

# LEASIDE TO MAIN

## INFRASTRUCTURE REFURBISHMENT PROJECT

Dear Resident,

June 2019

We are writing to provide you with an update on Hydro One's Leaside to Main project. As you may be aware, Hydro One is continuing work to install a new underground cable between our Main Transformer Station (TS) and Lumsden Junction (Jct) to ensure a reliable supply of electricity to local customers.

Beginning next Wednesday, June 26, we are moving into the final stage of construction which involves connecting sections of cable together inside the joint bays. We are required to install two splicing (connection) huts to splice the cable in a clean and controlled environment. To accommodate these activities, we will be required to reinstate the curb-to-curb closure on a 24/7 basis. During this time driveway access for homes in front of the joint bays will be restricted and Main St. between Doncaster and Lumsden will be open to local traffic only.

### WHAT TO EXPECT DURING CONSTRUCTION: UPDATE 6

 <b>Weekday Hours</b>	Work will take place Monday-Friday, 7:00 a.m.-5:00 p.m. (work may extend past these hours in special circumstances)
 <b>Traffic Management</b>	Through traffic on Main St. between Doncaster Ave. and Lumsden Ave. (adjacent to the joint bay area) will be <b>restricted on a 24 hour basis</b> which we anticipate will extend until late July.
 <b>Noise</b>	You can expect an increase in noise, heavy machinery and activity during construction; however, all work will comply with City of Toronto's by-laws.

### KEEPING IN TOUCH

#### Construction Ambassador

We are pleased to offer the Main St. and Lumsden Ave. community its own Construction Ambassador, Rick Parnell. Contact Rick at: 416-414-9438.

#### If you have any questions about the project please contact:
