow up on an earlier email. Hydro One provided the link to the project website and noted that they plan to select the preferred route early in the new year. Hydro One requested whether Transport Canada has any comments related to the route alternative evaluation to ensure they are included in the evaluation. If no comments are received, Hydro One will continue to provide updates and keep in touch.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC)	2020-12-09	Email	Transport Canada emailed Hydro One and noted that they do not typically provide input regarding route alternatives and that the Navigation Protection Program requires a specific project submission to undertake a review. They encouraged Hydro One to contact the Navigation Protection program team with any pre-submission questions.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC)	2020-12-09	Email	Hydro One emailed the Navigation Protection Program to seek comments or feedback regarding the project. Hydro One noted they are currently evaluating route alternatives and provided the link to the project website and the route alternatives map. Hydro One requested that any comments be provided as soon as possible to ensure their inclusion in the evaluation.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC)	2020-12-17	Email	Hydro One emailed the Navigation Protection team from Transport Canada and followed up on the previously sent email seeking comments or questions on the project.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC)	2021-01-08	Email	The Navigation Protection Program emailed Hydro One and noted that upon initial screening of the information provided by Hydro One, that they have determined that the works may not require an Application to the Minister or creatina notification of work on a non-scheduled waterway. The Navigation Protection Program staff also provided links to the the Public Resolution Process and Application for Approval Process.
Transport Canada (TC)	Transport Canada Environmental Assessment Program, Ontario Region - Transport Canada (TC) (Environmental Assessment Program)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Transport Canada (TC)	Transport Canada Navigation Protection Program - Transport Canada (TC)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
VIA Rail	John Walsh - VIA Rail (Property Manager)	2020-01-28	Email	Hydro One sent Notice of Commencement to Via Rail Property Manager.
VIA Rail	John Walsh - VIA Rail (Property Manager)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Via Rail.
VIA Rail	John Walsh - VIA Rail (Property Manager)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to Via Rail and confirmed that when details are available, a forum for the public and interest parties to ask questions and discuss the project will be provided. Hydro One also confirmed the project team remains available to answer questions.
VIA Rail	John Walsh - VIA Rail (Property Manager)	2020-04-28	Email	Hydro One sent John Walsh of Via Rail the Virtual Information Session Notice.
VIA Rail	John Walsh - VIA Rail (Property Manager)	2020-05-26	Email	Hydro One invited John Walsh of Via Rail to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
VIA Rail	John Walsh - VIA Rail (Property Manager) Service Inbox VIA Rail - VIA Rail	2020-08-12	Email	Hydro One emailed VIA Rail to follow up on the Notice of Commencement and to ensure that they are aware of the project. Hydro One provided an overview of the location of one of the route alternatives in relation to the VIA rail line and noted that they are in the process of selecting the preferred route. Hydro One shared the Notice of Commencement and map.
VIA Rail	John Walsh - VIA Rail (Property Manager) Paul Charbachi - VIA Rail VIA Rail ROW Access Inbox - VIA Rail	2020-08-21	Email	Hydro One emailed a new contact from VIA Rail and noted that earlier attempts were made to contact another VIA Rail representative regarding the project. Hydro One provided the Notice of Study Commencement and Study Area Map, as well as the emails sent to the other VIA Rail contact. Hydro One noted one of the proposed routes would come close to a VIA rail track and indicated they wanted to be sure the appropriate VIA Rail staff were aware of the project and had to opportunity to review and provide comment.
VIA Rail	John Walsh - VIA Rail (Property Manager) Myriam Pelletier-Dufresne - VIA Rail Paul Charbachi - VIA Rail	2020-08-21	Email	VIA Rail emailed Hydro One and noted they have no objection with the project. VIA Rail asked for information to assist in their review and requested that another VIA Rail contact be included on future emails.

Federal Agencies - Record of Consultation

Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-01-28	Email	Hydro One sent Notice of Study Commencement Letter and Map to the Essex Region Conservation Authority.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner)	2020-02-07	Email	Essex Region Conservation Authority responded to the Notice of Study Commencement email from Hydro One to request digital shape files of the route alternatives and 500 m radius. Essex Region Conservation Authority informed Hydro One that Fernando Cirino is the new Resource Planner and to update the contact information accordingly.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-02-07	Email	Hydro One responded to Essex Region Conservation Authority's comment following the Notice of Study Commencement and confirmed that the contact list has been updated as suggested. Hydro One sent the requested shape file and informed Essex Region Conservation Authority of the workshops in the spring and late summer/fall 2020.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to the Essex Region Conservation Authority. Hydro One also informed the conservation authority of the technical workshop to follow the information centre.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Essex Region Conservation Authority and indicated a form will be held either in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-17	Email	Essex Region Conservation Authority sent a response to Hydro One confirming that they will review the Notice of Cancellation for the Community Information Centres and provide a high level response and considerations for the project.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-03-17	Email	Hydro One responded to Essex Region Conservation Authority and indicated that the project team is available to discuss the project and receive input or feedback. Hydro One also informed the conservation authority that the technical stakeholder workshop will be held but potentially as an online platform depending on the situation.
Essex Region Conservation Authority (ERCA)	Cynthia Casagrande - Essex Region Conservation Authority (ERCA) (Regulations Coordinator - Watershed Management Services) Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-04-28	Email	Hydro One (HONI) sent the Virtual Information Session Notice to the Essex Region Conservation Authority (ERCA) and HONI informed ERCA that they are preparing to form a Technical Advisory Committee in the coming months and will provide more information when available.
Essex Region Conservation Authority (ERCA)	Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox) Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-05-26	Email	Hydro One invited representatives of the Essex Region Conservation Authority to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-01	Email	Mike Nelson of the Essex Region Conservation Authority notified Hydro One that he will be the representative for the Technical Advisory Committee and requested that Hydro One forward meeting invitations.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-01	Email	Hydro One thanked Mike Nelson of Essex Region Conservation Authority for confirming his availability to participate in the Technical Advisory Committee. Hydro One confirmed more information will be sent.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-02	Email	Mike Nelson from Essex Region Conservation Authority provided comments on the Technical Advisory Committee regarding biological surveys, the County of Essex Official Plan and biological/vegetation inventories. Mr. Nelson requested a time to discuss his comments with Hydro One and to confirm information.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-03	Email	Hydro One followed up with Mike Nelson of the Essex Region Conservation Authority and noted that they are preparing a formal response to his earlier email. Hydro One asked Mr. Nelson if he would like to have a phone call. Hydro One provided the initial evaluation criteria and information video for the Technical Advisory Committee and noted that they will provide the conference call information for the two discussions and the survey.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-04	Email	Mike Nelson of the Essex Region Conservation Authority requested to speak with Hydro One and provided a time. Mr. Nelson indicated he needed some context in advance of the Technical Advisory Committee.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-04	Email	Hydro One followed up with Mike Nelson of the Essex Region Conservation Authority to confirm the time for a call. Hydro One noted that a response to Mr. Nelson's earlier questions will be provided.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-04	Email	Hydro One provided responses to questions from Mike Nelson of the Essex Region Conservation Authority. The questions related to biological surveys, local municipal Official Plan policies, methodology, the Technical Advisory Committee presentation and background desktop mapping.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-05	Phone	<p>Mike Nelson (ERCA) called Paul Dalmazzi at Hydro One to discuss the Chatham x Lakeshore project, specifically to seek some additional context regarding the Technical Advisory Committee (TAC) and Hydro One's plans to include habitat/biodiversity offsetting as part of the project. Paul provided some past examples of both how Hydro One had used Biodiversity initiatives (offsetting) to compensate for residual/net effects to natural habitats as a result of capital projects, and that Hydro One is planning to implement a Biodiversity Initiative for the Chatham x Lakeshore project but that it would be fully developed and implemented after the Class EA, and that the current focus during the Class EA was on the route evaluation/selection as well as the identification, avoidance, mitigation and restoration of potential effects, before the focus would turn to compensation (offsetting).</p> <p>Paul provided some additional context on the TAC including some brief examples of how stakeholder input had shaped past evaluations of alternatives.</p> <p>Paul also stated that either he or Dan Bourassa (Dillon Consulting) would follow up to discuss formal data requests from ERCA to support the project and Class EA. Paul also reiterated that Hydro One would contribute their biologic inventory data to broader regional datasets to support other planning initiatives.</p>
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-11	Smart email	Hydro One emailed Mike Nelson of the Essex Region Conservation Authority regarding the Technical Advisory Committee (TAC) discussions and provided the survey link, TAC informational video and initial evaluation criteria. Hydro One notified members that feedback from TAC members will be reported in the Class Environmental Assessment record of consultation as a single entity and requested that any comments on behalf of the organization be emailed directly to Paul Dalmazzi. Hydro One will provide the TAC Workshop #1 summary report once completed and information on the second workshop.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-19	Email	Hydro One emailed Mike Nelson of the Essex Region Conservation Authority as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-06-20	Email	Mike Nelson of the Essex Region Conservation Authority thanked Hydro One for sending the email reminder regarding the Technical Advisory Committee survey. Mr. Nelson also noted that he will follow up on the data request in a separate email with his GIS colleague and that they will require a data sharing agreement.
Essex Region Conservation Authority (ERCA)	Katie Stammler - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-06-20	Email	Mike Nelson of the Essex Region Conservation Authority provided Hydro One with their staff contact (Tom Dufour) for Hydro One to directly formalize which data sets they wish to access. Mr. Nelson recommended a set of data layers that would be relevant to the project team and also noted that the Lower Thames Valley Conservation Authority should be contacted for relevant data sets.
Essex Region Conservation Authority (ERCA)	Katie Stammler - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-06-23	Email	Hydro One thanked Mike Nelson of the Essex Region Conservation Authority for sharing the contact information and data layer suggestions. Hydro One noted a data sharing form was not attached and that both Hydro One and Dillon Consulting Limited staff will review the plans referenced in his previous email. Hydro One informed Mr. Nelson that they have contacted Lower Thames Valley Conservation Authority staff and that Mr. Nelson's other email regarding payment of data collection fee was received.
Essex Region Conservation Authority (ERCA)	Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-06-23	Email	Mike Nelson of the Essex Region Conservation Authority informed Hydro One of the fee required to process the data request and provided payment information.
Essex Region Conservation Authority (ERCA)	Katie Stammler - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-07-24	Email	Hydro One shared the signed data sharing agreement with Essex Region Conservation Authority.
Essex Region Conservation Authority (ERCA)	Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-08-05	Email	Tom Dufour of the Essex Region Conservation Authority thanked Hydro One for the signed data sharing agreement. Mr. Dufour noted that the data has been compiled and will be released upon receipt of payment.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Essex Region Conservation Authority (ERCA)	Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-08-05	Email	Hydro One informed Tom Dufour of the Essex Region Conservation Authority (ERCA) that they spoke with Lisa Pavan of ERCA and provided payment information.
Essex Region Conservation Authority (ERCA)	Katie Stammmer - Essex Region Conservation Authority (ERCA) (Water Quality Scientist/Project Manager, Source Water Protection - Conservation Services) Lisa Pavan - Essex Region Conservation Authority (ERCA) (Administrative Associate - Watershed Management Services) Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services) Tom Dufour - Essex Region Conservation Authority (ERCA) (Geomatics Technician - Corporate Services)	2020-08-05	Email	Tom Dufour of the Essex Region Conservation Authority provided Hydro One with the requested data and the fully signed data sharing agreement for Hydro One's records.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-09-09	Email	The Essex Region Conservation Authority (ERCA) emailed Hydro One to inform them that they would like to include another staff member in the Technical Advisory Committee discussion. ERCA indicated they have forwarded the invitation to the staff member.
Essex Region Conservation Authority (ERCA)	Richard Wyma - Essex Region Conservation Authority (ERCA) (General Manager/Secretary-Treasurer - Administration)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Essex Region Conservation Authority (ERCA)	Dan Lebedyk - Essex Region Conservation Authority (ERCA) (Biologist/Ecologist - Conservation Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Essex Region Conservation Authority (ERCA)	Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Essex Region Conservation Authority (ERCA)	Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Essex Region Conservation Authority (ERCA)	Dan Jenner - Essex Region Conservation Authority (ERCA) (Regulations Analyst - Watershed Management Services) Dan Lebedyk - Essex Region Conservation Authority (ERCA) (Biologist/Ecologist - Conservation Services) James Bryant - Essex Region Conservation Authority (ERCA) (Water Resources Engineer - Watershed Management Services)	2021-02-24	Email	The Essex Region Conservation Authority emailed Hydro One and indicated that they will be unable to attend the Technical Advisory Committee. It was requested that the presentation be shared with the individuals listed in the email.
Essex Region Conservation Authority (ERCA)	Essex Region Conservation Authority (ERCA) Planning Inbox (EA Correspondence) - Essex Region Conservation Authority (ERCA) (Planning & EA Mailbox)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Richard Wyma - Essex Region Conservation Authority (ERCA) (General Manager/Secretary-Treasurer - Administration)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	James Bryant - Essex Region Conservation Authority (ERCA) (Water Resources Engineer - Watershed Management Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Michael Nelson - Essex Region Conservation Authority (ERCA) (Watershed Planner - Watershed Management Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Dan Lebedyk - Essex Region Conservation Authority (ERCA) (Biologist/Ecologist - Conservation Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Fernando Cirino - Essex Region Conservation Authority (ERCA) (Resource Planner)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Essex Region Conservation Authority (ERCA)	Vitra Chodha - Essex Region Conservation Authority (ERCA)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Arend J.A. Hoekstra - Cassels Brock & Blackwell LLP (Associate) Brian Doolittle - Haudenosaunee Confederacy Chiefs Council (HCCC) Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Rick Saul - Haudenosaunee Confederacy Chiefs Council (HCCC) (Acting Treasurer) Thomas Isaac - Cassels Brock & Blackwell LLP (Partner) Todd Williams - Haudenosaunee Development Institute (HDI) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager) Wayne Hill - Haudenosaunee Development Institute (HDI)	2021-01-09	Email	Hydro One emailed Haudenosaunee Confederacy Chiefs Council/Haudenosaunee Development Institute regarding potential participation. Hydro One provided responses to previously submitted questions related to consultation, consent, project initiation and delegation. Hydro One provided materials related to delegation and the Notice of Commencement.
Haudenosaunee Confederacy Chiefs Council (HCCC) Haudenosaunee Development Institute (HDI) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) HDI General Inbox - Haudenosaunee Development Institute (HDI) (Inbox) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary) Tracey General - Haudenosaunee Confederacy Chiefs Council (HCCC) (Office Manager)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Haudenosaunee Confederacy Chiefs Council.
Haudenosaunee Confederacy Chiefs Council (HCCC) Ministry of Energy, Northern Development and Mines (ENDM)	Haudenosaunee Confederacy Chiefs Council (HCCC) Ministry of Energy, Northern Development and Mines (ENDM)	2020-03-27	Letter	ENDM response back to HCCC regarding interest and concerns of CxL project. ENDM states that project is in early development phase and approvals have not been made. States that HCCC was included in delegation because potential route is within 1701 Nanfan Treaty area. ENDM, along with lower courts acknowledges the harvesting rights of 1701 Nanfan Treaty. ENDM attached delegation letter and encouraged HCC to participate in Class EA and construction opportunities.
Haudenosaunee Confederacy Chiefs Council (HCCC) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Leroy Hill - Haudenosaunee Confederacy Chiefs Council (HCCC) (Secretary)	2020-01-08	Letter	Hydro One sent Notice of Commencement and Project map via Registered mail to the Haudenosaunee Confederacy Chiefs Council.
Haudenosaunee Development Institute (HDI) Ministry of Energy Ministry of Energy, Northern Development and Mines (ENDM) Ontario Legislative Assembly	Aaron Detlor - Haudenosaunee Development Institute (HDI) (Lawyer) Carlo Oliviero - Ministry of Energy Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) Ministry of Energy, Northern Development and Mines (ENDM) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy)	2020-01-27	Letter	Aaron Detlor wrote to advise that HCCC/HDI delegates him to work on matters regarding to CxL. Mr. Detlor expresses a number of concerns. He asserts that the proposed project will interfere, impair and infringe upon established Haudenosaunee treaty and other rights. Mr. Detlor also asserts that there is no other treaty covering the Project area. Mr. Detlor advises that the IESO, as the Crown did not undertake any engagement to justify the project and approval for Hydro One to construct and operate the asset. Mr. Detlor requests from the Crown for a copy of the delegation letter and the assessment of delegation.
Independent Electricity System Operator (IESO) Ministry of Energy, Northern Development and Mines (ENDM)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Jeffrey Schnuerer - Independent Electricity System Operator (IESO) (Advisor, First Nation and Metis Relations)	2020-05-19	Email	Hydro One sent the First Nation Virtual Information Session invitation to Chloe Lazakis of the Ministry of Energy, Northern Development and Mining, and Jeffrey Schnuerer of Independent Electricity System Operator.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning) Joanna Brown - Infrastructure Ontario (IO) (Environmental Specialist East) Ramsen Yousif - Infrastructure Ontario (IO) (Portfolio and Leasing Analyst)	2020-01-27	Email	Hydro One sent Notice of Study Commencement Letter and Map to Infrastructure Ontario.
Infrastructure Ontario (IO)	Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2020-01-31	Email	Hydro One received an email from Infrastructure Ontario identifying properties owned by the Minister of Government and Consumer Services that may be within or adjacent to the project's study area.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning) Joanna Brown - Infrastructure Ontario (IO) (Environmental Specialist East) Ramsen Yousif - Infrastructure Ontario (IO) (Portfolio and Leasing Analyst) Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2020-05-07	Email	Hydro One sent the Virtual Information Session Notice to representatives from Infrastructure Ontario and informed them that a Technical Advisory Committee will be formed within the coming months. Hydro One will provide more information when available and invited Infrastructure Ontario to participate in the committee.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning) Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2020-05-26	Email	Hydro One invited representatives of Infrastructure Ontario to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning) Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student) Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-05-28	Email	Hydro One responded to representatives of Infrastructure Ontario and confirmed the existing transmission corridors are a mixture of Bill 58 lands and easements. Hydro One noted that for projects of this nature, they are typically exempt/screened out from further requirements from the Public Works Class Environmental Assessment. Hydro One thanked Infrastructure Ontario for confirming their participation in the Technical Advisory Committee and noted they will send more information.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-01	Email	Tate Kelly of Infrastructure Ontario informed Hydro One that he will participate in the Technical Advisory Committee.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-01	Email	Hydro One thanked Tate Kelly of Infrastructure Ontario for confirming his availability to participate in the Technical Advisory Committee and confirmed more information will be sent.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-03	Email	Hydro One followed up with Tate Kelly of Infrastructure Ontario to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will send the conference call information for the two discussions and the survey.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-04	Email	Tate Kelly of Infrastructure Ontario thanked Hydro One for providing the Technical Advisory Committee information and indicated he will watch the information video prior to the discussion calls.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-19	Email	Hydro One emailed Tate Kelly of Infrastructure Ontario as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-19	Email	Tate Kelly of Infrastructure Ontario emailed Hydro One with an inquiry about the Technical Advisory Committee Workshop #1 survey.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-06-22	Email	Hydro One emailed a response to Tate Kelly of Infrastructure Ontario regarding his inquiry about the Technical Advisory Committee workshop #1 survey.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Infrastructure Ontario (IO)	Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Infrastructure Ontario (IO)	Ramsen Yousif - Infrastructure Ontario (IO) (Portfolio and Leasing Analyst)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Infrastructure Ontario (IO)	Cory Ostrowka - Infrastructure Ontario (IO) (Environmental Specialist - Environmental Management)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Infrastructure Ontario (IO)	Lisa Myslicki - Infrastructure Ontario (IO) (Environmental Specialist, Realty Services, Environmental Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Infrastructure Ontario (IO)	Joanna Brown - Infrastructure Ontario (IO) (Environmental Specialist East)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Infrastructure Ontario (IO)	Frances Hallen - Infrastructure Ontario (IO) (Co-op Student, Environmental Management)	2020-10-27	Email	Infrastructure Ontario emailed Hydro One and indicated that a property has been identified adjacent to the study area. Infrastructure Ontario also provided documents to assist in the identification of owners of provincial government property.
Infrastructure Ontario (IO)	Cory Ostrowka - Infrastructure Ontario (IO) (Environmental Specialist - Environmental Management)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Lisa Myslicki - Infrastructure Ontario (IO) (Environmental Specialist, Realty Services, Environmental Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Joanna Brown - Infrastructure Ontario (IO) (Environmental Specialist East)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Ainsley Davidson - Infrastructure Ontario (IO) (Director - Land Use Planning)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Tate Kelly - Infrastructure Ontario (IO) (Planning Coordinator, Development Planning)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Ramsen Yousif - Infrastructure Ontario (IO) (Portfolio and Leasing Analyst)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Raquel Kallideen - Infrastructure Ontario (IO) (Environmental Management Co-op student)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Infrastructure Ontario (IO)	Hayley Maskell - Infrastructure Ontario (IO) (Land Use Planning)	2021-03-03	Email	Infrastructure Ontario emailed Hydro One and provided a list of provincial government property owners that may have property in the project area. Infrastructure Ontario provided next steps following confirmation of property in the project area.
Infrastructure Ontario (IO)	Hayley Maskell - Infrastructure Ontario (IO) (Land Use Planning)	2021-03-26	Email	Hydro One emailed Infrastructure Ontario (IO) and provided the list of directly affected property owners. Hydro One provided an overview of the properties and indicated that they will keep IO staff on the distribution list for project updates.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-01-28	Email	Hydro One sent Notice of Study Commencement Letter and Map to Lower Thames Valley Conservation Authority.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to the Lower Thames Valley Conservation Authority. Hydro One also informed the conservation authority of the workshops with technical stakeholders to be held following the information centre.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Lower Thames Valley Conservation Authority and indicated a forum will be held either in person or online, with details provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-04-28	Email	Hydro One (HONI) sent the Virtual Information Session Notice to the Lower Thames Valley Conservation Authority (LTVCA) and HONI informed the LTVCA that they are preparing to form a Technical Advisory Committee in the coming months and will provide more information when available.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-05-26	Email	Hydro One invited representatives of the Lower Thames Valley Conservation Authority to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-05-27	Email	Randall Van Wagner of the Lower Thames Valley Conservation Authority (LTVCA) informed Hydro One that a representative from the LTVCA will not be able to attend the Technical Advisory Committee. Mr. Van Wagner requested that Hydro One keep LTVCA informed.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-01	Email	Hydro One followed up with representatives of Lower Thames Valley Conservation Authority (LTVCA) and provided a detailed scope of the Technical Advisory Committee (TAC). Hydro One informed LTCVA that their input is valuable to the project and requested that should they change their mind about participating in the TAC, to contact the project team. Hydro One also requested that should they confirm they are unavailable, regular project updates will continue to be provided.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-04	Email	Hydro One followed up with Greg Van Every and Randall Van Wagner of the Lower Thames Valley Conservation Authority to provide the initial evaluation criteria and informational video for the Technical Advisory Committee (TAC) as requested in an earlier email. Hydro One provided more information about the TAC and requested confirmation of whether they will participate in TAC going forward. Hydro One noted they will continue to provide regular project updates.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-11	Smart email	Hydro One emailed Randall Van Wagner of the Lower Thames Valley Conservation Authority regarding the Technical Advisory Committee (TAC) discussions and provided the survey link, TAC informational video and initial evaluation criteria. Hydro One notified members that feedback from TAC members will be reported in the Class Environmental Assessment record of consultation as a single entity and requested that any comments on behalf of their organization be emailed directly to Paul Dalmazzi. Hydro One will provide the TAC Workshop #1 summary report once completed and information on the second workshop.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-19	Email	Hydro One emailed representatives of the Lower Thames Valley Conservation Authority as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-22	Email	Randall Van Wagner of the Lower Thames Valley Conservation Authority informed Hydro One that he does not believe he will have time to fill in the Technical Advisory Committee survey. Mr. Van Wagner also provided the contact information for the stormwater protection and Regulations information.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-23	Email	Hydro One responded to Randall Van Wagner of Lower Thames Valley Conservation Authority (LTVCA) and noted that any comments or input from the LTVCA would be helpful. Hydro One indicated that one of the route options parallels an existing transmission line that traverses the Big O Conservation Area. Hydro One noted they will follow up with the contact the LTVCA provided.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management)	2020-06-23	Email	Hydro One emailed Jason Wintermute of the Lower Thames Valley Conservation Authority (LTVCA) and noted that he was recommended as the appropriate contact to request data from. Hydro One copied the email in which Mr. Wintermute was referred for reference and indicated which datasets/shapefiles they are looking for. Hydro One requested to be informed of any requirements such as data sharing agreement.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-06-24	Email	LTVCA replied to Hydro One and stated that they typically don't provide shapefiles of regulated areas in their jurisdiction due to data quality issues that are still being addressed, but stated hat they would investigate and provide as much of the requested information (including Source Water Protection information and Natural Heritage System information) as they could. LTVCA also noted that the Big O Conservation Area was an extremely popular birdwatching location, but that LTVCA did not maintain records of visitor numbers.
Lower Thames Valley Conservation Authority	Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Lower Thames Valley Conservation Authority	Mark Peacock - Lower Thames Valley Conservation Authority (Chief Administrative Officer / Secretary-Treasurer)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2020-11-04	Email	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and thanked them for sharing their comments and questions on the route alternatives. Hydro One noted they have shared LTVCA's email with the project team and they will be in touch with a response.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2020-11-04	Email	The Lower Thames Valley Conservation Authority emailed Hydro One and provided comments on the proposed alternative routes, including flood prone areas traversed by Route 2 and some variations of Route 1, and the CM Wilson Conservation Area along Route 3.
Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2020-11-04	Email	Hydro One staff noted that the email had been shared with the project team. The Lower Thames Valley Conservation Authority thanked Hydro One.
Lower Thames Valley Conservation Authority	Adam Gibb - Lower Thames Valley Conservation Authority Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2020-11-05	Email	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and requested maps or shapefiles of the areas mentioned in LTVCA's comments, along with any additional information they can provide. Hydro One requested confirmation of the correct contact for the spatial information and if anything is required from Hydro One in order to obtain the information. Hydro One also provided a reminder of the upcoming Virtual Information Session and attached the notice.
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2020-11-05	Email	The Lower Thames Valley Conservation Authority emailed Hydro One and confirmed the contact for the spatial information.
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2020-11-05	Email	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and thanked them for the confirmation. Hydro One requested that LTVCA inform them if anything is needed and to connect with Dillon Consulting Ltd.
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management)	2020-11-06	Email	Lower Thames Valley Conservation Authority emailed Dillon Consulting (Dillon) and requested clarification on the data Dillon is looking for.
Lower Thames Valley Conservation Authority	Jason Homewood - Lower Thames Valley Conservation Authority (Water Resources and Regulations Technician - Water Management) Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management)	2020-11-06	Email	Dillon Consulting (Dillon) emailed the Lower Thames Valley Conservation Authority (LTVCA) and listed the datasets they are interested in. Dillon also requested confirmation of whether LTVCA would require anything else.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-10	Email	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and included the study area shapefile as requested.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-25	Email	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and inquired whether they had any questions or required anything further.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-25	Email	The Lower Thames Valley Conservation Authority emailed Dillon Consulting and informed them that they will look at the files and get back to them.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management)	2020-11-25	Email	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and thanked them.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Lower Thames Valley Conservation Authority	Mark Peacock - Lower Thames Valley Conservation Authority (Chief Administrative Officer / Secretary-Treasurer)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician - Water Management)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Greg Van Every - Lower Thames Valley Conservation Authority (Environmental Project Coordinator - Conservation lands and Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) LTVCA Planning Inbox Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2021-04-06	Email	Hydro One emailed the Lower Thames Valley Conservation Authority (LTVCA) and requested that LTVCA identify the regulated areas that Hydro One needs to be aware of when conducting the detailed design and construction planning. Hydro One identified a specific area pertaining to the expansion of the Chatham Switching Station, for which this information was requested as soon as could be provided, and included a screenshot of the area.
Lower Thames Valley Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Randall Van Wagner - Lower Thames Valley Conservation Authority (Manager - Conservation Lands and Services) Valerie Towsley - Lower Thames Valley Conservation Authority (Resource Technician)	2021-04-06	Email	The Lower Thames Valley Conservation Authority (LTVCA) emailed Hydro One and confirmed that with regards to the Chatham Switching Station, there were no Conservation Authority Regulations that would affect the proposed station expansion. LTVCA informed Hydro One that they will look over the preferred option and get back with any regulatory concerns.
Lower Thames Valley Conservation Authority Upper Thames River Conservation Authority	Jason Wintermute - Lower Thames Valley Conservation Authority (Water Management Supervisor - Water Management) Jenna Allain Neil Pothier - Lower Thames Valley Conservation Authority (GIS Technician - Water Management) Terry Chapman - Upper Thames River Conservation Authority (GIS Specialist - Watershed Planning, Research & Monitoring)	2020-11-10	Email	Dillon Consulting emailed the Lower Thames Valley Conservation Authority and confirmed that the attachments were received.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-01-27	Email	Hydro One sent Notice of Commencement Letter and Map to the Ministry of Agriculture, Food and Rural Affairs.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to the Ministry of Agriculture, Food and Rural Affairs.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-03-17	Email	Hydro One sent the Notice of Cancellation to the Ministry of Agriculture, Food and Rural Affairs and indicated a forum will be held in the coming months either in person or online, with details provided as they become available. Hydro One confirmed the project team is available to discuss the project.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner, Southwestern Ontario)	2020-04-27	Email	Hydro One sent the Notice of Virtual Information Session to Ministry of Agriculture, Food and Rural Affairs and informed them that a Technical Advisory Committee will be formed in the upcoming months.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Policy Advisor (A), Land Use Policy and Stewardship Unit)	2020-04-28	Email	Drew Crinklaw of the Ministry of Agriculture, Food and Rural Affairs (OMAFRA) informed Hydro One that Anneleis Eckert is covering Chatham-Kent in his absence and provided a map of OMAFRA staff coverage should Hydro One wish to update the circulation list. Mr. Crinklaw also informed Hydro One that OMAFRA does not usually attend Public Information Centres; however, he will let Ms. Eckert determine her availability to participate.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) Drew Crinklaw - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Policy Advisor (A), Land Use Policy and Stewardship Unit)	2020-04-28	Email	Hydro One thanked Drew Crinklaw from the Ministry of Agriculture, Food and Rural Affairs for providing the updated staff information. Hydro One provided the Notice of Commencement public flyer, notice and map to Anneleis Eckert and asked that she contact Hydro One if she has any questions.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-05-26	Email	Hydro One invited Anneleis Eckert of the Ministry of Agriculture, Food and Rural Affairs to participate in the Technical Advisory Committee (TAC) and provided a project map, an overview of the project, purpose of TAC, framework for the first event and next steps. Hydro One requested that Ms. Eckert confirm her attendance. Hydro One informed Ms. Eckert that they will share the presentation video and provide further information.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-05-28	Email	Anneleis Eckert of the Ministry of Agriculture, Food and Rural Affairs informed Hydro One that she is interested in the Technical Advisory Committee (TAC) but is unable to attend. Ms. Eckert requested the materials for the TAC and asked that a meeting be held should she have any questions.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-01	Email	Hydro One responded to Anneleis Eckert of the Ministry of Agriculture, Food and Rural Affairs and confirmed that the format of the Technical Advisory Committee (TAC) workshop is flexible and that materials will be provided. Hydro One informed Ms. Eckert that she will still be able to participate in the TAC, receive information and be able to fill out the survey. Hydro One requested whether other staff would be available to attend.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-03	Email	Hydro One followed up with Anneleis Eckert of the Ministry of Agriculture, Food and Rural Affairs and provided the initial evaluation criteria list and information video for the Technical Advisory Committee. Hydro One noted they will provide the conference call information for the two discussion sessions and the survey.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-19	Email	Hydro One emailed Anneleis Eckert of the Ministry of Agriculture, Food, and Rural Affairs as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-06-25	Email	Hydro One shared a reminder with the Ministry of Agriculture to complete a survey to gather feedback on the virtual workshops.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-09-29	Email	The Ministry of Agriculture, Food and Rural Affairs (OMAFRA) emailed Hydro One to confirm the feedback received from the agricultural sector regarding the placement of lines. OMAFRA requested more context.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-06	Email	Hydro One emailed the Ministry of Agriculture, Food and Rural Affairs (OMAFRA) to provide context and to confirm the feedback received regarding line placement. Hydro One noted that they have received a bit conflicting from local residents/farmers from what was heard from the Technical Advisory Committee. Hydro One indicated they would like to ensure that this is accurately captured in the spatial analysis and requested comments and input.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-16	Email	The Ministry of Agriculture, Food and Rural Affairs emailed Hydro One and noted that they will discuss internally and get back to Hydro One if there is anything further to provide.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-16	Email	The Ministry of Agriculture, Food and Rural Affairs emailed Hydro One and inquired about the comments received regarding mid-field towers.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch)	2020-10-30	Email	Hydro One emailed the Ministry of Agriculture, Food and Rural Affairs and provided clarification on the comments regarding mid-field towers.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) OMAFRA EA Notices Inbox - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Inbox for all EA Notices)	2021-02-09	Email	Hydro One received an email from the Ministry of Agriculture, Food and Rural Affairs (OMAFRA) contact indicating they are on secondment to the Ministry of the Environment, Conservation and Parks and have forwarded the invitation to the new OMAFRA centralized Environmental Assessment email.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	Anneleis Eckert - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Rural Planner Central-West Land Use Policy & Stewardship Food Safety and Environmental Policy Branch) OMAFRA EA Notices Inbox - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Inbox for all EA Notices)	2021-02-10	Email	Hydro One emailed the Ministry of the Environment, Conservation and Parks and thanked them for notifying them of the updated staff change. Hydro One noted they will forward future Environmental Assessment notices to the indicated inbox.
Ministry of Agriculture, Food and Rural Affairs (OMAFRA)	OMAFRA EA Notices Inbox - Ministry of Agriculture, Food and Rural Affairs (OMAFRA) (Inbox for all EA Notices)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (ENDM)	Shannon McCabe - Ministry of Energy, Northern Development and Mines (ENDM) (Manager (A) - Indigenous Energy Policy)	2019-07-05	Email	Hydro One sent a letter to Shannon McCabe (ENDM) describing the project and requesting advice on whether the project would trigger the Crown's constitutional duty to consult with respect to Aboriginal and treaty rights, and if so, whether the Crown would delegate the procedural aspects to Hydro One. Hydro One also requested that an exhaustive list of First Nation and Métis communities that must be consulted on the project be provided, and what depth of consultation is required for each community, if this were to be the case. Hydro One also requested that the Crown notify each First Nation and Métis community for which it would delegate the procedural aspects of consultation.
Ministry of Energy, Northern Development and Mines (ENDM)	Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy)	2020-01-10	Email	Hydro One sent a letter to Assistant Deputy Minister Carolyn Calwell and Samir Adkar from the Ministry of Energy, Northern Development and Mines to notify them of the commencement of the project.
Ministry of Energy, Northern Development and Mines (ENDM)	Chloe Lazakis Daniel Miskokomon Lisa DeMarco Ministry of Energy, Northern Development and Mines (ENDM) Samir Adkar	2020-02-03	Letter	Lisa DeMarco sent a letter to MENDM advising they are legal council for WIFN on matters involving CxL and Hydro One. Lisa advised MENDM that WIFN does not believe that the Duty to Consult and accommodation has been fulfilled. WIFN is still reviewing the Class EA on Lakeshore TS Project and in the interim period WIFN requests that no Crown approvals be granted for the proposed project.
Ministry of Energy, Northern Development and Mines (ENDM)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy)	2020-05-11	Email	Hydro One sent the Virtual Information Session Notice to Chloe Lazakis of the Ministry of Energy, Northern Development and Mines.
Ministry of Energy, Northern Development and Mines (ENDM)	Shannon McCabe - Ministry of Energy, Northern Development and Mines (ENDM) (Manager (A) - Indigenous Energy Policy)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Energy, Northern Development and Mines (ENDM)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Energy, Northern Development and Mines (ENDM)	Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Energy, Northern Development and Mines (ENDM)	Dawn-Ann Metsaranta - Ministry of Energy, Northern Development and Mines (ENDM) (Manager (Acting) - Strategic Support Unit, Mines and Minerals Division)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Energy, Northern Development and Mines (ENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (ENDM) (Policy Advisor (A), Indigenous Energy Policy) Rosalind Ashe - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Advisor - Indigenous Energy Policy)	2020-11-25	Email	The Ministry of Energy, Northern Development and Mines emailed Hydro One to inform them that future updates should be forwarded to the listed staff members.
Ministry of Energy, Northern Development and Mines (ENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (ENDM) (Policy Advisor (A), Indigenous Energy Policy) Rosalind Ashe - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Advisor - Indigenous Energy Policy)	2020-11-25	Email	Hydro One emailed the Ministry of Energy, Northern Development and Mines and confirmed they have updated the project contact list as requested.
Ministry of Energy, Northern Development and Mines (ENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (ENDM) (Policy Advisor (A), Indigenous Energy Policy) Rosalind Ashe - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Advisor - Indigenous Energy Policy)	2020-11-25	Email	The Ministry of Energy, Northern Development and Mines emailed Hydro One and informed them they have been in contact with a staff member from Hydro One's Indigenous Relations department.
Ministry of Energy, Northern Development and Mines (ENDM)	Shannon McCabe - Ministry of Energy, Northern Development and Mines (ENDM) (Manager (A) - Indigenous Energy Policy)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (ENDM)	Dawn-Ann Metsaranta - Ministry of Energy, Northern Development and Mines (ENDM) (Manager (Acting) - Strategic Support Unit, Mines and Minerals Division)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (ENDM)	Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (ENDM)	Rosalind Ashe - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Advisor - Indigenous Energy Policy)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (ENDM)	Alyssa Scott - Ministry of Energy, Northern Development and Mines (ENDM) (Policy Advisor (A), Indigenous Energy Policy)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Energy, Northern Development and Mines (ENDM)	Lesley Williams - Ministry of Energy, Northern Development and Mines (ENDM) (Executive Director, Energy and Mining) Shoshana Pasternak - Ministry of Energy, Northern Development and Mines (ENDM) Steen Hume - Ministry of Energy, Northern Development and Mines (ENDM) Stephen Rhodes - Ministry of Energy, Northern Development and Mines (ENDM) (Deputy Minister)	2021-05-18	Meeting	Hydro One presented an update to the group on the status of our development, including the breadth of engagement and consultation undertaken thus far in the project. We focused on how we arrived at Route 2A, and mentioned high level concerns raised by Lakeshore. Only one question asked by the deputy, which was where the approximate paralleling of the idle line would occur.
Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy)	2019-11-29	Letter	Samir Adkar, Director - Energy Networks and Indigenous Policy, ENDM, responded to Hydro One's letter dated July 5th, 2019. Samir stated that ENDM had determined that the Project may have potential to affect First Nations communities who hold or claim Aboriginal or treaty rights protected under Section 35 of Canada's Constitution Act (1982). Samir advised that on behalf of the Crown, ENDM is delegating the procedural aspects of consultation to Hydro One, and provided details about the responsibilities of Hydro One in fulfilling the procedural aspects of consultation. END also identified the following Aboriginal communities, which it had identified should be consulted on the Project: - Aamjiwnaang First Nation - Bkejwanong (Walpole Island) First Nation - Caldwell First Nation - Chippewas of Kettle and Stony Point First Nation - Chippewas of the Thames First Nation - Oneida Nation of the Thames - Six Nations of the Grand River First Nation/Six Nations of the Grand River Elected Council - Haudenosaunee Confederacy Chiefs Council/Haudenosaunee Development Institute
Chippewas of Kettle and Stony Point First Nation Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP)	Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Jason Henry - Chippewas of Kettle and Stony Point First Nation (Chief) Joseph Vecchiolla - Ministry of Government and Consumer Services (Policy Lead - Realty Division) Thomas Bressette - Chippewas of Kettle and Stony Point First Nation Valerie George - Chippewas of Kettle and Stony Point First Nation (Consultation Officer)	2020-01-07	Email	Hydro One sent Notice of Study Commencement Letter and Map to Chippewas of Kettle and Stony Point First Nation.

Telford further states that the Crown failed to meaningfully engage with HDI on the selection of Hydro One as the chosen proponent for the proposed Chatham to Lakeshore project. Telford requests the Crown to provide HDI with its prima facie assessment of Haudenosaunee rights and interests in relation to the project. Hydro One was carbon copied within the letter.

Bkejwanong (Walpole Island First Nation) Independent Electricity System Operator (IESO) Ontario Legislative Assembly	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) Peter Gregg - Independent Electricity System Operator (IESO) (President and CEO)	2020-07-07	Letter	Chief Daniel Miskokomon sent a signed letter dated July 7 2020 to Mark Poweska regarding his disappointment with HONI's ongoing relationship with WIFN. Within the letter is the attachment of a record of Hydro One's engagement with WIFN regarding proposed projects over the last 4 years within WIFN traditional territory. Chief notes HONI's Indigenous corporate strategy of being a trusted partner and expresses disappointment about delays in negotiating a Memorandum of Understanding and slow progress in entering an equity partnership with CxL transmission line. Chief requests a meeting with Mark Poweska to discuss finalizing an equity partnership and other projects within their traditional territory.

Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (ENDM) Municipality of Chatham-Kent	Aimee Johnson - Bkejwanong (Walpole Island First Nation) Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Chloe Lazakis - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor (A) - Indigenous Energy Policy) Kirby Dier - Ministry of Energy, Northern Development and Mines (ENDM) (Senior Policy Advisor) Members of the Public	2020-05-14	Virtual Information Session (VIS)	A Virtual Information Session (VIS) was held on May 14, 2020. This was the second of two virtual sessions with the intent of providing stakeholders with an opportunity to learn more about the project need, the Class Environmental Assessment process, the proposed routes, the route selection process, key milestone and next steps.
Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ontario Legislative Assembly	Arlene Dodge - Bkejwanong (Walpole Island First Nation) Bkejwanong (Walpole Island First Nation) Caitlin Beresford Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) David McIntosh - Ministry of Government and Consumer Services (Director, Realty Policy Branch) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator) Kim Fullerton Ron Soney - Bkejwanong (Walpole Island First Nation) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy) Valarie Waboose - Bkejwanong (Walpole Island First Nation)	2021-02-25	Letter	Mark Poweska received a letter from The Council of Three Fires, Chief Sampson of Walpole Island, dated February 25, 2021, in relation to the Chatham x Lakeshore line and the inclusion of the Haudenosaunee on the delegation letter. In the letter, Chief Sampson voiced his concerns regarding the November 2019 delegation letter from the Crown (ENDM) to Hydro One, and the inclusion of the Haudenosaunee in Three Fires Confederacy territory. Chief Sampson stated that he understands that Hydro One takes direction from the Crown on such matters, and as such had written to Minister Rickford to express his concerns. Chief Sampson stated that overall the First Nation is supportive of the project and was interested in pursuing equity participation opportunities, but stated that Walpole Island First Nation did not see how they could move forward in showing this support as long as the Haudenosaunee are still participating in consultation and accommodation discussions on the project.
Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ministry of the Environment, Conservation and Parks (MECP) Ontario Legislative Assembly	Alicia Blackeagle - Bkejwanong (Walpole Island First Nation) (Executive Assistant to the Chief) Arlene Dodge - Bkejwanong (Walpole Island First Nation) Caitlin Beresford Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) David McIntosh - Ministry of Government and Consumer Services (Director, Realty Policy Branch) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator) Kim Fullerton Ron Soney - Bkejwanong (Walpole Island First Nation) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy) Valarie Waboose - Bkejwanong (Walpole Island First Nation)	2021-04-09	Email	Hydro One emailed Walpole Island First Nation (WIFN) and shared a letter from Hydro One's President and Chief Executive Officer Mark Poweska in response to the letter received from Chief Sampson dated February 25, 2021. In the letter, Mr. Poweska thanked Chief Sampson for reaching out to discuss the project, and reiterated that Hydro One valued the relationship with Walpole Island First Nation. Mr. Poweska acknowledged that Walpole Island FN was further discussing their concerns with the Crown, and stated that he had asked Hydro One's Vice President of Indigenous Relations, Penny Favel, and her team to follow up with Chief Sampson to further address his concerns.

Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-04-27	Email	The Ministry of Municipal Affairs and Housing confirmed receipt of the Notice of Virtual Information Session.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-05-26	Email	Hydro One invited Erick Boyd of the Ministry of Municipal Affairs and Housing to participate in the Technical Advisory Committee (TAC) and provided a project map, an overview of the project, purpose of TAC, framework for the first event and next steps. Hydro One requested that Mr. Boyd confirm his attendance. Hydro One informed Mr. Boyd that they will share the presentation video and provide further information.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development)	2020-06-01	Email	Hydro One followed up with Erick Boyd of the Ministry of Municipal Affairs and Housing to confirm participation in the Technical Advisory Committee (TAC) as materials will be sent to participating members.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Michelle Knieriem of the Ministry of Municipal Affairs and Housing informed Hydro One that they do not need to be involved in the Technical Advisory Committee but are able to provide support as a technical resource if specific land use planning matters arise.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Hydro One thanked Michelle Knieriem from the Ministry of Municipal Affairs (MAH) for her response regarding the Technical Advisory Committee and noted that if MAH does not wish to participate, then regular project updates, notices and any specific issues or questions will be directed to them.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Hydro One responded to Michelle Knieriem of the Ministry of Municipal Affairs and Housing and confirmed she will be sent future project and Class EA notices.
Ministry of Municipal Affairs and Housing (MMAH)	Erick Boyd - Ministry of Municipal Affairs and Housing (MMAH) (Manager (A) Community Planning and Development) Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-06-02	Email	Michelle Knieriem of the Ministry of Municipal Affairs and Housing notified Hydro One of a change in staffing roles and confirmed she should be sent project updates and notices.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Municipal Affairs and Housing (MMAH)	Shawn Parry - Ministry of Municipal Affairs and Housing (MMAH) (Manager - Legislation and Research Section)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Municipal Affairs and Housing (MMAH)	Shawn Parry - Ministry of Municipal Affairs and Housing (MMAH) (Manager - Legislation and Research Section)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-12	Phone	Hydro One staff called Michelle Knieriem (MAH) and left a message with a brief update and inform her of the concerns raised by the Municipality of Lakeshore regarding the Employment lands in Comber, following the selection of the preferred route. Paul requested that Michelle contact him if she wished to discuss further.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-13	Email	Hydro One emailed the Ministry of Municipal Affairs and Housing (MMAH) and informed them of a land use planning matter in the Municipality of Lakeshore. Hydro One also shared the map of the preferred route.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-14	Email	The Ministry of Municipal Affairs and Housing (MMAH) emailed Hydro One and thanked them for the update and of informing the Ministry of the Municipality of Lakeshore's concerns. MMAH noted that continuing to work with the Municipality to discuss their concerns is a great approach and to keep MMAH informed as the project continues.
Ministry of Municipal Affairs and Housing (MMAH)	Michelle Knieriem - Ministry of Municipal Affairs and Housing (MMAH) (Team Lead - Planning, Municipal Services Office, Western Region)	2021-05-18	Email	Hydro One emailed the Ministry of Municipal Affairs and Housing (MMAH) and noted that they will continue to work with the Municipality of Lakeshore staff and officials and will keep MMAH updated. Hydro One indicated the release of the draft Environmental Study Report will be in June.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District))	2020-01-27	Email	Hydro One sent Notice of Study Commencement Letter and Map to the Ministry of Natural Resources and Forestry (Aylmer District).
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region)	2020-02-13	Email	The Ministry of Natural Resources and Forestry Aylmer District replied to the Notice of Study Commencement and informed Hydro One that a screening of natural heritage or other resource values for the project has not been completed. The Ministry of Natural Resources and Forestry provided information to guide the identification and assessment of natural features and resources, including a Natural Heritage Information Request Guide (attached to email).
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-03-04	Email	Hydro One responded to the Ministry of Natural Resources and Forestry (Aylmer District) and informed the Ministry that background research has begun. Hydro One also informed the Ministry of the upcoming Community Information Centres.

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-03-17	Email	Hydro One sent a Notice of Cancellation for the Community Information Centres to the Ministry of Natural Resources and Forestry (Aylmer District) and indicated a forum will be held either in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Ministry of Natural Resources and Forestry (MNRF)	Petroleum Operations Section Inbox (MNRF) - Ministry of Natural Resources and Forestry (MNRF) (Petroleum Operations Section)	2020-03-19	Phone	<p>Paul called the number for the MNRF Petroleum Operations Section as provided by the MNRF Aylmer district. Paul left a voicemail message briefly explaining the project and stated that he was calling to seek further information about petroleum operations in the Chatham-Lakeshore area, such as more detailed mapping or contacts for specific companies/operations with whom he could reach out directly to discuss the project. Paul left his cell number and email address as means of contacting him back to discuss.</p> <p>The petroleum ops call returned Paul's call later that day, thanked him for the information and noted that they would work with him to review and discuss the project. Paul stated that Petroleum Well mapping had been reviewed early on when determining the route alternatives, but that multiple petroleum wells appeared to be mapped in the middle of existing transmission line Rights-of-Way, leading Hydro One to question the data source. The Petroleum ops Centre staff provided their email address and Paul stated that he would follow up over email with some additional project information.</p>
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-03-23	Email	Hydro One informed the Ministry of Natural Resources and Forestry Aylmer District that they received information from the Petroleum Operations Section. Hydro One requested whether the Aylmer District would like to remain on the correspondence with the Petroleum Operations Section.
Ministry of Natural Resources and Forestry (MNRF)	Petroleum Operations Section Inbox (MNRF) - Ministry of Natural Resources and Forestry (MNRF) (Petroleum Operations Section)	2020-03-31	Email	Hydro One followed up with the Petroleum Operations Section of the Ministry of Natural Resources and Forestry to inquire whether they had any questions or require other project information. Hydro One informed the Petroleum Operations Section that Dillon will obtain OSGR mapping on petroleum pipelines in the area and inquired if any other information for the review is necessary.
Ministry of Natural Resources and Forestry (MNRF)	Petroleum Operations Section Inbox (MNRF) - Ministry of Natural Resources and Forestry (MNRF)	2020-04-08	Email	The Petroleum Operations Section of the Ministry of Natural Resources and Forestry responded to Hydro One and indicated that information on petroleum wells are available at the Oil, Gas and Salt Resources Library and the accuracy ranges for different well locations. The Petroleum Operations Section provided contact information in the event of encountering a well or for spills.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-04-27	Email	Hydro One sent the Notice of Virtual Information Session to the Ministry of Natural Resources and Forestry (Aylmer District) and informed the Ministry that a Technical Advisory Committee will be formed in the upcoming months.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-05-26	Email	Hydro One invited representatives of the Ministry of Natural Resources and Forestry to participate in the Technical Advisory Committee (TAC) and provided a project map, an overview of the project, purpose of TAC, framework for the first event and next steps. Hydro One requested that they confirm their attendance. Hydro One informed them that they will share the presentation video and provide further information.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-01	Email	Hydro One followed up with Karina Cerniavskaja from the Ministry of Natural Resources and Forestry (Aylmer District) to confirm participation in the Technical Advisory Committee. Hydro One requested confirmation of participation and noted more information will be sent upon confirmation.
Ministry of Natural Resources and Forestry (MNRF)	MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-04	Email	Karina Cerniavskaja of the Ministry of Natural Resources and Forestry (MNRF) (Aylmer District) informed Hydro One that a representative of MNRF will be unable to participate in the Technical Advisory Committee.
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-04	Email	Hydro One thanked Karina Cerniavskaja of the Ministry of Natural Resources and Forestry (MNRF) (Aylmer District) for informing them about their availability for the Technical Advisory Committee. Hydro One noted that they will continue to circulate regular project updates and should MNRF have any questions, they can reach out to the project team.
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-25	Email	Hydro One emailed the Ministry of Natural Resources and Forestry to request data about the following: <ul style="list-style-type: none"> - Fish Community Records - Watercourse Thermal Regime/Classification - In-water Timing Windows for Construction - Habitat Information (known spawning, groundwater upwelling, migratory corridors) - Fisheries Management Objectives
Ministry of Natural Resources and Forestry (MNRF)	MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-06-25	Email	Hydro One received an email from the Ministry of Natural Resources and Forestry which stated that they have forwarded Hydro One's request to the appropriate branch.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Natural Resources and Forestry (MNRF)	Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-02	Email	The Ministry of Natural Resources and forestry emailed Hydro One and shared Natural Heritage Information Request Guide to assist Hydro One with accessing natural heritage data and values from convenient online sources. The Ministry noted that It remains the proponent's responsibility to complete a preliminary screening for each project, to obtain available information from multiple sources, to conduct any necessary field studies, and to consider any potential environmental impacts that may result from an activity.
Ministry of Natural Resources and Forestry (MNRF)	Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-03	Email	The Chatham x Lakeshore project team emailed the Ministry of Natural Resources and Forestry and shared the Draft Natural Environment Terms of Reference for their review. The project asked whether the ministry has identified any further information to be added.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-06	Email	Members of the Chatham to Lakeshore project team corresponded with the Ministry of Natural Resources and Forestry regarding a request for information.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District)) MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-07-06	Email	The Chatham to Lakeshore Project team corresponded with representatives of the Ministry of Natural Resources and Forestry regarding a request for information on natural heritage items.
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Natural Resources and Forestry (MNRF)	Kathleen Buck - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District))	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Natural Resources and Forestry (MNRF)	Petroleum Operations Section Inbox (MNRF) - Ministry of Natural Resources and Forestry (MNRF) (Petroleum Operations Section)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District))	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Natural Resources and Forestry (MNRF)	MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Natural Resources and Forestry (MNRF)	MNRF Aylmer District Planners - Ministry of Natural Resources and Forestry (MNRF)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Natural Resources and Forestry (MNRF)	Karina Cerniavskaja - Ministry of Natural Resources and Forestry (MNRF) (District Planner - Aylmer District, Southern Region)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Natural Resources and Forestry (MNRF)	Jason Webb - Ministry of Natural Resources and Forestry (MNRF) (Management Biologist (Aylmer District))	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.

Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Natural Resources and Forestry (MNRF)	Petroleum Operations Section Inbox (MNRF) - Ministry of Natural Resources and Forestry (MNRF) (Petroleum Operations Section)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Annamaria Cross - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment, Environmental Assessment Branch (EAB)) Heather Malcolmson - Ministry of the Environment, Conservation and Parks (MECP) (Director - Environmental Assessment and Permissions Branch) Kimberly Yu - Ministry of the Environment, Conservation and Parks (MECP) (Administrative Assistant, Environmental Assessment Services, Environmental Assessment and Permissions Branch)	2020-01-24	Email	Hydro One sent Notice of Study Commencement Letter and Maps to the Ministry of Environment, Conservation and Parks Environmental Assessment Branch.
Ministry of the Environment, Conservation and Parks (MECP)	Craig Newton - Ministry of the Environment, Conservation and Parks (MECP) (Regional Environmental Planner) Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region) Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Air Quality Analyst, Technical Support Section, Southwest Region)	2020-01-24	Email	Hydro One sent Notice of Study Commencement Letter and Map to Ministry of Environment, Conservation and Parks Southwest Region.
Ministry of the Environment, Conservation and Parks (MECP)	Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region) Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Air Quality Analyst, Technical Support Section, Southwest Region)	2020-01-27	Email	The Ministry of Environment, Conservation and Parks Southwest Region responded to the Notice of Study Commencement email and requested that Craig Newton's email address be removed from the contact list as he has retired. It was also requested that future notices be sent to eanotification.swregion@ontario.ca and for Crystal LaFrance to be copied on emails.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region) Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Air Quality Analyst, Technical Support Section, Southwest Region)	2020-01-27	Email	Hydro One responded to the Ministry of Environment, Conservation and Parks and confirmed that Craig Newton would be removed from the contact list and the Notice of Study Commencement materials would be sent to the Ministry's Environmental Assessment notification inbox.
Ministry of the Environment, Conservation and Parks (MECP)	Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox) Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Air Quality Analyst, Technical Support Section, Southwest Region)	2020-01-27	Email	Hydro One sent Notice of Study Commencement Letter, Maps and the project information form to the Ministry of Environment, Conservation and Parks Southwest Region's Environmental Assessment notification inbox.
Ministry of the Environment, Conservation and Parks (MECP)	Annamaria Cross - Ministry of the Environment, Conservation and Parks (MECP) (Director, Environmental Assessment, Environmental Assessment Branch (EAB)) Kimberly Yu - Ministry of the Environment, Conservation and Parks (MECP) (Administrative Assistant, Environmental Assessment Services, Environmental Assessment and Permissions Branch)	2020-01-27	Email	Hydro One sent the project information form and resent the Notice of Study Commencement Letter and Map to the Ministry of Environment, Conservation and Parks Environmental Assessment Branch.
Ministry of the Environment, Conservation and Parks (MECP)	Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox) Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Air Quality Analyst, Technical Support Section, Southwest Region)	2020-01-27	Email	The Ministry of Environment, Conservation and Parks Southwest Region thanked Hydro One for sending the Notice of Study Commencement materials to the Environmental Assessment notification inbox.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-10	Email	Hydro One sent Notice of Study Commencement Letter and Map and the draft Natural Environmental Field Program Terms of Reference for the project to the Ministry of Environment, Conservation and Parks Species at Risk Branch.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-02-21	Email	Hydro One received an email from the Ministry of Environment, Conservation and Parks to request that the Notice of Study Commencement be re-sent.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-02-21	Email	Hydro One responded to the Ministry of Environment, Conservation and Parks' request to re-send the Notice of Study Commencement and attached the Letter, Map and original email. Hydro One informed the Ministry of Environment, Conservation and Parks of the upcoming Community Information Centres in late March and technical stakeholder workshops.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-02-21	Email	The Ministry of Environment, Conservation and Parks confirmed the receipt of the Notice of Study Commencement.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-26	Email	Hydro One followed up on the Notice of Study Commencement email to the Species at Risk inbox with the Ministry of Environment, Conservation and Parks and requested comments or questions. Hydro One indicated that the field program is planned to begin in early April and the Natural Environment Terms of Reference needs to be finalized before.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-26	Email	The Species at Risk Branch for the Ministry of Environment, Conservation and Parks responded to Hydro One's follow-up email and indicated that a Management Biologist would review the file and follow-up with Hydro One on the requested information.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-02-26	Email	Hydro One responded the Species at Risk Branch with the Ministry of Environment Conservation and Parks and requested the contact information of the Management Biologist assigned to the file.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-03-03	Email	The Ministry of Environment, Conservation and Parks attached their acknowledgement letter and map following the information provided by Hydro One for the Notice of Study Commencement.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2020-03-04	Email	Hydro One confirmed the receipt of feedback from the Ministry of Environment, Conservation and Parks and informed them that their feedback would be considered. Hydro One also sent Notice of Community Information Centre invitation and newspaper ad.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-03-17	Email	Hydro One followed up with the Ministry of Environment, Conservation and Parks to inquire whether the draft Natural Environment Terms of Reference has been reviewed as initial field surveys will begin in April. Hydro One inquired whether it is best to follow up with a Species at Risk Branch Management directly.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Ministry of the Environment, Conservation and Parks due to recent public health developments. Hydro One indicated a forum will be held either online or in person and details will be provided as they become available. Hydro One also confirmed the project team remains available to discuss the project.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-03-18	Email	The Ministry of Environment, Conservation and Parks Species at Risk Branch confirmed the file has been provided to a Management Biologist for review and Hydro One will be contacted directly to discuss.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region) EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2020-04-27	Email	Hydro One sent the Notice of Virtual Information Session to the Ministry of Environment, Conservation and Parks and informed the Ministry that a Technical Advisory Committee will be formed in the coming months.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-27	Email	Barb Slattery of the Ministry of Environment, Conservation and Parks emailed Hydro One to confirm the Notice of Virtual Information Session has been shared with Southwest Region staff so they can participate.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-28	Email	Hydro One emailed Barb Slattery of the Ministry of Environment, Conservation and Parks (MECP) to clarify whether Ms. Slattery is acting as the Environmental Assessment (EA)/Planning coordinator for the Southwest (SW) Region and will be the single point of contact for the SW Region going forward. Hydro One asked if other MECP staff should be included in regular project and EA updates.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-28	Email	Barb Slattery of the Ministry of Environment, Conservation and Parks (MECP) responded to Hydro One to explain that she is responsible for determining other technical reviewers and other than the Notices of Commencement and Completion, no one else needs to be directly notified or contacted from MECP.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-04-28	Email	Hydro One responded to Barb Slattery of the Ministry of Environment, Conservation and Parks and indicated that all regular project/Environmental Assessment updates and notices will be sent directly to Ms. Slattery. Hydro One also notified Ms. Slattery that they will be in touch with more information regarding the Technical Advisory Committee.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-05-26	Email	Hydro One invited Barbara Slattery of the Ministry of the Environment, Conservation and Parks to participate in the Technical Advisory Committee (TAC) and provided a project map, an overview of the project, purpose of TAC, framework for the first event and next steps. Hydro One requested that Ms. Slattery confirm her attendance. Hydro One informed Ms. Slattery that they will share the presentation video and provide further information.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-05-27	Email	Barb Slattery of the Ministry of the Environment, Conservation and Parks confirmed that she is interested in participating in the Technical Advisory Committee and will provide the names of additional attendees once confirmed.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-05-27	Email	Hydro One responded to Barb Slattery of the Ministry of the Environment, Conservation and Parks (MECP) and requested the names of additional staff members be passed along. Hydro One reminded Ms. Slattery that she and MECP are welcome to discuss the project with the project team at any time.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-03	Email	Hydro One followed up with Barb Slattery of the Ministry of the Environment, Conservation and Parks to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will provide the conference call information for the two discussion sessions and the survey.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-11	Email	Barb Slattery of the Ministry of the Environment, Conservation and Parks notified Hydro One that she was unable to participate in the Technical Advisory Committee discussion sessions but intends to provide comments on the preliminary screening criteria.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-11	Email	Hydro One informed Barb Slattery of the Ministry of the Environment, Conservation and Parks that the Technical Advisory Committee discussions were optional and an opportunity to get conversation going. Hydro One requested for the survey to be completed and welcomed any comments or discussion with the project team.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-19	Email	Hydro One emailed Barb Slattery of the Ministry of the Environment, Conservation and Parks as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-19	Email	Hydro One confirmed the receipt of Barb Slattery of the Ministry of the Environment, Conservation and Parks's email regarding the survey.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-19	Email	Barb Slattery of the Ministry of the Environment, Conservation and Parks emailed Hydro One to inform them that she will make the Technical Advisory Committee survey a priority.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-22	Email	Barb Slattery of the Ministry of the Environment, Conservation and Parks emailed Hydro One that the criteria was reviewed and she has no comments.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-22	Email	Hydro One emailed Barb Slattery of the Ministry of the Environment, Conservation and Parks and thanked her for reviewing the Technical Advisory Committee materials and survey. Hydro One noted the anticipated timing of the next workshop and that any comments or questions can be sent directly to the project team.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-06-23	Email	Barb Slattery of the Ministry of the Environment, Conservation and Parks shared comments from the Air Quality Analyst with Hydro One.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-02	Email	Hydro One emailed the Ministry of Environment Conservation and Parks (MECP) to request clarification. Hydro One asked if the MECP air quality analyst could provide input or suggestions on how air quality effects could be assessed in the route evaluation in such a way that could be used to help select a preferred route. Hydro One staff confirmed that temporary air quality effects from construction, and potential mitigation measures, would be included as part of the Class EA and documented in the Environmental Study Report accordingly.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-02	Email	The Ministry of Environment Conservation and Parks emailed Hydro One and confirmed that the comments relating to construction impacts were relayed in order to ensure that those effects were considered and documented. MECP also stated that the EA's goal should be to have a complete understanding of the impacts throughout the entire lifecycle of the project.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-02	Email	Hydro One replied to the Ministry of Environment Conservation and Parks and stated that temporary construction effects such as air quality and dust, and potential mitigation measures, will be considered as part of the Class EA and documented in the Environmental Study Report, but may not be considered as a criterion for the selection of the preferred route due to a lack of discernible difference between the route alternatives.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-03	Email	Hydro One emailed the Ministry of Environment Conservation and Parks to enquire about any comments from the MECP on the Natural Environment draft Terms of Reference.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-06	Email	The Ministry of Environment Conservation and Parks emailed Hydro One and stated that they would discuss internally with their SAR branch to see if they have any comment and confirm the logistics on who Hydro One should contact.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-06	Email	Hydro One corresponded with the Ministry of Environment Conservation and Parks regarding logistics who would be the main contact regarding the Natural Environment section of the Terms of Reference.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-07-29	Email	Barb Slattery of the Ministry of the Environment, Conservation and Parks forwarded an email from their Species at Risk Branch containing the Proponent's Guide: Preliminary Screening for Hydro One's reference for Species at Risk.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (EA/Planning Coordinator, Project Review Unit, Environmental Assessment Branch)	2020-08-05	Email	Hydro One informed Barb Slattery of the Ministry of the Environment, Conservation and Parks (MECP) that they have reviewed the resources mentioned in the Client's Guide (as recommended by MECP in a previous email) and this will form part of the baseline environment description in the Environmental Study Report. Hydro One thanked MECP for the information and noted that they will work with the Species at Risk Branch and Ms. Slattery/the district as the project advances.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Air Quality Analyst, Technical Support Section, Southwest Region)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Lee Bradshaw - Ministry of the Environment, Conservation and Parks (MECP) (Senior Environmental Officer)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Smith - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Water Compliance)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2021-02-09	Email	The Ministry of the Environment, Conservation and Parks emailed Hydro One and indicated the invitation has been accepted on behalf of the newly appointed Environmental Assessment Coordinator for the southwest region.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2021-02-10	Invitation	Hydro One emailed the Ministry of the Environment, Conservation and Parks and thanked them for the update regarding the upcoming staffing change. Hydro One requested that they be informed of the replacement staff for future invitations and notices.
Ministry of the Environment, Conservation and Parks (MECP)	Barbara Slattery - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Resource Planner & EA Coordinator - Air, Pesticides & Environmental Planning, Technical Support Section - West Central Region)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Crystal LaFrance - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Air, Pesticides & Environmental Planning, Technical Support Section - Southwest Region)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	EA Notification Southwest Region - Ministry of the Environment, Conservation and Parks (MECP) (General Mailbox)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	SAR Ontario General Inbox - Ministry of the Environment, Conservation and Parks (MECP) (SAR Email Inbox)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Lee Bradshaw - Ministry of the Environment, Conservation and Parks (MECP) (Senior Environmental Officer)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Smith - Ministry of the Environment, Conservation and Parks (MECP) (Supervisor - Water Compliance)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Peter Rehbein - Ministry of the Environment, Conservation and Parks (MECP) (Air Quality Analyst, Technical Support Section, Southwest Region)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of the Environment, Conservation and Parks (MECP)	Mark Badali - Ministry of the Environment, Conservation and Parks (MECP) (Environmental Assessment Coordinator)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region)	2020-01-28	Email	Hydro One sent Notice of Study Commencement Letter and Map to the Ministry of Transportation, Ontario. Hydro One also made note of one potential route in the project that is parallel to Highway 401 and that should be included for discussion.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-01-30	Email	Hydro One sent Notice of Study Commencement Letter and Map and the email sent to Ministry of Transportation, Ontario to Stantec Consulting Limited and another individual from the Ministry of Transportation who are coordinating the MTO Class EA for the improvements to Highway 401 between Tilbury and London. Hydro One informed the Highway 401 Improvements project team that the two projects had overlapping study areas, that one of the alternative routes that Hydro One is evaluating for Chatham x Lakeshore parallels Highway 401 for several kilometers, and that all routes would need to cross Highway 401. Given these interactions between the two projects, Paul stated that coordination between the two teams would be critical. Hydro One provided information on the project status and informed them that they will be kept apprised of events as they are planned, and stated that the Highway 401 Improvements project team could reach out to the Chatham x Lakeshore team to discuss at any time.
Ministry of Transportation of Ontario (MTO)	Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region)	2020-03-05	Email	Hydro One informed the Ministry of Transportation, Ontario of the upcoming Community Information Centre. Hydro One also informed the Ministry of Transportation of overlapping study areas and that Hydro One reached out to the project team to coordinate the planning of the respective projects.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-05	Email	Hydro One informed the Ministry of Transportation, Ontario and Stantec Consulting Ltd. group responsible for a separate project in the area (Highway 401 widening between Tilbury and London) of the upcoming Community Information Centres. Paul reiterated that the two projects had overlapping study areas, and that one of the alternative routes that Hydro One was evaluating parallels the 401 for several kilometers, and requested a separate call or meeting to discuss coordination between the two projects.
Ministry of Transportation of Ontario (MTO)	Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region)	2020-03-17	Email	Paul emailed the MTO to let them know that the upcoming CICs for the Chatham x Lakeshore line project had been cancelled due to ongoing concerns regarding COVID-19, and provided a copy of the CIC cancellation notice. Paul noted that it was still Hydro One's intent to host a forum, whether in person or online, in the coming months whereby members of the public and any interested parties could ask questions and discuss the project directly with the project team. Paul stated that he would provide details when they were available but that staff could reach out to him directly at any time to discuss the project.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-17	Email	Paul emailed the MTO 401 Improvements Project staff to let them know that the upcoming CICs for the Chatham x Lakeshore line project had been cancelled due to ongoing concerns regarding COVID-19, and provided a copy of the CIC cancellation notice. Paul noted that it was still Hydro One's intent to host a forum, whether in person or online, in the coming months whereby members of the public and any interested parties could ask questions and discuss the project directly with the project team. Paul stated that he would provide details when they were available but that staff could reach out to him directly at any time to discuss the project.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation of Ontario (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team) Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-31	Email	Hydro One sent an email to the Ministry of Transportation, Ontario and Stantec team working on the Highway 401 Tilbury to London project requesting for coordination between the two project teams as there is overlap between the projects. Hydro One sent the Notice of Commencement letter, flyer and map and requested for a meeting.

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Kane Erickson - Ministry of Transportation of Ontario (MTO) ((Stantec) - MTO 401 Improvements Project Team) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation of Ontario (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team) Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-03-31	Email	Hydro One received a response from the Ministry of Transportation, Ontario and Stantec team working on the Highway 401 Tilbury to London project to confirm that they are reviewing Hydro One's submissions for the new transmission line and that they would welcome the opportunity to coordinate with Hydro One. A request was made for future correspondence to be sent to Natalia Bartos and the contacts included in the email.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Kane Erickson - Ministry of Transportation of Ontario (MTO) ((Stantec) - MTO 401 Improvements Project Team) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation of Ontario (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team)	2020-04-01	Email	Hydro One informed the Ministry of Transportation, Ontario and Stantec project team of a series of multi-stakeholder workshops. Hydro One requested for the two different project teams to have discussions outside of the workshop forum. Hydro One also informed them that Dawn Irish will be included on major updates but removed from day-to-day communications.
Ministry of Transportation of Ontario (MTO)	Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region)	2020-04-27	Email	Hydro One sent the Notice of Virtual Information Session to staff from the Ministry of Transportation, Ontario. Hydro One informed them that the Ministry of Transportation/Stantec project team working on the Highway 401 expansion between Tilbury and London has been notified and moving forward, it is expected that coordination will occur directly with that team while providing major updates to the Ministry. Hydro One also indicated a Technical Advisory Committee will be formed in the upcoming months.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) MTO Highway 401 Tilbury to London Project Inbox - Ministry of Transportation of Ontario (MTO) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to the Stantec and Ministry of Transportation, Ontario team responsible for the Highway 401/Tilbury to London project.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-05-26	Email	Hydro One invited representatives of the Ministry of Transportation, Ontario (MTO) and Stantec to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-05-27	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) (Natalia Bartos) and Stantec (Adam Barg) project team to inform them that they are welcome to forward any comments or call, as a formal response to the Notice of Commencement may not have been received from the MTO and Stantec project team. Hydro One asked that they confirm their participation in the Technical Advisory Committee.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Jasan Boparai - Ministry of Transportation of Ontario (MTO) (Manager (A) - Engineering, Western Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-06-01	Email	Hydro One followed up with the Ministry of Transportation and Stantec project team requesting confirmation of participation in the Technical Advisory Committee as materials will be sent to participating members.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-06-03	Email	Hydro One confirmed with Natalia Bartos of the Ministry of Transportation, Ontario (MTO) that the project team is available for a conference call to discuss coordination between the MTO/Stantec project and Hydro One project. Hydro One indicated they are interested in learning more about future plans for additional lanes east of Tilbury. Hydro One informed Ms. Bartos that a separate Hydro One team is responsible for impacts to existing assets and provided the contact information to the secondary team. Hydro One also invited the MTO/Stantec project team to participate in the Technical Advisory Committee.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-06-04	Invitation	Natalia Bartos of the Ministry of Transportation, Ontario (MTO) requested that Hydro One add the other team involved in the Bloomfield interchange project in the study area be included in the upcoming meeting as they would like to confirm a possible tower relocation. Ms. Bartos confirmed she will ensure the appropriate MTO individuals are in attendance of the meeting.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-06-04	Email	Hydro One informed Natalia Bartos of the Ministry of Transportation, Ontario that they have reached out to the separate project team and have confirmed their availability to attend part of the upcoming meeting. Hydro One noted they will update the meeting agenda. Hydro One requested confirmation from Ms. Bartos regarding her participating in the Technical Advisory Committee.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-06-04	Email	Natalia Bartos of the Ministry of Transportation, Ontario confirmed that Michael Kilgore will participate in the Technical Advisory Committee.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-06-04	Email	Hydro One provided Michael Kilgore of the Ministry of Transportation, Ontario with the initial evaluation criteria and informational video for the Technical Advisory Committee. Hydro One noted they will send the conference call information and the survey.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Kevin Welker - Ministry of Transportation of Ontario (MTO) (MTO 401 Improvements Project Team (Stantec)) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-06-08	Email	Paula Hohner of Stantec forwarded the Notice of Study Commencement for the Ministry of Transportation, Ontario project for which Stantec was retained at Dingman Drive over Highway 401 in the City of London.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-19	Email	Hydro One emailed Michael Kilgore from the Ministry of Transportation, Ontario, as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-19	Email	Michael Kilgore of the Ministry of Transportation, Ontario (MTO), informed Hydro One by email that he left a voicemail requesting clarification on the survey for the Technical Advisory Committee and requested a call back. Mr. Kilgore noted that it is his preference to submit a formal letter to ensure Hydro One meets all of MTO's criteria. Mr. Kilgore requested to be copied on the design progress and also noted that the design of the route will need to be approved prior to permit approval from MTO.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-22	Email	Hydro One emailed Michael Kilgore of the Ministry of Transportation, Ontario (MTO), and provided a response to his earlier email regarding the survey. Hydro One noted that participation in the Technical Advisory Committee (TAC) is optional and stakeholders may provide their comments directly to Hydro One and/or through the TAC. Hydro One informed Mr. Kilgore that they understand the importance of coordinating with MTO and the Highway 401 project team and requested MTO's design guidelines and other comments in a formal response. Hydro One offered to discuss further and noted the upcoming conference call between Hydro One and the MTO Highway 401 project team.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-24	Email	Michael Kilgore of the Ministry of Transportation, Ontario, requested the map of the proposed routes for the new transmission line from Hydro One.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-24	Email	Hydro One shared a map of the route alternatives with Michael Kilgore of the Ministry of Transportation, Ontario, as requested. Hydro One also provided the link to the project website and noted that the website contains an interactive GIS-based mapping tool.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-26	Email	The Ministry of Transportation emailed Hydro One to inform that their feedback on the evaluation criteria may come at a later date than the June 29, 2020 deadline.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-06-26	Email	Hydro One and the Ministry of Transportation Ontario discussed the deadline for sharing feedback on the evaluation criteria. Hydro One noted that it would be okay to received comments from the Ministry at a later date so long as the two parties have time to coordinate and discuss.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-07-02	Email	The Ministry of Transportation Ontario emailed Hydro One and shared a document containing their comments on the project, requirements Hydro One is expected to adhere to and additional documentation requirements for the permit application.

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Kevin Welker - Ministry of Transportation of Ontario (MTO) (MTO 401 Improvements Project Team (Stantec)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Vincent Lucci - Ministry of Transportation of Ontario (MTO) (MTO Highway 401 Improvements Project Team (Stantec))	2020-07-07	Email	Stantec (consultant Ministry of Transportation Ontario) sent an email containing the preliminary plans/profiles for discussion purposes for a call scheduled for July 8, 2020, regarding the Bloomfield Road interchange and potential interactions with existing Hydro One Transmission assets.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-07	Email	Hydro One emailed the Ministry of Transportation Ontario to enquire about the following: 1. Whether there are planned expansions for the MTO right-of-way in the Chatham to Lakeshore section of 401? 2. Is there a plan for adding additional interchanges in the Chatham to Lakeshore section of 401? 3. Is there a plan for modifying existing interchanges (in addition to the Bloomfield Rd interchange) in the Chatham to Lakeshore section of 401?
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-08	Email	The Ministry of Transportation Ontario (MTO) emailed Hydro to provide their minimum vertical clearances for high voltage lines. The MTO attached the OPSD requirements and requested that Hydro One ensure that the design the guidelines are incorporated and identified accordingly on any drawings submitted.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-08	Email	Hydro One replied to the Ministry of transportation regarding project coordination along the 401. Hydro One stated that in the design of the line, attention will be paid at the crossings to ensure the clearance requirements by MTO and Hydro One are both met.
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-08	Email	Hydro One followed up with the Ministry of Transportation and thanked them for their input and participation for a videoconference meeting held on July 8, 2020.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-08	Email	The Ministry of Transportation Ontario (MTO) emailed Hydro One to provide information on the minimum requirements for vertical clearance and noted that where possible it should be exceeded to accommodate locations where Highway grade changes are possible in the future, as well as achieve Occupational Health and Safety clearances where MTO maintenance/construction activities will be required (structure removal/installation, electrical equipment at interchange/intersection).

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-08	Email	Hydro One replied to the Ministry of Transportation Ontario regarding their comments on vertical clearances for the high voltage lines. Hydro One shared an image of the column that would be applicable as minimum vertical clearances.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Kevin Welker - Ministry of Transportation of Ontario (MTO) (MTO 401 Improvements Project Team (Stantec)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-08	Phone	<p>Hydro One CxL project team had a conference call with the MTO SW Region Corridor staff as well as the MTO 401 Tilbury-London widening project team.</p> <p>Both teams gave an overview of their respective projects, including scope and anticipated construction timelines. The MTO team confirmed that currently, they do not have plans to widen the 401 right-of-way (ROW), as lanes will be added towards the centre median, but stated that any future expansion to 10+ lanes would require widening of the 401 ROW. MTO also confirmed that currently, they were not planning to add any new 401 interchanges, and that they were currently not planning to alter any interchanges in the area other than at Bloomfield Rd, and potentially Queen's Line near Tilbury.</p> <p>Hydro One asked for some clarification on some of the comments received from MTO, including the comments related to perpendicular crossings and that parallel installations would not be permissible. MTO stated that perfectly perpendicular crossing angle is not required, however it minimizes the interaction between the two entities when MTO must do maintenance on the highway. Having the line close to interchanges and underpass crossing are not recommended by MTO.</p> <p>MTO requested for more information on the Hydro One crossings. Hydro One to send the information.stated that details of crossings would likely not be completed until after a preferred route is selected, but take the request back and would see what information could be provided at this point in the project.</p> <p>MTO staff confirmed that if Hydro One is paralleling the 401, the minimum setback is 14 m from the outermost point of Hydro One's right of way to MTO's right of way, and that any works within 400 m of the 401 is within MTO permit controlled area.</p> <p>The latter part of the meeting focused on discussions relating to MTO's planned work at the Bloomfield Rd interchange, and potential conflicts/restrictions due to the existing 230 kV transmission lines.</p>
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-07-21	Email	Hydro One shared the minutes for a meeting held on July 8, 2020, with participants by email.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-04	Email	Natalia Bartos of the Ministry of Transportation, Ontario, provided comments on the draft meeting minutes for the MTO/Stantec and Hydro One meeting held on July 8, 2020.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-04	Email	Natalia Bartos of the Ministry of Transportation, Ontario (MTO), requested additions to the agenda for an upcoming MTO/Stantec and Hydro One discussion.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Kevin Welker - Ministry of Transportation of Ontario (MTO) (MTO 401 Improvements Project Team (Stantec)) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-07	Email	Shane Vanhell from Stantec informed Hydro One that they have removed the Hydro One contact from the Dingman Drive Underpass Replacement project mailing list and have updated the contact information as provided. Mr. Vanhell informed Hydro One that they will continue to send notices and updates related to the Highway 401 expansion project.
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-11	Email	Hydro One informed Natalia Bartos of the Ministry of Transportation, Ontario, that an updated meeting invitation with the revised agenda was distributed. Hydro One noted that they hoped to discuss the setback request in more detail during the upcoming call and requested more details on item #2.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-11	Email	Hydro One emailed Shane Vanhell of Stantec and thanked him for the update regarding the Stantec/Ministry of Transportation, Ontario project contact list. Hydro One requested that updates be circulated to one of their staff members.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-13	Email	Hydro One emailed participants of the meeting with the Ministry of Transportation, Ontario and shared the finalized meeting notes.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation of Ontario (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team)	2020-08-13	Email	Hydro One was copied on an email from the Ministry of Transportation, Ontario (MTO) providing direction and confirmation of the logistics to Stantec for an upcoming meeting with the MTO/Stantec project team and Hydro One.
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-13	Meeting	Follow-up meeting between the HONI CxL team and the MTO 401 widening team. Topics of discussion included: 1. MTO setback - MTO clarified that total setback required between ROWs was 24m 2. Discussion of MTO comments and concerns regarding continued operation of Highway 401 3. Discussion of how best to avoid potential conflicts at crossings and interchanges 4. Identifying Hydro One restrictions/requirements re: future maintenance work or access. Hydro One clarified that in most cases, the ROW is sufficient for work space (with some exceptions) The two teams committed to reconvene again later in the fall.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-20	Email	Hydro One emailed the draft minutes for the conference call held with the Ministry of Transportation, Ontario to attendees. Hydro One also provided a list of possible times for the next conference call.
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-21	Email	The Ministry of Transportation, Ontario (MTO) emailed Hydro One and indicated they do not have any comments on the minutes. Availability for an upcoming conference call was also provided.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Kevin Welker - Ministry of Transportation of Ontario (MTO) (MTO 401 Improvements Project Team (Stantec)) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-24	Email	Stantec emailed Hydro One to confirm that the requested contact has been added to the Highway 401 Expansion Project from Tilbury to London.
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-08-27	Email	A representative of the MTO emailed Hydro One to request a revision to the meeting minutes. Availability for an upcoming meeting was also provided.
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-09-03	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) to follow up on a comment from a call that morning regarding the feasibility of a new transmission line crossing of the Bloomfield interchange. Hydro One requested that this be confirmed in writing for the Record of Consultation and for a rationale to be provided if possible.

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team)) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region) Nicholas Smithson - Ministry of Transportation of Ontario (MTO) (Transportation Technologist (Stantec) - MTO 401 Improvements Project Team) Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team) Vincent Lucci - Ministry of Transportation of Ontario (MTO) (MTO Highway 401 Improvements Project Team (Stantec))	2020-09-04	Phone	<p>Hydro One staff from the Chatham x Lakeshore project team, as well as Hydro One staff that review 3rd party project submission, attended a conference call hosted by the MTO to discuss the plans for the Bloomfield Rd 401 interchange and how they relate to the CxL project as well as nearby existing 230 kV lines.</p> <p>Hydro One staff gave an overview of the status of CxL project, including past discussions with MTO re: setbacks, routes that may cross the Bloomfield interchange.</p> <p>A brief discussion was had regarding an MTO question about the possibility of obtaining line outages on the existing 230 kV lines south of the 401. Hydro One staff confirmed that the route option 2C being considered through the CxL project is on the North side of 401, and provided rationale (looked at South side, but were limited by the existing 230 kV line and adjacent built-up areas and other constraints)</p> <p>MTO staff stated that if route 2C is selected, MTO's 401 work would take priority as far as obtaining permits, etc., for time & space separation during construction. MTO clarified the Bloomfield interchange timeframe, with potential construction start in 2023 (tentative). Hydro One staff stated that the CxL line was tentatively planned to be in service in 2024, but hoping to accelerate if possible.</p> <p>MTO staff gave a brief overview of plans for Bloomfield Rd interchange (current and final stage) and noted the plans have been approved by MTO Sr. Management, and pointed to areas where new ramps will cross below existing 230 kV lines. Hydro One staff provided some clarity on how conductor heights are variable with load, and that information provided to MTO represents a "worst-case (lowest line sag) scenario.</p> <p>The two teams had a discussion on clearance between the existing 230 kV conductors and proposed Bloomfield Rd interchange, and the need for additional clearances to meet Hydro One design clearance standards. Hydro One staff clarified that Hydro One design clearances were 7.3m, and that this had been noted in past meetings and respective minutes.</p> <p>Hydro One staff clarified that the new CxL line will not make existing lines redundant. Existing line will be needed to operate as it is today, even once new CxL line is needed.</p> <p>Some preliminary options were discussed on how additional clearance between the MTO's Bloomfield interchange proposal could be made. MTO staff stated that their current design plans were constrained and likely could not significantly change. Hydro One staff stated that changes to the existing 230 kV lines may trigger Class EA or other planning requirements.</p> <p>MTO staff stated that they did not feel that route 2C for the CxL project crossing the Bloomfield Road interchange was feasible- Hydro One</p>
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-09-15	Email	<p>The Ministry of Transportation, Ontario (MTO) emailed Hydro One and provided a letter clarifying MTO's comments and concerns regarding potential conflicts with route alternatives 2C, 1C and 1D.</p>
Ministry of Transportation of Ontario (MTO)	Chris Dixon - Ministry of Transportation of Ontario (MTO) (Project Manager, Planning and Design) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Heather Mitchell - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Acting)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-09-28	Email	<p>Hydro One emailed the Ministry of Transportation, Ontario (MTO) and provided a response to MTO's inquiry regarding downed conductors and the impact to traffic. Hydro One also requested a follow-up call to discuss the project and provided their availability. Hydro One also acknowledged the letter provided by MTO clarifying their requirements and position on a few issues. Hydro One noted they will add the response to the meeting notes (attached to the email) if agreeable and that they will follow up directly regarding the letter.</p>
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-09-28	Email	<p>Hydro One emailed the Ministry of Transportation, Ontario (MTO) regarding MTO's letter of September 15th. Hydro One noted that in keeping with the Provincial Policy Statement and suggestions/requests from other stakeholders and members of the public, the identified routes will still be considered, provided they can satisfy the requirements and constraints raised by MTO. Hydro One has been investigating minor refinements to these routes. Hydro One requested input on the proposed route 2 (all variations) and feasibility regarding the potential crossings of Highway 77 and Gracey Sideroad, and provided figures and the link to the interactive map. Hydro One also requested clarity on the "legal agreement" and for availability for the next conference call.</p>
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-02	Email	<p>Hydro One emailed the Ministry of Transportation, Ontario (MTO) to follow-up on a previously sent email regarding Hydro One's response to MTO's September 15th letter. Hydro One requested MTO's availability for a follow-up meeting/conference call.</p>

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-05	Email	The Ministry of Transportation, Ontario (MTO) emailed Hydro One and provided availability for a conference call. It was noted that the comments on the proposed alignments will be reviewed and comments will be sent to Hydro One.
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-05	Email	The Ministry of Transportation, Ontario emailed Hydro One to confirm availability for a meeting.
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-06	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) to thank them for confirming their availability for a meeting and to note that they will send out the meeting invitation.
Ministry of Transportation of Ontario (MTO)	Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-14	Phone	<p>Hydro One staff presented refinements to the CxL route alternatives that had been made to address prior comments from MTO, including at the Bloomfield Rd interchange.</p> <p>MTO staff were appreciative of the refinements, but noted that there was still a conflict at Charing Cross Rd., which does not have an interchange but rather an underpass ramp where MTO has a limited interest north to Doyle Line. MTO asked Hydro One staff to consider further refinement at Charing Cross Rd, to bring the routes north of Doyle Line.</p> <p>Hydro One staff reiterated that they wished to discuss some other route crossings of underpass embankments with MTO, and confirm that these crossings were indeed viable from MTO's perspective, given the comments received in the letter of Sept. 15. In particular, Hydro One wanted the MTO to review the crossing of Highway 77 just south of the 401, and a crossing of the Gracey Sideroad underpass embankment, both of which formed part of Route 2 (all variations, A, B and C). Hydro One staff noted that in both cases, the crossing was only over the toe of the embankment, and as such had limited risk of a future grade change requiring additional clearances, although Hydro One staff also noted that if MTO requested, they would consider committing to some additional vertical conductor clearances at these crossings if necessary. Hydro One staff also noted that route 2C crossed underpass embankments at Merlin Rd and Drake Rd.</p> <p>MTO staff stated that they did not see any immediate concern with the Highway 77 crossing, and asked if the crossing at Gracey sideroad could be shifted slightly south, to avoid the embankment and also cross the 401 corridor on a straightaway section rather than the cusp of a turn. Hydro One staff stated that they would consider this.</p> <p>MTO Staff requested approximate distances from the proposed routes to the 401 corridor at each underpass embankment crossing, Hydro One staff agreed to provide these distances.</p> <p>MTO staff stated that due to an internal directive, the MTO Regional Director would need to approve any facilities planned along the 401 corridor, and that they were preparing a briefing for the Regional Director regarding the CxL project and route alternatives.</p> <p>Hydro One staff asked for this to be done as soon as possible, as the team planned to select a preliminary preferred route by the end of 2020 and needed to know that the route selected would be considered feasible from MTO's perspective. In this briefing, Hydro One staff asked for the distinction to be made clear between the different routes and variations, particularly Route 2 (where variations 2A and 2B have some limited parallel distance/potential embankment crossings along the 401 corridor, but variation 2C parallels the 401 for much greater distance). MTO staff agreed that this was a reasonable distinction and stated that they would attempt to brief the regional director and clarify whether</p>

Organisation	Stakeholders	Date	Type of communication	Summary
				any routes were deemed feasible/not feasible from MTO's perspective within the coming 2 weeks. All staff agreed to a subsequent conference call during the week of October 26.
Ministry of Transportation of Ontario (MTO)	Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-15	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and provided the draft notes from a call held the previous day. Hydro One followed up on action items from the call and provided availability for the next meeting.
Ministry of Transportation of Ontario (MTO)	Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-21	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) to follow up on the previously sent email and to confirm whether there are any updates from the briefing to the MTO Regional Director. Hydro One requested confirmation of availability for a discussion and if MTO had any comments on the draft meeting notes.
Ministry of Transportation of Ontario (MTO)	Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London)) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-26	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and inquired whether there were any updates from MTO's briefing of the regional director. Hydro One also requested availability for the next follow-up meeting and if there were any comments on the draft meeting notes.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-26	Email	The Ministry of Transportation, Ontario (MTO) emailed Hydro One and indicated they have no comments on the draft meeting minutes. MTO informed Hydro One they have not yet met with their director/senior management and inquired whether they should wait until they receive direction from MTO senior management before the next meeting. MTO also inquired whether Hydro One had other items to discuss.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team))	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Transportation of Ontario (MTO)	Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London))	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Transportation of Ontario (MTO)	Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London))	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Transportation of Ontario (MTO)	Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Transportation of Ontario (MTO)	Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ministry of Transportation of Ontario (MTO)	Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Jodie Lucente - Ministry of Transportation of Ontario (MTO) (Senior Project Manager (A) - West Operations) Kevin DeVos - Ministry of Transportation of Ontario (MTO) (Head (A) - Corridor Management, West Region) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Ryan Mentley - Ministry of Transportation of Ontario (MTO) (Corridor Management Planner (A) - West Operations)	2020-10-27	Email	The Ministry of Transportation, Ontario (MTO), emailed Hydro One and thanked them for providing information about the open house. The MTO contact informed Hydro One of their change in role and to forward future circulations to the identified staff members.
Ministry of Transportation of Ontario (MTO)	Allan Hodgins - Ministry of Transportation of Ontario (MTO) (Technical Services Officer - Corridor Management, Engineering Office, West Region (London)) Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting)) Jodie Lucente - Ministry of Transportation of Ontario (MTO) (Senior Project Manager (A) - West Operations) Kevin DeVos - Ministry of Transportation of Ontario (MTO) (Head (A) - Corridor Management, West Region) Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Ryan Mentley - Ministry of Transportation of Ontario (MTO) (Corridor Management Planner (A) - West Operations)	2020-10-27	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and confirmed that future notices will be forwarded to the indicated contacts and the MTO contact removed from the distribution list.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-10-28	Email	Hydro One emailed the Ministry of Transportation, Ontario (MTO) and indicated that if more time is required to obtain clarity, then they can have another touchpoint in a couple of weeks. Hydro One requested for more context on a comment made during the previous meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-11-13	Email	Hydro One emailed the Ontario Ministry of Transportation (MTO) and followed up to inquire whether MTO could provide updates on the discussions with MTO regional management. Hydro One requested availability for another touchpoint and provided notes from the previous conference call.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-11-17	Phone	<p>Paul called Michael at the MTO corridor management section to follow up on his email regarding the Chatham x Lakeshore project, including whether there were any updates from the briefing of the MTO regional director and whether it was appropriate to arrange a follow up discussion between Hydro One and MTO staff.</p> <p>Michael replied that he would follow up with the MTO staff working on the Highway 401 improvements project, and that he believed that MTO review of the CxL project may not need to escalate to the director level. He stated that he would follow up with Paul as appropriate.</p> <p>Paul asked Michael about the legal agreement that MTO mentioned would be required in their formal comments provided in September. Michael replied that this would likely be a fairly standard agreement focusing on highway crossings, and would be discussed closer to detailed design. Michael asked whether such agreements could be reviewed and signed digitally or if hard copies were required; Paul stated that in his experience, digital copies were fine, but he would inform Michael if he became aware that hard copies were required.</p>
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-11-30	Email	Hydro One emailed the Ministry of Transportation to follow up on whether they had any updates. Hydro One offered to have a call and it was also noted that they are beginning the process of evaluating the route alternatives.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2020-12-04	Phone	Paul left a voicemail for Michael Kilgore to follow up and see if there were any further comments from MTO (specifically from MTO regional/district management) and reiterated his offer to set up a conference call or webex to discuss further
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-12-07	Email	Hydro One emailed the Ministry of Transportation (MTO) to confirm whether there were any updates from MTO's management briefings on the project or whether they would like to have a call.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-12-07	Email	The Ministry of Transportation (MTO) emailed Hydro One and provided additional comments and clarification regarding required setbacks from the 401 corridor, and setbacks and vertical clearances at various underpass ramps. It was noted that these comments will be required in addition to the previously provided comments. MTO also attached documents providing additional information.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2020-12-07	Email	Hydro One emailed the Ministry of Transportation and confirmed they will review the additional comments and let them know if they have any further questions.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-01-21	Email	Hydro One emailed the Ontario Ministry of Transportation and requested a meeting to brief the MTO on the preferred route, and to discuss next steps for the project.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-01-25	Email	The Ontario Ministry of Transportation emailed Hydro One regarding availability for an upcoming meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-01-25	Email	The Ontario Ministry of Transportation emailed Hydro One and shared availability for an upcoming meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-01-25	Email	The Ontario Ministry of Transportation emailed Hydro One regarding logistics for an upcoming meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-01-26	Email	Hydro One emailed the Ontario Ministry of Transportation regarding logistics for an upcoming meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-02-02	Meeting	<p>Hydro One held a webex meeting with MTO staff to provide an early briefing on the preferred route for the Chatham x Lakeshore project, as requested. Hydro One staff informed MTO of the preferred route and briefly described how the MTO's previous input had helped to inform the route evaluation and selection.</p> <p>MTO staff were appreciative of the briefing and did not raise any immediate concerns about the preferred route, although MTO staff did note that early discussions/review once more detailed design information was available would be helpful, specifically in the area of the crossing of Highway 77. MTO staff also stated that they would inform their management team of the preferred route.</p> <p>Hydro One staff gave a brief overview of anticipated project timelines and next steps, and stated that MTO staff would receive regular Class EA and project updates going forward.</p>
Ministry of Transportation of Ontario (MTO)	Dawn Irish - Ministry of Transportation of Ontario (MTO) (Manager - Environmental Policy Office)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Paula Hohner - Ministry of Transportation of Ontario (MTO) (Senior Environmental Planner (Stantec) - MTO 401 Improvements Project Team)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Adam Barg - Ministry of Transportation of Ontario (MTO) (Principal, Transportation (Stantec) - MTO 401 Improvements Project Team))	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Malvika Rudra - Ministry of Transportation of Ontario (MTO) (Head, Corridor Management (Acting) - West Region (London))	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Desmond Grant - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer (Acting))	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-03-22	Email	Hydro One emailed the Ontario Ministry of Transportation (MTO) to follow up on whether there was any interest for another touchpoint on the project. Hydro One noted that they are beginning to initiate the design work on the new line and they have retained two firms to begin work on the design. Hydro One informed MTO that they have shared the comments and meeting notes with the firms but thought there might be an opportunity to discuss specific areas with MTO staff directly. Hydro One requested confirmation of availability.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-03-26	Email	Hydro One emailed the Ontario Ministry of Transportation regarding availability for a touchpoint and to discuss any specific input to incorporate into the design of the new transmission line.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-03-26	Email	Hydro One emailed the Ontario Ministry of Transportation and provided alternative availability for a touchpoint meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-03-29	Email	An Ontario Ministry of Transportation staff member emailed Hydro One and informed them that they are unavailable at the suggested dates.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-03-29	Email	Hydro One emailed the Ontario Ministry of Transportation and requested available dates for the meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-04-07	Email	A staff member from the Ontario Ministry of Transportation emailed Hydro One and provided their availability for the upcoming meeting.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-04-07	Email	Hydro One emailed the Ontario Ministry of Transportation and confirmed availability. Hydro One noted that the meeting invitation will be sent out shortly.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-04-15	Email	Hydro One emailed the Ontario Ministry of Transportation (MTO) and provided an overview on the new firms and their staff who will attend the next touchpoint call. Hydro One informed MTO that these firms are part of the Early Contractor Involvement model for the project.
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-04-19	Meeting	<p>Hydro One Project Delivery, Environment, and Real Estate staff, as well as representatives from the Owner's Engineer and Early Contractor Involvement (ECI) firms, met with MTO staff via webex to discuss next steps on the Chatham x Lakeshore project. The purpose of the meeting was to discuss key areas (e.g., Highway crossings) with MTO and ECI staff directly, such that any key considerations could be incorporated as early as possible in design.</p> <p>Discussion topics included key areas (401 crossing and Gracey Sideroad, Highway 77 crossing, Charing Cross- Chatham SS section), general requirements re: MTO Encroachment and Land Use permits, and overall timelines and next steps. No major concerns were raised, and MTO staff reiterated some key design details that would allow them to advance early review and comment.</p> <p>MTO staff took actions re: providing some additional information to Hydro One, and Hydro One staff took action to develop a first draft of a timeline and schedule for key milestones relating to MTO review and permitting for the project, which all parties could work towards going forward.</p>
Ministry of Transportation of Ontario (MTO)	Michael Kilgore - Ministry of Transportation of Ontario (MTO) (Corridor Management Officer, West Region) Natalia Bartos - Ministry of Transportation of Ontario (MTO) (Project Engineer - West Region)	2021-04-19	Email	Hydro One sent an email to the CxL project team and design consultants, and MTO staff, and shared the draft meeting notes and action items.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-01-28	Email	Hydro One sent Notice of Commencement to Ontario Clean Water Agency.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Ontario Clean Water Agency.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Ontario Clean Water Agency and indicated a forum will be held either in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-04-28	Email	Hydro One sent Susan Budden of the Ontario Clean Water Agency the Virtual Information Session Notice.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-05-26	Email	Hydro One invited Susan Budden of the Ontario Clean Water Agency to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-06-01	Email	Hydro One followed up with Susan Budden of Ontario Clean Water Agency to confirm participation in the Technical Advisory Committee as materials will be circulated to members.
Ontario Clean Water Agency	Dave Jubenville - Ontario Clean Water Agency (Regional Hub Manager, Essex Regional Hub Office)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.

Provincial Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ontario Clean Water Agency	Dave Jubenville - Ontario Clean Water Agency (Regional Hub Manager, Essex Regional Hub Office)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ontario Clean Water Agency	Susan Budden - Ontario Clean Water Agency (Business Development Manager, Essex Regional Hub Office)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Ontario Heritage Trust	Dawson Bridger - Ontario Heritage Trust (Manager, Public Education and Community Programs (A)) Kiki Aravopoulos	2020-07-13	Email	Golder Associated Ltd. thanked Kiki Aravopoulos and Dawson Bridger for their assistance regarding an inquiry on OHT cultural easements and plaques.
Ontario Heritage Trust	Kevin De Mille - Ontario Heritage Trust (Natural Heritage Coordinator)	2020-07-21	Email	Kevin DeMille of Ontario Heritage Trust (OHT) emailed Alisha Mohamed regarding her information request about OHT cultural easements and plaques within the Chatham to Lakeshore area. Mr. DeMille informed Ms. Mohamed that two easements are in Chatham-Kent. Mr. DeMille provided links to online databases and to the OHT's register.
Ontario Provincial Police (OPP)	Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-01-28	Email	Hydro One sent Notice of Commencement to Ontario Provincial Police.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-01-30	Email	Hydro One re-sent Notice of Study Commencement Letter and Map and previous email to Ontario Provincial Police (Facilities Section) follow email bounce back.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to the Ontario Provincial Police.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-03-17	Email	Hydro One informed the Ontario Provincial Police of the cancellation of the upcoming Community Information Centres and sent the Cancellation Notice. Hydro One also informed the Ontario Provincial Police that they will remain available to respond to questions.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section) Mike Bradley - Ontario Provincial Police (OPP) (Sergeant) Pat Lenehan - Ontario Provincial Police (OPP) (Sergeant)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to the Ontario Provincial Police.
Ontario Provincial Police (OPP)	Jennifer Davey - Ontario Provincial Police (OPP) (OPP Facilities Section)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Ontario Provincial Police (OPP)	Mike Bradley - Ontario Provincial Police (OPP) (Sergeant)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Chatham-Kent Fire and Emergency Services Department	Bob Crawford - Chatham-Kent Fire and Emergency Services Department	2020-01-28	Email	Hydro One sent Notice of Study Commencement Letter and Map to Chatham-Kent Fire and Emergency Services Department.
Chatham-Kent Fire and Emergency Services Department	Bob Crawford - Chatham-Kent Fire and Emergency Services Department	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Chatham-Kent Fire and Emergency Services.
Chatham-Kent Fire and Emergency Services Department	Bob Crawford - Chatham-Kent Fire and Emergency Services Department	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Chatham-Kent Fire and Emergency Services Department and indicated a forum will be held in person or online, with details being provided as they become available. Hydro One confirmed the project team is available to discuss the project.
Chatham-Kent Fire and Emergency Services Department	Bob Crawford - Chatham-Kent Fire and Emergency Services Department	2020-04-28	Email	Hydro One sent Bob Crawford of the Chatham-Kent Fire and Emergency Services Department the Virtual Information Session Notice.
Chatham-Kent Fire and Emergency Services Department	Bob Crawford - Chatham-Kent Fire and Emergency Services Department	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Chatham-Kent Fire and Emergency Services Department	Bob Crawford - Chatham-Kent Fire and Emergency Services Department	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-01-13	Meeting	A meeting was held with Warden McNamara and the CAO of Essex County in January 2020 to provide further information on project details, route alternatives, project schedule and consultation opportunities. Questions and comments for the project arose, including route considerations, County plans and co-ordination. It is noted that Essex County requested GIS maps to overlay information.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-01-17	Email	Hydro One followed up on a meeting held with Warden McNamara and CAO Maisonville from the County of Essex and provided copies of the Notice of Commencement, briefing deck outlining project information and timelines, Notice of Commencement flyer and detailed maps.
County of Essex	Jane Mustac - County of Essex (Director of Infrastructure)	2020-01-28	Email	Hydro One sent Notice of Commencement to County of Essex.
County of Essex	Mary Birch - County of Essex (Director of Council and Community Services/Clerk)	2020-01-28	Email	Hydro One sent Notice of Commencement to County of Essex.
County of Essex	Gary McNamara - County of Essex (Warden) Katherine Hebert Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-02-27	Email	Hydro One responded to comments from CAO Maisonville from the County of Essex and confirmed that the initial project notification was sent to the County in January 2020. Hydro One requested for the contact information of additional County staff members should they wish to receive future correspondence. Hydro One confirmed with the CAO that the Community Information Centres will be held week of March 23, 2020 and indicated invitations will be sent the next week. Hydro One also informed the CAO of the technical workshops.
County of Essex	Gary McNamara - County of Essex (Warden) Katherine Hebert Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-03-03	Email	Hydro One sent Notice of Community Information Centre invitation and newspaper ad to Warden McNamara and CAO Maisonville of the County of Essex.
County of Essex	Jane Mustac - County of Essex (Director of Infrastructure) Mary Birch - County of Essex (Director of Council and Community Services/Clerk)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to the County of Essex.
County of Essex	Gary McNamara - County of Essex (Warden) Katherine Hebert Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-03-17	Email	Hydro One informed Warden McNamara and CAO Maisonville of the County of Essex of the cancellation of the upcoming Community Information Centres due to the COVID-19 recent public health developments. Hydro One informed the Warden and CAO that they will continue to answer questions and will circulate the cancellation of the information centres.
County of Essex	Jane Mustac - County of Essex (Director of Infrastructure) Mary Birch - County of Essex (Director of Council and Community Services/Clerk)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the County of Essex and informed them that the project team will remain available to discuss the project.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-04-20	Email	Hydro One sent a notice for the virtual Community Information sessions in May 2020 to Warden McNamara and Chief Administrative Officer for the County of Essex.
County of Essex	Jane Mustac - County of Essex (Director of Infrastructure) Mary Birch - County of Essex (Director of Council and Community Services/Clerk)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Jane Mustac and Mary Birch of the County of Essex.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-05-12	Email	Hydro One sent a reminder to Warden McNamara and Robert Maisonville (Chief Administrative Officer) for the County of Essex of the the virtual information sessions.
County of Essex	Jane Mustac - County of Essex (Director of Infrastructure) Mary Birch - County of Essex (Director of Council and Community Services/Clerk)	2020-05-26	Email	Hydro One invited representatives of the County of Essex to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development) Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-05-27	Email	Sumaiya Habiba of the County of Essex confirmed attendance for the Technical Advisory Committee (TAC) and indicated they will be the primary contact for the County of Essex.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development) Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-05-28	Email	Hydro One thanked Sumaiya Habiba of the County of Essex for confirming their participation and noted that they will send more information. Hydro One indicated that the project team is available to respond to questions. Hydro One requested information on anything within the County of Essex that they should be made aware of.
County of Essex	Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-06-01	Email	Hydro One informed Robert Maisonville of the County of Essex that other staff members were invited to participate in the Technical Advisory Committee (TAC). Hydro One provided an overview of the TAC and next steps.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-03	Email	Hydro One followed up with Sumaiya Habiba of the County of Essex to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will send the conference call information for the two discussions and the survey.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development) Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-05	Email	Sumaiya Habiba of the County of Essex thanked Hydro One for the Technical Advisory Committee information.

Organisation	Stakeholders	Date	Type of communication	Summary
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
County of Essex	Gary McNamara - County of Essex (Warden) Katherine Hebert	2020-06-17	Email	Hydro One emailed Warden Gary McNamara from the County of Essex and requested an opportunity to have a call in order to provide a project status update.
County of Essex	Robert Maisonville - County of Essex (Chief Administrative Officer) Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-19	Email	Hydro One emailed Sumaiya Habiba of the County of Essex as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-25	Email	Hydro One shared a reminder with the County of Essex to complete a survey to gather feedback on the virtual workshops.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-06-25	Email	Hydro One shared a reminder with the County of Essex to complete a survey to gather feedback on the virtual workshops. The County of Essex posed a few questions and shared what they believe is valuable to consider for the Chatham x Lakeshore Project. The County stated the following: -Major concern for all route options and their variations would be the impact to County Roads during the construction of the transmission lines as well as the Lakeshore Switching Station (i.e. road closures, truck routes) -The County would need further information on a timeline for construction and staging so that we can identify any conflicting/overlapping projects (County road 42, County road 46, HWY 77) that may be impacted - Hydro One will need to determine property impacts to business owners and residents within the County based on the preferred route selection Question: Has there been any changes to the construction start time of the Lakeshore switching station that was intended to start mid 2020 due to the Covid-19 pandemic?
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-06-25	Meeting	A call was held with Warden McNamara and CAO Maisonville of the County of Essex to provide an update on the project and feedback received to date. It was indicated that the County would share their comments through the technical advisory meeting. Suggested that Hydro One present to County Council in the Fall.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-06-26	Email	Hydro One emailed Warden McNamara and Robert Maisonville CAO at the County of Essex to thank them for meeting. Hydro One replied to a question asked during the meeting and clarified that construction is anticipated to begin in 2024 with the line expected to be in service by the end of 2025.
County of Essex	Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-07-03	Email	Hydro One emailed the County of Essex to provide answers to their questions and acknowledge their feedback. Hydro One noted : - The Chatham x Lakeshore project will involve a traffic management plan to address potential impacts to the road network, and existing entrances and access routes will be used where practical - The in-service date of 2023 represents the Lakeshore TS project as a whole (ie, both the Lakeshore SS and South Middle Road TS). - Lakeshore TS: Construction is expected to be from September 2020 till the end of 2021. Commissioning activities will be ongoing in 2022 till station is completely in service in June 2022 -Neither project has not been halted or slowed as a result of the COVID-19 pandemic.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville	2020-07-29	Email	A letter was sent to Warden McNamara and CAO Maisonville thanking Warden McNamara for meeting and Hydro One's commitment to working with the County.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development)	2020-08-11	Email	Hydro One emailed the County of Essex to reply to the County's previous email with comments on the project. Hydro One noted that the comments and Hydro One's responses will be documented in the Environmental Study Report and will be available for 30-day public review.
County of Essex	Krystal Kalbol - County of Essex (Manager, Transportation Planning & Development) Sumaiya Habiba - County of Essex (Environmental Assessment Coordinator)	2020-08-11	Email	The County of Essex emailed Hydro One and noted that they did not provide comments on the Environmental Assessment related to the transformer station and had no consultation with Hydro One on this through that process. The County of Essex noted they will be providing comments for the upcoming project moving forward.
County of Essex	Danielle Dunlop - County of Essex	2020-09-25	Email	Hydro One emailed the County of Essex to request a meeting with Warden McNamara and Council to provide an update on the project. Hydro One requested they be directed to the best contact to discuss the scheduling of the presentation.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-10-15	Email	Hydro One emailed Warden McNamara and CAO Maisonville of the County of Essex to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One indicated they will inform property owners by issuing an update through the project contact list, a mailed notice as well as two upcoming virtual engagement opportunities.
County of Essex	Gary McNamara - County of Essex (Warden) Robert Maisonville - County of Essex (Chief Administrative Officer)	2020-10-22	Email	Hydro One emailed Warden McNamara and CAO Maisonville of the County of Essex to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One notified members that feedback from TAC members will be reported in the Class Environmental Assessment record of consultation as a single entity and requested that any comments on behalf of their organization be emailed directly to Paul Dalmazzi. Hydro One will provide the TAC Workshop #1 summary report once completed and information on the second workshop.

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-06-17	Email	Hydro One emailed Jessie from the Municipality of Chatham-Kent to follow up on the possibility of having a call to provide a project status update. Hydro One asked if Mayor Canniff and Don Shropshire (CAO) are available to attend the call and confirmation of the status of the Council meetings.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-19	Email	Hydro One emailed representatives of the Municipality of Chatham-Kent as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-23	Email	Bruce McAllister of the Municipality of Chatham-Kent informed Hydro One that he has filled out the relevant sections of the Technical Advisory Committee survey. Mr. McAllister also indicated that Hydro One should give a brief overview presentation at the upcoming Chatham-Kent Council Meeting and noted that Councillors and the Mayor have been receiving calls from constituents about the project.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-24	Email	Hydro One thanked Bruce McAllister of the Municipality of Chatham-Kent for completing the Technical Advisory Committee survey and for his comments. Hydro One informed Mr. McAllister that his comments have been shared with another Hydro One staff member and that they had planned a delegation to Council in the spring before COVID-19 altered those plans. Hydro One informed Mr. McAllister that they are exploring opportunities to present at upcoming virtual council meetings.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-06-24	Email	Bruce McAllister of the Municipality of Chatham-Kent thanked Hydro One for the update regarding planned outreach with Council.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-06-30	Email	Hydro One emailed Mayor Canniff of Chatham-Kent to share the project website where residents can find the presentation materials from Hydro One's community information sessions.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-06-30	Email	Hydro One sent an email to Chatham-Kent's Mayor, Darrin Canniff and the CAO, Don Shropshire to follow up on a phone call that took place on June 30, 2020, with information regarding on-going consultation efforts, proposed route alternatives and variations, and growth and economic development.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-06-30	Phone	Hydro One had a meeting with Mayor Canniff and CAO Shropshire of the Municipality of Chatham-Kent to provide an update on the project and feedback received. Questions and comments were raised on the effects to agricultural operations, health and safety, property rights, consultation and the route alternatives. Hydro indicated they would share further information on consultation opportunities, the website URL, and evaluation of growth plans.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-07-06	Email	Hydro One emailed the administration staff of the Municipality of Chatham Kent to organize monthly meetings at the request of Mayor Canniff.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-10	Email	Hydro One emailed Mayor Canniff and CAO Don Shropshire, to follow up on an earlier discussion regarding setting up an additional consultation opportunity for interested community members.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-17	Email	Hydro One shared a letter from their Vice President of Stakeholder Relations with Mayor Canniff of the Municipality of Chatham-Kent as a follow up to his recent briefing with the Hydro One team. Hydro One offered to discuss any questions or items of interest.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-29	Email	Hydro One followed up on a phone conversation with Bruce McAllister and Don Shropshire of the Municipality of Chatham-Kent regarding the Municipality's growth plans and additional engagement opportunities. Hydro One noted that they will connect with Mr. McAllister with their team's contact details and that they would be please to present to Council once they have confirmed their availability. Hydro One noted they can draft a project update for Councillors to share.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-29	Phone	Spoke with Bruce and Don regarding the Chatham to Lakeshore Line project and setting up a meeting with the Municipality to discuss growth plans.
				During the call, Don provided further context regarding the anticipated growth in the Chatham-Kent community. He indicated that in recent years they have been seeing a steady rise in growth and are in a state of transition. As a part of the meeting that we are looking to set up, Don advised that Bruce will be the main contact who will indicate who should be at the table from the Municipality.
				They advised that they have had several discussions with the IESO, as a part of their meetings, and at the time, they discussed their anticipated growth and needs. Advised that they have approved an aggressive growth strategy. Bruce and Don asked what information they would need to provide or have available for the meeting between Hydro One and the Municipality to discuss their anticipated growth and future needs. We advised that we would get back to them with what information would be needed.
				Additionally, as a part of our conversation, we spoke about the potential for an additional engagement opportunity. Don advised that members of council have received feedback from the community and the item that is the most prevalent is the discussion regarding the use of the railway corridor as an additional route alternative.
				During this meeting, we discussed with Don and Bruce about presenting to Council and advised that we would get back to them about proceeding with a presentation on September 14th.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-07-31	Email	Hydro One emailed Bruce McAllister and Don Shropshire from the Municipality of Chatham-Kent requesting any plans, reports or forecasts regarding future growth and development planned for the municipality. Hydro One also confirmed their availability for the September 14th Council meeting. Hydro One will follow up about the proposed update for distribution and will reach out to the Clerk's office.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-08-04	Email	Mayor Canniff of the Municipality of Chatham-Kent emailed Hydro One and requested further consideration be given to using the old railway corridor. The Mayor referenced sections of the Provincial Policy Statement and requested further information on Hydro One's transmission line design as well as clarification on encroachments and system reliability. The Mayor also noted potential concerns regarding Alternative 2A and suggested further discussions.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-08-06	Email	Hydro One informed Don Shropshire, CAO of Chatham-Kent, that they are following up with Councillor Latimer to provide an update on conversations with local residents in the community. Hydro One requested Mr. Shropshire's availability to discuss hosting additional engagement opportunities.
Municipality of Chatham-Kent	Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services) Judy Smith - Municipality of Chatham-Kent (Director Municipal Governance/Clerk) Renee Handsor - Municipality of Chatham-Kent	2020-08-06	Email	Hydro One followed up with Cathy Hoffman of the Municipality of Chatham-Kent after a conversation. Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-09-29	Email	Hydro One emailed the Municipality of Chatham-Kent regarding a voicemail left by the Municipality and their concerns about Route Alternative 2A. Hydro One requested the Municipality's availability for a call.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-02	Email	Hydro One emailed the Municipality of Chatham-Kent regarding future growth areas. Hydro One noted that they will include a criterion for both existing and future (planned) land uses. Hydro One requested information (mapping, datasets or other information) on the Municipality's future land use plans to appropriately consider during the evaluation of routes. Hydro One indicated they would be happy to arrange a meeting to discuss.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Cathy Hoffman Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-03	Email	The Municipality of Chatham-Kent emailed Hydro One regarding availability for a conference call.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Cathy Hoffman - Municipality of Chatham-Kent (Chief Human Resource Officer and General Manager, Corporate Services) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-06	Email	Hydro One emailed the Municipality of Chatham-Kent regarding the scheduling of a conference call.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Cathy Hoffman Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-06	Email	The Municipality of Chatham-Kent emailed Hydro One to confirm availability for a meeting.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-06	Email	The Municipality of Chatham-Kent emailed Hydro One to confirm attendees for an upcoming meeting/conference call.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-06	Email	Hydro One emailed the Municipality of Chatham-Kent to thank them for the confirmation and to note the invitation would be sent shortly.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-07	Meeting	Hydro One informed Mayor Canniff and CAO of the Municipality of Chatham-Kent of the results of Hydro One's former rail corridor re-analysis. Hydro One committed to drafting formal communications to be sent to council.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-07	Meeting	Hydro One met with the Mayor and Chief Administrative Officer of the Municipality of Chatham-Kent. Hydro One provided a walkthrough of the railway corridor assessment and an overview of upcoming public engagement plans. Hydro One committed to sharing the presentation deck.

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-08	Phone	<p>Hydro One staff had a conference call with the Chatham-Kent Director of Planning Bruce McAllister and his staff to discuss the Chatham x Lakeshore project, and in particular some previous comments from Bruce relating to forecast growth to the southwest of Chatham. Bruce relayed some concerns regarding current and forecast growth in the southwest quadrant of Chatham, including areas identified as potential commercial/industrial land uses in the future. Bruce reiterated that most of the concerns revolved around sections of routes 2A and 2B.</p> <p>Hydro One and Dillon staff gave a quick rundown of the land use and planning information collected to date, which largely encompassed the information publicly available online, and stated that they were happy to take additional information into consideration, if Chatham-Kent planning staff could provide it. Bruce stated that some future growth information was not yet fully formalized or mapped out, but that he would review and provide information as appropriate. Paul confirmed that any info Bruce could provide would be incorporated into the route evaluation, through the "Future Land Uses" criterion.</p> <p>Bruce mentioned some other potential growth areas near Bloomfield Rd/401 area and south portion of Tilbury. He also asked whether the Hydro One team had encountered any other data gaps in the Chatham-Kent area, for example in collecting information on the natural environment features within the Municipality. Paul stated that they had collected available desktop information as well as conducting the natural environment field program, but had not received formal comments (beyond simple acknowledgement) from the Lower Thames Valley CA.</p> <p>On the topic of future growth, Paul and Mehrgan reiterated that while future land use information provided would be considered during the route evaluation and selection, that a 230 kV transmission line could be seen as a benefit to future energy-intensive land uses (via potential to connect a new step-down transformer station, if required in the future). Paul also noted the existing 115 kV transmission line which traverses built-up areas in Chatham was an example of how land use change around an existing transmission line can be successfully planned without conflicts, as long as the transmission line ROW is respected.</p>
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-08	Email	The Municipality of Chatham-Kent emailed Hydro One and Dillon Consulting Limited the requested land use information, including maps, a potential future growth location and a land use schedule.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-09	Email	Dillon Consulting Limited emailed the Municipality of Chatham-Kent to thank them for providing the additional information and for the call the day before.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-09	Email	Hydro One emailed the Municipality of Chatham-Kent to thank them for providing the additional information and for the call the day before.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-13	Email	Hydro One emailed Mayor Canniff of the Municipality of Chatham-Kent to thank him for the opportunity to meet and review the project team's findings of the reassessment of the railroad corridor. Hydro One thanked Mayor Canniff for both his and Council's feedback and shared a letter and presentation outlining the railroad analysis. Hydro One requested for this information to be distributed amongst Council and noted that they will be meeting with property owners and will discuss the findings at this time.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-14	Email	Hydro One emailed Mayor Canniff and staff of the Municipality of Chatham-Kent and shared a previously sent email with attachments for the railroad analysis. Hydro One noted the email had been sent to the general email address and they wanted to send to the direct accounts.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-15	Email	Hydro One emailed Mayor Canniff and the CAO of the Municipality of Chatham-Kent to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One indicated they will inform property owners by issuing an update to the contact list and at the two upcoming virtual engagement opportunities.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-22	Email	Hydro One emailed Mayor Canniff and CAO of the Municipality of Chatham-Kent to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) Renee Handsor - Municipality of Chatham-Kent	2020-10-23	Email	The Municipality of Chatham-Kent emailed Hydro One to thank them for sharing the upcoming public engagement events for the project.
Municipality of Chatham-Kent	Gabriel Clarke - Municipality of Chatham-Kent (Environmental Planner)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Jerry Corso - Municipality of Chatham-Kent (Manager Public Works)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Chris Thibert - Municipality of Chatham-Kent (Director Engineering)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Katerina Oliver - Municipality of Chatham-Kent (Drainage Superintendent)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Chatham-Kent	Tim Dick - Municipality of Chatham-Kent (Director, Drainage, Waste and Asset Management)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Stuart McFadden - Municipality of Chatham-Kent (Director, Economic Development Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Judy Smith - Municipality of Chatham-Kent (Director Municipal Governance/Clerk)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-30	Email	Hydro One emailed Mayor Canniff of the Municipality of Chatham-Kent and indicated that the Virtual Open House is now live. It was noted that registration for the live discussion has also opened and that notices for both events were distributed. Hydro One informed Mayor Canniff that they will be reaching out to book the next touchpoint.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor)	2020-10-30	Email	Hydro One emailed the Municipality of Chatham-Kent and inquired about availability for a touchpoint with Mayor Canniff and the Chief Administrative Officer.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-11-20	Meeting	Hydro One met with Mayor Canniff and the CAO of the Municipality of Chatham-Kent to provide a project update, which included sharing information on the route refinements, community engagements sessions and community benefits.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-12-01	Email	Hydro One emailed Mayor and CAO of the Municipality of Chatham-Kent and shared more information on a new community fund.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-01-15	Email	Hydro One email the Municipality of Chatham-Kent's Chief Administrative Officer (CAO) regarding their community partnerships opportunities. The CAO noted that a letter is being prepared for Hydro One's consideration.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) Renee Handsor - Municipality of Chatham-Kent	2021-02-11	Email	Hydro One was emailed a correspondence from Mayor Canniff of the Municipality of Chatham-Kent regarding a community grant.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-02-17	Meeting	Hydro One met with Mayor Canniff and the Chief Administrative Officer from the Municipality of Chatham-Kent and provided a briefing on the selection of the preferred route and next steps in the process. The Municipality asked whether property owners are aware of the selection and Hydro One indicated they will receive notice in the mail and they are also offering a briefing with Councillors. The discussion also included First Nations communities and compensation, opportunities to run fibre and community concerns.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-02-22	Email	Hydro One emailed the Municipality of Chatham-Kent and shared the presentation slides from the meeting, as well as the invitation to the upcoming Open House and Live Discussion.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-02-25	Email	The Municipality of Chatham-Kent emailed Hydro One and indicated they would like to have a conversation regarding their concerns from a future growth perspective around Chatham.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-02-25	Email	Hydro One emailed the Municipality of Chatham-Kent and requested availability for the meeting to discuss their concerns.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-02-25	Email	The Municipality of Chatham-Kent emailed Hydro One and provided availability for an upcoming meeting.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-02-25	Email	Hydro One emailed the Municipality of Chatham-Kent regarding logistics for an upcoming meeting.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Katerina Oliver - Municipality of Chatham-Kent (Drainage Superintendent)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Chris Thibert - Municipality of Chatham-Kent (Director Engineering)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Jerry Corso - Municipality of Chatham-Kent (Manager Public Works)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Tim Dick - Municipality of Chatham-Kent (Director, Drainage, Waste and Asset Management)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.

Organisation	Stakeholders	Date	Type of communication	Summary

Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Chatham-Kent	Gord Quinton - Municipality of Chatham-Kent (General Manager/Chief Financial Officer: Finance, Budget, Information Technology and Transformation)	2021-02-26	Email	Hydro One emailed the Municipality of Chatham-Kent and thanked them for sharing the additional materials. It was noted that this information would be shared with the project team and they would get back to the Municipality.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-04	Email	The Municipality of Chatham-Kent emailed Hydro One and shared maps for the upcoming discussion.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-04	Meeting	Hydro One staff had a webex meeting with Municipality of Chatham-Kent Manager of Community Development Bruce McAllister, to discuss some concerns that C-K staff had with the proposed route 2A. Bruce stated that he understood the rationale for the selection of Route 2A, but wanted to discuss some areas identified by C-K as future land use plan areas. Bruce noted the properties where Route 2A departs from the idle line corridor, which he had previously identified in discussions with Hydro One. Paul stated that as a result of the feedback gathered from Bruce and other Municipal staff, a criterion for Future Land Uses had been added to the evaluation and that these lands identified by Bruce had been considered and Route 2A had been penalized in this category for traversing them. Bruce asked if there were minor refinements that could be made to the route that would leave larger portions of this parcel intact, as it was suitable for use as a potential industrial property. Paul stated that they would consider this, but could not make any major refinements that introduced new properties or other significant effects.
				Bruce also mentioned that the southwest Chatham area was rapidly growing and that the Mayor and Councilors had raised some concern over the preferred route as a potential barrier to this growth. Bruce identified that Indian Creek Road was identified for potential expansion westward, and wondered if there was a way to adjust this alignment. Paul stated that the Hydro One team would consider Bruce's comments but reiterated that they could likely not make any major refinements that introduced new properties or other significant effects..
				Paul stated that while he understood Bruce's concerns, and had taken them into consideration, but that overhead transmission lines were not necessarily a barrier to new development and growth and in several locations throughout the province, growth and new development were actively occurring around transmission corridors. Paul also stated that there were compatible uses with overhead transmission corridors, such as green spaces or trails.
				Bruce asked some additional questions about the idle transmission line, and the section that traversed through Chatham, and Paul stated he would have to confirm and would circle back.
Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent	2021-03-05	Email	Hydro One emailed Councillor Ceccacci of the Municipality of Chatham-Kent and informed him of the meeting that took place between the project team and Municipal staff. Hydro One noted that they will provide an update shortly.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-08	Email	Hydro One emailed the Municipality of Chatham-Kent and requested availability for a quick discussion.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-08	Email	The Municipality of Chatham-Kent emailed Hydro One regarding timing for an upcoming meeting.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-08	Email	Hydro One emailed the Municipality of Chatham-Kent and informed them that the meeting invitation has been sent out.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-09	Phone	Hydro One staff had a brief conference call with the Mayor, CAO and Manager of Community Development for the Municipality of Chatham-Kent, to provide an update on some earlier discussions regarding future growth plans in Chatham-Kent and potential opportunities for Hydro One and the Municipality to work forward together to incorporate the growth plans for these areas as they develop.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor)			
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)			
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-09	Phone	Hydro One had a call with Mayor Canniff, CAO, and Manager of Community Development for the Municipality of Chatham-Kent regarding Route 2A and the Municipality's future growth plans.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor)			
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)			
Municipality of Chatham-Kent	Gord Quinton - Municipality of Chatham-Kent (General Manager/Chief Financial Officer: Finance, Budget, Information Technology and Transformation)	2021-03-10	Email	Hydro One emailed the Municipality of Chatham-Kent and requested availability for a meeting.

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-10	Meeting	<p>Hydro One staff met with the Chatham-Kent Manager of Community Development (Bruce McAllister) to follow up on the previous day's discussion regarding preferred Route 2A. Hydro One staff reiterated that they would consider the request regarding parcels along Queen's Line, and also reiterated the commitment to plan around the Bloomfield road reconstruction and potential Indian Creek Road extension via tower placement.</p> <p>Bruce mentioned that the Indian Creek future road allowance could tentatively be assumed to be approximately 30m wide, and that the future Bloomfield Road allowance may be approximately 35m wide. Bruce also mentioned that the Chinnick Drain had recently had work carried out under the Drainage Act, and requested that this drain be protected to the extent possible. Paul stated that he would take this back but was confident that the drain could be spanned by the new line and the channel largely avoided during construction.</p> <p>Other discussion items included potential future development areas/demand growth areas in Chatham-Kent, and the potential for Hydro One to discuss the project further with local Councillors and landowners, which Hydro One staff stated that they would be doing in the near future.</p>
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-03-10	Email	The Municipality of Chatham-Kent emailed Hydro One and shared a communication sent to Council for Hydro One's reference. The Municipality indicated it would be best to engage all of Council prior to arranging specific meetings with just the Ward Councillors.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-12	Email	The Drainage Superintendent for the Municipality of Chatham-Kent emailed Hydro One and requested to be involved when the tower locations have been identified.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-15	Email	Hydro One emailed the Municipality of Chatham-Kent and informed them of the information they have on Municipal drainage infrastructure. Hydro One requested that if they have other information they can provide to help in the consideration of Municipal Drains. Hydro One offered to discuss the project further with them and indicated they have been included on the distribution list.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-16	Email	The Municipality of Chatham-Kent emailed Hydro One and requested a pdf with the running line.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-03-18	Email	Hydro One emailed the Municipality of Chatham-Kent and thanked them for notifying them of the website issue. Hydro One indicated it has been fixed and provided the webpage link for them to download the maps of the preferred route and to see the interactive map.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Melissa Harrigan - Municipality of Chatham-Kent	2021-03-26	Email	Hydro One responded to Councillor Harrigan of the Municipality of Chatham-Kent's question and shared information on Hydro One's Land Acquisition Compensation Principles. Hydro One shared the recording and presentation link to the virtual Live Discussion.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-06	Email	Hydro One emailed the Municipality of Chatham-Kent and requested contact information of real estate staff.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-06	Email	The Municipality of Chatham-Kent emailed Hydro One and informed them that a note has been sent to their Director of Financial Services who oversees property and real estate and the Municipality will follow up with Hydro One once they hear back.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-07	Email	Hydro One emailed the Municipality of Chatham-Kent and requested shapefiles associated with the Bloomfield Road reconstruction/extension.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Melissa Harrigan - Municipality of Chatham-Kent	2021-04-07	Email	Hydro One emailed Councillor Harrigan of the Municipality of Chatham-Kent and informed the Councillor that a voicemail was left regarding clarification around Hydro One's land acquisition compensation principles. Hydro One noted that they are happy to connect with the landowner regarding their property.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-07	Email	The Municipality of Chatham-Kent emailed Hydro One and shared a shapefile and drawings for Hydro One's reference. The Municipality requested a copy of the Environmental Assessment document related to this work.
Municipality of Chatham-Kent	Amy Mclellan Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Dave Taylor	2021-04-07	Email	The Municipality of Chatham-Kent emailed Hydro One and shared the contact information for the requested staff members.
Municipality of Chatham-Kent	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services)	2021-04-14	Email	Hydro One emailed the Municipality of Chatham-Kent and provided a link to a file transfer site where Municipal staff could upload the Western Transportation Link EA document, for consideration by the CxL design team. Hydro One inquired whether the provided maps for future growth planning study areas can be shared with local residents/farmers.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-04-15	Phone	Hydro One called the Municipality of Chatham-Kent to confirm whether they required more information as they continue to have conversations with residents. The Municipality provided an overview of recent conversations with residents and noted their concerns, including the potential loss in contracts and proposed alternative route options. Hydro One noted they will meet with the resident directly and will be back in touch to share further information.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-04-19	Email	The Municipality of Chatham-Kent emailed Hydro One and shared a list of tile drains and the link to the drainage mapping system. The Municipality also noted that most property owners are concerned about the drains. The Municipality also offered to share their Engineer reports for the drains.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) Renee Handsor - Municipality of Chatham-Kent	2021-04-20	Email	Hydro One emailed the Municipality of Chatham-Kent and requested availability for the upcoming monthly touchpoint with the Mayor and Chief Administrative Officer.

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-04-21	Email	Hydro One emailed the Municipality of Chatham-Kent and informed them that the information has been shared with the engineering firms involved in the design work. Hydro One noted that the importance of tile and municipal drainage infrastructure is an important consideration as they continue planning this project. Hydro One requested for any further information along the route and any thoughts or past experience on how to best protect Municipal drains. Hydro One informed the Municipality that they will keep them in the loop and work with the Municipality as they progress through design and planning for the project. Hydro One offered to arrange a virtual meeting.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) LaVahn Vanderkley - Municipality of Chatham-Kent (Administrative Assistant II for CAO/Mayor's Office) Renee Handsor - Municipality of Chatham-Kent	2021-04-22	Email	Hydro One emailed the Municipality of Chatham-Kent and provided a meeting date. Hydro One requested this date be kept as a placeholder until confirmation has been received.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) LaVahn Vanderkley - Municipality of Chatham-Kent (Administrative Assistant II for CAO/Mayor's Office) Renee Handsor - Municipality of Chatham-Kent	2021-04-26	Email	Hydro One emailed the Municipality of Chatham-Kent and confirmed the date for an upcoming touchpoint meeting. Hydro One informed the Municipality that the invitation will be sent shortly and asked for availability for the next touchpoint.
Municipality of Chatham-Kent	Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) LaVahn Vanderkley - Municipality of Chatham-Kent (Administrative Assistant II for CAO/Mayor's Office) Renee Handsor - Municipality of Chatham-Kent	2021-04-27	Email	Hydro One emailed the Municipality of Chatham-Kent and noted that they will get back to the Municipality with their availability.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Renee Handsor - Municipality of Chatham-Kent	2021-05-05	Email	Hydro One emailed the Municipality of Chatham-Kent and requested availability for a call to provide further information related to a landowner's proposal.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-05	Email	Hydro One emailed the Municipality of Chatham-Kent and requested shapefiles of the Municipal drains and any other information they can provide.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-06	Phone	Hydro One had a call with the Chief Administrative Officer of the Municipality of Chatham-Kent . Hydro One provided an update on the proposed refinement from a landowner. A video series highlighting the investments in the region, and the Environmental Study Report were also discussed.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-07	Email	Hydro One emailed the Chief Administrative Officer for the Municipality of Chatham-Kent and provided details on the Draft Environmental Study Report and the video series on Hydro One investments in Ontario.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-07	Email	The Municipality of Chatham-Kent emailed Hydro One and shared drains within the study area. The Municipality noted that they do not have the shapefiles but have provided the available Engineer Reports and will provide the outstanding documents soon. The Municipality indicated they will need to work with Hydro One to ensure towers are not located near an open or closed drain.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-07	Email	Hydro One emailed the Municipality of Chatham-Kent and thanked them for providing the information on drains. Hydro One indicated that if the Municipality is able to provide any additional information, they will ensure it is considered. Hydro One noted that they will follow up when more detailed information is available to share.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-14	Email	The Municipality of Lakeshore emailed Hydro One and shared two additional drain reports. The Municipality informed Hydro One that they have passed on Hydro One's information to another individual who may send additional drainage information.
Municipality of Chatham-Kent	Ellen Sinclair - Municipality of Chatham-Kent (Drainage Superintendent)	2021-05-14	Email	Hydro One emailed the Municipality of Chatham-Kent and thanked the Municipality for providing the drain information. Hydro One noted that if the Municipality or colleague has any additional information to provide or wishes to discuss the project, Hydro One is available to discuss.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-14	Phone	Hydro One had a call with the Chief Administrative Officer for the Municipality of Chatham-Kent and Hydro One inquired about any recent feedback from property owners. Discussions also included potential participation in preparing video content to outline the benefits of the line.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-05-21	Meeting	Hydro One team had a meeting with Mayor Canniff and the Chief Administrative Officer from the Municipality of Chatham-Kent. During the meeting, Hydro One provided an update on fiber option capability on towers, shared an update on meeting with local property owners, and followed up on a discussion regarding community investments.
Municipality of Chatham-Kent	Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-06-01	Email	
Municipality of Chatham-Kent Ontario Federation of Agriculture	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Mary Clare Latimer - Municipality of Chatham-Kent Member of the Public	2021-03-16	Email	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and a local landowner, and informed them that they will look into sending the hard copy maps as requested.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-01-13	Meeting	A meeting with Mayor Bain and Director of Engineering and Infrastructure Services, Nelson Cavacas of the Municipality of Lakeshore was held to introduce and share information on the Chatham to Lakeshore Line project. Discussion items and questions included the design, possible environmental concerns (e.g. drain crossings and protecting local roads during construction), communication methods and locations for Community Information Centres.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-01-17	Email	Hydro One followed up on the meeting held with Mayor Bain and Mr. Cavacas from the Town of Lakeshore. Hydro One provided the materials reviewed including a briefing deck outlining project information and timelines, Notice of Commencement flyer and detailed maps. Hydro One confirmed an update on the station lighting concerns at County Road 31 would be provided in the following days.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-01-27	Email	Hydro One sent Notice of Study Commencement Letter and Map to the Chief Administrative Officer for the Town of Lakeshore. Hydro One also informed the Chief Administrative Officer that the first Community Information Centre will take place in the upcoming months.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Municipality of Lakeshore (Manager) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-01-27	Email	Hydro One sent Notice of Study Commencement Letter and Map to the Town of Lakeshore.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2020-01-27	Email	The Town of Lakeshore responded to the Notice of Study Commencement email and informed Hydro One that the Town will review and provide any comments as deemed appropriate through the Environmental Assessment process.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-01-31	Email	Hydro One sent a follow up email to Mayor Bain and Director of Infrastructure of the Municipality of Lakeshore to follow up and share further information on a question pertaining to tower clearances, as well ask for further information regarding a lightning concern. Hydro One also shared information regarding their upcoming community information centres.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-03-03	Email	Hydro One sent Notice of Community Information Centre invitation and newspaper advertisement to Mayor Bain, CAO and Director of Infrastructure of the of Municipality of Lakeshore.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-03-03	Email	Hydro One re-sent information regarding the upcoming Community Information Centres to to Mayor Bain, CAO and Director Infrastructure of the of Municipality of Lakeshore to correct the timing. Hydro One also sent the invitation and newspaper advertisement.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Municipality of Lakeshore (Manager) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to the Town of Lakeshore.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-03-17	Email	Hydro One emailed Mayor Bain, CAO and Director of Infrastructure of the Municipality of Lakeshore to inform them of the cancellation of the upcoming Community Information Centres due to the recent public health developments. Hydro One indicated that they will continue to respond to questions and that the cancellation of the information centres would be circulated.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Municipality of Lakeshore (Manager) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to staff from the Town of Lakeshore and indicated a forum will be hosted either online or in person, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Municipality of Lakeshore (Manager) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2020-03-18	Email	The Town of Lakeshore responded to Hydro One to confirm receipt of the cancellation notice for the Community Information Centres and informed Hydro One that the Town is likely to transition to essential services and will be available by email or phone calls.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-04-20	Email	Hydro One sent the Notice for the Virtual Information Sessions in May 2020 to the Mayor, Chief Administrative Officer and Executive Assistant for the Municipality of Lakeshore.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works) Bonnie Clark - Municipality of Lakeshore Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Brianna Coughlin - Municipality of Lakeshore (Clerk) Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services) Kim Darroch - Municipality of Lakeshore (Manager) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-04-27	Email	Hydro One sent the Notice of Virtual Information Session to staff from the Town of Lakeshore and informed them that a Technical Advisory Committee will be formed in the upcoming months.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2020-04-28	Email	Nelson Cavacas of the Town of Lakeshore confirmed the receipt of the Notice of Virtual Information Session sent by Hydro One.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-05-12	Email	Hydro One sent a reminder email with the information for the virtual information session to Mayor Bain, Darlene Mooney and Truper McBride of the Town of Lakeshore.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works) Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-05-26	Email	Hydro One invited representatives of the Town of Lakeshore to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works) Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Mazen Jreda - Municipality of Lakeshore Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2020-05-26	Email	Hydro One received an email from Nelson Cavacas of the Town of Lakeshore to confirm they will advise who will be the leads for the Technical Advisory Committee.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-06-01	Email	Hydro One informed Truper McBride of the Town of Lakeshore that other staff members were invited to participate in the Technical Advisory Committee (TAC). Hydro One provided an overview of the TAC and next steps.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2020-06-01	Email	Hydro One followed up with Nelson Cavacas of the Town of Lakeshore and requested confirmation of his participation in the Technical Advisory Committee (TAC).
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2020-06-01	Email	Nelson Cavacas of the Town of Lakeshore confirmed the contact for the Technical Advisory Committee will be Tony DiCiocco who will coordinate with Brian Laramie.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2020-06-01	Email	Hydro One thanked Nelson Cavacas of the Town of Lakeshore for confirming Technical Advisory Committee participants. Hydro One noted materials will be sent and the rest of the Town of Lakeshore staff will be kept informed with other major project updates.
Municipality of Lakeshore	Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist)	2020-06-11	Smart email	Hydro One emailed Brian Laramie of the Town of Lakeshore regarding the Technical Advisory Committee (TAC) discussions and provided the survey link, TAC informational video and initial evaluation criteria. Hydro One notified members that feedback from TAC members will be reported in the Class Environmental Assessment record of consultation as a single entity and requested that any comments on behalf of their organization be emailed directly to Paul Dalmazzi. Hydro One will provide the TAC Workshop #1 summary report once completed and information on the second workshop.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant)	2020-06-17	Email	Hydro One emailed Darlene Mooney of the Town of Lakeshore and requested an opportunity to have a call with Mayor Bain and CAO McBride to provide a project status update. Hydro One requested the availability of the Mayor and CAO and for the status of the Council meetings.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-06-19	Email	Hydro One emailed representatives of the Town of Lakeshore as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-06-25	Email	Hydro One shared a reminder with the Town of Lakeshore to complete a survey to gather feedback on the virtual workshops and review the evaluation criteria.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-07-10	Email	Hydro One contacted the Town of Lakeshore to request confirmation regarding a new street address.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-07-15	Meeting	Hydro One met with Mayor Bain and the Director of Engineering of the Municipality of Lakeshore to provide an update on the project as well as to learn more about the growth in their community.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-07-16	Email	Hydro One emailed the Mayor Bain and the Director of Engineering and Infrastructure, Nelson Cavacas of the Municipality of Lakeshore to thank them for meeting. Hydro One replied to the Mayor's question regarding the Lakeshore Transmission Station, indicated that can share further information to help their office respond to any questions received from residents, and reiterated Hydro One's commitment to working with the Municipality.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-07-29	Email	A letter was email to Mayor Bain, CAO McBride and the Director of Infrastructure at the Municipality of Lakeshore thanking Mayor Bain for meeting and reiterating Hydro One's commitment to working with the Municipality.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant)	2020-08-24	Email	Hydro One emailed the Town of Lakeshore to request whether they had a contact at the Windsor-Essex County Public Health Unit with whom they could discuss health and safety policies and procedures for an in-person Community Information Centre.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant)	2020-09-25	Email	Hydro One emailed the Town of Lakeshore to request the scheduling of a meeting to provide Mayor Bain and Council an update on the project. Hydro One requested they be directed to the best contact to schedule this meeting.
Municipality of Lakeshore	Brianna Coughlin - Municipality of Lakeshore (Clerk)	2020-09-29	Email	Hydro One emailed the Town of Lakeshore regarding the scheduling of a presentation with Mayor Bain and Council to provide an update on the project.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2020-10-09	Email	Hydro One staff emailed Town of Lakeshore staff and reiterated that as per feedback received through the TAC, Hydro One would be adding a criterion to assess effects to Future Land Uses as part of the route evaluation. Hydro One staff requested any plans or information that lakeshore staff could provide to help inform this criterion, and noted that a discussion had recently been held with staff from the Municipality of Chatham-Kent to discuss and specify Future Land Use planning areas for consideration in the route evaluation. Hydro One noted that they had already collected the publicly available land use planning information for the Town of Lakeshore, but wanted to see if Lakeshore staff could share any further information. Hydro One staff offered to arrange a conference call to discuss further.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-10-15	Email	Hydro One emailed Mayor Bain and CAO of the Municipality of Lakeshore to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One indicated they will inform property owners by issuing an update to the contact list and at the two upcoming virtual engagement opportunities.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2020-10-22	Email	Hydro One emailed Mayor Bain and CAO of the Municipality of Lakeshore to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
Municipality of Lakeshore	Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Bonnie Clark - Municipality of Lakeshore	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Brianna Coughlin - Municipality of Lakeshore (Clerk)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Kim Darroch - Municipality of Lakeshore (Manager)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist)	2020-10-26	Email	The Town of Lakeshore emailed Hydro One and informed them that the invitation for the upcoming Virtual Information Session will be circulated amongst staff and that they will review and provide comment if necessary.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Engineering Technologist)	2020-10-27	Email	Hydro One staff emailed the Town of Lakeshore and informed them that the notice was circulated to other staff.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-12-02	Email	Hydro One staff also reiterated the request stated in a previous email for Town of Lakeshore staff to provide any information on future land use plans/proposals that should be considered. Hydro One staff noted again that the project team had already collected publicly available information, but offered to arrange a discussion if there were any further information or context that Lakeshore staff felt should be considered in the route evaluation.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services) Tom Bain - Municipality of Lakeshore (Mayor)	2020-12-02	Email	Hydro One emailed Mayor Bain of the Municipality of Lakeshore and shared information on a new community fund.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-02-19	Meeting	Hydro One had a meeting with Mayor Bain and the Chief Administrative Officer for the Municipality of Lakeshore and provided a briefing on the selection of the preferred route and next steps in the process. The discussion included the location of a national historic site that was identified as part of Hydro One's route evaluation, the proximity of the route to Comber in relation to a previous development proposed in the area, and the number of participants in the area.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-02-22	Email	Hydro One emailed Mayor Bain and CAO of the Municipality of Lakeshore and shared the presentation slides from the meeting, as well as the invitation to the upcoming Open House and Live Discussion.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-02-24	Email	The Municipality of Lakeshore emailed Hydro One and indicated they have significant concerns with the preferred route, specifically with the route going through Comber. The Municipality requested clarification as to why it is considered the preferred route.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-02-24	Email	Hydro One emailed the Municipality of Lakeshore and informed them that the land uses and Official Plan for the area identified in their concerns were taken into the account during the evaluation, but that a number of diverse criteria had been considered in the selection of the preferred route. Hydro One requested a meeting to fully understand and discuss the Municipality's concerns.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2021-02-25	Email	A staff member from the Municipality of Lakeshore emailed Hydro One and provided their availability for an upcoming meeting.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-02-25	Email	Hydro One emailed the Municipality of Lakeshore regarding logistics for an upcoming meeting.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Kevin Girard - Municipality of Lakeshore (Manager - Environmental Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Kim Darroch - Municipality of Lakeshore (Manager)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Albert Dionne - Municipality of Lakeshore (Manager - Public Works)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Bonnie Clark - Municipality of Lakeshore	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Brianna Coughlin - Municipality of Lakeshore (Clerk)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Municipality of Lakeshore	Nelson Cavacas - Municipality of Lakeshore (Director - Engineering & Infrastructure Services)	2021-02-26	Email	The Municipality of Lakeshore emailed Hydro One and informed Hydro One that the update on the preferred route selection and upcoming Virtual Open House and Live Discussion invitation has been shared with Municipal staff. The Municipality also informed Hydro One of a staff change.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager - Engineering)	2021-03-01	Meeting	Hydro One staff held a virtual webex meeting with Municipality of Lakeshore staff to discuss concerns raised by the Municipality regarding the selection of route 2A for the new Chatham x Lakeshore Transmission Line. Lakeshore staff raised concerns regarding the route traversing current commercial/industrial land uses as well as future/potential future development expansion in north Comber. Lakeshore staff asked questions regarding the identification and selection of the preferred route, design options, and upcoming Real Estate processes. Lakeshore stated that they did not currently support the selection of Route 2A for the effects to existing and future/potential future land uses, and Hydro One staff responded that land uses had been taken into consideration during the route evaluation and noted that overhead transmission corridors are not a barrier to future development in practice and there are many examples of both commercial/industrial and residential development occurring around such corridors. Hydro One staff stated that they would continue to work closely with Lakeshore staff to discuss and address their concerns going forward.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-03	Email	The Municipality of Lakeshore emailed Hydro One and thanked them for meeting to discuss their concerns regarding Comber. The Municipality informed Hydro One that they remain opposed to the location of the preferred route through Comber.

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-03	Email	The CAO of Municipality of Lakeshore emailed Hydro One requesting a meeting with Councillor McKinlay and the Hydro One team.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-03	Email	Hydro One emailed the Municipality of Lakeshore and indicated they would be happy to meet with Councillor McKinlay and will be in touch shortly.
Municipality of Lakeshore	Darlene Mooney - Municipality of Lakeshore (Executive Assistant) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-04	Email	Hydro One emailed the Municipality of Lakeshore regarding logistics for a meeting with Councillor McKinlay.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-08	Email	Hydro One emailed the Municipality of Lakeshore and thanked them for their comments. Hydro One provided more insight into the preferred route relative to Comber. Hydro One offered to work with the Municipality to potentially accommodate any planned/future facilities in the area and requested availability for a meeting.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Tony DiCiocco - Municipality of Lakeshore (Manager of Engineering Services)	2021-03-10	Email	Hydro One emailed the Municipality of Lakeshore and inquired whether they had any interest in discussing the project further at this time.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-12	Meeting	Hydro One met Mayor Bain, Councillor McKinlay, Councillor Walstedt, and the CAO from the Municipality of Lakeshore to provide an overview of how the preferred route was selected and next steps. The Municipality informed Hydro One that community members are compiling a list of comments, and residents have asked whether the selected route can be modified. Hydro One indicated that they were confident in the analysis that was conducted to select the preferred route, and that they would work directly with landowners on a property-by-property to look for opportunities to mitigate impacts. The Municipality noted concerns with the future development of Comber, and Hydro One indicated that it is common throughout the province for new commercial/industrial development to be built around and integrate with occur around overhead transmission lines. Other items discussed during the meeting included the project need, consultation with First Nations communities, the feasibility of burying transmission lines and conversations with impacted landowners.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-15	Email	Hydro One emailed Mayor Bain and Councillors from the Municipality of Lakeshore and thanked them for the meeting. Hydro One shared the presentation slides and Community Relations contact information for their constituents.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-15	Email	Hydro One emailed the Chief Administrative Officer of the Municipality of Lakeshore regarding logistics for an upcoming call.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-18	Phone	Hydro One had a phone conversation with the Chief Administrative Officer for the Municipality of Lakeshore regarding support and feedback for the project.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-03-24	Email	Hydro One emailed the Municipality of Lakeshore and provided the list of staff members who will attend the upcoming follow-up meeting.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-03-24	Phone	Sydnee called Paul to arrange a follow-up meeting between the Hydro One project team and Municipality of Lakeshore staff. Sydnee stated that she would schedule the meeting, and Paul stated that he would email Sydnee with a list of Hydro One staff who should be invited.
Municipality of Lakeshore	Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-03-24	Email	The Municipality of Lakeshore emailed Hydro One and indicated that the meeting invitation will be sent shortly.
Municipality of Lakeshore	Municipality of Lakeshore	2021-03-31	Meeting	Lakeshore staff welcomed the Hydro One team and thanked Hydro One for following up and arranging the subsequent meeting.

Paul reiterated the message conveyed in his previous email, that the large route diversions that had been proposed (following other existing transmission lines and Rochester Townline road) could not be considered as these diversions would introduce significant new effects to properties, structures and agricultural fields, as well as technical challenges such as crossings of existing transmission lines. Paul stated that he preferred route had been selected and Hydro One intended to pursue this route. At Tony' request, Paul clarified that the ROW width was currently anticipated to be approximately 150 feet or 46m total (23m from centreline on either side) and that tower spans depended on final design, but would likely be approximately 280m.

Tony asked if real estate rights still needed to be obtained, and Jamie noted that outreach to directly affected property owners had begun. Tony asked what restrictions existed within the ROW itself; Jamie stated that generally, buildings and structures were not permitted within the ROW, and other uses (such as stockpiling) were subject to height restrictions, but that secondary land uses including for commercial facilities were common. Tony asked how close building could be constructed to the ROW, and Jamie stated that in most cases, buildings could be constructed right up to the ROW, and this had been done in some other areas.

Paul noted that while the preferred route had been selected and Hydro One intended to proceed accordingly, that the Hydro One team wanted to work with the Municipality to potentially find ways to address some of these concerns being raised by the Municipality staff, without introducing additional properties or effects to the project. Paul mentioned the potential for small alignments within the property fabric and used the example of potential to better align with Knapp road, if that is something the Municipality deemed desirable, and also the potential strategic placement of structures (barring corners or angles, which required structures). Paul reiterated that any further information on the Municipality's proposed plans for the area would be helpful to the Hydro One team in trying to identify such opportunities where they might exist.

Paul also stated that the Hydro One team recognized the proximity of the preferred route to Comber and these future growth areas, and would also be amenable to discussing and pursuing potential opportunities for community benefits or givebacks as part of the project. Dana mentioned that this could include things like funding for trails or park enhancement, and was open to suggestions or ideas from the Municipality on what opportunities could be pursued.

Tony gave some further context on potential future uses for the area, noting that the lands around the 401 interchange were highly sought

Organisation	Stakeholders	Date	Type of communication	Summary
				<p>Tony gave some further context on potential future uses for the area, noting that the lands around the 401 interchange were highly sought after for their proximity to the highway. Tony mentioned that the Municipality foresaw extensive growth and development in this area once other servicing (particularly wastewater infrastructure) could be addressed. Examples included potential hotels, industrial uses, and potential future condominiums and other future residential uses subject to zoning amendments. Tony also noted concerns regarding proximity to residences and associated visual/aesthetic effects, and the cost of acquiring land that had future commercial/industrial or development potential.</p> <p>Tony reiterated that in his view, any other possible route, including diversions north of the 401 or following the existing transmission lines, would be preferable to the route that had been selected. Paul stated that the Hydro One team had to consider the routes in their entirety when identifying, evaluating and selecting the preferred route, and that while he acknowledged the traversal of the Employment lands and future development areas near Comber, that these other suggestions also brought additional effects such as more properties, agricultural fields, and in the case of a route parallel to the existing transmission lines (Route 1), direct traversal of the Big O Conservation Area and extensive tree clearing that would be required for a new transmission line. Tony acknowledged the various interests at play but reiterated his position that Agricultural land was more compatible with overhead transmission lines than the Comber Employment lands.</p> <p>Tony stated that while he understood the need for the project, and supported the additional infrastructure which would supply the region with electricity, he could not support the selected route due to the proximity to Comber and traversal of Employment lands and areas that the Municipality saw as having potential for future development. Tony asked what recourse might remain to the Municipality, e.g. through the OEB or Class EA process. Paul confirmed that the project would require OEB Leave to Construct approval, and that the Class EA was still ongoing with the draft Environmental Study Report planned to be released in late Spring 2021 for review and comment over the summer, but noted that recent changes meant that part II Order requests were limited to issues relating to Aboriginal treaty rights. Tony asked whether discussions had been had with the Municipal politicians, and Dana gave a brief overview of discussions to date.</p> <p>Tony thanked the Hydro One staff for their continued communication, and the Hydro One team thanked Tony and Sydnee for their comments and discussion. Both groups agreed that subsequent discussion would be required as the project progressed.</p>
Municipality of Lakeshore	Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist)	2021-04-16	Email	The Municipality of Lakeshore emailed Hydro One and shared the Municipality's formal response opposing the chosen preferred route.
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-04-19	Phone	Hydro One spoke with the Chief Administrative Officer of the Municipality of Lakeshore regarding Council's and residents' perspective on the line
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-03	Phone	Hydro One staff had a call with CAO Truper McBride to discuss the upcoming meeting planned with the Mayor, Deputy Mayor and CAO. The discussion included a focus on reviewing benefits/opportunities of the line and route diversions that had been proposed.

Municipal Staff and Agencies - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-04	Meeting	Hydro One met with Mayor Bain, Deputy Mayor Bailey and CAO Truper of the Municipality of Lakeshore to address questions raised regarding the preferred route. Hydro One provided further information on route diversions and supporting community growth/development. Other items of discussion raised included setback requirements for transmission infrastructure and electric and magnetic fields (EMF).
Municipality of Lakeshore	Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-05	Phone	Hydro One staff had a call with the Lakeshore CAO. Feedback was provided on the meeting held the previous day, and the CAO passed along some requests for the upcoming Council meeting and suggested some additional meetings to discuss the project beforehand.
Municipality of Lakeshore	Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Sydnee Rivest - Municipality of Lakeshore (Engineering Technologist) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-06	Email	Hydro One emailed the Municipality of Lakeshore and shared a response to the letter received from the Municipality on April 16, 2021.
Municipality of Lakeshore	Andrew Neely - Municipality of Lakeshore (Assistant Drainage Superintendent) Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services)	2021-05-17	Email	Hydro One emailed the Municipality of Lakeshore and informed them that Hydro One is now commencing design and construction planning. Hydro One requested Engineer's reports, spatial information and any other information on Municipal drains traversed by the preferred route. Hydro One provided a list of drains crossed by the preferred route and requested confirmation of any additional drains.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Kyle Emery - Municipality of Lakeshore (Assistant Drainage Superintendent) Lauren Colenutt - Municipality of Lakeshore	2021-05-17	Email	The Municipality of Lakeshore emailed Hydro One and informed them of staff changes. The Municipality indicated they will forward the requested drainage reports.
Municipality of Lakeshore	Brian Laramie - Municipality of Lakeshore (Manager, Capital Projects) Jill Fiorito - Municipality of Lakeshore (Drainage Superintendent - Engineering & Infrastructure Services) Krystal Kalbol - Municipality of Lakeshore (Director, Engineering and Infrastructure Services) Kyle Emery - Municipality of Lakeshore (Assistant Drainage Superintendent) Lauren Colenutt - Municipality of Lakeshore	2021-05-17	Email	Hydro One emailed the Municipality of Lakeshore and thanked the Municipality for clarifying the staff changes. Hydro One noted they appreciate any information that can be provided.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-18	Meeting	Hydro One staff held a webex meeting with Mayor Bain, Deputy Mayor Bailey, and CAO McBride of the Municipality of Lakeshore to discuss the upcoming Council meeting on May 25 and present the information and materials that had been revised to incorporate feedback from the previous meeting. Hydro One staff presented the overview of the route diversions requested by Lakeshore and explained the additional impacts that would be associated with each. Hydro One also presented examples of other areas where commercial, industrial and residential development had successfully occurred around or within transmission line ROWs, and mentioned Hydro One's interest in identifying potential community benefits opportunities as part of the Chatham x Lakeshore project. Lakeshore officials asked questions regarding the general progress of real estate negotiations, and timelines for potential community benefit opportunities.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-19	Email	Municipality of Lakeshore staff provided some information on Municipal drains via a file exchange link, and stated that more information on additional drains would be sent shortly
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-19	Email	Municipality of Lakeshore staff sent a second tranche of Municipal Drain information and reports to Hydro One.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-19	Email	Hydro One emailed the Municipality of Lakeshore to confirm they have received information on Municipal drains. Hydro One thanked the Municipality and noted this information has been shared with the engineering and design team.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-20	Email	The Municipality of Lakeshore emailed Hydro One and indicated they will share the reports by that afternoon.
Municipality of Lakeshore	Lauren Colenutt - Municipality of Lakeshore	2021-05-20	Email	Municipality of Lakeshore staff emailed to provide a third tranche of information on Municipal drains in the area to Hydro One.
Municipality of Lakeshore	John Kerr - Municipality of Lakeshore (Councillor, Ward 4) Kelsey Santarossa - Municipality of Lakeshore (Councillor, Ward 3) Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Len Janisse - Municipality of Lakeshore (Councillor Ward 2) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Steven Wilder - Municipality of Lakeshore (Councillor Ward 1) Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-25	Meeting	Daniel Levitan, Vice President of Stakeholder Relations and Sonny Karunakaran, Director of Strategic Projects with Hydro One Inc. provided a presentation to discuss concerns raised by the Municipality of Lakeshore regarding potential impacts to future and existing development as well as agricultural lands along the preferred route. The presentation also focused on sharing Hydro One's findings of two route diversions suggested by the municipality. Following the presentation, several questions were raised by council members regarding project consultation during the EA, ability to incorporate Hydro One's infrastructure with future planning, the land acquisition process and status and the conclusions of the route diversion analysis.
Municipality of Lakeshore Fire Services	Don Williamson - Municipality of Lakeshore Fire Services	2020-01-28	Email	Hydro One sent Notice of Commencement to Town of Lakeshore Fire Services.
Municipality of Lakeshore Fire Services	Don Williamson - Municipality of Lakeshore Fire Services	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Town of Lakeshore Fire Services and indicated that a forum will be held either in person or online, with details being provided as they become available. Hydro One confirmed the project team remains available to discuss the project.
Municipality of Lakeshore Fire Services	Don Williamson - Municipality of Lakeshore Fire Services	2020-04-28	Email	Hydro One sent Don Williamson of the Town of Lakeshore Fire Services the Virtual Information Session Notice.
Municipality of Lakeshore Fire Services	Don Williamson - Municipality of Lakeshore Fire Services	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Information Session and live presentation/discussion.
Municipality of Lakeshore Fire Services	Don Williamson - Municipality of Lakeshore Fire Services	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.

Municipal Staff and Agencies - Record of Consultation

Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor)	2020-01-16	Email	Hydro One sent Notice Commencement Letter and Map to Mayor MacDonald of the Municipality of Leamington. Hydro One requested to arrange a meeting or call to keep Mayor MacDonald informed of the project status.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-03-03	Email	Hydro One sent the Notice of Community Information Centre invitation and newspaper advertisement to Mayor MacDonald and the CAO of the Municipality of Leamington.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-03-17	Email	Hydro One informed Mayor MacDonald and CAO of the Municipality of Leamington of the cancellation of the upcoming Community Information Centres due to recent public health developments. Hydro One informed the Municipality that they will continue to respond to questions and they will circulate the cancellation of the information centres.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-04-20	Email	Hydro One sent the Virtual Information Session Notice to the Mayor, Chief Administrative Officer and staff from the Municipality of Leamington.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-05-12	Email	Hydro One sent a reminder email and provided the joining information for the virtual information session to Mayor MacDonald and CAO from the Municipality of Leamington.
Municipality of Leamington	Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-10-26	Email	Hydro One emailed Mayor Macdonald and the CAO of the Municipality of Leamington and provided the invitation to the two upcoming engagement events for the project. Hydro One provided the links to the virtual open house and the live streaming presentation. Hydro One noted that based on what they have learned, they have made four refinements to the routes and have identified the need to expand their Chatham Switching Station. Hydro One requested that the notice be shared across communication channels and networks.
Municipality of Leamington	Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2021-02-25	Email	Hydro One emailed Mayor MacDonald and CAO of the Municipality of Leamington and provided an update on the project and the selection of the preferred route. Hydro One shared the notice for the upcoming Virtual Open House and Live Discussion and the map of the preferred route.
Town of Kingsville	Tara Hewitt - Town of Kingsville	2020-01-16	Email	Hydro One followed up on a conversation with the Town of Kingsville and sent the Notice of Study Commencement Letter and Map. Hydro One also requested to keep Mayor Santos and Chief Administrative Officer Van Mierlo-West informed of the project status by arranging a meeting or call.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-03-03	Email	Hydro One sent Notice of Community Information Centre invitation and newspaper advertisement to Mayor Santos and the CAO of the Town of Kingsville.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-03-17	Email	Hydro One informed Mayor Santos and CAO of the Town of Kingsville of the cancellation of the upcoming Community Information Centres due to the recent public health developments. Hydro One informed the Town that they will continue to respond to questions and they will circulate the cancellation of the information centres.
Town of Kingsville	Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-03-17	Email	Hydro One followed-up with the Town of Kingsville to discuss the upcoming meeting with Mayor Santos on March 24th and if it will proceed as a call or if it will be rescheduled.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-04-20	Email	Hydro One sent the Virtual Information Session Notice to staff from the Town of Kingsville, including the Mayor and Chief Administrative Officer.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-05-12	Email	Hydro One sent a reminder email with the joining information for the virtual information session to Mayor Santos and staff from the Town of Kingsville.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-05-22	Email	Hydro One followed up with Mayor Santos and staff of the Town of Kingsville and provided a summary of the virtual information sessions. Hydro One provided the presentation for the information session and indicated they will continue to collect input and will host additional opportunities.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer)	2020-10-26	Email	Hydro One emailed Mayor Santos and the CAO of the Town of Kingsville and provided the invitation to the two upcoming engagement events for the project. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.

Elected Officials - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-22	Email	Hydro One emailed Mayor Canniff and CAO of the Municipality of Chatham-Kent to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
Municipality of Chatham-Kent	Karen Kirkwood-Whyte - Municipality of Chatham-Kent	2020-10-22	Email	Hydro One emailed Councillor Kirkwood-Whyte of the Municipality of Chatham-Kent to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent	2020-10-22	Email	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks. Hydro One requested availability for a call to touch upon updates on the project.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent	2020-10-22	Email	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent regarding logistics for a call.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent	2020-10-26	Phone	Hydro One spoke with Councillor Latimer of the Municipality of Chatham-Kent and shared the findings of the railway analysis and feedback from the property visit.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-10-30	Email	Hydro One emailed Mayor Canniff of the Municipality of Chatham-Kent and indicated that the Virtual Open House is now live. It was noted that registration for the live discussion has also opened and that notices for both events were distributed. Hydro One informed Mayor Canniff that they will be reaching out to book the next touchpoint.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent	2020-11-04	Meeting	Hydro One spoke with Councillor Latimer of the Municipality of Chatham-Kent and provided an overview of the route refinements and evaluation process. Councillor Latimer shared the community's concerns regarding Route Alternative 3 and flagged concerns around loss of farmland. Councillor also sought further information on the release of the Land Acquisition Compensation Principles.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent Member of the Public	2020-11-16	Email	Hydro One emailed a member of the public and Councillor Latimer regarding Route Refinement 2. Hydro One indicated the refinement changed the way that Route Alternative 1, Variations C/D are angled towards Highway 401. Hydro One also noted that at the outset of the project, they did consider opportunities to parallel the existing transmission line, which runs on the south side of the Highway 401. However, this was not taken forward for further consideration due to existing constraints, such as built-up commercial facilities, woodlots, watercourses, and roads, in the area near Bloomfield Road.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-11-20	Meeting	Hydro One met with Mayor Canniff and the CAO of the Municipality of Chatham-Kent to provide a project update, which included sharing information on the route refinements, community engagements sessions and community benefits.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2020-12-01	Email	Hydro One emailed Mayor and CAO of the Municipality of Chatham-Kent and shared more information on a new community fund.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-01-15	Email	Hydro One email the Municipality of Chatham-Kent's Chief Administrative Officer (CAO) regarding their community partnerships opportunities. The CAO noted that a letter is being prepared for Hydro One's consideration.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Jessie Passa - Municipality of Chatham-Kent (Executive Assistant to the Mayor) Renee Handsor - Municipality of Chatham-Kent	2021-02-11	Email	Hydro One was emailed a correspondence from Mayor Canniff of the Municipality of Chatham-Kent regarding a community grant.
Municipality of Chatham-Kent	Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer)	2021-02-17	Meeting	Hydro One met with Mayor Canniff and the Chief Administrative Officer from the Municipality of Chatham-Kent and provided a briefing on the selection of the preferred route and next steps in the process. The Municipality asked whether property owners are aware of the selection and Hydro One indicated they will receive notice in the mail and they are also offering a briefing with Councillors. The discussion also included First Nations communities and compensation, opportunities to run fibre and community concerns.
Municipality of Chatham-Kent	Mary Clare Latimer - Municipality of Chatham-Kent	2021-02-18	Email	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and requested availability for a meeting to provide an update and to announce the preferred route.
Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent	2021-02-18	Email	Hydro One emailed Councillor Ceccacci of the Municipality of Chatham-Kent and requested availability for a meeting to provide an update and to announce the preferred route.
Municipality of Chatham-Kent	Mark Authier - Municipality of Chatham-Kent	2021-02-18	Email	Hydro One emailed Councillor Authier of the Municipality of Chatham-Kent and requested availability for a meeting to provide an update and announce the preferred route.

Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor)	2021-03-09	Phone	Hydro One had a call with Mayor Bain of the Municipality of Lakeshore to discuss concerns regarding interference to satellite/TV from the line as well as concerns shared by the Municipality regarding the potential impact of the line traversing Comber. Hydro One noted they can look at opportunities to work with the Municipality to mitigate effects with the placement and spacing of the towers. During the call, a question was asked on whether this line could be built underground similar to a distribution project in the area. Hydro One explained that this was not a viable option for building the new 230-kilovolt transmission line. Mayor Bain also indicated that he heard from property owners regarding the line crossing their property, and Hydro One indicated they will continue to work with property owners to discuss opportunities to mitigate effects.

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-12	Meeting	Hydro One met Mayor Bain, Councillor McKinlay, Councillor Walstedt, and the CAO from the Municipality of Lakeshore to provide an overview of how the preferred route was selected and next steps. The Municipality informed Hydro One that community members are compiling a list of comments, and residents have asked whether the selected route can be modified. Hydro One indicated that they were confident in the analysis that was conducted to select the preferred route, and that they would work directly with landowners on a property-by-property to look for opportunities to mitigate impacts. The Municipality noted concerns with the future development of Comber, and Hydro One indicated that it is common throughout the province for new commercial/industrial development to be built around and integrate with occur around overhead transmission lines. Other items discussed during the meeting included the project need, consultation with First Nations communities, the feasibility of burying transmission lines and conversations with impacted landowners.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Tom Bain - Municipality of Lakeshore (Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-03-15	Email	Hydro One emailed Mayor Bain and Councillors from the Municipality of Lakeshore and thanked them for the meeting. Hydro One shared the presentation slides and Community Relations contact information for their constituents.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6)	2021-03-17	Email	Hydro One emailed Councillors McKinlay and Walstedt of the Municipality of Lakeshore and informed them that they would be happy to take back any questions or comments they have received to date from local residents. Hydro One also noted that their real estate team had the opportunity to speak with a few landowners and that Hydro One will be setting up additional meetings. Hydro One offered to set up regular touch points with the local Councillors to discuss any questions.
Municipality of Lakeshore	Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6)	2021-04-06	Phone	Hydro One had a phone conversation with Councillor McKinlay of the Municipality of Lakeshore and the Councillor provided an update regarding resident engagements and concerns.
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-04	Meeting	Hydro One met with Mayor Bain, Deputy Mayor Bailey and CAO Truper of the Municipality of Lakeshore to address questions raised regarding the preferred route. Hydro One provided further information on route diversions and supporting community growth/development. Other items of discussion raised included setback requirements for transmission infrastructure and electric and magnetic fields (EMF).
Municipality of Lakeshore	Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-18	Meeting	Hydro One staff held a webex meeting with Mayor Bain, Deputy Mayor Bailey, and CAO McBride of the Municipality of Lakeshore to discuss the upcoming Council meeting on May 25 and present the information and materials that had been revised to incorporate feedback from the previous meeting. Hydro One staff presented the overview of the route diversions requested by Lakeshore and explained the additional impacts that would be associated with each. Hydro One also presented examples of other areas where commercial, industrial and residential development had successfully occurred around or within transmission line ROWs, and mentioned Hydro One's interest in identifying potential community benefits opportunities as part of the Chatham x Lakeshore project. Lakeshore officials asked questions regarding the general progress of real estate negotiations, and timelines for potential community benefit opportunities.
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6)	2021-05-19	Meeting	Hydro One staff held a webex meeting with Councillors McKinlay and Walstedt of the Municipality of Lakeshore to discuss the upcoming Council meeting on May 25 and present the information and materials that had been revised to incorporate feedback from the previous meeting. Hydro One staff presented the overview of the route diversions requested by Lakeshore and explained the additional impacts that would be associated with each. Hydro One also presented examples of other areas where commercial, industrial and residential development had successfully occurred around or within transmission line ROWs, and mentioned Hydro One's interest in identifying potential community benefits opportunities as part of the Chatham x Lakeshore project. The Councillors asked questions about the ROW width and building restrictions. Hydro One staff clarified the ROW is currently assumed to be 46m total width, or 23m from centreline Hydro One staff provided a brief update on status of RE outreach to landowners, reiterated that Hydro One is working with landowners to address property-specific concerns where practical (where new impacts or effects to the environment or neighbouring properties are not introduced). Hydro One staff clarified general practices regarding Real Estate and land acquisition regarding homes within, or in very close proximity to, the ROW. Both Councillors reiterated preference for diversions, on the basis of preserving commercial lands even if more agricultural lands are required. Hydro One confirmed that they have heard the concerns and requests from the Municipality and had reviewed these requests, and reiterated the reasons why Hydro One had determined that the proposed diversions have greater overall impacts than preferred route 2A. Hydro One staff in particular noted the greater impact that the diversions would have to agricultural lands and operations, and how that would run counter to the majority of input received from stakeholders through the Class EA process. Councillor McKinlay asked about possibility of constructing the new line underground through the Comber area, Hydro One explained why that was not considered to be a feasible option for a new double-circuit 230 kV transmission line.

Elected Officials - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore	Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6)	2021-05-25	Email	Hydro One emailed Councillors McKinlay and Walstedt and shared a fact sheet and noted they would be happy to connect to discuss any next steps.
Municipality of Lakeshore	John Kerr - Municipality of Lakeshore (Councillor, Ward 4) Kelsey Santarossa - Municipality of Lakeshore (Councillor, Ward 3) Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Len Janisse - Municipality of Lakeshore (Councillor Ward 2) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Steven Wilder - Municipality of Lakeshore (Councillor Ward 1) Tom Bain - Municipality of Lakeshore (Mayor) Tracey Bailey - Municipality of Lakeshore (Deputy Mayor) Truper McBride - Municipality of Lakeshore (Chief Administrative Officer (CAO))	2021-05-25	Meeting	Daniel Levitan, Vice President of Stakeholder Relations and Sonny Karunakaran, Director of Strategic Projects with Hydro One Inc. provided a presentation to discuss concerns raised by the Municipality of Lakeshore regarding potential impacts to future and existing development as well as agricultural lands along the preferred route. The presentation also focused on sharing Hydro One's findings of two route diversions suggested by the municipality. Following the presentation, several questions were raised by council members regarding project consultation during the EA, ability to incorporate Hydro One's infrastructure with future planning, the land acquisition process and status and the conclusions of the route diversion analysis.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor)	2020-01-16	Email	Hydro One sent Notice Commencement Letter and Map to Mayor MacDonald of the Municipality of Leamington. Hydro One requested to arrange a meeting or call to keep Mayor MacDonald informed of the project status.
Municipality of Leamington	Hilda Macdonald - Municipality of Leamington (Mayor)	2020-02-13	Phone	Hydro One spoke with Mayor Hilda MacDonald from the Municipality of Leamington regarding the Chatham to Lakeshore line and Mayor MacDonald inquired about the timeline. Hydro One explained about the various processes and approvals required before construction start.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-03-03	Email	Hydro One sent the Notice of Community Information Centre invitation and newspaper advertisement to Mayor MacDonald and the CAO of the Municipality of Leamington.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-03-17	Email	Hydro One informed Mayor MacDonald and CAO of the Municipality of Leamington of the cancellation of the upcoming Community Information Centres due to recent public health developments. Hydro One informed the Municipality that they will continue to respond to questions and they will circulate the cancellation of the information centres.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-04-20	Email	Hydro One sent the Virtual Information Session Notice to the Mayor, Chief Administrative Officer and staff from the Municipality of Leamington.
Municipality of Leamington	Andrea Palichuk - Municipality of Leamington (Executive Assistant) Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-05-12	Email	Hydro One sent a reminder email and provided the joining information for the virtual information session to Mayor MacDonald and CAO from the Municipality of Leamington.
Municipality of Leamington	Hilda Macdonald - Municipality of Leamington (Mayor)	2020-05-22	Email	Hydro One followed up with Mayor Macdonald and CAO of the Municipality of Leamington and provided a summary of the virtual information sessions and included the presentation for the information session. Hydro One indicated that they will continue to collect input and host additional opportunities.
Municipality of Leamington	Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2020-10-26	Email	Hydro One emailed Mayor Macdonald and the CAO of the Municipality of Leamington and provided the invitation to the two upcoming engagement events for the project. Hydro One provided the links to the virtual open house and the live streaming presentation. Hydro One noted that based on what they have learned, they have made four refinements to the routes and have identified the need to expand their Chatham Switching Station. Hydro One requested that the notice be shared across communication channels and networks.
Municipality of Leamington	Hilda Macdonald - Municipality of Leamington (Mayor) Peter Neufeld - Municipality of Leamington (Chief Administrative Officer (CAO))	2021-02-25	Email	Hydro One emailed Mayor MacDonald and CAO of the Municipality of Leamington and provided an update on the project and the selection of the preferred route. Hydro One shared the notice for the upcoming Virtual Open House and Live Discussion and the map of the preferred route.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-03-03	Email	Hydro One sent Notice of Community Information Centre invitation and newspaper advertisement to Mayor Santos and the CAO of the Town of Kingsville.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-03-17	Email	Hydro One informed Mayor of Santos and CAO of the Town of Kingsville of the cancellation of the upcoming Community Information Centres due to the recent public health developments. Hydro One informed the Town that they will continue to respond to questions and they will circulate the cancellation of the information centres.
Town of Kingsville	Nelson Santos - Town of Kingsville (Mayor) Peggy Van Mierlo-West - Town of Kingsville (Chief Administrative Officer) Tara Hewitt - Town of Kingsville	2020-04-20	Email	Hydro One sent the Virtual Information Session Notice to staff from the Town of Kingsville, including the Mayor and Chief Administrative Officer.

Blenheim BIA Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent, Blenheim BIA (Council Rep.) Darrin Canniff - Municipality of Chatham-Kent (Mayor) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Mary Clare Latimer - Municipality of Chatham-Kent	2020-01-17	Email	Hydro One followed up on a meeting with Mayor Canniff, Councillor Ceccacci, Councillor Latimer and Chief Administrative Officer Shropshire from the Municipality of Chatham-Kent. Hydro One provided a briefing deck outlining project information and timelines, Notice of commencement flyer and detailed maps. The attendees from the Municipality of Chatham-Kent inquired on how to best ensure growth in the community is captured in Hydro One's infrastructure planning process and Hydro One indicated they will provide further information in the following weeks.
Blenheim BIA Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent, Blenheim BIA (Council Rep.)	2020-03-17	Email	Hydro One informed the Councillor Ceccacci of the cancellation of the Community Information Centres due to recent public health developments. Hydro One indicated that details on when the meetings will be rescheduled will be provided and the project team remains available to answer questions.
Blenheim BIA Municipality of Chatham-Kent	Anthony Ceccacci - Municipality of Chatham-Kent, Blenheim BIA (Council Rep.)	2020-04-20	Email	Hydro One sent the Virtual Information Session Notice to Councillor Ceccacci from the Municipality of Chatham-Kent.
Municipality of Chatham-Kent Ontario Federation of Agriculture	Bruce McAllister - Municipality of Chatham-Kent (Director, Planning Services) Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Don Shropshire - Municipality of Chatham-Kent (Chief Administrative Officer) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Mary Clare Latimer - Municipality of Chatham-Kent Member of the Public	2021-03-16	Email	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and a local landowner, and informed them that they will look into sending the hard copy maps as requested.
Municipality of Chatham-Kent Ontario Federation of Agriculture	Member of the Public Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Mary Clare Latimer - Municipality of Chatham-Kent	2021-04-08	Meeting	Hydro One had a meeting with a property owner, as well as representatives of the Ontario Federation of Agriculture, Councillor Latimer and a community representative, to discuss the route selection for the project and effects to their property. Hydro One spoke to the two route refinements proposed by the property owner, as well as questions related to compensation, routing, tower infrastructure and electric and magnetic fields.
Municipality of Chatham-Kent Tilbury BIA	Mark Authier - Municipality of Chatham-Kent, Tilbury BIA (Council Rep.)	2020-01-17	Email	Hydro One sent Notice of Study Commencement Letter and Map to Councillor Authier of the Municipality of Chatham-Kent.
Municipality of Chatham-Kent Tilbury BIA	Mark Authier - Tilbury BIA (Council Rep.), Municipality of Chatham-Kent	2020-03-17	Email	Hydro One informed Councillor Authier from the Municipality of Chatham-Kent of the cancellation of the Community Information Centres due to recent public health developments. Hydro One confirmed details will be provided on when the meetings will be rescheduled and that the project team will remain available to answer questions.
Municipality of Chatham-Kent Tilbury BIA	Mark Authier - Tilbury BIA (Council Rep.), Municipality of Chatham-Kent	2020-04-20	Email	Hydro One sent the Virtual Information Session Notice to Councillor Authier from the Municipality of Chatham-Kent.
Municipality of Lakeshore Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Members of the Public	2021-04-07	Email	Hydro One emailed a member of the public and thanked them for sharing the additional attendee information. Hydro One noted that the invitation will be sent shortly.

Elected Officials - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Municipality of Lakeshore Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Kirk Walstedt - Municipality of Lakeshore (Councillor, Ward 5) Linda McKinlay - Municipality of Lakeshore (Councillor, Ward 6) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Members of the Public	2021-04-07	Meeting	Hydro One met with property owners, a local developer, local Councillors, and the Ontario Federation of Agriculture to discuss the route selection in the Comber area. The discussion included reviewing the route evaluation process and the development of the criteria and weighting based on input from stakeholders. Residents and local developer requested that Hydro One refine the route to follow an existing transmission line north of Highway 401. Hydro One indicated they will get back to attendees regarding the request to refine the route. Concerns related to community notification, impacts to future development, and health and safety were discussed. Hydro One noted that further information on the Municipality's future plans and would be beneficial. Councillors indicated they will follow up with staff.
Brookfield Renewable Comber Wind Farm Municipality of Chatham-Kent Ontario Legislative Assembly	Mary Clare Latimer - Municipality of Chatham-Kent Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington) Shuwen Sun - Brookfield Renewable (Operations Manager) Members of the Public	2020-11-05	Virtual Information Session (VIS)	A Virtual Information Session and live discussion was held, where Hydro One presented an update on the Project and Class EA process including the route evaluation criteria, refinements to the route alternatives that had been made, upcoming project milestones and next steps.
Ministry of Energy, Northern Development and Mines (ENDM)	Lesley Williams - Ministry of Energy, Northern Development and Mines (ENDM) (Executive Director, Energy and Mining) Shoshana Pasternak - Ministry of Energy, Northern Development and Mines (ENDM) Steen Hume - Ministry of Energy, Northern Development and Mines (ENDM) Stephen Rhodes - Ministry of Energy, Northern Development and Mines (ENDM) (Deputy Minister)	2021-05-18	Meeting	Hydro One presented an update to the group on the status of our development, including the breadth of engagement and consultation undertaken thus far in the project. We focused on how we arrived at Route 2A, and mentioned high level concerns raised by Lakeshore. Only one question asked by the deputy, which was where the approximate paralleling of the idle line would occur.
Ontario Legislative Assembly	Jody Percy - Ontario Legislative Assembly (Constituency Assistant - Essex (MPP Taras Natyshak)) Taras Natyshak - Ontario Legislative Assembly (MPP - Essex)	2020-01-14	Email	Hydro One sent notice of the commencement of the project to MPP Taras Natyshak.
Ontario Legislative Assembly	Daniel Paolini - Kenora-Rainy River Riding Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington) Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls))	2020-01-14	Email	Hydro One sent a letter to MPP Rick Nicholls to notify him of the commencement of the project prior to a meeting with his office.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2020-01-16	Phone	Hydro One had a phone call with the Member of Provincial Parliament for Chatham-Kent- Leamington's staff to provide information on the project.
Ontario Legislative Assembly	Jody Percy - Ontario Legislative Assembly (Constituency Assistant - Essex (MPP Taras Natyshak)) Taras Natyshak - Ontario Legislative Assembly (MPP - Essex)	2020-01-29	Phone	A phone call with MPP Natyshak's staff to discuss the project. Discussion topics included difficulty of working around transmission towers for farmers, and opportunities for the MPP's office to help disseminate project information and updates.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington) Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls))	2020-03-20	Email	Hydro One informed MPP Nicholls of the cancellation of the Community Information Centres due to recent health developments. Hydro One confirmed the project team will remain available to answer questions and the cancellation will be communicated to the public and project mailing list.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington) Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls))	2020-04-21	Email	Hydro One emailed the MPP Rick Nicholls team regarding the project and provided an update on upcoming Virtual Information Sessions (VIS). Hydro One shared the notice for the VIS.
Ontario Legislative Assembly	Jody Percy - Ontario Legislative Assembly (Constituency Assistant - Essex (MPP Taras Natyshak)) Nolan Hennin - Ontario Legislative Assembly (Constituent Services Representative) Taras Natyshak - Ontario Legislative Assembly (MPP - Essex)	2020-04-21	Email	Hydro One emailed the MPP Natyshak team and provided an update on the project, including notice of the upcoming Virtual Information Sessions (VIS). The notice for the VIS was provided.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2020-07-17	Email	Hydro One emailed MPP Nicholls and shared an update regarding the project.
Ontario Legislative Assembly	Jody Percy - Ontario Legislative Assembly (Constituency Assistant - Essex (MPP Taras Natyshak)) Nolan Hennin - Ontario Legislative Assembly (Constituent Services Representative) Patti Hayes - Ontario Legislative Assembly (Constituency Assistant) Taras Natyshak - Ontario Legislative Assembly (MPP - Essex)	2020-07-17	Email	Hydro One emailed MPP Natyshak and his staff with an update regarding the project.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2020-10-30	Email	MPP Rick Nicholls emailed Hydro One regarding concerns with Electro-magnetic fields (EMF) in relation to health and safety concerns and automatic farm equipment that uses GPS. Hydro followed up with MPP Nicholls to schedule a meeting to discuss questions and concerns.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2020-11-13	Phone	Hydro One had a call with MPP Nicholls and his assistant regarding the project and specific concerns related to electromagnetic fields.

Elected Officials - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-02-26	Meeting	Hydro One had a meeting with MPP Nicholls and provided a briefing on the selection of the preferred route and the next steps. MPP Nicholls advised that he has heard and had conversations with a number of constituents and listed some of their concerns, including the impact to drainage tiles, property values and impacts to agricultural operations. Hydro One explained that drainage tiles and other property features will be taken into consideration and mitigated where possible. Also discussed was what will be included in Hydro One's conversations with property owners, why the other route alternatives were not selected and route refinements. Hydro One advised that they will share their presentation and contact information.
Ontario Legislative Assembly	Jody Percy - Ontario Legislative Assembly (Constituency Assistant - Essex (MPP Taras Natyshak)) Nolan Hennin - Ontario Legislative Assembly (Constituent Services Representative) Taras Natyshak - Ontario Legislative Assembly (MPP - Essex)	2021-02-26	Email	Hydro One emailed MPP Natyshak's office on the selection of the preferred route and upcoming Virtual Open House and Live Discussion. Hydro One shared the invitation and detailed maps of the preferred route, and indicated they would be happy to schedule a time to further share information on the route selection process and next steps
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington) Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls))	2021-02-26	Email	Hydro One emailed MPP Nicholls on the selection of the preferred route and upcoming Virtual Open House and Live Discussion. Hydro One shared the invitation and detailed maps of the preferred route, and indicated they would be happy to schedule a time to further share information on the route selection process and next steps.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-02-26	Email	Hydro One emailed the MPP Nicholls Team and shared the invitation to the upcoming Virtual Open House and Live Discussion. Hydro One provided links to the Open House and presentation, and shared the notice and detailed maps of the preferred route.
Ontario Legislative Assembly	Jody Percy - Ontario Legislative Assembly (Constituency Assistant - Essex (MPP Taras Natyshak)) Nolan Hennin - Ontario Legislative Assembly (Constituent Services Representative)	2021-02-26	Email	Hydro One emailed MPP Natyshak's team to share further information on the project and to provide the invitation to the upcoming Virtual Open House and Live Discussion. Included in the email were detailed maps of the preferred alternative and the Notice of Open House and Live Discussion.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-03-03	Email	Hydro One emailed MPP Nicholls and thanked him for speaking with the project team. Hydro One shared the presentation slides from the meeting, as well as detailed maps and the link to the interactive map.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-03-16	Meeting	Hydro One had a meeting with MPP Nicholls to discuss the new comments and concerns that he has been receiving from the community. Some of the concerns included a media article that indicates farmers are in favor of the project, the proximity of the line to homes, the impact the line will have on farmers' contracts with distributors, future growth tile drainage, reception interference and tower design.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-04-14	Phone	Hydro One spoke with MPP Nicholls to prepare for meetings with residents.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington) Member of the Public	2021-04-16	Meeting	Hydro One and MPP Nicholls had a meeting with a member of the public to discuss their concerns with the new transmission line. Hydro One staff spoke to health and safety questions, and indicated that health agencies and many reputable scientific organizations around the world have concluded that the scientific research does not demonstrate that electric and magnetic fields cause or contribute to adverse health effects. During the meeting, Hydro One also addressed questions related to property values and visual impacts.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington) Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls)) Members of the Public	2021-04-16	Meeting	Hydro One and MPP Nicholls had a meeting with members of the public to discuss their concerns with the new transmission line. Residents requested the route be refined and shifted to the north to follow another transmission line and Hydro One indicated they would provide a response on this request. Residents also expressed concerns with effects to agricultural operations, effects to vegetation and electric and magnetic fields (EMF). To which Hydro One provided additional information on compatible versus incompatible vegetation, and that health agencies have concluded that the scientific research does not demonstrate that EMFs cause or contribute to adverse health effects. A question was also asked about the potential to bury the transmission line, to which Hydro One replied that this was not a viable option for the Chatham to Lakeshore project.
Ontario Legislative Assembly	Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls)) Members of the Public	2021-04-16	Meeting	Hydro One and MPP Nicholls' office had a meeting with members of the public to discuss their concerns with the new transmission line. Their concerns related to property impacts, crossing types, tower locations, project need, the use of the old railway and construction impacts. It was also noted that there is concern from residents regarding the route selection and an inquiry was made about the possibility of changing the route. Hydro One clarified that the existing transmission lines north of the 401 and west of Tilbury were in fact not idle. They also stated that they could provide some information from the analyses previously done to assess the former rail corridor that determined it was not a viable option for the new transmission line route.
Ontario Legislative Assembly	Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls)) Members of the Public	2021-04-16	Meeting	Hydro One and MPP Nicholls' office had a meeting with members of the public to discuss their concerns with the new transmission line. Their concerns included crossing types, tile drainage, municipal drains, tower placement/height, impacts to agricultural operations and businesses, equipment operation and safety and project need. The project team was also asked about using the old railway, revising the line and switching route alternatives.
Ontario Legislative Assembly	Member of the Public Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-04-19	Email	A member of the public emailed Hydro One and thanked the Hydro One team for the virtual meeting. The member of the public identified a conservation woodlot and data related to long-term land uses as areas of concern.

Elected Officials - Record of Consultation

Organisation	Stakeholders	Date	Type of communication	Summary
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-04-19	Phone	Hydro One spoke with MPP Nicholls about the questions and comments raised on the route selection for the project.
Ontario Legislative Assembly	Rick Nicholls - Ontario Legislative Assembly (MPP - Chatham-Kent-Leamington)	2021-05-25	Email	Hydro One emailed MPP Nicholls and shared a copy of the presentation slides and fact sheet ahead of the presentation to the Municipality of Lakeshore.
Ontario Legislative Assembly	Sue Adamson - Ontario Legislative Assembly (Constituency Assistant - Chatham-Kent-Leamington (MPP Rick Nicholls))			
Ontario Legislative Assembly	Rick Nicholls - Kenora-Rainy River Riding	2021-05-25	Meeting	Hydro One held a call with MPP Nicholls to review Hydro One's findings of the proposed route diversions suggested by the Municipality of Lakeshore and share information on how Hydro One would be able to install fibre optic telecommunication cables on the new transmission towers for the Chatham to Lakeshore line which can be an enabler for improving broadband capacity in the area by providing the 'backbone' for future broadband infrastructure. Feedback from residents in Chatham was also discussed.

Bkejwanong (Walpole Island First Nation) Ministry of Energy, Northern Development and Mines (ENDM) Ministry of Government and Consumer Services Ontario Legislative Assembly	Arlene Dodge - Bkejwanong (Walpole Island First Nation) Bkejwanong (Walpole Island First Nation) Caitlin Beresford Charles Sampson - Bkejwanong (Walpole Island First Nation) (Chief) Daniel Deleary - Bkejwanong (Walpole Island First Nation) (Special Projects Coordinator) David McIntosh - Ministry of Government and Consumer Services (Director, Realty Policy Branch) Dean Jacobs - Bkejwanong (Walpole Island First Nation) (Consultation Manager) Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) James Jenkins - Bkejwanong (Walpole Island First Nation) (Director of Operations) Janet Macbeth - Bkejwanong (Walpole Island First Nation) (Project Review Coordinator) Kim Fullerton Ron Soney - Bkejwanong (Walpole Island First Nation) Samir Adkar - Ministry of Energy, Northern Development and Mines (ENDM) (Director (A) - Energy Networks and Indigenous Policy) Valarie Waboose - Bkejwanong (Walpole Island First Nation)	2021-02-25	Letter	Mark Poweska received a letter from The Council of Three Fires, Chief Sampson of Walpole Island, dated February 25, 2021, in relation to the Chatham x Lakeshore line and the inclusion of the Haudenosaunee on the delegation letter. In the letter, Chief Sampson voiced his concerns regarding the November 2019 delegation letter from the Crown (ENDM) to Hydro One, and the inclusion of the Haudenosaunee in Three Fires Confederacy territory. Chief Sampson stated that he understands that Hydro One takes direction from the Crown on such matters, and as such had written to Minister Rickford to express his concerns. Chief Sampson stated that overall the First Nation is supportive of the project and was interested in pursuing equity participation opportunities, but stated that Walpole Island First Nation did not see how they could move forward in showing this support as long as the Haudenosaunee are still participating in consultation and accommodation discussions on the project.
Bkejwanong (Walpole Island First Nation) Independent Electricity System Operator (IESO) Ontario Legislative Assembly	Daniel Miskokomon - Bkejwanong (Walpole Island First Nation) (Chief) Greg Rickford - Ontario Legislative Assembly (Minister of Energy, Mines, Northern Development and Mines) Peter Gregg - Independent Electricity System Operator (IESO) (President and CEO)	2020-07-07	Letter	Chief Daniel Miskokomon sent a signed letter dated July 7 2020 to Mark Poweska regarding his disappointment with HONI's ongoing relationship with WIFN. Within the letter is the attachment of a record of Hydro One's engagement with WIFN regarding proposed projects over the last 4 years within WIFN traditional territory. Chief notes HONI's Indigenous corporate strategy of being a trusted partner and expresses disappointment about delays in negotiating a Memorandum of Understanding and slow progress in entering an equity partnership with CxL transmission line. Chief requests a meeting with Mark Poweska to discuss finalizing an equity partnership and other projects within their traditional territory.

Category	Organisation	Stakeholders	Date	Type of communication	Summary
Business	Belle River Wind	Jonathan Miranda - Belle River Wind (Facility Manager)	2020-03-10	Email	Hydro One sent the Notice of Commencement flyer and map and the Community Information Centre invitation and newspaper ad to Belle River Wind.
Business	Belle River Wind	Jonathan Miranda - Belle River Wind (Facility Manager)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to Belle River Wind and indicated a forum will occur in the coming months either in person or online, with details on the events being provided when available. Hydro One also confirmed the project team remains available to discuss the project.
Business	Belle River Wind	Jonathan Miranda - Belle River Wind (Facility Manager)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Jonathan Miranda of Belle River Wind.
Business	Belle River Wind	Jonathan Miranda - Belle River Wind (Facility Manager)	2020-10-29	Email	Hydro One emailed Belle River Wind and shared the invitation for the upcoming virtual open house and live discussion. Hydro One noted that they have made four refinements to the route alternatives and shared the link to the project website for more information.
Business	Belle River Wind	Jonathan Miranda - Belle River Wind (Facility Manager)	2021-03-02	Email	Hydro One emailed Belle River Wind and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement.
Business	Belle River Wind	Jonathan Miranda - Belle River Wind (Facility Manager)	2021-03-02	Email	Belle River Wind emailed Hydro One and indicated they will be in attendance of the Virtual Open House.
Business	Belle River Wind	Jonathan Miranda - Belle River Wind (Facility Manager)	2021-03-03	Email	Hydro One emailed Belle River Wind and thanked them for the confirmation and indicated they can reach out to discuss the project at any time.
Business	Brookfield Renewable	David Hurd - Brookfield Renewable (Senior Manager, Construction - North America) Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-01-28	Email	Hydro One sent Notice of Commencement to Brookfield Renewable Energy.
Business	Brookfield Renewable	David Hurd - Brookfield Renewable (Senior Manager, Construction - North America) Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Brookfield Renewable Energy Group.
Business	Brookfield Renewable	David Hurd - Brookfield Renewable (Senior Manager, Construction - North America) Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to Brookfield Renewable Energy Group and informed them that the project team will be available to discuss the project.
Business	Brookfield Renewable	David Hurd - Brookfield Renewable (Senior Manager, Construction - North America) Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Brookfield Renewable Energy Group.
Business	Brookfield Renewable Comber Wind Farm	Ann-Marie Reid - Comber Wind Farm Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-12-09	Email	Hydro One emailed Brookfield Renewable/Comber Wind LP and indicated they received a comment from them during the Virtual Discussion with a request to follow up. Hydro One noted they have not received any comments to date; however, they offered to set up a call to discuss the project. Hydro One provided a status update on the project and included the project website link and previously sent email with the Notice of Study Commencement.
Business	Brookfield Renewable Comber Wind Farm	Ann-Marie Reid - Comber Wind Farm Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-12-10	Email	Hydro One emailed Comber Wind LP/Brookfield Renewable and thanked them for the information. Hydro One requested confirmation regarding the collection system and shared a related document.
Business	Brookfield Renewable Comber Wind Farm	Ann-Marie Reid - Comber Wind Farm Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-12-10	Email	Comber Wind LP/Brookfield Renewable emailed Hydro One and noted that the main purpose of their communication was to provide the contact information. They informed Hydro One that depending on the preferred route, there may be some impact and their objective is to minimize this as much as possible. A map of their overhead was provided and it was requested that Hydro One share a map of the planned tower locations and access routes once the preferred route is determined.
Business	Brookfield Renewable Comber Wind Farm	Ann-Marie Reid - Comber Wind Farm Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-12-10	Email	Hydro One emailed Comber Wind LP/Brookfield Renewable and requested confirmation of whether they could provide shapefiles.
Business	Brookfield Renewable Comber Wind Farm	Ann-Marie Reid - Comber Wind Farm Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-12-10	Email	Comber Wind LP/Brookfield Renewable emailed Hydro One and shared a document with GPS coordinates for turbine/collector system locations and confirmed the information for the collection system and substation.
Business	Brookfield Renewable Comber Wind Farm	Ann-Marie Reid - Comber Wind Farm Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2020-12-10	Email	Hydro One emailed Comber Wind LP/Brookfield Renewable and informed them that they will review the provided information and let them know if they have any further questions.
Business	Brookfield Renewable Comber Wind Farm	Ann-Marie Reid - Comber Wind Farm Kevin Healey - Brookfield Renewable Shuwen Sun - Brookfield Renewable (Operations Manager)	2021-03-02	Email	Hydro One emailed Comber Wind Farm and provided an update regarding the project, the selection of the preferred route and the upcoming Virtual Open House and Live Discussion. The preferred route map and invitation to the upcoming engagement were shared.
Business	Business Resource Centre of Essex County	Diane Malenfant - Business Resource Centre of Essex County	2020-01-28	Email	Hydro One sent notice of commencement for Class Environmental Assessment to Business Resource Centre of Essex County.
Business	Business Resource Centre of Essex County	Diane Malenfant - Business Resource Centre of Essex County	2021-05-21	Email	Hydro One sent an email to provide an update on the work conducted to date, the selection of the preferred route and where to find further information.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-01-16	Email	Lisa DeMarco states that she and her firm have been retained by Walpole Island First Nation to assist them on the consultation of CxL and other Hydro One matters. Lisa asked if there will be capacity funding available for CxL consultation.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-01-20	Phone	Derek Chum left a voicemail with Lisa DeMarco confirming that there will be capacity funding available for Walpole Island First Nation in regards to CxL consultation.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-01-21	Email	Lisa DeMarco requested written confirmation of the WIFN capacity funding availability.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-01-24	Email	Derek Chum sent follow up email to Lisa DeMarco that there will be capacity funding available for CxL consultations with Walpole Island First Nation.

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-02-05	Letter	Mark Poweska responding to Lisa DeMarco's letter dated January 31, 2020 that Hydro One is looking forward to working with Walpole Island First Nation on CxL. Mark advised that Hydro One has reached out regarding to the project and will have ongoing consultation as the project develops. Derek Chum will reach out with a draft Capacity Funding Agreement, and attached a draft. Mark restated Hydro One will not divest existing transmission and distribution assets. Hydro One is open to discussing partnerships and participation on CxL.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-03-09	Letter	Jason Fitzsimmons response to Lisa DeMarco's letter dated March 3rd, 2020. Letter advises that the EA process will allow Hydro One to understand the potential impacts of the project which will inform accommodation measures. Letter states that the project is in the preliminary phase and offers an early meeting with Chief Miskokomon and Lisa DeMarco with Derek Chum.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-01	Email	Lisa Demarco asking if the BCR was executed in May, would the effective date of CFA be in May. Lisa to follow up with Michael ENGELBERG when she received signed BCR.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-24	Email	Walpole Island First Nation emailed Hydro One and shared confirmation of who would participate as monitors for the field surveys on June 26 and 27, 2020.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-25	Email	Lisa DeMarco of Walpole Island First Nation emailed Hydro One to state that her understanding with regards to the survey was that Aimee and Mike would be reaching out to Dillon directly as per a prior email.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-06-29	Email	Lisa Demarco of Walpole Island First Nation replied to the project team and stated that she would provide an answer regarding the status of the community field survey monitor.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-09-10	Email	Hydro One offering to meet regarding economic participation opportunities to Walpole Island First Nation representative.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-09-10	Email	Lisa DeMarco responds to Hydro One's offer to meet regarding economic participation maintaining Walpole Island First Nation's interest in equity partnership in the project and asked which other First Nations are being offered the same meeting.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-09-10	Email	Hydro One responded to Lisa DeMarco that Hydro One will confirm with the Crown if the Crown's Delegation list for CxL can be shared with her. Hydro One invites Lisa DeMarco to accept a meeting offer to start the conversation on economic participation.
Business	DeMarco Allan LLP	Lisa DeMarco - DeMarco Allan LLP (Representative)	2020-09-10	Email	Lisa DeMarco responded back to Hydro One noting that the Crown's Delegation letter should be public information to share and will provide further instructions for a call with Walpole Island First Nation regarding economic participation.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-08-31	Email	Enbridge emailed Hydro One with their availability for a conference call.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-08-31	Email	Hydro One emailed Enbridge and thanked them for confirming their availability. Hydro One informed Enbridge that they will send the invitation and Enbridge could then forward it to the appropriate individuals.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-08-31	Email	Enbridge emailed Hydro One to acknowledge their email regarding the conference call invitation.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-09-01	Phone	Hydro One PM and Environmental Planner held a conference call with an engineer from Enbridge's corrosion management group. The Hydro One staff introduced the project and gave a brief overview of the route evaluation and selection process, and stated that Enbridge/UG input regarding any potential conflicts could be incorporated into the route selection as well as construction planning once the preferred route had been selected. Enbridge staff mentioned that they were responsible for legacy Union Gas assets in the SW, and that these were the only assets in the area (ie, no other Enbridge assets). Hydro One staff agreed to share shapefiles of the CxL route alternatives with Enbridge, so that they could assess and determine what assets or potential conflicts may be present. Hydro One asked for shapefiles of Enbridge assets in the area (including smaller, distribution-level pipelines) and Enbridge staff stated that they would look into this. Hydro One staff also agreed to share any notes/records from discussions with Union Gas staff on the Lakeshore TS project, as many of those staff involved form Union Gas had moved on to new roles.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-09-01	Email	Hydro One emailed Enbridge and shared shapefiles of the route alternatives and the Record of Consultation from the Lakeshore TS project. Hydro One noted that any potential conflicts or assets within the study area that are identified would be helpful.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-09-04	Email	Hydro One emailed Enbridge and requested that Enbridge review the attached file and confirm assets.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-09-25	Email	Hydro One emailed Enbridge to request if they have become aware of any potential conflicts or Enbridge assets within the study area, as this would assist Hydro One in identifying any potential conflicts or areas requiring further attention.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-10-02	Email	Hydro One emailed Enbridge Gas Inc. to follow up on whether they had any comments or concerns related to the project. Hydro One also requested any information they could provide regarding their assets in the study area.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-10-20	Email	Hydro One emailed Enbridge Gas Inc. to follow up on previously sent emails and to confirm whether they had any further comments on the project. Hydro One requested information on Enbridge assets in the study area.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-11-10	Phone	Paul left a voicemail for Scott Mclean at Enbridge, following upon their previous discussions. Paul reiterated that Hydro One was hoping to obtain information Enbridge assets within the CxL study area (i.e., all route alternatives) and whether Enbridge staff foresaw any risks or potential conflicts with their assets and any of the CxL route alternatives.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2020-11-10	Email	Hydro One emailed Enbridge/Union Gas and indicated they left a voicemail. Hydro One inquired whether they were able to look at the spatial information sent in September and if they had identified any potential conflicts, risks or other issues for any of the route alternatives. Hydro One noted that they hope to select the preferred route at the end of the year and asked if they had any spatial information they could provide for the assets in the area.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2020-11-30	Email	Hydro One emailed Enbridge/Union Gas to follow up on whether they would be able to provide further information on Enbridge assets in the Chatham to Lakeshore area. Hydro One noted they are beginning the analyses to support the evaluation of the routes.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2020-11-30	Phone	Paul left a voicemail for Scott Mclean at Enbridge, following up on his request for information on Enbridge assets or potential conflicts that should be factored into the route evaluation for the CxL project.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2020-11-30	Phone	Paul left a voicemail message for Kyle Billion to follow up on his recent emails and seek further review/input or information on Enbridge assets in the Chatham-Lakeshore area that may potentially interact or conflict with the CxL route alternatives, and therefore be taken into consideration in the route selection.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc. Scott Prail (Dillon Consulting Ltd.) Wayne Passmore - Enbridge Gas Inc. (Specialist, Economic Development)	2021-01-06	Email	Hydro One emailed Enbridge and shared the route option shapefiles as requested. Hydro One noted that the shapefiles were previously shared with other Enbridge staff for their review and comment, and the original intent of providing the shapefiles was to confirm if Enbridge had any concerns. Hydro One requested that if any potential conflicts be shared as soon as possible.

Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Wayne Passmore - Enbridge Gas Inc. (Specialist, Economic Development)	2021-01-26	Email	Hydro One emailed Enbridge Gas Inc. regarding logistics for an upcoming meeting.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Wayne Passmore - Enbridge Gas Inc. (Specialist, Economic Development)	2021-01-28	Meeting	Hydro One conducted an early briefing with Enbridge staff to discuss the preliminary preferred route for the Chatham x Lakeshore project, and potential implications with Enbridge assets or upcoming projects. Enbridge staff did not identify any immediately apparent conflicts with the CxL preferred route, but stated that they would assess in greater detail and discuss further with Hydro One. Enbridge staff requested some additional information on Hydro One's plans for the Lakeshore TS property, and Hydro One staff stated they would provide some additional information.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Wayne Passmore - Enbridge Gas Inc. (Specialist, Economic Development)	2021-02-03	Email	Hydro One emailed Enbridge Gas Inc. and followed up on a meeting and shared a drawing for their reference.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Wayne Passmore - Enbridge Gas Inc. (Specialist, Economic Development)	2021-02-04	Email	Enbridge Gas Inc. emailed Hydro One regarding the provided drawing and information.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Wayne Passmore - Enbridge Gas Inc. (Specialist, Economic Development)	2021-02-04	Email	Hydro One emailed Enbridge Gas Inc. and noted that if they would like to discuss further then to inform them.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Matt Thomas - Enbridge Gas Inc. Wayne Passmore - Enbridge Gas Inc. (Specialist, Economic Development)	2021-02-04	Email	Enbridge Gas Inc. emailed Hydro One and requested information regarding the location of facilities in relation to their natural gas facilities.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-02-09	Email	Enbridge Gas Inc. emailed Hydro One and informed them that they will be unable to attend the upcoming Technical Advisory Committee workshop.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-02-10	Email	Hydro One emailed Enbridge Gas Inc. and indicated that they are welcome to reach out if they would like to discuss the project.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-02-17	Email	Enbridge emailed Hydro One and provided a list of areas requiring an AC study to ensure none of the facilities will be negatively impacted.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-02-17	Email	Hydro One emailed Enbridge and requested availability for a meeting.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-02-18	Email	Enbridge emailed Hydro One and provided availability for a meeting. It was requested that Hydro One send the invitation.
Business	Enbridge Gas Inc.	Scott Mclean - Enbridge Gas Inc.	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-02-25	Meeting	Hydro One staff had a virtual meeting with Enbridge staff to discuss the preferred route for the new 230 kV transmission line, and some areas where Enbridge staff had raised potential concerns to be discussed. Enbridge staff provided a list of points where the new Tx line would cross their existing assets, and noted that attention would be required to these areas. Enbridge staff agreed to provide Hydro One with more detailed information on these assets to be considered during Hydro one's detailed design. Enbridge staff also noted that a corrosion study may be required for a section of existing pipelines near the Lakeshore station, and would provide further information on this study shortly. The two teams agreed to reconvene once the information had been exchanged and assessed.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-02-25	Email	Hydro One emailed Enbridge Gas Inc. and shared the draft meeting notes from the meeting held that morning.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-03-01	Email	Enbridge Gas Inc. emailed Hydro One and requested confirmation of the preferred route.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-03-01	Email	Enbridge Gas Inc. emailed Hydro One and thanked them for confirming the preferred route.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc.	2021-03-01	Email	Hydro One emailed Enbridge Gas Inc. and noted that the variations for Route 2 have a few sections which overlap and they were broadly grouped together as Route 2.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-03-02	Email	Enbridge Gas Inc. emailed Hydro One and shared screenshots of crossing locations.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-03-15	Email	Hydro One emailed Enbridge Gas Inc. and thanked them for providing the information. Hydro One provided the finalized meeting notes and requested for follow-up items, including tower setback requirements.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-03-15	Email	Enbridge Gas Inc. emailed Hydro One and provided information regarding offset distance. It was noted that they will provide information regarding the remaining details once finalized.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-03-29	Email	Enbridge Gas Inc. emailed Hydro One and informed them that they have received the proposal from the contractor regarding the corrosion study. They invited Hydro One to set up a call.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-03-29	Email	Hydro One emailed Enbridge Gas Inc. and thanked them for the update. Hydro One requested availability for a meeting.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-04-01	Email	Enbridge Gas Inc. emailed Hydro One and provided availability for a meeting.

Category	Organisation	Stakeholders	Date	Type of communication	Summary
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-04-01	Email	Hydro One emailed Enbridge Gas Inc. and thanked them for confirming availability. Hydro One informed them that the meeting invitation has been sent.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-04-06	Email	Enbridge Gas Inc. emailed Hydro One and shared the proposal from Corrosion Services. Enbridge requested that Hydro One advise of any questions or concerns and if Hydro One would like to move forward.
Business	Enbridge Gas Inc.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-04-06	Meeting	Hydro One and Enbridge staff met to discuss next steps required in coordination between the two organizations, regarding Hydro One's Chatham x Lakeshore new transmission line. Enbridge staff presented an overview of the corrosion study proposal, and later sent it to Hydro One for review. The two teams also discussed the panhandle crossing location near Tilbury, and Enbridge staff agreed to provide some further information to assist Hydro One's engineers in their detailed design of the line and structures in this area.
Business	Enbridge Gas Inc. Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South) Greg Ward - Union Gas Ltd. Justin Cook - Enbridge Gas Inc. (Field Supervisor) Renée Miller - Union Gas Ltd. (Electrical Engineer, Stations Engineering)	2020-07-08	Email	Hydro One emailed Union Gas in order to share information about the project and confirm the appropriate Union Gas contacts to ensure better project and asset coordination.
Business	Enbridge Gas Inc. Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South) Greg Ward - Union Gas Ltd. Justin Cook - Enbridge Gas Inc. (Field Supervisor) Kyle Billion - Enbridge Gas Inc. Renée Miller - Union Gas Ltd. (Electrical Engineer, Stations Engineering)	2020-07-10	Email	Enbridge emailed Hydro One and stated that their corrosion department would reach out to Hydro One to discuss the potential impacts.
Business	Enbridge Gas Inc. Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Kyle Billion - Enbridge Gas Inc.	2020-07-10	Email	Enbridge Gas replied to Hydro One and stated that they would oblige in project coordination with Hydro One and enquired whether it would be possible to arrange a meeting to gain better understanding of the scope of work and the locations.
Business	Enbridge Gas Inc. Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South) Greg Ward - Union Gas Ltd. Justin Cook - Enbridge Gas Inc. (Field Supervisor) Kyle Billion - Enbridge Gas Inc. Renée Miller - Union Gas Ltd. (Electrical Engineer, Stations Engineering)	2020-07-10	Email	Hydro One emailed Enbridge Gas and provided a general update on the project schedule and stated to further information on the project.
Business	Enbridge Gas Inc. Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Kyle Billion - Enbridge Gas Inc.	2020-07-10	Email	Hydro One corresponded with Enbridge Gas regarding project coordination and shared a link to their project website to share updates.
Business	Enbridge Gas Inc. Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Kyle Billion - Enbridge Gas Inc.	2020-08-13	Email	Hydro One emailed Union Gas/Enbridge to follow up on previous emails in which Hydro One provided information on the project. Hydro One noted they can provide assistance in identifying any assets that may pose a conflict with the route alternatives. Hydro One also noted they can arrange a call to discuss.
Business	Enbridge Gas Inc. Union Gas Ltd.	Greg Ward - Union Gas Ltd. Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2020-08-27	Email	Enbridge emailed Hydro One and provided availability for a discussion.
Business	Enbridge Gas Inc. Union Gas Ltd.	Greg Ward - Union Gas Ltd. Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2020-08-31	Email	Hydro One emailed Enbridge and requested confirmation of availability for a conference call.
Business	Enbridge Gas Inc. Union Gas Ltd.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-04-06	Email	Enbridge Gas Inc. emailed Hydro One and identified the staff member responsible for the required pipelines. Enbridge requested that Hydro One identify the area of interest based on the attached image.
Business	Enbridge Gas Inc. Union Gas Ltd.	Kyle Billion - Enbridge Gas Inc. Scott Mclean - Enbridge Gas Inc.	2021-04-06	Email	Hydro One emailed Enbridge Gas Inc. and requested coordinates to identify the pipe line alignment.
Business	Imperial Oil	Brenda Robinson - Imperial Oil (ROW/Community Awareness Administrator) Hallie MacCuaig - Imperial Oil (Surface Land Agent/Community Awareness/ROW Coordinator) Jenny Wyma - Imperial Oil (Commercial Coordinator) Mineral Land General Inbox - Imperial Oil Surface Land General Inbox - Imperial Oil	2020-05-13	Email	Hydro One (HONI) sent the Notice of Commencement and Virtual Information Session Notice to staff from Imperial Oil and provided an overview of the project. HONI noted that during the review of secondary source information, it was identified that the study contains historical petroleum wells that seem to have been registered to Imperial Oil. HONI requested confirmation of whether the facilities and associated infrastructure are still in use.
Business	Imperial Oil	Ranjit S Multani - Imperial Oil	2020-05-25	Email	Mr. Multani of Imperial Oil asked Hydro One if more information about the imperial wells could be shared. Mr. Multani indicated he would have time in the near future to provide more information.
Business	Imperial Oil	Ranjit S Multani - Imperial Oil	2020-05-27	Email	Hydro One responded to Ranjit Multani of Imperial Oil and attached some of the Ministry of Natural Resources and Forestry information used to identify wells and requested for Imperial Oil to confirm of any other assets in the study area. Hydro One also informed Mr. Multani of the Technical Advisory Committee (TAC) and provided an overview of the purpose of the TAC and next steps. Hydro One invited Mr. Multani to participate in the TAC and requested confirmation of participation.
Business	Imperial Oil	Hallie MacCuaig - Imperial Oil (Surface Land Agent/Community Awareness/ROW Coordinator)	2020-05-29	Email	Hallie MacCuaig of Imperial Oil requested that Hydro One provide a well list from the study.

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Business	Imperial Oil	Hallie MacCuaig - Imperial Oil (Surface Land Agent/Community Awareness/ROW Coordinator) Ranjit S Multani - Imperial Oil	2020-06-04	Email	Hydro One followed up with Hallie MacCuaig of Imperial Oil and noted that they previously provided well information to another Imperial Oil staff member (Ranjit Multani). Hydro One indicated that any additional information would be helpful. Hydro One provided the initial evaluation criteria and informational video for the Technical Advisory Committee (TAC) and invited Imperial Oil to participate in the TAC. Hydro One requested confirmation of Imperial Oil's participation and noted that they will continue to provide regular project updates depending on their preference.
Business	Imperial Oil	Hallie MacCuaig - Imperial Oil (Surface Land Agent/Community Awareness/ROW Coordinator) Ranjit S Multani - Imperial Oil	2020-07-22	Email	Hydro One emailed Ranjit Multani of Imperial Oil and requested confirmation regarding Imperial Oil/Esso wells. Additionally, Hydro One requested for the confirmation and any information on wells that were not captured in the Ministry of Natural Resources and Forestry's dataset. Hydro One also asked for confirmation and any information on Imperial Oil/Esso pipelines in the area.
Business	Kruger Energy Inc	J. J. Davis - Kruger Energy Inc (General Manager, Ontario Operations)	2020-03-10	Email	Hydro One sent the Notice of Commencement flyer and maps and the Community Information Centre invitation and newspaper ad to Kruger Energy Inc.
Business	Kruger Energy Inc	J. J. Davis - Kruger Energy Inc (General Manager, Ontario Operations)	2020-03-17	Email	Hydro One sent a Notice of Cancellation for the Community Information Centres to Kruger Energy Inc. and indicated that a forum will occur in the coming months either in person or online, with details being provided when they are available. Hydro One also confirmed the project team remains available to discuss the project.
Business	Kruger Energy Inc	J. J. Davis - Kruger Energy Inc (General Manager, Ontario Operations)	2020-03-18	Email	Kruger Energy Inc. responded to Hydro One's email regarding the cancellation of the Community Information Centres to indicate they will follow up in the upcoming weeks.
Business	Kruger Energy Inc	J. J. Davis - Kruger Energy Inc (General Manager, Ontario Operations)	2020-04-08	Email	Kruger Energy Inc. responded to Hydro One and requested to be kept informed of when the consultations resume.
Business	Kruger Energy Inc	J. J. Davis - Kruger Energy Inc (General Manager, Ontario Operations)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to J.J. Davis of Kruger Energy Inc.
Business	Kruger Energy Inc	J. J. Davis - Kruger Energy Inc (General Manager, Ontario Operations)	2020-10-29	Email	Hydro One emailed Kruger Energy Inc. and provided the invitation to the upcoming virtual open house and live discussion. Hydro One noted that four refinements have been made to the route alternatives and shared the project website link for more information.
Business	Kruger Energy Inc	J. J. Davis - Kruger Energy Inc (General Manager, Ontario Operations)	2021-03-02	Email	Hydro One emailed Kruger Energy Inc. and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement.
Business	Pointe-Aux-Roches Wind LP	Paul Dawson - Pointe-Aux-Roches Wind LP (Operation Manager)	2020-03-10	Email	Hydro One sent the Notice of Commencement flyer and maps and the Community Information Centre invitation and newspaper ad to Pointe-Aux-Roches Wind LP.
Business	Pointe-Aux-Roches Wind LP	Paul Dawson - Pointe-Aux-Roches Wind LP (Operation Manager)	2020-03-17	Email	Hydro one sent the Notice of Cancellation for the Community Information Centres to Pointe-Aux-Roches Wind LP. Hydro One also informed them that the project team will remain available to discuss the project.
Business	Pointe-Aux-Roches Wind LP	Paul Dawson - Pointe-Aux-Roches Wind LP (Operation Manager)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Paul Dawson of Pointe-Aux-Roches Wind LP.
Business	Pointe-Aux-Roches Wind LP	Paul Dawson - Pointe-Aux-Roches Wind LP (Operation Manager)	2020-10-29	Email	Hydro One emailed Pointe-Aux-Roches Wind LP and shared the invitation to the upcoming virtual open house and live discussion. Hydro One noted that they have made four refinements to the route alternatives and provided the link to the project website for more information.
Business	Pointe-Aux-Roches Wind LP	Paul Dawson - Pointe-Aux-Roches Wind LP (Operation Manager)	2021-03-02	Email	Hydro One emailed Eriau Wind LP and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement.
Business	Pointe-Aux-Roches Wind LP	Jason Stoner - Pointe-Aux-Roches Wind LP (Site Manager)	2021-03-03	Email	The new contact for Pointes-Aux-Roches Wind LP emailed Hydro One to inform them of the staff change and that they will review the documents. They requested to be kept informed moving forward.
Business	Pointe-Aux-Roches Wind LP	Jason Stoner - Pointe-Aux-Roches Wind LP (Site Manager)	2021-03-03	Email	Hydro One emailed Pointe-Aux-Roches Wind LP and thanked them for the staff update. Hydro One noted they have updated the contact list.
Business	Pointe-Aux-Roches Wind LP	Jason Stoner - Pointe-Aux-Roches Wind LP (Site Manager)	2021-03-03	Email	Pointe-Aux-Roches Wind LP emailed Hydro One and informed them that they will review the provided documents and let them know if they have any concerns.
Business	Pointe-Aux-Roches Wind LP	Jason Stoner - Pointe-Aux-Roches Wind LP (Site Manager)	2021-03-04	Email	Pointe-Aux-Roches Wind LP emailed Hydro One and informed them that they have verified that the preferred route does not cross through any of their wind farms in the area. Pointe-Aux-Roches Wind LP requested confirmation of any projected business interruptions and the proposed timeline for construction.
Business	Raleigh Mobile Homes Limited	Colleen Martin - Raleigh Mobile Homes Limited (Vice President)	2020-09-02	Email	Hydro One responded to a local stakeholder's email in which they requested an in-person meeting to discuss their concerns about Route Alternative 2A. Hydro One informed them that they are planning dates to be in the community and in the interim, would appreciate an opportunity to schedule a virtual meeting.
Business	Raleigh Mobile Homes Limited	Colleen Martin - Raleigh Mobile Homes Limited (Vice President)	2020-10-15	Email	Hydro One emailed local stakeholder to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One provided the availability of the project team members to meet at their property and noted that they will be hosting two upcoming virtual engagement opportunities.
Business	Raleigh Mobile Homes Limited	Colleen Martin - Raleigh Mobile Homes Limited (Vice President) Members of the Public	2020-10-15	Email	Hydro One emailed members of the public and provided an update on the project. Hydro One noted that based on what they have learned, they have made four refinements to the route alternatives and identified the need to expand the Chatham Switching Station. Hydro One provided the link to the interactive map and attached the refined route map. Hydro One also noted that there will be two upcoming virtual engagement opportunities and an invitation will be sent for both events.
Business	Raleigh Mobile Homes Limited	Colleen Martin - Raleigh Mobile Homes Limited (Vice President) Members of the Public	2020-10-15	Email	Hydro One emailed members of the public and provided an update on the project. Hydro One noted that based on what they have learned, they have made four refinements to the route alternatives and identified the need to expand the Chatham Switching Station. Hydro One provided the link to the interactive map and attached the refined route map. Hydro One also noted that there will be two upcoming virtual engagement opportunities and an invitation will be sent for both events.
Business	Raleigh Mobile Homes Limited	Colleen Martin - Raleigh Mobile Homes Limited (Vice President) Members of the Public	2020-10-26	Email	Hydro One emailed members of the public and invited them to the Virtual Open House and Live Discussion. Hydro One shared the invitation and links to the open house and presentation.
Business	Raleigh Mobile Homes Limited	Colleen Martin - Raleigh Mobile Homes Limited (Vice President)	2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
Business	Raleigh Mobile Homes Limited	Colleen Martin - Raleigh Mobile Homes Limited (Vice President)	2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager)	2020-03-10	Email	Hydro One sent the Notice of Commencement flyer and maps and the Community Information Centre invitation and newspaper to Romney Wind Energy Centre.
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager)	2020-03-11	Email	Mathieu Lesperance of Romney Wind Energy Centre thanked Hydro One for the notification regarding the Community Information Centres and noted that the information will be forwarded to Sebastien Goupil-Dumont.
Business	Romney Wind Energy Centre	Sebastien Goupil-Dumont - Romney Wind Energy Centre (Generation Manager) Mathieu Lespérance - Romney Wind Energy Centre (Program Manager)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to Romney Wind Energy Centre. Hydro One also informed them that the project team will remain available to discuss the project.
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Mathieu Lesperance of Romney Wind Energy Centre.
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager)	2020-04-29	Email	Mathieu Lesperance of Romney Wind Energy Centre provided Hydro One with a new person of contact for future communications (Sebastien Goupil-Dumont).
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager) Sebastien Goupil-Dumont - Romney Wind Energy Centre (Generation Manager)	2020-04-29	Email	Hydro One provided the newly appointed contact, Sebastien Goupil-Dumont of Romney Wind Energy Centre, with the project website.

Interest Groups, Businesses, School Boards and Utilities - Record of Consultation

Category	Organisation	Stakeholders	Date	Type of communication	Summary
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager) Sebastien Goupil-Dumont - Romney Wind Energy Centre (Generation Manager)	2020-04-29	Email	Sebastien Goupil-Dumont of Romney Wind Energy Centre thanked Hydro One for reaching out and indicated that they will review the website and get back to Hydro One with any questions.
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager)	2020-10-29	Email	Hydro One emailed Romney Wind Energy Centre and shared the invitation to the Virtual Open House and live discussion. Hydro One noted that they have made four refinements to the route alternatives and provided the project website link for more information.
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager)	2021-03-02	Email	Hydro One emailed Romney Wind Energy Centre and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement.
Business	Romney Wind Energy Centre	Mathieu Lespérance - Romney Wind Energy Centre (Program Manager) Sebastien Goupil-Dumont - Romney Wind Energy Centre (Asset Manager)	2021-03-02	Email	Hydro One emailed another staff member from Romney Wind Energy Centre and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement.
Business	South Kent Wind LP	South Kent Wind LP	2020-03-05	Email	Hydro One sent the Notice of Commencement flyer and map, and the Community Information Centre invitation and newspaper ad to South Kent Wind LP.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-03-10	Email	Hydro One sent the Notice of Commencement flyer and map and the Community Information Centre invitation and newspaper ad to South Kent Wind LP.
Business	South Kent Wind LP	James Edwards - South Kent Wind LP (Lead Tech and Assistant Facility Manager) Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-03-10	Email	South Kent Wind LP responded to Hydro One and indicated that Routes 1 and 3 may pose a challenge with their 230kv overhead collection line and indicated this could be discussed at the information centre.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-03-17	Email	Hydro One sent the Notice of Cancellation of the Community Information Centres to South Kent Wind LP. Hydro One also requested a conference call to discuss the project and any interactions with South Kent Wind facilities.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-03-17	Email	South Kent Wind LP agreed to a video meeting and requested if the meeting could be set up in the near future.
Business	South Kent Wind LP	James Edwards - South Kent Wind LP (Lead Tech and Assistant Facility Manager) Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-04-08	Phone	The Hydro One project team and account exec held a conference call with the South-Kent Wind Farm Facility manager and assistant facility manager. Hydro One staff gave an overview of the need for the project, previous regional planning work done by IESO, the current status of the Class EA and how the route alternatives were identified.
					The group discussed potential interactions between the route alternatives proposed by Hydro One, and the existing 230kV collection line for the South Kent wind farm. South-Kent staff agreed to provide additional information on the collector line to Hydro One, so that Hydro One engineers could assess and identify potential methods to avoid or cross the existing collector line.
Business	South Kent Wind LP	James Edwards - South Kent Wind LP (Lead Tech and Assistant Facility Manager) Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-04-08	Email	Hydro One sent the meeting minutes for the introductory call and a summary of the follow-up action items to South Kent Wind LP.
Business	South Kent Wind LP	James Edwards - South Kent Wind LP (Lead Tech and Assistant Facility Manager) Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-04-09	Email	South Kent Wind LP provided the requested information for the six possible crossing points suggested during the introductory call with Hydro One.
Business	South Kent Wind LP	James Edwards - South Kent Wind LP (Lead Tech and Assistant Facility Manager) Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-04-09	Email	Hydro One responded to South Kent Wind LP to confirm the receipt of the plan profile prints and indicated they will inform them if other information is required.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Kevin Aikenhead of South Kent Wind LP.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-10-29	Email	Hydro One emailed South Kent Wind LP and provided the invitation to the upcoming virtual open house and live discussion. Hydro One noted that four refinements have been made to the route alternatives and one thing in particular the refinements were meant to address is the potential crossings of the South Kent Wind Farm 230 kV collector line. Hydro One noted that there may be other crossings still being evaluated and factored into the assessment.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-11-03	Email	South Kent Wind LP emailed Hydro One and confirmed their collector line travels under Highway 401 and others as noted in the email sent by Hydro One. South Kent Wind LP indicated they will check out the updates provided by Hydro One.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2020-11-03	Email	Hydro One emailed South Kent Wind LP and noted that they plan to have the preferred route selected early in the new year.
Business	South Kent Wind LP	Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2021-03-02	Email	Hydro One emailed South Kent Wind LP and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement.
Business	South Kent Wind LP	Darryl Ireland - South Kent Wind LP James Edwards - South Kent Wind LP (Lead Tech and Assistant Facility Manager) Kevin Aikenhead - South Kent Wind LP (Facility Manager)	2021-03-03	Email	South Kent Wind LP emailed Hydro One and inquired whether South Kent's infrastructure will be in the way of the new line.
Business	TerraForm IWG Ontario Holdings, LLC	Michael Blum - TerraForm IWG Ontario Holdings, LLC (O&M Manager)	2020-03-10	Email	Hydro One sent the Notice of Commencement flyer and maps and the Community Information Centre invitation and newspaper to TerraForm IWG Ontario Holdings LLC.
Business	TerraForm IWG Ontario Holdings, LLC	Michael Blum - TerraForm IWG Ontario Holdings, LLC (O&M Manager)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to TerraForm IWG Ontario Holdings, LLC and informed them that the project team will remain available to discuss the project.
Business	TerraForm IWG Ontario Holdings, LLC	Michael Blum - TerraForm IWG Ontario Holdings, LLC (O&M Manager)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Michael Blum of TerraForm IWG Ontario Holdings, LLC.
Business	TerraForm IWG Ontario Holdings, LLC	Michael Blum - TerraForm IWG Ontario Holdings, LLC (O&M Manager)	2020-10-29	Email	Hydro One emailed a local stakeholder and shared the invitation to the Virtual Open House and live discussion. Hydro One noted that they have made four refinements to the route alternatives and provided the project website link for more information.
Business	TerraForm IWG Ontario Holdings, LLC	Michael Blum - TerraForm IWG Ontario Holdings, LLC (O&M Manager)	2021-03-02	Email	Hydro One emailed TerraForm IWG Ontario Holdings and provided an update on the project, the preferred route and the upcoming Virtual Open House and Live Discussion. Hydro One shared the preferred route map and the invitation to the upcoming engagement.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South) Greg Ward - Union Gas Ltd.	2020-01-28	Email	Hydro One sent Notice of Commencement to Union Gas.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South) Greg Ward - Union Gas Ltd.	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to Union Gas.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South) Greg Ward - Union Gas Ltd.	2020-03-17	Email	Paul emailed Union Gas staff to let them know that the upcoming CICs for the Chatham x Lakeshore line project had been cancelled due to ongoing concerns regarding COVID-19, and provided a copy of the CIC cancellation notice.
					Paul noted that it was still Hydro One's intent to host a forum, whether in person or online, in the coming months whereby members of the public and any interested parties could ask questions and discuss the project directly with the project team. Paul stated that he would provide details when they were available but that staff could reach out to him directly at any time to discuss the project.

Interest Groups, Businesses, School Boards and Utilities - Record of Consultation

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South) Greg Ward - Union Gas Ltd.	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Union Gas Ltd.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas)	2020-05-12	Email	Hydro One sent the Virtual Information Session Notice and project map to an alternative email address for Brian Chauvin of Union Gas Ltd. as no response had been received to date. Hydro One provided an overview of the project, information regarding the Technical Advisory Committee and a reminder of the virtual information sessions. Hydro One requested confirmation of contact information and added that they are available to discuss the project.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South)	2020-05-26	Email	Hydro One invited representatives of Union Gas Ltd. to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas) Diane Pisani - Union Gas Ltd. (Field Supervisor - Utility Services, Windsor-Essex South)	2020-06-02	Email	Hydro One followed up with representatives of Union Gas Ltd. to confirm their participation in the Technical Advisory Committee.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas)	2020-07-06	Phone	Paul left a voicemail for Brian Chauvin (office line) to follow up re: the previous notifications and emails regarding Hydro One's Chatham x Lakeshore new 30 kV line project. Paul noted that Hydro One was aware of UG/Enbridge assets in the area from past projects, and wanted to ensure that appropriate UG/Enbridge staff were aware of the project and had opportunities to discuss with Hydro One.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas)	2020-07-07	Phone	Paul left a voicemail for Brian Chauvin (cell phone) to follow up re: the previous notifications and emails regarding Hydro One's Chatham x Lakeshore new 30 kV line project. Paul noted that Hydro One was aware of UG/Enbridge assets in the area from past projects, and wanted to ensure that appropriate UG/Enbridge staff were aware of the project and had opportunities to discuss with Hydro One.
Business	Union Gas Ltd.	Brian Chauvin - Union Gas Ltd. (Operations Manager, Windsor/Essex and Chatham Areas)	2020-07-09	Phone	Brian Chauvin (Union Gas/Enbridge) returned Paul Dalmazzi's voicemails. Brian confirmed that he and his staff were aware of the CxL project, and noted that he appreciated the outreach from Hydro One. Brian stated that he would submit comments shortly, including some information on Union Gas/Enbridge's existing assets in the area. Paul gave a brief explanation of the route evaluation process and stated that Hydro One would be happy to consider any suggestions on criteria from Union Gas/Enbridge's end, as far as avoiding potential conflicts with their assets. Brian stated that he would consider this as he developed their comments and thanked Paul for the opportunity to provide feedback.

Interest Groups, Businesses, School Boards and Utilities - Record of Consultation

Category	Organisation	Stakeholders	Date	Type of communication	Summary
Emergency and Medical Services	Essex-Windsor Emergency Medical Services (EWEMS)	Debbie Strajnic - Essex-Windsor Emergency Medical Services (EWEMS) (Manager of Administration)	2020-01-28	Email	Hydro One sent Notice of Study Commencement Letter and Map to Essex-Windsor Emergency Medical Services.
Emergency and Medical Services	Essex-Windsor Emergency Medical Services (EWEMS)	Debbie Strajnic - Essex-Windsor Emergency Medical Services (EWEMS) (Manager of Administration)	2020-03-05	Email	Hydro One sent the Community Information Centre invitation and newspaper ad to the Essex-Windsor Emergency Medical Services.
Emergency and Medical Services	Essex-Windsor Emergency Medical Services (EWEMS)	Debbie Strajnic - Essex-Windsor Emergency Medical Services (EWEMS) (Manager of Administration)	2020-03-17	Email	Hydro One sent the Notice of Cancellation for the Community Information Centres to the Essex-Windsor Emergency Medical Services and informed them that the project team will continue to be available to discuss the project.
Emergency and Medical Services	Essex-Windsor Emergency Medical Services (EWEMS)	Debbie Strajnic - Essex-Windsor Emergency Medical Services (EWEMS) (Manager of Administration)	2020-04-28	Email	Hydro One sent Debbie Strajnic of the Essex-Windsor Emergency Medical Services the Virtual Information Session Notice.
Emergency and Medical Services	Essex-Windsor Emergency Medical Services (EWEMS)	Debbie Strajnic - Essex-Windsor Emergency Medical Services (EWEMS) (Manager of Administration)	2020-10-26	Smart email	Hydro One sent an update on the project to agency and Municipal staff. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Emergency and Medical Services	Essex-Windsor Emergency Medical Services (EWEMS)	Debbie Strajnic - Essex-Windsor Emergency Medical Services (EWEMS) (Manager of Administration)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-01-21	Email	Hydro One sent Notice of Study Commencement Letter and Maps to Bird Studies Canada. Hydro One informed Bird Studies Canada that the first Community Information Centre will take place in the upcoming months.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-03-09	Email	Hydro One sent the Community Information Centre invitation to Bird Studies Canada.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-03-17	Email	Hydro One informed Bird Studies Canada of the cancellation of the upcoming Community Information Centres due to recent public health developments. Hydro One also informed Bird Studies Canada that they will continue to respond to questions.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Amanda Bichel of Bird Studies Canada.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-05-26	Email	Hydro One invited Amanda Bichel of Birds Canada to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-01	Email	Hydro One followed up with Birds Canada to confirm participation in the Technical Advisory Committee. Hydro One indicated it would be valuable to have a member of Birds Canada participate as the study area partially overlaps with the Eastern Lake St. Clair Important Bird Area.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-02	Email	Amanda Bichel of Birds Canada confirmed she would like to participate in the Natural Environment session of the Technical Advisory Committee events, as one of the routes goes through part of the Important Bird Area. Ms. Bichel requested confirmation of whether any information needed to be shared before the meeting.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-02	Email	Hydro One responded to Amanda Bichel of Birds Canada and confirmed additional information for the Technical Advisory Committee (TAC) will be distributed. Hydro One provided project links, an overview of the project scope and an overview of the TAC.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-03	Email	Hydro One followed up with Amanda Bichel of Birds Canada to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will send the conference call information for the two discussions and the survey.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-11	Smart email	Hydro One followed up with Amanda Bichel of Birds Canada to thank her for participating in the Technical Advisory Committee discussions. Hydro One provided the initial evaluation criteria and links to the survey and informational video. Hydro One outlined next steps.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-19	Email	Hydro One emailed Amanda Bichel of Birds Canada as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-25	Email	Hydro One shared a reminder with Birds Canada to complete a survey to gather feedback on the virtual workshops and requested that they review the initial evaluation criteria.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-26	Email	Hydro One received an email from Birds Canada stating that they would complete the survey.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-26	Email	Hydro One emailed Birds Canada to request shapefiles and other data that may be useful in planning the Chatham x Lakeshore project.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-06-30	Email	Birds Canada emailed Hydro One and shared a shapefile and a link to further resources on their website.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-07-02	Email	Hydro One acknowledged the receipt of a shapefile shared by Birds Canada.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2020-10-27	Smart email	Hydro One sent an update on the project to interest groups. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2021-02-09	Email	Birds Canada emailed Hydro One and indicated that they are unable to attend the upcoming Technical Advisory Committee workshop.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2021-02-10	Email	Hydro One emailed Birds Canada and indicated that the preferred route will be announced publicly shortly after the Technical Advisory Committee workshop. Hydro One also noted that a Virtual Open House and Live Discussion will take place in March.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2021-02-10	Email	Birds Canada emailed Hydro One regarding the upcoming announcement of the preferred route.
Interest Groups	Birds Canada	Amanda Bichel - Birds Canada (Coordinator)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Interest Groups	Carolinian Canada Coalition	Michelle Kanter - Carolinian Canada Coalition	2020-01-28	Email	Hydro One sent Notice of Commencement to Carolinian Canada Coalition.
Interest Groups	Carolinian Canada Coalition	Michelle Kanter - Carolinian Canada Coalition	2020-05-13	Email	Hydro One followed up on the Notice of Commencement and sent the Notice for the virtual information sessions and project map to Michelle Kanter of the Carolinian Canada Coalition. Hydro One invited Ms. Kanter to contact them should the Coalition have any questions or would like to discuss the project.
Interest Groups	Carolinian Canada Coalition	Michelle Kanter - Carolinian Canada Coalition	2020-05-26	Email	Hydro One invited Michelle Kanter of Carolinian Canada Coalition to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Interest Groups	Carolinian Canada Coalition	Michelle Kanter - Carolinian Canada Coalition	2020-05-27	Email	Michelle Kanter of the Carolinian Canada Coalition confirmed their interest in the Technical Advisory Committee but indicated they had limited time. Ms. Kanter requested more information about the committee structure, who has been confirmed, if it can be done virtually and why she was selected.
Interest Groups	Carolinian Canada Coalition	Michelle Kanter - Carolinian Canada Coalition	2020-05-27	Email	Hydro One responded to Michelle Kanter of the Carolinian Canada Coalition and provided more information about the format and participants in the Technical Advisory Committee (TAC). Hydro One also provided their rationale for why Ms. Kanter and the Carolinian Coalition was selected to participate in the TAC, while noting that participation is not mandatory and input without participating in TAC is also welcome.
Interest Groups	Carolinian Canada Coalition	Michelle Kanter - Carolinian Canada Coalition	2020-06-01	Email	Hydro One followed up with Michelle Kanter of Carolinian Canada Coalition to confirm participation in the Technical Advisory Committee.
Interest Groups	Carolinian Canada Coalition Oneida Nation of the Thames	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Koral Wysocki - Carolinian Canada Coalition Michelle Kanter - Carolinian Canada Coalition	2020-06-02	Email	Hydro One followed up with Michelle Kanter of Carolinian Canada Coalition (CCC) to confirm Brandon Doxtator can be the representative for both the CCC and Oneida Nation of the Thames in the Technical Advisory Committee.
Interest Groups	Carolinian Canada Coalition Oneida Nation of the Thames	Brandon Doxtator - Oneida Nation of the Thames (Environment and Consultation Coordinator) Michelle Kanter - Carolinian Canada Coalition	2020-06-03	Email	Hydro One followed up with Brandon Doxtator of Carolinian Canada Coalition (also the Environment and Consultation Coordinator for Oneida Nation of the Thames) to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will send the conference call information for the two discussions and the survey.

Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario Jacques Tetreault - Christian Farmers Federation of Ontario	2020-06-19	Email	Hydro One emailed Gus Ternoey of Christian Farmers Federation of Ontario as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario Jacques Tetreault - Christian Farmers Federation of Ontario	2020-06-25	Email	Hydro One shared a reminder with the Christian Farmers Federation of Ontario to request that they complete a survey to gather feedback on the virtual workshops and review the evaluation criteria.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2020-06-25	Email	The Christian Farmers Federation of Ontario emailed Hydro One to state they have completed the feedback survey.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2020-06-25	Email	Hydro One emailed the Christian Farmers Federation of Ontario to acknowledge the receipt of their feedback survey for the virtual workshops.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2020-08-20	Email	Christian Farmers Federation of Ontario emailed Hydro One and indicated they have been talking with some farmers about transmission lines and provided an overview of the information and comments received. This included that the number of structures is less of a concern than their placement and that it can be less intrusive to have towers in a location that is more compatible with farm operations. Hydro One was also informed that the line installation could be a more collaborative approach and it would be more positive if they have some influence on deciding tower placement.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2020-08-28	Email	Hydro One emailed Christian Farmers Federation of Ontario (CFFO) and responded to their comments. Hydro One acknowledged their comments regarding tower/footing placement being important to a farmer and the specific tower design, and informed CFFO that these are items that cannot be considered this early. Hydro One encouraged feedback as they can consider this at the appropriate time. Hydro One requested clarification on CFFO's comment regarding crossing fields at angles versus "natural flow of the farm". Hydro One informed CFFO that they have included Dillon Consulting on the correspondence.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2021-02-24	Email	Christian Farmers Federation of Ontario emailed Hydro One and shared their questions regarding the preferred route, including its planned direction and the easement. It was also noted their concern with its impact on a local farm.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2021-02-24	Email	Hydro One emailed Christina Farmers Federation of Ontario and requested a call/meeting to discuss their comments.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2021-02-24	Email	Christian Farmers Federation of Ontario emailed Hydro One and provided their availability for a call. They also shared a figure to provide more context to their comments.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2021-02-24	Email	Hydro One emailed Christian Farmers Federation of Ontario (CFFO) and provided information regarding the idle line referenced in their question. Hydro One indicated they would still like to have a discussion and that an invitation will be provided.
Interest Groups	Christian Farmers Federation of Ontario	Gus Ternoey - Christian Farmers Federation of Ontario	2021-03-01	Meeting	Hydro One staff held a webex conference call with a representative of the Christian Farmers Federation of Ontario (CFFO) to discuss some questions and concerns that the CFFO had, primarily relating to the area north of Tilbury and why the preferred route 2A could not make use of the idle 115 kV circuit through the north part of Tilbury. Hydro One staff reiterated a response provided earlier via email that existing use of the corridor in that area - both as distribution voltage and Transmission voltage to tap into the Tilbury TS - prevented full re-use of the corridor through this area. The CFFO also passed on a concern raised by one resident in the area re: plans to build a future home in an area traversed by the preferred route. The CFFO staff also asked about the ability of continuing westward along the idle line corridor, and Hydro One responded that this corridor appeared to still be in use housing distribution circuits westward, and that in addition to the suggested route being much longer and not in the direction of the lakeshore SS, other constraints existed between the westward portions of the idle line and the Lakeshore SS (homes, wind turbines etc) that would be difficult to traverse. The CFFO staff did also mention that the proposed use of the existing idle corridor had also been generally received positively. Hydro One staff thanked the CFFO for passing along the questions and concerns from their members, and committed to providing a response regarding the question about the idle line section through Tilbury, and stated that they would pass on the concern regarding the planned future rural house to the project team for consideration. Hydro One staff let the CFFO to contact them any time if any other questions or concerns were expressed by their members that required response from the Hydro One project team.

Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Interest Groups	Essex County Federation of Agriculture	Bonnie Popov - Essex County Federation of Agriculture (President) Lyle Hall - Essex County Federation of Agriculture	2020-06-01	Email	Hydro One followed up with representatives of the Essex County Federation of Agriculture to confirm participation in the technical Advisory Committee.
Interest Groups	Essex County Federation of Agriculture	Anne Anger - Essex County Federation of Agriculture (Administrator)	2021-03-04	Email	Hydro One emailed Essex County Federation of Agriculture to share an update on the project and shared the invitation to the upcoming Virtual Open House and Live Discussion and a map of the preferred route.
Interest Groups	Essex County Federation of Agriculture	Anne Anger - Essex County Federation of Agriculture (Administrator)	2021-03-04	Email	Essex County Federation of Agriculture emailed Hydro One to inform them that their new president is Leo Guilbeault, and provided his contact information.
Interest Groups	Essex County Field Naturalists' Club	Paul Pratt - Essex County Field Naturalists' Club	2020-01-28	Email	Hydro One sent Notice of Commencement to Essex County Field Naturalists' Club.
Interest Groups	Essex County Field Naturalists' Club	Paul Pratt - Essex County Field Naturalists' Club	2020-05-13	Email	Hydro One followed up on the Notice of Commencement and provided the Virtual Information Session Notice and project map to Paul Pratt of the Essex County Field Naturalists. Hydro One informed Mr. Pratt that they are available to discuss the project and to answer questions.

Interest Groups, Businesses, School Boards and Utilities - Record of Consultation

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Essex County Field Naturalists' Club	Paul Pratt - Essex County Field Naturalists' Club	2020-10-27	Smart email	Hydro One sent an update on the project to interest groups. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Interest Groups	Essex County Field Naturalists' Club	Paul Pratt - Essex County Field Naturalists' Club	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Interest Groups	Historic Downtown Chatham BIA	Connie Beneteau - Historic Downtown Chatham BIA (Office Administrator/Project Coordinator - Historic Downtown Chatham BIA)	2020-01-20	Email	Hydro One sent Notice of Commencement to Historic Downtown Chatham BIA.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2020-01-21	Email	Hydro One sent Notice of Study Commencement letter, maps and newspaper ad to Councillor Crew of the Municipality of Chatham-Kent. Hydro One informed the Councillor that the first Community Information Centre will take place in the upcoming months.
Interest Groups	Historic Downtown Chatham BIA	Connie Beneteau - Historic Downtown Chatham BIA (Office Administrator/Project Coordinator - Historic Downtown Chatham BIA)	2020-03-09	Email	Hydro One sent the Community Information Centre invitation to the Historic Downtown Chatham Business Improvement Area.
Interest Groups	Historic Downtown Chatham BIA	Connie Beneteau - Historic Downtown Chatham BIA (Office Administrator/Project Coordinator - Historic Downtown Chatham BIA)	2020-03-17	Email	Hydro One informed the Historic Downtown Chatham Business Improvement Area of the cancellation of the Community Information Centres due to recent public health developments. Hydro One indicated details on when the meetings will be rescheduled will be provided as they continue to monitor the situation. Hydro One confirmed the project team is available to answer questions.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2020-03-17	Email	Hydro One informed a Councillor from the Municipality of Chatham-Kent of the cancellation of the Community Information Centres due to recent public health developments. Hydro One confirmed details will be provided on when the meetings are rescheduled and that the project team is available to answer questions.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2020-04-20	Email	Hydro One sent the notice of the Virtual Information Sessions to Councillor Crew from the Municipality of Chatham-Kent.
Interest Groups	Historic Downtown Chatham BIA	Connie Beneteau - Historic Downtown Chatham BIA (Office Administrator/Project Coordinator - Historic Downtown Chatham BIA)	2020-04-28	Email	Hydro One emailed Connie Beneteau of Historic Downtown Chatham Business Improvement Area the Virtual Information Session Notice.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2020-05-12	Email	Hydro One sent a reminder email with the information to join the virtual information sessions to Councillor Crew of the Municipality of Chatham-Kent.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2020-05-22	Email	Hydro One followed up with Councillor Crew of the Municipality of Chatham-Kent and provided a summary of the virtual information sessions. Hydro One provided the presentation slides for the information session and indicated they will continue to collect input and will host additional opportunities.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2020-10-15	Email	Hydro One emailed Councillor Crew of the Municipality of Chatham-Kent to provide an additional update regarding the project. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One indicated they will inform property owners by issuing an update through the project contact list, a mailed notice as well as two upcoming virtual engagement opportunities.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2020-10-22	Email	Hydro One emailed Councillor Crew of the Municipality of Chatham-Kent to provide an overview of the upcoming Virtual Open House and Live Discussion. Hydro One provided the invitation and requested that the invitation be shared across their communication channels and networks.
Interest Groups	Historic Downtown Chatham BIA	Marjorie Crew - Historic Downtown Chatham BIA (Council Rep.)	2021-02-23	Email	Hydro One emailed Councillor Crew of the Municipality of Chatham-Kent and shared information regarding upcoming engagement events for the project. Hydro One also shared the invitation and detailed maps of the preferred route.
Interest Groups	Kent Federation of Agriculture	Jay Cunningham - Kent Federation of Agriculture (President) Kent Federation of Agriculture	2020-05-07	Email	Hydro One sent the Notice of Study Commencement flyer and Virtual Information Session Notice to Jay Cunningham of the Kent Federation of Agriculture and informed Mr. Cunningham of the formation of the Technical Advisory Committee. Hydro One will provide more information when available and invited Mr. Cunningham or another representative to participate in the committee.
Interest Groups	Kent Federation of Agriculture	Jay Cunningham - Kent Federation of Agriculture (President) Kent Federation of Agriculture	2020-05-26	Email	Hydro One invited representatives of Kent Federation of Agriculture to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and the event logistics. Hydro One requested confirmation of participation and indicated they will share the initial presentation video and further information.
Interest Groups	Kent Federation of Agriculture	Jay Cunningham - Kent Federation of Agriculture (President) Kent Federation of Agriculture	2020-06-01	Email	Hydro One followed up with representatives of the Kent Federation of Agriculture to confirm participation in the Technical Advisory Committee.
Interest Groups	Kent Federation of Agriculture	Justin Kritikos - Kent Federation of Agriculture	2020-06-10	Email	Hydro One responded to questions from a local stakeholder regarding health and safety concerns.
Interest Groups	Kent Federation of Agriculture	Jay Cunningham - Kent Federation of Agriculture (President)	2021-02-14	Email	Kent Federation of Agriculture emailed Hydro One and confirmed they will attend the third Technical Advisory Committee workshop.
Interest Groups	Kent Federation of Agriculture	Justin Kritikos - Kent Federation of Agriculture	2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
Interest Groups	Leamington District Chamber of Commerce	Wendy Parsons - Leamington District Chamber of Commerce (General Manager)	2020-01-20	Email	Hydro One sent Notice of Commencement to Leamington Chamber of Commerce.
Interest Groups	Leamington District Chamber of Commerce	Wendy Parsons - Leamington District Chamber of Commerce (General Manager)	2020-01-21	Email	Wendy Parsons (Leamington Chamber) responded to Hydro One requesting to be kept up to date on future engagement opportunities.
Interest Groups	Leamington District Chamber of Commerce	Wendy Parsons - Leamington District Chamber of Commerce (General Manager)	2020-01-22	Email	Hydro One responded to Leamington District Chamber of Commerce's email where they offered to inform others about the upcoming Community Information Centre. Hydro One thanked Leamington District Chamber of Commerce for their assistance and informed them that details of the Community Information Centre in the next few weeks will be provided.
Interest Groups	Leamington District Chamber of Commerce	Wendy Parsons - Leamington District Chamber of Commerce (General Manager)	2020-03-06	Email	Hydro One sent the Community Information Centre invitation to the the Leamington Chamber of Commerce.
Interest Groups	Leamington District Chamber of Commerce	Wendy Parsons - Leamington District Chamber of Commerce (General Manager)	2020-03-17	Email	Hydro One informed the Leamington District Chamber of Commerce of the cancellation of the upcoming Community Information Centres due to recent public health developments. Hydro One also informed the Leamington District Chamber of Commerce that they will continue to respond to questions and that the upcoming meeting/call to discuss engagement activities would also need to be rescheduled.
Interest Groups	Leamington District Chamber of Commerce	Wendy Parsons - Leamington District Chamber of Commerce (General Manager)	2020-04-30	Email	Hydro One asked Wendy Parsons of the Leamington Chamber of Commerce if she will be able to attend a teleconference on May 5, 2020, at 14:30.
Interest Groups	Ontario Federation of Agriculture	Ian Nokes - Ontario Federation of Agriculture	2020-01-23	Email	Hydro One sent the Notice of Commencement to the Ontario Federation of Agriculture (OFA).
Interest Groups	Ontario Federation of Agriculture	Ian Nokes - Ontario Federation of Agriculture	2020-01-24	Email	The Ontario Federation of Agriculture sent an email to Hydro One indicating support for more power capacity to agricultural businesses and to keep them apprised of engagement opportunities.
Interest Groups	Ontario Federation of Agriculture	Ian Nokes - Ontario Federation of Agriculture	2020-03-17	Email	Hydro One informed the Ontario Federation of Agriculture of the cancellation of the upcoming Community Information Centres due to recent public health developments. Hydro One also informed the Ontario Federation of Agriculture that they will remain available to respond to questions.
Interest Groups	Ontario Federation of Agriculture	Ian Nokes - Ontario Federation of Agriculture	2020-03-17	Email	Ian Nokes from the Ontario Federation of Agriculture (OFA) responded to Hydro One's email in regards to the cancellation of the March 2020 in person community information sessions.
Interest Groups	Ontario Federation of Agriculture	Neil Currie - Ontario Federation of Agriculture (General Manager - Ontario AgriCentre)	2020-04-30	Email	Hydro One sent the Virtual Information Notice to Neil Currie of the Ontario Federation of Agriculture.

Interest Groups, Businesses, School Boards and Utilities - Record of Consultation

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture	2020-05-06	Email	Hydro One responded to Ian Nokes of the Ontario Federation of Agriculture to confirm the contacts he provided (Paul Nairn and Carol Verstraete) will be included in future communications as well.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-05-27	Email	Hydro One invited representatives of Ontario Federation of Agriculture to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of TAC and details on logistics. Hydro One requested they confirm their participation in the event and confirmed they will share the initial presentation video and information.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-05-28	Email	Hydro One thanked Carol Verstraete of the Ontario Federation of Agriculture for confirming their participation in the Technical Advisory Committee (TAC). Hydro One noted they will share additional information and that they have reached out to the Essex County Federation of Agriculture and the Kent Federation of Agriculture to participate in the TAC.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2020-06-03	Email	Hydro One followed up with Carol Verstraete of Ontario Federation of Agriculture to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will send the conference call information for the two discussions and the survey.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2020-06-19	Email	Hydro One emailed Carol Verstraete of the Ontario Federation of Agriculture as a reminder to fill out the survey for the Technical Advisory Committee virtual workshop #1. Hydro One provided the preliminary evaluation criteria and links to the survey and informational video.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2020-06-25	Email	Hydro One shared a reminder with the Ontario Federation of Agriculture to complete a survey to gather feedback on the virtual workshops.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2020-06-25	Email	The Ontario Federation of Agriculture emailed Hydro One to state that they completed the survey for feedback on the virtual workshop.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2020-06-25	Email	Hydro One acknowledged the receipt of the Ontario Federation of Agriculture's input on the workshop surveys.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-07-31	Email	Hydro One requested the availability of Carol Verstraete and Paul Nairn from Ontario Federation of Agriculture for a video conference call to discuss the status of the project, the feedback received and recommendations to mitigate impacts to environmental effects, including agricultural operations.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2020-08-05	Phone	OFA called Hydro One to pass along some comments that they had received from some of her members in the area, particularly relating to outreach and engagement activities (teleconferences/calls) that Hydro One had recently held with some farmers in the area. It was mentioned that the OFA Zone Rep would like to sit in on some of these future engagements with local farmers. Hydro One stated that we could pass that information on.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-08-05	Email	The Ontario Federation of Agriculture (OFA) requested that Hydro One add another OFA contact to the project and copied them on the email.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-08-07	Phone	Following a previous discussion with the OFA, an OFA Zone Director called Hydro One Environmental Planner to discuss the project twice in early August, leaving voicemails both times.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-08-11	Email	Hydro One contacted Louis Roesch of the Ontario Federation of Agriculture and indicated that his information was provided by Carol Verstraete. Hydro One extended the meeting invitation for a video call to discuss the project status and requested confirmation of availability.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-08-13	Email	Hydro One emailed the Ontario Federation of Agriculture to request confirmation of their attendance for a meeting to discuss comments and recommendations to mitigate impacts to environmental effects, including agricultural operations.
Interest Groups	Ontario Federation of Agriculture	Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-08-13	Email	Hydro One emailed the Ontario Federation of Agriculture to thank them for their response regarding attendance for the upcoming meeting.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-08-14	Phone	Hydro One staff spoke with OFA Zone Director Louis Roesch regarding the Chatham to Lakeshore Line project. Hydro One provided a high level introduction of the project, including that the first TAC meeting was held in June, which the OFA participated in, and that Hydro One was looking to hold a second meeting in September. During the call, questions and concerns pertaining to the use of the old railway corridor, concern with with maneuvering equipment around the tower bases, and upgrading current infrastructure. Hydro One staff advised Louis that there is a meeting planned for the next week with the OFA where the team is happy to speak further on the project. Louis advised that he will be taking part in that meeting.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-08-18	Email	Hydro One emailed the Ontario Federation of Agriculture (OFA) and apologized for missing their voicemails. Hydro One noted that they can talk on the upcoming call for the project. Hydro One also provided alternative contact information should OFA wish to reach them directly.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-08-19	Email	Hydro One emailed the Ontario Federation of Agriculture and shared the agenda and a list of attendees for the upcoming video call that day.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-08-19	Meeting	Hydro One met with the Ontario Federation of Agriculture to discuss the status of the Chatham to Lakeshore Line project and discuss feedback received. During the meeting, comments and questions were raised regarding the use of virtual platforms, timing and organization of community meetings, the preference to in-person meetings, and the distribution of notices in envelopes. The OFA also indicated that members have asked about utilizing existing transmission lines; maintenance practices, future tower/infrastructure access and tower types. Additionally, the utilization of the old railway corridor was discussed. Hydro One shared that based on feedback we have received to date through the Class Environmental Assessment process, the Hydro One team is currently reviewing their initial findings on the feasibility of the railway corridor to add as an alternative route for evaluation for the new transmission line.

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-10-15	Email	Hydro One emailed the Ontario Federation of Agriculture to inquire whether they would be available to meet for a touchpoint. Hydro One noted that based on what was learned from the technical studies and feedback, they have made four refinements to the route alternatives and have identified the need to expand the Chatham Switching Station. Hydro One shared the Refined Route Map and the link to the interactive map. Hydro One noted that they will be hosting two upcoming virtual engagement opportunities.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-10-22	Email	Hydro One emailed the Ontario Federation of Agriculture to confirm availability for a virtual meeting.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-10-27	Email	Hydro One emailed the Ontario Federation of Agriculture and shared the invitation to the upcoming Virtual Community Information Centre and live presentation/discussion.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-10-28	Meeting	Hydro One had a virtual meeting with the Ontario Federation of Agriculture (OFA) and provided an update on the project, including the route refinements and next steps. In the meeting, Hydro One walked through the assessment that was conducted on using the old railway corridor, and the OFA was appreciative of Hydro One's efforts to analyze the the railway corridor as a potential route alternative. Other discussion items included feedback on agricultural operations criteria to include as part of the evaluation matrix, the weighting of criteria as a part of the Class EA/route selection process, and the communication of information.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Paul Nairn - Ontario Federation of Agriculture (Manager Member Service Rep. (Western Region))	2020-10-29	Email	Hydro One emailed the Ontario Federation of Agriculture and thanked them for taking the time to speak with the project team the day before. Hydro One shared the link to the interactive map.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-11-24	Email	The Ontario Federation of Agriculture emailed Hydro One and notified them that a member of the public requested them to forward a letter of concern regarding the project to Hydro One. The letter is included in the email correspondence.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2020-11-25	Email	Hydro One emailed the Ontario Federation of Agriculture (OFA) and thanked them for forwarding the member of the public's letter. Hydro One informed OFA that they have had the opportunity to meet and speak with the member of the public on different occasions and have received the letter on two separate occasions, to which Hydro One provided responses. Hydro One provided an overview of the Land Acquisition Compensation Principles and consideration for business contracts.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-01	Phone	The Ontario Federation of Agriculture (OFA) called Hydro One and provided some of the concerns from the community, including the question of whether there is a potential for route refinements. OFA indicated that a meeting with OFA and farmers is being set up. OFA inquired whether an archaeological dig along Bloomfield Road is taking place and Hydro One indicated they will confirm and follow up. It was indicated that where the line parallels the CP railway, a 50-foot distance should be maintained to ensure farmers are able to operate their machinery around towers and that the monopole tower design would be well received by the community. OFA also indicated that compaction with tomato crops may not be an issue and that farmers typically plant seed corn under the lines.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-09	Email	Hydro One emailed the Ontario Federation of Agriculture and requested availability to further discuss the feedback they have been hearing.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-09	Phone	Hydro One had a follow-up call with Louis Roesch (OFA) and re-emphasized that they are in the process of designing the line. OFA informed Hydro One they will take a drive to look at the proposed route with landowners and clarified that they answered their own question regarding the potential archaeological dig and that it was not near the proposed line. Hydro One suggested setting up a call with the project team to discuss comments and feedback from the community.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-03-11	Email	The Ontario Federation of Agriculture (OFA) emailed Hydro One and informed them they will attend the Live Discussion. The OFA inquired whether there is a link available for the discussion.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-03-11	Email	Hydro One emailed the Ontario Federation of Agriculture and provided the instructions to join the Live Discussion.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-11	Phone	Hydro One staff had a conference call with the OFA Zone Director (Louis Roesch) to review and discuss some recent comments collected by the OFA from their membership farmers. Louis stated that he had met with landowners along the idle transmission line corridor, as well as along the east-west stretch south of Chatham. Some of the questions and concerns raised during the conference call included: the preference for structures/towers to be placed along lot lines, the extent of notification and outreach, easement width, preference to maintain 50 feet from the railroad corridor located near the idle line, and interference with modern Agricultural communication equipment. The Hydro One team thanked Louis for passing along the comments and stated they would continue to work with the OFA and local farmers going forward.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-15	Email	Hydro One emailed the Ontario Federation of Agriculture and informed them that the feedback received has been much appreciated and that they would like to arrange a discussion of the feedback and next steps. Hydro One requested availability for a meeting.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-16	Email	Hydro One emailed the Ontario Federation of Agriculture and informed them they will get in touch shortly with suggested meeting times.

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-17	Phone	The Ontario Federation of Agriculture (OFA) had a call with Hydro One and they informed Hydro One that they have heard comments and concerns from Comber. Of note was why the route does not follow the existing transmission line. Hydro One spoke to wanting to work one-on-one with property owners to learn more about their properties and features. OFA also noted concerns for development in the Comber area and inquired if lands set for development will be compensated. Hydro One advised that is a question the Hydro One real estate team can speak to more about in their conversation set for later that week.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-18	Meeting	Hydro One Real Estate staff met with members of the OFA and one landowner to review details regarding the Land Acquisition Compensation Principles. Other topics of discussion were temporary access road construction and potential fibre optic capacity.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Ian Nokes - Ontario Federation of Agriculture Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-18	Meeting	Hydro One met with the Ontario Federation of Agriculture (OFA) during which Hydro One provided an overview on the route selection process and next steps. Hydro One addressed the question of route refinements, and spoke to the work that has been completed as part of the Class Environmental Assessment and that they are not looking to introduce new effects. OFA informed Hydro One of comments regarding outreach and how a few members did not receive notifications. Hydro One provided an overview of outreach efforts for the project. Other items discussed included the use of existing infrastructure and meetings with farmers.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-30	Phone	The OFA called Hydro One and shared some considerations from the community regarding property rights and compensation. Hydro One indicated that they would share this information with the project team and get back to them.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-03-31	Email	Hydro One emailed Carol (OFA) and thanked them for sharing the comment. Hydro One provided an update on the consultation with the residents identified by OFA and with local elected official.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-03-31	Phone	Hydro One spoke with the Ontario Federation of Agriculture (OFA) regarding the new transmission line towers. OFA noted their concerns related to stray voltage and inquired whether the new towers would be grounded. Hydro One shared information associated with the phenomenon and noted they will get back to OFA with more information. OFA inquired about line loss and what is typical for this infrastructure, whether the lines are being built to accommodate future upgrades. Hydro One advised they will get back to OFA with this information.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-01	Phone	Hydro One spoke with the Ontario Federation of Agriculture (OFA) regarding payments being spread over a longer time period. Hydro One indicated they will share this with the team. Hydro One advised the OFA that approval is required with the Ontario Energy Board (OEB) following a question regarding the OEB number for the project. OFA indicated that monopoles are the preferred option and inquired about the span of the line. Hydro One noted that the span is based on a typical line span for a lattice tower on a straightaway. Hydro One advised that there will be discrepancies in the number based on the design of the line.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-04-07	Email	Hydro One emailed the Ontario Federation of Agriculture (OFA) and confirmed that they received their voicemail. Hydro One inquired whether OFA would be available for a call later that day.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-07	Phone	Hydro One spoke briefly to the Ontario Federation of Agriculture following a meeting with property owners summarizing items discussed.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-04-07	Phone	Hydro One spoke with the Ontario Federation of Agriculture (OFA) regarding information or questions that Hydro One can provide to help answer inquiries. During the call, the OFA indicated they have received questions pertaining to compensation for damages to tile drainage and maintaining weeds under the towers. Hydro One indicated that damages to tile drainage would be provided and the Hydro One real estate representatives can share/speak to more property specific items. Hydro One indicated that they would follow back up on the question regarding weed maintenance. During the call, Hydro One also provided an overview of their notification to elected officials.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-04-08	Phone	Hydro One spoke with the Ontario Federation of Agriculture regarding questions on compensation.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-12	Email	Hydro One emailed the Ontario Federation of Agriculture regarding effects to farming equipment communications systems.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-12	Phone	The Ontario Federation of Agriculture (OFA) called Hydro One and spoke of concerns regarding effects to farming equipment. Hydro One indicated they will share more information in an email. Hydro One and the OFA discussed tower design and Hydro One indicated that they are still in the design process. Hydro One provided further information regarding stray voltage. The OFA inquired how the planning for electric vehicles was being factored into the future demands of the system. Hydro One indicated they will get back to the OFA.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Walter Charbonneau	2021-04-13	Email	Hydro One emailed the Ontario Federation of Agriculture and a local landowner and provided an update regarding a follow-up response to an inquiry.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-13	Phone	Hydro One spoke with Louis Roesch (OFA) regarding the line span of the new transmission line and the OFA noted there is a preference for monopoles. Hydro One provided more information on the planning of their infrastructure and the project need. Hydro One spoke of the demands for electric vehicles and that any future demands would be evaluated by the Independent Electricity System Operator. OFA indicated new technologies are being developed to make farming equipment electric as well. Hydro One and OFA also spoke of impacts on transmission infrastructure on farming equipment communication systems. OFA provided Hydro One with a recommendation to learn more.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-04-14	Email	Hydro One emailed a member of the public and informed them that a Hydro One staff member will reach out to them regarding their questions by the end of the week.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-14	Phone	Louis Roesch (OFA) left Hydro One a voicemail. Hydro One sent a follow up email to confirm they will call back.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-15	Email	Hydro One responded to an email from the Ontario Federation of Agriculture that they will provide further information on the development plans for Chatham-Kent and Lakeshore, based on what's been shared to date with Hydro One by the municipalities.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Walter Charbonneau	2021-04-15	Meeting	Hydro One Real Estate staff met with representatives from the OFA and one landowner along the preferred route. The discussion centered around Hydro One's Land Acquisition Compensation Principles (LACP).
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-16	Phone	Hydro One spoke with the Ontario Federation of Agriculture and touched upon whether additional questions or comments have been raised.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-20	Email	Hydro One emailed Louis Roesch (OFA) and requested availability for a touchpoint for the project.

Interest Groups, Businesses, School Boards and Utilities - Record of Consultation

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Rick & Fredericka "Ricka" Heinhuis	2021-04-20	Email	Hydro One emailed a member of the public and confirmed that their questions have been received and have been sent off to the project team. Hydro One noted that the project team will be in touch with answers as soon as possible.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-20	Email	Hydro One emailed Carol (OFA) and provided a map of the zoning for Comber and Chatham. Hydro One noted that the route does not intersect with lands currently zoned as residential in Comber and it is Hydro One's understanding that there could be some future growth along the Bloomfield Road corridor. Future land uses near the Bloomfield/Highway 401 interchange were considered and are not directly traversed by the selected route.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-20	Phone	Hydro One called Louis Roesch (OFA) and left a message.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-04-20	Phone	Hydro One spoke with the Ontario Federation of Agriculture to set up a touchpoint meeting.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-22	Email	Hydro One emailed the Ontario Federation of Agriculture and informed them that the call-in details will be shared.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-23	Email	Hydro One emailed Carol (OFA) and provided the number of properties involved in the project.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-26	Email	Hydro One emailed the Ontario Federation of Agriculture and informed them that the meeting invitation has been sent.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-26	Phone	Hydro One spoke with Louis Roesch from Ontario Federation of Agriculture (OFA) twice. The OFA called regarding comments heard from property owners related to the old transmission line and its removal. Hydro One indicated they will confirm with the project team and follow up. The OFA also indicated that property owners had expressed concerns about the depth of removal of the old foundations on the idle transmission line. Hydro One advised the OFA that they will confirm with the project team and discuss further at their upcoming meeting.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-04-26	Phone	Carol Verstraete from the OFA called Hydro One to clarify that Hydro One still does not have tower location details. Carol indicated that a resident in Lakeshore informed the OFA that two towers would be located on their property. Hydro One informed the OFA that details regarding tower locations will be shared once Hydro One completes their transmission line design. Indicated that details are expected to be shared in the Summer.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-04-27	Phone	Hydro One had a call with the Ontario Federation of Agriculture (OFA) to discuss the current feedback and questions raised by the community, as well as discuss what potential construction mitigation tactics the Hydro One team can consider as part the construction planning for the project. During the call Hydro One spoke to the recent notice regarding secondary land use licenses, compensation for crop loss and archeological and geo technical surveys. Hydro One indicated that they would get back to the OFA on the archeology survey start dates.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent)) Rick & Fredericka "Ricka" Heinhuis	2021-04-28	Email	Hydro One emailed a member of the public and informed them that a project team member will reach out with a response to their questions later that day.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-04-28	Phone	Hydro One spoke with the Ontario Federation of Agriculture to follow up on a previous meeting item on the location of towers on properties. During the call, OFA also indicated members' preference for monopoles due to maneuverability around towers, weed control and concerns regarding contact with tower legs.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-05-04	Phone	Hydro One had a phone conversation with Carol from the Ontario Federation of Agriculture to discuss follow up items from the previous week's meeting, including archaeological surveys.
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-05-05	Phone	Hydro One had a phone conversation with Louis Roesch from Ontario Federation of Agriculture to discuss archaeology surveys and tower design.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative)	2021-05-13	Email	Hydro One staff emailed OFA to arrange a subsequent touchpoint
Interest Groups	Ontario Federation of Agriculture	Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-05-14	Phone	OFA Zone Director spoke to Hydro One regarding a potential landowner concern. More information is going to be provided to Hydro One.
Interest Groups	Ontario Federation of Agriculture	Carol Verstraete - Ontario Federation of Agriculture (Member Service Representative) Louis Roesch - Ontario Federation of Agriculture (Zone Director (Chatham-Kent))	2021-05-28	Meeting	Hydro met with the Ontario Federation of Agriculture to have a touchpoint meeting where Hydro One spoke to the analysis of the Lakeshore diversion proposals, monopole tower structures, and broadband capability. Hydro One committed to setting up a call with Hydro One's Telecommunications team to further discuss broadband capability.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-01-22	Email	Hydro One sent Notice of Study Commencement Letter and Maps to Ontario Greenhouse Vegetable Growers. Hydro One informed Ontario Greenhouse Vegetable Growers that the first Community Centre will take place in the upcoming months.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-03-06	Email	Hydro One sent the Community Information Centre invitation to the Ontario Greenhouse Vegetable Growers.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-03-17	Email	Hydro One notified Justine Taylor from the Ontario Greenhouse Vegetable Growers of the cancellation of the in-person Community Information Sessions.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-05-12	Email	Hydro One sent a reminder email with the joining information for the virtual information session to Justine Taylor of the Ontario Greenhouse Vegetable Growers.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-05-27	Email	Hydro One invited Justine Taylor of the Ontario Greenhouse Vegetable Growers to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC and next steps. Hydro One requested confirmation of participation and noted that they will share the initial presentation video.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-06-02	Email	Hydro One followed up with Justine Taylor of Ontario Greenhouse Vegetable Growers to confirm participation in the Technical Advisory Committee.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-06-04	Email	Ontario Greenhouse Vegetable Growers confirmed their availability to participate in the Technical Advisory Committee.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-06-04	Email	Hydro One followed up with the Ontario Greenhouse Vegetable Growers to provide the initial evaluation criteria and informational video for the Technical Advisory Committee. Hydro One noted they will provide the conference call information for the two discussion sessions and the survey.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-06-11	Smart email	Hydro One emailed participants of the Chatham x Lakeshore Technical Advisory Committee (TAC) and asked that the participants complete a survey for feedback. Hydro One also committed to sharing a copy of the TAC Workshop #1 summary report once completed and information on the second workshop tentatively planned for late summer or fall of 2020
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-06-19	Email	Hydro One emailed Justine Taylor of Ontario Greenhouse Vegetable Growers as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-06-25	Email	Hydro One emailed Ontario Greenhouse Vegetable Growers to request that they review the initial evaluation criteria and fill out the survey for Hydro One's TAC workshop.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-06-29	Email	Ontario Greenhouse Vegetable Growers replied to Hydro One on their request to review the initial evaluation criteria.

Interest Groups, Businesses, School Boards and Utilities - Record of Consultation

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG)	2020-07-02	Email	Hydro One emailed Ontario Greenhouse Vegetable Growers and committed to keeping them informed of any future updates/next steps on both the TAC and the project/Class EA overall. Hydro One encouraged Ontario Greenhouse Vegetable Growers to send any comments that they may have to Hydro One myself directly.
Interest Groups	Ontario Greenhouse Vegetable Growers (OGVG)	Justine Taylor - Ontario Greenhouse Vegetable Growers (OGVG) Ontario Greenhouse Vegetable Growers (OGVG)	2021-01-18	Meeting	Hydro One had a virtual meeting with Ontario Greenhouse Vegetable Growers to discuss development in the Essex region and ensuring coordination across utilities.
Interest Groups	Ontario Nature	Caroline Schultz - Ontario Nature (Executive Director) Dr. Anne Bell - Ontario Nature (Director - Conservation and Education) Ontario Nature	2020-05-27	Email	Hydro One provided representatives of Ontario Nature with information about the project and sent the Notice of Commencement public flyer. Hydro One invited the representatives of Ontario Nature to participate in the Technical Advisory Committee (TAC) and provided an overview of the purpose of TAC and next steps. Hydro One requested confirmation of participation in TAC and noted they will provide the initial presentation video.
Interest Groups	Ontario Nature	Caroline Schultz - Ontario Nature (Executive Director) Dr. Anne Bell - Ontario Nature (Director - Conservation and Education) Ontario Nature	2020-06-01	Email	Hydro One followed up with representatives of Ontario Nature to confirm participation in the Technical Advisory Committee.
Interest Groups	Ontario Nature	Caroline Schultz - Ontario Nature (Executive Director) Dr. Anne Bell - Ontario Nature (Director - Conservation and Education) Ontario Nature Reception Inbox - Ontario Nature (Reception Inbox)	2020-06-03	Email	Anne Bell of Ontario Nature informed Hydro One that a representative from Ontario Nature will not be participating in the Technical Advisory Committee.
Interest Groups	Ontario Nature	Caroline Schultz - Ontario Nature (Executive Director) Dr. Anne Bell - Ontario Nature (Director - Conservation and Education) Ontario Nature Reception Inbox - Ontario Nature (Reception Inbox)	2020-06-03	Email	Hydro One informed Anne Bell from Ontario Nature that while a representative from Ontario Nature is unable to attend the Technical Advisory Committee, they are still able to provide comments or discuss the project with the project team. Hydro One also noted they can continue to forward regular project updates unless otherwise requested.
Interest Groups	Ontario Nature	Caroline Schultz - Ontario Nature (Executive Director) Dr. Anne Bell - Ontario Nature (Director - Conservation and Education) Ontario Nature Reception Inbox - Ontario Nature (Reception Inbox)	2020-06-04	Email	Anne Bell of Ontario Nature confirmed that she would like to remain on the list for regular project updates.
Interest Groups	Ontario Nature	Caroline Schultz - Ontario Nature (Executive Director)	2020-10-27	Smart email	Hydro One sent an update on the project to interest groups. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Interest Groups	Ontario Nature	Caroline Schultz - Ontario Nature (Executive Director)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Interest Groups	Sydenham Field Naturalists	Dave Smith - Sydenham Field Naturalists (President)	2020-01-28	Email	Hydro One sent Notice of Commencement to Sydenham Field Naturalists.
Interest Groups	Sydenham Field Naturalists	Dave Smith - Sydenham Field Naturalists (President)	2020-05-13	Email	Hydro One followed up on the Notice of Commencement and sent the Virtual Information Session Notice and project map to Dave Smith of the Sydenham Field Naturalists. Hydro One informed Mr. Smith that they are available to discuss the project or answer any questions.
Interest Groups	Sydenham Field Naturalists	Dave Smith - Sydenham Field Naturalists (President)	2020-10-27	Smart email	Hydro One sent an update on the project to interest groups. The update included the refinements to the route alternatives being considered for the new line, as well as notice of the upcoming Virtual Community Information Centre and live presentation/discussion.
Interest Groups	Sydenham Field Naturalists	Dave Smith - Sydenham Field Naturalists (President)	2021-02-25	Smart email	Hydro One sent an update on the project to government agencies, municipal staff and interest groups and notified recipients of the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
Interest Groups	The Ontario Greenhouse Alliance	James Farrar - The Ontario Greenhouse Alliance	2020-01-20	Email	Hydro One sent Notice of Commencement to Ontario Greenhouse Alliance.
Interest Groups	The Ontario Greenhouse Alliance	James Farrar - The Ontario Greenhouse Alliance	2020-03-09	Email	Hydro One sent the Community Information Centre invitation to the Ontario Greenhouse Alliance.
Interest Groups	The Ontario Greenhouse Alliance	James Farrar - The Ontario Greenhouse Alliance	2020-03-17	Email	Hydro One informed the Ontario Greenhouse Alliance of the cancellation of the Community Information Centres due to recent public health developments and indicated details will be provided on when the meetings will be rescheduled. Hydro One confirmed the project team remains available to answer questions.
Interest Groups	The Ontario Greenhouse Alliance	James Farrar - The Ontario Greenhouse Alliance	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to James Farrar of the Ontario Greenhouse Alliance.
Interest Groups	The Ontario Greenhouse Alliance	James Farrar - The Ontario Greenhouse Alliance	2020-04-29	Email	Hydro One sent the Virtual Information Session Notice to James Farrar of the Ontario Greenhouse Alliance.
Interest Groups	Tilbury BIA	Gloria Mailloux - Tilbury BIA (Executive Director/Event Coordinator, Tilbury BIA)	2020-01-20	Email	Hydro One sent Notice of Commencement to Tilbury BIA.
Interest Groups	Tilbury BIA	Gloria Mailloux - Tilbury BIA (Executive Director/Event Coordinator, Tilbury BIA)	2020-03-09	Email	Hydro One sent the Community Information Centre invitation to the Tilbury Business Improvement Area.
Interest Groups	Tilbury BIA	Gloria Mailloux - Tilbury BIA (Executive Director/Event Coordinator, Tilbury BIA)	2020-03-17	Email	Hydro One informed the Tilbury Business Improvement Area of the cancellation of the Community Information Centres due to recent public health developments and indicated that details will be provided on when the meetings will be rescheduled. Hydro One confirmed the project team remains available to answer questions.
Interest Groups	Tilbury BIA	Gloria Mailloux - Tilbury BIA (Executive Director/Event Coordinator, Tilbury BIA)	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Gloria Mailloux of the Tilbury Business Improvement Area.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-01-22	Email	Hydro One sent Notice of Study Commencement Letter and Maps to Windsor-Essex Economic Development Corporation. Hydro One informed the Corporation that the first Community Information Centre will take place in the upcoming months.
Interest Groups	Windsor-Essex Economic Development Corporation	Windsor-Essex Economic Development Corporation	2020-01-28	Email	Hydro One sent Notice of Commencement to Windsor-Essex Economic Development Corporation.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-03-10	Email	Hydro One sent the Community Information Centre invitation to Windsor-Essex Economic Development Corporation.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-03-17	Email	Hydro One informed Windsor-Essex Economic Development Corporation of the cancellation of the Community Information Centres due to recent public health developments and indicated that details will be provided on when the meetings will be rescheduled. Hydro One confirmed the project team remains available to answer questions.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to Marion Fantetti of the Windsor-Essex Economic Development Corporation.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-05-12	Email	Hydro One sent a reminder email with the virtual information session notice and joining information to Marion Fantetti of the Windsor-Essex Economic Development Corporation.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-05-27	Email	Hydro One invited Marion Fantetti of the Windsor-Essex Economic Development Corporation to participate in the Technical Advisory Committee (TAC). Hydro One provided a map of the study area, an overview of the purpose of the TAC, next steps and information regarding the first event. Hydro One requested confirmation of participation and indicated they will share the initial presentation video.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-02	Email	Hydro One requested confirmation of attendance for the Technical Advisory Committee from Marion Fantetti of the Windsor-Essex Economic Development Corporation.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-03	Email	Hydro One followed up with Marion Fantetti of Windsor-Essex Economic Development Corporation to provide the initial evaluation criteria and information video for the Technical Advisory Committee. Hydro One noted they will send the conference call information for the two discussions and the survey.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-04	Email	The Windsor-Essex Economic Development Corporation thanked Hydro One for sending the Technical Advisory Committee materials and noted that they will be in contact with any questions.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-04	Email	Hydro One responded to the Windsor-Essex Economic Development Corporation and confirmed they can forward any questions regarding the Technical Advisory Committee.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-09	Email	The Windsor-Essex Economic Development Corporation reached out to Hydro One to confirm the Technical Advisory Committee meeting times.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-09	Email	Hydro One confirmed the Technical Advisory Committee meeting times with the Windsor-Essex Economic Development Corporation.

Categorization	Organisation	Stakeholders	Date	Type of communication	Summary
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-11	Smart email	Hydro One followed up with Marion Fantetti of the Windsor-Essex Economic Development Corporation to thank her for participating in the Technical Advisory Committee discussions. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video. Hydro One outlined next steps.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-19	Email	Hydro One emailed Marion Fantetti of Windsor-Essex Economic Development Corporation as a reminder to fill out the survey for the Technical Advisory Committee workshop #1. Hydro One provided the preliminary evaluation criteria and the links to the survey and informational video.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-25	Email	Hydro One shared a reminder with the Windsor-Essex Economic Development Corporation to complete a survey to gather feedback on the virtual workshops.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-26	Phone	Hydro One spoke to Marion Fantetti (Windsor-Essex Economic Development Corporation) regarding the TAC workshop survey. She appreciated the discussions from the recent conference calls and had not immediately identified any potential additional criteria. Hydro One thanked Marion for the input and indicated the Hydro One team would be happy to receive any input directly or after the survey closed. Marion thanked Paul and stated that she would try to review the survey before the deadline.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-26	Email	Hydro One held a follow-up phone call with Marion Fantetti of Windsor-Essex Economic Development Corporation to discuss the workshop feedback survey.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-06-26	Email	Hydro One followed up a phone conversation with Marion Fantetti at Windsor-Essex Economic Development Corporation, to discuss their feedback on the evaluation criteria and results of the survey conducted for the virtual workshop.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-09-21	Phone	Windsor-Essex EDC left a voicemail message for Hydro One's environmental planner requesting a callback to discuss some questions ahead of the TAC workshop scheduled for the next day.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-09-21	Email	The WindsorEssex Economic Development Corporation emailed Hydro One to inform them that a voicemail was left to request a quick call regarding the meeting and documents for the next day.
Interest Groups	Windsor-Essex Economic Development Corporation	Marion Fantetti - Windsor-Essex Economic Development Corporation	2020-09-21	Phone	Hydro One returned Winsor Essex EDC phone call and clarified the attachments that were provided to TAC members ahead of the second workshop planned for the following day.
Interest Groups	Windsor Essex Regional Chamber of Commerce	Windsor Essex Regional Chamber of Commerce	2020-01-20	Email	Hydro One sent Notice of Commencement to Windsor Essex Chamber of Commerce.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-01-16	Email	Hydro One followed-up on a conversation with a resident and sent more detailed maps of the project area.
2020-01-18	Email	A property owner asked Hydro One if the project will allow them to connect solar panels.
2020-01-20	Email	Hydro One followed-up on an email from a resident and provided the link to more detailed maps for the project.
2020-01-20	Email	A member of the public emailed Hydro One and informed them to disregard the previous email.
2020-01-20	Email	Property owner requested Hydro One for a more detailed map.
2020-01-27	Email	Hydro One followed-up on a conversation with a resident and provided detailed project maps.
2020-02-04	Email	Hydro One responded to a request from a stakeholder and provided information on the project and confirmed that detailed maps will be mailed.
2020-02-11	Email	Hydro One responded to a landowner's comment and informed them that their feedback regarding an upcoming project related to the Highway 401 will be captured in the analysis of proposed alternative routes.
2020-02-21	Email	Hydro One responded to a comment from the public and explained that as part of the project, the intention is to provide more load growth and generation to connect in the area. Hydro One indicated that once infrastructure improvements are in place, the applications for Net Metering program would be assessed.
2020-03-05	Email	Hydro One received a comment from a local stakeholder requesting to see the engineering and environmental data to support the selection of the routes prior to the information centres. A concern was raised with regard to the identification of routes prior to the EA and consultation process.
2020-03-06	Email	Hydro One followed up on a call with a local resident and sent the Notice of Commencement, invitation to the Community Information Centre and maps. It is noted that this contact did not receive the Notice of Commencement in the mail as of that time.
2020-03-06	Phone	Hydro One received a call from a local resident who indicated they did not yet receive a notification. Hydro One emailed the Notice of Commencement, Community Information Centre invitation and maps.
2020-03-06	Email	Resident emailed Hydro One indicating that Route 2 would be the best option as it would have the least impacts. Resident highlight concerns with Route 3 and concerns related to visual impacts and effects to internet/TV service.
2020-03-09	Email	Hydro One followed up on a comment received from a local resident and informed them that their feedback will be considered as part of the route alternative analysis. Hydro One indicated that if they are unable to attend the Community Information Centre, the information panels will be posted on the website, or alternatively, the information could be emailed.
2020-03-11	Email	Hydro One responded to a comment from a local resident and informed them of how the route alternatives were developed and how the public/stakeholder will be involved in evaluating the route alternatives. As the local resident was unavailable for a call prior to the Community Information Centers (CIC), Hydro One invited the resident to meet with the Hydro One team at one of the upcoming CICs.
2020-03-16	Email	Hydro One followed-up with a local resident regarding recent public health developments and the cancellation of the upcoming Community Information Centres. Hydro One informed the resident that they will be kept informed and provided detailed project maps.
2020-03-16	Email	Hydro One responded to a local property owner and informed them that the upcoming Community Information Centres will be cancelled due to the recent public health developments.
2020-03-16	Email	Hydro One received an inquiry from a property owner regarding the upcoming Community Information Centres and whether they would still take place. The property owner indicated they are interested in attending any meeting as they have properties that may be impacted by the routes.
2020-03-16	Phone	Hydro One received a call from a member of the public inquiring whether the Community Information Centres would be cancelled. Hydro One followed-up to confirm the meetings are cancelled and they will be rescheduled.
2020-03-16	Phone	A local resident left a voicemail with Hydro One requesting more information on the meeting in Chatham. Hydro One followed up by phone.
2020-03-17	Phone	Hydro One received a call from a member of the public inquiring whether the upcoming Community Information Centres are cancelled. Hydro One confirmed they are cancelled and informed them that rescheduling and re-notifying for the Community Information Centres would occur but the timeline is unknown at this time.
2020-03-17	Phone	Hydro One received a call from a local resident inquiring whether the Community Information Centres are cancelled and Hydro One confirmed the cancellation. The local resident inquired whether the route selection would be made and Hydro One explained that the decision has not been made and the information centres are the first of several meetings to introduce the project. The local resident also inquired if the public would be notified about the rescheduled information centres and Hydro One confirmed the public would be notified.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-03-17	Email	Hydro One informed a local resident of the cancellation of the Community Information Centres due to recent public health developments. Hydro One confirmed details will be provided on when the meetings are rescheduled and that the project team will remain available to answer questions.
2020-03-17	Email	A property owner emailed Hydro One with a question on property rights.
2020-03-18	Phone	Hydro One received a voicemail from a local landowner requesting confirmation of the cancellation of the Community Information Centres. Hydro One returned the call and confirmed the cancellation and that more information will be provided once it is rescheduled. The local landowner noted that they have land affected by the project and would like to be kept informed.
2020-03-19	Phone	A local stakeholder left a voicemail inquiring whether the Community Information Centres are cancelled. Hydro One followed up to confirm the cancellation of the information centres and that they will be rescheduled. The stakeholder requested to be kept informed and highlighted concerns related to the yellow line and its impact on their farming. The stakeholder also requested for another follow-up call to discuss the project in detail. Hydro One will follow up.
2020-03-19	Phone	A local stakeholder left a voicemail inquiring whether the Community Information Centres are cancelled or postponed. Hydro One left a voicemail confirming the cancellation and that the meetings will be rescheduled. Hydro One provided additional contact information.
2020-03-20	Email	Hydro One informed a local stakeholder of the cancellation of the Community Information Centres due to recent public health developments. Hydro One confirmed details will be provided on when the meetings will be rescheduled and that the project team is available to answer questions. Hydro One requested the local stakeholder's availability for a teleconference.
2020-03-20	Phone	Hydro One received a voicemail from a local stakeholder inquiring whether the Community Information Centres are cancelled. Hydro One confirmed the cancellation/postponement and the stakeholder requested to be contacted by email with updates.
2020-03-23	Email	Hydro One informed a local stakeholder that the Community Information Centres were cancelled due to recent public health developments. Hydro One informed the local stakeholder that details on when these meetings will be rescheduled will be provided and the project team will remain available to answer questions.
2020-03-23	Email	Hydro One responded to a local stakeholder to confirm the cancellation of the Community Information Centres and indicated the details on when the meetings will be rescheduled will be provided. Hydro One confirmed the project team remains available to answer questions.
2020-03-23	Email	Hydro One responded to a local stakeholder and informed them of the Class Environmental Assessment process and how the route will be selected. Hydro One outlined their approach to land rights, and informed the local stakeholder that the Community Information Centres were cancelled due to recent public health developments but details on when the meetings will be rescheduled will be provided.
2020-03-23	Email	Hydro One responded to a local stakeholder to confirm the Community Information Centres were cancelled due to recent public health developments and to confirm the stakeholder's information will be added to the project contact list.
2020-03-23	Phone	A local stakeholder inquired whether the Community Information Centres were cancelled and Hydro One returned the call to confirm their cancellation. The local stakeholder informed Hydro One of several concerns, including relocating the proposed line crossing due to flooding concerns and whether an entirely new line will be built parallel to the existing line or if it will be combined with the existing line. Hydro One confirmed contact information and will follow-up to discuss the stakeholder's concerns.
2020-03-23	Phone	A local stakeholder inquired whether the Community Information Centres were cancelled and Hydro One confirmed that they were cancelled.
2020-03-23	Phone	A local stakeholder inquired whether the Community Information Centres were cancelled and Hydro One confirmed they were cancelled. The local stakeholder requested to be added to the project distribution list.
2020-03-23	Phone	A local resident called to inquire whether the Community Information Centres were being cancelled and Hydro One returned the call.
2020-03-24	Email	A local stakeholder requested to be added to the project mailing list.
2020-03-24	Phone	A local stakeholder inquired whether the Community Information Centre on March 25th was cancelled and Hydro One confirmed its cancellation. The local stakeholder requested to be added to the project distribution list.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-03-25	Email	Hydro One informed a local stakeholder that they will be added to the project email lists as per their request. Hydro One confirmed the Community Information Centres were cancelled and details on when the meetings will be rescheduled will be provided. Hydro One also confirmed that the project team remains available to answer questions.
2020-03-25	Phone	A member of the public called to inquire whether the Community Information Centres are cancelled. Hydro One returned the call and confirmed their contact information to add to the project distribution list.
2020-03-30	Email	Hydro One followed-up with a local stakeholder to indicate the project team will be provided with their feedback from the phone conversation. Hydro One provided the stakeholder with the project team email and also provided an overview of the Class Environmental Assessment process and the route selection process.
2020-04-05	Email	A local property owner emailed Hydro One to inquire whether the Community Information Centres occurred and if any feedback or the rescheduled time could be provided.
2020-04-06	Email	Hydro One responded to a local stakeholder's inquiry about the Community Information Centres and informed them that they were cancelled due to recent public health developments and details will be provided on when the meetings will be rescheduled. Hydro One also informed the local stakeholder that the project team remains available to answer questions.
2020-04-09	Phone	Hydro One spoke with a local property owner who owns and rents multiple properties located throughout the Municipality of Chatham-Kent. The local property owner was concerned with potential impacts to business contracts and effects to agricultural lands, such as compaction. The property owner also asked whether Hydro One looked at utilizing other existing infrastructure corridor, such as the old rail corridor. Property owner advised he would send a follow up letter to share addresses and comments in writing.
2020-04-14	Phone	Hydro One received an inquiry from a consulting arborist to offer his services for the project. Hydro One collected their contact information.
2020-04-16	Phone	Hydro One received a voicemail from a local resident and returned their call. The local resident informed Hydro One that they have not received notification about the project and wondered whether work has already commenced. The resident also mentioned that the new line/towers should not be built on good farm land but be built where the existing ones are located. Hydro One indicated an email with detailed maps and the Notice of Commencement will be sent by email.
2020-04-17	Email	Hydro one sent project maps and the Notice of Commencement to a local stakeholder as a follow-up to a phone conversation.
2020-04-22	Email	Hydro One received a request from a resident to be added to the updates for all project in Windsor-Essex.
2020-04-26	Email	Hydro One received an emailed letter stating the concerns of local farm and local property owners. The letter included maps, property information, as well as a letter from a business processor. The residents stated their business depends on high quality soil and noted potential effects to business contracts. The property owners indicated concerns with compaction and effects to systematic drainage systems. The residents also noted their concern regarding health, stray voltage, and the increased cost of liability insurance. The residents proposed the old rail road corridor be used. They hope that community information meetings will be re-scheduled.
2020-04-27	Phone	Hydro One received a call from a local stakeholder who did not receive an invitation for the virtual Community Information Centre and they expressed their concern as one of the proposed lines crosses their farm. Hydro One collected the local stakeholder's contact informaton and flagged this to the project team.
2020-04-28	Email	Hydro One followed-up on a phone call with a local stakeholder and emailed the Virtual Information Session Notice.
2020-04-28	Email	Hydro One sent the Virtual Information Session Notice to residents and general members of the public.
2020-04-29	Email	A landowner in Chatham-Kent emailed Hydro One objecting the proposed power line that appears to cross their farmland. The landowner indicated that the farm was retiled to ensure proper drainage and the Provost municipal drain required replacement, both at significant cost. The landowner stated that the new drainage features would be affected by the proposed tower lines and the proposed route would devalue the acreage and property value. The landowner made note that one route would be more direct and less invasive to existing and long-standing farming operations.
2020-04-30	Email	Hydro One sent the Virtual Information Session Notice to a local property owner.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-05-01	Phone	A local resident left a voicemail requesting more information regarding the Class EA. Hydro One returned the call and the resident wanted to see where their property was located with respect to the proposed routes. Hydro One emailed detailed maps, the notice to the virtual sessions and the link to the story maps.
2020-05-01	Email	Hydro One followed up on a phone call with a local resident and sent detailed project maps, the link to the interactive map/website and the Virtual Information Session Notice.
2020-05-01	Email	Hydro One responded to a local resident and asked for available dates and times to speak with them and gather more information regarding their comments.
2020-05-01	Email	Hydro One followed up with the local residents/property owners and asked for their availability to learn more about the items brought up in their letter.
2020-05-01	Email	A member of the public emailed Hydro One and shared a letter outlining their comments and concerns for the project. The concerns outlined in the letter included ground compaction due to construction and maintenance, impacts to existing field tiles, and the loss of high value land. They inquired about using the old railway corridor, the placement of the route along existing field boundaries, tower placement and footprint, maintenance, ownership and impacts to migratory birds. They noted their concern for Route Alternative 3.
2020-05-02	Email	A member of the public emailed Hydro One and inquired whether the lines service the greenhouses in Kingsville or if lines like this will come to Kingsville in the future, and who is paying for the lines.
2020-05-04	Email	Hydro One responded to a local resident and provided an overview of how the virtual sessions were organized. Hydro One informed the local resident that an alternative time to speak with a team member can be organized should the timing of the virtual sessions not work for their schedule.
2020-05-05	Phone	A local resident left a voicemail and spoke with Hydro One on whether any information could be sent to him for the virtual Community Information sessions. Hydro One confirmed the presentation from the sessions can be mailed to the resident. The resident spoke to the importance of the information being traceable and transparent. The resident expressed interest in learning about the decision-making process for the project, including the reasoning behind the route selections, why the project is being completed, how it will be completed (i.e. land easements), and if the existing corridor could be used. The resident confirmed they will call in for both sessions.
2020-05-05	Email	Hydro One sent the Virtual Information Session Notice to local stakeholders/residents.
2020-05-05	Phone	Hydro One responded to a resident's voicemail and the resident informed Hydro One they do not have email or internet but will be fine to call in for the virtual sessions. The resident requested more information about the project and informed Hydro one of their concern regarding environmental impacts (i.e. lands impacted from the line).
2020-05-05	Phone	A resident called Hydro One to indicate the time zone used on the virtual sessions notice was incorrect.
2020-05-05	Phone	A member of the public who is a consulting arborist was wondering if he could speak with someone about offering his services. During our conversation, Community Relations indicated that at this time we do not anticipate his services. However, he can send an email to our Community Relations email address with a brief summary of the work he does and his contact information that can be shared with our team, if needed.
2020-05-06	Phone	A resident called Hydro One to inquire whether their property will be affected by the project. Hydro One called the resident back and helped them to identify that they live near the red line. The resident stated they believe the yellow line would be the best and that they would like to call in to the virtual session. Hydro One will follow up via email with mapping and information for the virtual session.
2020-05-06	Email	Hydro One sent detailed project maps and the project website link to a local stakeholder as a follow-up to an earlier call.
2020-05-08	Email	Hydro One emailed a member of the public who is a consulting arborist, to confirm receipt of their email.
2020-05-08	Email	Hydro One shared the conference call number for a meeting with a local stakeholder.
2020-05-08	Phone	A local resident, called to ask why they received the project notification and Hydro One followed-up to confirm the resident's location with respect to the project. The resident requested further information about the virtual sessions.
2020-05-08	Email	Hydro One received an email from a local stakeholder who indicated one of the variations goes through their family farm and next to their residence. The local stakeholder enclosed questions for the virtual session that related to the amount of input to route variations available to stakeholders, compensation and health concerns.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-05-08	Email	Hydro One received an email with questions from a local resident. Their questions related to the type of lines proposed (above ground or underground), if the work will be done by a local contractor, where the staging area will be located, potential disruptions, COVID-19 and community investments.
2020-05-08	Email	Local residents emailed Hydro One indicating they are not interested in a third transmission line going through their property and that other sources of power should be considered.
2020-05-10	Email	A local stakeholder emailed Hydro One the following question for the virtual information session: How were the stated options selected and what were other that were considered, but discarded, and why?
2020-05-11	Phone	A local resident left a voicemail as a follow-up to an email with Hydro One requesting to set up a phone call regarding his concerns. Hydro One followed-up internally about setting up a call.
2020-05-11	Phone	A local resident left a voicemail with questions and Hydro One returned the call. Hydro One explained about the project and informed them about the virtual sessions. The resident was not interested in calling in for the sessions.
2020-05-11	Email	Hydro One received an email from a local resident who is concerned about the potential health risks of their home being situated between the current towers and one of the proposed routes bordering Tilbury. They also spoke of their concern of the resale value of their property. The resident listed questions for the Virtual Community Information sessions related to the following: whether Hydro One will purchase the land through easement, if drilling the new lines underground was considered, the voltage of the existing lines, and how much of an increase in voltage, above the present lines, is the new transmission line.
2020-05-11	Email	A local stakeholder emailed Hydro One a list of their questions for the Virtual Community Information Sessions. These questions focused on why a higher voltage line is not being built, how property rights will be attained, using the idle K6Z tower line and health and safety for those in proximity to the line.
2020-05-11	Phone	Hydro spoke with property owners regarding their letter and business operations. The property owners indicated that compaction and potential effects to tile drainage are significant concerns to their business operations. They also indicated that there is a concern with the impacts to business contracts. Indicated that they prefer the options that parallel existing lines and asked if Hydro One could consider using the old railway track.
2020-05-11	Phone	Hydro One staff spoke with a resident regarding the project upon receiving her email. Property owner indicated the yellow line would be more direct and less intrusive. Also indicated that she has retiled her property and a new municipal drain has just been installed. The property owner indicated that the lands are being farmed by another and is concerned with impacts to crops. Property owner asked about the spacing between the towers, and Hydro One advised they would follow up.
2020-05-11	Phone	Hydro One returned a local resident's voicemail regarding the virtual information session. The local resident indicated they were under the impression Hydro One would not be hosting in-person meetings. Hydro one set a time to call with the local resident.
2020-05-12	Phone	A resident called Hydro One and requested hard copies of the maps. Hydro One was provided with an email and sent the maps.
2020-05-12	Virtual Information Session (VIS)	A Virtual Information Session (VIS) consisting of online presentations and live discussions, was held on May 12, and May 14 2020. These two events provided stakeholders with an opportunity to learn more about the project need, the Class Environmental Assessment process, the proposed route alternatives, the route selection process, key project milestones and next steps.
2020-05-12	Phone	Hydro One called back a resident to speak about the project. The resident indicated that he currently has three towers on his property and that it is challenge to operate equipment around them. The resident indicated a concern with spraying around the towers and indicated he does not want additional towers. Resident also spoke to the early access agreements and terms of the agreement. Hydro One staff advised the property owner where are in the Class Environmental Assessment process and that virtual community information session would be taking place that week.
2020-05-12	Email	A property owner submitted a question for the Virtual Community Information Sessions asking if consideration would be given to those who have towers on their properties and the challenges of adding another row.
2020-05-13	Email	Hydro One responded to a local stakeholder to inform them that the recording for the May 12th meeting will be uploaded on the webpage in the next few weeks and that another session will be held on May 14th.
2020-05-13	Email	Hydro One sent detailed project maps and project links to a local stakeholder and confirmed that they would be added to the project contact list.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-05-13	Email	Hydro One sent detailed project maps and project links to a local stakeholder.
2020-05-13	Email	Hydro One followed up on a phone conversation with a local stakeholder and provided detailed project maps and project links. Hydro One also confirmed they have been added to the project contact list.
2020-05-13	Email	Hydro One followed up on a local stakeholder's voicemail and text and provided detailed project maps and project links. Hydro One confirmed they have been added to the project contact list.
2020-05-13	Email	Hydro One followed up on a phone call with a local stakeholder and provided detailed project maps and project links. Hydro One also informed them about the virtual information session the next evening and that their questions were added to the queue for the session. Hydro One also confirmed that they have been added to the project contact list.
2020-05-13	Phone	A local resident left a voicemail with Hydro One indicating they were unable to make out the map and requested a map be sent to her. Hydro One left a voicemail detailing contact information and was provided with an email address via text.
2020-05-13	Phone	Hydro One was a left a voicemail from a local resident who wanted to know how the Town of Lakeshore will be affected by the project and whether the project will change her bill or cause an interruption. Hydro One called the local resident and followed up via email.
2020-05-13	Phone	A local resident left a voicemail with Hydro One wishing to share his expertise. Hydro One discussed the project with the resident and followed up via email.
2020-05-13	Phone	A local resident requested a more detailed map from Hydro One. Hydro One followed up and sent more information and detailed maps.
2020-05-13	Phone	A resident requested confirmation why he had received notification of the virtual information sessions. Hydro One followed up with the resident.
2020-05-13	Phone	A resident inquired why she was receiving calls about the virtual sessions. Hydro One followed up and the resident indicated she was not interested in calling into the sessions.
2020-05-13	Phone	A local resident called to inform Hydro One that he was interested in the virtual session. Hydro One followed up to discuss and was informed that the resident would call in to the session.
2020-05-13	Phone	A resident indicated that Hydro One should consider using a route that parallels the 401 or replace other towers. Indicated that we need to take into consideration the expansion of residential areas, and that there are plans for a business park along Highway 401 in Chatham-Kent. During the call, Hydro One staff advised that we are currently in the Class Environmental Assessment phase and in the process of collecting feedback and information that will help our team develop criteria which we will use to evaluate the route options.
2020-05-14	Email	Hydro One followed up on a phone conversation with a local stakeholder and provided information to join the virtual information session.
2020-05-14	Email	Hydro One followed up on an earlier phone conversation with a local resident and provided information to join the virtual information session. Hydro One also provided links to the project website and the interactive map.
2020-05-14	Phone	A resident left Hydro One a voicemail inquiring about the virtual information sessions. Hydro One returned the call.
2020-05-14	Email	Hydro One received an email from a local resident following up with their rationale for selecting route alternative #1. The resident's email included concerns and questions, including soil conditions, expropriation and flooding/erosion.
2020-05-14	Email	Hydro One followed up with a local stakeholder to provide project information and instructions on how to join the virtual session.
2020-05-14	Phone	A resident called Hydro One to request why she was being called about the project and Hydro One followed up with project and virtual information session information.
2020-05-14	Email	Hydro One emailed a local resident as a follow up to an earlier call and provided information on the project and the upcoming virtual session. Hydro One shared the links to the project website and interactive map.
2020-05-14	Virtual Information Session (VIS)	A Virtual Information Session (VIS) was held on May 14, 2020. This was the second of two virtual sessions with the intent of providing stakeholders with an opportunity to learn more about the project need, the Class Environmental Assessment process, the proposed routes, the route selection process, key milestone and next steps.
2020-05-15	Email	Hydro One responded to a local property owner and confirmed they are located outside of the study area. Hydro One provided a screenshot of the project area highlighting the local stakeholder's location.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-05-15	Email	Hydro One followed up on a voicemail and phone conversation with a local stakeholder and provided the presentation for the virtual information session, detailed project maps and project website links.
2020-05-15	Email	Hydro One sent the Virtual Information Session presentation to a local stakeholder. Hydro One indicated they are gathering information to answer their questions and will respond as soon as possible.
2020-05-15	Phone	A resident left Hydro One a voicemail asking for information on the virtual sessions. Hydro One called the resident back and followed up via email with maps and information.
2020-05-15	Phone	A local stakeholder left Hydro One a voicemail and indicated they have questions regarding tower design and the real estate process. Hydro One will follow up via email.
2020-05-19	Email	Hydro One followed up on a conversation with a local stakeholder and provided the presentation for the virtual information session, detailed maps and project website links.
2020-05-19	Email	Hydro One followed up on a conversation with a local stakeholder and provided the presentation for the virtual information session, detailed maps and project website links.
2020-05-20	Phone	A local resident left Hydro One a voicemail inquiring about the emails they received. Hydro One returned the call and followed up via email. The local resident indicated they were concerned about stakes on their property (not related to this project).
2020-05-21	Email	Hydro One followed up on a phone conversation with a local resident and provided the presentation for the virtual information session, project maps and project website links. Hydro One indicated they are waiting for a response regarding the stakes on the resident's property and that they will follow up.
2020-05-22	Email	Hydro One responded to a local resident's inquiry about whether their utility provider will be impacted by the project. Hydro One confirmed the project will not impact who their current utility provider is and customers who receive their power from ELK Power will continue to receive their power directly from that provider.
2020-05-22	Phone	Returned a resident's call on May 22, 2020 and left a message with contact information.
2020-05-25	Email	Hydro One sent the Notice of Commencement, Notice of Community Information Centre, Notice of Virtual Information Session, Virtual Information Session presentation and project website link to a local resident. Hydro One confirmed that the resident's email address will be added to the project contact list and provided an overview of the project to date. Hydro One asked the resident for both his family's addresses to flag to the project team.
2020-05-28	Email	Hydro One responded to a local stakeholder's email regarding the project and indicated it has been shared with the project team. Hydro One provided an overview of the project and requested an opportunity to speak with the local stakeholder to better understand their concerns.
2020-05-29	Phone	Hydro One followed up with a local resident to inform him that the virtual information session presentation has been sent. The local resident noted they were able to listen in to the presentation but was pleased to receive a copy of the presentation. The local resident informed Hydro One they will send a letter.
2020-06-01	Email	Hydro One responded to a local stakeholder and requested availability for a call.
2020-06-01	Email	Hydro One provided an overview of the project to a local stakeholder and responded to their questions regarding the project need and costs.
2020-06-03	Email	Hydro One provided a local resident a screenshot of her property on the map in relation to proposed route 2B. Hydro One advised the resident that they have reached out to the Municipality of Chatham-Kent to gather more information about her inquiry regarding the Western Transportation Link.
2020-06-03	Email	Hydro One confirmed with a local stakeholder that they will call to discuss the project at the agreed upon time.
2020-06-04	Email	Hydro One responded to a local stakeholder's inquiry about whether options are available to customers to connect to this feeder or with other generation sources.
2020-06-05	Phone	Hydro One staff spoke with a resident regarding their support for Route 3A. The resident was concerned with a tower potentially being located behind their community and the impacts to both property values and health. Hydro One staff advised the resident that we are in the Class Environmental Assessment phase where we are gathering feedback and input that will be used to develop the criteria that we will use to evaluate each option equally. The resident indicated that we will receive a letter from the Board of Directors of the community regarding the different routes.
2020-06-05	Email	Hydro One followed up on a previous email to a local stakeholder to correct information regarding the intent of the project. Hydro One stated that a result of this project, we expect to provide more capacity for load and generation connections in the area. However, each connection is unique and will have to be assessed individually.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-06-06	Letter	A member of the public sent Hydro One a letter regarding the project. Due to COVID-19 restrictions, the letter was not read until November; however, Hydro One has spoken with the member of the public since the letter was sent.
2020-06-08	Phone	A local resident called Hydro One to ask if any updates had been provided following the virtual sessions. Hydro One followed-up with a call and email and noted the local resident had a question about using the existing line corridor.
2020-06-08	Email	Hydro One followed up with a local stakeholder and copied Councillor McKinlay of the Municipality of Lakeshore to provide responses to her earlier questions which included construction, local job opportunities, disruptions due to COVID-19 and community investments.
2020-06-08	Email	Hydro One responded to a local stakeholder's earlier questions regarding route variations, compensation and health and safety concerns.
2020-06-08	Email	Hydro One responded to a local stakeholder's earlier question regarding the selection of proposed route alternatives.
2020-06-08	Email	Hydro One responded to a local stakeholder's earlier questions regarding land purchase/access, underground lines, present transmission capacity (kilovolts), proximity to windmills and electricity use in Ontario. Hydro One noted that the resident has been added to the project contact list.
2020-06-08	Email	Hydro One responded to questions from a local stakeholder regarding hydro service and whether the proposed project will resolve current issues she is experiencing.
2020-06-09	Email	Hydro One responded to questions from a local stakeholder regarding consideration for potentially affected landowners and farm operators.
2020-06-09	Email	Hydro One responded to a question from a local stakeholder regarding excess generation capacity, and clarified the roles of Hydro One and the IESO in planning and operating the provincial grid, compared to those of generators such as OPG and Bruce Power.
2020-06-09	Email	Hydro One responded to questions from a local stakeholder regarding improving capacity and whether this will demand more upstream lines from Longwoods and/or Sarnia.
2020-06-09	Email	Hydro One provided a map of the preferred route for the Western Transportation Link to a local stakeholder as requested from a previous email. Hydro One noted where it appears the proposed routes cross paths with the Western Transportation Link and that they are consulting with the Municipality of Chatham-Kent to address any crossings that may be required.
2020-06-09	Email	Hydro One responded to questions from a local stakeholder regarding the length of the transmission line, cost, number of poles and whether existing or new poles will be used, size of the Lakeshore Switching Station, compensation and project need. Hydro One noted the resident has been added to the project contact list.
2020-06-10	Email	Hydro One responded to questions from a local stakeholder regarding the rationale for the double-circuit transmission line, land acquisition/rights, use of existing infrastructure and health and safety concerns.
2020-06-10	Email	Hydro One responded to questions from a local stakeholder regarding health and safety concerns.
2020-06-10	Email	Hydro One responded to a question from a local stakeholder regarding visual impacts, tower location on adjacent property and compensation.
2020-06-10	Email	Hydro One responded to concerns raised by a resident regarding health and safety around to transmission lines. Hydro One stated that they comply with all regulatory requirements which account for public safety, and that they seek guidance from Health Canada, who does not consider that any precautionary measures are needed regarding exposure to power frequency or fields produced by power transmissions. Hydro One indicated that they would be happy to connect the resident to Hydro One's health and environment specialist, should they have additional questions.
2020-06-11	Email	Hydro One responded to questions from a local resident regarding health and safety concerns and noise emissions. Hydro One stated that they design and operate our equipment across the province in accordance with all regulatory requirements which account for public safety, and seek guidance from authorities such as Health Canada, who does not consider that any precautionary measures are needed regarding exposure to power frequency or fields produced by power transmissions. Hydro One also indicated that the level of noise emitted by transmission lines is related to a number of different factors including weather conditions. During regular weather, our lines are typically silent, and during foul weather, such as rainstorm, those noise levels can be raised, but typically along with increases in background environmental noise.
2020-06-11	Phone	A local resident left a voicemail indicating he had questions. Hydro One followed up and the local resident stated he heard a concern about Dillon Consulting Ltd.'s access to an neighboring property. Hydro One advised that a team member would follow up.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-06-11	Email	Hydro One responded to a group of residents regarding the incident that occurred on June 9, 2020, and apologized. Hydro One informed the landowners that they have spoken with Dillon Consulting to review the situation and the steps to avoid any similar situations. Hydro One assured the landowners that the issue is being taken seriously and additional staff training and new internal reporting processes for accessing properties are being completed by their consultants. Hydro One assured the landowners that any information collected utilizing access through their property will not be used by Dillon Consulting or Hydro One. Compensation will be offered in lieu of access to the landowners' property and Dillon Consulting will be in contact to discuss this further.
2020-06-11	Phone	Hydro One contacted a resident regarding a recent incident with access to landowner's properties. The resident had called the Community Relations line concerned that this was happening in other areas and Hydro One called back to reassure the property owner of Hydro One's actions. The resident requested another follow-up call the next day. Hydro One attempted to call the property owner back again.
2020-06-12	Email	A landowner emailed Hydro One to notify them that they are not interested in receiving the amount provided to other property owners. The property owner indicated it was an intentional decision not to participate in the early access agreement. The property owner indicated they would like to present alternatives to all proposals before the project is initiated.
2020-06-12	Email	Hydro One followed up with a local stakeholder and provided responses to questions related to the design of the transmission lines, route selection, compensation, noise emissions, lighting, notification and health and safety.
2020-06-12	Phone	Hydro One called a landowner regarding the incident whereby a consultant accessed his property. The property owner expressed concern with the incident and Hydro One's reputation. Hydro One advised the landowner they would like to set up virtual meetings with him and his neighbours. The property owner additionally had questions regarding compensation for property; surplus power; and, whether a preferred route already selected. At the conclusion of our call, both parties agreed to work together to figure out the path forward for having future meetings.
2020-06-12	Email	Hydro One responded to a letter outlining concerns from a local landowner. Hydro One provided an outline of the project and how feedback is used in the process. Hydro One noted that they will look for opportunities to avoid, protect and prevent damage to environmental features and that they will work with property owners impacted by the project.
2020-06-12	Email	Hydro One responded to questions from a local stakeholder regarding the route selection process, and responded to questions regarding updating existing infrastructure and paralleling existing infrastructure.
2020-06-12	Email	Hydro One sent a letter to property owners addressing their questions and concerns with potential impacts to business contracts, effects to agricultural lands, opportunities to utilize other linear infrastructure corridors, and health and safety. Hydro One thanked the landowners for speaking with them and indicated they will be in touch to set up a conversation with them and their neighbours.
2020-06-12	Email	Hydro One informed a local stakeholder that they will call during the next week and requested contact information.
2020-06-12	Email	Hydro One addressed comments from a local stakeholder regarding the project purpose, Class Environmental Assessment overview and how Hydro One will work with impacted property owners. Hydro One noted they anticipate the project will be completed by an Engineering, Procurement and Construction contractor and provided the timeline of the project.
2020-06-12	Email	Hydro One resent an email addressing questions from a local stakeholder due to an email bounce back.
2020-06-12	Email	Hydro One provided an overview of the project to local stakeholders. Hydro One requested confirmation of a time to discuss the project and their concerns.
2020-06-14	Email	Hydro One received the contact details to set up a call with a property owner.
2020-06-15	Email	Hydro One followed up with a local stakeholder to confirm that the project team has been informed of her concerns and will be in touch. Hydro One attached an earlier email communication, the Virtual Information Session Notice and project maps. Hydro One confirmed that she has been added to the contact list.
2020-06-15	Email	Hydro One provided responses to questions from a local stakeholder. Hydro One provided an overview of the project, Class Environmental Assessment, route selection process and environmental field surveys.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-06-16	Email	Hydro One resent an email to the alternative email address on file for local stakeholder. The email outlined responses to the stakeholder's questions regarding the need for the project, and the IESO's role in forecasting the electricity demand needs of the province.
2020-06-16	Phone	Hydro One followed up with a property owner and spoke to them in regards to the challenges of farming around transmission towers and the concern of adding a third row of transmission towers on their property. Hydro One provided information on the route evaluation process, how the initial route alternatives were selected, and when Hydro One's expects to select the preferred route.
2020-06-16	Email	Hydro One sent a letter to a local property owner outlining responses to the questions and concerns raised on using the old railway corridor, placing the route along property boundaries, proposed tower footprint and spacing, tower/corridor access, ownership and migrating birds.
2020-06-16	Phone	Hydro One spoke with a local resident that was referred to Hydro One by Councillor Harrigan from the Municipality of Chatham-Kent. The resident indicated that there are towers that already run through his property and is concerned with additional towers being constructed. Questions were asked on whether Hydro One has selected a route, the typical corridor width, whether the old railway corridor could be utilized, typical expected service life of transmission infrastructure and whether Hydro One could utilize the existing transmission corridor immediately north of the 401 by upgrading and replacing the existing structures. The property owner also raised concerns regarding liability insurance and challenges to operating around the infrastructure.
2020-06-17	Email	Hydro One followed up on a voicemail left for a property owner by email , and informed the property owner that they would like to organize video conference meetings with him, his neighbours and the project team. Hydro One provided more information about the planned logistics for the meetings. Hydro One requested confirmation of availability.
2020-06-17	Email	Hydro One followed up on a conversation with a local property owner by email , and noted that they will provide further details regarding their questions related to using and considering existing infrastructure. Hydro One offered to arrange the video conference call with the property owner and their neighbours to discuss project details.
2020-06-18	Email	Hydro One emailed a local property owner to confirm receipt of her email stating her interest to participate in the meetings with neighbours to provide a project update. Hydro One informed the landowner that they will be in touch with proposed dates and timing.
2020-06-19	Email	Hydro One confirmed the receipt of the landowners' email where they informed Hydro One they will attend the neighbour virtual project update meetings. Hydro One noted they will send the proposed dates.
2020-06-19	Email	Hydro One confirmed receipt of a resident's email stating his interest to participate in the virtual project update meeting for landowners. Hydro One noted they will forward proposed dates and times.
2020-06-19	Email	Hydro One shared the available dates for the landowner virtual project update conference sessions with local landowner and property owners. Hydro One requested confirmation of availability.
2020-06-19	Email	Hydro One emailed a landowner to provide a correction regarding the proposed meeting time sent in a previous email.
2020-06-21	Email	Hydro One received an email regarding route variation 1C and 1D and the potential impacts to 10 different residences/properties. The property suggested the variation follow existing transmission towers along the Dillon Sideroad. The property owner also raised concerns regarding health and safety and stray voltage.
2020-06-25	Email	Hydro One sent an email to members of the community inquire they would be interested in a virtual session to provide project updates and answer any questions.
2020-06-25	Email	Hydro One emailed a member of the community to confirm their participation in a virtual conference session.
2020-06-29	Email	Hydro One followed up with a property owner who enquired about whether the old railway corridor and wind turbine infrastructure could be utilized, typical expected service life of transmission infrastructure and whether Hydro One could utilize the existing transmission corridor immediately north of the 401 by upgrading and replacing the existing structures.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-06-30	Phone	Hydro One received a voicemail from a concerned resident who was interested in more information on one of the alternative routes. The resident's family claimed they intended to develop their property for residential purposes but would decide against it if the route would pass through the property. Hydro One called the resident to inform that at the time the routes were being evaluated and have not been selected.
2020-07-02	Phone	A resident left a voicemail on the community relations line to ask if he could be included in the meeting next week and whether meetings could be held in the morning.
2020-07-02	Phone	A resident left a voicemail on Hydro One's Community Relations line. The resident asked if he could be included in the community teleconference and whether there could be a morning session. Hydro One followed up with ways to accommodate them.
2020-07-06	Email	Hydro One corresponded with residents of the community to confirm their availability to attend a videoconference on July 9, 2020.
2020-07-06	Email	Hydro One corresponded with members of the public regarding their availability to attend a video conference scheduled for July 9, 2020.
2020-07-06	Phone	Hydro One spoke with a property owner about setting up another date/time for a community video conference call. The property owner also indicated the challenge with maneuvering farming equipment between the tower structures and that aligning towers should be considered. The property owner also raised concerns regarding liability insurance and helicopter spraying.
2020-07-06	Email	Hydro One replied to questions and suggestions from a member of the public regarding the preliminary work to identify potential route alternatives, upgrading existing lines, health and safety and stray voltage. Hydro One also noted that they would look into the resident's suggestion use existing towers along Dillon Sideroad and provide a response.
2020-07-08	Email	Hydro One email members of the public and potential participants of a video conference to confirm their availability.
2020-07-08	Phone	Hydro One spoke to a property owner about the project and the timeline for the route section. The property owner indicated that Route Alternative 3 is in close proximity to his home/farm and that they were potentially looking to build a home on the property. Hydro One advised that they are evaluating each of the routes based on criteria that we develop and that we anticipate to present our preferred route in early 2021.
2020-07-09	Meeting	Hydro One had a video call with property owners and the Hydro One team provided a review of the Class Environmental Assessment and route selection process, including how feedback will be incorporated into the evaluation of the different routes, a recap of next steps, and provided the opportunity for the property owners to ask questions. Questions and comments were raised regarding effects to agricultural operations and features, upgrading existing infrastructure, Class Environmental Assessment process, route selection timelines, compensation, route locations and use of the old railway corridor.
2020-07-10	Email	Hydro One emailed members of the public to share information regarding a consultation opportunity being held by a video conference.
2020-07-10	Email	Hydro One emailed members of the public to information that they intend to organize another meeting for July 22nd at 9:30 A.M.
2020-07-10	Email	Hydro One emailed members of the public regarding video conferences they have held with members of the public. Hydro One informed that they intend to organize another meeting for July 22, 2020, at 9:30 A.M
2020-07-10	Email	Hydro One emailed members of the public to inform that they would schedule a video call to discuss the project with members of the community. Hydro One also stated that they intend to organize another meeting for July 22, 2020, at 9:30 A.M.
2020-07-10	Email	Hydro One emailed a community member to inform that they would be holding a video call to share further information regarding the project.
2020-07-15	Email	Hydro One replied to an email from local residents and acknowledged their questions regarding the project. Hydro One stated that they have taken note of their questions and will prepare to answer them in a video conference which took place in July 2020.
2020-07-15	Email	Hydro One emailed a resident to enquire if they would be present for a video call on July 2020.
2020-07-20	Email	Hydro One thanked the local property owner for confirming interest in participating in the property owner virtual conference meeting. Hydro One requested their property address to add as reference to the route alternatives.
2020-07-21	Email	Hydro One shared details for an upcoming virtual meeting with participating stakeholders
2020-07-22	Email	Hydro One emailed a local landowner and shared a previously sent email. Hydro One requested that he confirm the email was received.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-07-22	Email	Hydro One emailed local landowners to confirm a previously sent email was received and shared the email.
2020-07-22	Email	Hydro One emailed a local stakeholder to request confirmation of whether a previously sent email was received. Hydro One shared the email.
2020-07-22	Email	A local stakeholder, emailed Hydro One to indicate they did not receive the email previously sent but he does have the email now.
2020-07-22	Email	Hydro One emailed a local landowner and thanked him for the opportunity to speak with him and for sharing the invitation for the landowner virtual update meeting with his neighbours. Hydro One indicated they will keep him up-to-date on all future community open houses.
2020-07-22	Email	A local landowner shared their property description, including text and an image, by email with Hydro One.
2020-07-22	Meeting	Hydro One had a meeting with property owners and the team provided a review of the Class Environmental Assessment and route selection process, including how feedback will be incorporated into the evaluation of the different routes, a recap of next steps, and provided the opportunity for the property owners to ask questions. Questions and comments were raised regarding other routes considered, compensation, effects to farm equipment communication devices, route locations, effects to agricultural operations and lands, impacts to business contracts, and increased liability.
2020-07-22	Email	A member of the public emailed Hydro One and shared a photo. The subject line of the email referenced "Damage from maintenance crew".
2020-07-22	Email	A member of the public emailed Hydro One and informed them of concerns raised by landowners. The landowners inquired why it is acceptable to sacrifice a larger group of landowners and family business owners for greenhouses. It was noted that if this is absolutely necessary, then the landowners expect to be compensated.
2020-07-23	Email	Hydro One thanked stakeholders for participating in the previous day's virtual meeting. Hydro One reiterated that the project team is still currently evaluating the route alternatives and collecting data from a variety of sources such as existing reports and plans; conducting environmental field surveys and technical assessments; as well as holding a wide range of engagement opportunities. Hydro One also reiterated that the project team would be available to discuss the project and the stakeholders' input and considerations going forward.
2020-07-25	Email	A property owner emailed Hydro One indicating that Route Alternative 1 was located close to their home and wanted further clarification on the corridor width, route selection process, health and safety, and procedure on relocations.
2020-07-27	Email	Hydro One responded to local stakeholders' question regarding paralleling with the existing transmission line along Dillon Road. Hydro One noted that there are technical challenges with paralleling with the existing line and that they are still assessing all three route alternatives and their associated variations.
2020-07-28	Email	Hydro One informed a local stakeholder that they are reviewing their questions and will respond shortly.
2020-07-31	Email	Hydro One responded to a local landowner's comment following the virtual landowner meeting. Hydro One provided an overview of the project need and decision to move forward with the new transmission line out of a variety of options. Hydro One noted that they recognize this will be a change for some property owners and they are interested in hearing from them. Hydro One's real estate team will work closely with directly impacted property owners and Hydro One provided an overview of next steps following the completion of the Environmental Assessment process and preferred route selection.
2020-08-04	Email	A freelance journalist emailed Hydro One to request an update on previously submitted questions regarding the project.
2020-08-05	Email	Hydro one received an email from a property owner indicating their preference for Route Alternative 1 or 3. The property owner raised concerns regarding health and safety and property values, and asked to be included on the project contact list.
2020-08-07	Email	Hydro One responded to local stakeholders' email regarding the project and confirmed that they have been added to the project contact list as requested. Hydro One responded to their concerns and comments about health and safety and property values. Hydro One informed the stakeholders of the next steps in the project and informed them that they can contact Hydro One to share their input.
2020-08-21	Email	Hydro One emailed a member of the general public and responded to their inquiry about the project and its current status.
2020-08-24	Email	Hydro One emailed a local property owner and thanked them for bringing their additional concerns to Councillor Latimer's attention. Hydro One indicated they would like to host a video conference call with them and their neighbours or to meet onsite. Hydro One noted that they are looking into hosting an in-person Community Information Centre. Hydro One also informed them that they are looking further into the feasibility of the railway corridor as an alternative route and would like to arrange a meeting once this analysis is complete.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-08-25	Email	Hydro One emailed a member of the general public and indicated they understand they have been in contact with Mayor Canniff and wanted to reach out to see if there is any further information or clarification Hydro One may provide. Hydro One informed the property owner that they are currently reviewing their initial findings on the feasibility of the old railway corridor as an alternative route. Hydro One also indicated that they are looking to host an in-person Community Information Centre and in the interim, would be available to host a video conference call or onsite meeting with them and their neighbours.
2020-08-25	Email	Hydro One emailed a member of the public and provided responses to their earlier questions from the virtual Community Information Centre. Hydro One provided responses to inquiries related to the right-of-way of the corridor, property distance, safety, relocation and property values.
2020-09-02	Email	Hydro One emailed a member of the general public to confirm whether the invitation was sent in error and to provide further information if not.
2020-09-17	Email	Hydro One emailed a member of the general public to confirm they have been added to the project contact list as requested.
2020-09-17	Email	Holly Martelle of Timmins Martelle Heritage Consultants (TMHC) emailed local heritage experts regarding the project and of the proximity of some of the routes falling within or near the Buxton settlement. TMHC informed them that they have been working on a Stage 1 Archaeological Planning Study and wanted to touch base should there be some lesser known sites or areas of concern. TMHC noted Golder Associates' work on the cultural heritage assessment for the project and of their interest in learning more about any areas of concern or heritage buildings, as well as the resources specified.
2020-09-18	Email	The local heritage experts emailed Hydro One and Timmins Martelle Heritage Consultants with their knowledge of the Shadd family cemetery as requested. As property owners in the study area as well, they indicated they are not supportive of the proposed route that is south of the 7th line. It was noted that copies of the requested resource material will be confirmed.
2020-09-18	Email	Holly Martelle of Timmins Martelle Heritage Consultants emailed the local heritage experts to thank them for the information and for sharing their concerns.
2020-09-23	Phone	A stakeholder called looking for clarification on whether or not there is enough power going into the Chatham Station to be transferred through six circuits. Additionally, he asked for clarity on why there is a need for two circuits, when one can deliver 400 megawatts.
2020-10-02	Email	Hydro One advised the stakeholder that they would get back to him in regards to his questions. Hydro One emailed members of the public regarding availability for a site meeting to further discuss feedback shared in the deputation letter at the September 14th Chatham-Kent City Council Meeting.
2020-10-02	Phone	A local resident called Hydro One to inquire about the side roads that Route Alternative 3A crosses. Hydro One explained where the route was in relation to their property and the local resident expressed concern that Route Alternative 3A will impact farm land and also expressed concern as they have livestock on their property. The local resident expressed interest in discussing this further and it was indicated that Hydro One to follow up with the local resident.
2020-10-06	Phone	Hydro One left a voice mail with a member of the public to follow up on a request to discuss the project.
2020-10-07	Email	Hydro One emailed a member of the public to request a call.
2020-10-07	Email	A property owner called Hydro One requesting a call.
2020-10-08	Email	Hydro One emailed the local heritage experts to thank them for providing their insight, expertise and comments on the project. Hydro One confirmed that they have heard their comments and concerns about potential effects of the new line to agricultural operations and noted that effects to agricultural operations has been top of mind for the project team. Hydro One indicated that they need to take into account several factors over a large area and will try to consider all of the factors holistically and fairly across the route alternatives. Hydro One also noted that paralleling existing lines infrastructure is typically considered as an alternative where possible; however, they are currently evaluating a wide variety of diverse routes. Hydro One provided an overview of the Class Environmental Assessment process and requested any further feedback.
2020-10-08	Email	A member of the public emailed Hydro One regarding logistics for an upcoming meeting.
2020-10-08	Email	A property owner emailed Hydro One regarding meeting logistics.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-10-13	Email	A member of the public emailed Hydro One to thank them for getting in touch.
2020-10-13	Phone	Hydro One spoke with a community member who asked where Hydro One is in the process and why the Route Alternative 3A is being considered. The property owner also expressed concern with stray voltage and Alternative 3. Hydro One informed them of the Class Environmental Assessment process and that they have not yet selected a preferred route.
2020-10-14	Email	Hydro One emailed a member of the public to confirm properties that intersect with the route alternatives.
2020-10-15	Email	Hydro One emailed members of the public and provided an update on the project. Hydro One noted that based on what they have learned, they have made four refinements to the route alternatives and identified the need to expand the Chatham Switching Station. Hydro One provided the link to the interactive map and attached the refined route map. Hydro One also noted that there will be two upcoming virtual engagement opportunities and an invitation will be sent for both events.
2020-10-15	Email	Hydro One emailed members of the public and provided an update on the project. Hydro One noted that based on what they have learned, they have made four refinements to the route alternatives and identified the need to expand the Chatham Switching Station. Hydro One provided the link to the interactive map and attached the refined route map. Hydro One also noted that there will be two upcoming virtual engagement opportunities and an invitation will be sent for both events.
2020-10-15	Email	Hydro One emailed members of the public and provided an update on the project. Hydro One noted that based on what they have learned, they have made four refinements to the route alternatives and identified the need to expand the Chatham Switching Station. Hydro One provided the link to the interactive map and attached the refined route map. Hydro One also noted that there will be two upcoming virtual engagement opportunities and an invitation will be sent for both events.
2020-10-15	Email	Hydro One emailed members of the public and provided an update on the project. Hydro One noted that based on what they have learned, they have made four refinements to the route alternatives and identified the need to expand the Chatham Switching Station. Hydro One provided the link to the interactive map and attached the refined route map. Hydro One also noted that there will be two upcoming virtual engagement opportunities and an invitation will be sent for both events.
2020-10-15	Email	Hydro One emailed members of the public and provided an update on the project. Hydro One noted that based on what they have learned, they have made four refinements to the route alternatives and identified the need to expand the Chatham Switching Station. Hydro One provided the link to the interactive map and attached the refined route map. Hydro One also noted that there will be two upcoming virtual engagement opportunities and an invitation will be sent for both events.
2020-10-16	Email	Hydro One confirmed via email that the stakeholder was added to the contact list as requested.
2020-10-16	Email	Hydro One emailed members of the public and indicated that they would be happy to set up a call to discuss the refinements and their concerns. Hydro One requested their availability for the call.
2020-10-16	Email	A member of the public emailed Hydro One to inform them that their property is marked as "Variation 2" and noted that they have livestock. They requested a response and to know that the line will not pass through their property.
2020-10-16	Phone	A member of the public left a message for a Hydro One staff member regarding the email about route refinements. It was mentioned that they have sent an email. Hydro One responded to the email to set up a call.
2020-10-16	Phone	A member of the public spoke with Hydro One regarding the email on the route refinements and the potential impacts to their business. Hydro One attained the property information from the owner and indicated that they would get back in touch.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-10-16	Phone	Hydro One called a member of the public to follow up on their outstanding questions regarding project/electricity need in the region and the difference between circuits.
2020-10-16	Meeting	Hydro One had a site visit meeting with area residents and residents provided Hydro One with an overview of potential project impacts to their present and future operations. Hydro One provided an update on the route refinements made through the Class Environmental Assessment and reassessment of the former railway corridor. During the meeting, questions and comments were raised regarding challenges of operating machinery around towers, effects to agricultural operations, compensation and crop loss.
2020-10-19	Email	Hydro One emailed a member of the public and thanked them for their email. Hydro One noted they will send it to the appropriate team member for investigation and that someone will be in touch as soon as possible.
2020-10-20	Email	Hydro One emailed members of the public to inform them that they are gathering more details from the project team regarding their concerns and it would be beneficial to arrange the call once those details are received. Hydro One noted they will be in touch as soon as possible with availability. Hydro One requested confirmation of address.
2020-10-23	Email	Hydro One emailed a member of the public to respond to their question regarding the project and provided a screen shot of their property in relation to Route 3 of the alternatives.
2020-10-23	Phone	Hydro One had a follow up call with a member of the public who expressed their concerns with the project, with concerns related particularly to the route alternative above Highway 401 and its impacts to land value and quality, equipment operation, spraying and line interference with radios and phones. They also stated they would rather the line twin with the existing lines. Hydro One indicated they would set up a project team call to further discuss their concerns.
2020-10-26	Email	Hydro One emailed a member of the public and requested confirmation of the receipt of a previously sent email. Hydro One provided a screen shot depicting the property in relation to Route 3 of the alternatives.
2020-10-26	Email	Hydro One emailed members of the public and invited them to the Virtual Open House and Live Discussion. Hydro One shared the invitation and links to the open house and presentation.
2020-10-26	Email	Hydro One emailed members of the public and invited them to the Virtual Open House and Live Discussion. Hydro One shared the invitation and links to the open house and presentation.
2020-10-26	Email	Hydro One emailed members of the public and invited them to the Virtual Open House and Live Discussion. Hydro One shared the invitation and links to the open house and presentation.
2020-10-26	Email	Hydro One emailed members of the public and invited them to the Virtual Open House and Live Discussion. Hydro One shared the invitation and links to the open house and presentation.
2020-10-27	Email	Hydro One emailed a member of the public following a phone conversation and shared the link to the interactive map to locate their property in relation to the proposed routes.
2020-10-27	Phone	Hydro One called members of the public regarding their concerns on the project. They expressed concern on the farming experience of the decision-makers and on compensation. They requested information on the setback requirement for the Ministry of Transportation, the route selection process and compensation. Hydro One informed them they would get back to them. The members of the public noted their preference for Route Alternative 3.
2020-10-27	Email	Hydro One received questions from a member of public regarding whether the new line will be buried or an overhead line, and requested a link to the interactive map and when they could get an answer to their question as they are unable to make the November 5th virtual Live Discussion session.
2020-10-28	Email	Hydro One emailed a member of the public and followed up on a phone conversation to request an opportunity to set up a meeting to discuss further. Hydro One requested confirmation of the addresses provided by the member of the public.
2020-10-28	Email	Hydro One emailed a member of the public and thanked them for confirming the information and for sharing their history and concerns. Hydro One requested confirmation of availability for a call. Hydro One reiterated that a route has not been selected and the evaluation process can be discussed on the upcoming call.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-10-28	Phone	Hydro One spoke with a member of the public who indicated the refinements to Route 2 would negatively impact farming practices. They also advised on damages to the drainage system, loss of productivity and value of farmland. They expressed concerns related to high voltage hydro lines, electromagnetic fields, compaction, property value, crop loss and operation of equipment.
2020-10-29	Email	Hydro One emailed members of the public regarding logistics for an upcoming call.
2020-10-29	Email	Hydro One emailed a member of the public and shared the links to the project website and the interactive map to help identify their property in relation to the proposed routes.
2020-10-29	Email	Hydro One emailed a member of the public in follow up to a call. Hydro One provided a route refinement map and the links to the interactive map and project website. Hydro One noted the question regarding proposed work at the Chatham Switching Station has been forwarded to the project team and a follow up will be provided. Hydro One provided a reminder of the upcoming virtual live discussion.
2020-10-29	Phone	A member of the public called Hydro One and Hydro One provided an overview of the route refinement maps and how to use the interactive map. An email follow up was sent to summarize how to access the maps and to provide the Route Refinement 4 map. They inquired about the kind of work that will be happening at the Chatham Switching Station. The project team will follow up with more details.
2020-10-29	Email	Hydro One received an email from a property owner requesting more detailed maps.
2020-10-30	Email	Hydro One emailed a member of the public and provided clarification regarding the white lines in the interactive map. Hydro One also noted that notices have been mailed to properties within the study area, as well as through social media, radio and email.
2020-10-30	Email	Hydro One emailed a member of the public and indicated that their comments have been shared with the project team and someone will reach out to them.
2020-10-30	Email	Hydro One emailed members of the public and indicated that their comments have been shared with the project team and someone will reach out to address their concerns.
2020-11-02	Email	Hydro One emailed a member of the public and inquired about availability for a call.
2020-11-02	Email	Hydro One emailed a member of the public and requested confirmation regarding logistics for an upcoming call.
2020-11-03	Email	Hydro One emailed a member of the public and thanked them for sharing their questions in advance of the virtual live discussion. Hydro One provided responses to their questions in relation to the design of the tower structure and transmission line. Hydro One provided the links to the project website, virtual open house and the interactive map and noted that a recording of the discussion and presentation materials will be available following the session.
2020-11-03	Email	Hydro One emailed a member of the public and provided the conference call details for the upcoming call.
2020-11-03	Email	Hydro One emailed a member of the public following a phone conversation. Hydro One provided the number to call for the virtual live discussion and the links to the website for the live stream presentation and interactive map. Hydro One noted that they understand they have some questions and concerns regarding the route variations and how they may affect their farm land. Hydro One indicated they can reach out with any additional questions.
2020-11-03	Phone	Hydro One spoke with a member of the public who indicated they are frustrated and have sent their concerns in a letter to Hydro One. They noted that they are concerned with additional transmission towers/lines being put on their property. Hydro One noted that the Chatham Switching Station will be expanded east.
2020-11-03	Phone	Hydro One had a teleconference with a member of the public to discuss the project and to further explain details on the rationale for the route refinements. The member of the public provided information on their property and shared concerns regarding operation of farm equipment around towers, impacts to property values and telecommunications under the lines.
2020-11-04	Email	Hydro One emailed a member of the public and thanked them for submitting their questions. Hydro One noted they will be added to the queue of questions for the live virtual discussion and if they are unable to answer them, someone will reach out to provide an answer.
2020-11-04	Email	Hydro One emailed members of the public and shared the contact information for the upcoming call.
2020-11-04	Phone	Hydro One had a teleconference with a property owner to discuss the route refinements impacting their properties and responded to questions related to tower placement, maintenance practices, design and consultation with local municipal governments.
2020-11-05	Email	A local property owner emailed Hydro One and outlined their concerns regarding the towers and line on their property. It was noted that they are concerned about property value, towers creating hazards in relation to farm operations and stray voltage.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-11-05	Email	Hydro One emailed a member of the public and provided an overview of the project and Class Environmental Assessment. Hydro One responded to their concern regarding stray voltage and noted they can connect them with their team who specializes in these requests if they have further questions. Hydro One included the link to the Virtual Open House and Live Discussion registration.
2020-11-05	Email	Hydro One emailed a member of the public and thanked them for submitting their question. Hydro One noted that the question has been added to the queue of questions to be answered at the live virtual discussion and if it is not answered, someone will reach out.
2020-11-05	Email	Hydro One emailed a member of the public and provided a response to their inquiry about the route selection. Hydro One noted that they do not have a preferred route for the project yet and provided an overview of the Class Environmental Assessment and route selection process. Hydro One included the links to the Live Discussion presentation and Open House.
2020-11-05	Email	Hydro One emailed a member of the public to thank them for speaking with them and for submitting their questions ahead of the Live Discussion. Hydro One noted that if they are unable to answer their question, they will speak further on an upcoming call.
2020-11-05	Email	A member of the public emailed Hydro One and raised concerns about the impact of the line on customers, land and health. They also inquired about the impact of the line on existing infrastructure and whether lines between Chatham and Lakeshore will also be updated.
2020-11-05	Virtual Information Session (VIS)	A Virtual Information Session and live discussion was held, where Hydro One presented an update on the Project and Class EA process including the route evaluation criteria, refinements to the route alternatives that had been made, upcoming project milestones and next steps.
2020-11-06	Email	A member of the public emailed Hydro One to request they be added to the distribution list for the project.
2020-11-06	Email	A member of the public emailed Hydro One and inquired whether the route refinement 3 is twinning with the already existing transmission line. They noted that the area is already congested and that the existing transmission line impacts their tree.
2020-11-06	Email	Hydro One emailed a member of the public to confirm they have been added to the project contact list as requested.
2020-11-06	Email	Hydro One emailed a member of the public and indicated that they gave them a call and left a message. Requested availability for a new time for a call.
2020-11-06	Email	Hydro One emailed a member of the public and thanked them for providing their question on power reliability in North Buxton. Hydro One noted that they have sent this to the appropriate team member for investigation and someone will be in touch.
2020-11-06	Email	Hydro One emailed a member of the public and thanked them for their email regarding route refinement 3. Hydro One noted they have sent this to the appropriate team member for investigation and someone will be in touch.
2020-11-06	Email	Hydro One emailed a member of the public to thank them for their email regarding the project. Hydro One noted they are reviewing their comments regarding the potential effects of the route alternatives to their properties, safety and stray voltage, and will get back to them as soon as possible.
2020-11-06	Phone	Hydro One called a member of the public based on an earlier conversation to follow up and speak to their outstanding questions. Hydro One left a voicemail and followed up by email.
2020-11-06	Phone	Hydro One called a member of the public to inform them they passed along their comments and to inform him the Independent Electricity System Operator has events in which they can participate. The member of the public indicated they only have a phone and that a message with the call-in details can be left on his machine.
2020-11-09	Email	Hydro One emailed a member of the public and thanked them for the discussion. Hydro One acknowledged their concerns regarding the route variations and how they may affect their farm. Hydro One provided the link to the interactive map.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-11-09	Email	A local landowner emailed Hydro One and raised concerns with the variation 1B and 1D. They noted that the variation would cut across their farm and they raised several concerns related to farm operation, property value, potential damages and environmental impacts.
2020-11-09	Email	Hydro One emailed a local landowner and thanked them for sending their comments and concerns with the variation 1B and 1D. Hydro One noted they have shared the email with the project team and someone will be back in touch.
2020-11-11	Email	Hydro One emailed a member of the public and provided responses to their earlier questions. This related to the project need and routes, setbacks, the route selection process, land acquisition process and compensation.
2020-11-12	Email	Hydro One emailed a member of the public and thanked them for sending their comments and concerns regarding the project. Hydro One noted that they have been captured as part of the consultation record,. Hydro One also shared details of where they are in the Class Environmental and route selection process, and included the link to the virtual open house.
2020-11-12	Email	Hydro One emailed a member of the public regarding their earlier question and indicated that the route was refined to accommodate certain setback distances from the Highway 401 corridor and interchanges.
2020-11-12	Email	Hydro One emailed a member of the public and thanked them for taking the time to share their comments following the virtual discussion. Hydro One indicated that the new transmission will reinforce the local electricity system, and is expected to improve reliability for homes and businesses including both Hydro One and local distribution customers.
2020-11-12	Email	Hydro One emailed a member of the public and responded to their questions regarding the Class Environmental Assessment, load forecasts and electricity rates.
2020-11-12	Phone	A member of the public called Hydro One and left a voicemail asking if something will be put over their house. Hydro One tried returning the call.
2020-11-16	Email	Hydro One emailed a member of the public and Councillor Latimer regarding Route Refinement 2. Hydro One indicated the refinement changed the way that Route Alternative 1, Variations C/D are angled towards Highway 401. Hydro One also noted that at the outset of the project, they did consider opportunities to parallel the existing transmission line, which runs on the south side of the Highway 401. However, this was not taken forward for further consideration due to existing constraints, such as built-up commercial facilities, woodlots, watercourses, and roads, in the area near Bloomfield Road.
2020-11-17	Email	Hydro One emailed a member of the public regarding Route Refinement 3 and provided the rationale for the route refinement. Hydro One provided the link to the Open House.
2020-11-17	Email	Hydro One emailed a member of the public and responded to their questions regarding tower design, capital cost, rate, visual impacts, the right-of-way and stray voltage.
2020-11-17	Email	Hydro One emailed a member of the public and provided a response regarding their inquiries related to the location of the watercourse, archaeological site and wind turbine for Route Refinement 2.
2020-11-18	Phone	A member of the public returned Hydro One's voicemail regarding the Independent Electricity System Operator. They also inquired about where the power is coming from for this line. It was also noted that the rationale behind the decision to not use the existing railroad track adjacent to the transmission corridor was not clear and they asked why Hydro One does not use their own property. This was forwarded to a project team member for follow up.
2020-11-18	Phone	A resident left a voicemail after the Virtual Live Discussion. The resident indicated they called into the session and left her question there, concerning route refinement #3. They own five properties between Charring Cross Road and Bloomfield, and she indicated this new route refinement appears to be twinned with the existing line.
2020-11-18	Email	Hydro One emailed a member of the public and requested clarification regarding their question.
2020-11-18	Other, specify in the description	Hydro One presented an update on the Chatham to Lakeshore project to the Essex County Council. Following the presentation, the discussion related to the importance of protecting farmland and clarification was provided regarding the construction start.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-11-23	Email	Hydro One emailed members of the public and provided a response to their inquiry about the power supply to feed the Chatham Switching Station.
2020-11-24	Email	Hydro One emailed members of the public and thanked them for re-sharing the letter. Hydro One assured them that their feedback is being carefully considered for the project and they will continue to work with community members. Hydro One informed them that effects to agricultural operations is considered as part of the route alternative evaluation and has been used to establish criteria and to identify measures to avoid, mitigate and/or restore environmental effects. Hydro One provided an overview of the Land Acquisition Compensation Principles and effects to business operations.
2020-11-24	Phone	Hydro One staff spoke with a stakeholder in regards to his question pertaining to whether there are plans to reinforce the system that supplies power into Chatham Switching Station. During this call, it was reiterated that the IESO, as the system planners, assesses the needs and requirements of the broader transmission system to meet current and future needs and is accountable for identifying where, when, and how the bulk transmission system is reinforced or upgraded.
		Hydro One advised the stakeholder that a member from the project team would leave him a message on his phone with the date, time and call-in information to the IESO's November 26th event, as he does not have internet connection.
		Hydro One also addressed and clarified the railway corridor that Hydro One was referencing during their Live Discussion session. The resident was thankful for the clarification and had no further questions on that topic.
2020-11-25	Email	Hydro One emailed members of the public to follow up on their letter regarding the project and their concerns related to potential impacts to their farming operations. Hydro One provided an overview of the Class Environmental Assessment, route alternatives and refinements. Hydro One indicated that they would be happy to set up a call to discuss their questions and concerns further.
2020-11-25	Email	Hydro One emailed a member of the public to follow up on their comments and concerns regarding the project. Hydro One addressed their concerns regarding impacts to property values, farming operations, and stray voltage. Hydro One also provided an overview of the Class Environmental Assessment, route selection process and route refinements and shared the link to the criteria list. Hydro One indicated that they would be happy to set time to further discuss their questions or concerns.
2020-11-25	Email	Hydro One emailed a member of the public to follow up on the comments shared on the project. Hydro One provided an overview of the Class Environmental Assessment and that they will look for opportunities to avoid, protect and prevent damage to environmental features, including soil compaction and drainage, to the extent practical and, where necessary, make repairs. Hydro One also noted that a preferred route has not yet been selected and once a selection has been made, they will continue to work with property owners who have the right of way on their property.
2020-11-30	Email	Hydro One emailed a member of the public and thanked them for sharing their concerns. Hydro One responded to their concerns regarding stray voltage and also confirmed that based on the interactive map, Alternative 1A runs closest to their property. Hydro One provided an overview of the Class Environmental Assessment.
2020-12-01	Email	Hydro One emailed a member of the public and provided clarification on their questions regarding transmission equipment and power. Hydro One noted that there are a variety of sources that generate electricity in this region and that the Independent Electricity System Operator balances the supply and demand of electricity.
2020-12-01	Email	A member of the public emailed Hydro One and thanked them for their response. They noted that they hope two more power lines and towers will not run through their farm properties.
2020-12-01	Email	A member of the public emailed Hydro One and thanked them for their response. They noted that they hope two more power lines and towers will not run through their farm properties.
2020-12-03	Email	Hydro One emailed a member of the public and shared the presentation from the Virtual Open House site as requested.
2020-12-08	Letter	Hydro One received a letter from a community member regarding a virtual information and engagement session that was held by the IESO in November and the Chatham to Lakeshore Line project. In the letter, the community member provides comments on tower easement width and heights, the need for a double circuit transmission line, and transmission of power into the region. Due to COVID-19 restrictions, the mailed letter was received and reviewed at a later date.
2020-12-09	Email	Hydro One emailed a member of the public and provided a response to their question regarding whether upgrading the existing lines was considered. A link with more information about the Independent Electricity System Operator's assessment of electricity requirements was also provided.
2020-12-14	Email	Hydro One emailed members of the public and provided the notes capturing their meeting in October. Hydro One also shared the links to the Virtual Open House and recording of the Live Discussion. Hydro One noted an update on the selection of the preferred route is expected in February.
2020-12-23	Email	Hydro One emailed a member of the public and informed them that the route alternative selection will be selected and announced in the early New Year. Hydro One noted that the project team will inform property owners through mail and through the project contact list.

General Public - Record of Consultation

Date	Type of communication	Summary
2020-12-23	Email	Hydro One emailed a member of the public and thanked them for following up. Hydro One informed them that based on the feedback received, effects to agricultural operations remains top of mind and is being considered as part of the route alternative evaluation. Hydro One noted they plan to share the selection of the preferred route and the rationale early in the new year.
2021-01-18	Meeting	Hydro One had a virtual meeting with Ontario Greenhouse Vegetable Growers to discuss development in the Essex region and ensuring coordination across utilities.
2021-02-10	Email	Hydro One emailed a member of the public and shared the link to the Open House for further information on the project. Hydro One noted that further information on the preferred route will be shared in the coming weeks.
2021-02-10	Email	Hydro One emailed a member of the public and indicated that further information on the preferred route will be shared in the coming weeks.
2021-02-16	Phone	A member of the public called Hydro One to request an update on when the preferred route would be announced. Hydro One returned the call and informed them that they would be reaching out with an update in a few weeks.
2021-02-22	Phone	A member of the public called Hydro One and informed them that the preferred route goes through their property. They inquired if the preferred route goes up the old railway line or if it will go through their field.
2021-02-23	Phone	A member of the public called Hydro One and requested a detailed map. Hydro One staff followed up by email to provide the map.
2021-02-23	Phone	A member of the public called Hydro One and inquired where the line will cross Bloomfield Road. Hydro One called them back and walked them through the interactive map. The member of the public also inquired whether the line will affect their TV reception.
2021-02-23	Phone	A member of the public called Hydro One and indicated that it looks like Route 2A will goes through their farm. They wanted to know how many towers there will be.
2021-02-23	Phone	A member of the public called Hydro One indicating they emailed a few questions. They also noted that they received the notice for the Virtual Open House and would like to view it. Hydro One followed up with them to confirm that the Open House can be viewed at any time and shared information for the Live Discussion. Hydro One indicated they will respond to their email soon.
2021-02-24	Email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared the map of the preferred route and the invitation to the upcoming engagements.
2021-02-24	Email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Email	Hydro One emailed a member of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.
2021-02-24	Smart email	Hydro One emailed members of the public and provided an update on the project and the selection of the preferred route. Hydro One shared a map of the preferred route and the invitation to upcoming engagement events.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-02-25	Email	Hydro One received an email from a member of the public that they received the notice. Hydro One indicated that if the member of the public has any questions to please let them know.
2021-02-25	Email	Hydro One emailed a member of the public and shared detailed project maps and the link to the interactive map.
2021-02-25	Email	Hydro One emailed a member of the public and provided a response to their question regarding properties impacted by the preferred route. Hydro One shared a screen shot of the area identified and the link to the interactive map and virtual Open House.
2021-02-26	Phone	Hydro One spoke to a property owner who requested more information about the number of towers being placed on their property. Hydro One advised them that they will have further information on tower placement as they enter into the design stage.
2021-02-26	Email	Hydro One emailed a member of the public and provided an update on the project and the selection of the preferred route. Hydro One shared the invitation for the Virtual Open House and Live Discussion, as well as the map of the preferred route.
2021-02-26	Email	A member of the public emailed Hydro One and informed them of the assistance they will be receiving for the proposed line through their property.
2021-02-26	Email	A member of the public emailed Hydro One and informed them that they did not receive an email earlier that week or the notice announcing the preferred route. The member of the public noted their objection to the preferred route.
2021-03-01	Email	Hydro One emailed a member of the public and thanked them for submitting their questions for the Live Discussion. Hydro One informed them that someone will reach out if their questions are not answered during the discussion.
2021-03-01	Email	Hydro One emailed a member of the public and thanked them for their question for the Live Discussion. It was noted that someone will reach out to provide an answer if their question is not asked during the discussion.
2021-03-01	Email	Hydro One emailed a member of the public and thanked them for sharing information. Hydro One noted that real estate representatives will begin reaching out to property owners whose properties will traverse the line. Hydro One inquired if they would like to pre-arrange a discussion with the real estate representative.
2021-03-01	Phone	A member of the public called Hydro One and informed them that they do not want Route 2A to go through their farm. They indicated that the old railway corridor should be utilized.
2021-03-01	Phone	A member of the public called Hydro One and informed them that they have half an acre of land that may be useful for the project or Hydro One in general. The call was sent to another Hydro One staff member for follow up.
2021-03-01	Phone	A landowner called Hydro One to express concern that he had not been contacted directly regarding the selection of the preferred route. Hydro One informed him that Real Estate representatives would be contacting directly affected landowners shortly.
2021-03-02	Email	Hydro One emailed a member of the public regarding their inquiry of the transmission line design. Hydro One indicated that now the preferred route has been selected, they will begin planning for the design. It was also noted that they will work with property owners whose properties traverse the preferred route. The links to the Virtual Open House and Live Discussion were shared.
2021-03-02	Email	Hydro One emailed a member of the public and shared a screenshot of the requested property. Hydro One also shared the link to the interactive map and inquired whether they would like to pre-arrange a meeting with the real estate representative.
2021-03-02	Email	Hydro One emailed members of the public and requested confirmation of address to find their property on a map. Hydro One responded to their question regarding tower placement and noted that with the selection of the preferred route, they will begin planning the transmission line design. Hydro One noted they will be working with property owners and completing property specific environmental and technical studies. Hydro One provided the links to the Open House and Live Discussion.
2021-03-02	Phone	A member of the public called Hydro One and noted their concerns with the line going through their property, their three homes on the farm and a wood lot. They wondered if the line could follow Highway 401 or the railroad corridor. They noted that for virtual events, more time should be allotted to answering questions.
2021-03-02	Phone	A member of the public called Hydro One and indicated they are unhappy with the route selection. They believe the property lines should have been followed more closely and that the Comber area should have been avoided. They noted their concern with safety and operability in relation to farm equipment near towers.
2021-03-04	Phone	A member of the public left a voicemail with Hydro One after sending an email. They informed Hydro One that the preferred route will be close to their home and that they feel as though they have not been part of the route selection process. Hydro One will follow up by email.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-03-05	Email	Hydro One emailed a member of the public, and thanked them for their email and voicemail. Hydro One requested they re-send their questions as the message seemed to be cut off.
2021-03-05	Email	Hydro One emailed a member of the public regarding their question and noted that they will follow up with the project team and get back to them.
2021-03-05	Phone	A member of the public called Hydro One and indicated that they heard of this project through Facebook, and asked what options exist for individuals who live close to the line. The member of the public noted that they are not in favor of the line's close proximity and have concerns with electric and magnetic fields and potential impacts to property values. Hydro One returned the call and followed up by email with maps, project information and an invitation to the Live Discussion.
2021-03-08	Email	Hydro One emailed a member of the public and informed them that their concerns have been shared with the project team and someone will be in touch to discuss them soon. Hydro One shared detailed maps of the preferred route, the links to the project website and interactive map, and the invitation to the upcoming Virtual Open House and Live Discussion.
2021-03-08	Email	Hydro One emailed a member of the public regarding the Open House materials. Hydro One requested a screenshot of the materials as seen on their end in order to confirm technical issues. Hydro One informed them that they will send a PDF package of the materials to read. Hydro One inquired if they had any interest in organizing a meeting with the project team and their neighbours to discuss the project.
2021-03-08	Phone	Hydro One spoke to a property owner regarding their concerns on the selected route's effects to farming operations, land features and farming equipment. Hydro One provided further information on the route selection process and criteria that was used to inform the selection. Additional questions and concerns were also raised on future maintenance, impacts to tile drainage and utilizing the old railway corridor and following property lines.
2021-03-08	Phone	A member of the public left a voicemail with Hydro One and they indicated that there is a hydro line behind their property. They inquired about the height and setback of the new line and if this will affect their home.
2021-03-08	Phone	A member of the public called Hydro One to request a map be faxed to them.
2021-03-08	Phone	Hydro One spoke with a member of the public regarding the selection of the route alternative. They indicated they were unable to view the Virtual Open House materials and Hydro One informed them that they will send a PDF version. The compensation model was also discussed.
2021-03-09	Email	Hydro One emailed a member of the public and thanked them for submitting questions for the upcoming Live Discussion. Hydro One noted that if they are unable to answer the questions during the discussion, someone will reach out to provide an answer.
2021-03-09	Email	Hydro One emailed a member of the public and provided steps to view the Open House materials.
2021-03-09	Email	Hydro One emailed a member of the public and shared a PDF package of the Open House materials.
2021-03-09	Email	Hydro One emailed an appraiser representing their client (property owners) and provided the timeline of when the real estate team will contact the property owners. Hydro One provided information for the upcoming Virtual Open House and Live Discussion.
2021-03-10	Email	Hydro One emailed a member of the public and provided a response regarding their inquiry about TV reception interruption by high voltage power lines. It was noted that it is very unlikely for the TV reception to be interrupted by the high voltage lines. Hydro One informed them that the preferred route has been selected and they will work directly with landowners whose properties the line will traverse.
2021-03-10	Email	Hydro One emailed a member of the public and confirmed that the preferred route traverses their property. Hydro One informed them that they will be reaching out to property owners for an introductory meeting and to review their project land acquisition compensation principles. Hydro One inquired whether they would like to pre-schedule a time for the meeting.
2021-03-10	Email	Hydro One emailed a member of the public and thanked them for submitting questions. Hydro One indicated they have been added to the live discussion queue and if they are unable to answer their questions, someone will reach out to them.
2021-03-10	Email	Hydro One emailed a member of the public to thank them for their questions and indicated that they have been added to the queue for the live discussion. Hydro One noted that if they are unable to answer their questions, they will have someone reach out to them.
2021-03-10	Phone	A member of the public left a voicemail with Hydro One inquiring how to call in for the Virtual Live Discussion. Hydro One returned the call and registered them for the Live Discussion while on the phone call. They noted that they hope Hydro One allots more time to answering questions.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-03-10	Phone	A member of the public called Hydro One to voice their concerns on the proximity of the line to properties, the line going through Comber and its affect on future growth, and the affect of the line on crop land and tile drains. They requested two questions regarding the line design and removal of old towers be added to the Live Discussion. They informed Hydro One they will share a photo.
2021-03-11	Email	Hydro One emailed a member of the public and thanked them for submitting questions for the upcoming Live Discussion. Hydro One noted that if they are unable to answer the questions during the discussion, someone will reach out to provide an answer.
2021-03-11	Email	A member of the public emailed Hydro One and inquired whether local contractors will be used for the project. It was also noted that local materials and equipment rentals allow for the possibility of growth in the communities.
2021-03-11	Email	Hydro One emailed a member of the public and thanked them for submitting questions for the upcoming Live Discussion. Hydro One noted that if they are unable to answer the questions during the discussion, someone will reach out to provide an answer.
2021-03-11	Email	Hydro One emailed a member of the public and thanked them for submitting their additional question for the upcoming Live Discussion. Hydro One noted that if they are unable to answer the questions during the discussion, someone will reach out to provide an answer.
2021-03-11	Email	Hydro One emailed a member of the public and thanked them for submitting questions for the upcoming Live Discussion. Hydro One noted that if they are unable to answer the questions during the discussion, someone will reach out to provide an answer.
2021-03-11	Phone	A member of the public called Hydro One. Hydro One left a voicemail to inquire whether they were able to join the Live Discussion and if not, the recording will be added to the project website.
2021-03-11	Virtual Information Session (VIS)	A Virtual Information Session (VIS) was held on March 11, 2021. A presentation was shared with attendees to provide an update on the selection of the preferred alternative, followed by a Live Discussion.
2021-03-12	Email	Hydro One emailed a member of the public and requested confirmation that their real estate representative has reached out and set up a meeting.
2021-03-12	Email	Hydro One emailed members of the public and thanked them for clarifying whether a meeting has been scheduled. Hydro One informed them that they will follow up with the team and get back to them.
2021-03-12	Phone	Hydro One called a member of the public and spoke of their concerns regarding the line and its proximity to their home, tower placement and electric and magnetic fields. Hydro One advised that Hydro One looks to Health Canada regarding whether precautionary measures are needed. The member of the public asked about the tower location and Hydro One indicated they are now entering into the design phase. The member of the public requested that the tower not be placed directly behind their home but off centre.
2021-03-12	Phone	A member of the public left a voicemail and Hydro One returned the call. They indicated the line does not cross their property but they are worried about property values. They also noted that they have towers and Highway 401 in the area and that they do not need more.
2021-03-15	Phone	A member of the public left a voicemail with Hydro One and Hydro One called them back. They voiced their concerns regarding the proximity of the preferred route to their property, property value, electric and magnetic fields, line noise and disruption to satellite signals. They also asked if Route 2A is the final decision and if it can be changed. Hydro One indicated that a team member would follow up.
2021-03-15	Phone	A member of the public left Hydro One a voicemail requesting to learn more about the new line. Hydro One called them back but the connection was bad. Hydro One attempted to call them back on the new number they provided but there was no answer or option to leave a message.
2021-03-15	Phone	Hydro One staff returned a call from a landowner who had inquired about potential property acquisition. The landowner also brought up a concern regarding an ageing distribution pole and poletop transformer on the property. Hydro One noted that the concern was actioned to the call centre.
2021-03-15	Phone	A resident expressed concerns regarding effects to property values as a result of the new transmission line, and asked about compensation. Hydro One stated that compensation is only being offered to directly affected landowners but that Hydro One would consider other means of addressing local aesthetics where practical. The landowner reiterated his concerns.
2021-03-16	Email	Hydro One emailed Councillor Latimer of the Municipality of Chatham-Kent and a local landowner, and informed them that they will look into sending the hard copy maps as requested.
2021-03-16	Email	Hydro One emailed a member of the public and requested they inform Hydro One whether a scheduled meeting was confirmed.
2021-03-18	Email	Hydro One emailed a member of the public and requested the contact information of the individual so they can look into it.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-03-18	Phone	A member of the public left Hydro One a voicemail following up on an email he sent. Hydro One returned the call and indicated that an emailed response will be provided shortly. The member of the public had additional questions, including when they will receive a Land Acquisition Compensation package, how the route will affect them and whether their land has been surveyed.
2021-03-18	Phone	A member of the public left Hydro One a voicemail and Hydro One returned the call. The member of the public indicated that they would like a detailed and printable map showing lots and concessions. There is a group of residents that would like to look at this map together.
2021-03-18	Phone	A member of the public left Hydro One a voicemail inquiring if they are too close to the line and if they have to move or get bought out. Hydro One returned the call and informed them that real estate reps are just beginning to reach out to landowners and if he had not been contacted he should be soon.
2021-03-19	Email	Hydro One emailed a member of the public and provided a response to their concern related to engagement with landowners. Hydro One noted that they welcome any information that they would like to share with the team and set up a discussion if they are interested.
2021-03-19	Email	Hydro One emailed a member of the public and indicated they can arrange a discussion on the project. Hydro One provided an overview of the consultation for the project.
2021-03-19	Email	Hydro One emailed a member of the public and thanked them for their question. Hydro One noted that a key advantage of the selected route is that it allows them to repurpose almost 16 kilometers of existing infrastructure.
2021-03-19	Email	Hydro One emailed a member of the public and thanked them for sharing the contact information. Hydro One informed them that they will get back to the individual on their questions.
2021-03-22	Phone	A member of the public called Hydro One to request they be removed from the automated calls with updates for the project.
2021-03-22	Email	Hydro One emailed a stakeholder regarding their interest to discuss the route selection and how the route crosses the Comber area. Hydro One indicated they would like to set up a virtual meeting with them and the project team.
2021-03-23	Email	Hydro One responded to an email from a member of the public, and provided responses to their questions. Hydro One wrote that real estate representatives will connect with landowners whose property is traversed by the new line and confirmed that a portion of Route 2A will repurpose an old transmission line. Hydro One provided information regarding the idle transmission corridor and next steps to mitigate potential environmental effects, such as drainage systems and tiles. Hydro One noted that their objective is to mitigate to the extent practical; however, reimbursement for any physical damages as a direct result of Hydro One's work that cannot be mitigated will be provided.
2021-03-23	Email	Bounce back emails were received after attempts to respond. Hydro One emailed a member of the public and provided a response regarding their question. Hydro One indicated that it is unlikely for their TV reception to be interrupted by high voltage power lines.
2021-03-23	Email	Hydro One emailed a member of the public regarding their request for large maps. Hydro One informed them that they will have access to the maps available through Councillor Latimer.
2021-03-23	Email	Hydro One emailed a member of the public and requested availability for a virtual meeting.
2021-03-23	Email	Participant from the First Nation VIS in March sent an email to Hydro One's Indigenous Relations regarding the percent of Indigenous participation in the project and opportunities for Indigenous contractors.
2021-03-24	Email	Hydro One emailed a member of the public and offered to discuss the live presentation and discussion further.
2021-03-24	Email	Participant in the third VIS emailed requesting a contact for archeology studies.
2021-03-25	Phone	Hydro One had a phone conversation with a member of the public and discussed whether the existing towers would be removed from their property and where the new line would run in relation to the towers. Hydro One advised that they do plan to remove the portion of the idle line that the new route utilizes and they would not run north of the existing lines. Hydro One noted they are still in the process of conducting the design.
2021-03-25	Phone	A resident left a voicemail for Hydro One staff and noted that he would call back another time.
2021-03-26	Email	Hydro One emailed a member of the public and shared the link to the recording and presentation for the Virtual Live Discussion.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-03-26	Email	Hydro One emailed a member of the public and provided responses to their questions. This included questions related to the First Nations and Haudenosaunee Culture, Values and Land Use category, property impacts, and the design of the route along property lines. Hydro One indicated that they will be in touch to further discuss the route selection.
2021-03-26	Email	Hydro One emailed a member of the public and provided an overview of the project. Hydro One responded to their questions related to the potential use of the Highway 401 right-of-way, paralleling existing transmission lines and route refinements.
2021-03-26	Email	Hydro One emailed a member of the public and requested further information regarding the long-term research plots. Hydro One responded to their questions related to the selection of the preferred route, paralleling existing transmission line and effects to agricultural operations and land.
2021-03-26	Email	Hydro One emailed a member of the public and responded to their questions. The questions related to the selection of the preferred route, the proximity of the route to their property, setback, studies related to health and safety and property value.
2021-03-26	Email	Hydro One emailed a member of the public and provided responses to their questions. The questions related to the project need and the route alternatives, specifically the consideration of the "do nothing" alternative.
2021-03-26	Email	Hydro One emailed a member of the public and noted that they will confirm with the team about availability for the meeting.
2021-03-26	Phone	Hydro One staff spoke with a resident regarding his concerns with proximity of the line. He indicated that he already faces that 401, and although not a directly impacted landowner, concerned with the effect that this new line would have on his property values.
2021-03-29	Phone	Hydro One spoke with a member of the public regarding their concerns on the project, specifically the selection of the preferred route alternative, loss of property value and potential loss of business contracts.
2021-03-29	Phone	Hydro One left a voicemail with a member of the public to follow up on questions regarding environmental studies.
2021-03-30	Email	Hydro One emailed a member of the public and confirmed that they received their voicemail. Hydro One informed them they are circling back on their questions and comments and will get back to them as soon as possible.
2021-03-31	Phone	A community member left a voicemail to speak with Hydro One. Hydro One to return call.
2021-04-01	Email	Hydro One emailed members of the public and thanked them for their email and for following up. Hydro One informed them that they are looking into their questions and will get back to them shortly.
2021-04-01	Email	Hydro One emailed a member of the public and thanked them for confirming. Hydro One inquired whether they would be able to confirm the other stakeholders who would like to attend the meeting.
2021-04-01	Email	Hydro One emailed a member of the public and thanked them for sharing the attachments. Hydro One informed them that the attachments have been shared with the team and they be back in touch.
2021-04-01	Email	Hydro One emailed a member of the public and requested a call to confirm meeting details.
2021-04-01	Email	Hydro One emailed a member of the public and thanked them for sharing the drawing of the map. Hydro One provided responses to their questions in relation to the feasibility of the corridor, burying the lines and property features. Hydro One offered to set up a discussion.
2021-04-01	Phone	Hydro One returned a call from a member of the public during which they informed Hydro One they are unhappy with the route selection as it bisects their homes and woodlot. The member of the public noted that there are migrating songbirds and foxsnake in the area and that they have concerns about the virtual consultation. Hydro One indicated they can work closely to discuss how to mitigate effects to their property. The property owner indicated that he has questions regarding the Class Environmental Assessment specific to their property, and Hydro One advised them that they will get back in touch with further information.
2021-04-01	Phone	A resident called the Hydro One Community Relations Line that he received information from his neighbour that anyone within 100 m will be bought out as a part of this project. He indicated that he does not want to move. Hydro One staff advised him that the line does not intersect his property and would not be required to relocate as a part of this project. The resident was happy to hear that.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-04-02	Phone	Hydro One called a member of the public to speak to them about their question on whether the route would change. Several voicemails were left during follow up calls.
2021-04-06	Phone	Hydro One spoke with a member of the public regarding an upcoming meeting and discussed details and attendees.
2021-04-06	Phone	A member of the public called Hydro One and indicated they have shared a number of construction related concerns with their real estate representative. They inquired whether the route will be on their property and Hydro One indicated that although they do not anticipate the centerline changing, Hydro One is entering the design phase where tower types and location would be confirmed. Questions related to compensation for property owners not directly impacted by the route was also discussed. The property owner also flagged that towers should be placed on a higher elevation and that property owners should have a contact in the region to support them with issues that may arise during construction.
2021-04-07	Email	Hydro One emailed a member of the public and thanked them for sharing the additional attendee information. Hydro One noted that the invitation will be sent shortly.
2021-04-07	Phone	A member of the public left Hydro One a voicemail and Hydro One returned their call. The member of the public noted their support for Route 2A and wanted to discuss the possibility of the route changing.
2021-04-07	Meeting	Hydro One met with property owners, a local developer, local Councillors, and the Ontario Federation of Agriculture to discuss the route selection in the Comber area. The discussion included reviewing the route evaluation process and the development of the criteria and weighting based on input from stakeholders. Residents and local developer requested that Hydro One refine the route to follow an existing transmission line north of Highway 401. Hydro One indicated they will get back to attendees regarding the request to refine the route.
2021-04-08	Meeting	Concerns related to community notification, impacts to future development, and health and safety were discussed. Hydro One noted that further information on the Municipality's future plans and would be beneficial. Councillors indicated they will follow up with staff. Hydro One had a meeting with a property owner, as well as representatives of the Ontario Federation of Agriculture, Councillor Latimer and a community representative, to discuss the route selection for the project and effects to their property. Hydro One spoke to the two route refinements proposed by the property owner, as well as questions related to compensation, routing, tower infrastructure and electric and magnetic fields.
2021-04-08	Phone	Hydro One staff returned a resident's phone call to discuss the Chatham to Lakeshore Line route selection. The resident was concerned with the close proximity of the route to his community. The resident indicated that he was concerned with impacts to property values and electric magnetic fields (EMF). Hydro One provided further information with respect to visual effects and EMF. Hydro One indicated they would provide more information regarding health and safety in an email with some additional resources.
2021-04-09	Email	Hydro One emailed a member of the public and provided a response to their questions in relation to the Lakeshore Switching Station. Hydro One included a map of the station for their reference, as well as the link to the project.
2021-04-09	Email	Hydro One emailed a member of the public and provided a response to their question regarding local contractor opportunities. Hydro One offered to share the contact information of a local contractor interested in opportunities during the construction.
2021-04-09	Phone	Hydro One staff called a local resident in the Comber area to discuss concerns that the resident had raised over the preferred route for the Chatham to Lakeshore project. Hydro One gave a brief overview of the Class Environmental Assessment process conducted to date, and how considerations such as effects to agricultural operations and natural environment features had been important considerations in the route evaluation. Hydro One also explained that as these criteria were applied across the entire length of each route, the preferred Route 2A was among the best in these factors overall. Other topics of discussion included other potential refinements to the route that had been proposed by residents, Real Estate process, and potential mitigation and restoration options for vegetated areas on the property.
2021-04-09	Email	The resident expressed that he and others in the area still opposed the preferred route, but was appreciative of the outreach and discussion. Hydro One emailed members of the public and provided responses to their questions related to the live presentation and discussion session, property acquisition next steps, proximity of the line and property values.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-04-09	Phone	Hydro One staff called a resident who's contact information had been provided by Councillor Harrigan, who had received concerns from the resident. Hydro One staff left a message.
2021-04-12	Email	Hydro One emailed a member of the public regarding their inquiry. Hydro One informed them that their questions have been shared with the project team and they will get back to them shortly.
2021-04-13	Email	Hydro One emailed the Ontario Federation of Agriculture and a local landowner and provided an update regarding a follow-up response to an inquiry.
2021-04-13	Email	Hydro One emailed members of the public in response to their comment. Hydro One informed them that they have sent the email to the project team and that someone will get back to them as soon as possible.
2021-04-14	Email	Hydro One emailed a member of the public and informed them that a Hydro One staff member will reach out to them regarding their questions by the end of the week.
2021-04-14	Phone	A member of the public left Hydro One a voicemail asking for details on the distance of the line from their house.
2021-04-14	Phone	Hydro One tried returning a member of the public's call and left a voicemail.
2021-04-15	Email	Hydro One emailed a member of the public and provided a response regarding their concern with interference from powerlines to TV reception. Hydro One noted that they do not anticipate any issues with the TV reception. Hydro One shared the contact information for a technician to investigate potential interference problems.
2021-04-15	Email	Hydro One emailed a member of the public and shared a screenshot of their property from the interactive map. Hydro One provided an overview of the location of the current and existing line and next steps for construction and design. Hydro One requested if they would be available for a call to discuss the tree on their property.
2021-04-15	Email	Hydro One emailed a member of the public and provided a capacity calculator link. Hydro One also responded to their question regarding increased capacity for net-metering.
2021-04-15	Email	A member of the public emailed Hydro One and thanked them for the information, noting that this was the assurance they were hoping for.
2021-04-15	Meeting	Hydro One Real Estate staff met with representatives from the OFA and one landowner along the preferred route. The discussion centered around Hydro One's Land Acquisition Compensation Principles (LACP).
2021-04-16	Email	Hydro One emailed a member of the public and responded to their questions. The questions related to health and safety concerns, the selection of the route and the local study area.
2021-04-16	Meeting	Hydro One and MPP Nicholls had a meeting with a member of the public to discuss their concerns with the new transmission line. Hydro One staff spoke to health and safety questions, and indicated that health agencies and many reputable scientific organizations around the world have concluded that the scientific research does not demonstrate that electric and magnetic fields cause or contribute to adverse health effects. During the meeting, Hydro One also addressed questions related to property values and visual impacts.
2021-04-16	Meeting	Hydro One and MPP Nicholls had a meeting with members of the public to discuss their concerns with the new transmission line. Residents requested the route be refined and shifted to the north to follow another transmission line and Hydro One indicated they would provide a response on this request.
		Residents also expressed concerns with effects to agricultural operations, effects to vegetation and electric and magnetic fields (EMF). To which Hydro One provided additional information on compatible versus incompatible vegetation, and that health agencies have concluded that the scientific research does not demonstrate that EMFs cause or contribute to adverse health effects. A question was also asked about the potential to bury the transmission line, to which Hydro One replied that this was not a viable option for the Chatham to Lakeshore project.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-04-16	Meeting	Hydro One and MPP Nicholls' office had a meeting with members of the public to discuss their concerns with the new transmission line. Their concerns related to property impacts, crossing types, tower locations, project need, the use of the old railway and construction impacts. It was also noted that there is concern from residents regarding the route selection and an inquiry was made about the possibility of changing the route. Hydro One clarified that the existing transmission lines north of the 401 and west of Tilbury were in fact not idle. They also stated that they could provide some information from the analyses previously done to assess the former rail corridor that determined it was not a viable option for the new transmission line route.
2021-04-16	Meeting	Hydro One and MPP Nicholls' office had a meeting with members of the public to discuss their concerns with the new transmission line. Their concerns included crossing types, tile drainage, municipal drains, tower placement/height, impacts to agricultural operations and businesses, equipment operation and safety and project need. The project team was also asked about using the old railway, revising the line and switching route alternatives.
2021-04-19	Email	A member of the public emailed Hydro One and thanked the Hydro One team for the virtual meeting. The member of the public identified a conservation woodlot and data related to long-term land uses as areas of concern.
2021-04-20	Email	Hydro One emailed a member of the public and confirmed that their questions have been received and have been sent off to the project team. Hydro One noted that the project team will be in touch with answers as soon as possible.
2021-04-20	Email	A member of the public emailed Hydro One with their contact details for a call.
2021-04-21	Email	Hydro One emailed a member of the public and followed up on an earlier conversation with information on electro-magnetic fields. Hydro One provided a link to Health Canada for more resources.
2021-04-21	Phone	Hydro One had a phone conversation with a member of the public regarding their concerns with recent vegetation maintenance on their property. Hydro One advised they would look into the work and get back to them with further information. The member of the public also inquired about whether they would be directly impacted by the line and if the current line on their property will be removed. Hydro One provided clarification regarding the lines.
2021-04-23	Email	Hydro One emailed a member of the public and provided a response to their questions. The questions related to the repurposed section of Route 2A, electric and magnetic fields (EMFs) and tower design/removal. Hydro One provided links to EMF resources.
2021-04-23	Email	Hydro One emailed a member of the public and provided responses to their questions related to property setbacks, route variations and compensation.
2021-04-23	Email	Hydro One emailed members of the public and provided responses to their questions related to healthy and safety and proximity to residents.
2021-04-23	Email	Hydro One emailed a member of the public and provided responses to their questions related to compensation and tower height.
2021-04-25	Email	Hydro One emailed a member of the public and noted the information provided in the previous email has been shared with the team members who were on the call.
2021-04-26	Email	Members of the public emailed Hydro One and noted that they believe the portion of the line is too close to a residential area.
2021-04-26	Email	A member of the public emailed Hydro One and shared sketches of proposed route diversions to other areas.
2021-04-28	Phone	Hydro One had a follow up call with a member of the public regarding their email about the route's distance from their home and a concern pertaining to property values. Hydro One provided further information that they are compensating directly impacted landowners for Hydro One to build and host new infrastructure on these lands. The member of the public asked for a tower to be located further from their home, and Hydro One advised that this will be shared back with the team for consideration in their design process.
2021-04-28	Email	Hydro One emailed a member of the public and informed them that a project team member will reach out with a response to their questions later that day.

General Public - Record of Consultation

Date	Type of communication	Summary
2021-05-07	Email	Hydro One emailed a member of the public and thanked them for sharing the article regarding safe proximity to transmission lines. Hydro One offered to set up a discussion with them and the Hydro One Health and Safety Manager to discuss their concerns, and shared resources to Health Canada and the World Health Organization. Hydro One added that the lines are designed according to the Canadian Electrical Code which accounts for public safety.
2021-05-14	Email	Hydro One emailed a member of the public and indicated they have been informed the Hydro One forestry technician has met with the member of the public and further discussed their concerns.
2021-05-27	Email	Hydro One emailed a member of the public and shared a letter providing a response to their concerns related to the location of the selected route through Comber, impacts to future development and impacts to agricultural lands.
2021-05-27	Email	Hydro One emailed a member of the public and shared a letter providing a response to their concerns related to the location of the route through Comber, impacts to future development and specific features of their property, including an existing woodlot.
2021-05-27	Email	Hydro One emailed a member of the public and shared a letter providing a response to their concerns related to the location of the selected route through Comber, impacts to future development and impacts to agricultural lands.
2021-05-27	Email	Hydro One emailed a member of the public and shared a letter providing a response to their concerns related to the location of the selected route through Comber and impacts to future development.
2021-05-27	Email	Hydro One emailed a member of the public and shared a letter providing a response to their concerns related to the location of the selected route through Comber, impacts to future development and impacts to agricultural lands.
2021-05-27	Email	Hydro One emailed a member of the public and shared a letter providing responses to their concerns related to the location of the selected route through Comber, impacts to future development and impacts to agricultural lands.
2021-05-27	Email	A member of the public emailed Hydro One and provided a comment on refining the route to avoid Comber.
2021-05-28	Email	Hydro One emailed a member of the public and informed them that the attached letter in the previous email outlined Hydro One's analysis and findings of the diversions suggested north of Highway 401. Hydro One reattached the letter.
2021-05-31	Email	A member of the public emailed Hydro One regarding the letter dated May 27, 2021, and provided comments on their concerns related to impacts to future developments and a woodlot. It was requested Hydro One evaluate the suggestion to stay north of Highway 401.
